NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Academic Information

Notre Dame of Maryland University offers two divisions of undergraduate study: the Women's College and the College of Adult Undergraduate Studies.

Women's College

The Women's College accommodates the needs and interests of women who can study during the day. Traditional students (ages 17 to 24 years old) and adult women 25 years and older, who may be first-time or returning college students, transfer students, residents or commuters, are offered encouragement and direction in an atmosphere that promotes individual growth and development. Although the majority of students study on a full-time basis, students have the opportunity to enroll in the Women's College program on a part-time basis as well. Women's College students can earn the bachelor of arts or bachelor of science degree in 28 major fields of study and a variety of double major and dual degree programs.

Women's College students benefit from an all-women's academic environment, where many students thrive, excelling academically and professionally. Independent research demonstrates students in women's colleges are more engaged in academics than their female counterparts at co-educational institutions, they are more likely to complete a degree in the sciences, and they are more likely to assume leadership positions during their careers.

For more information, call 410-532-5330 or 800-435-0200, email admiss@ndm.edu, or visit ndm.edu/womens-college.

College of Adult Undergraduate Studies (CAUS)

In 2011, Notre Dame launched the College of Adult Undergraduate Studies (CAUS). Utilizing the expertise in adult education developed through more than 35 years of Weekend College programming, and incorporating the flexibility and convenience of the Accelerated College, CAUS brings even more academic options to working professionals seeking personal and career growth through lifelong education.

CAUS programs are based on the reality that adults learn best in an environment that considers

their needs and life responsibilities. Students will find a flexible schedule allowing them to work around other priorities such as employment and home life. With rigorous, high-quality academic programs rooted in the liberal arts, an emphasis on career advancement, extraordinary opportunities for leadership, and attention to ethical and spiritual development, CAUS students experience an education that benefits them intellectually, professionally, socially and spiritually.

CAUS encourages students to learn at their own pace, studying in a variety of formats that include both accelerated courses that run from four to eight weeks and semester-long courses. CAUS offers face-to-face as well as online options, and courses that meet evenings, Saturdays and even weekdays. With four semesters each year, and concentrated sessions in the winter and summer, students may complete as few as three credits per year or as many as 30 credits.

Students may also study in a cohort, a group of 20 to 25 students who advance through the program together and ultimately graduate together. Cohorts take one course at a time, while studying year round. This cohort structure provides an embedded support system that keeps each adult student motivated toward degree completion. Classes meet the same day and time throughout the program, as professors use a proven curriculum emphasizing experiential learning that is relevant to today's workplace issues.

CAUS offers nine Majors and a variety of Minors, as well as several Certificate programs. Baccalaureate programs in Business, Education and Nursing are offered through the cohort model. Students may also pursue a bachelor's degree outside the cohort model in Business, Computer Information Systems, Corporate Communication, Criminology, Education, Liberal Arts, Religious Studies and Radiological Sciences.

Cohorts are conveniently hosted at several locations: the main campus on Charles Street, the Northeast Maryland Higher Education Center in Harford County, the Eastern Shore Higher Education Center, Arundel Mills and Arnold in Anne Arundel County, Laurel College Center in Prince George's County, College of Southern Maryland–Prince Frederick Campus and employer worksites.

For information on the College of Adult Undergraduate Studies, call 410-532-5500, email caus@ndm.edu or visit CAUS online.

Academic Advising

Women's College: During the first year, a faculty member who concentrates on understanding the needs of new students advises incoming students. When the Women's College student declares a Major, a faculty member in the Major field is assigned as the academic advisor. An academic advisor helps the student plan the Program of Study and approves course selection. Women's College students confer with a faculty advisor before each registration period. Women's College students are encouraged to meet with their academic advisor at least once each semester in addition to the mandatory meeting before Registration.

College of Adult Undergraduate Studies (CAUS): When the student declares a Major, an enrollment manager/advisor is assigned. This advisor helps students plan their Program of Study and approves course selection. CAUS students should confer with an academic advisor each semester.

NOTE: Ultimately it is the responsibility of the student to plan, register for and successfully complete the courses required for the Program of Study.

Academic Clemency

Academic Clemency is designed for students seeking readmission after an extended absence and whose Cumulative Grade Point Average (CGPA) at NDMU at the time of departure was less than a 2.0. The program provides eligible students the opportunity to renew their studies at the NDMU by beginning their cumulative academic averages anew. The program is available to all undergraduate students who attend NDMU in matriculated status, then do not take Notre Dame classes, either matriculated or non-matriculated, for a period of five consecutive calendar years (10 academic semesters).

The decision to declare academic clemency must be made at the time of re-admission and can be claimed no more than once. Prior to requesting academic clemency, students must show evidence of academic progress by providing passing grades in at least 12 college credits completed at another institution.

For those students who elect to participate, they will lose credit for every previous NDMU course they accrued in which a grade below “C” was obtained. Credits earned in courses in which grades of “C” or above were obtained will be retained as “Previous NDMU Credit” and will be treated the same as transfer credit (grade points are not used in the calculation of Cumulative Grade Point Average). No courses and/or grades will be removed from the transcript of participating students; however, their NDMU CGPA will begin “anew” upon their return. Student transcripts will have specific notations for those courses removed as a result of declaring Academic Clemency.

For additional requirements or questions about declaring Academic Clemency, please contact the Registrar's Office at registrar@ndm.edu.

Academic Clemency/Renewal at another University

A student who has enrolled at another regionally accredited institution of higher education under an academic renewal plan (e.g., academic amnesty or bankruptcy) may be considered for Academic Renewal at NDMU provided:

1. The academic renewal plan at the previous institution meets all the provisions of the academic renewal plan at NDMU,
2. credits earned since the student entered the program at a previous institution will be evaluated in the same manner as credits for other transfer students, and
3. the petition for Academic Renewal is submitted for approval to The Office of Admissions and subsequently to the student's Academic College.

Academic Standing

Scholastic regulations embody the academic standards of a University. The application of the following regulations is directed toward upholding the standards of NDMU - specifically, to impose the requirement of satisfactory academic progress. Continuation of students who have demonstrated a lack of the necessary ability, preparation, industry, or maturity to make such progress and to benefit from a Program of Study is inconsistent with the purposes and responsibilities of a University.

The academic regulations set forth the conditions for Academic Good Standing, Academic Probation, and Academic Suspension/Dismissal. These regulations are intended to be consistent with the following objectives:

1. To indicate to the student, at an early date and with regularity, that achievement below the standards required for graduation is regarded as unsatisfactory.
2. To allow the first-time freshman the opportunity to remain a student until he/she has attempted two enrollments.
3. To give the student who performs poorly a warning which may prompt him or her to seek timely help from instructors, counselors, or other appropriate sources.
4. To provide the student whose record shows that ultimate success in the University is in doubt with a trial period to prove that he/she is able to make reasonable academic progress.
5. To prevent the student who lacks the required motivation or maturity from building a deficiency of quality points so great that it cannot later be overcome.
6. To state the standards and the consequent results of inadequate scholastic performance clearly enough that students, parents, faculty, and administrators can know the academic action (if any) which would follow from a particular academic record.

Students' academic records are reviewed each semester. A student's Cumulative Grade Point

Average (CGPA) determines their Academic Standing at the end of each semester.

Academic Good Standing

It is expected that all undergraduate students should maintain a Cumulative Grade Point Average (CGPA) of at least 2.0 on all college work attempted and on all work attempted at NDMU. The University will, however, certify a student to be in Academic Good Standing as long as that student has a Cumulative Grade Point Average (CGPA) that does not result in an Academic Suspension or Indefinite Academic Suspension.

Academic Probation - General

A student who does not meet University standards for Academic Good Standing will be placed on Academic Probation. The purpose of Academic Probation is to provide students who are experiencing academic difficulties with intentional support and supervision to achieve success and gain Academic Good Standing.

A student will be placed on Academic Probation when their Cumulative Grade Point Average falls below a 2.0. Students placed on Academic Probation are required to meet with their Assistant Dean to develop an Academic Contract for Success, which will include referrals to academic support resources and participation in academic support programs.

Students placed on Academic Probation are required to:

- Meet with the Assistant Dean on a regular scheduled basis, including at the beginning, midpoint, and end of the semester,
- create and submit an Academic Contract for Success outlining the student's goals for the upcoming semester. The Academic Contract for Success includes a semester Term Grade Point Average goal of at least 2.0, as well as a goal for Cumulative Grade Point Average, determined in consultation with the Assistant Dean, and
- attend academic support services as agreed to in the Academic Contract for Success.

A student on Academic Probation who does not comply with these requirements will be Academically Dismissed (see Academic Suspension/Dismissal).

Academic Probation - Full-Time Students

Students' academic records are reviewed each semester.

Academic Standing is based on the student's Cumulative Grade Point Average (CGPA) at the end of the fall and spring semesters.

Academic Probation students who meet the terms of their contract and achieve minimum Cumulative Grade Point Average standards as agreed to in the Academic Contract for Success

regain Academic Good Standing. Academic Probation students who make progress according to the terms of their Academic Contract, but who still fall below the Cumulative Grade Point Average requirements for Academic Good Standing are placed on Continuing Academic Probation for one additional semester. Normally, students are placed on Continuing Academic Probation for only one semester. Students who fail to regain Academic Good Standing after a semester on Continuing Academic Probation, or who do not meet the terms of their Academic Contract, will face dismissal. Notification of Academic Probation and Dismissal will appear on the student's transcript.

A student on Academic Probation must be in compliance with the terms of the Academic Contract for Success in order to declare a Major. Permission of the academic advising counselor is required to declare a Major.

Students receiving financial aid are required to achieve a minimum Cumulative Grade Point Average of 2.0. Please refer to the financial aid section of this Catalog for detailed information about the satisfactory progress requirements for financial aid recipients.

Academic Probation - Part-Time Students

Part-time students must maintain a 2.0 Cumulative Grade Point Average to Remain in Academic Good Standing. Students whose Cumulative Grade Point Average falls below 2.0 will be placed on Academic Probation status. Students on Academic Probation will be given three semesters (in which they register for a course) to raise their Cumulative Grade Point Average to a 2.0. Failure to do so will result in Academic Dismissal.

Students on Academic Probation must confer with an academic advisor before registering. Notification of Academic Probation and Academic Dismissal will appear on the student's transcript.

Academic Suspension (one term)

Undergraduate students on Academic Probation will be suspended for one term (excluding Summer) at the conclusion of any semester in which they fail to comply with their Academic Contract or do not earn a Cumulative Grade Point Average of at least a 2.0. First-time freshmen admitted in Academic Good Standing will not be suspended prior to the completion of two semesters of enrollment.

Academic Suspentsion/Dismissal (Indefinite Academic Suspension)

Undergraduate students earning a second Academic Suspension at NDMU are placed on Indefinite Academic Suspension/Dismissal which will be for a period of one calendar year from the date of the last term in which the academic action was accrued. Any student who is not permitted to re-enroll for continuing semesters must apply for re-admission upon completion of the

prescribed period of absence. Prior admission decisions will not guarantee re-admission to the University.

Academic Suspension or Indefinite Academic Suspension/Dismissal - Readmission

A student who has been suspended or dimissed from the University will not be permitted to register until the expiration of their academic action (see descriptions above). The student must re-apply for Admission to the University throught the Office of Admissions.

Advanced Standing or Credit by Examinations/Opportunities

General

Students of superior ability and preparation and students who have already gained fundamental knowledge of subjects offered at the University may be permitted to take Advanced Standing Examinations in specific courses which, if passed satisfactorily, will enable the student to receive degree credit. Advanced Standing Examinations are also referred to as 'Credit Examinations'.

Requests for permission to utilize such examinations are initiated in the Office of the Dean of the College, School, or Division in which the student is enrolled, and permission may be given subject to the following conditions:

1. Credit by Advanced Standing Examinations cannot be used to reduce the University's minimum residence requirement,
2. the student must have been admitted to the University and must be in Academic Good Standing. If the examinations are taken while the student is not enrolled in the University, credit will be granted when he/she is registered for resident study,
3. in requesting authorization to take an Advanced Standing Examination, the student must obtain permission from the Chair of the Department offering the course and the Dean of the College in which the course is taught, and
4. a student may not take an Advanced Standing Examination in a course which he/she has audited, nor in which a grade has been earned. A student may take an Advanced Standing Examination in a given course only once.

The administration of the examinations is also subject to the following regulations:

1. The examination must ordinarily be taken and the grade submitted within 30 days of the date of initiation of the request,
2. if a grade of C or higher is earned on the examination, a mark of P and regular credit in the course is entered on the student's record. If a grade lower than C is earned, only the fact that the examination has been attempted will be recorded; credit will not be allowed. Credit earned through Advanced Standing Examinations will not be used in computing the student's Grade Point Average,

3. Advanced Standing Examinations are given free of charge to the student planning to enroll at NDMU as a freshman, and until the final date for dropping courses without receiving grades for the first regular semester in which she/he is enrolled either part-time or full-time as a first-year student. All other students must pay a fee of $300 per course.

A special, invitation-only program is conducted during the spring of each year in which prospective freshmen who meet certain minimum ACT score qualifications come to the campus and take Advanced Standing Examinations in one or more subjects. There is no fee for these exams and credits earned will be entered on the student's record after official enrollment at NDMU.

Advanced Placement Credit for Courses Bypassed by New Freshmen

In some departments, initial placement in sequential courses is based upon level of achievement from earlier training, as measured by scores on American College Testing Program, Accuplacer, or departmental tests. Students who secured placement in this way, above the normal beginning level, may petition for credit in the courses bypassed contingent upon earning a satisfactory score on the departmental bypass test. No credit is allowed for remedial courses bypassed. More information is available on the department sites. Completion of assessment for bypass credit must be completed prior to earning 60 academic credits.

Advanced Standing - CEEB Advanced Placement (AP) Examinations

Advanced Placement (AP) and Credit will be granted in appropriate subjects to students who have taken the Advanced Placement Examinations of the College Entrance Examination Board. When the student has achieved a grade of four (4) or five (5) on the Advanced Placement Examination, credit will be granted; when the grade is three (3), the decision regarding credit will be referred to the judgment of the individual department.

Questions concerning the recording of these grades should be directed to the Office of Admissions.

Advanced Standing - Credit Limitation

Credit from all forms of advanced standing examinations (including those of the College Entrance Examination Board and the College Level Examination Program) and from bypass credit cannot exceed 30 hours. This credit cannot be used to reduce the University's minimum residence requirement.

Advanced Credit - CLEP, ACE, IB (Other)

Advanced Credit may be awarded for certain subject examinations completed through the College Level Examination Program (CLEP), International Baccalaureate Program, American Council on Education and for non-collegiate courses recommended for credit by the National Guide to Credit Recommendations for Non-Collegiate Courses. Credit so earned may or may not be applicable to

the student's Program of Study; final determination will be made by the student's Dean. Prospective students desiring detailed information on these programs are advised to write to the Office of Admissions requesting a brochure on advanced placement and credit.

Advanced Standing - Validation of Advanced Placement

The validity of placement must be established by passing the next course in the sequence with a C or better grade (on the first attempt). Detailed information may be secured at the office of the college or division in which the student is enrolled.

Appeals – Student (General)

When extraordinary circumstances compel a student to request an exception to University Policy or Regulations, the student must petition the Committee for Student Appeals, a standing committee of the Office of Academic Affairs, for exception.

1. Requests for exceptions must be made within one semester following the end of the semester that is being appealed.
2. Students may not petition for exceptions after graduating.
3. All Committee procedures are confidential, respecting the privacy of the student.
4. Committee decisions are final.

For more information, contact the Office of the University Registrar.

Appeals - Final Grades

Reasons for Appeal

Only final grades may be appealed. A final grade may be appealed if there is evidence that the grade was not given in accordance with the grading policies set forth in the course syllabus or announced syllabus modifications.

The principle of seeking a reasonable, fair, and speedy resolution prevails throughout the process. All information related to the appeal and the appeals process will remain confidential.

Process for Final Grade Appeal

1. When a student wishes to appeal a final grade, the student must write to the faculty member setting forth the basis for the appeal, evidence documenting the alleged discrepancy between the syllabus grading policy and the grade received, and the remedy sought. The student should also submit a copy of the appeal materials to the Department Chair, or in the case of an interdisciplinary (IDS) course, to the Director of the program in which the course is offered. The appeal must be made within two weeks of the official posting of grades on WebAdvisor. The faculty member will respond in writing to the student's appeal within two weeks.

2. If not satisfied with the faculty member's response, the student may, within two weeks of the response, appeal to the Department Chair or Program Director. The student makes the appeal in writing, setting forth the basis for disagreement with the faculty member's response. The Chair or Program Director informs the Dean of the School delivering the course. The Chair also informs the faculty member of the student's appeal and obtains a copy of the course syllabus and the faculty member's written response to the student. The Chair then reviews the written record. The Chair writes a response, including a report on the steps taken in the review process. The written response of the Chair is sent to the student, the faculty member, and the Dean within two weeks of the conclusion of the review process.
3. If not satisfied with the response made by the Chair, the student or faculty member may appeal in writing within two weeks to the Dean of the School delivering the course. The Dean then asks for a written statement and a copy of all relevant materials. Within two weeks of receiving the appeal, the Dean forwards his or her decision in writing to the student, the faculty member, and the Department Chair. The decision of the Dean is final.
4. If a grade change is authorized, the Registrar will be directed in writing by the Dean to make the change in grade.

Appeals - Academic Dismissal

In the event that a student is Academically Dismissed from the University, notification of the decision will be sent by certified mail to the priority address on file in the Registrar's office. Upon receiving the notice of impending Academic Dismissal, the student may appeal within seven days of receipt of the notification. A committee composed of the Vice President of Academic Affairs and four faculty members hears the appeal. The decision of the Committee is final.

Attendance Regulations

Students

All students are expected to regularly and punctually attend classes in which they are enrolled. Failure to do so may jeopardize a student's scholastic standing, financial aid, and may lead to suspension from the University.

Students are responsible for the effect absences have on all forms of evaluating course performance. The student is responsible for arranging the allowed make-up of any missed work.

Faculty

Faculty are required to state, in writing, their expectations regarding class attendance in the syllabus. Faculty are also required to verify attendance each semester upon request from the Registrar's Office for financial aid compliance.

Faculty are expected to work with students to allow for completion of classwork and assignments

if the student's absence results from his/her required participation in a University-sponsored activity provided that, prior to the absence, the student makes arrangement to complete all missed work.

Students are usually allowed to make up work and/or tests missed because of serious illness, accident, or death in the immediate family. Faculty are required to make accommodations when specified by an ADA Letter, whether the disability is permanent or temporary.

Online

Students are required to log in to each online course by the second day of the week in which the course officially begins or the day of enrollment during the late registration period to complete the initial postings required in the course. Failure to log in within the first 72 hours of the course may result in the student being withdrawn from the course.

Students must review the attendance requirements of the course in which they are enrolled.

Students are strongly advised to check their NDMU e-mail daily in addition to logging in to the course on a regular basis.

Catalog Year

General

The maximal period of time for which the provisions of any Catalog may be considered valid is seven years. Students who began a degree program seven or more years prior to the date of their anticipated graduation must consult their academic dean to determine which Catalog must be followed.

The University will make a reasonable effort to honor the requirements in the student's Catalog Year. However, because courses and Programs of Study are sometimes changed, the university shall make the final determination of whether or not degree requirements are satisfied.

Catalog Year for degree seeking students

Degree-seeking students (new and transfer students) must adhere to the requirements for an undergraduate degree based on the University Catalog at the time of entry into the University. This Catalog may be used for a maximum of seven years provided enrollment is not interrupted for two or more consecutive regular semesters not including summer sessions.

Catalog Year for re-entry degree seeking students

Degree-seeking students whose enrollment is interrupted for two or more consecutive semesters must reapply to the university and follow the requirements in the catalog at the time of readmission.

Catalog Year for transfer students with a Maryland Community College Transfer Associate Degree

Degree-seeking transfer students who have completed a Maryland Community College Transfer Associate Degree may use the University Catalog in effect at the time of their first entry into an approved Maryland Community College. The transfer to NDMU must be made within three years of their first entry into the community college and provided enrollment has not been interrupted for two or more consecutive regular semesters not including summer sessions.

Catalog Year – Changing Catalog Year, changing Major within a School, or changing Schools

NDMU students changing from one Major to another (Changing Major within a School or changing Schools) must meet the requirements in the Catalog in effect at the time of the Major change.

Students may change their Catalog Year or Major at any time; however, after the term has begun (the first day of classes), the change of Catalog Year or Major will be made effective for the next available term. All changes must be declared at least one semester prior to the expected graduation term.

Catalog Year - Adding a Major, Minor and/or Concentration

Students will not be allowed to change their Program of Study/Major for the current term. The current term begins on the first day of classes. Students may change their Program of Study/Major at any time; however, after the term has begun (first day of classes), the change of Program of Study/Major will be made effective for the next available term. All Major, Minor, Concentration or Option changes must be declared at least one semester prior to the expected graduation term. Additional Majors or Minors can be dropped at any time

Changing Catalog Year

Students will not be allowed to change their Catalog Year for the current term. The current term begins on the first day of classes. Students may change their Catalog Year at any time; however, after the term has begun (the first day of classes), the change of Catalog Year will be made effective for the next available term. All Catalog Year changes must be declared at least one semester prior to the expected graduation term.

Classification - Student Class

Classification of undergraduate students is made in the Office of the Registrar based on the number of credits earned, and is revised, as may be necessary.

The rules governing the classification of undergraduate students are:

1. Freshmen: Students having fewer than 30 hours of credit (0 – 29.99).

2. Sophomores: Students having at least 30 hours of credit (30 – 59.99).
3. Juniors: Students having at least 60 semester hours of credit (60 – 89.99).
4. Seniors: Students having at least 90 semester hours of credit (90+).

Code of Student Conduct

Please refer to the following link: NDMU University Student Handbook.

Communication

Primary communication at NDMU is through assigned email. Every student is given a NDMU email account. All NDMU email can be auto-forwarded to a personal email account. Directions on how to do this are available at portal.ndm.edu. Important information is regularly sent to students via their NDMU email. All students are expected to become familiar with University policies, deadline dates, and information posted in various publications, on our website, and through informational emails sent to student accounts.

Students should refer to this Catalog, WebAdvisor, and the NDMU Homepage for important information regarding registration, graduation application dates, policies/procedures, online payment options, news, and updates from the University community.

Contact Information

Students are responsible for accurately maintaining their demographic contact information via the University's web portal – WebAdvisor. The University considers each student's school/NDMU email address as the official, formal contact point. All official university correspondence will be sent to this address. Students should further maintain their physical addresses via WebAdvisor as there are periodic occasions when students will be contacted via United States Postal Service. The University will consider all correspondence mailed to a student at their email or physical address currently on file to have been received unless it is returned to the sender.

Consortium Agreements

Academic Exchange

Through an exchange program with Loyola University, full-time NDMU students with sophomore, junior, and senior status may register for Loyola regular program courses only, on a space available basis, during the fall and spring terms. Students register on the home campus using a co-op registration form; no additional fees are charged. First-year students are not eligible to participate in the consortium.

Full-time matriculants at Notre Dame may apply as concentrators at Loyola University if they wish to Major in a Program of Study not available at Notre Dame.

In addition, NDMU has cooperative arrangements with Johns Hopkins University, Maryland Institute College of Art, Coppin State University, Morgan State University, Towson University, and Goucher College. The program allows a full-time NDMU student with sophomore, junior, or senior status to register, on a space-available basis, for one course per semester at any of these institutions. It is the student's responsibility to verify the start date and time of the consortium course.

Students must be enrolled full-time at NDMU to be eligible to participate in this exchange.

Online Consortium of Independent Colleges and Universities

Notre Dame of Maryland University is a member of the Online Consortium of Independent Colleges and Universities (OCICU) partnership, which allows adult part-time students to enroll in some courses offered online. Students complete the registration process through Notre Dame and are awarded Notre Dame credits upon successful completion of the course. Students should consult their academic advisor for more information on OCICU courses.

Course Policies - General

Class Size

Classes at NDMU may be as small as seven and seldom larger than 30 students. Small class size is a great advantage for both students and faculty. Each student is heard, and ideas and opinions are explored. Professors get to know students as individuals and the learning environment is enriched.

Class Attendance

Consistent class attendance and participation are essential to academic success. Students are expected both to attend class and to contribute to discussions and group activities. A student who is absent misses an important educational experience and detracts from the experience of others. In the College of Adult Undergraduate Studies, attendance is expected at all class meetings. Specific policies about the relationship between class attendance and course grades are established by departments and faculty and are explained in departmental handbooks and course syllabi. Students enrolling in online courses are required to initiate activity in the course within the first 72 hours of the start of the enrollment period/semester or risk being withdrawn. Courses taught online may require some time on campus. Students should familiarize themselves with university, departmental, or course (traditional vs. online) policies before the beginning of the semester and plan accordingly.

Students are advised children are prohibited from attending classes with them. Though the University is sensitive to the needs of parents and the potential for difficulties in providing child care, the campus is not to be used as a playground for children while the parent is attending

class. The University denies any liability for injuries sustained by children playing on campus while the parent or supervising adult is in class.

Final Examinations

Examinations are scheduled at the end of each term. Exam dates are listed on the Registrar's Office page. Students are expected to take exams at the scheduled times. A student who is absent from an examination without instructor approval may receive a grade of zero for the final examination which could result in a grade of “F” for the course. In case of illness or other unforeseen circumstances that could prevent a student from taking final examinations at the posted time, the student must contact the instructor and make individual arrangements to reschedule in advance of the exam.

Grading

Grades represent the instructor's evaluation of a student's achievement in the course. Each letter grade is ascribed a meaning and a numerical value (grade points) as follows:

Grade		Grade Points
A	Excellent	4.0
B+	Superior	3.5
B	Above average	3.0
C+	Average	2.5
C	Satisfactory	2.0
D	Just passing	1.0
E	Danger of failing *(Given only at mid-semester)*	
F	Failure	0.0
FN***	Failure —incomplete work and/or "stopped" attendance in class	0.0
FX***	Failure — non-attendance in class and failure to officially withdraw	0.0
W	Official withdrawal	0.0
I	Incomplete*	0.0
P	Passed**	0.0

** An Incomplete becomes an F if not resolved within the designated time frame; see Incomplete Grades below for more information.*
*** See Pass/Fail for more information.*
**** The grades of FN and FX will no longer be used after Spring 2018.*

The Grade Point Average (GPA) is calculated by dividing the total grade points earned by the number of credits attempted (exclusive of any Pass grades). Transfer or withdrawal credit is not calculated in the Grade Point Average.

Grade Reports

Students can access their grades through WebAdvisor as soon as they are posted by faculty and officially verified by the Registrar's Office. Students may request a hard copy grade report by emailing registrar@ndm.edu.

Incomplete Grades

A semester officially ends at the close of the examination period. An Incomplete grade (I) can be granted only for reasons beyond the student's control and under the following circumstances:

• The request must be made by the student to the instructor. It is the instructor's decision to accept or deny the request,
• the student request must be based on a serious illness or emergency preventing the student from completing the work for the course, and
• the student must have satisfactorily completed at least half the coursework at the time the Incomplete is requested.

Incomplete grades at the end of the term in which they are accrued are calculated as if the grade earned is "F." It is imperative students move prudently to clear any incomplete grades as they will negatively impact the student's Grade Point Average.

The final determination of the Incomplete grade is the responsibility of the instructor. It is the student's responsibility to submit all the required work to the instructor so that a grade may be provided by the due date, which is typically mid-term in the following 15-week semester. Cohort students must follow the policy in the CAUS Handbook regarding the completion requirements for incomplete course grades. Work not submitted to the instructor on time will result in the grade being converted to an “F.” Instructors will submit the final grade to the Registrar.

Students are advised not to carry an Incomplete grade from one semester to the next semester. If personal circumstances/emergencies necessitate a student carry more than one course with an Incomplete grade, the University reserves the right to limit the number of credits the student may take in the succeeding term. In such reviews, a student may be precluded from registering or be

limited to part-time status until the Incomplete grade(s) is resolved. An Incomplete grade cannot be removed through re-registration for the course or through “credit-by-examination.”

Pass/Fail Grade

A student may choose to take one graded elective course in any semester for a Pass/Fail grade with a maximum of four Pass (P) grades which can be used for graduation. A Pass grade for the course is not computed in the student's grade point average, but the credits earned are counted as credits toward graduation; however, a Fail (F) grade for the course will be included in the student's grade point average. In order to graduate with Honors, a student may not carry more than four courses with Pass grades. (Petitioning for credit, standardized testing and transfer credit are not counted toward this limit.) Notification of the choice to take a course for a Pass/Fail grade must be filed with the Registrar before the end of the Drop/Add period. The Pass/Fail option is irrevocable.

Audit

Students may choose to audit a lecture course if they wish to broaden their academic exposure but do not need to take the course for credit. Students must register for audited courses, which appear on the student's official transcript but carry no academic credit. Notification of the choice to audit a course must be filed within the Registrar's Office before the end of the Drop/Add period. Courses taken as audit carry the same credit cost as a course taken for a grade. The decision to audit a course is irrevocable. Students cannot receive financial aid for audited courses and audited courses do not count toward the credits required for a full-time load for financial aid purposes.

Credits and Semester Hours

Notre Dame of Maryland University confirms its commitment to quality learner experiences as well as compliance with regulations put forth by the Department of Education (DOE), Middle States Commission on Higher Education (MSCHE), the Maryland Higher Education Commission (MHEC), and Maryland discipline specific standards for all academic courses offered at Notre Dame of Maryland University, including those offered through the Women’s College, College of Adult Undergraduate Study, and the Graduate School.

Policy

NDMU awards academic credit to students who demonstrate they have met the learning objectives and outcomes specified in a course syllabus during the term of the course. Assurance that academic courses fulfill the workload expectations outlined in this policy is the responsibility of the faculty course developers and the Chair or Dean to whom the faculty reports.

Definitions

Credit-Hour

A credit-hour is an amount of work represented in the learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter-hour of credit, or the equivalent amount of work over a different amount of time, or
2. at least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, online instruction, and other academic work leading to the award of credit hours.

NDMU follows the Carnegie unit of measure for assigning credits to undergraduate and graduate academic courses: One hour of 'faculty-directed instruction' (instruction provided by a faculty member, may be live or online) is no less than 50 minutes long. To earn one "credit- hour" in a traditional 15-week semester, an NDMU student must receive at least 50 minutes of direct instruction and spend 100 minutes preparing for each session of direct instruction, per week for 15 weeks.

An equivalent amount of work is required in accelerated or compressed-term courses and other academic activities where classroom instruction is not the primary mode of learning, including online courses, hybrid courses, laboratory work, independent study, internships, practica, and studio work. See Table 1.

Table 1

		Minimum student engagement/ prep. Time
Credits	**Hours**	**Hours**
1	12.5	25
2	25	50

3	37.5	75
4	50	100
5	62.5	125
6	75	150

Faculty-Directed Instruction

Direct instruction is defined as faculty lead or assigned activities that lead to student learning. This may include but is not limited to traditional lecture, facilitating seminars, giving feedback on individual or group projects, reflection/feedback of student work, feedback on group work, individual or group project feedback/facilitation, reviewing drafts of papers, or projects and other activities that engage the students in learning the material. This description will be noted in the course syllabus.

Student Preparation Time

Students are expected to prepare for faculty instruction at a ratio of two hours per every one hour of instruction as noted above in Table 1. This expectation will be noted in the course syllabus. This is any activity the student does to prepare for engagement and assessment of the course. Activities include reading, researching and writing for papers, developing projects, practicing techniques and skills, and other activities that engage the students in learning the material.

Online Courses

All distance education courses (i.e. online, hybrid, blended) align with the credit hour policies and definitions stated above. Distance education course learning objectives, assignments, and assessments are comparable to in-seat courses and require at least as many hours of study and provide the same rigor and, thus, result in the same credit hours awarded upon completion.

Application of Federal Credit-Hour Policy to NDMU Instruction

Accelerated Sessions: Courses offered within the standard 15-week semester in which the credit hours offered are the same as standard semester courses. The content and substantive learning outcomes are the same. These courses have the required 2250 contact minutes, and/or meet in hybrid format.

Lecture/Seminar: Course focuses on principles, concepts or ideas, lecture, discussion, and demonstration. A semester credit hour is earned for fifteen, 50-minute sessions of direct faculty instruction and a minimum of two hours of student preparation time outside of class per week

throughout the semester. A typical three-credit hour course meets for three, 50-minute sessions or two, 75-minute sessions a week for fifteen weeks. Most lecture and seminar courses are awarded 3 credits.

Laboratory: Practical application type courses where the major focus includes “hands on” experience to support student learning (use of equipment, activities, tools, machines generally found in a laboratory). 1- 2 Laboratory credits represents a minimum of 1 hour per week of lecture or discussion plus a minimum of 2 – 4 hours of scheduled supervised or independent laboratory work.

Internship/Field Experience: Courses developed for independent learning and the development and application of job related or practical skills in a particular discipline. These courses allow for observation, participation, and fieldwork, and are generally offered off campus. Internship time includes a combination of supervised time by approved experts outside the university, student assignments, and time supervised by a university instructor. A 3 credit internship equals a minimum of 150 hours.

Practicum/Student Teaching: Courses developed for independent learning and the development and application of job related or practical skills in a particular discipline. These courses allow for observation, participation, client evaluation, fieldwork, and are offered off campus. Internship time includes a combination of supervised time by approved experts outside the university, student assignments, and time supervised by a university instructor. Practicum/Student Teaching hours comply with professional accreditation (ACEN/NCATE requirements).

Clinical Placement: Supervised experiences where students are afforded an opportunity to apply skills and techniques acquired from assessment and intervention-oriented course material. The number of hours varies by academic program based on clinical placement, accreditation requirements, site hour requirements, and student assignments.

Independent Study: Courses that permit a student to study a subject or topic in considerable depth beyond the scope of a regular course. Students meet periodically, as agreed upon with the faculty member for the duration of the course. University faculty provides guidance, criticism, and review of the student’s work. Students demonstrate competency through the completion of a final assessment either by submitting a final paper, project, or portfolio, etc. as required by the faculty member. Credit hours are assigned based on the amount of activity associated with the course, faculty supervision, and amount of student outside work. Credits conform to the standard minimum of 50 minutes of student work per credit hour, per week, for the course of the term or the semester. For a 15-week semester, this would be equal to 112.50 hours for a 3-credit independent study.

Thesis/Dissertation: Courses, where students are working on independent projects such as thesis/dissertation, will conform to the standard minimum of 50 minutes of student work per credit hour, per week, throughout the course of the semester or the equivalent amount of work distributed over a different period of time. For a 15-week semester this would be a minimum of 112.50 hours for a three-credit course.

Hybrid: A course that is composed of both online learning and classroom learning to meet the learning objectives of the course is considered hybrid. In a hybrid course, approximately half of the course is scheduled as face-to-face, and 49% or less of the course is to be scheduled as online. For a three-credit 15-week course, up to 76.50 minutes (1.275 hours) a week are scheduled face-to-face and up to 73.50 minutes (1.225 hours) per a week are scheduled online equaling a total of 150 minutes of instruction per week.

Online: Approved online courses must demonstrate instruction and student learning through interactive methods to include tutorials, group discussions, virtual study/project groups, discussion boards, chat rooms, etc. Credits hours assigned to a course delivered online must equal the number of credit hour equivalency for the same course delivered face-to-face. Quality Matters standards for the design and delivery of online courses are used in online course development and approval.

Credit for Armed Services Courses

Many military educational programs are not directly usable in university degree programs because the focus is too narrow and pragmatic. On the other hand, some service schools provide instruction which may be equated with university work.

When the student presents the Office of of the University Registrar with an official record of completion of a course at a service school, a notation will be made on the student's evaluation sheet in accordance with the recommendation of the Guide to the Evaluation of Educational Experiences in the Armed Services prepared by the American Council on Education. Credit for such courses may or may not be applicable toward the student's degree program; this will be determined by the student's Dean.

Credit for Experiential Learning

The University does not evaluate experiential learning portfolios. However, for non-traditional educational programs, credit may be awarded on the basis of the successful completion of an appropriate advanced standing examination. Discretion for giving such an examination belongs to the individual academic department. In addition, formal education programs sponsored by non-collegiate organizations (business, industry, government, voluntary, and professional agencies)

may be awarded credit if recommended by the American Council on Education.

Credit Limitation

Combined credit from Advanced Standing Examinations, bypassed credit, armed services credit, correspondence/extension, and American Council on Education recommended credit work cannot exceed 30 hours.

Visiting Students

NDMU allows individuals to enroll as non-matriculants in a non-credential-seeking status. These are students who have not been formally admitted to the university as credential-seeking candidates but who are registered for courses either part-time or full-time, for academic credit, or for audit. These individuals may accrue no more than a total of 18 academic credits. Non-matriculants in all undergraduate Programs of Study are not eligible for financial aid. Non-matriculants in specified, approved graduate Programs of Study (certain Certificate Programs of Study) are eligible for financial aid; however, students should consult with their Academic Advisor and the Office of Financial Aid for further details.

Non-matriculants must apply to NDMU upon completion of no more than 18 credits.

Credit for Repeated Courses

A student must repeat any required course in the Major or General Education Requirement she/he fails. With the written permission of the Associate Vice President for Academic Affairs, a student may also repeat a non-required course (Other/elective) in which she/he has earned a grade of D or F.

A course may be repeated only once. Only the higher grade will be counted in the student's cumulative GPA, and only the credits for the most recent attempt for the course will be counted toward the credits needed for graduation. However, both grades appear on the student's official transcript. The repeated course must be taken at NDMU.

A student who has earned a "C or better" in a course may not repeat that course unless,

1. The Catalog description indicates that the course may be repeated for credit, or
2. the student's Dean gives prior approval for documented extenuating circumstances.

Credit from Other Institutions

Through the Office of Academic Affairs, the University Registrar, and the Vice President for Enrollment Services share responsibility for the admission of transfer students and the acceptance of transfer credit as applicable toward the degree at the NDMU.

Please see Graduation Requirements – Residency.

Undergraduate Admissions

An undergraduate transfer applicant should request each college or university she/he has attended to send a transcript to the Office of Admissions. Upon receipt of all transcripts, the previously earned credit is reviewed and a Cumulative Grade Point Average is determined for purposes of admission. Once admission has been determined, those credits are then evaluated for application toward those courses making up the degreed Program of Study. NDMU will only apply the credit earned from the transferring institution and not the quality points of the credit earned from the transferring institution toward the calculation of the NDMU Cumulative Grade Point Average (CGPA) used in the calculation of Satisfactory Academic Progress.

Office of the University Registrar

Courses evaluated by NDMU for credit earned from regionally accredited institutions will carry the grade earned at the institution where the courses were taken if the grading system used is comparable to NDMU's grading system. However, credits earned at foreign colleges and universities will carry the grade of "P." Technical and vocational credits are not accepted, credits for varsity sports, or credits from non-accredited institutions are not accepted. Transfer students should become familiar with sections of this Catalog concerning the grading system, course repeat policy, and other academic regulations.

Students must submit Official Transcripts to NDMU for evaluation for the acceptance of transfer credits from other institutions no later than mid-semester of the succeeding term in which they enrolled/earned this credit. Failure to submit Official Transcripts to NDMU for evaluation later than the succeeding term could result in students being required to complete these credits at NDMU.

The extent to which any transfer courses may be applied toward a degree at NDMU is determined by the Academic Dean of each College. A transfer student may complete requirements for graduation in the NDMU Catalog in effect at the time of initial enrollment unless the student elects to change to another curriculum or there is a break of one semester or more in attendance at NDMU.

Students who wish to transfer credits to NDMU which were earned in a nontraditional manner (i.e., College Level Examination Program Subject or General Examinations, Advanced Placement, or Departmental Examinations) will have these evaluated by the Office of Admissions, through the Office of Academic Affairs. Credit will be granted for Departmental Examinations and College Level Examination Program Examinations if the course(s) are listed on the student's official transcript with a passing grade or the equivalent and are within the policies for credit at NDMU. Advanced Placement credit will be given in areas in which NDMU normally grants such credit.

Transfer students who have question(s) concerning their transfer evaluation may request a review of the evaluation by their academic dean, their department head, the Director of Admissions, and/or the head(s) of the department in which the course(s) are offered at NDMU. Requests must be made in writing to the Director of Admissions and must list the specific course(s) in question. The student may be required to furnish course descriptions and may be required to appear before the appropriate college or department personnel.

In order to facilitate a more efficient transfer of courses among public colleges and universities, the Maryland Higher Education Commission has established a Master Course Articulation Matrix. This matrix indicates transfer equivalences of courses among Maryland's public college and universities, and may be accessed through the MHEC webpage. It remains, however, the prerogative of the receiving institution as to whether a course will count toward a particular Major, whether a particular grade is required, or whether the course will satisfy General Education Requirements. Students should therefore always contact NDMU prior to transferring courses.

Credit from other institutions – Limitations on Community or Junior Colleges

All academic hours earned at a community or junior college will be posted on the NDMU transcript upon the student's transfer. However, the maximum number of hours transferable from a community or junior college for degree credit is sixty-eight. Only under specific, defined agreements will credit earned at a community or junior college be articulated at the upper division level (300 or 400 course level). NDMU will only apply the credit earned from the transferring institution and not the quality points of the credit earned from the transferring institution toward the calculation of the NDMU Cumulative Grade Point Average used in the calculation of Satisfactory Academic Progress.

Cumulative Grade Point Average

A student's Cumulative Grade Point Average (CGPA) is calculated by dividing the total number of quality points earned by the total number of semester hours attempted.

Declaring Majors, Minors, Concentrations, and Options

Students must declare an academic Major by the time they earn 45 credit hours. Transfer students must declare an academic Major within one semester of enrolling in the University.

Students who choose to pursue a Minor, Concentration, or Option must declare the Minor, Concentration, or Option at least one academic semester prior to the semester in which they intend to graduate.

Majors

Candidates for the baccalaureate degree major in a specific field of study. First-time students in

the Women's College are admitted as undeclared and declare a Major before the end of the sophomore year. Transfer students in the Women's College and College of Adult Undergraduate Studies (CAUS) students generally declare a Major when they are admitted.

Students may pursue degrees in the fields of study below listed. Students in the Women's College may also enroll in pre-professional programs in Dentistry, Engineering, Law, Medicine, Pharmacy or Veterinary Medicine as part of an appropriate Major or a dual-degree Program of Study. In addition, a Women's College student may plan a personally designed Major in consultation with appropriate Chairs and with the approval of the Associate Vice President for Academic Affairs. Requirements for the Major fields of study are listed in their respective sections of this Catalog. Not all Majors are offered in both Women's College and CAUS.

Double Major

Students in the Women's College may pursue a Double Major through the Sister Mary Meletia Double Major Program, which provides highly motivated, goal-oriented students with the opportunity to complete a Double Major in four years. The Program is named in honor of Sister Mary Meletia Foley, the first Dean of Notre Dame, whose wisdom and initiative were largely responsible for making Notre Dame the first Catholic college in the United States to award the baccalaureate degree to women. In keeping with that legacy, the Sister Mary Meletia Program provides the challenge of broad interdisciplinary studies to students who are driven toward academic rigor and challenge.

The Meletia Double Major Program allows students to enhance their learning by completing two Programs of Study and helps them to gain cross-disciplinary knowledge and practical experience essential to success. Students in the Meletia Program will be assigned two advisors, one in each majoring department; both Majors should be declared by the completion of students' second year at Notre Dame.

The Meletia Program offers several routes to completing a Double Major. Students may combine any two fields of study and take the required courses for each Major. Students may also choose from among pre-planned Double Majors which have been designed to offer a more streamlined and focused curriculum. Carrying a Double Major limits the number of general electives students are able to select and, in some cases, may require more than 120 credits for the degree. For more information on the Program, please consult the academic advising counselor.

Declaring a Major

A full-time student frequently declares a Major in the spring semester of the first year or in the fall semester of the sophomore year. To ensure sufficient time for completing the degree requirements, it is recommended that a full-time student declare a Major *before* registration for the spring semester of the sophomore year (completion of 45 credits).

Part-time students and most transfer and adult students declare a Major during the admission process. To ensure sufficient time for completing the degree requirements, it is required that CAUS students declare a Major upon completing 18 Notre Dame credits. A cumulative GPA of 2.0 is required to declare a Major. Changes or additions to the declared program require an academic advisor's signature and must be processed using the proper form.

Students may obtain Declaration of Major forms from the Registrar's Office or the CAUS Office, and return completed forms to the Registrar's Office for processing. The Declaration of Major form must also be used to make changes or additions to the declared Program of Study.

The Chart Your Course Program, offered to students in the Women's College, is designed for students who are exploring which Program of Study stimulates their greatest interest and is most compatible with their aptitudes and abilities. Each student works with the academic advising counselor to develop a personalized package of tools and resources to help her select a Major. Depending on the needs of the student, the package can include major exploration workshops, career interest inventories, internship and volunteer opportunities, academic support services, individualized and group counseling sessions, and alumna networking.

Minors

Minors are available in various fields of study. Normally, a minimum of 18 credit hours is required; of these, no more than 9 credits can be transfer credits. Not all Minors are offered in both Women's College and CAUS.

Declaring a Minor

If a student desires to declare a Minor, that declaration should be made before the completion of 90 credits. A student who intends to declare a Minor should have confirmation from the appropriate department that it is possible to complete all courses listed on the Declaration of Minor form. Full-time students should be able to complete all of the courses by the anticipated graduation semester without adding an unnecessary burden to the academic course load—for instance, having to exceed 18 credits in the fall–spring semesters. The form for declaring a Minor is available in the Registrar's Office or the CAUS Office.

Notre Dame reserves the right to decline a full-time student's request to declare a particular Major, second Major and/or a Minor. This situation might occur when the student cannot complete the needed courses in accordance with University policies prior to the anticipated graduation date. Students must declare all Majors/Minors *before* their final semester to ensure completion.

Second Degree Program

The second bachelor's degree program is designed for students who have perviously earned a bachelor's degree and wish to seek a second degree in a new academic field. To receive a

second bachelor's degree, students fulfill the following requirements:

• Hold a bachelor's degree from an accredited four-year college (90 credits from the first degree will be applied to the second bachelor's degree),
• fulfill the Major requirements of the department chosen for the second bachelor's degree,
• earn a minimum of 30 credits in graded coursework toward the second degree at Notre Dame, and
• maintain a Cumulative Grade Point Average and a Major Grade Point Average of 2.0.
Departments may designate courses within the Major in which students must receive a minimum grade of C.

Certificate Programs

Certificate Programs of Study consist of a specific sequence of courses leading to the awarding of a Certificate of Completion. Students must be admitted to and enrolled in a Certificate Program at least one term prior to the term in which the credential is to be awarded.

Degree Requirements

General

In accordance with Middle States Commission on Higher Education standards (MSCHE), NDMU organizes undergraduate degree requirements into three categories: 1) General Education (Core) Requirements, 2) Other (elective or prescribed elective) requirements, and 3) Major requirements.

- General Education courses are mandated by the Maryland Commission on Higher Education (MHEC) and should generally be taken at the Freshman and Sophomore level. Specific requirements related to general education courses are explained in more detail within the Catalog.
- Other coursework requirements vary according to the degree pursued. In general, courses in this category include college-specific requirements for the Program of Study, program-specific requirements for the Program of Study, and elective courses that serve as a prerequisite for other courses included in the Major requirements of the selected program of study.
- Major requirements comprise a minimum of 25% of the total credit hours required to complete the Program of Study although each Program of Study determines the number of credit hours required in this category. This category of degree requirements consist of a specified group of courses in a particular discipline(s) or field(s). A minimum of 50% of the courses included in the Major requirements must be at the 300+ level. A minimum of 50% of the credit hours used to satisfy the Major requirements must be taken at NDMU.

Major requirements may include a Concentration or Option, depending on the specific Program of

Study addressed. A Concentration is an alternative track of courses within a Major or Option, accounting for at least 30% of the Major requirements. An Option is an alternative track of courses within a Major, accounting for 50% to 80% of the Major requirements. Specific requirements for the Concentrations and/or Options offered at NDMU may be found in the degree requirements explanation for a specific Major.

Students pursuing a Major cannot earn a Minor in the same field simultaneously or subsequent to the Major, if it has been previously earned. Similarly, students pursuing a Minor cannot earn a Major in the same field simultaneously or subsequent to the Minor, if it has been previously earned.

Some degree Programs of Study include additional requirements such as satisfactory performance on one or more assessments, licensing examination scores, completion of an internship or capstone experience, or other elements included in the Program. Specific requirements may be found in the appropriate section of the catalog describing a specific Major.

A student graduates under the General Education Requirements and Major Requirements that are in effect at the time of matriculation (see Catalog Year).

Degree Requirements - Student Responsibilities

Students are expected to familiarize themselves with the Undergraduate Catalog and satisfy all published degree requirements. Failure to do so does *not* provide a basis for exceptions to academic requirements or policies. Students will receive assistance from advisors, but students must assume full responsibility for completing published degree requirements.

Students must fulfill the following requirements:

- Complete a minimum of 120 credits in the areas of General Education studies, Other (elective) requirements, and Major requirements,
- earn a minimum of 30 credits in graded coursework at NDMU. This policy applies to all students, including transfer students. To earn Honors at graduation, students must complete a minimum of 60 credits in graded work at NDMU. This excludes all credits earned in Pass/Fail courses including internships, petitioning for credit and standardized testing,
- earn their final 30 credits in coursework at NDMU,
- maintain a minimum CGPA of 2.0 in all courses taken to complete the requirements of the Major. Departments may designate courses within the Major in which students must receive a minimum grade of C. All transfer students must complete a minimum of five courses in the Major discipline at NDMU, regardless of the number of credits accepted in transfer, and
- complete NDMU-100 First Year Seminar with a passing grade. This graduation requirement applies only to students who matriculate as first-time traditional age students and transfer students who enter with fewer than 12 credits.

General Education Studies

The purpose of General Education Studies is to provide a coherent yet broad intellectual experience of study in the liberal arts tradition. These studies inspire a free spirit of inquiry through observation, analysis and reflection proper to all intellectual work. They encourage the philosophical habit of mind as well as the practice of methodologies of the natural and social sciences; they provide an acquaintance with the historic, aesthetic and philosophic record of human achievement; and they explore the permanent and ultimate questions concerning the nature of person and knowledge, the nature of society and human institutions, and the nature of the natural world and God.

Through the study of the history of ideas, the value of human knowledge, the interrelatedness of the matters and methods of the academic disciplines, and the practice of clear communication and critical thinking, the student is led into the worlds of serious thought and scholarship.

Identification of courses approved for general education studies is an ongoing responsibility of the School of Arts, Sciences, and Business Curriculum Committee. The Catalog and online course schedules indicate the courses that fulfill General Education Requirements.

There is no limit on the number of courses in a student's Major and/or Minor that may also fulfill General Education Requirements, except for Education and Arts, Sciences, and Business Majors.

General Education Learning Outcomes

Refinement of a personal value system: Students will demonstrate a capacity for mature ethical judgments consistent with the Christian tradition.

Integration of the arts and sciences: Students will show evidence of the ability to process and integrate learning from the arts and sciences in a variety of personal and academic endeavors.

Development of a global perspective: Students will give evidence of global, cross-cultural and gender-sensitive awareness and attitudes.

Growth in critical thinking abilities: Students will demonstrate higher level critical thinking skills through the process of gathering, selecting, analyzing, synthesizing, evaluating and applying information and knowledge.

Enhancement of communication skills: Students will demonstrate oral (listening and speaking), written (focusing on content, style, structure and presentation) and visual (producing and/or critiquing images) literacy.

General Education Requirements

To ensure a solid foundation of general knowledge and a broad liberal arts background, NDMU requires students to take approximately one-third of their coursework in general education studies as follows:

Bachelor of Arts

English Composition 3 credits
All students should have fulfilled the English composition requirement before they have completed 30 credits. A minimum grade of “C” is required.

Fine Arts 3 credits
Can be fulfilled in art, drama, film, or music.

Foreign Language 3 credits
One semester of a foreign language at the appropriate level.

History 3 credits

Literature 3 credits
Can be fulfilled in English, modern, or classical language literature courses.

Mathematics 3 credits

Oral Communication 3 credits
A minimum grade of “C”is required in COM-106. Communication Arts Majors are required to take COM-206 Public Speaking.

Natural Science with lab 4 credits (Women's College); 3 credits (CAUS)
Can be fulfilled in biology, chemistry, environmental science, or physics

Philosophy* 6 credits
One 200-level course and one 300-or 400-level course.

Physical Education** 1 credit
Can be fulfilled through a theory or activity course.

Social Science 3 credits
Can be fulfilled in criminology, economics, political science, psychology, or sociology.

Religious Studies* 6 credits
One 200-level course and one 300-or 400-level course.

* *Three of the 12 credits required in philosophy and religious studies must be in values.*

***Students must complete one credit in physical education to fulfill the requirement. Only three credits in physical education (PE) may be applied to the required graduation total of 120. Students who successfully complete one season of intercollegiate sport competition as a member of a Notre Dame athletic team may apply for a one-time waiver or a one-time PE credit toward the physical education requirement.*

Bachelor of Science

English Composition 3 credits
All students should have fulfilled the English composition requirement before they have completed 30 credits. A minimum grade of “C” is required.

History 3 credits

Literature 3 credits
Can be fulfilled in English, modern, or classical language literature courses.

Mathematics 3 credits

Natural and Social Sciences
See requirements under each Major.

Philosophy 6 credits
One 200-level course and one values/ethics* course.

Religious Studies 6 credits
RST-201 and one 300- or 400-level course.

**PHL-339* *Medical Ethics is required for all radiological science majors. Students in the nursing program are required to take a philosophy ethics course.*

Gender studies and cross-cultural studies requirement: As part of the undergraduate degree program, at least one course must be focused on gender studies and one on cross-cultural studies. However, students entering NDMU with an associate's degree are not required to complete the gender studies and cross-cultural studies requirement. Additionally, transfer students who bring in 60 or more credits, but who have not earned an associate's degree, will be allowed to waive the cross-cultural and/or gender requirements provided they can demonstrate they have successfully completed prior coursework with gender and/or cross-cultural components. Applications for waiving the cross-cultural and/or gender requirements are available in the Registrar's Office.

Additional General Education substitutions for transfer students: Transfer students with 60 or more transferred credits may petition to substitute up to two of their transferred courses for

certain NDMU General Education requirements. To request a substitution, students must demonstrate a substituted transfer course covers the material in a Notre Dame General Education Requirement. Students petition for a substitution by identifying a course on their previous transcript that covers the concepts or components of the course for which they are requesting a substitution, and they explain in writing why that course should be allowed to substitute for the required course. Applications for General Education substitutions are available in the Registrar's Office.

- Students may request substitutions for General Education Requirements in the following groups:
  - Group I: Philosophy, Religious Studies, Literature
  - Group II: Oral Communication, Fine Arts, Social Sciences, History
- Students may request no more than one course substitution in either group.
- Students must demonstrate that substituting transfer credits for NDMU General Education Requirement(s) is necessary to ensure on-schedule graduation.
- The substitution must be requested before the end of the student's first semester at NDMU.
- Students may not petition to substitute a course that has already been accepted as transfer credit to fill another General Education Requirement.

Distance/Online Learning

Distance Learning is a formal educational process in which the majority of instruction (interaction between instructors and students) occurs when students and instructors are not in the same physical location. Distance Learning courses may employ the internet, broadcast, audio, video, or recordings. Instruction may be asynchronous or synchronous.

Asynchronous Learning uses online learning resources to facilitate instruction outside the constraints of time and location, meaning students may take courses to accommodate their busy schedules. Asynchronous course content at NDMU is available through Moodle, an open source course management system (CMS). Online degree programs and courses are generally asynchronous.

Synchronous Learning refers to instruction that occurs at a designated class time through synchronous tools such as Adobe Connect, WebEx, Zoom, and Skype. Synchronous instruction requires students to attend online classes on a regular schedule.

To protect the integrity of its educational courses and programs, the University takes measures to ensure a student awarded academic credit is the same student who successfully completes course requirements. Students enrolled in any distance learning course may be required to participate in authentication methods such as a) secure login and pass code, b) proctored examinations, or c) new or other technologies and practices that are effective in verifying student

identification. There may be additional charges associated with proctored examinations or other verification processes. If applicable, this authentication requirement and associated fees will be clearly stated on the course syllabus or registration materials.

To learn more about online learning at NDMU or to view lists of online degree programs and courses, please visit NDMU Online.

Eligibility to Represent the University

No student will be permitted to represent the University unless she/he is classified as a full-time student. Students may participate as members, substitutes, or officers so long as they are enrolled for at least six semester hours unless otherwise indicated by a particular unit or organization. Organizations may include dramatic, literary, musical or other types including Student Government.

Family Educational Rights and Privacy Act (FERPA)

NDMU complies with all guidelines as established in the Family Educational Rights and Privacy Act of 1974 (Public Law 93-380). This Act was designed to protect the privacy of educational records, to establish the right of students to inspect and review their educational records, and to provide guidelines for the correction of inaccurate or misleading data through informal or formal hearings. Students have the right to file complaints with the Family Policy Compliance Office, U.S. Department of Education concerning alleged failures by the institution to comply with the Act.

University policy explains in detail the procedures to be used by the institution for compliance with the provisions of the Act. Copies of the policy can be found on the web.

Questions concerning the Family Educational Rights and Privacy Act may be referred to the University Registrar.

Final Exam - Conflict Resolution

When a student is scheduled for three or more final examinations in one day, the student may request rescheduling of one of the examinations through his/her Dean. If one of the exams is a group final exam, then attempts to reschedule non-group exams should be made first. The Dean, Department Head, and faculty member will make every effort to accommodate the student when such a request is made. Final examinations for classes meeting at times other than those posted by The Office of the University Registrar will be scheduled during the week of finals at a time agreed upon by the faculty member and students. The Office of the University Registrar in conjunction with the Office of Academic Affairs are the final authority should agreements not be reached at the departmental level.

General Education (Core) - Assessment

Educational assessment is the systematic collection, analysis, and use of data related to academic programs. The General Education Assessment is designed to measure the extent to which students have attained those competencies identified by the university. Data collected will be used for program improvement purposes rather than determination of individual student progression through a program of study. Participation in assessment activities related to general education goals is a requirement for all undergraduate students.

Grade Reports

The University reports grades at mid-semester and at the end of each semester for all students. Only the grades reported at the end of the semester (final grades) are used in the computation of the student's Grade Point Averages and Academic Standing. Mid-semester grades are simply an indication of the student's progress and are not calculated in the summer session.

The University does not mail final grade reports. Students may access their grades through WebAdvisor.

Graduation - General

The University holds its Commencement ceremony once a year, usually the last weekend in May. Students completing all degree requirements and filing a graduation application by the due date are awarded their degrees at the end of August and December and in May. All graduating students for the academic year (August, December and May) are invited to participate in the May ceremony.

Graduation Requirements

General

A student must meet all the requirements for a degree in one Catalog. A student is assigned their Catalog (by year) corresponding to their initial enrollment to the University. All degrees at NDMU require a minimum of 120 credits. A student who breaks enrollment (either voluntary or by compulsion) is assigned a new Catalog (by year) upon re-enrollment to the University. A student may elect to change their Program of Study/Major at any time during their academic tenure; the Catalog (by year) in force at the time of the Change of Program/Major will be the Catalog (by year) used to evaluate the student for satisfactory academic progress toward degree and/or graduation requirements. Students may not change their Major, Minor, Concentration, or Option in the term of their graduation.

There are several requirements which must be completed by all students prior to graduation.

The student must:

1. Complete all academic requirements for a degree based on their Catalog. This includes the General Education requirements, Other requirements, and Major or Minor requirements of the particular Program of Study in which the student is enrolled,
2. attain a minimum Cumulative Grade Point Average of 2.0 (note: some Programs of Study require a higher minimum Cumulative Grade Point Average or a minimum Grade Point Average for the Major requirements),
3. ascertain, through the College of the Major, that his/her academic record is accurate and complete. This should be done not later than one semester prior to graduation,
4. submit an application to the Registrar's Office for the degree during the registration period of the last semester in residence. The student will be required to make this formal application and state the exact name to appear on the diploma,
5. pay the diploma fee. A student who has previously paid a diploma fee, but who failed to graduate at the time expected, must re-apply and pay the diploma fee again,
6. satisfy all assessment requirements associated with the student's Program of Study,
7. satisfy all financial indebtedness to the University cleared prior to graduation, and
8. complete an exit interview for Financial Aid, if applicable.

A student who does not follow and complete the above requirements and procedures will not be allowed to graduate.

Graduation - Application

All students must file a Graduation Application with the Registrar's Office to initiate the graduation process. **This application is required irrespective of the student's intent to participate in the Commencement Ceremony.** Filing a Graduation Application will initiate a formal review of credits and requirements by the both the School and Registrar's Office staff.

The completed Graduation Application must be signed by the student's academic advisor before submission to the Registrar's Office. The graduation fee must accompany the Graduation Application before it can be processed.

The deadlines for submitting this Application are as follows:

May Commencement …… October 15

August Commencement …… April 15

December Commencement …… June 15

Failure to submit the Application by the above published deadline will result in postponement of the conferring of the degree until the next graduation period.

The NDMU Commencement Ceremony is held each May. All August and December graduates are invited to participate in May Commencement Ceremony.

A Grade Point Average of 2.0 on a 4-point scale is required for graduation from all undergraduate degree programs and for completion of certificate programs. Diplomas are withheld until the graduate's account is paid in full. Graduates may purchase tams, gowns and hoods at the campus bookstore.

A student with an outstanding financial obligation to the University will not receive their diploma or an official transcript until all obligations have been met.

Graduation - Early Graduation

A full-time student who intends to accelerate the Program of Study and expects to complete the degree requirements in fewer than eight semesters must declare that intention and apply for early graduation by the end of the fifth semester of study. The Major program must be presented to the department chair or academic advisor for review before filing in the Registrar's Office.

Graduation - Honors

Degrees with Latin Honors are conferred to undergraduate students who achieve the following Grade Point Average based on work at Notre Dame of Maryland University:

3.90 for the distinction	*Summa Cum Laude*
3.70 for the distinction	*Magna Cum Laude*
3.50 for the distinction	*Cum Laude*

To earn Honors at graduation, students must earn a minimum of 60 credits in graded coursework at NDMU. This *excludes credits earned in Pass/Fail* courses (including standardized testing, petitioning for credit and transfer). Students are limited to four Pass (P) grades on graded courses.

Because Latin Honors are not conferred until degrees are earned, those honors identified in the Commencement Program are anticipated based on the student's last term prior to the term of their graduation.

Graduation - Commencement Ceremony Participation Policy

Undergraduate students within two courses of completing their requirements toward their degree may ask permission to participate in Commencement. Requesting students must be in Academic Good Standing. They must also demonstrate their remaining coursework can be completed at

NDMU in time to fulfill requirements for August graduation. Students seeking credit through the College Level Examination Program (CLEP), Excelsior College Examinations, NDMU challenge exams or petitioning for any other credit must provide documentation of successful completion of these credits before the end of the spring semester preceding Commencement. Students may not participate in Commencement with CLEP, Excelsior, challenge exam or petitioned credits pending.

Students requesting premission to participate in the Commencement Ceremony before completing graduation requirements must submit their request, along with the Graduation Application, **no later than February 15**. The Associate Vice President for Academic Affairs will consider the request and deny or approve it. No appeal is permitted. For student granted the right to participate, announcement of their names in the Commencement Program will be followed by an asterisk indicating an anticipated, later graduation date. For students granted the right to participate, announcement of their names in the Commencement program will be followed by an asterisk indicating an anticipated graduation. Since Latin Honors are not conferred until degrees are earned, there will be no Latin Honors noted in the Program for students participating in Commencement before degree completion.

Graduation Requirements - Earning two degrees simultaneously at NDMU

Students who wish to earn two baccalaureate degrees at NDMU simultaneously may do so, provided the Majors have different degree designations (e.g., Bachelor of Arts, Bachelor of Science, etc.) and they:

1. Complete all requirements for both degrees,
2. meet all quality point average and grade requirements applicable to both degrees,
3. develop degree plans with both colleges if the two degrees being sought are in different Colleges,
4. meet the residency requirement for each degree Major (typically, the last 30 or 25% of the earned credit hours must be taken at NDMU – students should check with their College for specific requirements), and
5. students cannot declare a Minor in the area in which the other baccalaureate is being earned.

(Any student who receives a baccalaureate degree after completing the requirements for only one Major must comply with the guidelines for a second baccalaureate degree.)

Graduation Requirements - Residency

For all NDMU students, the last 25 percent (typically 30 hours) of all coursework must be taken in residence while enrolled in the College from which the degree is to be earned. A transfer student or a student who enters with advanced standing from another university and becomes a candidate for a bachelor's degree at NDMU must fulfill a minimum residence requirement of two semesters

(or four summer sessions) at NDMU and must earn at least 25 percent of the credit hours required for the degree through instruction offered by the University. A minimum of 50% of the courses included in the Major requirements in a NDMU Program of Study must be taken at Notre Dame University Maryland. No credit earned at a community or junior college may be used for credit at the 300* or 400 course level. Additional restrictions may apply. Students should discuss their Residency Requirements with their Advisor or college Dean's Office.

* unless course is specifically designed as part of an Official Articulation or Memorandum of Understanding between institutions

Graduation Requirements - Second or Subsequent Baccalaureate Degrees

Students who hold a baccalaureate degree from Notre Dame Maryland University or from a regionally accredited institution other than NDMU may earn a second baccalaureate degree by completing thirty semester hours at NDMU that are in addition to the requirements for the first degree and by meeting all other requirements for the second degree. Students may not pursue a degree in a Program of Study in which they have already completed or are currently pursuing a Minor.

Graduation Requirements - Substitutions and Waivers of Degree Requirements

A substitution is defined as a course that is outside of the prescribed curricula that is used to substitute for a course that is within the prescribed curricula. At NDMU, no more than five (5) courses may be substituted at the Major level within a prescribed curriculum.

A waiver is defined as an exception to a required Program of Study component. In addition, some Programs of Study require external benchmarks such as meeting a minimum score on a required test and/or other courses or series of courses to satisfy a particular Learning Objective. Students are encouraged to discuss any deviation of prescribed coursework with their advisor. Waivers of degree requirements must be approved by both the Dean of the College as well as the Office of Academic Affairs. A Waiver does not waive credit hour requirements toward total credits required for Graduation (e.g., 120).

Honor Societies and Dean's List

Honor Societies

Membership in the following honor societies is open to students whose academic performance in the subject area is outstanding.
Alpha Phi Sigma National Criminal Justice Honor Society.
Beta Beta Beta National Biological Honor Society (Alpha Xi Chapter).
Delta Mu Delta National Honor Society in Business Administration (Epsilon Rho Chapter).
Eta Sigma Phi National Classical Honor Society (Beta Kappa Chapter).
Kappa Delta Pi International Honor Society in Education (Phi Xi Chapter).

Kappa Mu Epsilon National Mathematics Honor Society.
Phi Alpha Theta National History Honor Society (Nu Pi Chapter).
Phi Beta Delta International Honor Society (Epsilon Iota Chapter) for promoting international understanding.
Pi Sigma Alpha National Political Science Honor Society (Alpha Delta Nu Chapter).
Phi Sigma Iota International Foreign Language Honor Society (Epsilon Zeta Chapter).
Psi Chi National Honor Society in Psychology.
Sigma Tau Delta National Honor Society in English.
Sigma Theta Tau International Honor Society in Nursing (Mu Eta Chapter).
Theta Alpha Kappa National Honor Society for Theology and Religious Studies.
Theta Sigma Pi Association for Women in Communications, Inc.

Membership in two national Catholic honor societies is open to Notre Dame students, one for juniors and one for seniors. Only those students with a cumulative GPA of 3.5 or higher are eligible for nomination. Membership is determined by faculty vote. These societies are: *Delta Epsilon Sigma* National Scholastic Honor Society (Alpha Delta Chapter) and *Kappa Gamma Pi* National Honor Society for Graduates of Catholic Schools.

Membership in *Alpha Sigma Lambda* (Delta Chi Chapter), a national honor society for continuing higher education students, is open to the top 20 percent of adult matriculants who have completed a minimum of 30 course credits at Notre Dame. At least 12 of these credits must be in the liberal arts/sciences and outside the student's major field. Students must have a cumulative grade point average of 3.5 or higher.

Dean's List

The Dean's List is published at the end of the fall and spring terms and lists those students who have a 3.5 grade point average for the term, a minimum of 12 graded credits with no incompletes or “F”s in Pass/Fail courses and a cumulative grade point average of 3.2 or higher.

The Dean's List published at the end of the summer term lists those part-time students who have a 3.5 grade point average for the year, a minimum of 18 graded credits with no incompletes and a cumulative grade point average of 3.2 or higher.

At Honors Convocation, the University recognizes full-time students named to the Dean's List for both semesters in the previous year and part-time students on the Dean's List at the end of the summer term. Student transcripts show each semester in which this honor is achieved.

Independent Study, Internships, and Academic Service-Learning

Independent Study

Most academic departments allow students to complete an independent study project in their

discipline under the guidance of a full-time faculty member of the department. This project is a serious commitment by a student to explore a topic or area not covered in a course taught at the University. Students with junior or senior status may enroll in an independent study course. Independent study courses require the completion of the Independent Study Authorization Form. The Form is available in the Registrar's Office. The Form must be completed with the details of the project and signatures of the student, faculty supervisor, and advisor. The Form must be submitted with the Course Registration and is subject to the approval of the academic advising counselor.

Internships

Internships broaden the undergraduate experience, add a valuable off-campus dimension to learning, and complement and enhance classroom and laboratory instruction. These individually-designed study experiences provide an opportunity for students to test their interests, explore various career options, and acquire professional work experience. Credit-bearing internships may be taken any semester (fall, winterim, spring and summer). They are available to students in every Major and placements can be arranged in almost every occupational field. Out-of-state and international internships also can be arranged. An internship may be taken as early as the summer after a full-time student's first year or after earning 30 credits as a part-time student.

In order to enroll in a credit-bearing internship, students are required to attend an internship orientation (offered in the Career Center), obtain the academic advisor's approval, register for the internship, and submit an Internship Application the semester prior to the internship experience. Students may earn up to 12 internship credits. Additional information may be obtained through the Career Center.

Academic Service-Learning

Academic Service-Learning at NDMU integrates academic coursework with community service, thus enriching the learning process for students and contributing valuable resources to the greater Baltimore region. Service-learning provides opportunities for students to apply theories learned in class in practical settings. Service-learning courses are available in multiple disciplines and programs. The Career Center works with faculty to enhance the academic service-learning experience for students. It provides faculty development, technical assistance, and material support for service-learning.

Leave of Absence

Matriculants may request a Leave of Absence for up to 180 days with permission from the academic advising counselor (Women's College) or the CAUS enrollment manager. A Leave of Absence is a temporary interruption in a student's Program of Study. It may be requested only by students who intend to return and complete their studies. Failure to return from a Leave of

Absence may affect the student's financial aid loan repayment terms, including the expiration of the student's grace period.

Normally, a Leave of Absence is requested for one semester. Students may not request a Leave of Absence for an entire academic year. Leave of Absence requests must be submitted before the start of the semester for which the leave is requested. A Leave of Absence for a particular semester may not be requested once that semester has begun.

A student must be in Academic Good Standing at the time the Leave of Absence is requested. A student who is on leave maintains status as a matriculant and therefore is not eligible to earn credit at another college during the absence from NDMU.

Lower Division Courses

Lower Division Courses are those courses at NDMU taught primarily at the Freshman and Sophomore level. These courses are generally identified in the course numbering rubric as '100' or '200' level.

Matriculant Status

A Matriculant is a student who has been officially admitted by the University as a candidate for an academic credential in a particular Program of Study. Matriculants are guaranteed NDMU will provide the courses they are required to fulfill the requirements for the credential. The Catalog (Catalog Year) in effect when a student matriculates contains the policies and requirements under which the student must satisfy graduate. Part-time students maintain their matriculant status by completing at least one course each academic year.

Maximum and Minimum Work

The normal student schedule in a regular semester should range between 12 and 18 hours. The normal freshman schedule in a regular semester should range between 12 and 15 hours. Short sessions, Session A or Session B in any given full term (Fall, Spring, or Summer), contain courses offered on compressed timeframe and students should be aware there is an advanced pace in a compressed format. Students are encouraged to consult their academic advisor to determine a course load that best meets their academic preparation. Students with an at-risk Cumulative GPA may be advised to limit their academic load to fewer than 15 hours. Students on Academic Probation are limited to enrolling in 13 hours in Fall or Spring semester and 7 hours in Summer.

Students may enroll for more than 19 semester hours of courses only with permission of their Dean and provided they have maintained an overall 3.0 (B) Cumulative Grade Point Average and have not fallen below a grade of C in any subject during the preceding semester; but in no case will any student be permitted to register for more than 21 semester hours of degree credit.

Students who register for fewer than 12 semester hours or drop below 12 semester hours of work (6 in the summer session) will not be considered full-time.

In the Summer term, six semester hours is the minimum full-time load, and the maximum load permitted is 12 semester hours. In the Session A or Session B, students may enroll in up to 6 hours.

Maximum time towards degree on Catalog

The maximal period of time for which the provisions of any Catalog may be considered valid is 7 years. Students who began a degree program seven or more years prior to the date of their anticipated graduation must consult their academic dean to determine which Catalog must be followed.

Military Service Mobilization/Activation

Notre Dame University Maryland is committed to supporting its students qualifying for institutional services because of mobilization or activation. Students called to active duty or mobilized for any reason should contact the Office of Veteran's Affairs (even if they aren't receiving VA benefits) for information and further instruction.

Minors

A Minor is that part of a Degree program which consists of a specified group of courses in a particular discipline or field, consisting minimum of 15% or more of total hours required in the Program of Study. A minimum of 50% of the courses included in the Minor requirements must be at the 300+ level. A minimum of 50% of the credit hours used to satisfy the Minor requirements must be taken at NDMU.

Non-Matriculant Status (College of Adult Undergraduate Studies)

An individual registering/enrolling in courses without applying for admission to the University may do so as a Non-matriculant. A Non-matriculant may take courses for credit or audit. The same tuition and fees apply to Non-matriculants as to Matriculants. A Non-matriculant may accumulate no more than 18 credits from NDMU; at this point, they must seek admission and matriculate as degree-seeking students. Academic advisors are available for non-matriculants who need assistance with course selection or planning. Students taking courses as non-matriculants are not eligible for financial aid.

Off-Campus Study

A student who has been accepted at Notre Dame and is a matriculant may not take courses at another college without prior permission. Students who wish to study at another accredited college

must file an off-campus permission form and receive approval from the academic advisor and the Dean before registering for courses. Courses taken off campus may be taken for elective credit only.

A student may not take courses from other colleges during the regular academic year if Notre Dame offers or will offer the course during the student's enrollment at NDMU. Approved courses with a grade of “C” or higher will be considered for transfer credit.

Placement Testing

Entering Women’s College first year students, and transfer students without an Associate's degree, will take placement tests in Math, English, and Language before registering for their first semester courses. These tests may be administered online prior to the student’s first semester or during Orientation of the first week of classes. These tests are required, and results will be used for first year course placements. Students wishing to submit AP, SAT, or ACT test scores may request to waive taking placement tests.

Registration

Registration - General

New students plan their courses and register in consultation with an academic advisor prior to the beginning of their first semester. New part-time students must make an appointment with their academic advisor to obtain information on the Program of Study they plan to pursue and have transfer credits reviewed. Once these procedures are completed, new part-time Women's College and College of Adult Undergraduate Studies (CAUS) students are eligible for registration. CAUS students must apply for admission prior to registering as part of a cohort.

Part-time students are not required to apply for admission to Notre Dame as degree candidates (matriculants) to register for a course. However, students may earn no more than 18 credits before applying for admission to a degree program.

NDMU uses WebAdvisor as the primary vehicle for communicating administrative or transactional information to students. The registration deadline is usually one week prior to the opening of classes each term. Currently enrolled students have an early registration period toward the close of each semester for the following term. Registration may be done online, in person, through the mail or by fax. Confirmations of registration are found on the student's WebAdvisor account. Copies of schedules are not sent to students via mail.

A Registration Fee of $185 for part-time students must be paid each fall and spring at the time of registration. A complete bill is sent to each student on a monthly basis. The bill is also sent to students in PDF format via the student's NNDMU email. It is imperative students check their

NDMU email regularly to make sure they do not miss deadline dates for payment, registration, drop/add, withdrawal or graduation. Payment of fees and tuition is due approximately one month before classes begin each term.

No one may register in any semester, summer session, or winterim after the official registration period indicated in the University Calendar. The University does not guarantee that during a given semester a student will be able to schedule every class which he/she might be required to take or wish to enroll. No student will be permitted to remain in class unless the instructor has received from the University Registrar evidence of proper registration.

Registration - Adding Courses for Credit

Courses may be "added" for credit only during Registration or Late Registration for a given term. Students are required to monitor the official **University Calendar** – traditionally found in the Office of the University Registrar – regarding scheduling dates and their particular access to registration via their WebAdvisor portal. Students should be aware there are differing dates and associated fees for registration actions (adding vs. dropping vs. auditing courses). Please consult The Catalog for charges associated with dropping and adding courses.

Registration - Auditing Classes

Regularly enrolled students at NDMU may be admitted to classes as Auditors by obtaining written permission from the Chair of the Department in which the course is taught and the Dean of the College in which they are enrolled. Others must obtain official admission to the University in addition to obtaining permission, as indicated. The fee for auditing a course is the same as for enrolling for credit. Auditing fees are not refundable.

Once a student has audited a course, they will not receive university academic credit by any means of advanced standing, examination, or advanced placement on previously audited work. Students are allowed to enroll and receive academic credit for previously audited work by enrolling in the course for academic credit.

Students are allowed to Audit courses in which they previously earned academic credit.

Students may not change from audit to credit after the last day to add a course. With permission of their Dean, they may change from credit to audit within the first 15 class days of the semester (7 class days in the summer).

Registration - Changing Sections

Section changes, if permitted, are subject to the same time limitations as the adding or dropping of courses. A section change requires dropping and adding a course and therefore falls under the same fee structure. Please consult The Catalog for charges associated with dropping and adding courses.

Registration Concurrent Registration

A student registered at NDMU may not automatically receive degree credit at NDMU for any work taken concurrently at another college or university or by correspondence study. Any work taken concurrently at another college or university would be subject to NDMU's transfer articulation policies and evaluation criteria. Students must have approval from their College Dean before seeking concurrent enrollment.

Registration - Dropping Courses

Courses may be "dropped" during Registration or Late Registration for a given term. Students are required to monitor the official University Calendar – traditionally found in the Office of the University Registrar – regarding scheduling dates and their particular access to registration via their WebAdvisor portal. Students should be aware there are differing dates and associated fees for registration actions (adding vs. dropping vs. auditing courses). Please consult The Catalog for charges associated with dropping and adding courses.

Students should be aware there could be financial aid implications for dropping a course. Students are encouraged to contact the Office of Financial Aid before dropping courses.

Students will not be allowed to drop a course after the published "last date to drop a course". Students who fail to drop courses by the published final date for such action will be retained on the class rolls even though they may be absent for the remainder of the semester.

Students should be aware there could be financial aid implications for course withdrawal. Students are encouraged to contact the Office of Financial Aid before withdrawing from courses.

A student may be dropped, at the discretion of the Dean of the College, from any course for which the student is ineligible.

Failure to attend class does not constitute a course drop. Withdrawn courses reduce a student's enrolled hours, but not the student's financial obligation (see section on Withdrawal from the University).

Requirements for All First-Time Full-Time Freshman

All first-time full-time freshmen are required to enroll and successfully pass in NDMU 100 during their first year of enrollment.

All students having earned less than 30 credit hours are required to be advised by their Academic Advisor. Students are encouraged to meet with their college Advisor at their earliest convenience.

Penalty for Non-Payment of Tuition

Students who do not complete payment of tuition by the date specified each semester may be withdrawn from the class at the discretion of the Business Office. Non-payment is not a means of dropping a class. Re-registration is possible before class begins, on a space available basis, with payment of an additional registration fee.

Change of Registration - exceptions

Changes in registration/enrollment must be made before the end of the Drop/Add Period. Once the Drop/Add Period is complete, students may not add a course or change sections of the same course.

To withdraw from a course after the Drop/Add Period, the student must complete a Course Withdrawal Form and obtain their advisor's signature, where needed. The completed form is filed with the Registrar's Office. The deadline for withdrawing from a course is published in the academic calendar. Students who stop attending class, and do not officially withdraw, will be assigned a grade of “F” and are financially responsible for the full tuition charged for the course.

Undergraduate students receiving federal financial aid must maintain 9 credits per semester to remain eligible for funding. Students receiving institutional scholarships or state scholarships or grants must maintain 12 credits per semester. Some State of Maryland Grants require students to complete 30 hours of credit per year. Students must visit the financial aid office before dropping below the required number of credits and before they withdraw from their last course in any term. It is the student's responsibility to follow financial aid guidelines.

Residency

Please see Graduation Requirements – Residency.

ROTC

The choice of military service as a profession is possible for Notre Dame full-time matriculants through participation in the Reserve Officers Training Corps (ROTC) Advanced Course program at Loyola University. Those students who successfully complete this program are tendered commissions in the United States Army Reserve. Students must register for ROTC courses through the Co-op Program (Registrar's Office). Details about the ROTC program, including scholarship information, are available from the office of military science at Loyola.

Statute of Limitations

In the absence of any designated time limits in documents on policies or procedures, the University imposes a time limit of one year for the initiation of any request for an exception to its rules or regulations.

Student Handbook

The Notre Dame Maryland University Student Handbook is an official student policy. The NDMU Student Handbook describes what is expected of a student with respect to behavior and conduct in the NDMU community and outlines the procedures to be followed when these expectations are not met. The Student Handbook includes the Code of Student Conduct as well as other rules, regulations, and policies governing student life. Please refer to the following site:

Notre Dame of Maryland University - University Student Handbook

Student Identification Card

The University Computing Center issues to each student a permanent identification card, including a photograph, and a student number. This card will be used for the entire duration of the student's enrollment at the University. The card is required for borrowing library books, cashing personal checks, admission to athletic and social events, selling used textbooks, Testing Services, meal plans, and other official purposes. Fraudulent use of the ID card will result in disciplinary action. The card is issued to the individual student and must not be loaned to another person for any reason. Any University official having just cause has the right to request that a student show the identification card for identification purposes. Upon such a request by a University official, the student is required to comply.

Student Status and Course Load - Full-Time/Part-Time Status

Full-time status requires a student carry a minimum of 12 credits. Students carrying 12 or more credits are full-time and must pay full-time tuition. The normal course load for a full-time student is 15-18 credits during the fall and spring terms. A student who has permission from the academic advisor to carry an overload basis must pay the per credit fee for any credits 19 and over.

Students are limited to a maximum course load of nine credits during the summer term.

Students are limited to a maximum course load of four credits during the winterim term.

Students carrying 11 credits or fewer are part-time and pay tuition on a per-credit basis for all credits taken. The College of Adult Undergraduate Studies is a part-time program and is not designed to accommodate a full-time credit load.

Term/Semester Grade Point Average

A student's Semester/Term Grade Point Average (TGPA) is calculated by dividing the total number of quality points earned in the semester by the total number of hours attempted in the semester. (See Overview of the Undergraduate Grading System in this chapter for the quality points assigned to each final grade.)

Time Requirement

Most full-time students require four years to complete their Program of Study. Part-time students plan their own time-schedule for the degree. All students must complete their final 30 credits in coursework at NDMU.

Transcript of Record

The official permanent academic records for all NDMU students are in the custody of the Office of the Registrar. Release of these records is protected by the "Family Educational Rights and Privacy Act" (FERPA). Transcripts of the academic record may be secured by the individual personally or will be released on the student's written authorization. Transcripts cannot be issued until the student or former student has settled all financial obligations to the University and has submitted all required transcripts from other colleges attended. A minimal fee will be charged for each copy of the transcript. Transcript processing requires a minimum of three working days. Official transcripts can only be released to a third party.

University Closures

If the University must close due to unexpected circumstances, faculty and students may have to make up missed class and laboratory time. In some circumstances resulting in closure of the University, the Provost will determine how classes will be made up. In other circumstances, the methods for making up missed classes and laboratories will be with extra assignments and readings, additional days of class or laboratory, additional class time, or in other manners to be determined.

University Discipline

Notre Dame Maryland University expects of its students a high degree of honor in all phases of college life. It is the responsibility of all students to familiarize themselves with the rules and regulations governing student conduct as published whether in print or on the web, in the NDMU Student Handbook and other official publications.

The authority structure for administrating the judicial code is the President, through the Vice President for Student Affairs to the Director of Student Advocacy. Please refer to the section on Judicial and Student Assistance in this catalog and to the NDMU Student Handbook for more details.

University Success (NDMU Course)

NDMU 100 is a letter-graded course required for all first time full time freshman. Students will meet in groups led by an experienced faculty or staff member and a peer mentor (an experienced

student) for an in-depth review of skills and issues relevant to academic and personal success at the University. Topics include time management, effective note-taking and test preparation, campus diversity, and university resources. Enrollment is restricted to students with less than 30 hours of credit only. Enrollment is optional for transfer students within their 30 hours of credit at NDMU. Click here for more information about University Success.

Upper Division Courses

Upper Division Courses are those courses at NDMU taught primarily at the Junior and Senior level. These courses are generally identified in the course numbering rubric as '300' or '400' level.

Withdrawal from the University (Resignation)

The University reserves the right to request at any time the withdrawal of a student for reasons of poor scholarship or unsatisfactory conduct.

Students are responsible for initiating action to resign from the University (withdraw from all courses) on or before the last day to resign as indicated in the current Bulletin. After that date a student may not resign from the University. Students who fail to resign by the published final date for such action will be retained on the class rolls even though they may be absent for the remainder of the semester and be graded as if they were in attendance.

Students who voluntarily withdraw from the University must file an official withdrawal request form in the office of the academic advising counselor (Women's College students) or the CAUS office. The date the form is submitted will be the one used to determine whether a refund of tuition is applicable. Failure to notify the University of withdrawal will prompt termination of matriculancy.

A student who withdraws from the University on or before the official withdrawal date forfeits credit for the work performed in that semester. A grade of “W” will be recorded in all courses for the semester.

Failure to attend classes does not constitute a resignation. Resignation eliminates a student's enrolled hours, but not the student's financial obligations.

Caution: Withdrawing from courses may have an adverse effect on financial aid, scholarships, loan deferments, athletic eligibility, health insurance, veteran's benefits, degree requirements, or other areas. Students considering course drops or resignation should first check with their advisor, College, and Enrollment Services to determine if this is really their best option.

Winterim

NDMU's Calendar Year includes 15-week fall and spring terms, a variable length summer term and a January term called Winterim. This accelerated three-week mini-term provides unique

opportunities to explore new educational experiences by concentrating on one course, traditional or non-traditional. During Winterim, students may:

• take traditional courses in a concentrated form, allowing the student to focus in depth on one body of subject matter,
• gain work experience through an internship or practicum,
• explore and analyze aspects of our own or other cultures through travel, and
• engage in independent study or research.

Winterim registration is limited to a maximum of four credits. Credit earned during Winterim is applied to the required number of credits for graduation. Attendance at every class is required because of the concentrated format of the Winterim sessions.

Accessibility and Health Promotion

You Belong Here!

The Office of Accessibility and Health Promotion delivers services designed to assist students in maximizing successful participation in college life and in promoting their well-being--academically, socially, emotionally, spiritually and physically.

Services and resources include:

- **Accessibility and Disability Support Services:** We are committed to supporting equal opportunity access for those with disabilities.
- **Health & Wellness Promotion:** We offer education, activities and Student Health 101 resources that encourage making healthy choices and building positive habits.
- **Health Services:** NDMU offers a University-sponsored student injury and illness plan.

Notre Dame of Maryland University is committed to providing reasonable accommodations and equal access to its programs and services for people with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Procedures to Register for Disability Support Services

1. Appointment

Make an appointment with the Director of Accessibility and Health Promotion to discuss your request to register with Disability Support Services. It is the responsibility of the student to initiate the appointment. It is recommended to schedule with the Office of Disability Support Services several weeks before classes begin.

Request an appointment here: http://www.ndm.edu/content/accessibility-and-health-promotion-appointment-request

Call directly at 410-532-5401

2. Documentation

Submit documentation of your disability from a certified professional or medical provider.

Services can be accessed when a student provides the Director of Accessibility and Health Promotion with documentation from a certified professional (e.g. director of special education, audiologist, psychologist, licensed counselor, physician) that describes the specific disability. The student will be asked to provide the most current documentation of the student's disability. Students requesting accommodations must have a disability as defined by Section 504 of the Rehabilitation Act and the Americans with Disability Act (ADA). If the student does not have sufficient documentation, the student may be requested to seek further evaluation/documentation from a certified professional. This information must be sent or provided directly to the Director of Accessibility and Health Promotion. All shared information is confidential.

For specifics and further details on documentation guidelines please visit: http://www.ndm.edu/student-life/accessibility/documentation-guidelines

3. Meet

Meet to discuss accommodations; after the submission of paperwork, the student will be contacted by the Director of Accessibility and Health Promotion to schedule a meeting to discuss accommodations through an interactive process. An appropriate accommodation plan will be developed to share with professors.

An accommodation must be considered reasonable. An accommodation is not considered reasonable if:

- It is a direct threat to the health or safety of other.
- It is a substantial or fundamental change in an essential element of curriculum or there is a substantial alteration in the manner in which services are provided.

Examples of services offered may include but are not limited to:

- Alternative testing arrangements as needed (e.g. extended time, use of a computer, distraction-free environment)
- Scribe for notes
- Access to recorded books
- Audio capture of lectures
- Interpreting services
- Referral to appropriate services
- Assistive technology
- Accessible housing
- Advocacy
- Counseling

- Meal plan accommodations

4. Receipt of Accommodation Letters

The student obtains accommodation letters and submits the letters to professors. It is the student's responsibility to share the accommodation letter with appropriate faculty members. The Director of Accessibility and Health Promotion, Office of Disability Support Services, will consult with instructors on an as needed basis to provide clarity regarding auxiliary supports/services and accommodations. The discussion of student auxiliary supports/services and accommodations with faculty focuses on the appropriate implementation of said accommodations in the classroom; the nature of a student's disability is not disclosed and remains confidential.

5. Responsibilities

It is the student's responsibility to make an appointment with the Director of Accessibility and Health Promotion each semester to request and develop a current accommodation plan. Reasonable accommodations will not be provided without an updated letter each semester and reasonable accommodations are not retroactive.

For specifics and further details on auxiliary supports/services and accommodations please visit: http://www.ndm.edu/student-life/accessibility-and-health-promotion

Following the submission of accommodation letters to faculty:

- If a student's reasonable accommodation is for a note taker, it is recommended the student let the instructor know as early as possible. DSS will provide a letter to the student which will need to be presented to the instructor. The instructor will make an anonymous announcement regarding the need for the note taker and offer a financial stipend. It is up to the student as to whether the student would like to remain anonymous or identify herself or himself to the note taker.
- If a student receives alternative test taking procedures, the student should remind the instructor a week in advance so that arrangements can be made prior to the exam. The same rules will apply as in the classroom. Arrive on time for your exam. A student who shows up late for their scheduled exam will be held to the same standards as the rest of the class. Notify your instructor in advance if there is a conflict with the time of your scheduled exam.
- If a student uses a laptop, software programs, or any other assistive technology to take an exam, notify the instructor a week in advance so that arrangements can be made.
- In order to receive alternative textbooks in a timely manner it will be necessary to let DSS know several weeks in advance so that the publisher can be notified. Contact DSS for instructions on how to proceed with obtaining text books in alternate format.

- If a student is having challenges with accommodations and would like steps to take for resolving issues contact the Director of Accessibility and Health Promotion and read about steps for grievances here.

2018-2019

Accreditation

Notre Dame of Maryland University is accredited by the **Middle States Association of Colleges and Secondary Schools** (MSCHE) and by the **Maryland State Department of Education** (MSDE) and **Maryland Higher Education Commission** (MHEC).

Notre Dame of Maryland University's School of Business was granted **full accreditation status** by the **Accreditation Council for Business Schools & Programs** (ACBSP) in 2015.

Notre Dame of Maryland University's School of Education was granted **full reaccreditation status** by the **National Council for Accreditation of Teacher Education** (CAEP) in 2013.

Notre Dame of Maryland University's School of Nursing was granted **full accreditation status** for the baccalaureate and master's degree programs in Nursing by the **Commission on Collegiate Nursing Education** (CCNE) in 2017.

Notre Dame of Maryland University's School of Pharmacy was granted **full accreditation status** by the **Accreditation Council for Pharmacy Education** (ACPE), the official accrediting body of pharmacy preparation programs at U.S. colleges and universities, in 2013.

The University holds memberships in the American Association of Colleges of Nursing (AACN), American Association of University Professors, American Association of University Women, Association of American Colleges and Universities, American Council on Education, Association of Catholic Colleges and Universities, Pennsylvania Athletic Conference, Commission on Collegiate Nursing Education (CCNE), Council for Higher Education Accreditation, Council of Independent Colleges, Independent College Fund of Maryland, Maryland Association for Higher Education, Maryland Independent College and University Association, Maryland Higher Education Commission, Middle States Association of Colleges and Schools, Inc., National Association of Independent Colleges and Universities, National Catholic Educational Association, National League for Nursing (NLN), Public Leadership Education Network (PLEN), The College Board and the Women's College Coalition.

Notre Dame of Maryland University participates in the National Council for State Authorization Reciprocity Agreements (**NC-SARA**), the governing body for postsecondary distance education.

2018-2019

Admission Information

Through the admissions process, Notre Dame of Maryland University attempts to determine the intellectual potential and growth of each student. A student's academic record, high school and/or college curriculum, and standardized test scores are good indicators of these qualities. However, the process also includes a close review of the student's special interests, talents, letter of recommendation, the admission essay or writing sample, and information from the personal interview. All of this information helps the University assess the unique and essential characteristics defining a successful Notre Dame of Maryland University student.

Women's College or College of Adult Undergraduate Studies?

Although many degrees and Majors are offered through both the Women's College and the College of Adult Undergraduate Studies (CAUS), there are significant differences in their populations and scheduling. To determine whether the Women's College or CAUS is the most appropriate for you, see the college descriptions under Academic Information.

Applying to the Women's College

A strong college preparatory program in high school is the best preparation for success at Notre Dame of Maryland University. Therefore, the Admissions Committee places the greatest emphasis on the type and strength of courses completed and the grades earned. Accepted students usually rank in the top half of their class. Applicants are required to be prospective graduates of a high school accredited by the regional association of the College Board or of an approved home school program. A minimum of 18 academic units distributed as follows is required:

- English - 4 units
- Foreign Language - 2 units
- Mathematics, College Preparatory - 3 units
- Science - 3 units
- History - 2 units
- Electives - 4 units

The Admissions Committee may accept a student who lacks one or more of the stated requirements, but whose high school record and standardized testing show academic ability.

For more specific information regarding admission to the Women's College, go to our page **Applying to the Women's College**.

Back to top

Transfer/Adult Learners: Applying to the Women's College or College of Adult Undergraduate Studies

Notre Dame of Maryland University welcomes applications from qualified transfer students and first-time and returning adult learners.

Adult learners applying as first-time college students should possess a strong college preparatory high school record. This record will be reviewed along with a written essay to assess ability to succeed at NDMU. Adult students entering with no college credits will also be required to take the College Board Accuplacer Exam (this admissions/placement test can be scheduled through the CAUS Admissions Office). An interview with a transfer counselor (Women's College) or an enrollment manager (College of Adult Undergraduate Studies) is highly recommended to assist prospective students through the application/acceptance process. Students holding a GED Certificate also are considered for admission (see minimum test scores in chart below).

Students applying to NDMU as transfer students must submit official transcripts of all college work completed. This academic record, along with a letter of recommendation (where required), resume (where required), and a written essay or writing sample, will be reviewed. (See Application Materials/Deadlines for details on admissions application requirements.)

Students applying as transfer students with fewer than 30 college credits will be asked to submit a high school transcript (students applying to the Women's College will also be asked to submit SAT/ACT scores). A transfer applicant who holds an Associate Degree, or has more than 30 college credits with a minimum 2.5 Cumulative Grade Point Average, is typically granted admission. Students applying with a GED with a minimum score of 160 on each of the four subtests are also typically granted admission (based on GED 2014 test score results).

The Admissions Committee will evaluate the record of any applicant who presents a 2.0 to 2.49 Cumulative Grade Point Average for all college or high school work. The Committee evaluates a student's record and all corresponding documents (including the College Board Accuplacer test scores for CAUS applicants) to determine academic potential and success at NDMU. A student with a Cumulative Grade Point Average below 2.0 or GED scores *below 150 on any of the four subtests* (GED 2014) will not be considered for admission.

As part of the application process, prospective transfer students have the opportunity for review of their courses for transfer equivalency and credit. This unofficial evaluation clarifies the coursework needed to complete degree requirements. (An official evaluation is completed by the student's academic advisor upon entrance.)

Students applying to the Women's College dual-degree programs in engineering should refer to

their respective Program of Study pages for additional admissions criteria. The Programs require students to complete the four-year degree in a three-year intensive Program of Study. Therefore, transfer students may enter these Programs of study up to, but not later than, the first semester of their sophomore year (completion of approximately 30 credits) and should confer with the Coordinator of these Programs of Study at the time of admission. Additional admissions criteria also exist for the Bachelor of Science in Radiological Science Program of Study.

All students seeking formal admission to the School of Education to become certified teachers are also subject to providing additional criteria (e.g., Praxis Exam, letters of reference, application, GPA of 3.2, formal interview/screening of writing and oral communications skills, e-portfolio review).

Transfer students are NOT eligible for participation in the 3+4 BA/Pharm.D. Program. This Program of Study is only open to students entering NDMU as freshmen. Transfer students interested in pursuing Pharmacy can discuss their options with their admissions counselor (e.g. finishing a bachelor degree and then applying to Pharmacy or completing the minimum pre-requisites to allow for admissions directly to the Pharmacy Program of Study).

For more specific information regarding admission as a Transfer or Adult Learner, go to our page **Applying to the College of Adult Undergraduate Studies**.

Back to top

Applying as an International Student

The University values the contribution international students make to the NDMU community. International students should make preparations to apply for admission at least four months in advance of application deadlines. Due to the part-time nature of the College of Adult Undergraduate Studies, international students requiring an F-1 visa are not eligible for admission to this program.

International students must meet all requirements for admission to the University. (See Application Materials/Deadlines). In addition, international students must submit Test of English as a Foreign Language (TOEFL) scores (minimum score needed for admission is 500 on the written test and 173 on the computerized test or 61 on the IBT) and required financial documents which indicates ability to finance the student's NDMU education.

An I-20 is issued only after the student has been accepted for admission. Students on an F-1 (student) visa are required, by Department of Homeland Security regulations, to take a minimum of 12 credits (full-time status) each semester. Federal financial aid programs are restricted to U.S. citizens and permanent residents. International students may compete for academic and

achievement scholarships awarded on the basis of academic performance and merit (excluding athletic ability/participation). To qualify for academic scholarships, international students must take the SAT Reasoning Test (SAT) or the American College Test (ACT) in addition to the TOEFL (see test information).

A Student Visa (F-1 status) is required of most students who wish to study in the United States. Students should not enter the United States on a Tourist Visa hoping to change their visas to an F-1 while here.

For more specific information regarding admission as an International Student, go to our page for **International Students**.

Back to top

Becoming A Notre Dame Student

Upon acceptance to NDMU, Women's College applicants (full-time students) will receive information on possible scholarships and once the FAFSA is filed (Free Application for Federal Student Aid), all students receive information on their financial aid package which shows need-based financial aid if the student has filed all necessary financial aid documents.

Once a decision has been made to attend NDMU, students in the Women's College will be asked to submit a non-refundable deposit. Students in the Women's College should be advised spaces in the incoming class are not guaranteed until the deposit is received. Enrollment places are reserved chronologically, according to deposit date. Deposits are as follows: $500 for resident students and $300 for commuters. NDMU abides by the National Candidate's Reply Date of May 1.

Once admitted to the College of Adult Undergraduate Studies, students will be assigned an academic advisor. Student should meet with their academic advisor (faculty in the department or professional advisor) to discuss their Program of Study and transfer credits (if applicable) as well as register for courses. If students will not begin studies in the semester following admission, they should contact the CAUS Office as to their academic plans and their actual start date.

All new students are required to participate in an orientation program prior to the start of classes. This Program enables students to meet one another; meet their academic advisor; learn about academic policies, support services and degree programs; complete all practical matters pertaining to the start of classes; and learn about all aspects of life at NDMU. Information on the Orientation Programs is sent to students during the admissions process.

Back to top

Matriculant and Non-Matriculant Status

A matriculant is a student who is officially admitted to the University as a candidate for a degree or academic credential in a particular Program of Study. Formal admission to the University is required to become a matriculant. Full-time students in the Women's College must maintain continuous study in order to retain their matriculant status, unless they obtain an official Leave of Absence. Part-time students in the Women's College or the College of Adult Undergraduate Studies (CAUS) must complete a minimum of one course each academic year to maintain their matriculant status. (See University Regulations for policies on Leave of Absence or Withdrawal.)

Non-matriculants are students who have not been formally admitted as degree candidates but who are registered for courses either full-time or part-time, for academic credit or audit. Adult students in the Women's College and students in CAUS may enter Notre Dame as non-matriculants. The same tuition and fees apply to non-matriculants as to matriculants. *Non-matriculants are not eligible for financial aid* and must apply for admission to the University upon completion of no more than 18 credits.

The Catalog in effect at the time the student is formally admitted (matriculated) to NDMU contains the Academic Policies and Program of Study requirements under which the student will graduate.

Back to top

Full-time/Part-time Student Status

Women's College students enrolled in 12 or more credits are considered full-time and must pay full-time tuition and fees. Women's College students enrolled in 11 credits or fewer are considered part-time and will pay the part-time, per credit fees as listed under Tuition and Fees. Students in the Women's College may attend either on a full-time or part-time basis.

The College of Adult Undergraduate Studies is designed as a part-time program and is not normally designed to accommodate a full-time credit load. Students enrolled in 11 credits or fewer are considered part-time and will pay the part-time, per-credit fee as listed under Tuition and Fees. Under unusual circumstances, CAUS students may carry a load of more than 11 credits.

Back to top

Readmission

Notre Dame of Maryland University does not automatically readmit a student who has Withdrawn or has not taken at least one course within an academic year. The student must file an Application for Readmission along with the application fee. The student must submit an official transcript reflecting work taken at other institutions of higher education since leaving NDMU, as well as

Catalog information on those courses.

All scholarships, awards, and Notre Dame grant funding originally offered to student seeking readmission are no longer valid. The Catalog in effect at the time the student is readmitted contains the policies and requirements under which the student will graduate.

Back to top

Veteran Student Readmissions Policy

Notre Dame of Maryland University complies with requirements for readmission of veterans as defined in the “Higher Education Opportunity Act.”

In part, the Act states that:

“A person who is a member of, applies to be a member of, performs, has performed, applies to perform, or has an obligation to perform, service in the uniformed services shall not be denied readmission to an institution of higher education on the basis of that membership, application for membership, performance of service, application for service, or obligation.”

IN GENERAL — Any student whose absence from an institution of higher education is necessitated by reason of service in the uniformed services shall be entitled to readmission to the institution of higher education if:

A) the student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives advance written or verbal notice of such service to the appropriate official (registrar or VA coordinator) at the institution of higher education;
B) the cumulative length of the absence and of all previous absences from that institution of higher education by reason of service in the uniformed services does not exceed five years; and
C) “except as otherwise provided” in the Act, “the student submits a notification of intent to re-enroll in the institution of higher education. This intent to enroll should be sent directly to the VA Coordinator (registrar’s office).”
Any student providing the requisite documentation of eligibility and readmitted to Notre Dame under the terms of the statute will return with the same academic status as when last in attendance."

Service members separating from the military under certain conditions are not eligible for readmission under the terms of the Higher Education Opportunity Act. Those individuals may seek return to the University under the academic policies applicable to all students.

Veterans wishing to be readmitted should complete readmission (available through the Admissions Office), submit official transcripts from any educational institution at which courses

were taken since last enrolled at NDMU, and contact the Veteran's Coordinator in the Registrar's Office by submitting an intent to enroll form.

Back to top

Options For Earning Credit

Advanced Placement

Incoming first-year students who have taken Advanced Placement (AP) tests of The College Board and have achieved satisfactory scores are considered for advanced placement.

College credit may be granted for scores of three or higher. The following is a list of the most frequently taken tests. Other AP tests may be determined for credit/placement by the University Registrar.

Subjects	Credits Granted	Course Equivalent	Fulfills General Education Requirement In:
Art: History of	6	ART-120 and ART-121	Fine Arts
Art: Studio	3	ART-120	Fine Arts
Biology	4	BIO-110	Natural Science
Chemistry	4	CHM-110	Natural Science
English: Language and Composition	3	ENG-101Proficiency Composition	English
English: Literature and Composition	3	Elective	N/A
French: Language	3	Major Requirement	Foreign Language

Latin: Vergil	3	Major Requirement	Literature
Latin: Literature	3	Major Requirement	Literature
Mathematics: Calculus AB	4	MAT-211	Mathematics
Mathematics: Calculus BC	8	MAT-211 and MAT-212	Mathematics
Mathematics: Statistics	3	MAT-215	Mathematics
Music: Music Theory	3	MUS-148	Fine Arts
Physics B	4	PHY-101	Natural Science
Political Science: American Government	3	Elective	Social Science
Psychology	4	PSY-101	Social Science
Spanish: Language	3	Major Requirement	Foreign Language
Spanish: Literature	3	Major Requirement	Literature

Credit for Life/Career Experience

The complete policy for petitioning for credit is available from the College of Adult Undergraduate Studies office. Since Nursing Majors can use CLEP and Excelsior College Challenge Examinations, petitioning for credit is not an option for these students.

College Courses Taken While in High School

Incoming first-year students who have taken college courses while seniors in high school should confer with their admissions counselor as to the granting of credit for these courses. In most cases, courses that are academic in nature will be posted (in summary) to the NDMU transcript. Official transcripts from the college must be sent to NDMU for the credits to be reviewed and posted.

International Baccalaureate

The International Baccalaureate (IB) is an intensive Program of Study taken as part of the high school program leading to comprehensive examinations in six different areas (two languages, individual and society, experimental sciences, mathematics and fine arts), culminating in the IB diploma.

NDMU recognizes the International Baccalaureate and grants a maximum of 30 credits to any student completing the diploma with a score of 30 or better.

Higher level examinations for which a student has received a grade of 5 or higher will be reviewed and credits granted accordingly.

Transfer Credit

Transfer credit is granted for satisfactory completion (“C” grade or higher) of courses taken at an accredited two- or four-year college or university. The course credit is applied to NDMU's degree requirements in accordance with Notre Dame Transfer Policy, established/articulation agreements, and course-by-course evaluation, as appropriate. Articulation Agreements indicate how specific courses will transfer from a two-year institution to NDMU in the areas of general education and selected courses in the Major.

Students transferring to NDMU should familiarize themselves with the transfer policy or consult their admissions counselor if there are any questions durign the admissions process. Evaluation of transfer credit is available prior to applying to the University.

Courses taken from companies or agencies other than an accredited college or university are assessed using the American Council of Education non-collegiate guidelines and placement recommendations. Final approval on all transfer courses and credit is determined by the

University Registrar.

NDMU participates in the Maryland statewide **Reverse Transfer Program**. This Program allows students entering NDMU as transfer students without completion of the Associate (A.A. or A.S.) to "transfer back" credits completed at NDMU to secure the initial Associate's degree. Transfer student files will be reviewed upon acceptance to NDMU and invitations are sent to students who might be eligible for this Program. Transfer students can also "opt in" to this program by completing the form located on the Notre Dame website (ndm.edu) or through their admissions counselor during the application process.

Official Transcripts from all institutions of higher education must be received by NDMU no later than mid-semester of the student's initial term of enrollment.

Other Examination Credit

A total of 30 credits can be earned toward a degree through the College Level Examination Program (CLEP), Excelsior College Examinations, NDMU challenge exams and petitioning for credit. These credits are recorded with a grade of “P” and must be posted on the student’s record within 30 days from the date of notification of results. A fee is charged per credit for the posting. Policies and guidelines concerning these options are available in the College of Adult Undergraduate Studies office.

The College of Adult Undergraduate Studies accepts CLEP and Excelsior College exams in a number of subject areas. Students receiving a score of 50 or above on these examinations will be awarded credit. In addition to CLEP, matriculated students may earn college credit by successfully completing Notre Dame challenge exams. Challenge exams are available for CST-130 Microcomputer Applications, and LCL-332 Scientific and Specialized Terminology. Credits earned from these options *do not count toward the total of 30 graded credits required to graduate from Notre Dame.*

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Alumni and Association Executive Board

The Executive Board is the governing body of the Alumnae and Alumni Association.

The Board consists of no more than 25 members including a representative to the Board of Trustees, a student position, and the past president. Each position has a three-year term; all members attend Executive Board meetings three times a year, Alumnae and Alumni Leadership Orientation and Reunion Weekend.

The purpose of the Alumnae and Alumni Association is to promote, support and advance the welfare of the University through ways and means approved by the president of the University, and in stimulating a spirit of cooperation and loyalty among its members. The Association is a strong network of graduates who assist the University in broadening and sustaining memberships among the alumna and alumni.

Leadership

President: Victoria Meadows '15

My current position is a research assistant for the Shock, Trauma, and Anesthesiology Research (STAR) Organized Research Center (ORC) at University of Maryland, Baltimore (UMB). I was a women's college student and earned a Bachelors of Arts Degree in Biology in 2015. NDMU is extremely important to me because it was the foundation that let me thrive as a young woman and gave me the tools to succeed in my profession. While I am member of the council I hope to share my love of Notre Dame with current and future students! Victoria's term ends June 30, 2020.

Vice President: Elizabeth Brescia M'12

Elizabeth is a Resource Specialist in human services and social services. She earned her Masters of Nonprofit Management at NDMU in 2012 which, "gave me the education I needed to analyze services at a programmatic level," she says. "Notre Dame is important to me because I want to give back to the students, alumnae/alumni, and university that has brought so many opportunities into my life." Elizabeth's term ends June 30, 2020.

Secretary: Constance Hays Matsumoto '94

As the Owner of Pabrique Interior Design, Connie combines her education, experience and passion for interior design to create homes that reflect the lives and uniqueness of the people living there. Connie earned her B.A., Business Management from Notre Dame in 1994 and M.S., Business from The Johns Hopkins University in 1998. While attending Notre Dame's then-named Weekend College, Connie enjoyed a full-time career while raising two young sons. Connie's deep affection for NDMU is attributed to the University's nurturing and academically challenging environment, giving her the confidence to transform her life. Connie's term ends June 30, 2019.

Past President: Lisa McMurtrie '93

Lisa is a 1993 graduate of the Weekend College, majoring in human services. She holds an MA in Liberal Arts and MA in Teaching from the Johns Hopkins University. Currently she is completing a Hopkins Post Masters Certificate in Educational Leadership for Private Schools after having studied professional development at Harvard. In her professional life, Lisa is the Head of School for Trinity Episcopal Preschool, as well their Lacrosse Coach and Science Teacher. About Notre Dame, Lisa says, "I love [the school] because it laid a strong foundation, both educationally and spiritually, for everything that came after I graduated. I am so blessed to be part of such a wonderful Catholic community and am honored to serve the Council as Past President."
Lisa's term ends June 30, 2020.

Representatives

Naomi Cross '15 M'17

Naomi is a nurse in the Johns Hopkins Cystic Fibrosis Research Clinic. Her early career gave her experience in labor and delivery and pediatrics. Naomi received her BSN and MSN from NDMU and is passionate about Caring Science and how it can be applied to all aspects of nursing and nursing education. Fun fact: Naomi can be seen in the documentary film, *The American Nurse*. She lives in Towson with her son, Nathan, and her husband, Jason Cross. Naomi currently serves as a School of Nursing representative; her term ends June 30, 2020.

Nichole C. Gatewood '01

Nichole C. Gatewood, Esq. is an Assistant Attorney General for the the Office of the Attorney General for Maryland. She graduated from Notre Dame with an interdisciplinary degree in psychology and communications. Nichole says, "Notre Dame is important to me because it is the cornerstone of my education foundation where I learned thinking outside the box is required and inclusiveness is a not a goal but a reality. My Notre Dame is the place where I found my voice and was challenged to speak louder and rise higher. My Notre Dame is a village of support with high expectations, creating a legacy of excellence with a feeling of home each time you enter our grounds. At my Notre Dame, there are no strangers only waiting cheerleaders!" Nichole currently serves as an at-large representative; her term ends June 30, 2020.

Sallie Mullen '68

Sallie is the Senior Executive, U.S. Department of State, with a specialty in intelligence related to arms control and counter-proliferation. She earned her bachelor's in modern languages from NDMU in 1968. About NDMU, Sallie says, "NDMU nurtured my love of languages and foreign

travel, which has given me enormous pleasure over the years; offered me opportunities to develop leadership skills, which enabled me to prosper as a government executive; and encouraged friendships that have lasted a lifetime." Sallie currently serves as a Women's College representative; her term ends June 30, 2020.

Roxine Phillips '96

Roxine is an adjunct instructor in the Online MBA program at the University of West Alabama. She graduated from the Business Weekend College and says, "my overall experience as a student was instrumental in successfully achieving my academic and professional goals. I value the opportunity to give back to the University by sharing my NDMU experiences with the students and working to promote the advancement of all students into leaders who positively change the world." Roxine currently serves as a CAUS representative; her term ends June 30, 2019.

Katie Salim '18

Katie is President of the Student Government Association (SGA) and a senior following the Pre-Med track with a major in chemistry and minor in biology. Notre Dame is important to her because, "I have had amazing opportunities both inside and outside the classroom that wouldn't have been possible without such a supportive community. These experiences have shaped me into the fearless Notre Dame woman I am today." Katie serves as a current student representative; her term ends June 30, 2018.

Hendrik Schulte M'16

Hendrik works as a volunteer coordinator at a homeless shelter in Baltimore. In his free time, he volunteers with Project Pneuma, an after school program that teaches middle school children mindfulness and self-control through instructing them in Yoga, Meditation, and Martial Arts.

Originally coming to America as an exchange student, Hendrik quickly fell in love with the culture and a woman from Baltimore. After working for a non-profit organization in Berlin for a year, he returned to the States to pursue his Masters in Leadership and Management. When asked about his time at Notre Dame, Hendrik says: “Notre Dame helped me grow as a person. The teachers were not only trying to relay knowledge to us, but they encouraged us to reflect on our strengths and weakness. Notre Dame helped me become the leader that I am today. I am grateful for what Notre Dame has done for me and I am looking forward to being able to give back through my work on the Alumnae and Alumni Council.” Hendrik currently serves as a Grad representative; his term ends June 30, 2020.

Jessica Sexton '08

The Rev. Jessica Sexton is an Episcopal Priest in the Diocese of Maryland where she serves as Associate Rector and Youth Minister at the Church of the Good Shepherd in Ruxton. She was a Biology major with a concentration in Pre-medicine and minored in Religious Studies. She is grateful to Notre Dame of Maryland University for being a place of professional and spiritual discovery as her dreams of being a doctor transitioned into a calling to the Priesthood. The professors and staff at Notre Dame cultivated an environment of support and encouragement that allowed her to do so. Jessica currently serves as an at-large representative; her term ends June 30, 2020.

Monique Turner '03, Pharm.D.'15

Monique is a clinical pharmacist at Northwest Hospital Center in Baltimore. She earned her Bachelors degree in biology in 2003 and Doctoral degree in pharmacy in 2015, both from NDMU. She says, "Notre Dame has provided me with the tools of education and experiences to help individuals make better health decisions regarding their medications. NDMU has developed a culture to enhance and empower women to achieve success and to make a difference within our community." Monique currently serves as a School of Pharmacy representative; her term ends June 30, 2020.

Kathy Volk, Ph.D.'08

Kathy O'Donnell Volk is an Adjunct Professor at Towson University. Her career has lead her to positions at the Maryland State Department of Education, Baltimore City Schools, and Baltimore County Public Schools where spent time as a teacher, assistant principal and principal. Kathy earned her Ph.D. in Leadership for Changing Populations under the NDMU School of Education. About NDMU, she says, "[It] is important to me because it is an institution that truly cares about its students and graduates!" Kathy currently serves as a School of Eduation representative; her term ends June 30, 2020.

Joe Weatherstein '08

Joe serves as Vice President, Area Manager for First National Bank. He earned his bachelor's degree in business from NDMU where his focus was marketing and management. His experience was, "amazing due in large part to the positive impact made by the faculty and staff in shaping [my] life and career," he says.

In his spare time, Joe is a volunteer firefighter (and serves as Treasurer on the fire department's board of directors), certified emergency medical responder, and a rescue diver for the City of Havre de Grace. Joe is excited and eager to help carry on the University's tradition of service through his role on the Council. Joe currently serves as an at-large representative; his term ends June 30, 2020.

Brian Zubek M'16

Brian is a West Baltimore resident and holds a MA in Nonprofit Management. Brian focuses his work on furthering city-wide equity opportunities through a collective approach and actively consults and coaches within a wide variety of nonprofit and entrepreneurial business ventures. He drives to impact the Baltimore nonprofit sector through the melding of mission-driven passions

with competent and strategic business direction. Reflecting back on his time at NDM, Brian says, “In the classroom, I was able engage with an amazing and diverse cohort of students that challenged and redefined my own views about the world and who I was in my profession. I came for the education but left with lifelong friendships. It’s the students that make NDM what it is and that’s why the Alumnae & Alumni Community is so important to me.” Brian and his wife Rachel, a therapist and LCSW-C, are active leaders in their church, Gallery Sowebo, and love their residence in historic Union Square. Brian currently serves as an at-large representative; his term ends June 30, 2020.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Campus Buildings and Facilities

Fourier Hall

Originally home to Notre Dame's Library, Fourier Hall is the center of the University's programs for adult learners, as well as home to the Art Department and the Renaissance Institute, an active group of men and women who are over the age of 50 and interested in pursuing lifelong learning and intellectual growth.

Meletia Hall

Lower level: Feeley International Center is home to the Office of International Programs and the English Language Institute (ELI), an intensive co-educational English program for non-native speakers who plan to study in American colleges and universities or who are studying for career enrichment.

First, second, and third floors: Renovated student housing on these, with a shared balcony and common areas for studying and socializing.

Gibbons Hall

With its distinctive Merrick Tower, Gibbons Hall is one of the highest points in the city and is symbolic of the University's position in the Baltimore community.

First floor: President's Office, VP for Academic Affairs, VP for Enrollment Management, VP for Student Life, VP for Mission, and Registrar's offices.

Second and third floors: Classrooms, the Murphy Gathering Space and Social Sciences and Education Departments. Technology in the classrooms on these floors was recently upgraded. The Mary Teresa Curran Murphy Class of 1899 Gathering Space was created through the generosity of Mr. and Mrs. Daniel Murphy. Mr. Murphy was the son of one of Notre Dame's first six graduates from the class of 1899. This beautiful space provides a special place to hold wedding receptions and take photographs.

Fourth floor: History, Religious Studies, Digital Media Arts and Communication Arts Departments, and the television and radio stations.

Fifth floor: English and Philosophy Departments and Writing Center.

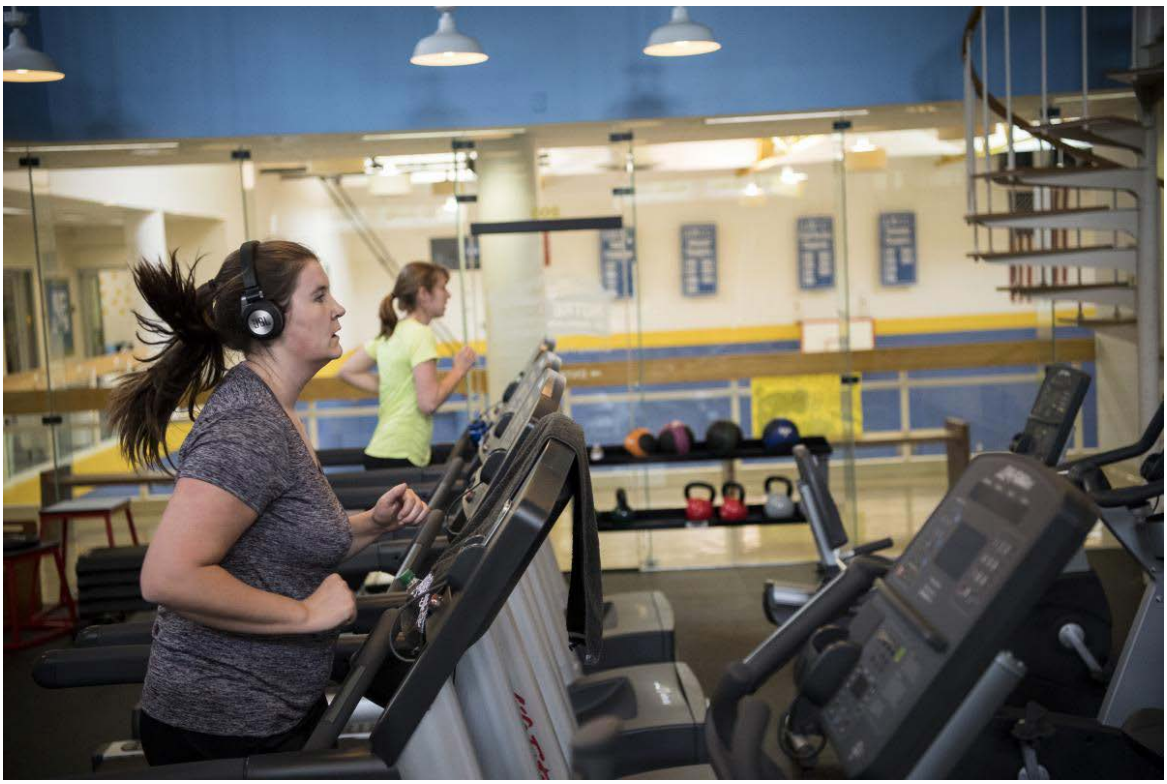

Theresa Hall

First floor: Admissions, Financial Aid and Business offices.

Second and third floors: Marikle Chapel of the Annunciation, Human Resources and VP for Finance and Administration offices.

Marion Burk Knott Sports and Activities Complex

Notre Dame is an NCAA Division III institution and sponsors eight intercollegiate sports including basketball, cross country, field hockey, lacrosse, soccer, softball, tennis and volleyball.

Lower level: Gym and Dance Studio.

First floor: Athletics Department and Student Life office. The newly renovated Civera Fitness Center offers cardio and weight-training equipment; next door are the racquetball courts.

LeClerc Hall

LeClerc Hall is home to LeClerc Auditorium, the pool and the Music Department.

Lower level: The pool is used by members of the campus community.

First and second floors: Music Department and LeClerc Auditorium. This area hosts lectures, concerts and special events such as Honors Convocation and musical and theatrical performances.

Doyle Hall

Lower level: Gator Alley, the Commuter Lounge and Study Room. Made-to-order food items and coffee are available at Gator Alley, and the lounge is a popular gathering space housing computer stations, flat-screen televisions, and entertainment media.

First floor: Doyle Formal Lounge and Doyle Dining Hall.

Second, third and fourth floors: Residence hall for Women's College seniors and women and men in the English Language Institute and graduate programs.

Knott Science Center

Knott Science Center houses the Departments of Chemistry, Physics, Psychology and Biology, along with the Bryan Planetarium, state-of-the-art laboratories and learning environments.

G. Avery Bunting Hall

The building is home to the first pharmacy school at a women's college. The School of Pharmacy is also the only such school affiliated with a private university in the state.

Technology-rich classrooms, laboratories, and office space support the work of students, faculty and staff. The construction of this facility is not only technologically advanced but also designed to meet LEED Silver specifications as part of our environmental stewardship efforts.

University Academic Building

The latest addition to Notre Dame's campus is a $15 million, 36,500-square-foot facility supporting the School of Nursing, the School of Education, and the entire University. The building includes the Center for Caring with Technology, with simulation labs for labor and delivery and pediatrics and patient rooms, state-of-the-art instructional facilitie,; meeting and gathering spaces, and a gallery.

Loyola/Notre Dame Library

This is the first library in the country to be owned jointly by two private educational institutions. The Library offers wireless technology and rooms for independent and group study. An auditorium for larger groups rounds out the Library's offerings. The third floor is home to our archives.

Otenasek House of the Morrissy Honors Program

Nestled next to Cana House on the south side of campus, the new house provides welcoming

study areas, a seminar room for classes and individual and group activities and a comfortable lounge where students can interact with other Morrissy Honors students and faculty.

Noyes Alumnae House

This Federal-style building is home to the Institutional Advancement and Alumnae and Alumni Relations offices.

Family Educational Rights and Privacy Act (FERPA) Policy

Notre Dame of Maryland University complies with the provisions of the The Family Educational Rights and Privacy Act (FERPA), as amended, and associated regulations. FERPA establishes requirements regarding the privacy of student records and provides students with certain rights with respect to their education records.

These include:

- the right to inspect and review their records;
- the right to request an amendment of the student's education record they believe is inaccurate;
- the right to consent to disclosure of personally identifiable information (PII) contained in the student's record (except where FERPA authorizes disclosure without consent).

All official academic records of all students, past and present, are housed in the Office of the University Registrar (Registrar's Office). Questions regarding a student's official academic record should be directed to the University Registrar.

2018-2019

Financial Aid

Notre Dame of Maryland University offers a comprehensive program of need-based and merit-based financial assistance. It is designed to help students and families cover the difference between the amount they are able to pay and the total cost of attending Notre Dame. According to federal guidelines, parents of traditional-aged students assume the primary responsibility for the educational expenses of the students; it is also understood that students have responsibility to help pay for their education. For adult learners, federal guidelines state that students assume primary responsibility for their own educational expenses.

Financial aid is provided through scholarships, grants, loans and paid employment, which may be offered to students singly or in combinations called financial aid packages. The sources of such funds are the federal government, state agencies, private foundations, corporations, educational institutions and Notre Dame of Maryland University.

The Office of Financial Aid website provides detailed and up to date information on the types of aid available, how to apply, eligibility requirements, policies and procedures, external scholarships for students, deadlines, a checklist, contact information and more.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Application Process

Obtain a FSA ID

All students, and parents of dependent students, should apply for a **U.S. Department of Education Federal Student Aid (FSA) ID**. The new FSA ID consists of a user-created username and password to electronically access the Federal Student Aid's online systems (including the FAFSA) and can serve as your legal signature.

Complete the FAFSA

The Free Application for Federal Student Aid (FAFSA) may be filed beginning October 1 of each year. There is no charge for submitting the FAFSA.

We encourage students to submit your FAFSA by Notre Dame's priority deadline of February 15 (for students who start in the summer or fall semester) or November 15 (for students who start in the spring semester) to be considered for certain limited funds.

List Notre Dame of Maryland University on your FAFSA. Notre Dame's school code is 002065.

Submit your FAFSA. Print out and keep a copy of your submitted information for your records.

FAFSA Follow Up

Students will receive an email from the U.S. Department of Education with a link to the **Student Aid Report (SAR)** that shows the results of the FAFSA. Check the SAR for accuracy and make any necessary corrections.

Students will receive an email from Notre Dame of Maryland University informing them when we have received your FAFSA results.

If the student's FAFSA is selected for a process called *verification*, accepted applicants will be notified via email to submit required documents.

Current students will be sent an email and advised to check Web Advisor for missing documents. Do not submit documentation unless it is requested.

About three weeks after submitting taxes to the IRS electronically (8 weeks for paper filing), attempt to use the **IRS Data Retrieval Tool** to import the financial information from the tax returns into your FAFSA to avoid processing delays. If you are ineligible to use the IRS Data Retrieval Tool, enter the updated information from your tax returns manually. See directions on how to use the IRS Data Retrieval Tool.

Award Notification

After the student's financial aid file is complete, they will receive an award notice if they meet **eligibility requirements**. Award notices will be emailed to new students and posted on WebAdvisor for returning students.

Award letters for new students with complete financial aid files who plan to enroll for the fall semester will be sent beginning in November (December for students who plan to begin enrollment in the spring semester). Award information for returning students with complete files and who meet **satisfactory academic progress standards** will be posted on WebAdvisor beginning in late March.

After receiving their financial aid notification, students must read and follow the instructions in the **How it Works** section of the NDMU website.

Student financial aid award notices will be based on certain enrollment and housing assumptions. If these assumptions are incorrect, it is the student's responsibility to notify the Office of Financial Aid so the award can be revised in a timely manner. Similarly, if a student receives notification of another source of funding not reflected in the financial aid award, documentation of the expected award must be sent to the Office of Financial Aid as soon as it is received.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Cost of Attendance

Cost of Attendance (or financial aid budget) is a combination of direct expenses (such as tuition and fees) and indirect expenses (such as books and personal expenses) a student will incur to attend NDMU. Each student's actual expenses may vary, but Cost of Attendance provides an estimate of the cost of attending Notre Dame of Maryland University for an academic year.

Cost of Attendance is determined using a formula established by the U.S. Congress. All expenses are for the nine-month school year. Costs are subject to change without notice.

The Office of Financial Aid uses *average* budgets to calculate financial aid. Average budgets are based on a student's anticipated average enrollment. A student cannot receive more than the cost of attendance from any combination of institutional, federal, state, or private funding source. This includes merit and need-based aid as well as tuition remission, VA benefits, and ROTC awards.

Visit our **Cost of Attendance** page online for detailed information by student type: http://www.ndm.edu/admissions-aid/financial-aid/how-apply/cost-attendance

2018-2019

Eligibility

To receive financial aid from federal programs, a student must meet all of the following requirements:

- Must have high school diploma or GED,
- must be a U.S. Citizen or eligible non-citizen, a national or permanent resident of the U.S. or in the U.S. for other than a temporary purpose,
- must be registered with Selective Service, if you are a male between the ages of 18 and 25,
- must have a valid Social Security Number,
- may not be in default on a federal student loan,
- must not owe an overpayment of a federal loan or grant,
- may not have borrowed in excess of aggregate student loan limits,
- must be admitted to Notre Dame of Maryland University in a qualified degree program (includes teacher certification and CASE),
- must be registered at least half-time for federal loans and FSEOG,
- must meet requirements for institutional scholarships,
- must meet the state's requirements for individual state financial aid programs, and
- must maintain Satisfactory Academic Progress as defined by Notre Dame of Maryland University.

NDMU Catalog

2018-2019

Exit Interview

An exit interview is a loan counseling session that provides loan repayment, grace period, billing options information, and collects updated borrower information as required by the federal government.

Prior to graduating, leaving the University, or dropping below half-time, federal loan borrowers are required to complete a mandatory exit counseling session under federal law as a condition of receiving a federally funded student loan. The online exit-counseling session provides borrowers their rights and responsibilities as a federal loan recipient. To fulfill this requirement, students must go to www.studentloans.gov.

Graduating students must complete this requirement before their diplomas and transcripts will be released.

Federal Work-Study

The Federal Work-Study Program provides part-time jobs for undergraduate and graduate students with financial need, allowing them to earn money to help pay education expenses. The Program encourages community service work and work related to the recipient's Program of Study.

- Federal Work-Study is available to undergraduate and graduate students with financial need.
- To apply for the Federal Work-Study program, complete the Free Application for Federal Student Aid (FAFSA) by University's priority deadline of February 15. Work-study is awarded on a priority, first-come-first-served basis based on the FAFSA receipt date and financial need.
- The amount of work-study students are eligible to earn is shown on their financial aid Award Letter.
- The average academic-year Work-Study award is $1000.
- The amount of a Work-Study award is determined by student need and the availability of funds at the University.
- Work-Study positions are available in departments and offices throughout the University as well as off-campus community service jobs, such as tutoring elementary students.

The application process is posted annually on **The Office of Financial Aid website**.

2018-2019

Financial Need

Once admitted to Notre Dame of Maryland University, a student's completed FAFSA will be reviewed to determine their financial need according to federal standards. Decisions regarding how much parents and students can be expected to contribute from their income and assets are based on federal need analysis formulas and University policies.

Financial need is defined as the difference between the Cost of Attendance (COA) and the Estimated Family Contribution (EFC).

Cost of Attendance (COA):

The cost of attendance includes tuition, fees, on and off campus room and board costs, and additional allowance for books, supplies, transportation and personal expenses.

Estimated Family Contribution (EFC):

The family is expected to contribute to the student's education. A dependent undergraduate student's family includes parents and/or stepparents. Independent undergraduate students' families include the student and spouse, if applicable. FAFSA data is used to determine the amount of the family contribution. The family's financial circumstances are evaluated in a consistent and equitable manner, recognizing special circumstances that alter a family's ability to contribute to the student's education.

Financial Need:

Financial need is the amount remaining when the EFC is subtracted from the COA.

Policies

Notre Dame of Maryland University complies with federal and state regulations to establish policies and procedures for federal, state, and institutional financial aid. Students are encouraged to review all financial aid policies at Notre Dame. Students needing further assistance or more information should contact the Office of Financial Aid.

Not all colleges or universities present policy and procedure information in the same manner. Therefore, students should not assume the information contained within these pages can be applied towards another institution.

Communication and Confidentiality

Students must monitor their Notre Dame e-mail for communications from the Office of Financial Aid.

When students contact the Office of Financial Aid using their personal account (non-Notre Dame email account), the response will be sent to the student's Notre Dame email account.

Students must use Web Advisor to monitor the amounts and status of their financial aid awards.

Students must contact the IT Department at 410-532-5200 for problems accessing Notre Dame email or WebAdvisor.

Confidentiality Policy

The Family Educational Rights and Privacy Act (FERPA) requires the Office of Financial Aid to release detailed financial aid and billing information only to the student.

The student may, however, authorize another person to obtain his/her personal information by completing an Authorization to Release Information with the Registrar's Office.

If a student requires copies of their guardian's tax returns, NDMU requires a written release from the guardian to the Office of Financial Aid, specifying which of their documents can be released.

All visitors to the Office of Financial Aid must present a valid ID (student ID card or driver's license) before student specific information can be released.

Map It

©2018 Notre Dame of Maryland University

Contractual/Consortium Agreements Policy

Consortium Agreements

The Office of Financial Aid does not routinely participate in any Consortium Agreements to serve as a home institution. Students may petition the Office of Financial Aid to participate in Consortium Agreements on a case by case basis.

Contractual Agreements

The Office of Financial Aid participates in a contractual agreement with John Hopkins School of Medical Imaging for students pursuing the undergraduate degree in Radiological Sciences.

The undergraduate Radiological Sciences Major requires a period of clinical study at Johns Hopkins Hospital, but allows students to earn their degree from NDMU. During this entire Program of Study, *federal financial aid* is processed through NDMU.

The Johns Hopkins School of Medical Imaging is recognized as an eligible institution of higher education for purposes of *state* financial aid programs. These include Maryland State Scholarships and Veterans Benefits but do not include Federal Financial Aid such as Pell Grants and Direct Subsidized/Unsubsidized Loans. Students may also apply for a low interest loan through The Johns Hopkins Federal Credit Union (JHFCU). The applicant must meet JHFCU loan requirements. The Schools of Medical Imaging do not guarantee loan approval by JHFCU. Specifics about loan policies can be addressed at the time of the applicant's interview or through the school office. All financial arrangements must be resolved before attending the respective program.

NDMU Catalog

2018-2019

Courses - Dropping

The overall consequences of dropping courses depend on EACH of the following:

- The aid a student has been awarded,
- the number of credits retained, and
- the point in the semester the course was dropped and the tuition refund period in effect (check the Academic Calendar).

Students could owe additional money to the university (which would be due immediately) or students could have additional funds returned to them from the university in the form of a refund. In some cases, eligibility for aid could be impacted for future semesters. Refer to the Satisfactory Academic Progress (SAP) Policy for more information.

Students must check with the Office of Financial Aid before dropping from any and all courses to determine if their aid will be impacted.

NDMU Catalog

2018-2019

Courses - Withdrawal

Withdrawing from the University may have both academic and financial aid consequences. Students are encouraged to understand the consequences before deciding to withdraw.

If students complete 60 percent or less of the term prior to Withdrawal, they may be required to repay a substantial portion of their financial aid.

As with dropping a class, the specific financial consequences for each student depends on several factors:

- The amount and type of financial aid the student has been awarded for the term,
- the amount of initial charges, as well as adjusted charges, and
- the point in the term of the Withdrawal (including the refund period in effect).

The student could owe additional money to the university (which would be due immediately), or the student could have additional funds returned to them from the university in the form of a refund. In some cases, students could have aid adjusted for future terms.

Notre Dame of Maryland University is required to review a student's account and recalculate eligibility in the following situations:

- A student completely withdraws from all classes during the semester,
- a student never attend any classes during the semester, and/or
- a student does not complete *all* modules (classes that do not span the entire length of the semester) for which she/he has registered during the semester.

The Office of Financial Aid is responsible for reporting in the calculation the last date of attendance as determined by the institution using the last date of attendance or the last date of academically related activity. If neither of these dates are available, then the date the student initiated the withdrawal process will be used.

Confirmation of future enrollment within the same semester will prevent the recalculation process from being initiated. If a student decides that dropping a single course during the semester is

necessary, but expects to complete the subsequent module courses during the same semester, he or she will be given the option to confirm that intention by responding to email notice from the Office of Financial Aid. Without documented confirmation by the student, the Office of Financial Aid will assume the student ceased attendance and will begin the Return of Title IV funds process.

The federal recalculation is determined on a pro-rated basis taking into consideration the actual number of days a student is in attendance. Once the recalculation is completed, the student will receive notification from the Office of Financial Aid of any change to his/her financial aid.

NDMU Catalog

2018-2019

Disbursement of Funds Policy

Student financial aid disburses to their account after the semester has started. All aid disburses directly to the student account to first pay all institutional charges. Should the student have an outstanding credit balance after disbursement, the excess will be refunded to the student. Please contact the Business Office regarding refund processes.

In order for any student to be eligible for loan funds, she/he must be enrolled at least half-time (6 credits for all students except Pharmacy students – 5 credits) at both census and at the time the loan funds are disbursed to the Business Office. For students whose classes are staggered, loan funds will not be released until the student has reached half-time enrollment (6 credits or more for undergraduate and graduate students, 5 credits or more for Pharmacy students, 3 credits or more for PhD students).

The Verification of Enrollment begins after the census date and is performed periodically throughout the semester. Scholarships, grants or loans from external sources will be posted as the funds are received by NDMU. Funds are posted weekly throughout the semester.

Leave of Absence and Return of Title IV Funds

Leave of absence

Students who must interrupt their studies for adequate reason, such as sustained ill health or military service, may be granted a Leave of Absence for a semester. Notre Dame of Maryland University's academic Leave of Absence Policy does not meet certain Federal Title IV requirements; therefore, a NDMU Leave of Absence after the semester starts will be treated as a federal withdrawal and would be subject to Title IV Return of Funds calculation.

Return of federal student aid

To remain eligible for federal student aid during the semester, the student must be attending classes, taking exams, and completing required course work.

Federal Regulations require the University to calculate a Return of Federal Student Aid funds for students who Withdraw (officially or unofficially) from all classes on or before the 60 percent attendance point in the semester and for students who Withdraw from any module-based courses. If the student officially Withdraws, the determination date is the date NDMU determines the student began the Withdrawal process. If the student does not provide official notification of his/her intent to Withdraw, the determination date will be determined as the date NDMU became aware the student was not attending class. For official Withdrawal, NDMU uses the date the student provided official notification to Withdraw as the Withdrawal date; for unofficial Withdrawals, the last date of academically related activity as given by a professor is used as the Withdrawal date.

The calculation required determines a student's earned and unearned Title IV aid based on the percentage of the enrollment period completed by the student. The percentage of the period the student remained enrolled is derived by dividing the number of days the student attended by the number of days in the period. Calendar days (including weekends) are used, but breaks of at least five days are excluded from both the numerator and denominator.

Until a student has passed the 60% point of an enrollment period, only a portion of the student's aid has been earned. A student who remains enrolled beyond the 60% point is considered to have

earned all awarded aid for the enrollment period.

The unearned portion of federal student aid funds will be returned to the appropriate aid program(s). The funds are returned in the following order:

- Federal Direct Unsubsidized Loan
- Federal Direct Subsidized Loan
- Federal Perkins Loan
- Federal Graduate PLUS Loan
- Federal PLUS Loan
- Federal Pell Grant
- Federal SEOG Grant

Students withdrawing from classes are responsible for payment of any balance due after the required return of federal student aid funds.

Earned aid is not related in any way to institutional charges. In addition, the University's refund policy and Return of Title IV funds procedures are independent of one another. A student who drops/withdraws from a course may be required to return unearned aid and still owe the University for the course. For more information on Notre Dame of Maryland University's Withdrawal and institutional charges policies, please consult the Catalog.

Students who stop attending all classes without officially Withdrawing will be subject to a Return of Federal Student Aid funds at the end of the semester based on the last documented date of attendance as determined by Notre Dame of Maryland University.

The responsibility to repay unearned Title IV aid is shared by the University and the student. For example, the calculation may require Notre Dame of Maryland University to return a portion of federal funds to the Federal Title IV programs. In addition, the student may also be required to return funds based on the calculation. A student returns funds to the Federal Direct Loan program based on the terms and conditions of the promissory note of the loan. A student who receives federal grants may be required to repay 50% of the funds received.

How to Handle a Grant Overpayment

Students who owe funds to a grant program are required to make payment of those funds within 45 days of being notified they owe this overpayment. During the 45 day period, students will remain eligible for Title IV funds. If no positive action is taken by the student within 45 days of being notified, Notre Dame of Maryland University will notify the U.S. Department of Education of the student's overpayment situation. The student will no longer be eligible for Title IV funds until they enter into a satisfactory repayment agreement with the U.S. Department of Education.

During the 45-day period, the student can make full payment to Notre Dame of Maryland University to cover the overpayment. The University will forward the payment to the U.S. Department of Education and the student will remain eligible for Title IV funds.

If a student is unable to pay their overpayment in full, they can set up a repayment plan with the U.S. Department of Education. Before doing this, please contact the Office of Financial Aid. Students will need to verify NDMU has referred their situation to the U.S. Department of Education before any repayment plan can be established.

Contact information to the U.S. Department of Education is as follows:

U.S. Department of Education
Student Financial Assistance Programs
P.O. Box 4222
Iowa City, IA 52245
Phone: 1-800-621-3115
E-Mail: DCS_HELP@ed.gov

For examples of the Return of Title IV funds calculations or questions regarding the overpayment policy, please contact the Office of Financial Aid.

Students considering Withdrawal should contact the Office of Financial Aid.

2018-2019

Loan Limits Each Year

In addition to the information below, please note the following:

- Once the borrower has received Direct Subsidized Loans for a period that is 150% of the published length of the borrower's current education program, the borrower is no longer eligible for Direct Subsidized Loans.
- A first-time borrower who loses eligibility for additional subsidized loans loses interest subsidy on subsidized loans received on or after July 1, 2013 if the borrower did not complete the program AND continues enrollment in the program OR enrolls in another program of the same of shorter length.

For students enrolled as regular students in eligible programs, annual Federal Direct Loan limits are as follows:

Dependent Undergraduate Students

	BASE AMOUNT (SUB/UNSUB)	ADDITIONAL LOAN (UNSUB)	TOTAL
First-year	$3,500	$2,000	$5,500
Sophomore	$4,500	$2,000	$6,500
Junior	$5,500	$2,000	$7,500
Senior	$5,500	$2,000	$7,500

Independent Undergraduate Students and Dependent Undergraduate Students Whose

Parents Cannot Borrow PLUS

	BASE AMOUNT (SUB/UNSUB)	ADDITIONAL LOAN (UNSUB)	TOTAL
First-year	$3,500	$6,000	$9,500
Sophomore	$4,500	$6,000	$10,500
Junior	$5,500	$7,000	$12,500
Senior	$5,500	$7,000	$12,500
Graduate Students (pursuing teaching certification, if independent)	$5,500	$7,000	$12,500
Pharmacy Students	$8,500	$24,500	$33,000

2018-2019

Merit Scholarships and Need-Based Grant Renewal Policy

Merit Scholarships and Need-Based Grants are offered to students as part of the undergraduate admissions process. These awards assume students will maintain continuous full-time enrollment and are only valid for the number of terms normally required to earn an undergraduate degree. The scholarship amounts are set as part of the admissions process and are not increased during the student's enrollment at NDMU. *The University reserves the right to cancel or reduce the scholarship of any student found guilty of disciplinary or honor code violations.*

Unless noted on the Award Letter, institutional scholarship funds are applied to tuition charges only. Should a student drop a class AND receive a tuition refund, their scholarship will be proportionally adjusted based on any lowered tuition cost. Scholarships will cancelled for students who choose to enroll on a part-time basis (less than 12 credits in both fall and spring semesters. Winterim courses will not be counted for the spring semester when determining full time status for institutional scholarships.)

Requirements for Scholarship and Grant Renewal

	Credit Requirement	**Minimum Cumulative GPA Requirement**	**Other Requirements**
Academic Achievement Scholarship	Earn a minimum of 12 credits per semester	2.5 throughout her 4 years	must remain continuously enrolled at Notre Dame
Endowed Scholarship	Earn a minimum of 12 credits per semester	2.5 throughout her 4 years	must remain continuously enrolled at Notre Dame
Knott Scholarship	Earn a minimum of 12 credits per semester	3.0 throughout her 4 years	must remain continuously enrolled at Notre Dame

Notre Dame Award	Earn a minimum of 12 credits per semester	2.5 throughout her 4 years	must remain continuously enrolled at Notre Dame
Notre Dame Award for Transfer Students	Earn a minimum of 12 credits per semester	2.5 throughout her 2-3 years	must remain continuously enrolled at Notre Dame
Presidential Scholarship	Earn a minimum of 12 credits per semester	2.5 throughout her 4 years	must remain continuously enrolled at Notre Dame
Transfer Scholarship	Earn a minimum of 12 credits per semester	2.5 throughout her 2-3 years	must remain continuously enrolled at Notre Dame

Renewal Requirements:

The Office of Financial Aid will review recipient's Cumulative Grade Point Average at the end each academic year to determine their eligibility for continued funding. To have their scholarships automatically renewed, recipients must achieve the requirements for their specific scholarship in the above-listed chart.

Financial Aid Appeals Committee

The Financial Aid Appeals Committee will review the academic records for all students who do not automatically meet the renewal requirements for their scholarship award. Students are placed on a Scholarship Warning after being reviewed at the end of each academic year if they fail to meet their scholarship requirements.

Students will receive written notification if the Committee adjusts or cancels their merit scholarship aid for the upcoming semester. Students have the right to appeal any decision adjusting their merit aid. Appeals must be filed within two weeks of notification that aid eligibility has been adjusted, and it must be made in writing to the Director of Financial Aid. Appeals are normally based on an unusual situation or condition preventing the student from achieving the published minimum required GPA or required credit amount needed to retain their scholarship(s). Appeals cannot be based on lack of knowledge of the scholarship requirements.

If an Appeal is granted, students will be placed on Scholarship Probation and must agree to a

Probation Contract. Students will be contacted by their Academic Advising Counselor to complete their Probation Contract. If terms of the Contract are not met the following semester, the scholarship will be terminated.

2018-2019

Rights and Responsibilities

Student Rights

1. To know what financial aid programs are available at Notre Dame of Maryland University,
2. to know how individual financial need was determined, how the student's budget was created, and what resources were considered in the calculation of the student's need,
3. to know the deadlines for submitting applications for each financial aid program available,
4. to know what portion of the financial aid was received that must be repaid - iff the aid is a loan, students have the right to know the interest rate, the total amount that must be repaid, the payback procedures, the length of time to repay the loan and when the repayment is to begin,
5. to know how the school determines whether a student is making satisfactory progress, and what happens if they are not, and,
6. to request an explanation of the various programs in their aid package.

Student Responsibilities

1. Students must monitor their NDMU email account and respond to requests from the Office of Financial Aid,
2. students must reapply for aid every year,
3. students must complete all application forms accurately and submit them on time - there are no exceptions as this is a federal mandate,
4. students must provide correct information. In most instances, misreporting information on financial aid applications is a violation of federal law and may be considered a criminal offense punishable by jail and/or fines,
5. students must complete all additional documentation, verification, correction, and/or new information requested by either the Office of Financial Aid or the agency to which they submitted their application,
6. students are responsible for reading and understanding all forms requiring their signature and for keeping copies of all documentation,

7. students must accept responsibility for all signed agreements,
8. students must be aware of NDMU's refund procedures and the consequences of withdrawing from classes,
9. students must report any change in their status to the Office of Financial Aid,
10. students must report any financial aid received from outside sources to the Office of Financial Aid,
11. students will use any financial aid granted to solely for educational expenses related to Notre Dame of Maryland University,
12. students must perform the work that is agreed upon in accepting a federal work-study award, and
13. students must repay all student loans whether or not they graduate or complete their Program of Study.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Satisfactory Academic Progress

Educational institutions that participate in federal financial aid programs are required to define and enforce Satisfactory Academic Progress (SAP) standards for those students receiving financial aid.

The standards used for financial aid recipients must be at least as rigorous as those applied to the general University population. These standards assure completion of a degree will occur, and within an established time frame.

The standards of Satisfactory Academic Progress measure a student's academic progress both qualitatively and quantitatively. Therefore, in addition to minimum Cumulative Grade Point Average (GPA) requirements, the federally-established standards include requirements that students progress in their academic Program of Study by successfully completing the majority of courses for which they enroll and place a limitation on the maximum period of time students can receive federal financial aid while pursuing a degree at an educational institution. In addition, certain types of courses are limited or excluded from eligibility.

These federal standards apply to all federal, state, and institutional need-based financial aid programs administered by the Office of Financial Aid. These standards of Satisfactory Academic Progress are required to maintain eligibility for financial aid. Policies differ depending on program type.

It is important to note that separate from the policy outlined here for financial aid purposes, the Office of Academic Affairs conducts reviews of student academic performance in accordance with university standards. Please refer to the latest academic *Catalog* for details about Academic Warning and Academic Probation.

Requirements for merit-based institutional scholarships exclusive of the federal standards, although institutional standards are applied.

Satisfactory Academic Progress Requirements

Maintain the required Cumulative Grade Point average of 2.0 for undergraduate students and 3.0 for graduate students,

- maintain a successful course completion rate (pace) of at least 67%,
- complete an academic Program of Study within the maximum timeframe (MTF) of 150% of the published length of the Program (undergraduates) or within the number of credits established by the Registrar's Office for the Program (graduate students), and
- meet requirements set forth by the Office of Academic Affairs.

Qualitative measure

Grade Point Average (GPA): maintenance of a minimum Cumulative Grade Point Average.

Quantitative measures

Pace/Progress

This measure assesses the pace at which a student progresses toward attainment of her/his degree. The calculation to determine the pace is to identify the number of credit hours completed toward the Program of Study and divide it by the number of credit hours attempted. To ensure quantitative progress, students are required to complete a minimum required percentage of all attempted courses.

Maximum Timeframe (MTF)

Federal law requires a Maximum Timeframe (MTF) be established during which a student receiving federal financial aid must complete their educational program. The MTF for an undergraduate Program of Study may be no longer than 150 percent of the published length of the educational program measured in academic years, semesters, or credit hours attempted. The MTF for a graduate Program of Study may be no longer than the number of credits established by the Registrar’s Office for the Program of Study. All courses taken while pursuing a bachelor’s degree count towards the MTF. If a student continues their educational pursuits toward a master’s degree, the MTF would reset for the graduate level program. If a student completes one degree and decided to earn a second degree, the MTF would reset.

Credits counted in the MTF are all attempted credits at NDMU (even when not a financial aid recipient) and all transfer credits accepted toward their academic Program of Study (at the time of SAP Review). At the point that all required coursework for an academic Program of Study has been completed, financial aid eligibility will be suspended even if the student does not apply to graduate.

The maximum timeframe for NDMU merit-based and need-based funding is 8 semesters for students who started as first-year students and 6 semesters for students who started as transfers.

Academic Probation

Students who are placed on Academic Probation by the Office of Academic Affairs are considered to be failing SAP standards (even if the GPA, Pace, and MTF requirements are being met).

Frequency of Review

The Office of Financial Aid will review the status of all financial aid applicants annually, when grades are available. Winterim credits will be reviewed with spring semester credits. The review consists of the cumulative record of all prior semesters (including semesters when a student may not have received financial aid funding), including transfer credits accepted toward an academic program at the time of the SAP Review. All elements of Satisfactory Academic Progress will be evaluated: Cumulative Grade Point Average, maximum timeframe, pace/progress rate, and Academic Probation.

Federal Grants

Federal Grants, unlike Loans, do not have to be repaid. Federal Grants have varying award criteria but are considered a foundation of financial aid upon which other federal or non-federal sources might be added.

Grants have varying maintenance requirements. Some include but are not limited to:

- Minimum enrollment requirements (including prorated amounts depending on enrollment,
- minimum Satisfactory Academic Progress requirements,
- maximum award,
- award based on financial need,
- award based on Total Cost of Attendance,
- degree sought, and
- submission deadlines.

Additional Resources

- Iraq and Afghanistan Service Grant
- Pell Grants
- Supplemental Educational Opportunity Grant (SEOG)
- TEACH Grant Program

2018-2019

Iraq and Afghanistan Service Grant

A student whose parent or guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after September 11, 2001 may be eligible to receive the Iraq and Afghanistan Service Grant.

Additional Student Eligibility Requirements

- Must be ineligible for a Federal Pell Grant due only to having less financial need than is required to receive Pell funds,
- be under 24 years old, or
- enrolled in college at least part-time at the time of the parent's or guardian's death.

The grant award is equal to the amount of a maximum Pell Grant for the award year – not to exceed the cost of attendance for that award year.

Grants are similar to scholarships in that they are free financial aid students are not required to repay. Grants are awarded through federal, state, or University funds to students with high financial need.

Information from the Free Application for Federal Student Aid (FAFSA) is used to determine eligibility for the federal, state and institutional grants.

Pell Grants

A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants are awarded only to undergraduate students who have not earned a bachelor's or a professional degree. Pell Grants are considered a foundation of federal financial aid, to which aid from other federal and nonfederal sources might be added. There are limits on the maximum amount a student is eligible to receive each academic year and in total (aggregate Pell Grant limit).

The EFC (Expected Family Contribution) calculated by the FAFSA (Free Application for Federal Student Aid) determines if the student is Pell-eligible and the amount the student is entitled to receive. To qualify for a Pell Grant, the Office of Financial Aid must receive a valid FAFSA while the student is enrolled. If the FAFSA is received after the semester is over, the Pell Grant awarded must be based upon completed credits.

Students are limited to 12 semesters (600%) of Pell Grant eligibility during their lifetime. According to the Consolidated Appropriations Act, 2012 (Public Law 112-74), the following are basic guidelines for Pell eligibility:

- Available to undergraduate students with no prior bachelor's or professional degree,
- the *maximum* award for 2018-19 year is $5,920,
- the amount of each Federal Pell Grant depends on a student's financial need, cost of education, and your enrollment status, and
- the amount reported on a student's Award Letter is based on student’s enrollment at the time the Award Letter was generated. If the student is enrolled for less than full-time, their award will be adjusted accordingly (6-8 credits = 1/2 Pell, 9-11 credits = 3/4 Pell and 12+ credits = full-time Pell).

Supplemental Educational Opportunity Grant (SEOG)

Available to Pell Grant eligible undergraduate students with exceptional financial need.

The amount awarded is determined by the student's need and the availability of funds at the Univesity.

To apply for the grant, students should complete a Free Application for Federal Student Aid (FAFSA) by NDMU's priority deadline of February 15. This grant is awarded on a priority basis using the FAFSA receipt date and based on the availability of funds.

2018-2019

TEACH Grant Program

Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to $4,000* per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families in a high need subject area.

Due to sequestration, TEACH grant awards where the first disbursement is made after October 1, 2014, must be reduced by 7.3% from the award amount for which the student would otherwise have been eligible to receive.

In exchange for receiving a TEACH Grant, students/graduates must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income students (see below for more information on high-need fields and schools serving low-income students). As a recipient of a TEACH Grant, students/graduates must teach for at least four academic years within eight calendar years of completing the Program of Study for which they received a TEACH Grant.

Eligibility Requirements:

- Must complete a Free Application for Federal Student Aid (FAFSA),
- be a U.S. Citizen or eligible non-citizen,
- be enrolled as an undergraduate, post-baccalaureate, or graduate student in a post secondary educational institution,
- be enrolled in coursework necessary to begin a career in teaching or plan to complete such coursework. Such coursework may include subject area courses (e.g., math courses for a student who intends to be a math teacher),
- meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25), and

- sign a TEACH Grant Agreement to Serve (see below for more information on the TEACH Grant Agreement to Serve).

If an applicant meets these requirements, they must complete a TEACH Grant Application and submit it to the Office of Financial Aid.

Additional Information

The Department of Education's Annual Directory of Low-Income Schools for Teacher Cancellation Benefits includes both elementary and secondary schools.

Other identified teacher shortage areas can be found at http://www.ed.gov/about/offices/list/ope/pol/tsa.doc.

High-need fields include:

- Bilingual Education and English Language Acquisition
- Foreign Language
- Mathematics
- Reading Specialist
- Science
- Special Education

For further information, please see http://www.studentaid.ed.gov/PORTALSWebApp/students/english/TEACH.jsp or email the Office of Financial Aid.

TEACH Grant Agreement to Serve

If a student is eligible to receive the TEACH Grant, they must sign a TEACH Grant Agreement to Serve that is available electronically on the Department of Education Web site. The TEACH Grant Agreement to Serve specifies the conditions under which the grant will be awarded, the teaching service requirements, and includes an acknowledgment by the student they understand that if they do not meet the teaching service requirements, they must repay the grant as a Federal Direct Unsubsidized Loan, with interest accrued from the date the grant funds were disbursed.

For each TEACH Grant-eligible program for which the student received TEACH Grant funds, they must serve as a full-time teacher for a total of at least four academic years within eight calendar years after they completed or withdrew from the academic Program of Study for which they received the TEACH Grant. The student must perform the teaching service as a highly-qualified teacher at a low-income school. The term highly-qualified teacher is defined in section 9101(23) of

the Elementary and Secondary Education Act of 1965 or in section 602(10) of the Individuals With Disabilities Education Act.

Loans

An education loan is a form of financial aid that must be repaid, with interest. Education loans come in three major categories: student loans, parent loans, and alternative loans (also called private student loans).

The ultimate responsibility of financing an education lies with the student. Students who finance their education with student loans must understand that with the acceptance of the loan comes the responsibility of prompt and full repayment.

The University stresses this responsibility not only because loan repayment is ethically correct, but also because loan default could eventually lead to loss of financial aid to future students.

Types of Loans

- Federal Direct Subsidized and Unsubsidized Loans
- Federal Direct Parent PLUS Loan
- Federal Perkins Loan
- Private Student Loans

Additional Resources

2018-2019

Alternative and Private Student Loans

Alternative or private loans are non-federal loans offered by some banks and credit unions.

The purpose of an alternative or private loan is to supplement a student's financial aid package. Alternative loans are not federally endorsed or guaranteed, but they generally must be certified by the Office of Financial Aid at NDMU. An alternative loan cannot exceed your cost of attendance (financial aid budget) minus all other financial aid.

Note: Notre Dame of Maryland University does not endorse any specific lender or group of lenders. The application for an alternative student loan is made directly through the lending institution. As a part of this process, the Office of Financial Aid will certify enrollment and other information for the borrower.

2018-2019

Federal Direct Parent PLUS Loans

Parent PLUS loans help parents of dependent undergraduate students pay educational expenses. Loan funds come directly from the U.S. government. Parents can borrow up to the difference between NDMU's estimated Cost of Attendance and other aid or resources expected to be received. Parent PLUS loans have an interest rate of 7% for the 2018-2019 Aid Year.

Eligibility

A parent applying for a Federal Parent PLUS Loan must be the biological or adoptive parent of a dependent undergraduate student. Step-parents whose information is included on the FAFSA are also eligible to apply for the loan. Parents must have an acceptable credit history or be able to apply with an eligible co-signer. Application process is posted on the financial aid website.

Disbursement Process

- When the loan is scheduled to disburse, the Department of Education will send the funds to Notre Dame electronically.
- All funds will disburse through the student's NDMU student account.
- After tuition and other charges on the account are paid, any remaining balance will be issued to the student or parent via a check (depending upon how the parent completed the application), and will be mailed to the address on record with the University.

PLUS Loan Fees

For 2018–2019 Parent PLUS loans, which will disburse after October 1, 2018 and before October 1, 2019, a 4.276% origination fee will be charged by the U.S. Department of Education.

Repayment Terms

Repayment begins within 60 days after the final disbursement of each loan. Borrowers may be able to postpone principal payments while the student is in school (up to four years). Contact the Direct Loan Servicer for repayment and forbearance options. The maximum repayment period is 10 years, and the minimum monthly payment is $50.

NDMU Catalog

2018-2019

Federal Direct Subsidized and Unsubsidized Loans

The Federal Direct Subsidized Loan is a student loan that is available to undergraduate students only. The Federal Direct Unsubsidized Loan is a student loan that is available to undergraduate, graduate, and pharmacy students. Loan funds come directly from the U.S. government.

To Apply for the Federal Direct Subsidized or Unsubsidized Loan:

First, the student must complete the Free Application for Federal Student Aid (FAFSA) and meet the eligibility requirements. Then, the student must follow the steps below.

Returning Students

There are no steps required to renew Federal Direct Subsidized or Unsubsidized loans for students who received this type of loan at NDMU during the previous academic year.

New Students/First Time Borrowers at Notre Dame:

Go to studentloans.gov and log in using the FSA ID, then:

Step 1: Choose the option Complete Entrance Counseling.

Step 2: Choose the option Complete Master Promissory Note (MPN).

Subsidized vs. Unsubsidized Loans

A student's Federal Direct Loan award may be Subsidized, Unsubsidized or the combination of the two.

Subsidized Direct Loan

- Subsidized loans are only available to undergraduate students.
- The Subsidized Loan is awarded for the academic year and is based on the student's financial need, dependency status, and academic grade level.
- Financial need is calculated by the Cost of Attendance minus the Estimated Family Contribution (EFC) determined by FAFSA and any other aid received.

- The federal government subsidizes or pays the interest on the loan while the student is enrolled at least half-time and in an eligible period of deferment.
- Interest will be charged once the student's grace period begins.

Unsubsidized Direct Loan

- The Unsubsidized Loan is awarded based on the Cost of Attendance minus any other aid the student will receive, the student's dependency status, and the student's academic grade level.
- Students are responsible for the interest on this loan from the time the loan is disbursed until it is paid in full. The federal government DOES NOT subsidize the interest on this loan.
- Students may choose to defer the interest during enrollment and deferment periods, but it will be capitalized (added to the principal amount).

Interest Rates

For 2018-2019, the interest rates on all Federal Direct Loans (both subsidized and unsubsidized) is 4.45% for undergraduate students, and 6% for graduate students.

Fees

For 2018–2018 loans, which will disburse after October 1, 2018, a 1.069% origination fee will be charged by the U.S. Department of Education.

Loan Limits for Each Year

Once the borrower has received Direct Subsidized Loans for a period that is 150% of the published length of the borrower's current education program, the borrower is no longer eligible for Direct Subsidized Loans.

A first-time borrower who loses eligibility for additional subsidized loans loses interest subsidy on subsidized loans received on or after July 1, 2013 if the borrower did not complete the program AND continues enrollment in the program OR enrolls in another program of the same of shorter length.

For students enrolled as regular students in eligible programs, annual Federal Direct Loan limits are as follows:

	BASE AMOUNT (SUB/UNSUB)	ADDITIONAL LOAN (UNSUB)	TOTAL
First-year	$3,500	$2,000	$5,500

Sophomore	$4,500	$2,000	$6,500
Junior	$5,500	$2,000	$7,500
Senior	$5,500	$2,000	$7,500

Independent Undergraduate Students and Dependent Undergraduate Students Whose Parents Cannot Borrow PLUS

	BASE AMOUNT (SUB/UNSUB)	ADDITIONAL LOAN (UNSUB)	TOTAL
First-year	$3,500	$6,000	$9,500
Sophomore	$4,500	$6,000	$10,500
Junior	$5,500	$7,000	$12,500
Senior	$5,500	$7,000	$12,500

Graduate and Pharmacy Students

	BASE AMOUNT (SUB/UNSUB)*	ADDITIONAL LOAN (UNSUB)	TOTAL
Graduate Students (pursuing Master's or Ph.D degree, CASE program)	$8,500	$12,000	$20,500
Graduate Students (pursuing teaching certification, if independent)	$5,500	$7,000	$12,500
Pharmacy Students	$8,500	$24,500	$33,000

Cumulative (Total) Loan Limits

Federal regulations set aggregate, or total, loan limits in addition to the annual loan limits. Students cannot borrow more than the Aggregate Loan Limit for all subsidized and unsubsidized loans at all schools.

	MAXIMUM SUBSIDIZED	MAXIMUM UNSUBSIDIZED
Dependent Undergraduates	$23,000	$31,000
Independent Undergraduates	$23,000	$57,500
Graduate/Professional Students	$65,500	$138,500
Certain Health Professional Students (ie Pharmacy)	$65,500	$224,000

Federal Perkins Loans

The Perkins Loan is a federally regulated student loan that colleges and universities receive from the U.S. Department of Education. Funding is limited and is generally awarded to first year students with very high financial need. The average award is $1,000 per year.

The interest rate on Perkins loans is fixed at 5%.

Perkins Loans have a nine (9) month grace period after the student graduates or ceases half-time enrollment before repayment begins.

External Scholarships

Office of Financial Aid promotes a variety of external scholarships to students. External scholarships vary greatly from year to year. Therefore, the Office of Finanacial Aid internally posts these external scholarships, when available. Students are encouraged to consult with the Office of Financial Aid to determine external scholarship availability.

Students are responsible for reporting any external scholarship sources to the Office of Financial Aid.

2018-2019

Institutional Scholarships

Awarded by the Office of Admissions to prospective first-year students and transfers, these awards range from $1,000 to full tuition.

Notre Dame of Maryland University selects recipients based on academic achievement, participation in activities, and leadership roles. Scholarship recipients are expected to continue striving for excellence in these areas while enrolled at the University. The awards are renewable for four years or eight semesters, as long as the student is enrolled full time (scholarships for transfer students are limited to six semesters). All applicants for admission are automatically reviewed for an award. The award amounts DO NOT increase.

Institutional Scholarships and Grants have requirements a student must maintain in order to keep their award from year to year. If requirements are not met, a student's aid could be placed on Probation or terminated.

Students pursuing a second bachelor’s degree are not eligible to receive institutional aid from NDMU, with the exception of Nursing students who are reviewed for institutional aid as part of the admissions process.

NAME	AMOUNT	ELIGIBILITY	ELIGIBLE STUDENTS
Academic Merit Scholarships	$17,000-$25,000	3.0 grade point average and higher Combined SAT of 1050 (Critical Reading and Math scores) or higher Strong co-curricular involvement and high class ranking	First-year college students

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

NDMU Endowed Scholarships

The following scholarships are awarded upon admission to the university and, except where specifically noted otherwise, are awarded for four years to entering Women's College students.

The Alpha Sigma Lambda Scholarship

Established in 1987 by the Delta Chi Chapter of Alpha Sigma Lambda for students in the College of Adult Undergraduate Studies who are members of this honor society.

The Jeanne Diserio Alter Scholarship

Founded in 1981 by Jeanne Alter ’53, and designated for science majors. A biology major and later mother of nine children, Alter valued her education at Notre Dame and generously offers that opportunity to other students through her scholarship. First priority is given to a student from New Jersey and then Baltimore.

The Alumnae Undergraduate Scholarship

Established by the first Alumnae Constitution in 1896, an Alumnae Association campaign, led by Mrs. J. Crossan Cooper (Louise Carrell Jenkins), raised funds for this scholarship. Since then, the scholarship has been awarded every year to descendants of alumnae.

The Mother Mary Vitalia Arnold Scholarship

Established in 1976 and named in recognition of the provincial leader of the School Sisters of Notre Dame in Baltimore, 1953-1965, the scholarship continues to support students who exhibit leadership ability.

The Arts and Scholars Scholarship

Founded as a result of the Arts and Scholars Balls of 1976 and 1977 which were organized by Clarisse Mechanic and Mrs. Mark F. Collins.

The Ladonna W. and Raymond J. Baginski Centennial Scholarship

Established in 1992 by Raymond and Ladonna Baginski ’66 and designated exclusively for English majors.

The M. Nelson Barnes Sons/John L. Stasiak Engineering Scholarship

Founded in 1991 by John L. Stasiak to benefit future women engineers in obtaining a Notre Dame education.

Sister Mary Gabrielle Blake Scholarship

Established in 1965 as a result of the bequest of Eleanor F. Blake, aunt-in-law of Gabrielle Blake, SSND, and restricted by the donor to a qualified applicant.

The Margaret Carlin Boyle/Suzanne Boyle Herrmann Scholarship

Founded in 1995 by Margaret Carlin Boyle ’32, and her daughter Suzanne Boyle Herrmann ’65. Their generosity has helped students pursue social science or economics majors.

The Ruth Jenkins and William Beverly Bristor Scholarship

Founded by William Beverly Bristor Jr. in honor of his parents. In 1998 Bill bequeathed funds for numerous scholarships for Notre Dame students. Bill valued leadership, scholarship and commitment to service.

The Evelyn and Joseph T. Bunn Memorial Scholarship

Founded in memory of her mother and father in 1995, Pat Bunn Carter designated her scholarship exclusively for Institute of Notre Dame (IND) graduates seeking certification in the teaching field on a primary or secondary level.

The Alice Kirkham Burk Scholarship

Established in 1961 by Henry J. Knott Sr. in honor of Mrs. Knott’s mother. Henry is best remembered for his generosity and philanthropic contributions, especially to Catholic schools throughout Maryland. Awarded to a graduate of the Institute of Notre Dame.

Josephine Buzek Scholarship

In 2012 Dr. Mildred Buzek Otenasek established this scholarship in memory of her mother, Josephine Buzek, who fostered her interest in political affairs.

Winifred and Florence E. Cahill Scholarship

Established in 1962 by Florence E. Cahill and Winfield S. Cahill, friends of the University. Florence

Cahill's intention was to support students from the Baltimore area.

Daniel Carroll Bicentennial Scholarship

Founded in 1983 by Virgina Geiger, SSND, professor of history/philosophy at Notre Dame. Sister was both a scholar and an admirer of Daniel Carroll and his descendants. Funds resulting from her books, symposiums and lectures contributed to this scholarship honoring Carroll.

Frank and Bertha Chlan Centenary Scholarship

Endowed on the occasion of Notre Dame's 100th anniversary by Nathalie Chlan Batts '40 and named for her parents, this scholarship focuses on students with proven academic promise.

Elizabeth Sullivan Clem Scholarship

Established in 1969, the scholarship was provided by Elizabeth Clem in her estate.

Continuing Scholars Fund

Founded in 1994 by the Continuing Education (CE) Students' Organization Board under the leadership of Pam Wilson C'93. Canby Robertson C'98, Marianna Russell C'94, Virginia Rugemer C'91 and other CE graduates continue to support this fund for school related expenses.

Continuing Studies Scholarship

Established in 1984, this scholarship includes monetary support for the College of Adult Undergraduate Studies students at Notre Dame.

Rose Cooper and Rita C. Hubbard Scholarship

Founded in honor of his wife, Rose, and his daughter, Rita '50, by Charles J. Cooper in 1991. This scholarship is designed for students who have both English and writing aptitude and recognized service to others.

Colleen Marie Coughlin Scholarship

Founded in 1952 by Winifred and Patrick Coughlin in memory of their daughter. The Coughlins wanted to enable other young women to have the college education Colleen Marie was unable to receive.

Miriam Blount Craig Scholarship

Bequeathed in 1987 by Miriam Blount Craig '14 to Notre Dame, where she and her daughter, Barbara Craig Boyle '44, were educated.

Martin de Porres Scholarship

In honor of St. Martin de Porres, this scholarship was created in 1959 for a Catholic African American student.

Diamond Jubilee Scholarship

Established in 1970 to honor Notre Dame's 75th anniversary. Students who qualify for this scholarship are required to have high educational potential.

Sister Mary Immaculata Dillon Scholarship

Established in 1979 by Marie C. Hebner '19, who led the alumnae campaign honoring Mary Immaculata Dillon, SSND, Ph.D. Sister served Notre Dame as Academic Dean and in many other capacities from 1906 to 1931.

Sister Mary Denise Dooley Scholarship

Established in the early 1980s by both Notre Dame and Eastman Kodak Loan Fund. Because Sister Denise, Ph.D., Sigma Xi, was a professor of chemistry, this scholarship is restricted to students with special interest in this field.

Margaret Dougherty-Smith Scholarship

Established in 2007 by the bequest of Margaret Dougherty-Smith '44 for students of various nationalities who participate in extra-curricular activities and show an ability to help others but need financial help to remain in college.

Sister Mary Jeannette Duffy Scholarship

Established by Ruth and Roberta Duffy in memory of their aunt in 1988. Sister Mary Jeannette was a professor of math and English and the treasurer of Notre Dame from its founding until her death in 1901.

Kenneth B. and Loraine H. Duke Memorial Scholarship

Founded in 1986 by Virginia Coode Duke '46, in memory of her parents. The scholarship is offered to an academically qualified student majoring in a foreign language.

Monsignor William Kailer Dunn and Dr. E. Catherine Dunn Endowed Scholarship Fund

Notre Dame honors the memory and philanthropic vision of the Dunn siblings by combining the generous gift from Catherine's estate with the corpus of the Monsignor William Dunn Fund

established in 1966 by Monsignor Dunn, a strong advocate of education for women. He was both teacher and chaplain at Notre Dame where his sister, Dr. E. Catherine Dunn ’38, completed her undergraduate degree. Their generosity benefits students demonstrating academic capability and financial need.

Beatrice Fitzgerald Dunning Memorial Scholarship

Established by Dr. Henry A.B. Dunning Sr. in memory of his first wife. Dr. Dunning received an honorary degree from in 1958 and served on the president’s advisory board.

Elenita Eberstadt Scholarship

Established in 1954 by Esther Eberstadt Baldwin in the name of her mother. A former trustee of Notre Dame, Christian leadership was a quality Esther valued.

Sister Maura Eichner Scholarships

An inspirational professor of English for 52 years, Sister Maura’s students and friends established two scholarships in her honor in 1986—one for an incoming first-year student and another for a rising junior with talent in writing and literature. Sister Maura ’41 chaired the English department, wrote several books of poetry and enjoyed the success of her students who published books, essays and poems.

Kenneth H. Ekin Memorial Scholarship

Established in 2006 by Patricia F. Ekin through her estate in honor of her husband, Kenneth H. Ekin, for deserving students who demonstrate academic ability and achievement.

Sister Bridget Marie Engelmeyer Scholarship

In 1979, Notre Dame recognized Sister Bridget Marie’s 26 years of service as an associate professor of English, registrar, academic dean and archivist with a scholarship in her honor.

Laurette S. and C. Leonard Fardwell Scholarship

Established in 1985 by Dr. Virginia Fardwell Otto ’40 to honor her parents. Dr. Otto, professor of language at Notre Dame from 1946 to 1952, provided the scholarship for a student with financial need and the desire and ability to further her studies in the romance languages: French, Spanish or Italian.

Loretta Callis Farley Scholarship

Established in 1986 by Pierre J. Farley in memory of his wife, Loretta C. Farley ’48.

Sister Kathleen Feeley Scholarship

Established in 1982 by the Sister Kathleen Feeley Scholarship Committee in honor of the president of Notre Dame of Maryland University, 1971 to 1992, supports students of outstanding academic ability.

Sister Mary Virgina Geiger Scholarship

Founded in honor of Sister Virgina in 1992 by a campaign chaired by Dr. Stephen Vicchio and coordinated by Marie de Chantal Haigley, SSND. Sister Virgina requested that student qualifications be based on both merit and need.

Golden Jubilee Scholarship

Endowed by Notre Dame in 1945 to honor the University's 50th anniversary. It is specifically awarded to a student from the Institute of Notre Dame.

Florilla Webb Gosselin Scholarship

Founded by Edward N. Gosselin in 1974 in honor of his wife. It is designed to support a student who transfers to Notre Dame as a junior.

Aurora G. Granofsky Scholarship

Established as an estate gift from Aurora Granofsky's Revocable Trust in 2000. It is restricted to deserving students of Mexican citizenship or immediate descent.

Hansen Family Scholarship

Endowed in 1995 by George O. and Mabel Hansen in honor of the George Hansen Family. The recipient is asked to be involved in a number of service projects to benefit the community each year.

Haussner Writing Scholarship

Established in 1975 by Frances Wilke Haussner. The recipient must earn commendable grades and enroll in at least one writing course each year.

William Randolph Hearst Jr. Scholarship for Minority Students

Established by the William Randolph Hearst Foundation in 1992. The scholarship is restricted to minority students with high ability, outstanding character and financial need who intend to stay in the U.S. after graduation.

Gladys Justice Endowed Scholarship

George W. Justice, Jr. established this scholarship in memory of his wife. Preference is given to a student pursuing a degree in the Classics with an interest in language or international study. The Gladys Justice Scholar will retain the scholarship until the completion of the undergraduate degree, providing academic standards and the Honor Code of the University are met.

Sister Mary Benigna Kearney Scholarship

Established in part by Marie P. Kearney in 1982 as an estate gift in honor of her sister, Sister Mary Benigna Kearney.

Mother Mary Maurice Kelly Scholarship

Endowed by Notre Dame in memory of Mother Mary Maurice Kelly. Mother Maurice was provincial leader of the Baltimore Province of School Sisters of Notre Dame from 1965 to 1971.

John Fitzgerald Kennedy Memorial Scholarship

Founded by Notre Dame of Maryland University in memory of the 35th president of the United States.

Georgianna Longest Kiefer Scholarship

The estate of Georgianna Longest Kiefer C’73 established this scholarship in 1980. The scholarship is restricted to students in the College of Adult Undergraduate Studies majoring in art or in an art-related subject.

Monsignor J. Lawrence Kilkenny Scholarship

Established in 1962 by an estate gift from Right Reverend Monsignor J. Lawrence Kilkenny, pastor of St. Patrick’s Church, Cumberland, Md. This scholarship has been extended to all Western Maryland high schools.

Martin Luther King Memorial Scholarship

Endowed by Notre Dame in 1968 in memory of Dr. Martin Luther King Jr. Guidelines specify that a qualified African American student, preferably from Baltimore, be awarded the scholarship.

Michael Kivlighan Scholarship

Established about 1965 by Michael Kivlighan and his wife. Michael was the father of Miriam Kivlighan ’22, SSND, and dean of students. The scholarship was restricted by the donor to qualified applicants from Virginia.

Agnes and Edward V. Klug Memorial Scholarship

Established in 1963 by the estate of Mrs. Klug, the mother of three alumnae.

Ann Boyles Knipper Scholarship

To honor his deceased wife, Ann Boyles Knipper ’40, this scholarship was established by Roy W. Knipper Jr. in 1987. It was awarded in 2006 for the first time to a student in financial need.

Suzanne Mattingly Lackey Scholarship

Established in 1976 by an estate gift of Suzanna Mattingly Lackey ’35. It is available to a promising young scholar.

James J. Lacy and Martin J. Welsh Scholarship

James Lacy served as Honorary Co-Chair of Notre Dame Golden Jubilee Endowment Committee with Martin J. Welch, Jr., in 1947. Mr. Lacy was active in community affairs serving on many boards in Maryland, was comptroller in Governor Lane’s administration from 1947-1950 and advised Notre Dame’s President from 1949–1950.

Latin American Scholarship

Established in 1999 by an anonymous donor with the desire to bring students to Notre Dame from Puerto Rico and Central and South America, especially Guatemala, Honduras, Argentina, Brazil, Chile, Paraguay and Peru.

Virginia Farinholt Lewis Scholarship

Founded in 1988 by an estate gift of Virginia Farinholt Lewis ’31. Students are selected by the president of Notre Dame.

Corinne B. Linton Scholarship

The Corinne B. Linton Scholarship was established in 2009 with a bequest. Dr. Linton was the co-author of *Hospital Based Education* and compiler of a series of reference guides in medical terminology. The scholarship is designated to benefit an American citizen.

Virginia Starkey List Scholarship in the Humanities

Founded in 1976 as the result of an estate gift from Virginia Starkey List. It is designed for a student concentrating in the humanities.

Clinton K. Macsherry Sr. Scholarship

Founded in honor of Clinton Kilty Macsherry Sr., in 1967 by the family and friends of Marian Shriver and Clinton Macsherry Sr. The latter was a member of Notre Dame's president's advisory board, 1955 to 1967.

Helen K. and Frederick Maisel III Scholarship

This scholarship is awarded each year to a qualified applicant from Mount de Sales Academy or Catonsville High School for admission to the Women's College, CAUS, and the Schools of Nursing and Education, with the goal of majoring in any of the following subjects: Education, Religious Studies, Chemistry, Nursing, or Pre-Med.

Sister Mary Paula Manning Memorial Scholarship

Donated by Ray Manning and his family in 1977 in memory of Sister Mary Paula Manning '32. Sister Paula served Notre Dame as associate professor of math, registrar and Notre Dame trustee. Both a high interest and achievement in math are required of the recipient of this scholarship.

Sister Mary Cordula Marck Scholarship in Languages

Endowed by Notre Dame in 1983 as a jubilee gift, this scholarship is designated for a promising student who wishes to concentrate in foreign languages.

Dr. Frank Marino Scholarship

Established in 1945 as part of Dr. Frank Marino's estate. Dr. Marino was the well-loved physician for the School Sisters on the Notre Dame campus.

Sister Mary Martina Martin Scholarship

Endowed in 1977 by Notre Dame to honor Sister Martina who served in several capacities—teacher, registrar, secretary and treasurer—at Notre Dame between 1932 and 1964.

Sister Mary Alba Mattingly Scholarship

Established by Notre Dame in 1979 in honor of Sister Alba, SSND, local leader at Notre Dame between 1935 and 1941.

Mary Laun Quinn and Marguerite Laun McComas Scholarship

Established by the estate of Mary Laun Quinn '35 in 1986 and named in her memory and that of her sister, Marguerite L. McComas '37. The scholarship is restricted to a qualified student with strong financial need.

Barbara McDonnell and Sr. Doris Ann Gentry Scholarship

This scholarship honors the memory of two talented, inspiring teachers in the College of Adult Undergraduate Studies (CAUS). The purpose of this scholarship is to help needy students in CAUS.

Sister Elissa McGuire Scholarship

In a bequest, Dr. Mildred Otenasek established this scholarship in memory of her colleague Sister Elissa, professor of economics at Notre Dame for twenty years and seventh president of the University from 1968 to 1971. "She was an extraordinary teacher and loved teaching" said Dr. Mildred Otenasek. "She understood her students as individuals and shared their problems and their lives."

Mary HeriliHy Mchugh '27 Scholarship

Endowed in 2000 by Dr. Paul R. and Jean B. McHugh, Ellen M. LaFollette, and Suzanne M. Piscitello in honor of their mother. This scholarship is restricted to the study of Latin, Greek and the Classics and can be applied toward onsite experience of the ancient world.

Margaret Dempsy McManus Scholarship

Established by Margaret McManus' gift to Kathleen Feeley, SSND, at the President's Gala in 1991. Margaret was the originator, chair and producer of the Gala. The scholarship is restricted to an English major or minor.

Sister Mary Alma McNicholas Women Scientists Scholarships

Established as a scholarship in 1983 through the biology majors' campaign led and chaired by Pat Warth '48 and Kay Kemp Witter '43 in honor of Sister Alma '26, their dearly loved biology teacher. Changes implemented in 2007 provide for eligible sophomore, junior or senior science majors to be selected on a competitive basis to participate in biomedical research skills as research assistants at Johns Hopkins School of Medicine laboratories in a partnership with the Notre Dame of Maryland University.

Clarisse Mechanic Maryland Distinguished Woman Scholarship

Founded in 1993 in honor of Clarisse Mechanic who was named "Maryland Distinguished Woman" that year.

Harvey M. and Lyn P. Meyerhoff Scholarship in the Humanities

Founded in 1979 by Lyn P. and Harvey M. Meyerhoff for students who concentrate in the humanities. Lyn Meyerhoff was a trustee of Notre Dame 1975 to 1981.

Mabel Costich Miller Scholarship

Established by the estate of Mable Costich Miller ’28 in 1995 and provides scholarship assistance to financially disadvantaged students.

Caroline Reynolds Mitchell Scholarship

Founded in 1985 with the bequest of Stephens Mitchell, who was the husband of Caroline Reynolds Mitchell ’24 and brother of Margaret Mitchell, author of *Gone with the Wind*. Caroline attended Notre Dame briefly in 1924.

Aileen Mize Scholarship

Established by parents and friends of Notre Dame in honor of Aileen Mize, professor of speech and drama from 1935 to 1969. The applicant’s ability in communication arts is considered for this scholarship.

Elizabeth Breeden Monroe Scholarship

This scholarship, established in 1986, honors Elizabeth Monroe ’46, a member of Delta Epsilon Sigma, a scholastic honor society and president of Kymry, the social club of the resident students at Notre Dame. “Your love for Notre Dame shines in your eyes when you speak of it,” remarked Sister Kathleen Feeley in a letter to Elizabeth.

Dr. Elizabeth Morrissy Scholarship

Founded in 1976 as an estate gift by the renowned Dr. Morrissy, professor of economics at Notre Dame from 1920 to 1964. Recipient of the Pro Ecclesia et Pontifice in 1955, respected nationally and honored by her colleagues, Dr. Morrissy designated this award for a student majoring in economics.

Daniel J. and Evelyn Murphy Family Scholarship

Established in 2010 by Notre Dame to honor Daniel J. Murphy, Jr. on the occasion of his 100th birthday.

Mary Teresa Curran Murphy Scholarship in Teaching

Founded in 1996 for the centennial of Notre Dame by Evelyn and Daniel J. Murphy Jr. in honor of his mother, Mary Theresa Curran, class of 1899, the first graduating class. The guidelines designate that the recipient be a Catholic student in financial need with a GPA of 3.2 or higher who is a full-time major in the humanities seeking certification as a teacher.

Elizabeth Kelly Murphy ’35 Scholarship

Endowed in 2000 by M. Susan Murphy ’67 and Jane Murphy McInnes ’72 in honor of their mother Elizabeth Kelly Murphy ’35, this scholarship is awarded yearly to a student who demonstrates outstanding academic ability and financial need, majoring in education or philosophy.

Sister Margaret Mary O’Connell Alumnae Scholarship

Established in 1968 by an alumnae campaign led by Mary Lou Armstrong ’60 in honor of Sister Margaret Mary O’Connell, president of Notre Dame, 1950 to 1968.

Sister Margaret Mary O’Connell Memorial Scholarship

Founded by Claire C. ’47 and Richard A. Hartman in 1995 in honor of Sister Margaret Mary O’Connell, professor of education, 1937 to 1950 and 1969 to 1982, and president of Notre Dame, 1950 to 1968. Sister was the aunt of Claire Cullinan Hartman and educator of many students.

Catherine and John O’Dea Scholarship

Endowed in 1988 to honor Catherine and John O’Dea, parents of an alumna.

Cornelia Creel O’Neill Scholarship

The children of Cornelia Creel O’Neill endowed this scholarship in 2011 to honor the memory of their mother. After earning her degree in chemistry, and devoting years to her family, she specialized in teaching college preparatory chemistry, became chair of the high school science department and was instrumental in developing a chemistry curriculum in Fairfax County, Virginia. Her leadership transformed lives.

Anne Lindsey Otenasek Scholarship

Mildred Otenasek established this scholarship in memory of her grand-niece Anne Lindsay Otenasek who lost her life in the Pan Am 103 crash in Scotland, December 21, 1988.

The Panetta-Sauer Family Scholarship

Established in 1996 by Barbara Panetta Sauer ’65 for underprivileged women of Italian descent who desire to matriculate in the College of Adult Undergraduate Studies.

The Sheila and Carl Pirkle, Jr. Scholarship

Established in 2005 by Drs. Sheila and Carl Pirkle to be granted to students demonstrating strong academic ability and financial need.

Helen C. Potter Scholarship

Endowed through the estate gift of Dr. Helen C. Potter in 1986. An honorary alumna, Helen hoped this scholarship would benefit needy and worthy students.

Presidents' Scholarship

Founded in 1975 by Notre Dame of Maryland University to honor each of its presidents. The scholarship is restricted to academically talented students.

Ethel Clay Price Scholarship for Continuing Education

Endowed by Ralph C. Price in 1982 in honor of his mother, a graduate of the Collegiate Institute in 1892 before Notre Dame of Maryland University received its charter. Ralph designated that the scholarship be awarded to students in the College of Adult Undergraduate Studies.

Dr. Lucia Serio Provenza Scholarship

Founded by Dr. Vincent Provenza in 1980 in honor of his wife, Dr. Lucia Serio Provenza, visiting professor of education, 1980-1986 at Notre Dame. The scholarship is restricted by the founder to students in education.

Alma Elizabeth Robeck Scholarship

Established by the estate of Alma E. Robeck '22, this scholarship is open to first-year students who demonstrate financial need and whose goal is to become a teacher. A student from Annapolis, Maryland will receive first consideration.

Rosskopf Family Scholarship

The Rosskopf Scholarship is the first to be created in the inaugural year of the School of Pharmacy at Notre Dame. This scholarship was established by Ilma and Edda Rosskopf in 2010 to honor their sister, Olga Cassella, and their parents. The scholarship is offered to a pharmacy student with strong academic capability and a commitment to service.

George Coventry and Nita Schmidt Roughgarden Fund

Founded by the George Coventry and Nita Schmidt Roughgarden Christian Educational Trust in 1993.

Mary Elizabeth McCloskey Rudy Scholarship

Established by the bequest of Mary Elizabeth McCloskey Rudy in 1996 for a full-time commuter student studying courses in business or economics.

Sister Mary Samuel Sauer Scholarship

Established by the Kathleen K. Ellinghaus Estate in honor of Sister Samuel Sauer. This scholarship provides an education for SSNDs. In 1984 it was extended to women religious of any congregation, and in 1999 it was extended to religious studies majors.

Gisela RueBenacker Schwab Scholarship

Founded in 1983 by Gisela Ruebenacker Schwab as a result of her friendship with Sister Virgina Geiger. Although Gisela only attended Notre Dame of Maryland University for one year, 1945 to 1946, she was dedicated to the University.

Dorothy McIlvain Scott Scholarship

Endowed in 1988 by Dorothy McIlvain Scott, a friend and trustee associate, 1985 to 1990.

Mother Mary Georgianne Segner Scholarship

Established in 1982 by the SSND Generalate in honor of our well-loved Mother M. Georgianne Segner. Mother Georgianne was the International General Superior in Rome, Italy, of the School Sisters of Notre Dame from 1968 to 1977.

John R. Seifert Scholarship

John R. Seifert endowed this award in 1980 as a supplementary award, available to a junior or senior student.

Rose and Salvatore Serio Scholarship

Established by Rose Serio in 1961 in honor of Rose and Salvatore Serio, parents and grandparents of alumnae.

Geraldine Riley Shawn Scholarship

Founded by Nelson E. Shawn in honor of his wife Geraldine ’41 in 1981. The recipient of this scholarship must have an interest in English, drama or history and have completed her first year.

Lillian Smink Memorial Scholarship

Established in 1954 by Claud C. Smink, M.D., who served as general practitioner for the SSND community from 1921 to 1962 and chief of staff at St. Joseph Medical Center. Dr. Smink honored his first wife, Lillian Smink, with this scholarship.

Helen M. Smith Scholarship

Endowed in 1993 by Sister Marie Augustine Dowling ’45, associate professor of mathematics at Notre Dame, in honor of her mother.

Sister Mary Frances Smith Memorial Scholarship

Established in 1951 by a campaign of alumnae, parents and friends and chaired by Rida Shea Rutherford ’32 to honor Sister Mary Frances Smith Ph.D., president of Notre Dame from 1935 to 1950.

Evelyn Betz-Smith Memorial Scholarship

Currier Smith established this scholarship on February 9, 1994 to honor his wife, Evelyn Betz Smith, '40. The scholarship is restricted to art students.

Dr. Regina and Dino Soria Scholarship

Established in 1991 by a campaign led by Dr. Mildred Otenasek, honoring Dr. Soria and her husband. Former chair of the modern foreign languages department, Dr. Soria requested that the scholarship recipient pursue her study in one of the fields of Italian heritage—language, literature, history, art or music.

Sister Mary Theresine Staab Music Scholarship

Established in 1980 through a campaign by the Mitchell Foundation, alumnae and friends and spearheaded by Anna Marschall Mueller ’51 in honor of Sister Theresine Stabb, chair of the music department and music professor, 1937-1973. This scholarship is for a student studying music.

Dr. Margaret J. Steinhagen ‘54 Scholarship

This scholarship honors Dr. Steinhagen as professor of education at Notre Dame of Maryland University and chairman emerita of the education department for over forty years, Dr. Steinhagen was chosen as a "Great Professor" and received the Thomas P. and Clementine L. Mullan Distinguished Teaching Award in 1976. She demonstrated that teaching is a vocation, requiring both competence and virtue.

Frances Elizabeth G. Stern Scholarship

Established by the estate gift of Frances Getzlaff Stern in 1969. This scholarship is restricted to students of exceptional scholastic ability.

Audrey McCarthy Turner Memorial Scholarship

Founded by James K. Turner in memory of his wife, Audrey McCarthy Turner ’42, in 1980. Designated to be awarded to incoming first-year students from northern New Jersey who

concentrate in the humanities or the sciences.

William Starr Vincent Memorial Scholarship

Endowed by William C. Vincent in honor of his father William Starr Vincent in 1979. William C. Vincent's daughter, Tamara Vincent Joyce '89, is an alumna of Notre Dame.

Bonnie A. Vogel Memorial Scholarship

Established by William E. Vogel Sr., his first wife Helen S. Vogel, and other donors in 1978 in honor of Bonnie A. Vogel '66, their daughter. This scholarship is open to communication arts majors in the College of Adult Undergraduate Studies.

Deborah Kus Wagner Scholarship

Founded by the Reverends Walter H. and Deborah Kus Wagner '58 in 1980.

Ruth Nagel Watkins Scholarship

Established in 1996 by a committee of friends chaired by Dr. Domenico Firmani and coordinated by Marie de Chantal Haigley, SSND. The scholarship is available to serious students of art or art history.

2018-2019

State Scholarships

Considered to be gift aid, scholarships are an attractive way to pay for college because they do not have to be repaid. Awards may range from a few hundred dollars to paying full tuition.

The following are State Scholarships offered through Notre Dame of Maryland University:

Maryland Senatorial Scholarships

- Available to current high school seniors and full-time and part-time, degree-seeking undergraduate and graduate students.
- The minimum annual award amount is $400 and the maximum award is $9,000.
- Financial need is required.
- Complete and file the FAFSA by March 1. Contact your senator in February for further instructions.

Both the student and parents/guardians must be Maryland residents in order to be eligible for financial assistance from the state. Go to mdelect.net to search for your delegate or senator.

Maryland House of Delegates Scholarships

- Available to current high school seniors and full-time or part-time, degree-seeking undergraduate and graduate students.
- The minimum annual award is $200.
- Financial need may be required.
- Complete and file the FAFSA by March 1. Contact your delegates in February for further instructions.

Both the student and parents/guardians must be Maryland residents in order to be eligible for financial assistance from the state. Go to mdelect.net to search for your delegate or senator.

Graduate Nursing Faculty Scholarship

- Available to registered nurses who are pursuing the graduate education necessary to be

considered qualified nursing faculty at a Maryland higher education institution with the commitment of sponsorship and faculty mentoring from the Dean or Director of a School of Nursing.

- Equals the amount of tuition and mandatory fees not to exceed $13,000 per academic year ($6,500/semester, fall and spring) and will be prorated for part-time recipients. The award is renewable for a maximum amount of $26,000. Award recipients may request summer funding, as long as the total amount of funding for the academic year does not exceed $13,000. *Summer funding requests must be in writing and be received by MD Office of Student Financial Assistance by April 1 of each year.* Summer awards are subject to the availability of funds.
- Award is not based on financial need.
- Apply online at https://mdcaps.mhec.state.md.us.

Graduate and Professional Scholarship

- Available to degree-seeking graduate students pursuing a master's degree in nursing and Pharmacy students
- The minimum award is $1,000 per year and the maximum award is $5,000 per year. Funds may not be available to award all eligible students.
- Financial need is required.
- Office of Financial Aid will award eligible students randomly.

Edward T. Conroy Memorial Scholarship Program

Applicants must meet one of the following requirements to eligible:

- Applicants must be the son, daughter, stepchild or surviving spouse (who has not remarried) of a member of the U.S. Armed Forces who died or suffered a serviced connected 100% permanent disability as a result of military service.
- Applicant must be a veteran who suffers a service-connected disability of 25% or greater as a result of military service and has exhausted or is no longer eligible for federal veterans education benefits.
- Applicants must be the son, daughter, stepchild, or surviving spouse (who has not remarried) of a victim of the September 11, 2001 terrorist attacks who died as a result of the attacks on the World Trade Center, the Pentagon, or the crash of the United Airlines Flight 93
- Applicant must be a POW/MIA of the Vietnam Conflict or his/her son, daughter or stepchild.
- Applicant must be the son, daughter, stepchild, or surviving spouse (who has not remarried) of a state or local public safety employee or volunteer who died on the line of duty or who was 100% disabled in the line of duty.
- Applicant must be a state or local public safety employee or volunteer who was 100%

disabled in the line of duty.

- Son or daughter or surviving spouse (who has not remarried) of a school employee who, as a result of an act of violence either died in the line of duty or sustained an injury in the line of duty that rendered the school employee 100% disabled.

NOTE: Applicants must be Maryland resident, with the exception of a spouse, son or daughter if a Maryland state or local public safety employee killed in the line of duty.

Award Amount: Equal to tuition and fees, not to exceed $10,900.

How to Apply: Applications are sent from the Office of Financial Aid via NDM email and are available **online**.

NOTE: Award is not based on financial need

Deadline: Applications must be submitted to the Office of Financial Aid by July 15.

NDMU Catalog

2018-2019

2+2 Transfer Scholarships

The 2+2 Transfer Scholarship assists transfer students from Maryland community colleges to attend a 4-year institution.

Eligibility

- Must be a legal resident of Maryland,
- currently enrolled at a community college in Maryland,
- earned an associate's degree by the end of the semester which the student plans to transfer,
- must be accepted to a degree program at a 4- year higher education institution in Maryland, and
- enrolled to complete a bachelor's program

Award Amount

The annual award amount will be $1,000. For students who enroll in a science, teaching, engineering, computer science, mathematics, or nursing program, the amount will be $2,000.

How to Apply

Applicants must submit the 2+2 Transfer Scholarship application on MD CAPS, file the Free Application for Federal Student Aid (FAFSA), submit an official college transcript reflecting the applicant has earned an associate's degree from a community college in Maryland, and the documentation if applicable that the student has registered with the selective service system.

2018-2019

Howard P. Rawlings Educational Assistance grant

Any Maryland high school senior or undergraduate student is eligible to apply for an Educational Assistance Grant. Awards are made by the State Scholarship Administration based upon the student's demonstrated financial need.

Eligibility

- Must be a legal resident of Maryland,
- must demonstrate financial need, and
- must be accepted for admission as a full-time student (minimum 12 credits per semester) in one of the eligible, degree-granting institutions in the State of Maryland

Award Amount

Grant values range from $400 to $3,000 per year.

How to Apply

To apply for the grant, the student's Free Application for Federal Student Aid (FAFSA) must be received by the state by March 1. This grant is awarded on a priority basis on the FAFSA receipt date and based on the availability of funds.

2018-2019

Howard P. Rawlings Guaranteed Access Grants

Any Maryland high school senior whose annual total family income is below 130 percent of the Federal poverty level is eligible to apply for a Guaranteed Access Grant.

Eligibility

- Must be a legal resident of Maryland,
- must begin college within one year of completing high school,
- must have successfully completed a college preparatory program and achieved an unweighted Grade Point Average of at least 2.5 on a 4.0 scale, and
- must be accepted for admission as a full-time student (minimum of 12 credits per semester) in one of the eligible degree-granting institutions in the State of Maryland.

Award Amount

The amount of a grant equals 100 percent of the student's financial need. The minimum annual award amount is $400 and the maximum award is $18,400. Notre Dame of Maryland University participates in the Guaranteed Access Partnership Program that provides a matching grant to recipients of the GA Grant. The amount of the match grant will be comprised of academic and institutional awards.

How to Apply

To be considered for a Guaranteed Access Grant, students must submit a Guaranteed Access Grant application to the Office of Student Financial Aid and your Free Application for Federal Student Aid (FAFSA) must be received by the State by March 1.

Workforce Shortage Grants

The Workforce Shortage Student Assistance Grant (WSSAG) program is for students who plan on working in specific career/occupational programs upon graduation. The grant is available for current high school seniors, full-time and part-time, degree-seeking undergraduate and graduate students enrolled in eligible accredited Maryland postsecondary institution.

Eligible Fields

- Child Care
- Human Services
- Teaching
- Nursing
- Physical and Occupational Therapy
- Public Service

How to Apply

Complete and file the Workforce Shortage Student Assistance Grant application by July 1 and provide official transcripts from institutions attended. To be considered, based on need, students must file the Free Application for Federal Student Aid (FAFSA) for the application year.
The FAFSA is not required; however, it will be used to determine the order in which students will be awarded.

Certain Majors may requires additional documentation, which will be noted on the application. Applicants for the William Donald Schaefer Scholarship are required to submit, in addition to the application and transcripts, a FAFSA, a 1,000 word essay on a topic determined by the Commission and Advisory Council, a resume and three (3) letters of reference.

Verification of Eligibility

Verification is a federally mandated review process. The Office of Financial Aid is required to confirm the accuracy of information submitted on the FAFSA for students who have been selected for verification by the U.S. Department of Education.

Students are notified by email if they are selected for verification. Students may also review their financial aid status on WebAdvisor. Students selected for verification must submit all required documents. Verification can be a lengthy process; therefore, we strongly recommend students and their families submit requested documents as soon as possible.

Failure to submit requested documentation may result in cancellation of aid previously offered. Federal student financial assistance (e.g. Federal Pell Grant, Federal Direct Loans, etc.) cannot be processed or credited to the student's account until the verification process is complete.

Any differences between information on documents submitted to the Office of Financial Aid and information on the FAFSA will result in a new determination of financial need. This new determination of financial need may alter the student's financial aid awards and eligibility. Students will be notified when a revised financial aid award has been generated due to verification adjustments.

Please be aware of financial aid deadlines. If requested documents/data is not provided, financial aid will be forfeited.

Verification Information

If selected for verification, students will be notified via email regarding necessary documentation to be submitted. Students will submit only requested documentation.

If a student is selected for verification and they have not used the IRS Data Retrieval Tool (DRT) on the FAFSA, they will be asked to do so. This is a process which allows tax information to be imported directly from the IRS into the FAFSA Application.

The DRT will *not* be available under the following circumstances:

- A joint tax return was filed for the student or the student's parents and they have filed the FAFSA with a marital status of separated, divorced or widowed,
- if the tax filer is married to someone other than the individual included on the joint tax return,
- if the parent or student was not married in the prior year but is married at the time the FAFSA is filed. The current spouse's income must be reported on the FAFSA,
- if the parents or the student is married but filed tax returns separately, and
- if an amended tax return was filed.

If the IRS Data Retrieval Tool is not available, students must request a tax return transcript (not a tax account transcript) directly from the IRS using one of these methods:

- **ONLINE:** Go to the IRS website to request a paper transcript be mailed to the requestor within 5 to 10 days. THIS CANNOT BE SENT DIRECTLY TO NDMU. After you receive it, send it to the Office of Financial Aid at Notre Dame of Maryland University.
- **TELEPHONE:** Call (800) 908-9946 to request a paper transcript that will be mailed to the requestor within 5 to 10 days. THIS CANNOT BE SENT DIRECTLY TO NDMU. After you receive it, send it to the Office of Financial Aid at Notre Dame of Maryland University.
- **IRS FORM 4506T-EZ:** Use this form to request a paper transcript that will be mailed to the requestor within 5 to 10 days. Transcripts ordered using this method can be mailed directly to NDMU by the IRS only if the tax filer requests this on line five.

IF AN IRS 1040 WILL NOT AND IS NOT REQUIRED TO BE FILED

The filers must attest that an IRS 1040 has not and will not be filed and that the IRS 1040 is not required to be filed. Copies of all W-2 forms from all employers must be submitted to the Office of Financial Aid.

Applicants filing a Puerto Rico tax return or a foreign tax return may not use the IRS Data Retrieval Tool and must send a signed and notarized copy of their tax documents translated into English.

EXCEPTIONS TO THE IRS DATA RETRIEVAL TOOL AND TAX TRANSCRIPT

For amended tax returns, the following must be submitted:

SIGNED copy of original tax return OR tax return transcript AND a SIGNED copy of the 1040X form

For students/parents who have been granted a tax filing extension, the following may be submitted:

Copy of the IRS Form 4868 (application for automatic extension) and copies of all W-2s, unless self-employed - provide a signed statement of AGI and taxes paid.

When Is IRS Data Retrieval Tool Available?

The timing of when the IRS Data Retrieval Tool will be available is dependent upon the requestor's tax liability at the time of filing and if the requestor filed electronically or by paper. See the table below for more details.

	Electronic Filing	**Paper Filing**
Filer who either did not owe an amount, or is expecting a refund	2-3 weeks after submission in most cases	8-11 weeks later in most cases
Filer who owed an amount, and made a full payment *while* filing	2-3 weeks after submission in most cases	IRS will start processing the tax return in *June*, Data Retrieval Tool is available 2-3 weeks later in most cases
Filer who owed an amount, and made a full payment *after* filing	3-4 weeks after the payment is processed by the IRS in most cases	IRS will start processing the tax return in *June*, Data Retrieval Tool is available 2-3 weeks later in most cases
Filer who owed an amount, and have not yet paid in full	IRS will start processing the tax return in *May*, Data Retrieval Tool is available 2-3 weeks later in most cases	IRS will start processing the tax return in *June*, Data Retrieval Tool is available 2-3 weeks later in most cases

When can I request my Tax Return Transcripts?

Availability to the requestor of a copy of their Tax Return Transcripts depends on their tax liability at the time of filing and whether they filed electronically or by paper.

	Electronic Filing	**Paper Filing**
Filer who either did not owe an amount, or is expecting a	2-3 weeks after submission	8-11 weeks later

refund		
Filer who owed an amount & made a full payment while filing	2-3 weeks after submission	IRS starts processing tax return in June, Tax Return Transcript requests can be made 2-3 weeks later
Filer who owed an amount & made a full payment *after* filing	3-4 weeks after payment is processed by the IRS	IRS starts processing tax return in June, Tax Return Transcript requests can be made 2-3 weeks later
Filer who owed an amount & has not yet paid in full	IRS starts processing tax return in May, Tax Return Transcript requests can be made 2-3 weeks later	IRS starts processing tax return in June, Tax Return Transcript requests can be made 2-3 weeks later

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Interdisciplinary Studies (IDS)

Interdisciplinary Studies (IDS) is a rigorous and unique Program offering students the versatility to design academic plans through the process of integrative learning. Working closely with their advisors, students develop Integrative Learning Plans comprised of two- or three-disciplines that integrate multicultural and multidisciplinary perspectives. To meet NDMU students' diverse social, cultural, and educational needs, IDS offers both on-campus and online credit-earning opportunities.

Courses

IDS-105 Dimensions of College Skills, Learning and Achievement

Provides students with assessments of skills in writing, reading and mathematics which then are integrated into customized coaching for each student. The class stresses communication and integrated into customized coaching for each student. The class stresses communication and quantitative problem solving readiness for academic success in first-year entry-level studies. Connections between career aspirations and choice of acdemic major will be explored with the guidance of faculty, academic success coaches and career development professionals. [3 credits]

IDS-150 Introduction to Women's Studies

Helps students examine the differing meanings of feminism based on readings and films from a variety of disciplinary perspectives. Examines how race, ethnicity, class, age, ability and sexual orientation shape women's points of commonality and difference. Includes a service-learning project involving incarcerated women. Fulfills general education requirement in gender studies. [3 credits]

IDS-160 Introduction to Peace Studies

This is an introduction to peace and justice studies. The course focuses on negative peace (i.e., eliminating direct violence, including war) as well as positive peace building (fostering an equitable economic system and ecological balance). The course analyzes the roots of

violence and inequity as well antidotes to these problems. Fulfills general education requirement in cross-cultural studies and history. [3 credits]

IDS-172 Honors: The Axial Age: Philosophy of East and West

Considers the new ways of thought that emerged in the ancient Near East, Greece, India and China during the first millennium B.C. ("the axial age"). Thinkers reconsidered basic areas of concern-the transcendent, human nature, the family, society, government, knowledge, the past and death-in relation to the pre-existing culture. For example, this re-interpretation of tradition led to the rise of Biblical Judaism in the Near East; classical philosophy in Greece; the Upanishads and Buddhism in India; and Confucianism and Daoism in China. In this seminar, students discuss the thought of the "axial age," compare ideas across civilizations and learn how to write philosophical essays. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in 200 level philosophy. [3 credits]

IDS-200 Foundations of Leadership for Women

Presents an interdisciplinary approach to developing leadership skills in a world of social change. Students will examine multiple leadership paradigms with a focus on models that are inclusive, empowering, purposeful, ethical and process-oriented. They will critically examine their own perceptions about leadership; identify relevant leadership attitudes, behaviors and skills; and apply leadership knowledge through a variety of experiences including self-assessment, skill development, service-learning and small group team activities. [3 credits]

IDS-226 Why Care? Justice and Service

Provides students with an opportunity to study the University's mission of social responsibility through readings and discussion. Students will also develop a hands-on understanding of what it means to be a socially-responsible citizen through a service-learning experience. [3 credits]

IDS-230 Career Decision Making Seminar

A readings and discussion course which will focus on career development theories and applications. Students will learn strategies to help them choose a major and/or career, identify interests, skills and values, develop effective job-hunting and career advancement strategies. Career assessment and resume construction are included.

IDS-231 Honors: The Science of Science Fiction

Considers science fiction as a literature of ideas-the ideas of modern science. Selects contemporary science fiction writers and film makers in order to gain a perspective on the

development of a fiction of scientific ideas and a prophecy of future technological change. Employs reading, film and the campus planetarium. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-271 Honors: Romanticism: The Beautiful Infinite

Analyzes seminal works of the 19th century Romantic movement in the fields of art and music. The relatedness of the two forms is revealed through discovery of common themes running through works of the Romantic period-the emancipation of the individual, the love of nature, nationalism, and fondness for the fantastic and the exotic. Common qualities of expression found among the two art forms during the period also emerge, providing a holistic sense of the intellectual and artistic atmosphere of the times. Opportunities for visits to museums, concerts, and theatre or opera performances are provided. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in fine arts. [3 credits]

IDS-273 Honors: Living in the New Millenium

Explores life in the new millennium: what has been, what is now and what is to come. Examines questions of political and social movements, population growth, cultural diversity, emergent economics, technological change, biological engineering and space exploration in the first 50 years of the 21st century. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-300 Found of Leadership for Women

The course presents an interdisciplinary approach to developing leadership skills in a world of social change. Students will examine multiple leadership paradigms with a focus on models that are inclusive, empowering, purposeful, ethical, and process-oriented. They will critically examine their own perceptions about leadership, identify relevant leadership attitutdes, behaviors, and skills, and apply leadership knowledge through skill development, service learning, and small group team activities. Women's College students must have completed the Emerging Leaders program and transfer, CE, and WEC students should have completed BUS 302 Principles of Management. 3 credits.

IDS-310 Service Abroad: Women in Leadership and Service

Service abroad is an independent, self-sustaining course which enhances all departments and programs. It is another opportunity for Notre Dame women to further expand their knowledge of the world and their self-giving. Service Abroad immerses the participant more deeply into the culture of another country. Prerequisite: Completion of required independent study/lab with a grade of B and Junior/Senior standing. Fulfills general education requirement in cross-cultural studies. [3 credits]

IDS-310L Service Abroad Lab: Women in Leadership and Service

This independent study, prior to the actual service, introduces the student to the history, culture and language of the country where she will give service. The exact content of the course is determined by the instructor and depends on the student's knowledge and level of preparation. Prerequisite: Permission of program director. Fulfills general education requirement in cross-cultural studies. [1 credit]

IDS-325 Hrs: Educating Women: Amer Exp

This course examines the educational experience of women in the United States in the 19th and 20th centuries. Students survey ideas, attitudes and arguments about the education of women; explore the history of academies and women's colleges, coeducation in public and private schools and colleges, and the uniquely American expansion of educational and professional opportunities for women. Includes the work of pioneers and contemporary leaders. Prerequisite: Morrissy Scholar or permission. 3 credits.

IDS-340 Introduction to Catholic Studies

Provides an overview of various dimensions of the Roman Catholic faith, including Catholic practices, histories, cultures and doctrines. Topics to be considered are: Catholic spirituality and institutions, Catholic ecumenism and inter-religious dialogue, Catholicism and the arts, sciences and social action; the history of the Catholic Church, global Catholicism, contemporary Catholic theology, and the future of the Catholic Church. Prerequisite: RST-201. Fulfills general education requirement for 300/400-level religious studies.

IDS-361 Career Internship

Combines the experiential component of an on-site professional work placement with an interdisciplinary consideration of work-related issues. Focus of the course is on integrating the academic component with work experience through reflection, class discussion and assignments. Prerequisites: Completed 30 credits, attended an Academic Career and Enrichment Center internship orientation workshop, minimum sophomore status, and academic advisor's permission. [2, 3 or 4 credits]

IDS-369 Honors: Genethics

Provides students with the opportunity to understand and evaluate various religious and philosophical positions and arguments on a range of contemporary moral issues related to biotechnology. Explores the science of genetics and its application to the fields of biology, technology and medicine. Examines selected topics in the ethics of genetic testing, research, drugs and therapy. Prerequisite: Morrissy scholar or permission; RST-201. Fulfills general education requirements for 300/400 level religious studies and values. [3 credits]

IDS-371 Hrs: Power of Ideas

IDS-373 Honors: Cosmos and Creation: Religion and Science

Explores the relationship between religion and science as bodies of knowledge, modes of inquiry, and ways of knowing. Examines the complex history of science and religion as social institutions in various degrees of cooperation and tension. Areas of inquiry will include theology, spirituality, scientific theories, and philosophy of science, as well as the intersection of these areas at key historical moments such as the Copernican revolution, natural selection, and the development of quantum physics. Prerequisite: RST 201. Fulfills general education requirement for 300/400 level religious studies. [3 credits]

IDS-376 Hrs: Family Bonds

IDS-377 Hrs: Heritage Civ & Jew

IDS-378 Honors: The Holocaust

Explores the roots of anti-Semitism and the rise to power of the Nazis. Considers the development of the German policies toward the Jews, from economic discrimination to planned extermination, the fate of Jews in various countries under German control, and the possibility of resistance and opportunities for rescue. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-380 Research Apprentice

Introduces an academically-based didactic experience in which the student is trained in the methods of research at the college level for a specific discipline. The student serves as a research apprentice to a faculty mentor within the student's academic discipline. There is an interdisciplinary monthly seminar for all apprentices, an experiential student research component, weekly office hours and weekly supervision with the faculty mentor. Permission of instructor and research mentor. [1, 2, or 3 credits: 10 semester hours for 1 credit; 20 semester hours for 2 credits; or 30 semester hours for 3 credits]

IDS-410 Seminar: Leadership and Social Change

Helps students integrate previous academic and experiential learning to address a contemporary social issue, and develop workable and innovative solutions to tackle some aspect of that social issue. With coordinator approval, students may take the seminar portion

of the course along with a relevant senior-level practicum in their major. [3 credits]

IDS-411 Topics: Green Baltimore

Through an intensive seminar and discussion format, this course will consider the "green movement" and sustainability initiatives with particular attention to the Greater Baltimore area. Topics will include green business practices, sustainability and the environmental climate in Maryland, green science, the debate on global warming and related questions, and the role of modern communications media in the public debate on these matters. [3 credits]

IDS-430 Science and Health Policy: Critical Issues

Provides opportunities for students to attend a Washington, D.C. seminar to learn first-hand from women scientists, leading health experts, medical researchers, and pharmaceutical representatives who are shaping our nation's agenda in this critical policy arena. Speakers are drawn from a variety of agencies and organizations including the National Science Foundation, National Institutes of Health, and the National Research Council. Field trips to some government agencies. Students need to register in two placed to attend the seminar and receive college credit. Students must register for the Winterim course at NDMU (IDS-430) and they must also complete a registration from www.plen.org. [3 credits]

IDS-440 Senior Seminar in Women's Studies

Explores issues concerning women through research and research methodologies that use and apply multidisciplinary feminist theory. This is the culminating capstone seminar for the community of women's studies scholars. Prerequisites: IDS-150, two women's studies electives or permission of instructor. [3 credits]

IDS-450 Seminar Experience: Peace and Justice

Provides students with a focused seminar experience that allows them to consider the coursework for the minor through the acquired lens of peace and justice studies. Prerequisite: IDS-160. [3 credits]

IDS-455 Seminar in Catholic Studies

Serves as the capstone for the Catholic Studies minor. As such, it provides students with a focused seminar experience that encourages substantial guided research on a topic in Catholic Studies mutually agreed upon by student and professor. May include a service learning component. Prerequisite: IDS-340. [3 credits]

IDS-461 Professional Internship

Combines an on-site professional work placement with opportunities to reflect on the work experience as it relates to the student's overall academic program. The focus of the course is on development of effective job search and networking skills and strategies, career management and advancement, and professional growth and development. Prerequisites: completion of 30 credits, attendance at an Academic Career and Enrichment Center internship orientation workshop, sophomore status, academic advisor permission, completion of IDS-361 or department practicum. [2, 3 or 4 credits]

IDS-462 Advanced Professional Internship

Offers a departmentally-monitored, off-campus professional work experience for upper-level students who have completed IDS-461 and do not have a required departmental practicum. Students work with their academic advisor or a designated faculty member to identify objectives for the experience and complete related assignments. Prerequisites: completion of 30 credits, meetings with an Academic Career and Enrichment Center counselor and with one's academic advisor or designated faculty member, sophomore status, academic advisor permission and completion of IDS-461 or department practicum. [2, 3 or 4 credits]

IDS-471 Honors: Politics and Ethics of War and Peace

Explores war and peace through an examination of historical conflicts, social science explanations, ethical positions and alternative peace proposals. Considers 20th century conflicts and alternative explanations of war, and the individual, state and international levels. Compares and contrasts ethical positions from several religious and philosophical traditions. Prerequisite: Morrissy scholar or permission and RST-201. Fulfills general education requirements in 300/400 religious studies, values, and history. [3 credits]

IDS-479 Honors: Philosophy Through Literature

Takes a fresh look at traditional philosophical problems using classic philosophical texts and literary works that deal with common issues. Considers the questions: What is self? Is there an answer to the problem of evil? Are our actions free or determined? Are there any objective moral values? Is the material world real? Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in 300/400 level philosophy. [3 credits]

IDS-480 Advanced Research Apprentice

Expands the academically based didactic experience of IDS-380 in which the student is trained in the methods of research at the college level while serving as a research apprentice to a faculty member within the student's academic discipline. In this second course, the apprentice deepends and broadens skills and techniques related to research project and to demonstrate more independence in executing research. This course provides a unique

opportunity for students to train for post-baccalaureate research teaching assistantships through skill development. Prerequisite: IDS-380. [1, 2, or 3 credits: 10 semester hours for 1 credit; 20 semester hours for 2 credits; 30 semester hours for 3 credits]

IDS-496 Teaching Apprentice

Introduces an academically-based didactic experience in which the student is trained in the philosophy and methods of teaching at the college level for a specific discipline. The student serves as an educational apprentice to a faculty mentor within the student's academic discipline. There is an interdisciplinary monthly seminar for all apprentices, an experiential student teaching component, weekly office hours and weekly supervision with the faculty mentor. Permission of instructor. [3 credits]

IDS-498 Advanced Teaching Apprentice

Expands the academically based didactic experience of IDS-496 in which the student is trained in the philosophy and methods of teaching at the college level while serving as an educational apprentice to a faculty member within the student's academic discipline. In this second course, the apprentice develops skills and techniques to assess student work in the content area. This course provides a unique opportunity for students to train for post-baccalaureate teaching or graduate teaching assistantships through skill development. Prerequisite: IDS-496. [3 credits]

NDMU-100 Perspectives on Education and Culture

Assists first-year students in making a successful transition to college life. The course has three overlapping themes: becoming an intentional learner, becoming a Notre Dame woman, and acquiring global and intercultural fluency. Each student will examine and reflect upon various aspects of her life, including her relationship to other students, the institution and the community (understanding culture, appreciating diversity). Students will have the opportunity to develop personal, academic, and leadership skills and habits that will enhance their college experiences and promote lifelong learning. Required for first-year traditional age students and transfer students with fewer than 12 credits. [3 credits]

NDMU-100L Experiential Laboratory: Perspectives on Education and Culture

Assists first-year students in making a successful transition to college life. The course focuses on developing skills to support adjustment to college, developing life skills, and developing skills for personal success. Required for first-year traditional age students and transfer students with fewer than 12 credits. NDMU-100, Perspectives on Education and Culture is a required co-requisite for this course. A passing grade in both NDMU-100 and NDMU-100L is

required in order to successfully complete this course and to be awarded credit. [1 credit]

NDMU-200 Transfer Student Colloquium

Examines University culture, traditions and operations to address the interests and needs of transfer students. Particular attention is paid to mapping curricular and career plans to exploration of academic major requirements. [1 credit]

Physical Education

Department

Melissa Falen, M.A, *Coordinator*

Degrees offered

Special Academic Program

Campuses

The Physical Education Program is an integral part of a liberal arts education as it incorporates the concept of a healthy body with a healthy mind. Physical education is designed to encourage the student's knowledge, interest, competence, and participation in physical activities. Both theory and skill-based courses are offered. Emphasis is on developing and maintaining holistic wellness, including physical fitness, through lifetime fitness activities.

Requirements

All Physical Education courses fulfill the 1-credit General Education Requirement in Physical Education. Students may choose either a skill (100-level) or theory (200/300-level) course. Students may complete up to 3 credits of physical education toward the 120 graduation credit total. Students may opt to take more than 3 credits of Physical Education credits as electives that do not count toward the 120 credit minimum.

The General Education Requirement may be fulfilled through participation on a University varsity athletic team in accordance with University policy. Policy

information is available in the Physical Education office, the Athletic Department and from the Office of the Registrar.

Courses

PED-128 Pickleball

Instructs students in the theoretical and practical application of basic principles of fitness and training in addition to the vocabulary, rules, and basic skills necessary to play pickleball. Fulfills general education requirement in physical education. [1 credit]

PED-129 Racquetball

Instructs students in the fundamental skills and rules of the game. Playing regularly will be the emphasis of this course. Fulfills general education requirement in physical education. [1 credit]

PED-145 Disc Golf

Instructs students in the vocabulary, rules, and basic skills necessary to play disc golf. Participation in disc golf, both in practice and informal completion will be the primary component of physical activity in the course. Students will also be instructed in the basic components of fitness and principles of training. Fulfills general education requirement in physical education. [1 credit]

PED-150 Walking for Fitness

Instructs students in the basic principles of training and in walking for fitness. Walking will be the primary component of physical activity in the course. Fulfills general education requirement in physical education. [1 credit]

PED-160 Busy Life, Healthy Life

Instructs students in the basic components of fitness and principles of training. Students will assess their personal daily activity levels and diets and explore ways to easily incorporate more physical activity and a healthier lifestyle into daily life. Students are required to have a wearable fitness tracker that at a minimum measures steps and distance. Fulfills general education requirement in physical education. [1 credit]

PED-231 Theory of Physical Fitness and Wellness

Introduces the concept of “wellness” as it relates to students in today’s society. Individual and global wellness issues will be explored. Class discussion, student input, and student projects & presentations are paramount to this course. Fulfills general education requirment in physical education. [2 credits]

PED-232 Theory and Practice of Aerobic Conditioning

Instructs students in the in the theoretical and practical application of basic principles of fitness and training with an emphasis on aerobid conditioning. Exposes students to a variety of aerobic activities and teaches the necessary techniques to develop individualized aerobic conditioning programs. Fulfills General Education Requirement in Physical Education. [1 credit]

[1 credit]

PED-233 Theory and Practice of Weight Training

Instructs students in the in the theoretical and practical application of basic principles of fitness and training with an emphasis on weight training. Students will develop individualized weight training programs by applying principles to personal goals. Fulfills general education requirement in physical education. [1 credit]

PED-301 American Women in Sports History

Introduces the history of women in sports with an emphasis on the important contributions of American women. Examines how the social and cultural evolution of gender roles and stereotypes has influenced women's participation and achievement in sports. Focuses on how race, class, sexual orientation and significant events in history have affected women's sports in America. Fulfills the general education requirement in physical education and gender studies. Elective in women's studies program. [3 credits]

Study Abroad and Short-Term Academic Experience Abroad

Notre Dame of Maryland University is committed to providing all students an educational experience that is truly international. Students are encouraged to include study abroad in their educational program while at the University. Study in another culture will enrich students' academic study and can help them develop an international perspective, intercultural and linguistic skills, and a sense of global responsibility.

Notre Dame students have access to many semester and summer programs around the world through approved vendors and NDMU exchange agreements. Students who participate in these sponsored programs earn Notre Dame credit for course work. Grades and credits are reported on the students' Notre Dame transcripts and calculated in their GPA. Where possible, study abroad courses may be used to fulfill requirements in the Major and General Education. Students who qualify for federal, state or institutional aid may generally apply that aid to Notre Dame-sponsored programs.

Short-term faculty-led academic programs abroad are regularly offered throughout the academic year. These one- to three-week courses, taught by Notre Dame faculty, may be taken for academic credit or for personal enrichment.

Notre Dame students may apply for permission to participate in study abroad programs not sponsored by the University. Coursework completed as part of a non-sponsored program in which a student earns a grade of C (or better) will be posted to the student's Notre Dame transcript as transfer credit and will not be calculated in the GPA. Courses taken as part of non-sponsored study abroad programs may not be used to fulfill General Education or Major requirements.

Exceptions to this policy are granted only in special circumstances and prior approval must be obtained. Students who qualify for federal aid may apply that aid to non-sponsored study abroad programs.

Students who wish to participate in semester or summer programs must meet the following requirements: have completed 30 credits at the time they apply, have declared a Major, and have a cumulative GPA of 2.75 (Individual study abroad programs may have different GPA requirements.). Transfer students must have completed one semester at NDMU before they can apply (some programs have additional requirements.) Because of the time required to obtain transcripts of courses taken abroad, students may not study abroad during their last semester at Notre Dame.

The Office of International Programs can assist students in planning international study, internships, service, and work abroad programs. Please contact 410-532-5561 or oip@ndm.edu.b

International Students

Notre Dame values the contribution international students make to the community and welcomes applications from these students. Programs and services for international students include the English Language Institute, orientation, immigration counseling and a voluntary mentor/mentee program. For information on applying as an international student, see the admissions section.

For more information on international programs at Notre Dame of Maryland University, contact the Office of International Programs at 410-532-5561 or oip@ndm.edu.

Back to top

English Language Institute (ELI)

The English Language Institute (ELI) offers an intensive English program to women and men from around the world who seek to improve their English language skills for academic, career, or personal pursuits. International students at Notre Dame are also invited to take courses in the ELI to supplement their learning at the University. Students can study full-time or part-time and take courses in listening and speaking, writing and grammar, reading and discussion, TOEFL preparation, vocabulary, pronunciation, advanced skills through language and culture and other electives. The ELI also offers the TOEFL exam several times a year for students interested in applying to a degree program. If you are interested in learning more about the ELI, please email eli@ndm.edu or call 410-532-5566.

Transfer students must have completed one semester at NDMU before they can apply (some programs have additional requirements.) Because of the time required to obtain transcripts of courses taken abroad, students may not study abroad during their last semester at Notre Dame.

The Office of International Programs can assist students in planning international study, internships, service, and work abroad programs. Please contact 410-532-5561 or oip@ndm.edu.

Nondiscrimination and Sexual Misconduct Policy and Procedures

Nondiscrimination Policy

Notre Dame of Maryland University ("University" or "NDMU") values safety, cultural and ethnic diversity, social responsibility, lifelong learning, equity, and civic engagement. Consistent with these principles, the University does not discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of age, ancestry, color, creed, disability, gender, gender identity, genetic information, marital status, national origin, race, religion, sex, sexual orientation, or protected veteran's status in accordance with applicable federal, state, and local laws and regulations including but not limited to Title IX of the Education Amendments of 1972 as amended (Title IX), Title VI of the Civil Rights Act of 1964 as amended (Title VI), Title VII of the Civil Rights Act of 1964 as amended (Title VII), Section 504 of the Rehabilitation Act of 1973 (Section 504), Americans with Disabilities Act of 1990 as amended (ADA), and Age Discrimination in Employment Act of 1967 as amended.

The University's associated compliance responsibilities and the administration of the University's Non-discrimination and Sexual Misconduct Policies are managed through the Title IX Coordinator. Inquiries or concerns may be referred to Greg FitzGerald, Title IX Coordinator, Gibbons Hall, Room 106, 4701 N. Charles Street, Baltimore, MD 21210, 410-532-5109, gfitzgerald@ndm.edu. Inquiries or concerns regarding compliance with Section 504, ADA , and/or other civil rights laws regarding disabilities may be referred to the Amy Morales, Director of Accessibility & Health Promotion, Theresa Hall, Room 009, 4701 N. Charles Street Baltimore, MD 21210, 410-532-5401, amorales@ndm.edu.

Sexual Misconduct Policy and Procedures

Notre Dame of Maryland University ("University" or "NDMU") seeks to foster and maintain an atmosphere of mutual respect and concern for all members of the University community. As such, the University does not discriminate against students, faculty or staff based on sex in offering equal access to its educational programs and activities or with respect to employment terms and conditions. Sexual- and gender-based harassment and misconduct, including sexual violence, are a kind of sex discrimination and are prohibited by Title IX and the University.

NDMU is committed to maintaining a campus environment that is free from discrimination based on sex, and maintains that commitment by responding promptly and effectively when it learns of any form of possible discrimination based on sex. The University responds to reports of sexual harassment, including sexual violence, as part of its efforts to stop the misconduct, prevent its recurrence, and remedy its effects. In compliance with Title IX, the University has Sexual Misconduct and Sexual Harassment policies.

School of Arts, Sciences and Business

Debra Minick Franklin, Ph.D., *Dean of Arts, Sciences, and Business*

The deep roots of the School of the Arts, Sciences, and Business were first planted with the founding of the University in 1895. The timely and timeless Programs of Study housed within the School support students in the journey toward making a fulfilling life *and* making a living.

The undergraduate academic Majors of the School serve both traditional and part-time adult learners, and include arts, humanities, social and natural sciences, and business courses. Studies related to the professions, such as medicine, communication, business and law are also delivered in courses offered within the School. Each undergraduate completes a common general education program in liberal arts, the rich foundation of the knowledge of the educated person.

Women's College or College of Adult Undergraduate Studies?

Although many degrees and Majors are offered through both the Women's College and the College of Adult Undergraduate Studies (CAUS), there are significant differences in their populations and scheduling. To determine whether the Women's College or CAUS is the most appropriate for you, see the college descriptions under Academic Information.

College of Adult Undergraduate Studies

Majors

- Business
- Corporate Communication
- Criminology
- Elementary Education/Liberal Studies
- Liberal Arts
- Nursing: RN to BSN
- Radiological Sciences
- Religious Studies

Minors

- Business
- Criminology
- Economics
- Entrepreneurship
- Philosophy
- Women's Studies

Women's College

Majors

- Art
- Art Therapy
- Behavioral Neuroscience
- Biology
- Business
- Chemistry
- Communication Arts
- Computer Information Systems
- Criminology
- Digital Media Arts
- Elementary Education/Liberal Studies
- Engineering
- English
- French
- International Business
- International Studies
- Leadership in Hospitality and Event Management
- Liberal Arts
- Marketing Communications
- Mathematics
- Nursing
- Philosophy
- Physics
- Political Science
- Psychology
- Radiological Sciences
- Religious Studies
- Spanish

- Women's Studies

Minors

- Art
- Asian Studies
- Biology
- Business
- Catholic Studies
- Chemistry
- Communication Arts
- Computer Information Systems
- Computer Science
- Criminology
- Digital Media Arts

- Peace and Justice Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Religious Studies
- Secondary Education
- Sociology
- Women's Studies

Pre-professional Programs

- Pre-dental
- Pre-medical

- Pre-veterinary
- Pre-law
- Pre-pharmacy

Teaching Certification

Secondary Education Teaching Certification is available in the following Majors.

- Art
- Biology
- Chemistry
- English
- Social Studies
- Mathematics

Joint Degree Programs

- Business/Management - Earn a B.A. in Business plus an M.A. in Management in five years.
- Liberal Studies/Teaching - Earn a B.A. and M.A. in Teaching in five years.
- Biology or Chemistry/Pharmacy - Earn a B.A. in Biology or Chemistry and a Pharm.D. in seven years.

Other Programs

- Interdisciplinary Courses
- Physical Education

Additional Resources

- Art (Major, Minor)
- Art Therapy (Major)
- Asian Studies (Minor)
- Behavioral Neuroscience (Major)
- Biology (Major, Minor)
- Business (Major, Minor)
- Catholic Studies (Minor)
- Chemistry (Major, Minor)
- Communication Arts (Major, Minor)
- Computer Information Systems (Major, Minor)
- Computer Science (Minor)
- Corporate Communication (Major, Minor)
- Criminology (Major, Minor)
- Digital Media Arts (Major, Minor)

- Economics (Minor)
- Engineering (Dual Degree)
- Entrepreneurship (Minor)
- English and Drama (Major, Minor)
- French (Minor)
- Forensic Psychology (Minor)
- History (Minor)
- Hospitality: See Leadership in Hospitality and Event Management
- International Business (Major)
- International Studies (Major - International Business, Major - International Relations)
- Latin American Studies (Minor)
- Leadership in Hospitality and Event Management (Major)
- Liberal Arts (Major - Option A, Option B, Option C)
- Marketing Communications (Major)
- Mathematics (Major, Minor)
- Peace and Justice Studies (Minor)
- Pharmacy Studies (Pre-pharmacy, Pre-Professional)
- Philosophy (Major, Minor)
- Pre-Medical, Pre-Dental, Pre-Veterinary (Pre-professional)
- Political Science (Major, Minor)
- Physics (Major, Minor)
- Psychology (Major, Minor)
- Radiological Sciences (Major)
- Religious Studies (Major, Minor)
- Sociology (Minor)
- Spanish (Major, Minor)
- Women's Studies (Minor)

Art (Major, Minor)

Art Department

Geoffrey Delanoy, M.F.A., *Chair*
Jennifer Wester, Ph.D.
Kevin B. Raines, M.F.A.

Degrees offered

Major
Minor

Campuses

Main Campus

The Art Department prepares women to understand and interpret art of the past and the present and contribute to the future. The vibrancy of Baltimore's art scene and Notre Dame's closeness to museums in Baltimore, Washington DC, Philadelphia, and New York make it an ideal place to study art.

Summary

The Art Department of the College of Arts, Sciences, and Business offers a Major and Minor in Art to students in the Women's College. It also offers Women's College students preparation for Elementary and Secondary Teaching Certification in Art. The Art Major provides a curriculum that emphasizes the development of creative potential, the understanding of the history and tradition of the visual arts, and the realization of the place of art in contemporary society. Classroom lectures, creative experiences and museum tours give students an opportunity to become part of a community of artists preparing for graduate school or for a variety of art-related careers.

Among the career opportunities are art librarian, art historian, museum curator, art advisor, art administrator, visual resource curator, corporate curator, painter, sculptor, art restorer, art therapist, illustrator, animator, layout artist, graphic designer, theatre designer, exhibition designer, jeweler,

textile designer, freelance photographer and staff photographer.

The General Education Requirement in Fine Arts may be fulfilled by taking any of the following departmental offerings: ART-101, 102, 103, 109, 120, 121, 122, 123, 131, 142, 150, 151, 162, 204, 208, 211, 212, 213, 214, 241, 243, 279, 311, 312, 313, 315, 330, 411, 412, 413. The General Education Requirement in Gender Studies may be met by completing ART-315.

Art Majors and Minors, in all concentrations, must complete all courses with a minimum grade of C.

Programs of Study

Required Courses for a Major in Art (Credits)

ART-101 Drawing I (3)
ART-102 Color and Design (3)
ART-103 Three-Dimensional or ART-207 Two-Dimensional (3)
ART-109 Basic Photography or ART-162 Digital Photography I (3)
ART-120 Survey I: Western Art from PreHistory to the Renaissance (3)
ART-121 Survey II: Western Art from the Renaissance through the 20th Century (3)
ART-142 Painting I (3)
ART-315 Explorations of Women in Art
ART-440 Senior Seminar (3)

Senior Thesis

All seniors will complete a senior thesis during the fall and spring semesters of their senior year. For students with an emphasis in Studio Art and Photography, this will be a body of work that will be presented in the annual senior exhibition at the end of the spring semester of senior year. The body of work will be completed, with guidance from the student's advisor, in the context of advanced courses taken during fall and spring. This would be the point at which the student would be completing 300-400 level courses, as well as independent study courses, culminating in ART-440 Senior Seminar.

Students with an Emphasis in Art History and Pre-museum Studies will complete a written research project on a topic in consultation with the advisor. This written project also would be completed within the context of advanced courses in the area of emphasis, including independent study and directed readings courses, culminating in ART-440 Senior Seminar. The student will prepare a poster presentation of her research and would be present with this poster presentation at the senior exhibition opening to discuss the project and findings. Art Minors enrolled in ART-440 Senior Seminar may participate in the senior exhibition.

Area of Emphasis in Art

All majors will select an area of emphasis and complete its requirements prior to graduation.

Emphasis in Art History

One of the following: (3)

ART-211 Art of the Ancient World
ART-212 Art of the Medieval World
ART-213 Art in the Age of Rembrandt and Kingship
ART-214 The Splendors of the Renaissance in Italy and the North

One of the following: (3)

ART-221 Artistic Rediscovery and Transformation in the 18th and 19th Centuries
ART-223 20th Century Art: Modernism and Innovation
ART-313 Emergence of an American Style
ART-412 Explorations in American Art

One of the following: (3)

ART-122 Art of China, Japan and India
ART-123 Art of Africa
ART-323 African-American Art
ART-413 Explorations in Asian Art

Any five 200, 300 or 400 level art history courses (15)

Emphasis in Photography

ART-209 Black and White Photography (3)
ART-342 History and Aesthetics of Photography (3)
ART-162 Digital Photography I (3)
ART-363 Color Photography (3)
ART-364 Studio Photography (3)
ART-368 Alternate Photographic Processes (3)

One of the following: (3)

ART-262 Photography and the Handmade Book
ART-322 Picture Story
ART-350 Photographic Criticism
ART-470 Practicum in Art

One of the following: (3)

ART-406 Advanced Photography
ART-460 Photography Senior Studio

Emphasis in Studio Art

ART-201 Drawing II or ART-321 Life Drawing I (3)
ART-202 Painting II (3)
ART-204 Watercolor Painting (3)
ART-205 Printmaking or Studio Elective (3)
ART-247 Ceramics (art education students only) (3)
ART-330 Theory, Criticism and Contemporary Art (3)

Any two courses selected from:

ART-301 Drawing III, 302 Painting III, 203 Sculpture, 321 Life Drawing I, 401 Drawing IV, 402 Painting IV and 421 Life Drawing II (6)

Emphasis in Pre-museum Studies in Art

One of the following: (3)

ART-211 Art of the Ancient World
ART-212 Art of the Medieval World
ART-213 Art in the Age of Rembrandt and Kingship
ART-214 The Splendors of the Renaissance in Italy and the North

One of the following: (3)

ART-221 Artistic Rediscovery and Transformation in the 18th and 19th Centuries
ART-223 20th Century Art: Modernism and Innovation
ART-313 Emergence of an American Style
ART-412 Explorations in American Art

One of the following: (3)

ART-122 Art of China, Japan and India
ART-123 Art of Africa
ART-323 African-American Art
ART-412 Explorations in American Art
ART-413 Explorations in Asian Art

Any three 200, 300 or 400 level art history courses (9)
ART-465 Directed Readings: Museum Studies (3)
Two practicums in museum work (6-8)

Art Education: Pre through 12

Students in the Art Education Program receive dual certification enabling them to teach art in Maryland in grades Pre – 12.

Students will complete a Major in Art and certification in education and fulfill the General Education Requirements of the University.

Requirements in Art Education

1. An overall GPA of 2.8.
2. A GPA of 2.8 in your Major (3). An interview with the education chairperson and a portfolio review with the studio art advisor and the field supervisor.

Minor in Art

The Art Minor consists of a minimum of any seven courses and is offered in three areas of emphasis:

- Art History
- Photography
- Studio Art

Art History Four-Year Plan

Sample program of study for the art history major. Students should select courses with the assistance of a faculty advisor.

Courses

ART-101 Drawing I

Introduces the fundamentals of free-hand drawing and explores a variety of materials, techniques and subject matter such as still life, landscape and the human form as students identify individual areas of interest and artistic expression. Informal slide presentations and class critiques will expose students to the diversity of drawing and its manifestations in contemporary art and culture. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-102 Color and Design

Introduces the fundamental elements and principles of color and design as a communicative tool. The course is designed for students with limited studio background and explores a wide variety of mediums and techniques as students develop technical virtuosity and personal aesthetic. The concepts and design strategies explored in this course can be applied in related areas of computer design, interior design and fashion design. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-103 Three-Dimensional Design

Explores the sculptural organization of form in three dimensions through the use of a wide variety of materials such as found objects, paper, wire, wood, clay and metals. Projects are developed that consider the relationship of the sculptural object to its perception in time and space. Fulfills the

General Education Requirement in Fine Arts. [3 credits]

ART-109 Basic Photography

Provides hands-on experience with the fundamental controls of the photographic process for black and white photography. Students learn the use of the camera, film development, darkroom printing and the presentation of mounted photographs. Includes lectures and presentations on photographic technique, illustrated lectures on the history and aesthetics of photography, assistance in the darkroom and critiques of work in progress. Lecture plus lab. Fulfills the general education requirement in fine arts. [3 credits]

ART-119 Introduction to Photography

Introduces the art of digital photography. Through lectures, demonstrations and assignments students will learn the fundamentals of camera selection and usage, image editing using Adobe Photoshop software and photographic composition. Students must have their own camera. While a digital camera is preferable, any camera is suitable. Open to CAUS students only. Fulfills General Education Requirement in Fine Arts for CAUS students. [3 credits]

ART-120 Survey I: Western Art from Prehistory to the Renaissance

Introduces seminal works of painting, sculpture, and architecture made in Europe and the Near East from prehistoric times to 1400 CE. Traces the evolution of the roles of art and artists in society, whether mystical, practical, aesthetic, or spiritual. Students will examine significant original artwork from this period firsthand in area museums, including ancient Egyptian, Greek and Roman statuary; Medieval manuscripts, stained glass, jewelry and metalwork; and paintings depicting early Christian imagery. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-121 Survey II: Western Art from the Renaissance through the 20th Century

Introduces seminal works of painting, sculpture, printmaking, and architecture made in Europe and the United States from 1400 to the 1990s. Identifies regional styles and follows the evolution of subject matter and technique over the centuries. Considers the impact of changes to artistic training and patronage, as well as political and social change, on attitudes about art and artists. Students will examine significant original artwork from this period firsthand in area museums, including the Renaissance and Baroque collections at the Walters Art Museum and the modern and contemporary collections at the Baltimore Museum of Art. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-122 Art of China, Japan and India

Explores the major art mediums of China, Japan and India from Neolithic times to the present, contrasting it with that of the Western tradition and examining the influence of Buddhism and Hinduism upon it. Among the art forms to be studied are Chinese landscape painting, Japanese screen painting, the Japanese tea service, silkscreen painting, bronze vessels, ceramic pottery, Indian rock-cut temples, and the vast burial complexes of China and Japan, which include life-sized pottery soldiers. Students will examine fine examples of Asian works in The Walters Art Museum in Baltimore. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-123 Art of Africa

Explores art of the major geographic regions and cultures of sub-Sahara Africa. Various mediums are examined, including both wood and bronze sculptural figures, painted sculpture, ceremonial objects, power images, and bush spirit and ancestor worship objects. In addition, the evolving role of the artist in society is discussed. Students will examine significant African artworks in the National Museum of African Art in Washington, D.C. or other local collections. Fulfills the general education requirement in fine arts. [3 credits]

ART-142 Painting I

Introduces the fundamentals of oil and acrylic painting. Through an exploration of traditional and contemporary techniques of painting, students will develop their powers of observation and artistic expression. Informal slide presentations and class critiques will expose students to the diversity of painting and its manifestations in contemporary art and culture. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-150 Baltimore Museums Study Tour

Combines tours of Baltimore area museums, such as The Walters Art Museum, Baltimore Museum of Art, the Maryland Historical Society, the Maryland Arts Place (MAP) and the Visionary Art Museum, as well as local art galleries, with classroom lectures and discussions. Explores the history of art, perceptions of art as presented in museums of the past and present, as well as the museums' role in interpreting art for the public. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-151 Washington Museums Study Tour

Combines tours of Washington-area museums, such as the National Gallery of Art, the National Museum of American Art, the National Museum of Women in the Arts, the Corcoran Gallery of Art and the Phillips Collection, with classroom lectures and discussions. Explores the history of art,

perceptions of art as presented in museums of the past and present, as well as the museums' role in interpreting art for the public. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-162 Digital Photography I

Introduces the fundamentals of digital imaging using Adobe Creative Cloud with an emphasis on camera vision. Through assigned readings and classroom discussions, students also will gain a critical perspective of the impact of digital imaging on photographic practice. Fulfills General Education Requirement in Fine Arts. [3 credits]

ART-201 Drawing II

Builds on the skills gained in ART-101 and provides a progressive investigation of personal expression. The course emphasizes an evolution from traditional methodologies toward contemporary nonrepresentational approaches to the making of art. Prerequisite: ART-101 or ART-204, or permission of the instructor. [3 credits]

ART-202 Painting II

Builds on the skills gained in ART-142 and provides a progressive investigation of personal expression. The course emphasizes an evolution from traditional methodologies toward contemporary nonrepresentational approaches to the making of art. Prerequisite: ART-142 or ART-204, or permission of the instructor. [3 credits]

ART-204 Watercolor Painting

Introduces fundamental techniques and possibilities of transparent and opaque watercolor. Special emphasis is placed on a broad understanding of the medium and the development of personal expression. Fulfills the general education requirement in fine arts. [3 credits]

ART-205 Printmaking

Introduces fundamental processes of relief and planographic printing. Particular emphasis is placed upon technical mastery and clarity of printed image. [3 credits]

ART-208 Creative Arts in the Elementary School

Demonstrates the use of creative arts and their integration into the curriculum. Basic understand-ing of the ways children use the fine arts (dance, theatre, music and visual arts) as a means of learning. Skills in analyzing and interpreting young children's art expressions will be presented from preschool through the elementary levels. A review of art skills and processes will be presented and practiced in

order to effectively use art experiences as learning vehicle in the classroom. Basic skills in drawing, painting, printmaking, lettering, sculpture and crafts will be included. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-209 Black and White Photography

Explores aesthetics of black and white photography. Employs a variety of methods techniques and materials for negative and print development. Investigating various genres, students build visual literacy through interpretation of subject matter and the preparation of a portfolio, lecture plus lab. [3 credits]

ART-211 Art of the Ancient World: Roots of the Western Tradition

Explores underlying currents of human purpose, thought and feeling in art through reflection upon examples from the earliest human attempts at expression in prehistoric times; the ancient Egyptian focus upon death and the afterlife, as understood through the elaborate contents of King Tut's tomb and the mystery of the Great Pyramids; the intriguing Goddess culture of the Aegean, exemplified by Cycladic idols and other ceremonial objects; the Greek realization of self as reflected in representations of the human figure; the Mesopotamian sense of deities as natural forces; the divine, yet very human, sculptural portrayals of Greek gods and goddesses; the Roman love of things Greek melded to imperial desires evident in sculpture and architecture. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-212 Art of the Medieval World: Crosscurrents In Politics and Religion

Explores the transformations evident in Western European art spanning from the age of Constantine to the late Gothic period. Special areas of interest include Early Christian attempts to visualize a new religion in the varied images of Jesus and the saints, and through mysticism and the world of symbols; Byzantine elegance and grandeur; the melding of Roman style with Christian thought in the Romanesque; chivalry and love in the courtly society of the Gothic and the cult of the Virgin Mary; the great cathedrals of the Gothic, viewed as immense prayers in stone; the late medieval return to the humanism of antiquity with the school of Giotto; and the role of women, and ways women are represented in medieval art. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-213 Art in the Age of Rembrandt and Kingship

Traces the evolution, definition and dissemination of Mannerist, Baroque and Rococo art from 1510-1750 A.D., including absolutism and the bourgeois in the age of Rembrandt. Examines 17th-century architecture; the influence of the Counter-Reformation; the Italian translation of stone to flesh and

heavenly vistas; Rubens and the artist as celebrity, and Caravaggio: the bad boy as artist; absolutism in France and its aristocratic art; Rembrandt and the Little Dutch Masters; Vermeer's ethereal imagery; Rococo and the Salon: wit and subtlety; Rousseau's back-to-nature movement and the Enlightenment; and the expressive and spiritual use of light in images by Caravaggio, Rembrandt and Vermeer. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-214 The Splendors of the Renaissance in Italy and the North

Examines the art of Western Europe from the advent of the Renaissance to the 1530s through topics such as the artist as hero; the lingering Gothic influence in art of Italy and the North; the greater emergence of women in the world of art; the convergence of science and art: Renaissance artists as theorists and the complete investigation of human anatomy; the individual and a sense of self; and The Last Supper and The Sistine Ceiling: controversies of restoration. Also explores such artist-centered topics as lyricism and classicism: the beauty of Botticelli; Leonardo da Vinci: the Renaissance man and artist; Michelangelo: a revival of the classical humanism of classical Greece; Jan van Eyck and Durer: the Italian Renaissance in the North; and Titian and the Venetian: school of color and sensuality. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-219 Honors: Intersections: Image and Word

Examines collaboration through series of exercises, group projects and assignments that explore the interplay of photography and literature. Students make and edit their own photographs and creative writing in response to instructor prompts and class critique. Students will collaborate on a final publishable portfolio of photographs and creative writing. Prerequisite: Morrissy scholar or permission. Fulfills General Education Requirement in Fine Arts. [3 credits]

ART-221 Artistic Rediscovery and Transformation in the 18th and 19th Centuries

Examines European and American art from 1750 to 1900, in the context of the vast political and social changes in the Age of Revolutions and the development of modernity. Themes include Rococo and aristocratic taste; Neoclassicism and the rediscovery of classical antiquity; Romanticism and the pursuit of originality; Orientalism and the lure of the exotic; photography and positivism; Realism and social revolution; Impressionism and the painting of modern life; American expatriates in Europe; and Post-Impressionism and the avant-garde. Students will examine artwork firsthand in the Cone Collection of the Baltimore Museum of Art. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-223 20th Century Art: Modernism and Innovation

Interprets the work of European and American artists working from the turn of the 20th century through the 1990s. Focuses on the development of style, theoretical and philosophical concerns, and social contexts of modern art movements, including Cubism, Dada, Surrealism, Abstract Expressionism, and Pop. Special topics include the impact of art criticism, the challenges of public art, the influence of non-Western art, the role of the museum, and more. Students examine artworks firsthand at the Baltimore Museum of Art. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-226 Two Dimensional Media and Techniques For the Elementary and Secondary Schools

Explores two-dimensional media and processes. Covers planning, safety and instructional strategies for use in elementary and secondary schools. [3 credits]

ART-227 Three Dimensional Media and Techniques For the Elementary and Secondary Schools

Explores three-dimensional media and processes. Covers planning, safety and instructional strategies for use in elementary and secondary schools. [3 credits]

ART-241 Watercolor Painting: Landscapes

Explores the beauty of watercolor painting while on location in natural settings. A variety of methods and applications of the medium are demonstrated in each class as students practice and develop technical skills, selectivity and personal expression. Students must provide their own transportation to and from the painting sites. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-243 Materials and Techniques of the Old Masters

Explores the materials and techniques used by the Great Masters of drawing and painting. Materials such as silverpoint, charcoal, bistre ink and egg tempera will be fabricated from raw substances and used in drawings and paintings. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-247 Ceramics

Provides practical study of elementary principles and problems in creating ceramic art. Technical study of glazes, clay and methods of firing. [3 credits]

ART-267 Photographic Criticism

Analysis and discussion of the art of photography to increase skills in critical observation of relationships, styles, structure, composition and content in photographs. Lecture/seminar format. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-270 Media and Techniques for Art Teachers In the Elementary and Secondary School

Exploration of media and processes for students in PreK-12. Includes studio activities, planning, and instructional strategies for the elementary and secondary schools. [3 credits]

ART-273 Illustration I

This course explores the effective use of imagery, application technique, and graphic medium that visually communicate literary scenes and ideas, advertising text, products and reflect and master each students' graphic style. Special attention will be given to graphic illustration techniques used specifically for reproduction and commission work.

Students Prerequisites: ART-101, OR ART-102 or permission of instructor. [3 credits]

ART-279 Honors: Concepts in Visual Aesthetics

Introduces new ideas and concepts stemming from a particular period and/or movement in society, becoming the "fireworks" that stir the artistic spirit to react to those ideas consciously, vibrantly, intuitively and with unique creativity. This class will use audio-visuals, readings and shared dialog to examine works of art and varied aesthetic concepts. It will address the artist as a gendered translator of history, as a visionary, and as a social documentarian within the context of significant periods in Western art. Prerequisite: Morrissy scholar or permission. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-301 Drawing III

Provides students with the opportunity to identify and develop their specific conceptual, aesthetic and technical areas of interest within the context of advanced drawing. Prerequisite: ART-101, 201, 204 or permission of instructor. [3 credits]

ART-302 Painting III

Provides students with the opportunity to identify and develop their specific conceptual, aesthetic and technical areas of interest within the context of advanced painting. Prerequisite: ART-142, 202, 204 or

permission of instructor. [3 credits]

ART-313 Emergence of an American Style

Examines the art created in the United States from Colonial times to the 1970s, exploring its relationship to European styles, and the question of what constitutes an American style. Mediums studied include painting, sculpture, architecture and photography. Artists such as Gilbert Stewart, Thomas Cole, Thomas Eakins, Mary Cassatt, James Whistler, Jackson Pollack and Andy Warhol will be discussed. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-315 Explorations of Women in Art

Focuses upon the significant contributions of women artists to the history of art and the traditional duality of gender. Emphasis will vary in different sessions; some may focus primarily on topics applicable to art made by women of the nineteenth or twentieth centuries, while others may address topics related to feminism in European and Asian traditions, women as subjects in art, and/or women as artists. The seminar format will emphasize class presentations and discussions. Students will also examine artwork in local collections, particularly the National Museum of Women in the Arts in Washington, D.C. Fulfills the General Education Requirement in Fine Arts and Gender Studies. [3 credits]

ART-320 Large Format Photography

Large Format provides the serious photography student with a strong background in 4x5 view camera technique, the Zone system, and studio lighting and practices. The aesthetics and disciplines of the large format camera are applied to portraiture, still life, architecture, and landscape. View cameras and meters are provided by the college. Prerequisite: ART 209. 3 credits.

ART-321 Life Drawing I

Provides individualized instruction in the study of the nude with special emphasis on observation, movement, proportion, figural composition and pictorial space. All sessions will include short and sustained poses. Prerequisite: ART-101 or permission of instructor. [3 credits]

ART-322 Picture Story

Explores the history, theory and practice of the picture story through readings, discussions and the production of a photographic essay. Considers documentary, photojournalistic and narrative traditions. The service-learning option offers the advanced photography student an opportunity to combine her exploration of the photograph as document with a practical experience in community engagement. ART-109 or permission of instructor. [3 credits]

ART-323 African-American Art

Examines works created by African-American artists from the Antebellum era to the present, and situates those works in the contexts of American history, African tradition, and cultural politics. Explores the evolution of artistic responses to such issues as identity, race, class, ethnicity, and representation. Topics of study include folk art, decorative art, and fine art produced by African-Americans from the early slave communities to the Harlem Renaissance, the Civil Rights Movement to the emergence of a modern black aesthetic. The seminar format will emphasize class presentations and discussions. Students will also examine artwork in local collections, including the Baltimore Museum of Art, the Reginald F. Lewis Museum of African-American History and Culture, and/or the National Museum of African-American History and Culture. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-330 Theory, Criticism and Contemporary Art

Presents an overview of the history and development of art theory and criticism from antiquity to the present. The course explores a wide range of art forms and ideas from traditional art to controversial contemporary art and art censorship. With the knowledge gained through the study of aesthetic evolution, students will assess the art of the 20th and 21st centuries, and formulate critical judgments and aesthetic positions of their own. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-342 History and Aesthetics of Photography

Explores the art of photography from its pre-history to the present. The course will deal with the effects of changing technology, interrelationships with the other arts, and the impact of photography on society. Major photographers and movements will be covered, including study of local exhibitions. Fulfills the General Education Requirement in Fine Arts. [3 credits]

ART-363 Color Photography

Studies the aesthetics of color photography. Lectures and demonstrations cover techniques and issues related to digital, film and alternate processes. Group discussions and critiques will focus on the development of color vision, the psychology and effective uses of the unique characteristics of color photography. Lecture plus lab. [3 credits]

ART-364 Studio Photography

Practices photographic lighting using continuous and strobe lights, as well as portable flash. Artistic

and professional procedures using 35mm as well as departmental 4x5 view camera systems are covered. Topics include studio and location assignments such as still life and portraiture, culminating in a portfolio. H31 [3 credits]

ART-368 Alternate Photographic Processes

Applies historical, non-silver printing techniques of the 19th and 20th centuries, as well as innovative approaches to making photographic images. Numerous methods of making an enlarged negative (for Cyanotype, Vandyke Brown, Palladium), including the use of graphic art film, copy camera, pinhole camera and the digital negative will be explored. Prerequisite: ART-209 or permission of instructor. [3 credits]

ART-373 Illustration II

As a sequel course to Illustration I, this course continues use and personal development of imagery, application technique, and graphic medium that visually communicate literary scenes and ideas, advertising texts and products. Special attention, time, and focus, will be given to graphic illustration techniques that reflect students' individual stylistic development.

Students Prerequisites: ART- 273 or permission of instructor. [3 credits]

ART-380 Visual Aesthetics in a Post-Modern World

Presents an overview of art history and the evolution of art theory and visual aesthetics from antiquity to our present post-modern world. To many viewers, the art of the 20th and 21st centuries has become difficult to understand and conceptually esoteric. This course will examine the history and interplay of aesthetic notion, critical analysis and the art object. [3 credits]

ART-401 Drawing IV

Provides students with the opportunity to continue to develop and refine their specific conceptual, aesthetic and technical areas of interest within the context of advanced drawing. Prerequisite: ART-301 or ART-321. [3 credits]

ART-402 Painting IV

Provides students with the opportunity to continue to develop and refine their specific conceptual, aesthetic and technical areas of interest within the context of advanced painting. Prerequisite: ART-204 or ART-302. [3 credits]

ART-406 Advanced Photography

Guides the student towards fluency in the language of photography as a means of personal expression. Students propose and produce a photographic project that synthesizes personal vision, ideas, techniques and processes learned in previous courses. Prerequisite: junior/senior status and permission of instructor. [3 credits]

ART-411 Explorations in Western Art

Investigates and analyzes selected topics in Western art from diverse periods in a seminar format that emphasizes class presentations and discussions. Students may examine architecture in Baltimore, various painting styles represented in Baltimore museums, and medieval manuscripts in the collection of The Walters Art Museum, among other possibilities. May be taken for credit more than once as the topics vary. Fulfills the general education requirement in fine arts. [3 credits]

ART-412 Explorations in American Art

Investigates and analyzes selected topics in American art and architecture from Colonial America and the United States in a seminar format that emphasizes class presentations and discussions. Particular attention is given to nearby monuments that reflect American interpretations of earlier styles, and to local collections of American art, including the Baltimore Museum of American Art and the Maryland Historical Society. May be taken for credit more than once as topics vary. Fulfills the general education requirement for fine arts. [3 credits]

ART-413 Explorations in Asian Art

Investigates and analyzes selected topics in the art of India, China or Japan, depending upon the semester, focusing on the architecture, painting and sculpture of each area from prehistoric times through the 20th century. May be taken for credit more than once as topics vary. Asian art will be examined firsthand during visits to local collections. Fulfills the general education requirement in fine arts. [3 credits]

ART-419 Digital Photography II

Deepens experience in digital photography and investigates the relationships between communication through photographs and digital images and other electronic media such as the digital press, World Wide Web and the virtual environment of the video game. Students enhance their skills and personal aesthetic using Adobe Photoshop and choose projects from still photography, graphic design or motion graphics. Prerequisite: ART-162. [3 credits]

ART-421 Life Drawing II

Provides individualized instruction in the advanced study of the nude with special emphasis on observation, movement, proportion, figural composition, pictorial space and the development of personal interpretation of the figural form. All sessions will include short and sustained poses. Prerequisite: ART-321. [3 credits]

ART-427 Study Tour:

Explores Art in various external settings.

ART-440 Senior Seminar

Provides an opportunity for senior art majors from all concentrations to meet together as a group and examine the nature of art in contemporary society and explore topics such as morals and ethics in art, artists and critics, and the business of art. Students present their thesis project at the senior exhibition. To be taken in senior year. [3 credits]

ART-460 Senior Studio Photography

Creates self-directed projects under the supervision of the instructor. The aim of the course is the production of a body of work for exhibition and the compilation of a portfolio for professional use. Course content includes discussions, readings, research, studio and gallery visits and critiques. Prerequisite: Senior status and permission of instructor. [3 credits]

ART-463 Independent Study

Provides an opportunity to pursue an individual project in consultation with an art faculty member. [3 credits]

ART-465 Directed Readings: Selected Topics In Art History

Creates an individual study opportunity that is pursued under the guidance of a faculty member of the department. The directed readings format enables the student to make an intensive examination of a personally selected area of intellectual interest. The selected area of focus may be a specific topic, medium, artist, theme, style or approach; includes pre-museum studies requirement. Prerequisite: permission of instructor. [3 credits]

ART-470 Practicum in Art

Provides the opportunity to gain credit for work experience with professional art organizations with the consent of the advisor. The site is chosen according to the student's field of concentration. Permission required. [3 or 4 credits]

ART-471 Practicum in Art

Provides the opportunity to gain credit for work experience with professional art organizations with the consent of the advisor. The site is chosen according to the student's field of concentration. Permission required. [3 or 4 credits]

ART-509 Graduate Photography Workshop

Promotes the visual literacy and technical skills to allow students to effectively use photography as a visual means of communication. Students will develop a critical and contextual understanding of photography within the framework of contemporary art and visual communication while exploring the theoretical perspectives, artistic and practical applications of digital photography. [3 credits]

ART-511 Explorations in Western Art

Investigates and analyzes selected topics in Western art from diverse periods in a seminar format that emphasizes class presentations and discussions. Students may examine propaganda in art, innovations in modern painting, criticism and art, art patronage, modern arts and iconography, and communicating the revolutionary fervor of the 19th century. May be taken for credit more than once as the topics vary. [3 credits]

ART-512 Explorations in American Art

Investigates and analyzes selected topics in American art and architecture from Colonial America and the United States in a seminar format that emphasizes class presentations and discussions. Particular attention is given to nearby monuments that reflect American interpretations of earlier styles, and to local collections of American art, including the Baltimore Museum of American Art and the Maryland Historical Society. Students may examine the American spirit in art and American political messages in art and architecture. May be taken for credit more than once as topics vary. [3 credits]

ART-515 Explorations of Women in Art

Focuses upon the significant contributions of women artists to the history of art and the traditional duality of gender. Emphasis will vary in different sessions; some may focus primarily on topics applicable to art made by women of the nineteenth or twentieth centuries, while others may address topics related to feminism in European and Asian traditions, women as subjects in art, and/or women as artists. The seminar format will emphasize class presentations and discussions. Students will also examine artwork in local collections, particularly the National Museum of Women in the Arts, in Washington, D.C. May be taken for credit more than once as topics vary. [3 credits]

ART-520 Visual Culture

Introduces a critical knowledge and understanding of images, their history, and their permeation of

contemporary culture. Through historical and theoretical approaches, students gain skills necessary to analyze and interpret images and visual information. [3 credits]

ART-541 The City As Art

Cities form the environment in which a person lives, grows and defines self and society. The study of cityscapes from ancient walled cities to contemporary centers suggests the impact of architecture, city patters, planned environments and habits, on urban residents. Baltimore, with its rich heritage and current renaissance, serves as a laboratory.

Art Therapy (Major)

Art Department

Cathy Goucher, MA, ATR-BC, LCPC, LCPAT

Degrees offered

Major

Campuses

Main Campus

The NDMU Bachelor of Arts in Art Therapy represents study related to one of the newest, unique specializations in the helping professions. The Program of Study includes the study of studio art, photography and art history, and a psychology curriculum stressing a sequence of counseling, therapy, and developmental psychology classes. A practicum in the student's senior year will provide a clinical experience orientation.

The BA in Art Therapy was designed to promote and support the advancement of women in a field in which many women express interest and where state and regional need is growing in hospitals, schools, and community health endeavors.

Students who enroll in the bachelor's degree Program of Study should plan to pursue the master's degree toward licensure at NDMU or other universities in order to meet requirements for practice in the field.

Four-Year Plan

Below is a sample Program of Study for full-time Art Therapy Majors. Students should consult with the Program Coordinator for their academic plans as many courses are offered on alternating years.

FALL		SPRING	
First year			
ENG 101 College Writing	3	PSY 203 Child and Adolescent Psychology	3
PSY-101 Introduction to Psychology	4	ART 102 Color and Design	3
NDMU-100 First-Year Seminar	4	MA 215 Statistics	3
ART-101 Drawing I	3	ART 120 or 121 Art History	3
Foreign Language Requirement	3	Foreign Language Requirement	3
[17 credits]		[15 credits]	
Second year			
PHL 201 Introduction to Philosopy	3	ATH 2xx Introduction to Art Therapy	3
PSY 210 Research Methods	4	RST 201 Introduction to Biblical Studies	3
PSY 205 Theories of Personality	3	PSY 233 Human Growth and Development	3
ART 103 Three-diminsional Art	3	Natural Science Requirement	4
Foreign Language Requirement	3	Basic or Digital Photography	3
[16 credits]		[16 credits]	
Third year			
ART 142 Painting I	3	ART 202 Painting II	3
PSY 207 Psychopathology	3	PSY 306 Theo. and Tech. of Couns. and Psyc.	3
ART 201 or 321 Drawing	4	COM 106 Fundamentals of Oral Communication	3

Literature Requirement	3	Gender Studies Gen Ed Requirement	3
[16 credits]		Physical Education Requirement	1
		[16 credits]	
Fourth year			
ART 204 Watercolor Painting	3	ATH 4xx Practicum in Art Therapy	4
PSY 409 Psychometrics	3	ART 301 Drawing III	3
ATH 4xx Senior Capstone	3	Values Gen Ed Requirement	3
UL Religious Studies Course	3	History Gen Ed Requirement	3
General Elective	3	Cross-Cultural Studies Gen Ed Requirement	3
[15 credits]		[16 credits]	

*Some courses meet more than one general education requirement.

**Depending on the level of foreign language proficiency, three to nine credits are required.

Additional information on the Master of Arts in Art Therapy

The co-ed Master of Arts in Art Therapy meets a regional and national need for more practitioners in one of the important contemporary helping professions. Students may enroll in the 60-credit Program of Study on a full- or part-time basis. The Program includes advanced courses in counseling and therapeutic techniques, creative art-making modalities specific to art therapy and advanced courses in painting, ceramics, sculpture, and photography. Courses are offered in on-ground and hybrid formats. In addition, substantial clinical hours are required at off-site externships. Art therapists serve in a number of hospital, school, and community health settings.

The Program received approval from the Maryland Higher Education Commission in Fall 2017.

The University is actively pursuing accreditation status for this program. The course of study is aligned with licensure requirements.

Courses

ATP-201 Introduction to Art Therapy

Explores the discipline of Art Therapy through a critical theoretical framework along with examining empirical evidence while providing an overview of Art Therapy as a discipline. The discipline of Art Therapy, its influences, its history, then nature of the discipline, and applications to clinical practice will be explored. This course will also focus on the developmental and healing aspects of art and the creative process, as well as an understanding of the basic principles of how our unconscious thoughts reach expression in images rather than words that can be used in clinical practice. Students will engage in art making experiences as a means to explore the creative process and its relationship to the psychological and emotional self and to understand the relationship of art making to the treatment process. Prerequisites: PSY-101. [3 credits]

ATP-310 Art Therapy Theory and Practice

Engages students in tangible exporation of the symbiotic, therapeutically significant relationship between art and psychology through didactic instruction and art-based experientials. Professional art therapists working in a variety of settings in the region will serve as guest lecturers, providing clarity as to the therapeutic needs of their clients, goals of Art Therapy with these populations, and demonstrations of their approaches. Materials and methods will be emphasized throughout the course and synthesized with supporting pschological theory and practice relative to the treatment populations explored. Development of emphatic responsiveness and self-awareness through experiential learning, small group and dyadic collaboration, and written and art-based self-reflection will be central. Prerequisite: ATP-201. [3 credits]

ATP-501 History and Theory of Art Therapy

Explores the rich underpinnings of the field of Art Therapy predating its formal establishment as a discipline, including psychiatric interest in spontaneous image creation and the relationship to behavior, psychiatric condition, and expression of experience. Through examination of historical texts and theory, as well as examination of contemporary literature and research in the field, students will gain understanding of the history and development of the discipline of Art Therapy and how it is practiced today within clinical and community based settings. Attetion will also be given to how both the process and product of Art Therapy are integral to growth and healing for clients. Students will work toward understanding how art "speaks" and how internal experiences find expression through creative materials and provide products that promote interpersonal connection and psychologically restorative opportunities. Art making in and outside of class will provide a critical means through which students learn how the creative process is informed by and is an expression of the self and one's internal, psychological experiences. This course is a prerequisite to all other graduate Art

Therapy courses. Prerequisite: Enrolled in Graduate Art Theraphy Program (MA). [3 credits]

ATP-502 Professional Ethics and Legal Issues

Integrates understanding of ethical, professional, and legally informed practices toward development of professional identity as an Art Therapist. Examines service provision and ethical decision making in mental health, educational, medical, and community-based settings. The critical roles of supervision, documentation, collaboration with related service professionals, advocacy for client needs and for the profession of Art Therapy, and professional organizations and credentialing agencies will be explored. Prerequisite: Enrolled in Graduate Art Therapy Program (MA). Corequisites: required with or prior to ATP-501 and practicum or internship. [3 credits]

ATP-503 Human Development and Art Therapy

Examines the stages of human groth and development and offers students opportunity to scaffold assessment and treatment of typical and atypical individuals across the lifespan. Study of normative developmental stages of art will provide students a contextual les for assessing and considering how atypical development might be therapeutically addressed. Students will additionally consider the influences of culture upon an individual or family's growth and development. Students will gain and demonstrate understanding of development as a continuum and clients' capacity for growth withinin the continuum across the lifespan. Prerequisite: Enrolled in Graduate Art Therapy Program (MA). ATP-502 taken previously or concurrently. [3 credits]

ATP-504 Art Therapy in Counseling

Explores various theoretical approaches including psychodnamic, cognitive/behavioral, and humanistic approaches along with current counseling trends and their relation to art psychotherapy approaches, emphasizing integration. Introduces and provides initial opportunity, via in class experiential exercises, for practice of establishing and developing the therapeutic relationship through verbal and art mediated counseling proccesses. Students will develop an approach sensitive to clients' and counselors cultural backgrounds, personal philosophies, wellness, and presenteing needs. Case presentations and experiential exercises will guide class discussions. Students will articulate their own developing theoretical orientations. Prerequisite: Enrolled in Graduate Art Therapy Program (MA). ATP-501 taken previously or concurrently. [3 credits]

Asian Studies (Minor)

Department

Chad R. Diehl, Ph. D. (Loyola University), *Coordinator*

Degrees offered

Minor

Campuses

Main Campus

The Asian Studies Minor is offered to students in the Women's College. Asian civilizations are a significant part of human experience. Moreover, they are today the home of dynamic modern and modernizing societies whose power is growing. The study of Asia, fascinating in itself, can lead to careers in business, government, teaching, journalism and other fields.

Women's College

The Notre Dame-Loyola Program in Asian studies allows students in any Major field to declare a Minor devoted to Asia.

In the Asian Studies Minor, students learn how different disciplines bring their methodologies to bear on the study of Asia. Students deal with the applicability of concepts originating in Western experience (*e.g.,* "feudalism" or "the Protestant ethic" or "impressionism") to Asia. They also study the potential of Asian experience to contribute to universal knowledge by challenging or modifying Western concepts. Such studies have as one by-product a better understanding of the West itself.

The 18-credit Minor includes five courses (15 credits) selected from the list that follows, plus participation in the 3-credit Asian Studies Seminar or a 3-credit Independent Study. In this Program, no more than two courses (6 credits) may be taken in one discipline. Similarly, no more than 6 credits in an approved language may be applied. No more than three courses (9 credits) may be taken in any

one academic department.

Study Abroad is strongly recommended, although not required. No more than three courses (9 credits) may be taken through any study abroad program. Current opportunities include study in Bangkok, Beijing, Tokyo, or Osaka through Loyola, and Kyoto, Osaka, Nagoya, Taiwan, Singapore or Seoul through Notre Dame.

In the final seminar, students research, write, and present papers designed to integrate their work on Asia. The seminar alternates between Loyola and Notre Dame; the content of the seminar varies depending on the interests of the instructor and the participants. To accommodate individual interests or scheduling needs, a student may be allowed to choose an independent study instead of the seminar.

Behavioral Neuroscience (Major)

Psychology Department

Maria Mouratidis, Psy.D., Chair
Sean Coyne, Ph.D.
Irena Fedorovsky, Psy.D.

Degrees offered

Major

Campuses

Main Campus

Women's College

The Behavioral Neuroscience is an interdisciplinary Major designed to serve those Women's College students interested in the biological basis of behavior with primary emphasis on brain-behavior relationships. The Program of Study provides a core of Biology, Chemistry, Psychology, and Neuroscience courses. Students explore neurobiology and the neural correlates of behavior, sensation and perception, cognition, animal behavior, genetics, and development grounded in the disciplines of Psychology and Biology. Emphasis is placed on biological and psychological research techniques. In her junior or senior year, the student will integrate the two areas in her practicum, a field experience designed to fit each student's specific interest.

The Behavioral Neuroscience Major prepares the student for masters or doctoral graduate work in the growing field of neuroscience or immediate entry into a career as a research technician. The addition of two semesters of physics

provides excellent preparation for medical school, veterinary school, or graduate school. Behavioral Neuroscience is not eligible to be considered as a Double Major or a Minor if taken in conjunction with the Biology Major or Minor. Those students interested in medical or veterinary school are provided with further specialized advising to prepare them for competitive admissions to such programs.

Behavioral Neuroscience Majors are required to earn a minimum of a C grade in all required courses for their major. Due to the need for carefully scripted movement through the prerequisites and laboratory courses, students with an interest in this Program should contact the Department Chair in their first year to facilitate graduation in four years.

Program of Study

Required Courses (Credits)

BIO-111 Fundamentals of Biology (4)
BIO-230 Unity and Diversity of Life (4)
BIO-239 Genetics (4)
BIO-341 Vertebrate Anatomy (4)
BIO-413 Neurobiology (4)
PSY-101 Introductory Psychology (4)
PSY-210 Research Methods I (4)
PSY-325 Learning and Motivation (4)
PSY-340 Quantitative Methods (4)
PSY-212 Cognition (3)
PSY-220 Introduction to Neuroscience (3)
PSY-223 Biopsychology (3)
PSY-323 Sensation and Perception (4)
PSY-461 Practicum (4) or PSY-463 Independent Research Consisting of a Data Collection Project (3)
CHM-110 General Chemistry I (4)
CHM-111 General Chemistry II (4)
CHM-210 Organic Chemistry I (4)
MAT-110 Discrete Mathematics (3)
MAT-215 Basic Statistics (3)

MAT-243 Linear Algebra (3)
PHY-101 General Physics (4)

Students interested in medical school should take Organic Chemistry II, Physics 102, and Calculus I and II.

It is important that students confer closely with her advisor to facilitate graduation in four years. See Biology, Chemistry, and Psychology Departmental sections for course descriptions.

Four-year Plan

Below is a sample Program of Study for the Behavioral Neuroscience Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
NDMU-100 Perspectives on Education	3	General education/electives	6
PSY-101 Introduction to Psychology	4	BIO-239 Genetics	4
BIO-111 Fund of Biology	4	CHM-111 General Chemistry II	4
CHM-110 General Chemistry I	4	MAT-215	3
[15 credits]		[17 credits]	
Second year			
PSY-210 Research Methods	4	PSY-340 Quantitative Methods	4
BIO-230 Unity & Diversity of Life	4	PSY-325 Learning & Motivation	4
CHM-210 Organic Chemistry I	4	PSY-223 Biopsychology	3
PHL-201 Introduction to Philosophy	3	PHY-101 General Physics	3
PSY-212 Cognition	3		
[18 credits]		[14 credits]	

Third year			
BIO-341 Vertebrate Anatomy	4		
MAT-110 Discrete Mathematics	4		
PSY-220 Introduction to Neuroscience	3	PSY-323 Sensation & Perception	4
BIO-413 Neurobiology	4	PSY-461 Practicum or PSY-463 Independent Research	4
General education/electives	3	General Education/Electives	3
[18 credits]		[15 credits]	
Fourth year			
PSY-420 History & Sysems of Psychology	3	MAT-243 Linear Algebra	3
General education/electives	9	General education/electives	12
[15 credits]		[15 credits]	

Careful attention to course sequencing is required since courses are offered on rotating years and to ensure that prerequisites are taken.

Biology (Major, Minor)

Biology Department

Paul J. Weldon, Ph.D., *Chair*

Roberta Engel, Ph.D.

Jennifer Kerr, Ph.D.

Hangkyo Lim, Ph.D.

Kenneth Sossa, Ph.D.

Rebecca Zordan, Ph.D

Degrees offered

Major
Minor

Campuses

Main Campus

The Biology Department of the College of Arts, Sciences, and Business offers a Major and Minor in Biology to students in the Women's College. It also offers Women's College students preparation for pharmacy, medical, dental, veterinary, graduate schools, and secondary teaching certification. The Department provides a broad view of the biological sciences consistent with the liberal arts tradition of the University.

Summary

The Biology Program of Study incorporates emerging areas of biology; it also integrates these with traditional organismal studies. Small classes, lectures, and seminars explore current trends and

provide a climate for individualized learning. Laboratory facilities offer opportunities for hypothesis-driven experimentation that demands student initiative and creativity. In addition, independent student research is embedded in many courses within the Major. Students may pursue basic or applied research either on campus or at universities or research institutions local, national, and international.

The Program of Study prepares students for employment opportunities in research laboratories, medical and government facilities, pharmaceutical companies and other industries.

The General Education Requirement in the Natural Sciences may be fulfilled by taking BIO-104 Chesapeake Bay, BIO-107 Human Biology, BIO-110 Exploring Concepts in Biology, BIO-111 Fundamentals of Biology, BIO-115 Environmental Science, BIO-116 Conservation Biology or BIO-150 Principles of Evolution (CAUS only).

Biology majors must maintain a minimum cumulative grade point average of 2.0 in all courses taken to complete the requirements of the Major. Grades of "C" or better in BIO-111 , BIO-230 and BIO-239 are required to complete the Biology Major.

The Biology Program of Study offers a broadly based approach to biological systems, ranging from molecular and cellular to ecological and evolutionary biology.

Required Courses for a Major In Biology

BIO-111 Fundamentals of Biology (4)
BIO-230 Unity and Diversity of Life (4)
BIO-239 Genetics (4)

Six courses from the following, including either BIO-307 or BIO-311 and at least three at the 400-level

BIO-307 Ecology (4)
BIO-311 Evolution (4)
BIO-340 Microbiology (4)
BIO-341 Vertebrate Anatomy (4)
BIO-343 Animal Behavior (4)
BIO-345 Nutrition (3)
BIO-403 Immunology (3)
BIO-410 Cell and Molecular Biology (4)
BIO-411 Special Topics (3)
BIO-413 Neurobiology (4)
BIO-415 Developmental Biology (4)

BIO-425 Biochemistry I (4)
BIO-426 Biochemistry II (4)
BIO-431 Animal Physiology (4)
BIO-473 Biological Research (3-4)

All of the following

BIO-451 Senior Seminar (3)
CHM-110 and 111 General Chemistry I, II (8)
CHM-210 and 211 Organic Chemistry I, II (8)
One course in Mathematics (MAT-107 Elementary Functions, MAT-215 Basic Statistics or MAT-211 Calculus I) (3 or 4)

It is strongly recommended students intending to take upper-level chemistry courses or preparing for graduate school take
MAT-212 Calculus II (4) and PHY-101 and 102, General Physics I, II (8)

Secondary Education Certification—Approved Program in Biology

All requirements for the Major. Upper level courses must include both BIO-307 Ecology and BIO-311 Evolution. Students are required to take PHY-101 General Physics I. PHY-102 General Physics II is strongly recommended. In addition, students take the professional education courses offered by the Education Department.

Minor in Biology

BIO-111 Fundamentals of Biology

BIO-239 Genetics

BIO-230 Unity and Diversity of Life

Plus three additional courses in Biology at least one of which must be a laboratory course.

Pre-Medical/Pre-Dental/Pre-Veterinary Programs

All required courses for a Major in Biology plus General Physics I and II (PHY-101, 102), Mathematics through Calculus I (MAT-211), and Biochemistry I and II. The following course choices strongly recommended: Vertebrate Anatomy, Microbiology, Animal Physiology, Immunology and Cell and Molecular Biology. Calculus II (MAT-212) and Basic Statistics (MAT-215) are highly recommended.

Pre-Pharmacy and Biology-Pharmacy Accelerated (3-4) Program

See Pharmacy Studies for a detailed description of program.

Liberal Arts

The student follows the Program of Study that is outlined in the Liberal Arts section of the Catalog. Students should select courses with the assistance of a faculty adviser and be aware that course cycling will impact upper-level course selection.

Biology Four-Year Plan

Within the Program of Study for the Biology Major, many alternatives of a Four-Year Plan are possible; please consult a department representative to discuss options. Students should select courses with the assistance of a faculty adviser and be aware that course cycling will impact upper-level course selection.

Courses

BIO-104 Chesapeake Bay

Explores the Chesapeake Bay, the largest estuary in the United States, providing a unique habitat for the region's wildlife. The course will examine the physical, geological and chemical factors that affect the rich variety of plants and animals in the bay. Students will study the bay's ecosystem and the external and natural factors that affect the health of the bay. Field work on location is required. Laboratory work is integrated with lectures. Fulfills general education requirement in natural sciences. [4 credits]

BIO-107 Human Biology

Focuses on how the major body systems are organized and function. Examines various major health concerns, such as cardiovascular health, cancer, diabetes and obesity, and explains their relationship with proper body function. Emphasizes how well-informed decisions about lifestyle can keep body systems operating at their best. Laboratory exercises include application of key principles of structure and function for major body systems. Three hours lecture and three hours laboratory. Fulfills general education requirement in natural science. Designed for non-science majors. [3-4 credits]

BIO-107L Lab: Human Biology

This lab is a co-requisite for BIO-107. [4 credits]

BIO-110 Exploring Concepts in Biology

Prepares first year students who plan to continue taking courses in biology, but who would benefit first from a focus on the integration of chemistry and mathematics. Students will develop concepts, design experiments, and analyze data to solve problems encountered in various branches of biology. Lecture and lab are combined in two-hour class meetings. A grade of at least C in BIO 110 is a prerequisite for subsequent enrollment in BIO 111. First year WOM students only. Fulfills general education requirement in natural science. [4 credits]

BIO-111 Fundamentals of Biology

Focuses on the structure and function of the fundamental unit of life, the cell. Examines basic biological molecules, membrane structure and function, basic metabolism, photosynthesis, cellular reproduction, evolution, genetics and introductory systematics. In weekly laboratory exercises, students design and conduct experiments to answer scenario-based questions. Includes independent small-group laboratory research project that culminates in a student research symposium. Three hours lecture and four hours laboratory. Designed for students with a strong high school background in biology, chemistry and mathematics. Prerequisite: Satisfactory score on the NDMU Placement Exam or BIO-110 with minimum grade of C+, or permission of chair. Fulfills general education requirement in natural sciences. [4 credits]

BIO-111L Lab: Fundamentals of Biology

This lab is a co-requisite for BIO 111.

BIO-114 Environmental Science for Educators

Studies the interactions among the physical, chemical, biological, political and social forces which impact the environment. Provides students with scientific principles, concepts and methodologies necessary to comprehend the relationships within the natural world, to identify and analyze environmental problems, to evaluate relative risks associated with these identified problems, and to examine alternative solutions for resolving and/or preventing similar problems facing the global environment. Topics include the major biomes in the world, populations, biodiversity, water, air and land uses and issues, energy resources and waste management. [3 credits] College of Adult Undergraduate Studies students only.

BIO-116 Conservation Biology

Analyzes the causes and repercussions of the rapid, devastating, and global extinctions of plants and animals, chiefly as a result of human activities. This course examines the range of cultural, biological and environmental factors that contribute to the loss of biodiversity and the new, integrated science of

conservation biology that has developed in response to the challenge of saving species and remediating the environment. Classroom discussions will treat the essential concepts and practical knowledge necessary to ensure the perpetuation of our planet's flora and fauna. Fulfills general education requirement in natural science. Designed for non-science majors. [4 credits]

BIO-150 Principles of Evolution

Describes fundamental concepts of the modern theory of evolution and provides an overview of genetic variation, adaptation, and biodiversity. Mechanisms of evolutionary change by natural selection and other agencies, theories on the origin of life, and the history of life as revealed by the fossil record and other evidence are described. Fulfills general education requirement in natural science. Designed for non-science majors. [3 credits] College of Adult Undergraduate Studies students only.

BIO-201 Human Anatomy and Physiology I

Integrates the study of structure with function of the human body. As a suite of courses, BIO-201 and 202 are intended for students interested in satisfying requirements for pharmacy and various allied health programs. The content and level of delivery of both BIO-201 and 202 are structured so that they are compatible with similar courses offered by cooperating institutions. BIO-201 includes discussion of cellular, tissue, integumentary, skeletal, muscular and neural systems. Includes laboratory study of anatomical models of humans and skeletal components, and dissection of a cat. BIO-202 includes discussion of endocrine, circulatory, immunological, digestive, urinary and reproductive systems. Strongly emphasizes study of physiological functions that includes monitoring of body systems with analog and digital hardware. Each course includes three hours lecture and three hours laboratory. A competency exam covering basic chemistry and biology may be administered at the first class meeting and weighed in the final grade. To begin the course sequence, the student must complete BIO-111 or the equivalent with a minimum grade of C or obtain permission of the instructor. BIO-201 with minimum grade of C is a prerequisite for BIO-202. [4 credits each term]

BIO-201L Lab: Human Anatomy/Physiol I

This lab is a co-requisite for BIO 201.

BIO-202 Human Anatomy and Physiology II

Integrates the study of structure with function of the human body. As a suite of courses, BIO-201 and 202 are intended for students interested in satisfying requirements for pharmacy and various allied health programs. The content and level of delivery of both BIO-201 and 202 are structured so that they are compatible with similar courses offered by cooperating institutions. BIO-201 includes discussion of

cellular, tissue, integumentary, skeletal, muscular and neural systems. Includes laboratory study of anatomical models of humans and skeletal components, and dissection of a cat. BIO-202 includes discussion of endocrine, circulatory, immunological, digestive, urinary and reproductive systems. Strongly emphasizes study of physiological functions that includes monitoring of body systems with analog and digital hardware. Each course includes three hours lecture and three hours laboratory. A competency exam covering basic chemistry and biology may be administered at the first class meeting and weighed in the final grade. To begin the course sequence, the student must complete BIO-111 or the equivalent with a minimum grade of C or obtain permission of the instructor. BIO-201 with minimum grade of C is a prerequisite for BIO-202. [4 credits each term]

BIO-202L Lab: Human Anatomy/Physiol II

This lab is a co-requisite for BIO 202.

BIO-230 Unity and Diversity of Life

Focuses on the unity of biological processes common to plants, animals and fungi, such as transport, gas exchange, and reproduction; also focuses on the diversity of organisms in their adaptation to environmental challenges. Unity and diversity are studied in both ecological and evolutionary contexts. An independent small-group research project is completed in the laboratory and culminates in a student research symposium. Three hours lecture and three hours laboratory. Prerequisite: BIO-111 with minimum grade of C or permission of the instructor. [4 credits]

BIO-230L Lab: Unity and Diversity of Life

BIO-239 Genetics

Considers the mechanisms by which biological information is stored, accessed, and passed on from one generation to the next from both Mendelian and molecular genetic perspectives. Introduces basic techniques of molecular biology such as bacterial transformations, gel electrophoresis, DNA sequencing and sequencing analysis. Includes the use of online databases such as Pub Med and sequence analysis tools such as BLAST. Three hours lecture and three hours laboratory. Prerequisites: BIO-111 and CHM-110, each with a minimum grade of C or permission of instructor. [4 credits]

BIO-239L Lab: Genetics

This lab is a co-requisite for BIO 239.

BIO-253 General Microbiology

Presents basic concepts of bacteriology, virology, mycology and parasitology with a special focus on bacteria and viruses. The structure, morphology and genetics of microbes will be investigated, as well as their requirements for and patterns of growth. Other topics will include the human microbiota, mechanisms of pathogenicity, basic host defense mechanisms, antimicrobial chemotherapy and the development of microbial drug resistance. Finally, the epidemiology of infectious diseases, along with the characteristics and methods utilized in the control of classic and emerging pathogens will be addressed. In the laboratory, students will learn basic aseptic transfer, staining and culture techniques required for the isolation, identification and enumeration of microbes, and will investigate various factors affecting microbial growth, including antiseptics, disinfectants and antimicrobial drugs. Three hours lecture and three hours laboratory. Pre-nursing students only. Prerequisites: BIO-111 with a minimum grade of C. [4 credits]

BIO-253L Lab: General Microbiology

This lab is a co-requisite for BIO 253.

BIO-260 Genetics & Genomics for Clinical Practice

Considers the basics of molecular and Mendelian genetics and how they apply to human medical conditions. Uses specific examples to demonstrate general principles of human diseases and conditions with genetic causes to demonstrate general principles of Mendelian and molecular genetics. Discusses medical applications of emerging genetic tehnologies. Introduces emerging concepts in the genetic and epigenetic causes of human disease. Pre-nursing students only. Prerequisites: BIO-111 with a minimum grade of C or permission of instructor. [3 credits]

BIO-273 Introductory Biological Research

Investigates a topic of current interest in the biological sciences under guidance of Biology Department faculty. Includes a literature search, design and execution of original laboratory research, and data analysis. Culminates in submission of a poster to local and/or regional student research symposia. Designed for first-and second-year students. Permission of instructor required. [1-3 credits]

BIO-307 Ecology

Examines the relationships between living organisms and their environment. Emphasizes the physical and biological factors that influence evolution, the distribution, abundance and diversity of species, the

structure of communities and ecosystem function. Applies ecological knowledge to current topics in global issues. Laboratory focuses on field experiences and the practical use of field techniques. An independently designed and executed field project is completed in the laboratory and culminates in a student research symposium. Three hours lecture and three hours laboratory. Prerequisites: BIO-230 Unity and Diversity of Life and CHM-111, each with a minimum grade of C or permission of instructor; completion of mathematics requirement strongly recommended. [4 credits]

BIO-307L Lab: Ecology

This lab is a co-requisite for BIO 307.

BIO-311 Evolution

Examines the basic processes of organic evolution, including the production of genetic variation, mechanisms and levels of selection, adaptive radiation and speciation. Readings in the course focus on macroevolution and the fossil record and on microevolution and molecular evolution. Films and websites featuring evolutionary themes are examined and critiqued. Three hours lecture and three hours laboratory. Prerequisites: BIO-230 Unity and Diversity of Life and CHM-111, each with a minimum grade of C or permission of instructor. [4 credits]

BIO-311L Lab: Evolution

This lab is a co-requisite for BIO 311.

BIO-340 Microbiology

Examines the world of microorganisms and their occurrence and roles in nature. Focuses on the study of structure, growth, pathogenicity and genetics of microbes as well as their interactions in microbiome and biofilm communities. An independently designed and executed, small-group research project is completed in the laboratory and culminates in a student research symposium. Three hours lecture and four hours laboratory. Prerequisite: BIO-239 and CHM-111, each with a minimum grade of C or permission of the instructor. [4 credits]

BIO-340L Lab: Microbiology

This lab is a co-requisite for BIO 340.

BIO-341 Vertebrate Anatomy

Examines the major evolutionary trends in structure and function of the vertebrates. Analyzes the anatomy of fishes, amphibians, reptiles and mammals in the context of phylogeny, ecology and the

physical and chemical environment. Laboratory exercises involve examination of commercially prepared specimens to develop the skills for dissection. Three hours lecture and three hours laboratory. Prerequisite: BIO-230 Unity and Diversity of Life with a minimum grade of C or permission of the instructor. [4 credits]

BIO-341L Lab: Vertebrate Anatomy

This lab is a co-requisite for BIO 341.

BIO-343 Animal Behavior

Analyzes the behavior of animals from many perspectives, including the role of genetics and the environment, hormonal influences, and the neurobiology of behavior, as well as the evolutionary causes and consequences of behavior. Emphasizes the organizing mechanisms employed by organisms responding to complex environments and the value of behavioral strategies in finding food, avoiding predators, choosing mates, parenting, communicating and forming groups. Uses video and living examples to illustrate techniques in the study of animal behavior. An independently designed and executed research project is completed in the laboratory and culminates in a student research symposium. Three hours lecture and three hours laboratory. Prerequisite: BIO-230 Unity and Diversity of Life or PSY-101, with a minimum grade of C or permission of instructor. [4 credits]

BIO-343L Lab: Animal Behavior

This lab is a co-requisite for BIO 343.

BIO-345 Nutrition

Focuses on the basic biochemical, physiological and psychosocial principles of the science of nutrition, and their applications to the nutritional requirements during the human life span in health as well as disease. Methods used in evaluating and meeting current nutritional norms will be investigated. Students will learn to read and evaluate the current literature, as found in refereed nutritional journals as well from popular electronic sources. Three hours lecture. Prerequisites: BIO-111 and CHM-210 each with a minimum grade of C, or permission of Instructor. [3 credits]

BIO-403 Immunology

Covers the basic cellular and molecular mechanisms involved in humoral and cell-mediated immunity. Topics include tissues and cells of the immune response, antigen and antibody structure and function, the major histocompatibility complex, genetics of antibody and T-cell receptor formation, immune effector mechanisms and aberrations of the immune response. Three hours lecture. Prerequisites:

BIO-111 and CHM-211, each with a minimum grade of C or permission of the instructor; BIO-239 Genetics and BIO-340 Microbiology strongly recommended. [3 credits]

BIO-410 Cell and Molecular Biology

Discusses the structure and function of the eukaryotic cell. Special attention is given to the function of cellular organelles, the structure of the genome, and the production and modification of proteins. In the laboratory, students employ basic molecular techniques to study cellular functions. Three hours lecture and three hours laboratory. Prerequisite: BIO-239 Genetics, with a minimum grade of C or permission of instructor. [4 credits]

BIO-410L Lab: Cell and Molecular Biology

This lab is a co-requisite for BIO 410.

BIO-411 Special Topics in Biology

Explores, in depth, a focused topic in biology based on instructor's expertise. Topic will change from year to year and to reflect trends and developments in biology. Prerequisite: Will be noted for specific course, based on topic. [3 credits]

BIO-413 Neurobiology

Focuses on the mechanisms by which neural systems control animal behavior. Integrates neural function with underlying biochemistry, cell biology and organ physiology. The laboratory places strong emphasis on data acquisition from electrophysiological hardware and data analysis from computer software. Includes small group research in which each group independently designs, implements, analyzes and presents a semester-long research project in the context of a simulated symposium. Three hours lecture and three hours laboratory. Prerequisites: PSY-223 or BIO-341 Vertebrate Anatomy, CHM-210 each with a minimum grade of C or permission of instructor. [4 credits]

BIO-413L Lab: Neurobiology

This lab is a co-requisite for BIO 413.

BIO-415 Developmental Biology

Focuses on the comparative mechanisms by which a single cell gives rise to a complex, multicellular organism. Uses the perspective of classical embryology, modern cell biology and molecular genetics. Includes recent advances in developmental biology with emphasis on species comparisons and evolutionary relationships. Includes small student groups that independently design, implement, analyze and present a semester-long research project that culminates in an audiovisual presentation

in a simulated symposium-style format. Three hours lecture and three hours laboratory. Prerequisites: BIO-239 Genetics, BIO-341 Vertebrate Anatomy and CHM-210, each with a minimum grade of C or permission of instructor. [4 credits]

BIO-415L Lab: Developmental Biology

This lab is a co-requisite for BIO 415.

BIO-425 Biochemistry I

Focuses on biomolecules, enzyme kinetics, the biochemistry of energy production, and a description of basic metabolic pathways as well as their regulation and integration in functioning organisms. Three hours lecture and three hours laboratory. Prerequisites: BIO-111, CHM-211 each with a minimum grade of C or permission of instructor. [4 credits]

BIO-425L Lab: Biochemistry I

This lab is a co-requisite for BIO 425.

BIO-426 Biochemistry II

Focuses on biomolecules, enzyme kinetics, the biochemistry of energy production, and a description of basic metabolic pathways as well as their regulation and integration in functioning organisms. Three hours lecture and three hours laboratory. Prerequisite: BIO-425 with minimum grade of C or permission of instructor. [4 credits]

BIO-426L Lab: Biochemistry II

This lab is a co-requisite for BIO 426.

BIO-431 Animal Physiology

Investigates how specific physiological functions and animal behavior have underlying biochemical, cellular and organ system structural designs. Focuses on comparative physiology in the context of how animal systems can be influenced by environmental conditions and how these have been modified through evolution. Includes small group projects in which students independently design, implement, analyze and present semester-long research projects in the form of a simulated symposium. Three hours lecture and three hours laboratory. Prerequisite: BIO-341 Vertebrate Anatomy and CHM-211, each with a minimum grade of C or permission of instructor. [4 credits]

BIO-431L Lab: Animal Physiology

This lab is a co-requisite for BIO 431.

BIO-451 Senior Seminar

Serves as the capstone experience in the major. Focuses on critical synthesis and analysis of biological literature. Includes student-led discussions of research papers on topics of individual student interest. Develops knowledge of a topic, library research skills and interpretation of the original research literature in biology. Culminates in a written review of scientific literature on a topic of individual interest. Prerequisite: senior biology major or permission of instructor. [3 credits]

BIO-463 Independent Study

Focuses on individual study in biology under the direction of a faculty member. Culminates in written paper or conference presentation. Permission of instructor required. [1 to 4 credits]

BIO-473 Biological Research

Investigates a topic of current interest in the biological sciences under guidance of Biology Department faculty. Includes a literature search and design and execution of original laboratory research project. Culminates in a written paper or scientific poster. Course is designed for students of Junior or Senior class status. Permission of instructor required. Can be taken multiple times. [4 credits; may be split over successive semesters.]

BIO-560 Biology for Teachers Grades K-8

This course presents an introduction to fundamental concepts and practical applications of biology. Students will learn engaging, inquiry based strategies to explore matter, energy, and organization in living systems; cellular biology; the molecular basis of heredity; and mechanisms for evolution. Mathematical content and skills are integrated throughout. [4 credits]

Main Campus
University Center Northeastern Maryland (formerly the HEAT Center)

The Business and Economics Department offers a Major in Business to students in the Women's College (WC), College of Adult Undergraduate Studies (CAUS), and NDMU Online. It also offers Majors in International Business and Marketing Communications in the Women's College. Minors in Business and Entrepreneurship are offered in the Women's College and College of Adult Undergraduate Studies. The Business Major includes a broad range of courses that provide the student with a strong foundation of knowledge in business and economics within the liberal arts curriculum. In addition to gaining a thorough understanding of core business concepts, students are taught to act ethically,

think critically and creatively, and communicate effectively. Students don't just read about the latest theories and practices in business, they experience and experiment with them in real business situations. Consulting assignments and internships, as well as use of simulations and the case method, actively engage students in their learning.

Summary

The Program of Study in Business is designed to ensure all Notre Dame Business graduates meet the following core competencies identified by major employers in the Baltimore/Washington corridor:

- Integrate quantitative and qualitative skills to solve problems and support decision making,
- Demonstrate effective leadership skills in a team environment,
- Communicate effectively in all business environments with different types of media, and,
- Use technology to enhance business productivity and the quality of decision making

Graduates of the Business Program of Study work in a variety of fields such as accounting, banking, marketing research, project and product management, human resource management, health care administration, nonprofit management, information systems, marketing, portfolio management, investments, law and many different type of entrepreneurial adventures.

The Academic Program in Business

Undergraduate Degree

The undergraduate Business degree is offered in three instructional formats.

1. 16 week traditional semester via the Women's College - primarily face-to-face class meetings with 5 to 25 students enrolled.
2. 8 week hybrid course format in weekday evenings from 6:00 pm - 8:45 pm - College of Adult Undergraduate Studies (CAUS) - combination of eight face-to-face class meetings along with additional learning online. Students are not required to be online at the same time. Class sizes vary from 5 to 25 students.
3. 8 week totally online course format - NDMU Online - 24/7 IT and library support available - Students rarely required to be online at the same time. Class sizes do not exceed 20 students.

Courses

Courses are small and very interactive. NDMU faculty are committed to helping students succeed and value greatly student experiences and contributions. Students should expect their thinking to be challenged in a productive and respectful manner. Per Federal guidelines and university policy, each 3

credit course, regardless of course length or format, involves a minimum of 37.5 hours of instruction and at a minimum of 75 hours of student work outside of class time.

Foundation Business Courses

Courses in Management, Finance, Marketing, Economics, International Business, Law and Accounting provide a solid foundation in the fundamentals of business. [30 credits]

Skills-Based Courses

Courses in data analysis, professional communication, business research, teamwork, negotiation and leadership enhance the technical skills necessary to compete in the workplace. [15 credits]

Business Elective Courses

These upper-division courses challenge students to address complex business problems in a chosen field of interest such as finance, management, marketing, international business and human resource management. Students are required to complete two business elective courses but are encouraged to take additional business electives if possible. [6 credits]

Advanced Business Policy and Practicum

These two courses enable students to apply the knowledge and skills learned throughout the degree program to strategic issues in business management and in the workplace. The successful completion of Advanced Business Policy, the capstone course, is required of all business majors and should be taken during the student's last semester of study. The four-credit practicum course is required for all Women's College business majors and CAUS as well as NDMU Online students who do not have at least two years of full-time professional work experience. The practicum includes a 120-hour internship. [3 to 7 credits]

Students complete their degree requirements either by completing courses for a concentration in accounting, or by completing at least two 400-level Business Elective courses. [6 to 12 credits]

Accounting Concentration

Intermediate and advanced accounting courses are offered for those WC students interested in preparing for the Certified Public Accountants (CPA) exam. Business students must complete 12 credits of intermediate and advanced accounting courses to fulfill their accounting concentration requirements. Students preparing to take the CPA exam are encouraged to complete as many accounting courses as possible. [12 credits]

A grade of C or better is required for all courses in the Business major or Business minor. Transfer students must complete a minimum of five courses in the Business Major regardless of the number of

credits accepted in transfer.

Business Minor

The Business and Economics Department works closely with students in other majors interested in a Minor in Business. Students with a Business Minor are better prepared to understand and respond to the business environment in which their career fields operate. Flexibility of the Business Minor ensures students have the ability to choose those business courses most helpful in their career fields. The Business Minor comprises six courses (18 credits) and requires the student complete at least one course in Economics and BUS-416 Managing Financial Resources. No more than three courses from the student's Major may be applied to the completion of the Business Minor. No more than nine credits may be transferred into the Minor.

Entrepreneurship Minor

The Entrepreneurship Minor provides an introduction to both business entrepreneurship and "social entrepreneurship" for students from any major area of academic study. A social entrepreneur is someone who recognizes a social problem and uses entrepreneurial principles to organize, create and manage a venture to promote social change. The Entrepreneurship Minor provides students with an opportunity to develop a business plan for either a social or for-profit entrepreneurial organization appropriate for pursuing investors or grants. The Entrepreneurship Minor provides all students whose professional plans would benefit from entrepreneurial perspectives and skills a chance to develop their problem solving, negotiation, organizing, ambiguity and risk tolerance skills. The Minor requires the completion of 7 courses (21 credits): BUS-302 Principles of Management, BUS-303 Principles of Marketing, BUS-416 Managing Financial Resources, BUS-401 Entrepreneurship I, BUS-402 Entrepreneurship II, plus two elective courses offered by several departments on campus and chosen and approved in consultation with the Chair of the Business and Economics Department. Business Majors do not take BUS-416. No more than three courses from the student's Major may be applied to the completion of the Entrepreneurship Minor.

Five-Year Option: B.A./M.A.

The Five-year Option enables a full-time WC undergraduate Business Major or Minor student to complete the Bachelor of Arts and the Master of Arts in Leadership and Management degrees in five years. A student wishing to pursue a five-year integrated Program must meet with her advisor and the Chair of the Business and Economics Department before she registers for the fall semester of her senior year to plan her Program of Study and to determine program eligibility and review program requirements.

Study Abroad

Study abroad opportunities exist for all three student groups. They range from a full semester abroad

to a 10 day study tour lead by NDMU faculty during winter, spring or summer break.

Required Core Courses for Major in Business (Credits)

BUS-105 Introduction to Business and Entrepreneurship (Women's College only, waived for transfer students) (3)
BUS-225 Data Analysis for Business Decisions (Women's College only) (3)
BUS-253 Financial Accounting
BUS-254 Managerial Accounting
BUS-302 Principles of Management (3)
BUS-303 Principles of Marketing (3)
BUS-304 Legal Environment of Business I (3)
BUS-310 Professional Communications (3)
BUS-311 Research and Data Analysis for Business Decisions I
BUS-312 Research and Data Analysis for Business Decisions II
BUS-313 Research and Data Analysis for Business Decisions III
BUS-321 Corporate Financial Management (3)
BUS-334 Teamwork and Negotiation (3)
BUS-350 International Business (3)
BUS-360 Business Research (Women's College only) (3)
BUS-3XX Research and Data Analysis for Business Decisions I (CAUS and NDMU Online only) (3)
BUS-3XX Research and Data Analysis for Business Decisions II (CAUS and NDMU Online only) (3)
BUS-3XX Research and Data Analysis for Business Decisions III (CAUS and NDMU Online only) (3)
BUS-400 Leadership (3)
BUS-432 Advanced Business Policy (capstone) (3)
BUS-461 Business Practicum (Req'd for Women's Colg, CAUS, & NDMU Online only when student has lt 2 yrs of FT prof exp) (4)
ECO-211 Introduction to Macroeconomics (3)
ECO-212 Introduction to Microeconomics (3)
ECO-402 Money and Banking (3)

Computer competency is required. A student may demonstrate this competency by one of two methods:

1. complete CST-130 Introduction to Microcomputer Applications (or a comparable course) with a

grade of "C" or better, or,

2. earn a passing score of 70 percent on the CST-130 Challenge Exam. Business majors must fulfill the General Education Math Requirement with MAT-103, College Algebra, or Calculus.

Students are required to complete either the accounting concentration or at least two of the 400-level business elective courses listed below.

Business Electives (6 Credits)

BUS-401 Entrepreneurship I (3)
BUS-406 Leading Innovation and Change (3)
BUS-436 Socially Responsible and Sustainable Business Practices (3)
BUS-442 International Finance (3)
BUS-451 Women in Leadership (3)
BUS-482 Consumer Behavior (3)
BUS-483 Integrated Marketing Communications (3)
BUS-484 Investment Management (3)
BUS-485 Advanced Financial Management (3)
BUS-486 Human Resources Management (3)

Accounting Emphasis (12 Credits)

BUS-337 Intermediate Accounting I (3)
BUS-338 Intermediate Accounting II (3)

Select a minimum of two courses from the following:

BUS-305 Legal Environment of Business II (3)
BUS-335 Cost Accounting (3)
BUS-340 Tax Accounting (3)
BUS-341 Corporate Tax Accounting (3)
BUS-412 Auditing (3)
BUS-421 Advanced Accounting Theory I (3)

Four-Year Plan

Below is a sample Program of Study for the Business Major.

Students should select courses with the assistance of a faculty advisor.

See Course Description for prerequisites and corequisites.

Fall		Spring	
First year			
NDMU-100 First Year Seminar	3	BUS-334 Teamwork and Negotiation	3

Note: Business electives in management, marketing, finance, international business or human resources management may be taken in junior year if prerequisites are completed.

Accreditation

Accreditation Council for Business Schools & Programs (ACBSP)

ACBSP promotes excellence in business education. It focuses on strong student learning outcomes and teaching excellence.

Courses

BUS-105 Create Your Future: Introduction to Business and Entrepreneurship

Begins with the learner developing a profile of her ideal work experience and explores how that ideal may be met through a career in business. Placing the learner in the role of a new business entrepreneur, the course exposes the learner to all the disciplinary aspects of starting a new business (management, marketing, finance, accounting, human resources, legal and economics) by focusing on the tasks that must be accomplished. This hands-on approach to starting and running a business exposes students to the complex world of the small business entrepreneur and helps them determine which area of business they wish to study in depth. [3 credits]

BUS-225 Data Analysis for Business Decisions

Emphasizes the foundation areas of data management, interpretation, and analysis. The course focuses on methods tomanage and explain data, describe and interpret data quantitatively using statistical techniques, and apply the results to make better management decisions. Data Analysis involves using statistical methods to understand and interpret data acquired in business applications.

In this course students will learn techniques to manage data using Excel tools, explain data through charts and graphs, and describe and interpret data in probabilistic terms. [3 credits]

BUS-253 Financial Accounting

Introduces principles and practices leading to the preparation of a balance sheet, income statement and statement of cash flow. Presents the basics of accounting principles and its applications in the business world. The course explores the concepts and techniques of accounting for individual proprietorships and corporations. [3 credits]

BUS-253W Workshop: Financial Accounting

BUS-254 Managerial Accounting

Builds on material covered in the Financial Accounting course. Focuses on understanding and developing managerial accounting skills that help analyze the cost of production in a manufacturing environment. The course introduces the topics of budgeting, planning and controlling of costs in a business operation. Prerequisite: BUS-253 or BUS-211. [3 credits]

BUS-255 Personal Financial Management

Develops a realistic approach to managing personal finances and creating a personal financial plan. Students will be introduced to the fundamentals of sound financial planning, goal setting, and strategies to accomplish those goals. Students will also learn how to manage credit; invest for the short-term, medium term, and long term; create a retirement plan; and evaluate life insurance, homeowners insurance and car insurance policies. [3 credits]

BUS-302 Principles of Management

Examines organizational, human resources, operational, and functional aspects of ethically managing activities of diverse workforces in organizational settings. Analyzes traditional managerial functions of planning, organizing, leading, and controlling within the context of changing demands in organizations that compete effectively in an inter-connected, global environment. [3 credits]

BUS-303 Principles of Marketing

This course introduces the language of marketing the strategic marketing process. While formulating viable marketing strategies for diverse business situations, learners will gain experience gathering and analyzing industry and market data, as well as implementing core-marketing concepts such as market segmentation, targeting, positioning, and the marketing mix in the formulation and implementation of real-world marketing strategies. This course culminates in the development of a marketing plan for a

new product, service or retail establishment. [3 credits]

BUS-304 The Legal Environment of Business I

Explores the legal environment of business, including contracts, implications of the Constitution and our structure of government, sales and employment law, legal substitutes for money, consumer and creditor protection including bankruptcy, and types of business organizations. Focuses on the implications of law for the business leader and practical ways to track changes in the law. [3 credits]

BUS-305 The Legal Environment of Business II

Builds on material covered in Legal Environment of Business I. It explores commercial paper, debtor-creditor relations, real property and estates, accountants' liability and secured transactions. In addition, students examine the legal aspects of the various business forms in greater detail. Prerequisite: BUS-304 or permission of chair. [3 credits]

BUS-310 Professional Communications

Explores communications contexts within organizations and refines written and oral communications skill used in business and professional settings. Emphasizes appropriateness, effectiveness, and nuance while taking into consideration situation, audience, and delivery mode. Learners use common business communications tools and technologies as well as social media. Prerequisite: ENG-101 or IDS-100 (honors section). [3 credits]

BUS-321 Corporate Financial Management

Emphasizes the foundation areas of finance to educate students in financial decisionmaking. Introduces concepts including time value of money, net present value and alternative measures used in financial decisionmaking, financial ratio analysis, capital budgeting, cost of capital, and asset valuation. Prerequisites for Business majors: BUS-253, BUS-254. Prerequisites for International Business majors: BUS-253. Recommend completion of general education requirement in math. [3 credits]

BUS-327 Prof Selling & Negotiation

Current theory and trends in sales, negotiation and persuasive communications. Students explore the knowledge and skills necessary to effectively apply professional sales and principled negotiations techniques to both their professional and personal lives. Class is highly experiential and requires extensive class participation. 3 credits.

BUS-334 Teamwork and Negotiation

Analyzes the dynamics, structure and function of teams in businesses and other organizations. Examines the framework and components of conflict resolution and negotiation in both organizational and personal situations. Learners will assess and strengthen key interpersonal skills. This course utilizes role active learning pedagogy extensively including role plays, small group exercises, and simulations. [3 credits]

BUS-335 Cost Accounting

Introduces cost data as a tool for management decisionmaking. The course provides an in-depth examining of volume-profit analysis, budgeting, job order costs and variance analysis. Prerequisite: BUS-254. [3 credits]

BUS-337 Intermediate Accounting I

Covers collecting, adjusting and presenting of accounting information. Emphasizes understanding published financial statements and developing a framework for analyzing a wide variety of financial reporting issues. Students examine topics including cash, short-term investments, receivables, payables, inventories, and operational assets and liabilities. Prerequisite: BUS-254. [3 credits]

BUS-337L Lab: Intermediate Accounting I

BUS-338 Intermediate Accounting II

Builds on material covered in BUS-337. Provides information on stockholders' equity, long-term investments, long-term debt, pensions, leases, financial statement analysis and price-level accounting. Prerequisite: BUS-337. [3 credits]

BUS-340 Tax Accounting

Focuses on federal tax laws as they apply to the individual. Introduces gross incomes and exclusions, tax determination, passive activity losses, itemized deductions, tax credits and property transactions. Students examine tax planning considerations and tax avoidance techniques. Prerequisite: BUS-254. [3 credits]

BUS-341 Corporate Tax Accounting

Focuses on federal tax laws as they apply to corporations, S corporations, partnerships and estates. Students examine tax analysis and determination for management decisionmaking, filing requirements for estates and trusts, and choosing an entity selection to minimize tax liability. Prerequisite: BUS-254.

[3 credits]

BUS-350 International Business

Critically analyzes factors affecting business operations in the global marketplace. It introduces theories and practical strategies for evaluating constraints and opportunities resulting from economic, cultural, legal, and ethical differences to political and financial realities at home and abroad. Also provides hands-on opportunities for analyzing international business opportunities, developing international competitive strategies, and for comparing and contrasting different entry modes. Prerequisites: ECO-211 or ECO-212. Fulfills general education requirement in cross-cultural studies. [3 credits]

BUS-360 Business Research

Introduces students to key sources of secondary data and basic research methods that enable them to define the research problem, develop the research plan, collect, evaluate and organize relevant information, develop findings and conclusions and recommend a preferred course of action supported by analysis. Students will learn core primary research concepts such as how to locate key industry and customer information via secondary databases as well as to design an electronic survey and conduct a focus group. [3 credits]

BUS-380 Introduction to the U.S. Health Care System

Introduces the student to the organization and structure of the U.S. health care system, including institutions, health cae professionals and government programs that influence the delivery of health care services. Thes student is also introduced to policy issues relating to access, efficiency and auqlity of health care services. [3 credits]

BUS-400 Leadership

Identifies important leadership concepts used to critically evaluate students' perceptions about leadership and describe relevant leadership attitudes, behaviors, and skills. Incorporates a variety of experiences including self-assessment, skill development, and small group team activities to strengthen personal and organizational leadership. Integrates course learning, experience and feedback to assess individual leadership skills and identify personal development needs. Prerequisites: Junior/Senior standing. [3 credits]

BUS-401 Entrepreneurship I

Provides a thorough overview of the complete process of developing and launching for-profit, non-profit or social business ventures. Topics include idea generation strategies, executive summaries, brand creation and selection of business names. Students will gain an understanding of bootstrapping,

scalability, promotion, distribution and pricing. The importance of laws and regulations for all aspects of a new venture will be explored. Patents, copyrights, contracts and regulations will also be discussed. The major component of this course will be application of market research skills to research databases and primary/secondary sources of information to complete a formal assessment of the viability of a business idea. This course will culminate in the completion of a feasibility analysis to test assumptions derived from market research. Prerequisite: BUS-303 or permission of chair. [3 credits]

BUS-402 Entrepreheurship II

Continues the progression set forth in Entrepreneurship I by teaching students the process for developing a comprehensive business plan for an entrepreneurial start-up endeavor. Additionally, students will be assigned a successful entrepreneur from the student's field of interest to serve as their mentor throughout the semester. Students will learn how to prepare a financial plan. They will analyze actual business agreements to gain familiarity with the language of and issues contained in those documents. Students will build marketing competencies essential to building and sustaining a new venture, such as how to identify customer needs, determine correct target markets and develop sales/marketing tactics and strategies. Students will also prepare and deliver an oral presentation of their plan from the perspective of an entrepreneur presenting to potential investors. Prerequisite: BUS-401. Corequisite: BUS-416 or BUS-321 or permission of chair. [3 credits]

BUS-406 Leading Innovation and Change

Examines the core problems organizations and individuals face as they move through the dynamic processes of innovation and change. Students will identify highly successful change efforts and evaluate the strategies and techniques used. The key issues of changing behaviors, overcoming resistance to change and the role of leaders and followers in the process will be important themes. [3 credits]

BUS-411 Topics in Business

Explores contemporary topics in business such as non-positional leadership, leadership's dark side, managing human capital, healthcare and sports marketing. [3 credits]

BUS-412 Auditing

Explores principles and practices of auditing through use of problems, questions and specimen working papers applicable to a balance sheet audit. Emphasizes techniques and routine procedures by applying the principles to a realistic audit. Prerequisites: BUS-212 or BUS-254, accounting concentration or permission of chair. [3 credits]

BUS-416 Managing Financial Resources

Provides students with an overview of the accounting and financial tools necessary for managers. Addresses the development and analysis of basic financial statements, the development of budgets (both operating and capital), and other techniques of financial analysis for management decisionmaking. Prerequisite: general education mathematics requirement. Business majors may not take this course; students who have taken BUS-261 may not take this course. [3 credits]

BUS-421 Advanced Accounting Theory I

Focuses on more complex topics in financial accounting. Emphasizes accounting theories and practices used in partnerships, business combinations and consolidations. Prerequisite: BUS-338. [3 credits]

BUS-427 Business Study Tour

Tours to various parts of the world designed to combine study and travel. Examines the interplay of culture, politics, economics, and society of tour country; compares approaches to economic and social policies in tour country and the United States; examines how tour country's awareness and public perceptions of environmental issues have changed over time; explores how different economic and cultural systems in the U.S. and tour country affect life in the other countries. Organized and directed by members of the department. Fulfills general education requirement in cross-cultural studies and serves as a 400 level business elective for undergraduate students. [3 credits]

BUS-432 Advanced Business Policy

Provides opportunities for students to apply knowledge gained from their core business courses to the formulation, implementation and evaluation of strategic management initiatives through case studies of specific organizations. Designed as a capstone experience. Prerequisites: BUS-302, BUS-303, BUS-321 and senior standing. [3 credits]

BUS-436 Socially Responsible and Sustainable Practices

Studies and analyzes the increasing pressures on organizations to make the right decisions by acting in ways that benefit society and reduce negative environmental impacts. Students will complete research on organizations that use sustainable and responsible models; utilize case studies to identify current and best practices; and develop guiding principles for decision making. [3 credits]

BUS-442 International Finance

Examines opportunities and risks associated with international finance. Studies the international banking system, international money market, international bond markets and international equity

markets. Explains exchange rate behavior and examines currency derivatives including future and options on foreign exchanges, currency and interest swaps, and international portfolio investments. Students will evaluate strategies to hedge against foreign exposures, including economic, translation, transaction and cash flow exposures. They will also analyze and evaluate the impact of central banks and financial policies around the world. Prerequisite: BUS-321. [3 credits]

BUS-450 International Business Capstone: Exporting and Importing

Integrates learning from business courses, courses from other departments and real world experiences through the completion of teamwork-based capstone projects. Student teams will be iven the option to work with a client or to create an international business report. Teams that choose to work with a client will develop an international business strategy and write a business plan for a specific initiative related to trade, production or investment in one or more foreign countries. At the end of the year, the team will prepare a business plan and deliver a presentation to the client. Teams that choose to conduct research will create an international business report evaluating the globalization of markets, production and investment for a selected country. Teams will interview business representatives in the United States and the foreign country. At the end of the semester, each team will deliver a presentation to students, faculty and guests at Notre Dame. Prerequisites: BUS-302, BUS-303, BUS-321, BUS-350 and corequisite BUS-442. [3 credits]

BUS-451 Women in Leadership

Evaluates opportunities, issues and complexities that women face in the workplace. Analyzes differences between gender style and content in communications and behavior; critiques societal expectations of women and men in the workplace and in leadership roles; connects management and leadership precepts through the lens of gender; examines leadership attributes through nontraditional sources. Cross-listed as a graduate course to promote co-mentoring and networking. Prerequisite: Junior standing or permission of chair applies to Women's College students only. Fulfills general education requirement in gender studies. [3 credits]

BUS-460 Coached Emerging Leadership Practicum

Provides students the opportunity to gain meaningful leadership learning experience in an organized and sturctured format. Eligible Women's College students would be those who either hold or will hold a leadership role in campus club life, such as student government, clubs and sports teams, or in their communities, such as church or local community associations. CAUS students would need to seek a leadership opportunity at their places of work or in their communities in order to be eligible. Focus is on the students emerging leadership experience as it unfolds during the activity, which should be documented using a variety of assignments. Course credit will be given based upon the amount of time the activity requires during the course of a semester, e.g., one credit for 30 hours, two credits for 60 hours, and three credits to 90 hours. Prerequisites: One of the following courses: BUS-400, BUS-

406, BUS-451, NUR-432, POL-217 or POL-462 and Junior/Senior status. The leadership course prerequisite may be fulfilled by enrolling in BUS-460W. This workshop will consist of weekly seminars wherein contemporary readings on leadership will be assigned, discussed and evaluated. On successful completion, one additional credit will be awarded in conjunction with the one, two or three credit level initially assigned to the activity. Variable credit 1, 2, 3]

BUS-460W Workshop: Coached Emerging Leadership Practicum

For students who have not had leadership instruction in one of their courses, this Leadership Workshop is a required co-in requisite to be taken along with BUS-460, Coached Emerging Leadership Practicum. This workshop will consist of weekly seminars wherein contemporary readings on leadership will be assigned, discussed and evaluated. On successful completion, one additional credit will be awarded in conjuction with the one, two or three credit level initially assigned to BUS-460. [1 credit]

BUS-461 Business Practicum

Connects academic learning with professional experience. Develops and reinforces business related skills, especially those needed by women in business today. Provides peer support to discuss and reflect on work-related issues. Students examine individual strengths and areas for improvement. Required for Women's College students, only required for CAUS and NDMU Online students with less than 2 years of FT professional work experience. Prerequisites: Business major with senior standing and permission of instructor. [4 credits]

BUS-463 Independent Study in Business

Provides an opportunity for business students to explore an area of business in-depth while working independently and under faculty supervision. The nature, scope and design of the project to be completed, as well as a schedule of prearranged meetings, will be individually contracted between the faculty member and the student. Prerequisite: acceptance for supervision by a department faculty member. [1-4 credits]

BUS-480 Organizational Behavior

Examines the factors affecting human behavior in organizations. Students apply relevant theories to contemporary organizational problems through the use of case analyses, readings and experiential exercises. The course focuses on developing analytical frameworks to describe and assess organizational culture, structure, leadership, ethics, change, decision making, power and political processes. Prerequisite: BUS-302. Cannot be taken if student has taken BUS-394. [3 credits]

BUS-482 Consumer Behavior

Investigates consumer and organizational buyer behavior theory and its impact on the formulation of marketing strategy. Provides students with an opportunity to examine current buyer behavior theory including digital behavior and its use by markerts to influence consumers. Through the analysis of case studies, a thorough examination of current empirical buyer behavior research, students will design, implement and analyze buyer behavior mini-research projects. This class is designed as an interactive, collaborative seminar. Prerequisite: BUS-303, Principles of Marketing or permission of chair. [3 credits]

BUS-483 Integrated Marketing Communications

Provides an overview of integrated marketing communications programs and the role they play in the implementation of successful marketing strategy. Students will examine the integration of traditional and non-traditional forms of communication. Traditional forms of communication include advertising, public relations and personal selling. Non-traditional forms of communication include online advertising, blogs, pod casts, social media and direct response marketing. Students will gain experience gathering and analyzing market data and developing an integrated marketing communications plan. Designed as a capstone experience. Prerequisite: BUS-303 Principles of Marketing and junior or senior standing. [3 credits]

BUS-484 Investment Management

Emphasizes the foundation areas of investment management, including securities markets, stock and bond valuation, portfolio theory, the efficient market hypothesis and investment decisionmaking. Students will complete a research project as well as build a diversified investment portfolio for a hypothetical client. Projects involve written and oral reports. Prerequisites BUS-225, BUS-321. [3 credits]

BUS-485 Advanced Financial Management

Provides in-depth analysis of financial management decisions and decision-tools. Topics may include capital structure and capital issuance, dividend policy, corporate financial planning, derivatives for hedging stock volatility, derivatives for hedging interest rate risk and financial institutions. Students will complete a research project and develop strategies to manage an external environment challenge. Projects involve written and oral reports. Prerequisites: BUS-225, BUS-321. [3 credits]

BUS-486 Human Resource Management

Develops knowledge and skills in the human resource management functions of strategic human resource planning, job design, recruitment and selection, training and development, performance management, employee relations and compensation and benefits. Focuses on the legal environment

of human resource management and its impact on the entire human resource system. Enhances background students will need to make informed human resource decisions in organizations. Prerequisite: BUS-302. Cannot be taken if student took BUS-315. [3 credits]

BUS-487 Advanced Topics in Human Resource Management

Provides a comprehensive review and evaluation of complex human resource management situations. Uses case studies, seminars, experiential activities and research. Students will apply their knowledge, skills and experience in recommendations to address real-world human resource issues. Prerequisite: BUS-302, BUS-486. [3 credits]

BUS-500 Human Resource Management

Examines basic human resource management issues--strategic human resource planning, recruitment and selection, training and development, performance management and compensation and benefits. Learners apply the theories of each of these areas to developing a portfolio of practical, useful human resource applications. [3 credits]

BUS-501 Managing in Complex Environments

Presented through competing viewpoints of management, managers, and managerial criticism, learners examine and reimagine traditional management functions of planning, organizing, leading as well as the paradoxes these ideas present when applied to the complex invironmental faced by today's organizations. Resources and assignments facilitate both the comprehension and application of management theories to contemporary situations as students develop strong scholarship habits that form the basis of the program. Must be taken within the first 9 credits of the program. [3 credits]

BUS-511 Topics in Leadership

Examines special topics and issues in leadership, followership and management. Course content changes to address contemporary thinking and issues. Course may be taken more than once under different topics. [3 credits]

BUS-512 Topics in Finance

Examines special topics and issues in finance. Course content changes to address contemporary thinking and issues. Course may be taken more than once under different topics. [3 credits]

BUS-513 Topics in Health Care

A selection of health care related courses geared to specific interests of students and/or issues that are of current interest in the field. [3 credits]

BUS-514 Topics in Human Resource Mgmt

A selection of courses geared to specific interests of students in human resource management and/or specific issues in the field. 3 credits.

BUS-515 Topics in Marketing

A selection of marketing courses geared to specific interests of students and/or specific issues in the field. 3 credits.

BUS-520 Introduction to the U.S. Healthcare System

Introduces the student to the organization and structure of the U.S. health care system, including institutions, professionals and government programs. Topics also include policy issues relating to access, efficiency and quality of health care services. [3 credits]

BUS-521 Health Care Economics

Introduces students to economic theory as it relates to the delivery of health care services. Topics include the role of health insurance financing for medical services including managed care, and its influence on consumer and provider behavior relative to the demand and supply of healthcare services. Additional topics include competition in the delivery of health care services, the role of government and regulation, whether greater expenditures on health care insures better health, cost shifting, and the challenge of measuring value in healthcare outcomes. [3 credits]

BUS-522 Essentials of Healthcare Financing

Introduces the learner to the basics of accounting and financial management; enables students to read and analyze operating and capital budgets. This course id designed for the non-financial healthcare manager who must be able to understand and effectively use financil concepts and tools. [3 credits](MSN students only)

BUS-523 The Business of Healthcare

Introduces the language and theory of customer service, negotiation and the marketing process. Students will examine the framework and components of customer service and negotiation as applied to the healthcare industry. Students will also study core healthcare marketing concepts and the important role a marketing plan plays in supporting the implementation of an organization?s strategic plan. This course is highly interactive and utilizes role play, case analysis, and group/team assignments. [3 credits]

BUS-525 Health Services Financing

Introduces the student to public and private forms of financing health care services in the United States. Topics include employer-sponsored health insurance, Medicare, Medicaid, and managed care. Special focus will be given to the Maryland all-payer rate system and the Patient Protection and Affordable Care Act. [3 credits]

BUS-527 Business Study Tour

Tours to various parts of the world designed to combine study and travel. Examines the interplay of culture, politics, economics, and society of tour country; compares approaches to economic and social policies in tour country and the United States; examines how tour country's awareness and public perceptions of environmental issues have changed over time; explores how different economic and cultural systems in the U.S. and tour country affect life in the other countries. Organized and directed by members of the department. Serves as a 500 level business elective for graduate students. [3 credits]

BUS-530 Financial Analysis

Emphasizes the foundation areas of finance to assist learners in practical business decision making. Introduces financial management concepts including time value of money, net present value and alternative measures, financial ratio analysis, capital budgeting, cost of capital, and asset valuation. Prerequisite: BUS-537 Aspects of Financial Reporting or waiver of BUS-537 based on business experience and previous course studies. [3 credits]

BUS-533 Advanced Financial Analysis

Provides in-depth analysis of financial management decisions and decision-tools. Topics may include capital structure and capital issuance, dividend policy, corporate financial planning, derivatives for hedging stock volatility, derivatives for hedging interest rate risk, and financial institutions. Students will complete a research project and develop strategies to manage an external environment challenge. Projects involve written and oral reports. Prerequisite: BUS-530. [3 credits]

BUS-534 Investment Analysis

Emphasizes the foundation areas of investment management including securities markets, stock and bond valuation, portfolio theory, asset allocation, the efficient market hypothesis, and investment decision making. The course includes completing a research project as well as building a diversified investment portfolio for a hypothetical client. Projects involve written and oral reports. Prerequisite: BUS-530. [3 credits]

BUS-536 Cases in Finance

Explores the role of finance in organizational planning, structure, and decision making. Learners work individually and in small groups analyzing practical case scenarios. Communicating financial

information is a major emphasis. Prerequisite: BUS-530 or permission of instructor. [3 credits]

BUS-537 Aspects of Financial Reporting

The focus of this course is not how accountants create financial statements; the focus is how a manager uses financial statements in business decision-making. Orients learners to financial accounting ractices, leading to the preparation of financial statements. Learners acquire knowledge of the language of accounting and the elements of the balance sheet, income statement and the statement of cash flows. Topics include the application of accounting theory and generally accepted accounting principles to business transactions, and the use of ratios and other tools to analyze financial reports. [3 credits]

BUS-538 Data Driven Business Decisions

Introduces the role that data plays in understanding business outcomes, including uncertainty, the relationship between inputs and outputs, and complex decisions with tradeoffs. Students work with real-life examples to interpret statistical distributions, understand hypothesis testing and evaluate reliability. [3 credits]

BUS-540 Human Resource Development

Explores the philosophy and practice of human resource development or training in organizations. Learners consider the common developmental needs of workers at different stages of their careers and the role of staff development and training within the context of total organizational development. Readings, case analyses, and group discussion are integral to this experience. [3 credits]

BUS-541 Legal Issues in Human Resource Management

Explores the fundamentals of workplace law. Emphasizes federal and state equal employment law, compensation and benefits law, legal termination practices and labor relations. Learning is based on readings, interactive discussions about the practical applications of legal theory, and a major research paper. [3 credits]

BUS-542 Performance Management Systems

Describes the purposes and criteria for effective performance management systems including the major approaches and techniques used in each approach. Evaluates the advantages and disadvantages of different methods and reinforces the importance of integration with corporate management strategy. Uses readings, case analyses, and experiential activities to examine different elements of performance management. [3 credits]

BUS-545 Compensation Strategies

Explores in depth the concept of compensation in the workplace, encompassing all forms of financial returns and tangible services and benefits employees receive as part of the employment relationship. Included are an exploration of the total returns for work, including cash compensation and benefits, and such relational returns as recognition and status, employment security, challenging work and learning opportunities. Special focus will be given to the selection, development and implementation of appropriate compensation strategies, given the external environmental influences and realistic internal resource constraints with which today's organizations must cope. [3 credits]

BUS-551 Leadership's Dark Side

Goes beyond the usual concepts of business ethics and leadership prescriptions to the heart of leadership's dark side by exploring the personality and psychology underpinning the dance between leaders and followers and the factors that lead them to perpetuate dark side. Students develop strategies as they study historical and present day leaders and followers whose unethical, immoral or incompetent behaviors have damanged lives and organizations. [3 credits]

BUS-554 Women in Leadership

Increases the learner's awareness of societal expectations, pitfalls, and opportunities faced by women. Emphasizes the role of women leaders, deciphering the code of the workplace, and confronting female collusion in silencing women's ways of knowing. Often cross-listed with undergraduates to promote cross-generational mentorying. [3 credits]

BUS-558 Leadership and Leading

Develops learners' personal capacities to lead others and manage leadership development. Learners grapple with current leadership issues applying theory and extending lessons provided by cases and ideas of leaders both past and present. Personal leadership and interpersonal skill are developed through guided exercises in group interaction, emotional intelligence, self-awareness, and reflection. Prerequisite: BUS-501 or NPM-502 and a minimum of 9 credits completed in either MA in Leadership and Mangement, MA in NPM or graduate certificate program. Students who are at least midway through other graduate programs are welcome to attend with permission of the instructor. [3 credits]

BUS-559 Lateral Leadership

Explores the importance of lateral or non-positional leadership--leadership through influence and ideas--in our communities and workplaces. Develops lateral leadership skills that are becoming more important in our networked world and flattened organizations because influencing others occurs across a broad range of positional leadership settings. [3 credits]

BUS-560 Marketing Management

Examines the concepts and processes used in designing and implementing marketing-driven strategies. Students will learn a marketing strategy decision making process which takes full advantage of secondary data resources. Case studies, in-class discussions and a semester-long project provide students with an opportunity to design marketing strategies utilizing marketing principles, descriptive statistics, competitive information and management functions such as analysis planning, implementation and control. [3 credits]

BUS-561 Elements of Marketing Communications

Examines in-depth the roles that sales promotion, advertising, public relations, direct marketing and personal selling play in the accomplishments of a firm?s marketing objectives. Prerequisite: BUS-560 or permission of department chair. [3 credits]

BUS-562 Leading Organizational Change

Examines the core problems organizations and people face as they move through the dynamic processes of innovation and change. Leading change is a complex, long-term and challenging endeavor and a central process in the practice of leadership. Change is studied at every level, individual, organizational and societal, through a contextual lens. Students will identify highly successful change efforts and evaluate the strategies and techniques used. The key issues of changing behaviors, getting the rational mind and emotional mind to work together, overcoming resistance to change, and the role of leaders in the process will be important themes. [3 credits]

BUS-571 Sr Prof in Hum Res (SPHR Rev)

This course focuses on strengthening your knowledge base by participating in a comprehensive review of the HR body if knowledge, while preparing for the Human Resource Certification Institute (HRCI) Senior Professional in Human Resources (SPHR) national exam. Utilizing the SHRM Learning System, the course will cover six Human Resources areas of competency: Strategic Management, Workplace Planning and Employment, Human Resources Development, Compensation and Benefits, Employee and Labor Relations; Health, Safety and Security. Key concepts will be reinforced through lectures, discussions, case studies, jeopardy games, post-test reviews and issues related to Human Resources. The instructor holds the Senior Professional in Human Resources (SPHR) {or PHR} credential. Upon completion of this course, you will receive 3 graduate credits, if applicable, as well as a certificate of completion from the Society for Human Resources Management (SHRM). 3 credits.

BUS-580 Coached Leadership Practicum

Offers students an individualized, real-world and impactful leadership learning experience which provides a hands-on opportunity to apply what has been learned in leadership courses. Each student will develop and submit a semester-long project proposal to be carried out in her or his social or business community requiring personal leadership responsibilities. Once the project proposal is

approved, the student will carry out the project supported by an appropriate professionally-trained volunteer coach and the Program Director. The course will conclude with a reflective assessment of the student's leadership of the project and the lessons learned therefrom to be applied in future leadership opportunities. Prerequisites: BUS-558 or NPM-510. [3 credits]

BUS-640 Managing Projects in Contemporary Organizations

Provides a socio-technical perspective to the management of projects and explores major concepts through multiple lenses, not only the professional fucus of Project Management Institute. Project managers as well as others interested in project management gain tools to add the appropriate level of structure and rigor to their own practice. Includes planning,scheduling, organizing and implementing projects with an emphasis on the project management process and tools used in project management. Online learning experience. Prerequisite: Willingness to learn the basics of Microsoft Project. [3 credits]

BUS-641 Project Monitoring and Delivery

Examines the various interrelated functions impacting project deliveries and how these functions contribute to the strategic success of an enterprise. It is designed to provide the advanced knowledge required to develop, analyze and change a project plan, determine risk and allocate the necessary resources to effectively manage and complete a project in a simulated environment. Online learning experience. Prerequisites: BUS-640. [3 credits]

BUS-642 Managing Project Performance

Identifies the management processes required to ensure the project is completed within budget and on schedule. Provides the knowledge required to cost a project, develop a project plan, and allocate the necessary resources to manage a project. Supply chain management is a major focus. Expands the conversation on and identifies methods for reducing and mitigating risks. Online learning experience. [3 credits]

BUS-643 Leading Process Improvement

Provides an in-depth analysis of the tools, techniques, and processes involved in acquiring and managing project teams toward continuous process improvement while balancing the needs of all stakeholders. Assists project managers in developing, training, and managing both high performing process improvement teams working on complex projects. Learners develop a variety of planning documents to enhance ability of the project team to anticipate, meet, and possibly exceed customers' expectations. Online learning experience. [3 credits]

BUS-651 Strategic Organizational Leadership

Clear strategic thinking and innovative implementation are critical to successful leadership in today's

highly unstable and increasingly competitive business environment. Leading strategically means much more than strategic planning--it means taking a broad holistic and socially just view, identifying and analyzing competing interests, communicating effectively, and rapidly making mid-course corrections. This class takes a multi-disciplinary approach to strategic planning, communication, and implementation, drawing on ideas from the social sciences, leadership and management studies, and social justice and sustainability models. Prerequisites: BUS-530, BUS-558, BUS-560 and completion of 21 graduate level credits. [3 credits]

BUS-698 Independent Study

Offers opportunity to conduct independent research, under faculty supervision, in an approved area of study. The nature, scope and design of the project, as well as the schedule of pre-arranged meetings, are contracted individually between the faculty member and the learner. Perquisite: Permission of the instructor and the chair of the business and economics department. Learners who elect BUS-698 may not take BUS-696. [3 credits]

CST-534 Data Driven Business Decision

Introduces the role that data play in understanding business outcomes, including uncertainty, the relationship between inputs and outputs, and complex decisions with tradeoffs. Students work with real-life examples to interpret statistical distributions, understand hypothesis testing and evaluate reliability. [3 credits]

ECO-211 Introduction to Macroeconomics

Focuses on the United States economy and its relations with the world. Examines how interactions among consumers, businesses, government and the rest of the world impact economic growth, inflation, unemployment and business cycles. Investigates the impact of monetary and fiscal policies on the overall performance of the economy. Fulfills general education requirement in social science. [3 credits]

ECO-212 Introduction to Microeconomics

Examines the manner in which prices are determined and limited resources are allocated efficiently through mastery of basic supply and demand. Considers the behavior of producers and consumers under various competitive conditions. Assesses the role of government in responding to market failures. Fulfills general education requirement in social science. [3 credits]

ECO-220 Honors: Economics and Contemporary Issues

Applies economic principles and methodologies to the decision-making process of individuals, businesses and governments. Evaluates current political, social and economic events using basic

economic theories and principles. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

ECO-311 Applied Macroeconomics

Examines data related to economic, finance and international indicators. Applies macroeconomic theory to assess the current state of the economy and to forecast economic activities in the near future. Evaluates current economic policies in light of the economic forecast. Prerequisite: ECO-211. [3 credits]

ECO-330 Honors: Food Safety Risk Analysis

Analyzes the extent and significance of food-borne diseases in the United States and around the world. Examines the most important hazards to food safety, including food additives and pesticides, microbial hazards, irradiation, and food defense as well as science-based solutions to their management. Considers the interdisciplinary risk analysis paradigm as a modern approach to food safety systems in considerable detail. Prerequisite: Morrissy scholar or permission. [3 credits]

ECO-342 Introduction to Public Finance

Analyzes the role of local, state and federal government in meeting the demands of the public through examination of government's expenditure and taxing policies. Examines the theory of public goods, public expenditures, taxation, public choice, fiscal federalism, budgeting and benefit-cost analysis along with their application in public policy. Prerequisite: ECO-211 or ECO-212. [3 credits]

ECO-348 Economic Theory of Management

ECO-402 Money and Banking

Examines the interactions between the United States financial system and the wider economy. Studies current developments in monetary policy and financial markets and explores the impact of money on the productive sector of the economy. Analyzes current economic, financial and international issues and tracks a variety of economic indicators to predict the actions of the Federal Reserve. Prerequisite: ECO-211 or permission of instructor. [3 credits]

ECO-404 International Economics

Examines international trade theory, international trade policy and international finance from multi-country and multicultural perspectives. Applies economic models to explain the benefits from trade and its effect on the distribution of income among different groups within a country. Studies the impact of protectionist policies on the standard of living of both importing and exporting countries. Describes the balance of payments and develops models of exchange rates. Investigates international capital

and finance issues in light of the current economy. Fulfills eneral education requirement in cross cultural studies. Prerequisite: ECO-211 or ECO-212. [3 credits]

ECO-411 Topics in Economics

Provides opportunities to pursue special topics of current interest in the field of economics. [3 credits]

ECO-463 Independent Study in Economics

Provides opportunities for a student to study a topic of special interest in economics under the guidance of a faculty member. [3 credits]

ECO-548 Economic Theory in Management

Examines the economic environment in which firms operate. Introduces microeconomic and macroeconomic concepts and techniques to help managers "think like economists" when dealing with tactical issues or deciding on strategic directions for their firms. Provides the macroeconomics foundations for successful business decisions in a global economic environment while exposing students to a broad array of economic issues. [3 credits]

ECO-550 Managerial Economics

Introduces economic methodologies to managerial decisions. Examines consumer demand, production costs, and output/price combinations that maximize firms' goals under different market structures. Applies basic math and statistics tools to evaluate business choices. All statistics and mathematics used in the class are explained in basic terms at the point of first usage. [3 credits]

NPM-411 Topics in Nonprofit Management

Provides students an opportunity to study a variety of current issues related to nonprofit management. Recent topics have included: grant writing, nonprofit marketing and fundraising strategies, and planning for service. [3 credits]

NPM-501 Strategic Planning in the Nonprofit Sector

Explores strategic and operational planning in the nonprofit sector, its similarities to and differences from the for profit and public sectors. Based on this examination of the sector environment, learners engage in strategic planning for the specific nonprofit program of their choice. Corequisites: NPM-510, NPM-531. [3 credits]

NPM-510 Leadership and Organizational Development in Nonprofits

Compares and evaluates leadership and organization development theories to the nonprofit sector. Learners expand their organizational development skills through exploring the differing needs and

cultural perspectives of staff, volunteers, board members, donors and consumers. Compares and contrasts leadership in the for-profit and nonprofit sectors. Learners focus on assessing their leadership strengths and weaknesses through textural readings, assessment tools and case studies. [3 credits]

NPM-511 Topics: Nonprofit Mgmt

NPM-517 Negotiation & Conflict Resol

Development of a working knowledge of the nature, strategies, tactics and skills needed in contract negotiation and conflict resolution. His course helps students develop an effective approach to analyzing and managing the negotiation process. The class is highly interactive and provides hands-on experience through a series of simulation exercises. 3 credits.

NPM-520 Board Development and Human Resource Management in Nonprofits

Examines the unique human resources challenges in nonprofits including strategic workforce planning, hiring,training, personnel evaluation and compensation. Recruiting, developing and managing a volunteer Board of Directors is reviewed along with broader concepts of volunteer management. Learners select and apply these concepts to a portfolio of practical, useful Human Resource applications. [3 credits]

NPM-525 Starting a Nonprofit Organization

Engages learners determining whether they should create a new 501 (c) (3) nonprofit corporation. Learners explore the nuts and bolts of what would be involved from the Articles of Incorporation to the ways to dissolve a nonprofit. Engages learners in comparing the legal structures of nonprofit versus for profit entities, exploring state and federal requirements for creating a nonprofit, and learning how to develop a business plan that includes fundraising, marketing and program development. [3 credits]

NPM-531 Managing Financial Resources in Nonprofits

Introduces the underlying concepts, language and reporting methods of accounting and financial analysis. Emphasizes understanding and using accounting and financial statements, rather than producing them. Topics include budgeting, working with accountants and financial analysts to achieve organizational goals, and managing financial resources are explored through practical problem sets. [3 credits]

NPM-540 Effecient Resource Use

This course provides a sound conceptual basis in the economic concepts that are fundamental to all nonprofit organizations. The emphasis is on resource allocation. Price formation, production and

costs, and economic impact analysis. Students will explore the trade-offs nonprofit organizations face and methods for evaluating them. The economic impact of nonprofit organizations on the people and communities which they serve will be developed conceptually.

NPM-545 Fundraising and Grant Writing

Explores the various methods that nonprofits use to raise funds to support the organization's operations and programs. Addresses basic grant acquisition methodologies including conducting grant research, making contacts, and creating standard and comprehensive case statements. Learners write the grant application of their choice. [3 credits]

NPM-551 Government-Nonprofit Relationships

Explores the relationship between the public sector includinghow each sector influences the other. The inquiry reviews the development and implementation of public policy and how nonprofits influence government. Learners track a specific issue of their choice. [3 credits]

NPM-552 Netwkg, Partner & Merg in Nonpr

The environment of nonprofit organizations has become increasingly complex. Interrelationships among different nonprofit organizations are evolving rapidly with alliances, joint ventures, and mergers becoming increasingly frequent. The complex and dynamic interactions within these nonprofit coalitions and the business and government sectors will be the focus of this course. 3 credits.

NPM-570 Nonprofit Marketing

Focuses on the complementary aspects of marketing and communications for a non-profit organization. Topics include segmentation, branding, and membership recruitment. This course also explores the roles of public relations, advertising and social media, as well as the process of preparing persuasive communication for target markets. Learners prepare a case statement, communications and social media strategy for an organization or program. [3 credits]

NPM-580 Program Evaluation Methods

Examines performance measurement and outcomes assessment for nonprofit organizations. Learners are also introduced to the use basic descriptive statistics to identify, measure and present information, particularly to their organizations' Boards and to outside stakeholders. Learners develop an evaluation design for the program of their choice. [3 credits]

NPM-690 Master's Project Seminar

Provides a framework for each learner to develop an original project as a capstone to the master's program. Projects may range from the development and leadership of a major new initiative for a non-

profit organization to a written thesis based on an original investigation of a specific question in nonprofit management. Through this capstone endeavor, the learner integrates the theory and practice of many courses. The particular design of the project must be approved by the seminar leader. The seminar experience provides learners the opportunity to discuss their progress and outcomes with their peers and faculty. Learners are required to achieve the grade of B or higher to complete this requirement. Prerequisite: Completion of 21 credits, including the following core courses: NPM-501, NPM-510, NPM-525, NPM-580, and NPM-531. [3 credits]

NPM-691 Master's Project Seminar II

Continues NPM-690 for particularly comprehensive projects. [3 credits]

RIS-501 Risk Management

Provides an introduction to the risk anaylsis paradigm where organizations intentionally manage, assess and communicate about risk. Risk management is about making effective decisions under conditions of uncertainty. A generic risk management model is introduced and developed. Students learn to apply several risk management methodologies. [3 credits]

RIS-502 Risk Assessment

Provides an introduction to a generic and generalizable risk assessment model as well as to several qualitative risk assessment techniques. Students learn to apply qualitative techniques. [3 credits]

RIS-601 Uncertainty

Surveys epistemic and aleatory uncertainty. Explores the use of probability distributions to address these sources of uncertainty. Explores the use of prabability to represent uncertainty using probability distributions. [3 credits]

RIS-602 Quantitative Risk Assessment

Introduces deterministic and probabilistic risk assessment. Students learn to build and use probabilistic risk assessment models. Emphasis is placed on communicating uncertainty to decision makers. [3 credits]

RIS-603 Risk Communication

Prepares students to respond professionally to the special challenges of coordination among risk managers and risk assessors and focuses primarily on risk and crisis communication where there is considerable uncertainty. Students learn how to map risk communication messages. [3 credits]

RIS-630 Ethics and Risk Governance

Examines the ethical issues and social responsibility related to risk problems through the lends of current events. Topics include such things as ethical principals in the face of system collapse, protecting the most vulnerable, the public's role in decision making, and managing risk for development. [3 credits]

Catholic Studies (Minor)

Religious Studies (Major, Minor) Department

LaReine-Marie Mosely, Ph.D., *Chair*
Wakoh Shannon Hickey, Ph.D.
Henrietta L. Wiley, Ph.D.
LaReine Mosely, Ph.D.

Degrees offered

Minor

Campuses

Main Campus

The Catholic Studies Minor is offered to students in the Women's College. It is an interdisciplinary program that provides students with opportunities to encounter the Catholic intellectual tradition in a variety of academic disciplines, including the arts and literature, the natural and social sciences, and philosophy and theology. Students will engage the wealth and depth of Catholic thought and culture in the past and present, and probe issues of faith, reason and culture raised by the dialogue of Catholicism with other fields of inquiry. Courses in the Minor highlight the distinctive contributions of Catholic intellectuals and scholars and reflect on the challenges facing Catholics in the contemporary world. Students will gain a solid interdisciplinary foundation for understanding the interaction between Catholic faith and culture, as well as for appreciating the richness, diversity, and vitality of the Catholic intellectual mission.

The Minor in Catholic Studies consists of seven courses and 21 credits, including Introduction to Catholic Studies and Seminar in Catholic Studies. Introduction to Catholic Studies will introduce

students to the discipline of Catholic Studies, and Seminar in Catholic Studies will serve as a capstone for the specific distribution of courses that each student chooses for her course of study.

A student wishing to Minor in Catholic Studies is encouraged to meet with the Program Coordinator to design an appropriate Program of Study to complement her Major and to receive information about course cycling.

Chemistry (Major, Minor)

Chemistry Department

Angela R. Sherman, Ph.D., *Chair*
Jocelyn McKeon, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Program of Study in Chemistry at Notre Dame is designed to give students a broad view and deep understanding of the chemical sciences. Introductory courses offer the student a solid foundation in chemical principles, while laboratory experiences introduce her to the techniques and practices of modern chemistry. Advanced courses focus on important areas and methods of chemistry such as chemical identification and analyses, data reduction and interpretation, experiment design, synthesis, physicochemical measurements, instrumentation, quantum mechanics, computational chemistry, simulation and modeling, technical writing, and the chemical literature.

Summary

The Chemistry Department of the College of Arts, Sciences, and Business offers a Major and Minor in Chemistry to students in the Women's College. It also offers Women's College students preparation for pharmacy, medical, dental, veterinary, and graduate schools, as well as for secondary teaching certification. Chemistry, the study of matter and energy, is a challenging discipline that prepares students for many different careers incouding but not limited to: research, pharmaceutical sciences, biotechnology, medicine, engineering and education. Interdisciplinary opportunities may be created by using the Chemistry degree in the context of other fields (including law, business, technical and

science writing, and information science).

Juniors and seniors are encouraged to integrate their course experiences by conducting original research under the supervision of one of the faculty. In addition, students are advised to explore chemical work experience through an internship in a government, industrial or medical laboratory in the area.

Students may be invited to be inducted into the Gamma Theta chapter of the Gamma Sigma Epsilon Chemistry Honor Society or they may join the Student Affiliates of the American Chemical Society. The activities available to students include pursuing internships at institutions in the region, contributing to professional conferences and symposia, attending meetings of the Maryland Section of the American Chemical Society (held on campus and locally), participating in chemistry department seminars and other events, and sponsoring social events. Special opportunities exist for students to work as student lab assistants and in the Department's preparation and stockrooms. Scholarships and awards include the Sister Denise Dooley Scholarship, Anne Dulea Award, CRC Press Chemistry Achievement student award, and the Maryland Section of the American Chemical Society student award.

Students interested in the Chemistry Major, including those who would like to transfer from another institution, should contact a department representative prior to arrival on campus. Students should declare the Major and indicate choice of Program by the beginning of their second semester of study.

For students interested in a career in pharmacy, Notre Dame's School of Pharmacy offers the Doctor of Pharmacy (Pharm.D.) program and a 3-4 (B.A./Pharm.D.) program for Chemistry majors. A 3-2 dual degree program in engineering is also available. Chemistry majors may pursue the B.A. or B.A./M.A.T. program in secondary education as well.

Chemistry Majors and Minors must complete all courses required for the Major/Minor with a minimum grade of C.

Required Courses for a Major in Chemistry

CHM-110 and CHM-111 General Chemistry I and II (8)
CHM-210 and CHM-211 Organic Chemistry I and II (8)
CHM-301 and CHM-302 Physical Chemistry I and II (8)
CHM-303 Analytical Chemistry (4)
CHM-305 Instrumental Analysis (4)
CHM-350 Chemical Literature (1)
CHM-411 Advanced Inorganic Chemistry (4)

CHM-450 Chemistry Seminar (1)
MAT-211 and MAT-212 Mathematics through Calculus II (8)
PHY-101 and PHY-102 General Physics I and II (8)

Two courses chosen from:

CHM-325 Survey of Biochemistry (4)
CHM-401 Advanced Topics in Chemistry (4)
CHM-407, CHM-408 Chemical Research I, II (8)
CHM-425, CHM-426 Biochemistry I, II (8)
CHM-463 Independent Study in Chemistry (4)

Special advanced courses offered at cooperating colleges/universities may be allowed with permission of department advisor and chair. No more than two 300- and/or 400-level chemistry courses (with a minimum grade of C) from a cooperating institution may be used to fulfill requirements for the major.

One course chosen from:

MAT-213 Calculus III (3)
MAT-315 Differential Equations (3)
PHY-201 Modern Physics (3)
CST-295 C++ Object-oriented Programming (3)

Another advanced math/physics or computer course may be substituted with permission of the Chair.

Minor in Chemistry

CHM-110 and 111 General Chemistry I and II (8)
CHM-210 and 211 Organic Chemistry I and II (8)

Choice of two courses with laboratory (with prerequisite) from the following:

CHM-301 Physical Chemistry I

CHM-302 Physical Chemistry II

CHM-303 Analytical Chemistry

CHM-305 Instrumental Analysis

CHM-325 Survey of Biochemistry

CHM-401 Advanced Topics in Chemistry

CHM-425 Biochemistry I or CHM-426 Biochemistry II.

All 300-level and 400-level courses must be taken at Notre Dame.

Pre-Medical, Pre-Dental and Pre-Veterinary Programs

The Chemistry Department's pre-professional program coordinator will assist the student in selecting courses appropriate to her area of interest.

Students complete all chemistry courses listed under the Chemistry Major. Students may substitute one advanced science course (approved by the faculty advisor and program coordinator) for CHM-302, CHM-305 or one of the option courses.

Additional requirements:

BIO-111 Fundamentals of Biology (4)

Three 4-credit courses from the following list:

BIO-Vertebrate Anatomy, Microbiology, Animal Physiology, Biochemistry I and/or II, or Developmental Biology.

Students following this program of study should consider the Minor in Biology.

Students should consult the American Medical Association Bulletin, the admission requirements of American dental schools, and individual medical, dental and veterinary school bulletins or admission officers for more specific requirements. Students also should contact the Pre-Professional Advisory Committee early in their course of studies.

Secondary Education Certification—Approved Program in Chemistry

Students who wish to prepare for teaching in secondary schools complete the courses listed under the Chemistry Major along with BIO-111 Fundamentals of Biology and PHY-155 Introduction to Astronomy. In their senior year, pre-service teachers are encouraged to complete CHM-407 Chemical Research I as one of the option courses. Either CHM-411 or one of the option courses is waived with consent of the Program Coordinator and faculty advisor. One other course substitution may be made when appropriate. In addition, students complete professional education courses offered by the College of Education for the B.A. or B.A./M.A.T. Program.

Dual Degree Program in Chemistry and Engineering

Qualified students with an interest in one of the engineering disciplines, especially chemical engineering or materials science, may obtain a Bachelor of Arts Degree in Chemistry from Notre

Dame and a Bachelor's Degree in Engineering from Columbia University, The Johns Hopkins University, or the University of Maryland. Students complete their first three years of study at Notre Dame taking general and advanced courses toward the Chemistry degree. See the Engineering section for specific program information.

Liberal Arts

The student follows the Program of Study outlined in the Liberal Arts section of the catalog

B.A. Chemistry — Pharmacy (Pharm.D.) Options

Students may wish to complete a degree in Chemistry prior to entering a Doctor of Pharmacy (Pharm.D.) program. This option allows the student to present a strong application and provides a second degree. Many applicants to Pharm.D. programs already hold an undergraduate degree. Students may improve their prospects for admission by using this option and it provides additional career paths. To do so, students complete required courses for the Chemistry Major as indicated (including Calculus II and Physics II). Students prepare for applying to a School of Pharmacy by completing necessary additional prerequisites in sciences (*e.g.* biology courses) and other specific courses in the liberal arts. Students take these courses based on the admission requirements of the Pharmacy School to which they will apply.

Students wishing to apply to the Notre Dame of Maryland University School of Pharmacy must complete additional courses as indicated in the Pharmacy Studies section. The student consults with her academic advisor or the Pre-pharmacy Coordinator no later than their junior year to assess academic readiness to take the Pharmacy College Admission Test (PCAT) exam. The student follows the appropriate application procedure. If a student is interested in a Ph.D. in pharmaceutical sciences, she may apply to a graduate program.

Accelerated B.A./Pharm.D. Program (3 + 4)

The Department of Chemistry offers Women's College students an opportunity to earn a bachelor's degree on an accelerated basis in combination with their pursuit of the Doctor of Pharmacy degree at the School of Pharmacy. Consult the Pharmacy Studies section of the Catalog for more information.

Four-Year Plan

Below is a sample Program of Study for the Chemistry Major.

Students should select courses with the assistance of a faculty advisor.

See Course Descriptions for a list of required courses and description of course and program options.

Fall		Spring	
First year			
IDS-100 Perspectives in Education	3	ENG-101 College Writing	3
BIO-111 Fundamentals of Biology (recommended for certain programs)	4	RST-201 Introduction to Biblical Studies	3
CHM-110 General Chemistry	4	CHM-111 General Chemistry II	4
MAT-211 Calculus I	4	MAT-212 Calculus II	4
[15 credits]		[14 credits]	
Second year			
CHM-210 Organic Chemistry	4	CHM-211 Organic Chemistry II	4
PHY-101 Physics I	4	PHY-102 Physics II	4
COM-106 Fundamentals of Oral Communication	3	Religious Studies (300/400)	3
History	3	Philosophy (200)	3
Foreign Language	3	Physical Education	1
[17 credits]		[15 credits]	
Third year			
CHM-301 Physical Chemistry I	4	CHM-302 Physical Chemistry II	4
CHM-350 Chemical Literature	1	CHM-401/408/426 Advanced Topics/Research/Biochemistry II	4

Courses

CHM-111L Lab: General Chemistry II

This laboratory is a co-requisite for CHM-111 General Chemistry II.

CHM-211L Lab: Organic Chemistry II

This laboratory is a co-requisite for CHM-211 Organic Chemistry II.

CHM-301L Lab: Physical Chemistry I

This laboratory is a co-requisite for CHM-301 Physical Chemistry I.

CHM-305L Lab: Instrmntl Analysis

This laboratory is a co-requisite for CHM-305 Instrumental Analysis.

CHM-325 Survey of Biochemistry

Provides an overview of biochemistry. Includes the study of proteins, enzymatic mechanisms and kinetics, energy production, and basic metabolic pathways. Three lectures and one laboratory period per week. Prerequisite: CHM-211 with minimum grade of C or permission of instructor. [4 credits]

CHM-325L Lab: Survey in Biochemistry

This lab is a co-requisite for CHM 325 Survey of Biochemistry.

CHM-411L Lab: Adv Inorganic Chemistry

This laboratory is a co-requisite for CHM-411 Advanced Inorganic Chemistry.

CHM-426L Lab: Biochemistry II

This laboratory is a co-requisite for CHM-426 Biochemistry II.

Communication Arts (Major, Minor)

Communication Arts Department
Pamela O'Brien, Ph.D., *Chair*
Debra Minick Franklin, Ph.D.
Fran Mindel, Ph.D.
Britt Christensen, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Communication Arts Department of the College of Arts, Sciences and Business offers a Major and Minor in Communication Arts to students in the Women's College. The Program provides an intensive study of communication between and among persons via the mass media and in cyberspace. The Department mission is to enable students to be knowledgeable creators and astute consumers of messages within our increasingly complex, technological society. The core curriculum aims to develop the student's talents in communicating effectively in print, in visuals, in speech, and with diverse types of media. By offering additional choices through a series of electives, the Program also encourages students to design a specialty within the communication fields, such as advertising, video and digital media, public relations, journalism, or corporate communication. Through internships, practicums, and advanced courses, the student learns in more depth about the theory and practices of the specific communication area of the student's interest.

Summary

Department facilities include a digital, wirelss green screen studio with computer-based nonlinear editing, ENG equipment for video field work and the campus streaming radio station, NDMU radio, and student-run newspaper, ***Columns***. Classes meet frequently in the department's Macintosh laboratory for sessions on writing, digital publishing, digital design work and multimedia presentations.

Early internships during the sophomore and junior years may be taken to explore various career areas in which students may be interested. All Communication Arts majors must complete an advanced practicum with an approved organization as part of their senior year experience.

Graduates in Communication Arts have been employed in settings as varied as C-SPAN, Animal Planet, SmartCEO magazine, Baltimore Magazine, the Baltimore Office of Promotion and the Arts, and The Johns Hopkins Bayview Medical Center. They serve as advertising media planners, Webmasters, media relations experts, television producers, newspaper editors and sports information directors. An active Advisory Board of department graduates assists the faculty in preparing students for careers. The Department sponsored the first student chapter of the Association for Women in Communications in the State of Maryland.

The General Education requirement in Fine Arts may be fulfilled by any of the following courses: COM-325, COM-330 or COM-351.

The General Education proficiency in Oral Communication may be fulfilled by COM-106 or COM-206. COM-106 is designed specifically for non-Communication Arts majors; Communication Arts majors and Minors must complete COM-206.

The General Education Requirement in Gender Studies may be met by completing COM-330, COM-382 or the honors course COM-329. COM-329 also fulfills the requirement in history.

The General Education Requirement in Cross-cultural Studies may be met by completing COM-303. Communication arts Majors and Minors must complete all courses for the Major/Minor (including departmental electives) with a grade of C or higher.

Program of Study

Required Courses for a Major in Communication Arts (Credits)

COM-101 Introduction to Media Writing (3)
COM-131 Mass Media and Society (3)
COM-201 Interpersonal and Team Communication (3)

COM-206 Speaking in Professional Settings (fulfills general education requirement for majors) (3)
COM-210 Social Media (3)
COM-256 Popular Culture (3)
COM-310 Media Literacy (3)
COM-313 Digital Media Skills (3)
COM-314 Reporting and Writing News (3)
COM-356 Communication Research Methods (3)
COM-441 Mass Communication Law (3)
COM-461 Communication Arts Practicum (4)

Students also take three additional courses of their choice to prepare for specific careers in communication. Students interested in digital production are strongly encouraged to enroll in DMA-201 Time-Based Media.

Minor in Communication Arts

COM-101 Introduction to Media Writing (3)
COM-131 Mass Media and Society (3)
COM-201 Interpersonal and Team Communication (3)

Plus three communication arts electives of the student's choice, two of which must be at the 300- or 400-level (9)

N.B. Majors and Minors must complete COM-206 Speaking in Professional Settings with a grade of C or higher to fulfill the communication proficiency requirement in General Education.

Four-Year Plan

Below is a sample Program of Study for the Communication Arts Major.

Students should select courses with the assistance of a faculty advisor. The plan is intended as a guide only. Many variations are possible.

Fall		Spring	
First Year			
COM-131 Mass Media and Society	3	COM-101 Introduction to Media Writing	3

General Education/Course in Minor	6	[13-15 credits]	
Internship	3		
[15 credits]			

Courses

COM-101 Introduction to Media Writing

Explores the various types of writing and rhetorical approaches used in crafting messages for the mass media. Provides experience in writing for journalistic, broadcasting, public relations and advertising needs, with diagnostic attention given to the individual student's writing skills. Writing requirements of the Web and digital media are previewed. Intensive laboratory work assists the student in improvement of skills. Offered in Women's College only. Prerequisite: ENG-101 or permission of department. [3 credits]

COM-106 Fundamentals of Oral Communication

Cultivates oral communication skill for non-majors, with emphasis on improving speaking and listening skills. Analyzes factors affecting oral communication with self, in dyads, small groups, the public arena, organizations, mass media, and among members of differing cultural backgrounds. Practical experience in delivering speeches and briefings. Fulfills the general education requirement in oral communication. [3 credits]

COM-131 Mass Media and Society

Studies the role of newspapers, magazines, radio, television, motion pictures and the "new media" in contemporary life and their impact on sociological and cultural patterns. The goal of the course is to develop the students'critical perspective through reflective review of media messages and analysis of current media systems. [3 credits]

COM-200 Digital Skills Workshop

Provides students with hands-on experience in using digital technology tools toward development of competencies needed for advanced courses in the major and professional field work. Should be completed by majors in the first or second year. [3 credits]

COM-201 Interpersonal and Team Communication

Examines concepts, principles and skills central to interpersonal communication processes. Develops understanding of verbal and nonverbal dimensions of human interaction from both experiential and competency-based approaches. Consideration given to group dynamics. Students write reflective journals and participate in a number of workshop experiences. [3 credits]

COM-202 College Media Workshop

Provides training for staff members and leaders of the student media on campus-the yearbook, television channel, radio station and newspaper. Requires substantial writing, editing, promotional, and/or production work on at least one campus medium. Opportunities to develop materials for presentation in a professional portfolio. May be repeated for additional credit (up to six credits) to complete an extended project or learn new skills. [1-3 credits]

COM-203 Media Writing

Provides instruction in writing for print, broadcast, advertising, public relations and new online media. Students will learn skills for adapting written content to various media platforms. Additionally, writing objectively, developing story ideas, proper citation of sources, audience considerations, legal and ethical issues, information gathering, interviewing and fact checking are some of the concepts covered by this course. Prerequisite ENG-101. [3 credits]

COM-206 Speaking in Professional Settings Speaking in Professional Settings

Explores the art of public communication and persuasion, content and delivery, through composition and delivery of a variety of speeches. Particular attention is given to the expectations of the workplace. Recommended in first year or second year. Fulfills the general education requirement in oral communication. [3 credits]

COM-210 Social Media

Engages students in a theoretical and critical look at the incursion of social media (such as blogs, Facebook, Twitter) into human communication processes and considers the implications of use of these media for the future of communication. [3 credits]

COM-256 Popular Culture

Explores contemporary American culture through an examination of the creation and propagation of iconic images, myths, stereotypes and shared beliefs within a mass-mediated context. Extensive discussion and analysis of media and media artifacts. [3 credits]

COM-257 Honors: Japanese Popular Culture: Manga & Anime

Examines a wide variety of Japanese manga, anime, films and video games and discuss the relevance of these texts to contemporary Japanese and American society. Considers the historical contexts during which these unique forms of media developed, with special attention to changes that occurred follow-ing the American occupation in the aftermath of World War II. Particularly focuses on the pop culture texts Japan has exported since becoming an economic superpower in the 1980s. Explores utopian/dystopian expression in Japanese sci-fi narratives of this era, and the complex interplay of gender and technology in the new posthuman societies that these narratives envision. Also considers the significance of global fandom as we chart the rise of the American otaku, and its relevance to future Japanese-American relations. Prerequisite: Morrissy Honor Students or permission of Director, Morrrissy Honor's program. Fulfills general education requirement in cross-cultural studies. [3 credits]

COM-303 Intercultural Communication

Provides an overview of face-to-face intercultural communication, integrating theory and interaction. Examines the anthropological, sociological and psychological aspects of culture as applied to solving communication problems in multicultural and international settings. Fulfills general education requirement in cross-cultural studies. [3 credits]

COM-310 Media Literacy

Explores visual and audio literacy through the balance of critical consumption and production skills. Employs a series of units in which students decode complex visual and audio images and then move to composition in both visual and auditory production. Creation of a Web-based portfolio is the culminating unit. [3 credits]

COM-313 Digital Media Skills

Provides hands-on experience in the use of digital and social media in professional contexts in the communication fields. Students will complete a number of projects applicable to professional situations that will enhance the job-search portfolio. [3 credits]

COM-314 Reporting and Writing News

Stresses the writing of accurate and stylistically compelling news and information and the

development of interviewing skills. Students will use digital media and new technologies necessary for covering stories and preparing news packages in the field. Mobile reporting and convergence are stressed. [3 credits]

COM-319 Advertising and Analytics

Provides a foundation in the principles of advertising and studies the advertising media. Includes the planning of advertising strategy and making ads. Practical assignments advance understanding of key message objectives, copywriting principles and ad design principles introduced in COM-101. Discusses social and economic aspects of advertising and advertising research. [3 credits]

COM-325 Film Themes (by Topic)

Teaches the principles of screen art with viewing of selected films. Critiques the films based on theories of filmmaking. Themes drawn from world cinema. (May be taken for credit more than once if topic is different.) Fulfills the general education requirement in fine arts. [3 credits]

COM-329 Honors: Women in Mass Communication History

Engages students in an historical-critical study of the role of women in the communication fields of broadcasting, journalism, public relations and advertising. Surveys their contributions as practitioners and the challenges they have met as part of the professional media culture. Opportunities to meet women working in the media and to participate in an oral history project. Fulfills general education requirement in history and gender studies. [3 credits]

COM-330 Women in Film

Heightens awareness of the ways in which women have been portrayed in Hollywood-made films during the 20th century. Presumes that mass media serve as agents of socialization and will consider how popular films have both reinforced and challenged gender stereotypes and ideals. Extensive screening of films and film clips. Fulfills general education requirement in fine arts and gender studies. [3 credits]

COM-331 Public Relations

Takes a social science approach to the study of public relations as relationship management. Examines communication strategies for reaching various publics and stakeholders. Provides practical experience in planning and writing publicity and public relations materials to reach communication goals. Opportunities to produce materials for the professional portfolio. [3 credits]

COM-356 Communication Research Methods

Serves as an introduction to research methods in the communication field, detailing how to gather and analyze data about communication processes and their effects. Emphasizes the relevance of research to helping communication practitioners make sound decisions in applied settings (e.g., print, video, advertising, public relations and interpersonal relations). In workshop and small group settings, students learn how to formulate and pursue research questions of interest. Prerequisites: COM-131, COM-201. [3 credits]

COM-363 Publication Design and Publishing

Provides extensive laboratory practice in print media design principles and development of skills required to manipulate illustration and desktop publishing software packages. Studies newspaper, magazine, newsletter, brochure and advertising designs and issues of convergence to the Web. Extensive workshop and laboratory work. Opportunities provided to produce materials for the professional portfolio. [3 credits]

COM-375 Event Planning

Provides an overview of the necessary preparations for planning a major event. Course work includes a survey of the types of events, venue selection, catering, marketing and promotions, networking, budgeting, execution and evaluation of events. [3 credits]

COM-382 Gender and Communication

Examines how communication creates, perpetuates and recreates gender roles. Includes an exploration of the rhetorical movements that provide the foundation for gender and communication in different settings such as the personal environment (gendered verbal and nonverbal communication), the professional environment (education and the workplace) and the media environment. Fulfills general education requirement in gender studies. [3 credits]

COM-401 Writing for the Web

Explores techniques for making the transition from writing for traditional mass media to writing for online media. Teaches students to use online resources and produce online messages and "articles" of various types. Provides opportunities to develop materials for the professional portfolio. [3 credits]

COM-403 Organizational Communication

Studies communication systems, structure, problems and solutions within complex organizations, such as business corporations, governmental agencies, hospitals and schools. Students develop practical plans to improve communication within organizations. [3 credits]

COM-430 Strategic Communication

Serves as the capstone course for the corporate communications program; requires students to apply their knowledge from the program's core subjects in the analysis of communication, technology, and business problems reflected in case studies of specific organizations. [3 credits]

COM-441 Mass Communication Law

Provides students with opportunities to discuss and analyze the major legal problems encountered by communication practitioners. Teaches case method by review of benchmark federal and state court decisions and statutes. Covers freedom of information, censorship, copyright, privacy, libel, and law for the digital media, public relations, business communication, advertising and broadcasting. Students write case briefs and hypothetical case analyses. [3 credits]

COM-461 Communication Arts Practicum

Provides opportunities to work in pre-professional settings in communication positions with an approved organization. Prepares the student for a career in the communication field of her choice as a culminating experience. The student must enroll for the spring semester of her senior year. Prerequisite: senior standing. [4 credits]

COM-463 Independent Study in Communication

Provides the qualified student with opportunities to conduct research or produce a body of creative work under the direction of a faculty member. Permission required. [3 credits]

COM-505 Business Communication

Analyzes verbal and written communication patterns and messages in organizations. Learners evaluate the effectiveness of a range of methodologies and tools to persuade and inform different stakeholder groups. Learners will critique and create oral and written presentations ranging from communicating statistical information and offering a persuasive call to action, to creating executive summaries and editing the work of others. [3 credits]

COM-507 Film Themes

Provides students with a grasp of the communicative art of this global medium through analyzing selected films based in theories of film making, particular genre, specific director, culture phenomena or historical location. Discussion focuses on theoretical understanding of the art through an analysis of the selected topic. Students are allowed to take this course more than once if the focus topic is different. [3 credits]

COM-509 Media Criticism and Theory

Presents traditional and contemporary critical frameworks for evaluation of the rhetoric of diverse mediated messages. Students explore how to apply these critical theories to a number of media messages. The course examines the connection between the medium and message in successful communication. [3 credits]

COM-511 Communication Issues

Engages students in a critical examination of an emerging issue or problem of interest to communication practitioners. Possible topics: crisis communication, non-profit public relations, the computer/human interaction and impact of social media on human communication. [3 credits]

COM-515 Cross-Cultural Communication

Explores, in our diverse and global world, how an understanding of communication between persons, or groups, of different cultures or sub-cultures is essential. This course looks at the dimensions that differentiate cultures, the diversity of perceptual and behavioral habits and the role of language and rituals within cultures. Study is applicable to building awareness of communication problems and solving them in multicultural and international settings. [3 credits]

COM-517 Communication and Gender

Explores how communication creates, perpetuates and recreates gender roles. The course considers the perception and theoretical foundations that explain these situations. The rhetorical movements that provide the foundation for gender and communication in diverse settings are analyzed. This includes the role of the media and the personal environment be it workplace, social or educational setting. [3 credits]

COM-520 Digital Asset Management

Closely examines the nature and uses of media technology in organizations and aids students in developing skills in this technology. The course explores strategies for using multimedia as effective communication devices. These include uses of print, broadcast and/or Internet with a focus on the World Wide Web. Students also learn to develop skills in video conferencing, multimedia presentations and interactive computer instruction. [3 credits]

COM-530 Independent Study

Allows the graduate student an opportunity to explore independently under faculty supervision a specialized topic in contemporary communication that is not part of the regular curriculum. The nature, scope and design of this area of study or writing, as well as a schedule of prearranged meetings will be individually contracted between the instructor and student with the approval of the contemporary communication chair. Required forms must be completed through the Graduate Studies office. This course may not be repeated. [3 credits]

COM-550 Communication Theory

Provides students with a solid foundation in scholarly literature of the communication field. Application of theory to contemporary research questions is stressed. Systems theory, situational theory, theories of social influence and mass communication will be surveyed. The primary work of the course is preparation of a literature review regarding a topic of interest. [3 credits]

COM-556 Research Methods for Professionals

Develops the skills and knowledge central in engaging in human communication research. Students gain an understanding in how to formulate communication questions, review pertinent research literature, collect and analyze information/data from answers in research question and report research findings in both quantitative and qualitative research methods. Ethical and social/cultural implications of research findings are stressed. [3 credits]

COM-565 Campaign Design and Execution

Guides students through developing successful advertising, public relations and marketing campaigns. Through analysis of objectives, strategies, tactics and messages, students explore what is necessary and essential to reflect an organization's mission and strategic plans in order to devise a coherent campaign. Students will examine what succeeds, what fails, and why. [3 credits]

COM-610 Social Media for Professional

Explores the practical uses of, and rationale behind the strategic uses of various social media platforms in businesses and organizations. Students will engage in hands-on activities while developing a broad understanding of how social media can play a strategic role in developing an organization's mission and communication goals and objectives. [3 credits]

COM-620 Public Relations Management

Analyzes the practices of public relations in the corporate and nonprofit sectors as a function of management. Effective ways of preparing public relations messages are explored in depth. Strategies for communicating with an organization's internal and external constituencies including employees, clients, stockholders, media representatives, consumer advocates and regulatory agencies are evaluated. Emphasis in the course is placed on trends in public relations since the 1970s. [3 credits]

DMA-101 Graphic Design I

Explores graphic communication through understand-ing the elements and principles of design, as well as the design process, from idea development through final execution. Emphasizes two-dimensional design, color and content creation, while employing the design process of research,

sketching and experimentation. [3 credits]

DMA-201 Time-Based Media

Provides experience in the fundamentals of time-based design. Students will create projects that deal with narrative elements, composition, motion, variables and type. Storyboard project planning and software animation will be covered. [3 credits]

DMA-253 Graphic Design, Theory and Practice

Offers an introduction to the theories and practices of graphic design. Provides a historical analysis of visual communication with emphasis on the development of the profession of graphic design and the relationship of commerce and technology to the history of graphic design. Formerly ART-253. [3 credits]

DMA-351 Graphic Design II

Advances computerized graphic design skills with an emphasis on Adobe InDesign. Students learn software-specific skills needed for full color graphic arts and pre-press production. Clear and precise visual communication, problem solving and presentation are stressed. Focus on portfolio development. Formerly ART-351. [3 credits]

DMA-360 Animation and Motion Graphics

Engages students in a more intensive investigation of animation through the analysis of motion and transformation with photograph, video, illustration, and animation in traditional and digital media, with a focus on Adobe After Effects. Students learn how images and type are choreographed to produce attractive and dynamic motion graphics. Prerequisite: DMA-201. [3 credits]

DMA-375 Typography

Investigates problem-solving strategies concerned with the selection, organization and presentation of text. Students will enhance digital typesetting skills to effectively present information in print and motion applications. Topics include origins of the alphabet, typeface classifications, abstract communication with letterforms and design with text. Formerly ART-375. Prerequisite: DMA-101 or permission. [3 credits]

DMA-401 Computer Animation

Engages students in an intensive investigation of animation through the analysis of motion in traditional and digital media. Students apply skills to various anatomical problems to find modeling and rigging solutions for character motion. Major emphasis is placed on proper identification of controls for the end user. [3 credits]

DMA-411 Topics in Digital Media

Surveys current topics of interest within the field of graphic design, video, animation, web and social media. Projects in typography, book design, motion, digital imaging and a variety of other methods will be addressed in different sessions to complete the course portfolio. May be taken more than once on different topics. Prerequisite: will differ depending on topic. [3 credits]

DMA-461 Digital Media Practicum

Structures a professional-level internship that places students in an entry-level position at a high-tech company in the Greater Baltimore area. Students will work under close supervision of faculty and the agency sponsor with the intention of gaining in-depth experience in the field. [3 credits]

Computer Information Systems (Major, Minor)

Mathematics, Physics, and Computer Studies Department

Alexandra Chaillou, Ph.D., *Chair*
Thomas Narock, Ph.D.
Kyongil Yoon, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Computer Information Systems Program of Study provides the tools needed for career options in diverse fields such as applications development, system and/or software support, computer programming, software engineering, information systems management, systems analysis and design, Web page development and maintenance, and database support.

Summary

Computer Information Systems (CIS) is the study of the effective and efficient use of computer technology to advance the missions of organizations. A Major or Minor in Computer Information Systems or a Minor in Computer Science prepares students to effectively implement computer resources for organizations. It requires the ability to learn and utilize constantly evolving computer technology and social media. The curriculum reflects the basic activities of computer information systems: analyzing, planning, programming, developing, implementing and evaluating new uses of computer technology. Courses in Computer Information Systems prepare students for teamwork and leadership and stress the importance of workplace and life skills including written and verbal communication.

Based on recommendation of the Association of Computing Machinery, the goals of the CIS program

are:

1. Foster a broad business and real world perspective in technology;
2. Develop strong analytical and critical thinking skills;
3. Enhance interpersonal communication and team skills, and encourage ethical principles;
4. Model creative information technology solutions that enhance organizational performance.

The Computer Studies Program of Study in the School of Arts, Sciences, and Business offers a Major and Minor in computer information systems to students in the Women's College. The Computer Information Systems Minor can be paired with any Major and is particularly useful with a Major in Business. In addition, a Minor in Computer Science is offered in the Women's College.

A minimum grade of C is required in all computer information systems courses for Computer Information Systems Majors and Minors, and in all Computer Science courses.

Required Courses for a Major in Computer Information Systems (Credits)

CST-141 Fundamentals of Information Systems (3)
CST-171 Programming Concepts (3)
CST-261 Web Page Design (3)
CST-295 C++ Programming (3)
CST-321 Java Programming (3)
CST-385 Systems Analysis (3)
CST-421 Database Concepts (3)
CST-489 Computer Studies Seminar (3)
ECO-211 or ECO-212 (3)
BUS-302 or 303 (3)
MAT-215 Basic Statistics (3)

Two electives from:

CST-355 Project Management (3)
CST-356 Internet Communication (3)
CST-411 Topics in Computer Information Systems (3)
CST-481 Telecomm & Networking (3)

Required Courses for a Minor in Computer Information Systems

CST-141 Fundamentals of Information Systems (3)
CST-171 Programming Concepts (3)

CST-261 Web Page Design (3)
CST-295 C++ Programming (3)
CST-385 Systems Analysis (3)
CST-421 Database Concepts or CST-489 Computer Studies Seminar (3)

Four-Year Plan

Below is a sample Program of Study for the full-time Computer Information Systems Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
CST-141 Fundamentals of Information Systems	3	CST-171 Programming Concepts	3
NDMU-100 Perspectives in Education	3	ECO-211 Macroeconomics or ECO-212 Microeconomics	3
ENG-101 College Writing	3	Literature	3
Foreign Language	3	General Education/Electives	6
General Education/Electives	3	Physical Education	1
[15 credits]		[16 credits]	
Second year			
CST-295 C++	3	CST elective	3
MAT-215 Basic Statistics	3	COM-106 Fundamentals of Oral Communication	3
History	3	Natural Science	4
BUS-302 Management or BUS-303 Marketing	3	RST-201 Introduction to Biblical Studies	3
General Education/Electives	3	CST-321 Java Programming	3
[15 credits]		[16 credits]	

Third year			
CST-261 Web Page Design	3	CST-385 System Analysis	3
Philosophy (200-level)	3	CST-elective	3
General Education/Electives	9	Religious Studies (300/400-level)	3
[15 credits]		General Education/Electives	6
Fourth year		[15 credits]	
CST-421 Database Concepts	3	CST-489 Computer Studies Seminar	3
Philosophy (300/400-level)	3	CST elective	3
Fine Arts	3	General Education/Electives	9
General Education/Electives	6	[15 credits]	
[15 credits]			

Courses

CST-110 Technology for Instruction and Management

Provides prospective classroom teachers with opportunities for planning, designing and producing projects that support the instructional needs of students in grades K-12, including best practices for the integration of technology into curriculum with state and national technology standards. Students complete a variety of projects to develop skills in word processing, Web page development, computer presentations and other technologies. For education majors only. [3 credits]

CST-130 Introduction to Computer Applications I Applications

Emphasizes problem-solving skills for all disciplines, such as creating formatted documents, using spreadsheets to analyze information quantitatively, editing image visual computer presentations to accompany reports. In addition, course examines up-to-date computer security and privacy issues. Course focuses on computer competencies for the non-major. [3 credits]

CST-141 Fundamentals of Information Systems

Introduces the characteristics and architectures of information systems and their impact on businesses. Explores elements of computer hardware, a variety of software capabilities,

telecommunications infrastructure and the system development life cycle. This is the gateway course in the major. Satisfies the technological competency requirement. [3 credits]

CST-171 Programming Concepts

Introduces computer programming using a common small business language such as Microsoft Visual Basic. Emphasizes programming structures such as decisions, repetitions, sub procedures, functions, and arrays using structured program design with object-oriented concepts. Students learn to write a variety of program types to meet various business needs. Satisfies the technological competency requirement. [3 credits]

CST-261 Web Page Design

Focuses on coding and design of Web pages using HTML and JavaScript to create high-level Internet content. Includes legal and ethical issues as well as human-computer interaction design concepts. Students demonstrate the progression of their skills through the successful completion of a number of practical projects. Satisfies the technological competency requirement. [3 credits]

CST-295 C++ Object-Oriented Programming

Introduces object-oriented programming including objects, classes, inheritance and polymorphism. Includes high-level structures such as pointers and arrays as well as data structures with stacks and queues. Prerequisite: CST-171 or MAT-211. Satisfies the technological competency requirement. [3 credits]

CST-321 Java Programming

Introduces object-oriented programming using objects and classes to write Java applications and Web applets for simple gaming. Includes graphical features of Java such as objects, images, event handling, color control and layout control. Prerequisite: CST-171 or MAT-211. [3 credits]

CST-355 Project Management

Investigates project management as it applies to the systems development life cycle with an electronic project management tool. Emphasizes resource allocation and sub-project definition. Students will apply theory and principles learned to solutions for practical business problems. Prerequisite: CST-171 or CST-261. [3 credits]

CST-356 Internet Communication

Examines the advantages and challenges of the Internet for businesses communication. The uses of social media as business tools will be explored. [3 credits]

CST-385 Systems Analysis

Examines the system life cycle and alternative methodologies, emphasizing techniques of project management, system documentation, logical and physical system specification, system development and installation. Students complete a number of systems design projects. Prerequisite: CST-171 or CST-261. [3 credits]

CST-411 Topics in Computer Information

Offers an intensive, advanced study in a particular area of technology focusing on current issues encountered in the professional world. Topics vary, but recent classes have considered Ecommerce, legal issues and computer security. Prerequisites vary according to topic. [3 credits]

CST-421 Database Concepts

Introduces concepts and techniques of structuring, storing and retrieving data. Includes database and database table design, data normalization and introductory SQL programming. This is a project-based course. Prerequisite: CST-385. [3 credits]

CST-463 Directed Study in Computer Science

Provides an opportunity for a student to pursue advanced study of a topic of special interest under the direction of a faculty member. [1, 2 or 3 credits]

CST-481 Telecommunication & Networking

Introduces network types, architecture, protocols and standards. Evaluates efficiency, security and integrity. Prerequisite: CST-171. [3 credits]

CST-489 Computer Studies Seminar

Provides opportunities for majors to research and evaluate current social and ethical issues related to computing such as copyright laws, computer crime, personal rights, work environment and invasion of privacy. Class is designed as a highly collaborative seminar and is the major capstone experience. Requires design and implementation of an extensive project. Prerequisite: CST-295 and junior or senior status. [3 credits]

CST-511 Topics in Information Systems

Includes a variety of topics which focus on applications and issues related to the current technology. Students develop technology-related projects to enhance business. [3 credits]

CST-515 Technology in Contemporary Communication

Explores the use of technology in expression and culture, including legal, social and ethical issues. Introduces the development of Web pages and multimedia as forms of expression. Students demonstrate an understanding of the power of technology through a series of computer projects. CST 515 should be taken within first 12 credits of program. [3 credits]

CST-530 Foundations of Analytics

Introduces the data, information, knowledge, wisdom continuum. Topics covered include the historical roots of knowledge management, theories/definitions of knowledge, and culture and strategies of knowledge management. [3 credits]

CST-531 Data Design and Management

Covers fundamental concepts for the design, use and implementation of database systems. Concepts include basic database modeling and design, query optimization, concurrency control, recovery and integrity. [3 credits]

CST-532 Data Tools

Studies concepts for SQL procedures, functions, packages and Internet database connectivity. Web application development techniques based on client and server-side programming are introduced. Standard methods and protocol for knowledge representation and exchange over the Internet such as XML, RDF, SOAP, WSDL and UDDI are discussed. Prerequisite: CST-531. { 3 credits]

CST-540 Data Visualization

Explores the field of data visualization, including data types and visualization categories such as time-series, statistics, maps, hierarchies, and networks. Includes a study of visualization tools, infographics, and other issues related to the display of "big data." [3 credits]

CST-550 Project Management

Reviews the application of project management tools as they apply to the systems development life cycle, including planning, organizational structure, and control mechanisms. Research assignments relate to the design and implementation of knowledge construction and management. [3 credits]

CST-554 Principles and Issues in Information Systems

Introduces the fundamental principles of informa-tion systems and subsystems and how they work together to facilitate decision making. Students will evaluate cases in database organization, data communication, systems analysis and design, and computer security in terms of their impact on the data/information/decision process. [3 credits]

CST-580 Managing Information in a Web-Based World

Examines the Internet as an organizational tool for data gathering, marketing, learning and communication. Students will study the advantages and disadvantages of using the Web as a major organizational decision support tool, including its social, legal and ethical impact. [3 credits]

CST-593 Web Development

Focuses on a user-centered approach to designing Web sites, including requirements gathering, conceptual design, physical design, coding, testing and implementation. Students will complete a number of practical projects as well as a Web site for a nonprofit organization. [3 credits]

CST-595 Digital Design

Explores strategic uses of various developmental platforms in businesses and organizations. Students will engage in hands-on activities while developing a broad understanding of how digital media can play a strategic role in developing an organization's communication goals and objectives. [3 credits]

CST-610 Critical Inquiry Capstone

Studies the role of critical thinking, evaluation and research in information and knowledge work. The course will cover the steps in carrying out a research project: problem identification, theoretical framework, methodological design, data collection and analysis; developing a research proposal; communicating research results; and assessment and use of results of research studies. The course will also provide a critique and review of research studies, and discuss ethical concerns and issues associated with research. Prerequisite: MAT-575. [3 credits]

CST-611 Data Security

Provides an overview of both the theory of and applications for providing privacy, ethics and security in database management systems. Concepts include discretionary and mandatory access control, data integrity availability and performance, secure database design, data aggregation, data inference, secure concurrency control and secure transactions processing. [3 credits]

CST-620 Data Mining and Warehousing

Provides an overview of the data mining and warehousing components of the knowledge discovery process. Data mining applications are introduced, and the application of statistical algorithms and techniques useful for solving problems are identified. Students will study development issues such as identification, selection, acquisition, processing, search and retrieval. [3 credits]

Computer Science (Minor)

Mathematics, Physics, and Computer Studies Department

Thomas Narock, Ph.D.
Kyongil Yoon, Ph.D.

Degrees offered

Minor

Campuses

Main Campus

The Computer Science Minor can be paired with any Major and is frequently taken in combination with a Mathematics, Engineering, or Physics Major. A Minor in Computer Science is the study of algorithmic approaches to problem solving. Computer Science enhances technical skills for scientific applications with mathematical and analytical skills. A Major and Minor in Computer Information Systems or a Minor in Computer Science prepares students to effectively implement computer resources for organizations.

Required Courses for a Minor in Computer Science

CST-171 Programming Concepts (3)
CST-261 Web Page Design (3)
CST-295 C++ Programming (3)
CST-321 Java Programming (3)
MAT 211 Calculus I (4)
MAT 212 Calculus II (4) or MAT 110 Discrete Mathematics (3)

Corporate Communication (Major, Minor)

Communication Arts Department

Pamela O'Brien, Ph.D., *Coordinator*
Fran Mindel, Ph.D.
Britt Christensen

Degrees offered

Major
Minor

Campuses

Main Campus

The Corporate Communications Program of Study combines vital coursework from Business, Computer Studies, and Communication Arts into a coherent curriculum applicable to the smallest of entrepreneurial start-ups or to the largest of global corporations. The Program of Study stresses technological proficiency, organizational planning as well as strong writing, speaking, and critical thinking skills.

Summary

The Corporate Communication Program of Study in the School of Arts and Sciences offers a Major to students in the College of Adult Undergraduate Studies. Integrating courses in Business, Communication Arts and Computer Studies, the Major in corporate communication serves students whose primary interest is the communication function in organizations and prepares them to succeed in managerial positions in diverse types of organizations. Using their expertise in technology, graduates of this program are able to communicate effectively through organizational channels and to exercise leadership in helping organizations achieve desired strategic goals.

Organizations and their managers face many challenges in a world changing at an ever-increasing pace. Effective, timely, and accurate communication networks, communication processes, and

information management are critical strategic imperatives for every organization. The Internet, global markets, and 24/7 competition place increased importance on the manager's role in communication and information management in every organization, from the largest corporations, to the entrepreneurial start-up, to the government agency, to the university or to the non-profit sector.

The Major enables students to meet these challenges through an understanding of theoretical models and principles from the fields of Communication, Computer Studies, and Management. Students test the practical applications of their learning to current professional problems and concerns of the workplace. The Program emphasizes the design and implementation of communication and information management plans with an emphasis on managerial roles and responsibilities. Proficiency in the application of technology to organizational planning and operations is stressed, as well as strengthening student writing, speaking, and critical thinking skills.

The educational goals of the Corporate Communication Major are as follows:

- Provide a multidisciplinary curriculum based in the liberal arts,
- Prepare students for the complexities of managing communication and information technology in today's organizations,
- Present a unique and diversified curriculum that will prepare students for professional positions and provide current professionals with opportunities for career advancement, and,
- Expose students to the ethical standards required in the management and communication of information

The curriculum supports students who aspire to management roles in diverse organizational areas, such as communication, information technology, entrepreneurship and administration. This degree program has direct linkages to positions in training and development, public administration, business, customer services, institutional administration, education, sales, marketing, consulting, operations, information technology and strategic planning.

Some of the Corporate Communication courses are online.

A Minor in Corporate Communication is available by completing two courses listed in each area: business, communication arts and computer studies.

Students must earn a minimum grade of C in all courses taken to complete the requirements of the Major.

Program of Study

The Corporate Communication Major requires 39 credits (13 three-credit courses).

Course descriptions may be found in their respective discipline listings.

Required Courses for the Major in Corporate Communication

COM-206 Speaking in Professional Settings (Fulfills the general education requirement in oral communication.)
COM-313 Digital Media Skills
COM-401 Writing for the Web
COM-403 Organizational Communication
COM-430 Strategic Communication
CST-260 Web Animation
CST-261 Web Page Design
CST-355 Project Management [Prerequisite: CST-261]
CST-356 Internet/Intranet Information Management
BUS-302 Principles of Management
BUS-303 Principles of Marketing
BUS-310 Professional Communications [Prerequisite: ENG-101 or permission of instructor]
BUS-334 Teamwork and Negotiation

Courses

BUS-302 Principles of Management

Examines organizational, human resources, operational, and functional aspects of ethically managing activities of diverse workforces in organizational settings. Analyzes traditional managerial functions of planning, organizing, leading, and controlling within the context of changing demands in organizations that compete effectively in an inter-connected, global environment. [3 credits]

BUS-303 Principles of Marketing

This course introduces the language of marketing the strategic marketing process. While formulating viable marketing strategies for diverse business situations, learners will gain experience gathering and analyzing industry and market data, as well as implementing core-marketing concepts such as market segmentation, targeting, positioning, and the marketing mix in the formulation and implementation of real-world marketing strategies. This course culminates in the development of a marketing plan for a new product, service or retail establishment. [3 credits]

BUS-310 Professional Communications

Explores communications contexts within organizations and refines written and oral communications skill used in business and professional settings. Emphasizes appropriateness, effectiveness, and nuance while taking into consideration situation, audience, and delivery mode. Learners use common business communications tools and technologies as well as social media. Prerequisite: ENG-101 or IDS-100 (honors section). [3 credits]

BUS-334 Teamwork and Negotiation

Analyzes the dynamics, structure and function of teams in businesses and other organizations. Examines the framework and components of conflict resolution and negotiation in both organizational and personal situations. Learners will assess and strengthen key interpersonal skills. This course utilizes role active learning pedagogy extensively including role plays, small group exercises, and simulations. [3 credits]

COM-206 Speaking in Professional Settings Speaking in Professional Settings

Explores the art of public communication and persuasion, content and delivery, through composition and delivery of a variety of speeches. Particular attention is given to the expectations of the workplace. Recommended in first year or second year. Fulfills the general education requirement in oral communication. [3 credits]

COM-313 Digital Media Skills

Provides hands-on experience in the use of digital and social media in professional contexts in the communication fields. Students will complete a number of projects applicable to professional situations that will enhance the job-search portfolio. [3 credits]

COM-401 Writing for the Web

Explores techniques for making the transition from writing for traditional mass media to writing for online media. Teaches students to use online resources and produce online messages and "articles" of various types. Provides opportunities to develop materials for the professional portfolio. [3 credits]

COM-403 Organizational Communication

Studies communication systems, structure, problems and solutions within complex organizations, such as business corporations, governmental agencies, hospitals and schools. Students develop practical plans to improve communication within organizations. [3 credits]

COM-430 Strategic Communication

Serves as the capstone course for the corporate communications program; requires students to apply their knowledge from the program's core subjects in the analysis of communication, technology, and business problems reflected in case studies of specific organizations. [3 credits]

CST-261 Web Page Design

Focuses on coding and design of Web pages using HTML and JavaScript to create high-level Internet content. Includes legal and ethical issues as well as human-computer interaction design concepts. Students demonstrate the progression of their skills through the successful completion of a number of practical projects. Satisfies the technological competency requirement. [3 credits]

CST-355 Project Management

Investigates project management as it applies to the systems development life cycle with an electronic project management tool. Emphasizes resource allocation and sub-project definition. Students will apply theory and principles learned to solutions for practical business problems. Prerequisite: CST-171 or CST-261. [3 credits]

CST-356 Internet Communication

Examines the advantages and challenges of the Internet for businesses communication. The uses of social media as business tools will be explored. [3 credits]

2018-2019

Criminology (Major, Minor)

Criminology Department

Maria Mouratidis, Ph.D., Chair
Ashley Fundack, Ph.D.
Catherine Sacarellos, M.S.

Degrees offered

Major
Minor

Campuses

Main Campus

Criminology majors participate in a practicum or field experience with a criminal justice related agency that gives the student an opportunity to combine the theory and the practice of criminology and criminal justice. The field experience is a capstone course that includes seminars directed by a faculty member.

Summary

The Criminology Program of Study in the College of Arts, Sciences, and Business offers a Major and Minor in Criminology to students in the Women's College and the College of Adult Undergraduate Studies. The Program provides students an opportunity to pursue studies leading to graduate school or a career in the administration of justice. The Program is structured around the study of both crime and deviance to ground students with an understanding of criminal behavior and the official reactions to such behavior. To analyze criminal behavior and its motivation, the Program draws on social science disciplines including Sociology and Psychology as well as applied field experiences. Criminology majors gain the skills and breadth of knowledge that enable them to explain a wide range of criminal behavior. Criminology as a discipline is broader than the study of criminal justice, which

focuses on understanding government responses to crime from a rational choice perspective.

A student majoring in Criminology participates in a practicum or field experience with a criminal justice or social service agency that gives the student an opportunity to combine the theory and the practice of criminology and criminal justice. The field experience is a capstone course that includes a series of seminars directed by a faculty member designed to help students integrate the field experience with their classroom learning, as well as to prepare students for successful careers upon graduation.

The Criminology and Social Deviance Program also offers a Minor in Criminology. The Criminology Minor provides students a basic understanding of criminal behavior and the criminal justice response in the context of today's society. With this Minor, graduates will be prepared to succeed in an occupation involving interaction with people, including policy making, community action, social research and social services.

Students with a 3.2 grade point average overall and a 3.2 grade point average in their major courses may become active members of *Alpha Phi Sigma*, the national honor society in criminal justice.

Criminology courses that fulfill the General Education Requirement in Gender Studies: CRM-325.

All courses credited toward the Criminology Major or Minor must be completed with a grade of C or higher.

Programs of Study

Required Courses for a Major in Criminology and Social Deviance (Credits)

SOC-101 Introductory Sociology (3)
CRM-101 Introduction to Criminology (3)
SOC-209 Race, Class and Gender (3)
CRM-360 Research Methods and Crime Analysis (4)
CRM-203 Theories of Crime and Social Deviance (3)
CRM-461 Practicum (4)

One course from the following:

SOC-411 Advanced Topics (3)
SOC-463 Independent Research (3)

Six courses from the following, at least 3 at the 300 level:

CRM-130 Criminology at the Movies (3)
CRM-205 Policing and Society (3)
CRM-220 Criminal Law and Procedure (3)

CRM-230 Terrorism & Homeland Security (3)
CRM-240 Corrections in America (3)
CRM-310 The Criminal Justice System (3)
CRM-311 Special Topics in Criminology (3)
CRM-320 Juvenile Delinquency (3)
CRM-325 Violence Against Women (3)
SOC-222 Social Problems or SOC-371 Honors: Social Problems (3)
SOC-301 Social Justice (3)
SOC-340 Deviance and Social Control (3)

Required Courses for a Minor in Criminology

SOC-101 Introductory Sociology (3)
CRM-101 Introduction to Criminology (3)
CRM-360 Research Methods and Crime Analysis (4)
CRM-203 Theories of Crime and Social Deviance (3)

Two courses from the following:

CRM-130 Criminology at the Movies (3)
SOC-222 Social Problems or SOC-371 Honors: Social Problems (3)
CRM-230 Terrorism & Homeland Security (3)
CRM-240 Corrections in America (3)
SOC-301 Social Justice (3)
CRM-310 The Criminal Justice System (3)
CRM-311 Topics in Criminology (3)
CRM-320 Juvenile Delinquency (3)
SOC-315 Sociology of Law (3)
SOC-340 Deviance and Social Control (3)

Senior Experience: (choose one)

SOC-411 Advanced Topics (3)
CRM-461 Practicum I (4)
SOC-463 Independent Research (3)

Four-Year Plan

Below is a sample Program of Study for full-time Criminology majors. Students should consult with the Program Coordinator for their academic plans as many courses are offered on alternating years.

FALL		SPRING	
First year			
ENG 101 College Writing	4	SOC-101 Introduction to Sociology	3
CRM-101 Introduction to Criminology	3	MAT-215 Basic Statistics	3
IDS-100 Perspectives on Education	3	General Education/Electives	9
General Education/Electives	6	[15 credits]	
[16 credits]			
Second year			
CRM-203 Theories of Crime	3	CRM-360 Research Methods	4
SOC-209 Race, Class, Gender	3	Criminology Elective	3
General Education/Electives	9	General Education/Electives	9
[15 credits]		[16 credits]	
Third year			
Criminology electives	6	Criminology electives	6
General Education/Electives	9	General Education/Electives	9
[15 credits]		[15 credits]	
Fourth year			
CRM-461 Practicum	4	Departmental Senior Elective	3
General Education/Electives	6	General Education/Electives	9
Criminology elective	3	[12 credits]	
[13 credits]			

Courses

CRM-101 Introduction to Criminology

Provides an examination of the nature, causes and social significance of crime. Emphasizes the major explanations of criminal behavior and typologies of crime and examines crime and crime prevention strategies as they relate to theory, policy and practice. Serves as a gateway course for students interested in the field of criminology. Fulfills general education requirement in social science. [3 credits]

CRM-105 Applied Defensive Techniques in Criminology

Introduces the principles and practices employed by law enforcement personnel for the purpose of self defense in the field. Provides a holistic approach to the control of subjects through both classroom instruction and the practice and performance of the necessary physical skills. Emphasis is placed on the social context of violence as well as the personal, psychological, and physical control of aggression. [3 credits]

CRM-130 Criminology At the Movies

Explores the impact of criminological themes and theories on popular movies. Consists of an intensive, didactic experience that introduces the student to related criminological research and applications. [3 credits]

CRM-203 Theories of Crime and Social Deviance

Examines major paradigms, models and theories of criminology. Students critically review explanations of criminal behavior and analyze past, current and future trends in criminal activity. Theories in deviance and criminology from multidisciplinary perspectives provide a foundation for discussion. Prerequisite: CRM-101. [3 credits]

CRM-205 Policing and Society

Focuses on the history, structure, role, and function of policing in American society. Types of policing and police-community relations will be explored. Students will examine the functions of policing including patrol, order maintenance, investigation and community policing. A number of contemporary police problems will be presented including corruption, discretion, deadly force and minority relations. Course will include an exploration of cross-national comparisons. Prerequisite: CRM-101 or SOC-101. [3 credits]

CRM-230 Terrorism and Homeland Security

Examines terrorism with a focus on the contemporary societal experience, although historical perspectives will provide context as well. Differentiating characteristics of domestic and international terror groups will be identified. Legal implications of anti-terrorist measures and homeland security

enforcement will be reviewed. Prerequisite: CRM-101. [3 credits]

CRM-240 Corrections in America

This course provides an examination into corrections in America. We will differentiate the purpose and operation of jails versus prisons. Additionally, we will look at the use of non-custodial corrections alternatives such as community service, probation and parole. In this course, the history of corrections as well as contemporary issues in corrections will be examined. [3 credits]

CRM-303 Theories of Crime and Social Deviance

Examines major paradigms, models and theories of criminology. Students critically review explanations of criminal behavior and analyze past, current and future trends in criminal activity. Theories in deviance and criminology from multidisciplinary perspectives provide a foundation for discussion. Prerequisite: CRM-107. [3 credits]

CRM-310 The Criminal Justice System

Examines the American criminal justice system. Introduces students to the workings of police, courts and corrections in American society, and how each functions as a mechanism of social control. Explores local, state and federal agencies as individual components of the comprehensive and interrelated system of justice. Prerequisites: CRM-101; PSY-210 or CRM-360. [3 credits]

CRM-311 Topics in Criminology

Uses empirical evidence to provide a contemporary approach to analyzing and evaluating crime and social deviance through a critical theoretical framework or uses empirical evidence to provide a contemporary approach to examining specific areas within criminology. Topics will vary. May be repeated with different topics for a maximum of 6 credits. Prerequisites: SOC-101 and CRM-101. [3 credits]

CRM-315 Victims of Crime

Examines the impact of crime on its victims, including identification of victim types, victim compensation and reduction of victimization. The course focuses on the relationship of criminology and the criminal justice system to victims themselves. Prerequisite: CRM-101. [3 credits]

CRM-320 Juvenile Delinquency

Examines delinquency as a form of socially deviant or criminal behavior engaged in by minors. Topics include definitions of delinquency, long- and short-term trends, explanations of delinquent behavior, drug use, gangs and school violence. Possible interventions, treatment and prevention strategies are also addressed. Prerequisite: SOC-101; PSY-210 or CRM-360. [3 credits]

CRM-325 Violence Against Women

Examines violence against women through a wide range of socially institutionalized and individually perpetuated political, social, economic and physical frameworks. Violence against women takes place within socially constructed race-ethnicity, gender, sexual preference, and class specificities, as well as socio-historical contexts. The course examines how race, ethnicity, class, gender, sexual orientation, and socio-historical constraints and shifts perpetuate systems of domination and oppression. It looks at ways in which these forces shape how women experience economic, social, sexual, class and gender domination and exploitation. Prerequisite: CRM-101 or SOC-101. Fulfills the general education requirement in gender studies. [3 credits]

CRM-360 Research Methods and Crime Analysis

Provides framework for the critical and empirical analysis of social science data relating to crime and social deviance, including experimental and quasi-experimental research design, crime analysis, ethical issues, quantitative and qualitative statistical methods and scientific report writing. Students learn how to use the statistical package for the social sciences and compute descriptive, inferential statistics and multivariate analysis. This course instructs students on the relationship between theory and scholarly inquiry, the nature of causation, and how to formulate and test hypotheses using a variety of empirical methods. Students learn a range of research approaches including surveys, experiments, field work, case studies and unobtrusive measures typically employed in the criminology and criminal justice fields. Students develop a research question and appropriate research methodology, empirically evaluate a hypothesis and write a research report. Prerequisites: MAT-215; and either CRM-101, PSY-101, or SOC-101. [4 credits]

CRM-360L Lab: Research Methods

Lab associated with CRM 360 Research Methods and Crime Analysis.

CRM-411 Topics in Criminology

Provides a context for understanding the broad focus of the discipline of criminology. As an upper-level course in the criminology major, reviews key criminological writings from an advanced, informed perspective. The student uses these scholarly resources to develop a paper that synthesizes her particular knowledge of criminological theory, research and applications. Students also develop their abilities to analyze their personal experiences from a sociological perspective and explore options for continued study or employment related to their sociological training. Topics will vary, though recent topics have included: Corporate Crime, Violence Against Women, Social Inequality in the Criminal Justice System, and Policing. Prerequisites: PSY-210, CRM-203 or SOC-350, and junior/senior status. [3 credits]

CRM-461 Criminology Practicum I

Integrates field experience with an academic seminar. Students are required to find a placement (internship) in social service, criminal justice or social action agencies consistent with their abilities and interests. This placement must be approved by the student's advisor and practicum coordinator prior to beginning the course. Prerequisites: PSY-210 or CRM-360, and conference with the coordinator. Limited to majors of at least junior status. Not open to liberal arts majors. [4 credits]

CRM-463 Independent Study in Criminology

Provides a student with an opportunity to pursue a scholarly project under the direction of a faculty member. Work may include directed readings, literature review, clinical study, or data collection and analysis. Prerequisites: PSY-210 or CRM-360 and acceptance for supervision by a department faculty member. [3 credits]

SOC-101 Introductory Sociology

Uses the sociological imagination to help explain what sociology is and how it is relevant to everyday life. Examines culture, social structure, socialization, social institutions, social inequality and social change. Topics include gender roles, deviance and social control, class, race and ethnic inequality, family, and work. Serves as a foundation course for students interested in the field of sociology and criminology. Fulfills general education requirement in social science. [3 credits]

SOC-202 Sociology of the Family

Examines the historical development and transformation of the American family. Explores marriage and alternatives to traditional arrangements. Students will analyze issues relating to parenting, divorce, remarriage and grandparenting, paying special attention to class and race, as well as ethnicity, gender differences and sexual orientation. Fulfills general education requirement in social science. Prerequisite: SOC-101 or permission of instructor. [3 credits]

SOC-209 Race, Class and Gender

Explores the intersecting systems of inequality, race, ethnicity, social class and gender. Examines the construction of identity categorizations and links them to our current experiences and conceptions of self. Covers the nature of privilege and its reproduction in social institutions such as the workplace, education, and the criminal justice system. Fulfills general education requirements in social science and cross-cultural studies. Prerequisite: SOC-101 or permission of instructor. [3 credits]

SOC-215 Gender Roles

Addresses the social construction of gender roles. Demonstrates patterns of inequality and power

relations through historical and cross-cultural data. Explains concepts such as sexism, gender socialization, and gendered institutions. Examines the consequences of division of labor in marital relations, the family and the workplace. Fulfills general education requirement in social science and gender roles. Prerequisite: SOC-101 or permission. [3 credits]

SOC-222 Social Problems

Examines how social conditions come to be defined as social problems. Surveys the causes of, theoretical explanations for, and possible interventions to resolve social problems. Provides students with opportunities to analyze in-depth such social concerns as substance abuse, family violence, environmental issues, discrimination, crime and terrorism. Fulfills general education requirement in social science. Prerequisite: SOC-101 or permission. [3 credits]

SOC-250 Sociology of Sport

Examines sport as a social phenomenon. Particular attention is given to comparing and contrasting cultural variances in sport. The course uses sports to study social shifts, the politics of inequality, and power structures across cultures. Topics include community identity as defined by the culture of sport; the construction of morality through sport; politics and sport; the role of gender and sexuality in sport; and the role of sport in economic development. Fulfills general education cross-cultural requirement. Crosslisted with PED-250. Prerequisite: SOC-101. [3 credits]

SOC-271 Honors: Sociology of Gender Roles

An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender. Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in social science and gender studies. [3 credits]

SOC-301 Social Justice

Overviews social injustice in American society and in American social institutions. Addresses issues of prejudice, racism and sexism, as well as discrimination based on sexual orientation, religious preference and disability. Provides students with opportunities to evaluate problem-solving procedures for social service agencies and the community at large. Prerequisite: SOC-101, PSY-210, CRM-101 or SOC-222. [3 credits]

SOC-315 Sociology of Law

Studies criminal law from a sociological perspec-tive with an emphasis on the United States Constitution. Examines the impact of the social usages of law as an instrument of social policy, social

control and social regulation. Prepares students to interact professionally with the legal system. Prerequisites: PSY-210, SOC-101 or CRM-101. [3 credits]

SOC-340 Deviance and Social Control

Examines how we come to define attitudes, behavior, and characteristics as "normal" or "deviant" in society. Explores the construction of categories of difference with an eye toward the idea that labeling people or ideas as deviant is often a way to maintain the status quo. Addresses "deviant" behavior as an agent of social change as well as a source of social stability. Applies various sociological paradigms to such topics as social movements, crime and delinquency, and mental illness. Prerequisite: PSY-210, SOC-101 or CRM-101. [3 credits]

SOC-350 Sociological Theory

Provides an overview of the theoretical foundations of the discipline. First exposes students to the works of Karl Marx, Emile Durkheim and Max Weber-the "fathers" of sociology-and then provides current theoretical considerations. Analyzes various sociological perspectives in explaining social phenomena, such as structural functionalism, conflict theory, symbolic interaction, and feminist sociology. Explores every day applications of sociological paradigms. Prerequisites: SOC-101. [3 credits]

SOC-360 Sociology of Work

Analyzes social relations in the workplace as well as the dynamics of the labor market. Identifies the units of analysis in the study of work and changes to each in U.S. industrial shifts. The demographics of the labor market are analyzed in the context of the Great Migration, the dual labor market, control systems, flexible firms, occupational sex segregation, and globalization. Public policies that influence work relations such as the National Labor Relations Act and the Civil Rights Act are couched in labor market dynamics. Interpersonal dimensions of work are also addressed including the negotiation between family, intergenerational mobility and work and job satisfaction. Prerequisites: SOC-101 and PSY-210 or CRM-360. [3 credits]

SOC-371 Honors: Social Problems

Considers how social conditions come to be defined as social problems. Reviews causes and theoretical explanations for their origins and possible interventions to resolve social problems. Topics include substance abuse, family violence, environmental issues, discrimination, crime and terrorism. Prerequisite: Morrissy scholar or permission. [3 credits]

SOC-390 Sociology of Education

Provides an overview of sociological theories and research about education in modern societies.

Education is analyzed as a social institution that both challenges and reflects social stratification and institutionalized racism. The course addresses the reciprocal relationship between education and other social institutions such as family and the economy. The course considers education at a variety of levels, from preschool to university and its influence on human capital accumulation. Prerequisites: SOC-101 and PSY-210 pt CRM-360. [3 credits]

SOC-411 Advanced Topics

Provides a context for understanding the broad focus of the discipline of criminology. As an upper-level course in the criminology major, reviews key sociological and criminological writings from an advanced, informed perspective. The student uses these scholarly resources to develop a paper that synthesizes her particular knowledge of criminological theory, research and applications. Students also develop their abilities to analyze their personal experiences from a sociological perspective and explore options for continued study or employment related to their sociological training. Topics will vary, though recent topics have included: Corporate Crime, Violence Against Women, Social Inequality in the Criminal Justice System, and Policing. Prerequisites: PSY-210, CRM-203 or SOC-350, and junior/senior status. [3 credits]

SOC-463 Independent Research/Independent Study

Provides a student with an opportunity to pursue a scholarly project under the direction of a faculty member. Work may include directed readings, literature review, clinical study, or data collection and analysis. Prerequisites: PSY-210, PSY-340 or CRM-360 and acceptance for supervision by a department faculty member. [3 credits]

Digital Media Arts (Major, Minor)

Communication Arts Department

Pamela O'Brien, Ph.D.,*Chair*
Debra Minick Franklin, Ph.D.
Britt Christensen, Ph.D.
Fran Mindel, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Digital Media Arts Program of Study in the College of Arts, Sciences, and Business offers a Major and Minor to students in the Women's College. The Program provides a solid foundation in technology, a rich creative background in the arts and the communication skills necessary to convey ideas in the digital realm.

Summary

The curriculum of the Major is interdisciplinary, including courses in Art, Computer Studies, and Communication Arts. As the arts, the world of media and the business environment are increasingly dependent on digital communication competencies - the Digital Media Arts Program of Study will prepare students for positions with these employers.

The graduate in Digital Media Arts will be able to: create effective visual communications strategies that could assist individuals and businesses, use technology to address visual communication challenges, analyze the historical impact design and visual communications have had on our culture, evaluate the moral and ethical issues related to visual media, art, and technology, apply formal design principles to solve visual communication problems, and work effectively as an individual and as a

member of a creative team.

Students are strongly encouraged to complete PHL-320 Aesthetics or PHL-334 Business Ethics to complement their Program of Study and meet General Education Requirements.

Students will complete much of their work in the department's digital media lab, equipped with Macintosh computers and Adobe Creative Cloud. The campus video, art and photography studios also support instruction in this Program.

As the culminating experience in the Major, students complete a practicum in the form of an intensive, advanced internship. During the spring of their senior year, they are placed in an entry-level position in an area business in order to refine their professional competencies as they prepare to begin their careers.

Students must earn a minimum GPA of 3.0 in all Major courses taken to fulfill the requirements of the Digital Media Arts Major. ART 101 and ART 102 should be completed as early as possible in the student's Program of Study, ideally concurrent with DMA-101.

Required Courses for a Major in Digital Media Arts (33–42 Credits)

Visual Core (15 credits)

DMA-101 Graphic Design I (3)
ART-101 Drawing 1 (3)
ART-102 Color and Design (3)
ART-162 Digital Photography (3)
DMA-201 Time-Based Media (3)

Media Studies (6 credits)

COM-210 Social Media (3)
COM-310 Media Literacy (3)

Web and Animation (9 credits)

CST-261 Web Page Design (3)
CST-260 Web Animation (3)
DMA-360 Animation and Motion Graphics (3)

Digital Media Practicum (3 credits)

DMA-461 Digital Media Practicum (3)

Approved Electives

ART-321 Life Drawing (3)
ART-419 Digital Photography II (3)
COM-351 Art of the Film (3)
COM-401 Writing for the Web (3)
CST-295 C++: Object-Oriented Programming (3)
CST-321 JAVA Programming (3)
DMA-253 Graphic Design: Theory and Practice (3)
DMA-351 Graphic Design II (3)
DMA-375 Typography (3)
DMA-411 Topics in Digital Media (3)

Emphasis in Graphic Design

Students who wish to emphasize in graphic design within the Digital Media Arts Major complete the following three courses in place of the electives above.

DMA-253 Graphic Design: Theory and Practice (3)
DMA-351 Graphic Design II (3)
DMA-375 Typography (3)

Minor in Digital Media Arts

Students may declare a Minor in Digital Media Arts by competing 18 credits as follows:

DMA-101 Graphic Design I
DMA-201 Time-Based Media
DMA-360-Animation and Motion Graphics

Three additional courses (9 credits), one in Art, one in Computer Studies and one in Communication Arts, chosen from the approved list of program courses in consultation with the coordinator.

Four-Year Plan

Below is a sample Program of Study for the Digital Media Arts Major. Students should select courses with the assistance of a faculty advisor. This listing is intended as guide only.

First year

NDMU-100 First Year Seminar	3	Foreign Language	3
ENG-101	3	Literature	3

Foreign Language	3	COM-101 Oral Communication	3
ART-101 Drawing 1	3	ART-102 Color and Design	3
DMA-101 Graphic Design I	3	History	3
[15 credits]		[15 credits]	
Second year			
Foreign Language	3	PHL-200-level	3
MAT-110 Discrete Mathematics	3	Social Science	3
RST-201 Intro to Biblical Studies	3	COM-310 Media Literacy	3
ART-162 Digital Photography	3	CST-260 Web Animation	3
DMA-201 Time-Based Media	3	DMA-253 GD Theory	3
[15 credits]		[15 credits]	
Third year			
PHL-300/400-level	3	Religious Studies 300/400	3
Natural Science	4	General Electives/Minor	3
DMA-351: Graphic Design II	3	DMA-375 Typography	3
COM-210 Social Media	3	Major Elective	3
CST-261 Web Page Design	3	DMA-360 Motion Graphics	3
[16 credits]		[15 credits]	
Fourth year			
Physical Education	1	4 General Electives/Minor	9
4 General Electives/Minor	12	DMA-461 Practicum	3

[13 credits]	[12 credits]

Courses

DMA-101 Graphic Design I

Explores graphic communication through understand-ing the elements and principles of design, as well as the design process, from idea development through final execution. Emphasizes two-dimensional design, color and content creation, while employing the design process of research, sketching and experimentation. [3 credits]

DMA-201 Time-Based Media

Provides experience in the fundamentals of time-based design. Students will create projects that deal with narrative elements, composition, motion, variables and type. Storyboard project planning and software animation will be covered. [3 credits]

DMA-253 Graphic Design, Theory and Practice

Offers an introduction to the theories and practices of graphic design. Provides a historical analysis of visual communication with emphasis on the development of the profession of graphic design and the relationship of commerce and technology to the history of graphic design. Formerly ART-253. [3 credits]

DMA-351 Graphic Design II

Advances computerized graphic design skills with an emphasis on Adobe InDesign. Students learn software-specific skills needed for full color graphic arts and pre-press production. Clear and precise visual communication, problem solving and presentation are stressed. Focus on portfolio development. Formerly ART-351. [3 credits]

DMA-360 Animation and Motion Graphics

Engages students in a more intensive investigation of animation through the analysis of motion and transformation with photograph, video, illustration, and animation in traditional and digital media, with a focus on Adobe After Effects. Students learn how images and type are choreographed to produce attractive and dynamic motion graphics. Prerequisite: DMA-201. [3 credits]

DMA-375 Typography

Investigates problem-solving strategies concerned with the selection, organization and presentation of

text. Students will enhance digital typesetting skills to effectively present information in print and motion applications. Topics include origins of the alphabet, typeface classifications, abstract communication with letterforms and design with text. Formerly ART-375. Prerequisite: DMA-101 or permission. [3 credits]

DMA-401 Computer Animation

Engages students in an intensive investigation of animation through the analysis of motion in traditional and digital media. Students apply skills to various anatomical problems to find modeling and rigging solutions for character motion. Major emphasis is placed on proper identification of controls for the end user. [3 credits]

DMA-411 Topics in Digital Media

Surveys current topics of interest within the field of graphic design, video, animation, web and social media. Projects in typography, book design, motion, digital imaging and a variety of other methods will be addressed in different sessions to complete the course portfolio. May be taken more than once on different topics. Prerequisite: will differ depending on topic. [3 credits]

DMA-461 Digital Media Practicum

Structures a professional-level internship that places students in an entry-level position at a high-tech company in the Greater Baltimore area. Students will work under close supervision of faculty and the agency sponsor with the intention of gaining in-depth experience in the field. [3 credits]

2018-2019

Economics (Minor)

Business and Economics Department

Deborah Calhoun, M.B.A., Ph.D, *Chair*
Ademar Bechtold, Ph.D.
Charles E. Yoe, Ph.D, *Coordinator*

Degrees offered

Minor

Campuses

Main Campus

The Business and Economics Department of the College of Arts, Sciences, and Business offers a Minor in Economics to students in the Women's College. Economics is the study of the way individuals and societies choose to use scarce resources in both the private and public sectors. Economic concepts are applied to nearly every aspect of human activity from ensuring food safety; supporting transportation systems and health care services; shaping international trade policy, government monetary and fiscal policy; and evaluating political, social, environmental and other issues. As an indication of the importance of economics, it is the only social science for which a Nobel Prize is awarded.

Summary

Women's College and College of Adult Undergraduate Studies

Economists use their knowledge and skills to advise business firms, banks, and other financial institutions, government agencies, international organizations, environmental organizations, special interest groups, and others. The overarching goal of the Economics Program of Study is to enable students to "think like an economist." Thinking like an economist requires problem-solving skills and creative thinking.

Economics graduates from Notre Dame have used their education and internship experiences as avenues to careers in local, state and federal government agencies, as well as in the private sector. Many also have used their classroom and practical experiences as stepping-stones to advanced degrees in economics, law, business and a variety of other fields. Our graduates are employed by organizations such as Motorola, Inc., Legg Mason, and the Federal Reserve Bank. Several own their own companies. Students have earned graduate degrees at institutions such as Johns Hopkins University, Virginia Polytechnic University, Georgetown University, the University of New York, and the University of Brussels, Belgium.

The following Economics courses satisfy the General Education Requirement in Social Sciences: ECO-211, ECO-212 and ECO-220.

ECO-404 fulfills the General Education Requirement in Cross-cultural Studies.

Economics Minors must have a minimum grade of C in all courses to satisfy the Minor.

Required Courses for the Minor in Economics

ECO-211 Introduction to Macroeconomics (3)
ECO-212 Introduction to Microeconomics (3)
ECO-311 Applied Macroeconomics or ECO411 Topics in Economics or ECO463 Independent Study in Economics (3)
ECO-402 Money and Banking (3)
ECO-404 International Economics (3)
ECO-440 Economics of the Environment and Natural Resources **or** ECO-330 Honors: Food Safety Risk Analysis (3)

Courses

ECO-211 Introduction to Macroeconomics

Focuses on the United States economy and its relations with the world. Examines how interactions among consumers, businesses, government and the rest of the world impact economic growth, inflation, unemployment and business cycles. Investigates the impact of monetary and fiscal policies on the overall performance of the economy. Fulfills general education requirement in social science. [3 credits]

ECO-212 Introduction to Microeconomics

Examines the manner in which prices are determined and limited resources are allocated efficiently through mastery of basic supply and demand. Considers the behavior of producers and consumers under various competitive conditions. Assesses the role of government in responding to market failures. Fulfills general education requirement in social science. [3 credits]

ECO-220 Honors: Economics and Contemporary Issues

Applies economic principles and methodologies to the decision-making process of individuals, businesses and governments. Evaluates current political, social and economic events using basic economic theories and principles. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

ECO-311 Applied Macroeconomics

Examines data related to economic, finance and international indicators. Applies macroeconomic theory to assess the current state of the economy and to forecast economic activities in the near future. Evaluates current economic policies in light of the economic forecast. Prerequisite: ECO-211. [3 credits]

ECO-330 Honors: Food Safety Risk Analysis

Analyzes the extent and significance of food-borne diseases in the United States and around the world. Examines the most important hazards to food safety, including food additives and pesticides, microbial hazards, irradiation, and food defense as well as science-based solutions to their management. Considers the interdisciplinary risk analysis paradigm as a modern approach to food safety systems in considerable detail. Prerequisite: Morrissy scholar or permission. [3 credits]

ECO-342 Introduction to Public Finance

Analyzes the role of local, state and federal government in meeting the demands of the public through examination of government's expenditure and taxing policies. Examines the theory of public goods, public expenditures, taxation, public choice, fiscal federalism, budgeting and benefit-cost analysis along with their application in public policy. Prerequisite: ECO-211 or ECO-212. [3 credits]

ECO-348 Economic Theory of Management

ECO-402 Money and Banking

Examines the interactions between the United States financial system and the wider economy. Studies current developments in monetary policy and financial markets and explores the impact of

money on the productive sector of the economy. Analyzes current economic, financial and international issues and tracks a variety of economic indicators to predict the actions of the Federal Reserve. Prerequisite: ECO-211 or permission of instructor. [3 credits]

ECO-404 International Economics

Examines international trade theory, international trade policy and international finance from multi-country and multicultural perspectives. Applies economic models to explain the benefits from trade and its effect on the distribution of income among different groups within a country. Studies the impact of protectionist policies on the standard of living of both importing and exporting countries. Describes the balance of payments and develops models of exchange rates. Investigates international capital and finance issues in light of the current economy. Fulfills eneral education requirement in cross cultural studies. Prerequisite: ECO-211 or ECO-212. [3 credits]

ECO-411 Topics in Economics

Provides opportunities to pursue special topics of current interest in the field of economics. [3 credits]

ECO-463 Independent Study in Economics

Provides opportunities for a student to study a topic of special interest in economics under the guidance of a faculty member. [3 credits]

ECO-550 Managerial Economics

Introduces economic methodologies to managerial decisions. Examines consumer demand, production costs, and output/price combinations that maximize firms' goals under different market structures. Applies basic math and statistics tools to evaluate business choices. All statistics and mathematics used in the class are explained in basic terms at the point of first usage. [3 credits]

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Engineering (Dual Degree)

Math, Computer Studies, and Physics Department

Brian Christy, Ph.D., *Program Coordinator, Mathematics, Physics and Computer Studies Department*

Degrees offered

Dual-Degree

Campuses

Main Campus

The College of Arts, Sciences, and Business has established a dual-degree program enabling qualified Women's College students to earn both a Bachelor of Arts degree from Notre Dame and a Bachelor of Science degree from either the G.W.C. Whiting School of Engineering at The Johns Hopkins University or the Fu Foundation School of Engineering and Applied Science at Columbia University.

Summary

This integrated dual-degree program will enable the student to broaden her knowledge of the liberal arts and sciences and to develop her professional experience in a selected field of engineering.

Graduates of the Program have positions with organizations such as NASA/Goddard Space Flight Center, NASA/Marshall Space Flight Center, Lockheed Martin, U.S. Naval Research Laboratories, CSX Corporation, Whiting-Turner Contracting Company, the U.S. Nuclear Regulatory Commission, Baltimore Gas and Electric Corp., U.S. Army Aberdeen Test Center, and the Peace Corps.

Students in the Program will be admitted initially by Notre Dame where they will complete General Education Requirements and advanced work in a Major for the Bachelor of Arts degree, such as Chemistry, Computer Information Systems, Mathematics or Physics. Each student will then apply to Johns Hopkins or Columbia University; admission is competitive and is not guaranteed. If admitted, the student will spend an additional two years completing the requirements for a Bachelor of Science

degree in one of the following disciplines:

- **Biomedical Engineering** encompasses the application of engineering principles to medical and biological problems (available at Columbia University).
- **Chemical Engineering** relies upon the laws of chemistry, physics and mathematics to change the constitution of substances via chemical processes. Chemical engineers develop processes, design equipment, operate plants and guide applications, and work in the chemical, petroleum, metallurgy, plastics and pharmaceutical industries (The Johns Hopkins University or Columbia University).
- **Civil Engineering** reflects the breadth of the engineering disciplines in the planning and designing of the nation's buildings, bridges, transportation systems and environmental programs (The Johns Hopkins University or Columbia University).
- **Electrical and Computer Engineering** includes the fields of communications, control systems, electronics and digital systems (The Johns Hopkins University or Columbia University).
- **Materials Science and Engineering** is concerned with the characterization and manipulation of structure, properties, performance, processing and production of all materials (The Johns Hopkins University or Columbia University).
- **Mechanical Engineering** deals with the concerns of energy through useful mechanical devices (The Johns Hopkins Universityor Columbia University).

When the Bachelor of Science degree is awarded from the engineering school, the Bachelor of Arts degree from Notre Dame also will be granted.

Students with an interest in disciplines not represented in the above-itemized list or are interested in pursing the Field of Engineering at another institution should contact the Program Coordinator to determine the most appropriate instructional path to meet your educational interests.

Students with advanced standing, AP, CLEP, or articulated transfer credits are encouraged to contact the Program Coordinator to determine the most appropriate instructional path to meet your educational interests. Advanced or highly motivated students often complete NDMU requirements in less than 4 years. See below for a sample Program of Study.

Students who wish to pursue a dual degree will make preliminary application during their first year of study at Notre Dame. Because of its proximity to Notre Dame's campus, a student may complete select courses at Hopkins during her sophomore and junior years.

Transfer students planning to pursue the dual degree in Engineering should clearly indicate their desired participation on the Application.

Questions regarding eligibility for the Program should be directed to the Program Coordinator.

Programs of Study

Dual-Degree Programs in Physics and Civil, Computer, Electrical, or Mechanical Engineering

Dual-degree programs available in Physics and one of the following fields of engineering: Civil, Computer, Electrical, or Mechanical.

A student enrolled in this Program generally follows the Major requirements for Physics at Notre Dame through the junior year.

Required Courses

PHY-101 and 102 General Physics I, II (8)
PHY-201 Modern Physics (3)
PHY-316L Classical Mechanics (3)
MAT-211 , 212, 213 Calculus I, II, III (11)
MAT-214 Calculus of Vector Fields (1)
MAT-243 Linear Algebra (3)
MAT-315 Differential Equations (3)
CST-171 Programming Concepts (3) or CST-295 C++ Programming (3)
CHM-110, 111 General Chemistry I, II (8)
PHY-415L Quantum Physics I (3)
PHY-417L Electricity and Magnetism I (3)
ECO-212 Principles of Microeconomics (3)
PHY 463 Investigations in Physics (1-4)

Credit is earned for PHY 463 by completing one of the following:

- Internship
- Teaching Apprenticeship
- Research Experience

At least two other courses in either Physics, Mathematics, Computer Information Systems, or Engineering at the 300 level or higher (6)

Students interested in specific engineering fields should consult with the coordinator for additional course suggestions specific to their engineering field.

Dual-Degree Program in Chemistry and in Chemical or Materials Science and Engineering

A student enrolled in this Program follows the Major requirements for the Chemistry degree at Notre Dame through the junior year. Consult the department coordinator for Chemistry Program of Study

requirements. Students should indicate their interest to the Department Coordinator and declare a Major in Chemistry.

Please take note of cycling of advanced courses and consult the engineering institution for additional requirements.

Required Courses

CHM-110, 111 General Chemistry I and II (8)
CHM-210, 211 Organic Chemistry I and II (8)
CHM-301, 302 Physical Chemistry I and II (8)
CHM-303 Analytical Chemistry (4)
PHY-101, 102 General Physics I and II (8)
PHY-201 Modern Physics (3)
MAT-211 , 212 Calculus I and II (8)
MAT-315 Differential Equations (3)
ECO-212 Principles of Microeconomics (3)

Dual-Degree Program in Chemistry and in Biomedical Engineering

A student enrolled in this Program follows a modified version of the Major requirements for Chemistry at Notre Dame. Students should indicate their interest to the Department Coordinator and declare a Major in Chemistry.

Please take note of cycling of advanced courses and consult the engineering institution for additional requirements.

Required Courses

CHM-110, 111 General Chemistry I and II (8)
CHM-210, 211 Organic Chemistry I and II (8)
CHM-301, 302 Physical Chemistry I and II (8)
PHY-101, 102 General Physics I and II (8)
PHY-201 Modern Physics (3)
MAT-211 , 212 and 213 Calculus I, II and III (11)
MAT-243 Linear Algebra (3)
MAT-315 Differential Equations (3)
CST-171 Programming Concepts (3) or CST-295 C++ Programming (3)
ECO-212 Principles of Microeconomics (3)

Five-Year Plan

Below is a sample Program of Study for the dual-degree Physics/Engineering Major. Students should select courses with the assistance of a faculty advisor.

See course descriptions for a list of required courses and description of course and program options.

Fall		**Spring**	
First year			
PHY-101 General Physics I + Lab	4	PHY-102 General Physics II + Lab	4
MAT-211 Calculus I + Lab	4	MAT-212 Calculus II + Lab	4
General Education/Elective	3	MAT-243 Linear Algebra	3
ENG-101 College Writing	3	CST 171 Programming Concepts	3
NDMU-100 Perspectives in Education	4	General Education	3
[18 credits]		[17 credits]	
Second year			
PHY-201 Modern Physics	3	PH 316L Classical Mechanics*	3
General Education/Elective	3	MAT-315 Differential Equations or elective	3
MAT-213 Calculus III	3	MAT-214 Calculus of Vector Fields	3
CHM-110 General Chemistry I	4	General Education	8
ECO-212 Principles of Microeconomics	3	[18 credits]	
[17 credits]			
Third year			
PH 415L Quantum Mechanics I*	3	PHYL Elective*	3

PH 417L Electricity and Magnetism	3	General Chemistry II	3
General Education/Electives	12	General Education	9
[18 credits]		Inv in Physics	1 - 3
		[17 - 19 credits]	
Fourth and Fifth Year: Engineering School			
Courses to be determined by program and school chosen			

NOTES:

Students interested in specific engineering fields should consult with their Program Coordinator for course suggestions when choosing Physics, Mathematics, Computer Science or Engineering courses at the 300/400-level.

**Courses with a designation of "L" are taught at Loyola. Notre Dame students take the courses through the Cooperative Program. For more information, contact the Program Coordinator.*

Compressed semester courses (Winterim, Fall 1, Fall 2, Spring 1, Spring 2, and Maymester) should be reserved for General Education Requirements. Upper Division Courses should be taken during a standard 16-week term.

See individual Program sections for course descriptions.

Entrepreneurship (Minor)

Business and Economics Department

Deborah Calhoun, M.B.A., Ph.D. *Chair*
Ademar Bechtold, Ph.D.
Lawrence Beyer, C.F.A., M.B.A.
Heather Carpenter, Ph.D.
Elizabeth H. Jones, Ph.D.
Charles E. Yoe, Ph.D.

Degrees offered

Minor

Campuses

Main Campus

The Entrepreneurship Minor provides an introduction to both business entrepreneurship and "social entrepreneurship" for students from any major area of academic study. A Social Entrepreneur is someone who recognizes a social problem and uses entrepreneurial principles to organize, create, and manage a venture to promote social change.

Summary

The Entrepreneurship Minor provides students with an opportunity to develop a business plan for either a social or for-profit entrepreneurial organization that is appropriate for pursuing investors or grants. The Entrepreneurship Minor provides all students whose professional plans would benefit from entrepreneurial perspectives and skills a chance to develop their problem solving, negotiation, organizing, ambiguity and risk tolerance skills.

The Minor requires the completion of 7 courses (21 credits): BUS-302 Principles of Management,

BUS-303 Principles of Marketing, BUS-416 Managing Financial Resources, BUS-401 Entrepreneurship I, BUS-402 Entrepreneurship II, plus two elective courses offered by several departments on campus and chosen and approved in consultation with the Chair of the Business and Economics Department. Business majors do not take BUS-416. No more than three courses from the student's Major may be applied to the completion of the Entrepreneurship Minor.

Curriculum

Required Courses

BUS-302 Principles of Management
BUS-303 Principles of Marketing
BUS-416 Managing Financial Resources
BUS-401 Entrepreneurship I
BUS-402 Entrepreneurship II

Elective Courses

Choose two approved elective courses offered by several departments on campus in consultation with the Chair of the Business and Economics Department.

Note: Business Majors do not take BUS-416. No more than three courses from the student's Major may be applied to the completion of the Entrepreneurship Minor.

English and Drama (Major, Minor)

English Department

Margaret Ellen Mahoney, SSND, Ph.D., Chair
Kate Bossert, Ph.D.
William A. Davis Jr., Ph.D.
Jeana DelRosso, Ph.D
Gene Farrington, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The English Department of the College of Arts, Sciences, and Business offers a Major in English and Minors in English and Drama to students in the Women's College. Women's College students may also pursue a preparatory program for secondary certification in English. Students learn to respond to literature with critical thought, understanding, inquiry and imagination, sharing the many experiences recorded in literary works of all genres and periods. They also have an opportunity to develop their own literature through a strong writing program. Around the core of required English courses, each student can construct a Program with an emphasis on either literature or writing, or a balance of both. Special features of the English Department are opportunities in creative writing and drama.

Summary

The Director of the Academic and Career Enrichment Center places English Majors in elective internships in public relations firms, newspaper offices, schools, law firms and businesses requiring writing, editing and other English-related skills. These internships are available during the fall, spring, summer and Winterim terms.

Students regularly publish their creative work in outside publications. The department chapters of Sigma Tau Delta, The International English Honor Society, and Alpha Psi Omega, the American Honor Society for Theater, plan theatre excursions, lectures, literature readings, and service projects.

Graduates of the Department have completed advanced degrees at institutions such as the Yale School of Drama, The Johns Hopkins University, the Catholic University of America, the University of Delaware, American University and the University of Pittsburgh. Graduates are employed by a diverse number of organizations such as The Baltimore Museum of Art, Baltimore County Public Schools, the U.S. Department of Justice and the Johns Hopkins University Press.

Students may fulfill the General Education Requirement for literature by completing any of the following literature (ENG) courses: 205, 213, 215, 216, 220, 221, 222, 224, 226, 230, 238, 240, 242, 243, 250, 251, 270H ,275, 309, 310, 313, 314, 315, 316, 317, 318, 319, 320, 321, 323, 324, 327, 347**,** 360H 405, 410, 411 and 412.

English courses that satisfy the General Education Requirement in Cross-cultural Studies are ENG-221, 222, 226, 251, 323, 327 and 410. English courses that satisfy the General Education Requirement in Gender Studies are ENG-243, 275, 318, 412, and 440H. Drama courses that satisfy the General Education Requirement in Fine Arts are DRM-240 and 245.

Students must earn a Cumulative Grade Point Average of at least 2.0 in all courses taken to complete the requirements of the English Major.

Programs of Study

Required Courses for a Major in English (42 Credits)

Creative Writing (one course) (3)

ENG-201 Techniques in the Writing of Verse
ENG-202 Techniques in the Writing of Short Fiction
ENG-203 Playwriting
ENG-207 Techniques in Writing Creative Nonfiction

American Literature (one course) (3)

ENG-215 American Literature in the 19th Century

ENG-216 American Literature in the 20th Century

Required Courses (three courses) (9)

ENG-223 Literary Research
ENG-224 Literary Perspectives I (British Literature to 1800)
ENG-244 Literary Perspectives II (British Literature in the 19th and 20th Centuries)

Shakespeare (one course) (3)

ENG-317 Shakespeare: Chronicles and Comedies
ENG-319 Shakespeare: Tragedies and Romances

Required Courses (three courses) (9)

ENG-327 Contemporary World Literature
ENG-452 Senior Seminar
ENG-453 Literary Interpretation

Additional Courses(15)

Five courses in English electives, at least two at the 300- or 400-level (15).

Students may choose DRM-240 and/or DRM-245 as their 200 electives for either a Major or Minor in English.

Creative Writing Track (42 Credits)

Nine "core" courses as listed above (27)

Five additional courses in place of the five elective courses:

Second Techniques Course (choose one) (3)

ENG-201 Techniques in the Writing of Verse
ENG-202 Techniques in the Writing of Short Fiction
ENG-203 Playwriting
ENG-207 Techniques in Writing Creative Nonfiction
COM-101 Introduction to Media Writing

One workshop (choose one) (3)

ENG-302 Workshop in Creative Writing
COM-301 Feature Writing

COM-314 Reporting and Writing News

Upper-level genre course (choose one) (3)

ENG-355 Special Topics in Creative Writing
ENG-430 The Literary Essay
ENG-318 Modern and Contemporary Women Dramatists
ENG-320 Influence and Experiment in Modern Drama
ENG-405 Modernism in Fiction

Practicum (choose one) (3)

ENG-401 Writing Tutorial
IDS-361 Career Internship

Elective: One additional course from any of the four options above (3)

Secondary Education Certification: Approved Program in English

Students who wish to prepare for teaching in secondary schools take the required courses for a Major in English. They also take the professional education courses offered by the Education Department. The Education Department requires students also complete English courses in which some adolescent, ethnic and non-Western literatures are taught. The Education Department recommends students complete courses in Drama and Film.

Minor in English

Students who desire a Minor in English complete six English courses beyond ENG-101. Three of the six courses must be at the 300- or 400-level.

Drama Emphasis or Minor

English majors who wish to complete a Drama Emphasis or Minor complete the following seven courses:

DRM-240 Acting Techniques
DRM-245 Directing Techniques
DRM-320 Techniques in Theatre Practice
ENG-203 Playwriting
ENG-220 Introduction to Drama
ENG-318 Modern and Contemporary Women Dramatists, or
ENG-320 Influence and Experiment in Modern Drama
DRM-320 Techniques in Theatre Practice (focus in stagecraft area)

Students also have the option of a student-designed Drama Major in conjunction with courses taken at Lancaster University in the United Kingdom.

Liberal Arts Majors With English Track

Students who desire to Major in Liberal Arts with a track in English may select any courses from English Department offerings.

Four-Year Plan

Below is a sample Program of Study for the English Major. Students should select courses with the assistance of a faculty advisor.

See course descriptions for a list of required courses and description of course and program options.

Courses

DRM-240 Acting Techniques

Helps students develop their acting potential and sharpen their skills in interpreting scripts through individual and group exercises, improvisations, monologues and scene studies. Central to the conduct of the course will be relaxation and breathing exercises, oral projection, movement and gesture. Fulfills general education requirement in fine arts. [3 credits]

DRM-245 Directing Techniques

Explores fundamentals of script analysis, conceptualization, visualization, composition, blocking and the role of theatre director. Practical application of learned techniques and completed playbook are required. Students are encouraged to direct productions of original student work and actively participate in campus productions. Fulfills general education requirement in fine arts. [3 credits]

DRM-320 Techniques in Theater Practice

Focuses on particular aspects of theatre: voice, movement, stage combat, improvisation, period acting, makeup techniques, costume design, lighting design, set design or other elements. Practical application of the selected element or elements leads students to develop expertise in the area on

which they are focusing. Design courses entail both design technique and practical application. A course focused on acting practices requires reading, research and application techniques in a theatre environment. This is an upper-division course in theatre practice, allowing students to achieve competence in a particular area of theatre. For classes in various acting techniques, DRM-240 is recommended. [3 credits]

DRM-411 Topics: Drama

Provides students with the opportunity for an in-depth study of drama, stage craft, author(s), and/or techniques.

DRM-427 London Theater Tour

Provides students with an opportunity to experience English life in the city and country; see professional plays; visit museums, cathedrals, and other places of interest in and around London; visit beautiful English towns such as Bath, Stratford, Salisbury, and Windsor. Organized and directed by English departmental faculty. Offered during Winterim. Satisfies cross-cultural studies requirement. [3 credits]

ENG-101 College Writing

Provides students with an understanding that clear thinking is fundamental to clear writing. It also demonstrates every stage of the composing process: generating and organizing ideas, prewriting and drafting, critiquing, revising, final editing and proofreading. In addition, students work to accomplish clarity, unity, coherence and emphasis in sentences, in paragraphs, and in the overall structure of an essay. They develop techniques of style and tone toward more fluent and appealing prose and strive to sharpen their analytical, critical and editing skills by interacting with other students about their own writing and about the writing of professionals. Students learn to use standard English and develop a sensitivity to sentence structure and diction and to appreciate effectively written prose and recognize characteristics that make such prose effective. To fulfill the general education requirement in composition a minimum grade of C is required. [3 credits]

ENG-101L College Writing Laboratory

Provides students with extra practice in writing and vocabulary development.

ENG-103 Hrs: Writing Well

This is an intensive course in writing designed to help students develop superior facility in the various types of expository writing, including reporting, analysis, interpretation, criticism, persuasion, synthesis and research writing. The course will also study the writing process and rhetorical theory and present

ways that enable students to assess writing tasks and to develop practical strategies to accomplish each task effectively.

ENG-201 Techniques: Writing Poetry

Reviews and practices fundamental techniques of writing poetry. Provides experience with writing in a variety of verse forms and styles, from traditional to contemporary, from lyrical writing to free verse, and from metaphorical to fairly direct styles. Explores the means through which written expression can be made more emphatic, figurative, memorable and evocative. Course will be a workshop experience. Students will complete a portfolio of work. Prerequisite: ENG-101. [3 credits]

ENG-202 Techniques in Writing Short Fiction

Introduces a step-by-step approach to writing a short story. Develops the techniques of writing fiction, including development of theme, setting, plot and character, through the exploration of the craft. Course will be a workshop experience. Students will complete a portfolio of work. Prerequisite: ENG-101. [3 credits]

ENG-203 Playwriting

Explores creative techniques and the craft of writing plays. Requires students to present and rewrite work which is read, acted out and discussed for dramaturgical effectiveness. Each student writes a "10-minute" play and either a one-act play or the equivalent portion of a full-length play. Staged reading, production issues and submission of play manuscripts are covered. Extensive review of work in progress by peers and instructor in workshop setting. Prerequisite: ENG-101. [3 credits]

ENG-204 The Essay As Literature

Studies nonfiction prose written as literature, including nonfiction novels and stories, personal essays, humorous essays, memoirs, travel and nature writing, and literary essays. Examines the appeal, impact and style of essays written "to delight and instruct." Provides opportunities for students to develop critical and analytical skills as they respond to this literature. Fulfills general education requirement in literature. [3 credits]

ENG-205 Short Fiction

Examines the short story with emphasis on the elements of fiction, focusing especially on plot, character, setting, point of view and theme. Introduces students to stories by a variety of authors-traditional and contemporary, ethnic and mainstream, American and international. Broadens analytical and critical ability through guided discussion and short papers that respond to the literature. Fulfills general education requirement in literature. [3 credits]

ENG-207 Techniques in Writing Creative Nonfiction

Combines the study and writing of various sub-genres of creative nonfiction. Allows writers to explore a wide range of prose types, from travel writing to memoirs to scientific exposition. Provides students with the ability to apply the art and craft of writing to different contexts according to their interests and future goals. Students produce a portfolio of work. Prerequisite: ENG-101. [3 credits]

ENG-213 Contemporary American Literature

Examines and interprets representative works from contemporary authors. Analyzes and compares major movements such as Modernism and Postmodernism. Assists students in building an informed critical response to literature. Fulfills general education requirement in literature. [3 credits]

ENG-214 Voices of Hope

"Hope is the thing with feathers" - provides the opportunity to study authors and texts that provide an optimistic view of life.

ENG-215 American Literature in the 19th Century

Introduces and assists students in interpreting representative works from major authors, including Hawthorne, Douglass, Thoreau and Dickinson. Analyzes and compares major movements such as Romanticism and Realism. Fulfills general education requirement in literature. [3 credits]

ENG-216 American Literature in the 20th Century

Examines and interprets representative works from major authors including Chopin, Faulkner, Williams and Morrison. Analyzes and compares major movements such as Realism, Modernism and Postmodernism. Provides students with a basic background in contemporary literature. Fulfills general education requirement in literature. [3 credits]

ENG-220 Introduction to Drama

Studies drama as a genre to be read and performed, making much of the course experiential. Texts span the centuries from the Greek classical age to the 20th century, represent themes ranging from intense tragedy to light comedy, and exemplify both traditional and experimental forms rooted in different cultures. Fulfills general education requirement in literature. [3 credits]

ENG-221 Growing Up in Literature

Examines the coming-of-age theme in literature. Readings include some full-length novels and/or memoirs by American and international writers, but most readings are short stories focused on children and adolescents in international settings. Students relate the coming-of-age theme to theories

of professional psychologists. They also study variations in the literary treatment of the theme and the causes of these variations, especially the influence of familial, social and cultural milieu. This course would be of particular interest to prospective teachers. Fulfills general education requirements in literature and cross-cultural studies. [3 credits]

ENG-222 African American Literature

Examines form and style, issues of audience, and historical, social, economic and racial issues and contexts in African American fiction, poetry, autobiography and drama. Builds student ability to analyze literature. Fulfills general education requirements in literature and crosscultural studies. [3 credits]

ENG-223 Literary Research

Introduces students to the methods and processes of literary research, bibliography and scholarly writing. Students identify and use the latest Internet research tools along with other standard sources in English and American literature and apply their skills to selected literary texts. Provides students with instruction and practice in identifying an original research project, finding and incorporating literary criticism into their own writing, and presenting their work to other students. Majors only. [3 credits]

ENG-224 Literary Perspectives I: British Literature to 1800

Surveys the origins and development of British literature through 1800, introducing students to representative works from the Middle Ages, the Renaissance, and the Restoration and 18th Century. Traces pervasive themes, techniques, and genres that develop across periods. By building a foundation in the understanding of literary history, the course establishes a basis for later in-depth study at the 300-level. Fulfills general education requirement in literature. [3 credits]

ENG-226 African Literature

Examines fiction and drama of African writers from two perspectives: the colonial writing of Conrad and Cary and the post-colonial variant view of contemporary African writers from diverse cultures, including Achebe, Soyinka, Gordimer and Okri. Fulfills general education requirements in literature and cross-cultural studies. [3 credits]

ENG-227 Japanese Literature

An exploration of the flowering of Japanese literature from the diaries of medieval women, through the constant stream of poetry, to Bunraku, Noh and Kabuki drama, as well as the contemporary novel and short fiction.

ENG-230 Gothic Fiction

Examines the origins and conventions of the Gothic tradition in literature and studies representative works by Mary Shelley, Charles Brockden Brown, Emily Bronte, Edgar Allan Poe and others. Students practice and refine the skills of interpretive reading, discussion and writing as they address literary elements such as plot, character, setting, point of view and theme. Fulfills general education requirement in literature. [3 credits]

ENG-232 Contemp Irish Lit

Introduces students to Irish Literature from cultural and historical perspectives.

ENG-238 Detective Fiction

Traces the history of the art of detective fiction from more intellectual short stories of Poe and Doyle through the early "hard-boiled" private eye fiction and the "cozies" of the 1930s and 1940s to the many varieties of today. Identifies adaptations of the genre in pre-1950 radio broadcasts and later films and TV shows. Through charts, short papers and presentations students analyze artistry in plotting, characterization, formulaic devices, and literary techniques of effective short stories and novels in comparison with less well-constructed examples of the genre. Fulfills general education requirement in literature. [3 credits]

ENG-241 Edgar Allan Poe

Examines the artistry of Poe's poetry and fiction works.

ENG-242 Comedy and Humor: Celebration And Satire

Explores comedic literature across periods and genres, from the Middle Ages to the present day. Investigates the social, political, and cultural effects of humor and laughter. Readings may range from jokes, insults and other forms of popular culture to drama, poetry, film, and the comic novel. Fulfills the general education requirement in literature. [3 credits]

ENG-243 Literature by Women

Requires students to analyze, interpret and write critically about a select number of texts by and about women to investigate how women represent ourselves. The course contributes to students' critical skills by teaching them to read and write about literature, and it introduces diversity into the curriculum by presenting authors who are often omitted from the literary canon. Students will discuss texts and question what we read, as well as write about the texts with critical engagement. Fulfills general education requirements in literature and gender studies. [3 credits]

ENG-244 Literary Perspectives II: British Literature in the 19th and 20th Centuries

Traces pervasive themes, literary theories, and the development of genres in English literature during the Romantic and Victorian periods and in the 20th century. Interprets selected works of these periods in the context of social, political, and literary history, analyzing ways in which literature has been shaped by literary movements and world events. Traces signs of modernism and postmodernism as they are reflected in 20th century authors. [3 credits]

ENG-250 Reading Poetry

Focuses on the basic poetic elements: speaker, theme, diction, imagery, figures of speech, tone, patterns of sound and rhythm, meter, rhyme and various poetic forms. Examines poems by a variety of poets-traditional and contemporary, ethnic and mainstream, American and international. Teaches students to analyze and scan poems. Fulfills general education requirement in literature. [3 credits]

ENG-251 Honors: Ethnic American Literature

Studies works by writers of different ethnic groups in 20th century America, with emphasis on African-American, Asian-American, Jewish-American, Native-American and Latino/a writings. The course will provide interdisciplinary approaches to literature; readings will come from several literary genres, including novels, short stories and poetry, but students will also read theory and criticism relevant to recent work in ethnic studies. The course will teach students to read and write about literature, and it will introduce many of the important works of 20th century American minority literature. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in literature and cross-cultural studies. [3 credits]

ENG-270 Hrs: Doomsday Literature

Investigates how literature has constructed and depicted the end of the world. Students examine the literature of Doomsday across periods and cultures, mapping varied expectations for "the end time" from the ancients to the modern day. The course explores what these doomsday depictions suggest apart from eschatological prophecy. Doomsday themes frequently boom during times of ideological crisis, and the course investigates the "rhetoric of Doomsday" as it is used to inspire both hope and fear in the face of potential catastrophe. Prerequisite: Morrissy scholar or instructor permission. Fulfills general education requirement in literature. [3 credits]

ENG-275 American Women Writers

Requires students to read, analyze, interpret and write critically about a select number of texts by 20th-century American women writers. Students will learn to enjoy and appreciate the literary artistry of representative women writers; to identify common concerns of women writers of the past century; to experience vicariously the lives of diverse women and evaluate the social, cultural, economic and political forces that shape those lives; to recognize different approaches of women's portrayal of women; to understand how American feminism has developed and how it is manifested in these

writings; and to develop their critical reading and writing skills. Fulfills general education requirement in literature and gender studies. [3 credits]

ENG-298 Writing about Literature

Students are introduced to short fiction, drama, and poetry. They analyze typical techniques in each of these literary genres, compare individual works to one another, and evaluate works according to basic critical principles, such as consistency of character, development of plot, effectiveness of setting, and use of effective tone and style. The course also develops basic writing skills by the production of frequent short papers. These papers in turn increase the ability of students to analyze the literary works which are the subject of the papers. Fulfills general education requirement in literature. [3 credits]

ENG-302 Workshop in Creative Writing

Provides advanced practice in the writing of poetry, fiction, creative nonfiction or plays. Participants choose to work in the craft of specific genres. Students share in reading and discussing the submitted artifacts. Revision is emphasized as a significant function of the creative process as students produce a portfolio of work. Prerequisite: ENG-201, 202, 203 or 207, or presentation of a suitable manuscript. [3 credits]

ENG-307 Workshop in Writing Creative Nonfiction

Develops more sophisticated techniques of writing creative nonfiction in a workshop setting, allowing students to focus on the area of creative nonfiction with which they are most engaged either professionally or creatively. Students may approach their writing through memoir, biography, literary journalism, humorous nonfiction, travel, history or other appropriate forms. Within a workshop framework, students present their own work and critique the work of others. Interview techniques and research methods are explored in accord with the student's writing focus and subjects chosen. Students produce a portfolio of work. Prerequisite: ENG-207 or permission of instructor. [3 credits]

ENG-309 English Literature of the Renaissance

Focuses on English literature in the 16th and 17th centuries, from the beginning of the Tudor period in 1485 through the era of the Commonwealth. Analyzes links between literature and life in Britain during a time of cultural rebirth and political turmoil. Explores non-Shakespearean drama, representative essays of the time, and newly evolving Elizabethan fiction and Utopian fantasy. Compares varied poetic techniques in epics of Spenser and Milton, in popular ballads, and in the lyrics of the cavalier and metaphysical poets. Fulfills general education requirement in literature. [3 credits]

ENG-310 English Literature Before 1485

Examines the roots of English literature from the fifth-century Anglo-Saxon period through the Middle

Ages to the beginning of the Tudor reign in the 15th century. Traces images of the heroic life from the folk-epic hero Beowulf through the evolution of Arthurian traditions in the later Middle Ages. Explores other aspects of medieval life through student-selected research projects on such topics as illuminated manuscripts, medicine, archeology, history, drama or whatever else ppeals to individual students. Demonstrates the relationship between modern English and Middle English through oral reading and analysis of selected passages from Chaucer's anterbury Tales. Fulfills general education requirement in literature. [3 credits]

ENG-313 Honors: Thomas Hardy: Novelist and Poet

Provides an in-depth study of English writer Thomas Hardy (1840-1928). Hardy is known as a Victorian novelist and a modern poet; his work thus crosses literary (generic) and historical boundaries. Hardy wrote 14 novels, 50 short stories, roughly 1,000 poems, one epic drama, seven volumes of published letters, an auto-biography, and a number of essays on literary and sociological topics. Students will read selected novels and poems as we trace Hardy's career and examine literary topics such as serial publica-tion, the circulating library, and censorship, along with themes such as the Victorian "Woman Question," the part-real, part-invented land of Wessex, social class, law, and the "ache of modernism" in his later novels. Students will engage in primary (letters, notebooks, etc.) and secondary (critical) research as they explore these and other topics in two research projects during the semester. The course emphasizes the process of writing a research paper. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature. [3 credits]

ENG-315 English Literature: 19th Century

Examines selected works of major Romantic and Victorian authors in the context of these two literary periods. Students will read selections by Coleridge, Wordsworth, Keats, Browning, the Bronte sisters and many others, and will examine 19th-century literary theories and pervasive themes as these inform the poetry, nonfiction prose and fiction of the period. Fulfills general education requirement in literature. [3 credits]

ENG-316 English Literature: 20th Century

Studies major writers and literary techniques and themes characteristic of 20th-century Britain. The course examines modernism and postmodernism and the way in which the literature has been shaped by literary movements and world events. Students will have the opportunity to read selected poems, novels, essays and short plays by authors ranging from Hardy and Yeats to A. S. Byatt and Iris Murdoch. Fulfills general education requirement in literature. [3 credits]

ENG-317 Shakespeare: Chronicles and Comedies

Examines selected Shakespearean chronicles and comedies in light of earlier drama which set

patterns for Shakespeare and his contemporaries. Explores ways in which Shakespeare?s chronicle plays portray British history and political theory during the Hundred Years War and the Wars of the Roses. Demonstrates the range of character development, comic techniques and vivid language in his comedies. Provides opportunities for students to view major film versions of the plays and to practice their own dramatic skills in group presentations of selected scenes from the comedies. Fulfills general education requirement in literature. [3 credits]

ENG-318 Great Women Dramatists

Explores the development of the role of women on stage from Ibsen and Shaw up through contemporary work by important women playwrights such as Glaspell, Churchill, Duras, Fornes and others who have impacted contemporary drama. As part of the course experience, students attend local area productions. Fulfills general education requirement in literature and gender studies. [3 credits]

ENG-319 Shakespeare: Tragedies and Romances

Examines selected Shakespearean plays. This study is preceded by an overview of earlier drama that set patterns of tragedy and romance that Shakespeare used and adapted. Provides opportunities for students to view major film versions of the plays and to practice their own dramatic skills in group presentations of selected scenes. Fulfills general education requirement in literature. [3 credits]

ENG-320 Influence and Experiment in Modern Drama

Studies important theatre movements and innovative voices of 20th century drama in the Western world. The development of contemporary theatre is traced in the experimental work of Strindberg, Kaiser, Apollinaire, Pirandello, Pinter, Brecht and Beckett, among others. Students attend local area productions. Fulfills general education requirement in literature. [3 credits]

ENG-321 Voices of Dissent and Affirmation in 19th Century American Literature

Examines and interprets representative works from major authors, including Irving, Hawthorne, Emerson, Douglass and Twain. Analyzes and compares major movements such as Romanticism, Realism and Naturalism. Identifies, describes, compares and contrasts genres of fiction, nonfiction and poetry. Fulfills general education requirement in literature. [3 credits]

ENG-323 Modern Irish Literature

Examines the literature of the Irish Renaissance: the works of W. B. Yeats, Lady Gregory, J. M. Synge, James Joyce, Sean O'Casey and others. Explores the literature in the context of Irish myth and legend, religious and political influences, nationalism and revolution. Fulfills general ducation requirement in literature and cross-cultural studies. [3 credits]

ENG-324 Honors: The Irish "Troubles": Literature, History and Film

Examines, from a variety of perspectives, the Irish "Troubles;" that is, the violent political conflicts between Irish and English in the early 20th century and between Catholics and Protestants in Northern Ireland in the late 20th century. Explores literary and cinematic treatments of the conflict and compares them with historical accounts in order to arrive at a better under-standing of the "Troubles." Students will discuss the treatment of the "Troubles" in the plays of Sean O'Casey and Brian Friel, the poetry of W.B. Yeats and Seamus Heaney, the fiction of Frank O'Connor, Liam O'Flaherty, Eugene McCabe and others, and the memoir, Guerilla Days in Ireland by Tom Barry. Students will also view several films, including "Michael Collins" and "Bloody Sunday." Prerequisite: Morrissy scholar or permission. [3 credits]

ENG-327 Contemporary World Literature

Introduces an understanding and appreciation of the diversity of contemporary literatures from different cultures by presenting authors who are often omitted from the literary canon. Students will attain a global view of basic social issues as they are represented in literature and will focus on the common elements of humanity as well as on the differences across diverse cultures. The class will examine the themes of hope and despair, peace and war, joy and anguish, and the distances between these through fiction, autobiography and essay. We will also examine the different cultural perceptions of literature and its purposes. Fulfills general education requirement in literature and cross-cultural studies. [3 credits]

ENG-342 General Linguistics

Introduces principles and terminology of language study. Examines the three major branches of linguistics (phonology, grammar and semantics) within a broad spectrum of comparative linguistics and also with closer attention to developments within the English language. Traces major historical developments in English. Analyzes stages of language acquisition in children and provides students preparing for teaching certification with practice in applying theories of language structure to teaching writing skills within a classroom setting. [3 credits]

ENG-347 Hrs: "New Woman" Literature

This course will examine selections from the body of writing known as New Woman literature in England during the 1880s and 1890s, along with selected works from American and European writers. New Woman novels, essays, and plays address what was called "the Woman Question" and its primary issues, e.g., women's independence, the "nature" of women, women's roles and responsibilities, the effects of women's independence, sexual relations and gender differences. The course will follow the development of the New Woman character and will examine common conflicts and themes among the various representative works. Prerequisite: Morrissy Scholar or permission. Fulfills General Education requirement in literature and gender studies. 3 credits.

ENG-350 Honors: The Literature and Psychology of Travel

Explores the effects and implications of travel as portrayed in contemporary nonfiction and autobiographical fiction. Examines how travel affects our sense of identity, culture, and community, how it affects us emotionally, what needs and fears in human nature it reflects, what socio-political issues are involved in travel, and how it changes our understanding of the world around us. We live in an age of journeys, not all of them physical. Reading in the course will include books about journeys abroad, journeys within one's own country and culture, intellectual quests, explorations of cultural history, and journeys of faith, renewal, and rediscovery. Fulfills general education requirement in literature. Prerequisite: Morrissy scholar or permission. [3 credits].

ENG-355 Special Topics in Creative Nonfiction

Focuses on an author, group of authors, subgenre, period or theme in creative nonfiction as literature, as determined by the faculty member, so that students will be able to gain familiarity with the author, group of authors, sub-genre, period ortheme and be able to distinguish its critical features from others in the field. Students may repeat the course if it is offered on a topic that they have not previously studied. For anyone who opts to repeat the course, the second topics course counts only as an elective and may not count toward completion of the student's major or minor requirements. Prerequisite: ENG-207 or permission of instructor. [3 credits]

ENG-360 Honors: Geek Literature

Investigates geek literary culture with themes of escapism, social alienation, intellectual superiority, conspicuous consumption, and the effect of technology on human nature in a series of texts associated with the geek. Authors include: J.K. Rowling, J.R.R. Tolkien, Neal Stephenson, Douglas Adams, Harlan Ellison, Neil Gaiman, and Allan Moore, among others. Students will study texts in non-print media, including digital and Internet phenomena. Prerequisite: Morrissy Scholar or instructor permission. Fulfills general education requirement in Literature. [3 credits]

ENG-401 Writing Tutorial

Provides student the opportunity for intense work on a single extended work or collection of shorter works under the direction of one English faculty member. Allows student to recognize the importance of revision in the writing process. Before enrolling in this course, the student is expected to have demonstrated proficiency in one of the creative writing genres and to have obtained the consent of her prospective tutorial director. The minimum prerequisite for this course is the successful completion of the relevant writing workshop, depending on the writing genre that the student wishes to pursue. With the consent of the instructor, the writing tutorial may be continued for two semesters, with three credits applicable to degree requirements each term. Prerequisite: ENG-302 or ENG-307 and permission of instructor. [3 credits]

ENG-410 Topics in Literature: Cross-Cultural Studies

Investigates the social and cultural dimensions of literature written by and about peoples of other countries or of regional or minority cultures within the United States. Topics may focus on literature from English-speaking countries or on literature in translation by writers from nonwestern countries. Topics will reflect cultural diversity as represented in selected works of literature. The topic will be announced before registration each semester when the course is offered, and the course itself can be taken more than once on different subjects. Fulfills general education requirement in literature and cross-cultural studies. [3 credits]

ENG-411 Topics in Literature

Provides students with the opportunity of in-depth study of such literary topics as the following: a significant writer or group of writers, a literary period or movement, a particular genre or themes related to a geographic region. The topic will be announced before registration each semester when the course is offered, and the course itself can be taken more than once on different subjects. Fulfills general education requirement in literature. [3 credits]

ENG-412 Topics in Literature: Gender Studies

Investigates gender as it is represented and constructed in literature by examining such literary topics as the following: a significant writer or group of writers; a literary period or movement; a particular genre or geographic region. The topic will be announced before registration each semester when the course is offered, and the course itself can be taken more than once on different subjects. Fulfills general education requirement in literature and gender studies. [3 credits]

ENG-414 Grt Books: Exist Imag

Provides the opportunity to study existential questions that lead to the construction of identity.

ENG-427 London Study Tour

Provides students with an opportunity to experience English life in the city and country; see professional plays; visit museums, cathedrals, and other places of interest in and around London; visit beautiful English towns such as Bath, Stratford, Salisbury, and Windsor. Organized and directed by English departmental faculty. Offered during Winterim. Satisfies cross-cultural studies requirement. [3 credits]

ENG-440 Hrs:Women and/as Monsters in Literature and Culture

Requires students to examine, in a seminar format, the interdisciplinary topic of women and/as monsters in literature and culture. Women's writings, as well as women writers themselves, have

historically been viewed as "monstrous"; this course investigates the notion of monstrous women, as well as women writing about monsters, by examining both female- and male-authored, canonical and non-canonical, literary and non-literary texts, primarily but not exclusively from the past two centuries. Prerequisites: Morrissy Scholar or permission. Fulfills general education in literature and gender studies. [3 credits]

ENG-452 Senior Seminar

Requires students to examine, in a seminar format, a major literary topic or author(s). Students will employ the skills learned in Literary Research and Literary Interpretation: using library esources and databases, demonstrating an understanding of the variety of theories and approaches to literary criticism, and synthesizing critical research with their own original argument and interpretation regarding a text. Students will demonstrate their ability to present their research both orally and in clear, coherent prose. Majors only. [3 credits]

ENG-453 Literary Interpretation

Studies the nature and practice of literary interpretation and evaluation. Examines both traditional methods, such as textual, genre and historical criticism, and contemporary approaches, including "new" criticism, psychological, Marxist, feminist and reader-response criticism. Students learn to analyze literary works from the perspective of these specific approaches. [3 credits]

ENG-463 Independent Study

Requires students to create a production project in acting, directing or stagecraft. A student could direct a full-scale stage production, design either lighting or set for a show, perform as a lead actor in a production, or serve as dramaturg for a major production. These projects would be under the direction of a faculty member. For directing, a completed playbook would be required. For design projects, completed sketches and/or models would be required. For acting, an intense written examination of the role would be required. For dramaturgy, a paper outlining the extent of the research and the conclusions would be presented to the director. Prerequisite: Permission of the instructor. [1, 2 or 3 credits]

ENG-496 Assistantship in Writing

Assists the instructor in class preparation and instruction, including research, classroom administration, assessment, guiding other students' writing, editing and revision, and moderating student discussions. Students create and design lesson plans and class writing activities. Experience is designed for those desiring to teach English, particularly on the college level. Prerequisite: Prior successful completion of the course for which the student is the assistant and permission of the instructor. [3 credits]

ENG-501 Research Methodologies Of Literary Criticism

Provides an overview of literary research methods, bibliography and research writing. Students will use the major research tools and databases in literature and apply these research strategies to the study of selected literary and historical works on one specific topic in literary theory. Students will also learn how to analyze secondary sources and incorporate their findings into their own writing in order to develop the skills necessary to producing original literary criticism. The course is designed to prepare students for the research and writing required in the master's egree in English program. [3 credits]

ENG-503 Graduate Writing

Develops the writing skills that are essential in every workplace. Emphasis is on the relationship between thinking and writing, being able to present with clarity and coherence the message in written form. What distinguishes the manager or managerial candidate is the ability to present written matter with precision, economy, accuracy and grace. While the course presents business-related writing, the focus is on simply being able to write well. Learners enhance their skills through a series of writing experiences. [3 credits]

ENG-508 Contemporary Literary Theory

Examines prominent literary theories that have influenced the analysis and interpretation of literature in the last century. Theories studied range from formalism, structuralism, and post-structuralism, to psychoanalytic and readerresponse theories, to cultural-oriented theories, such as feminism, Marxism, and new historicism. Students will master theoretical concepts and methodologies as well as apply theoretical literary concepts to specific works of literature. [3 credits]

ENG-511 Topics in Literature

Provides students with the opportunity for the in-depth study of such literary topics as the following: a significant writer or group of writers, a literary period or movement, a particular genre or themes related to a particular region. The topic will be announced before registration each semester when the course is offered, and the course itself can be taken more than once on different subjects. [3 credits]

ENG-518 Medievalism

Focuses on ideas, arts, and practices characteristic of the Middle Ages as portrayed in English literature before 1485, with some reference to influences from the continent. Brief overviews of the oral formulaic tradition of Old English poetry and the historical and legendary works of Bede and Geoffrey of Monmouth form a preliminary backdrop for the period. Selections from Chaucer's Canterbury Tales in the original Middle English introduce students to the roots of their language and provide examples of literary genres such as fabliau, fable, exemplum, and the Breton lay of Marie de France. Through Thomas Malory?s Morte D'Arthur students analyze another popular medieval genre, the prose romance, and explore Arthurian themes that have pervaded literature into modern times. In addition to

these major works, some attention is also given to samples of medieval drama, mysticism, and allegorical social satire. Readings highlight estates satire, the church's use of literature and art as a teaching device, and contradictory images of medieval anti-feminism vs. the veneration of women. [3 credits]

ENG-519 Renaissance and Neoclassicism

Explores poetry, drama, and prose of the English Renaissance, the Spanish Golden Century, and Neoclassicism. Influenced by the Italian rebirth of Greek and Roman philosophy and literature, and disseminated by the miracle of the printing press, the Elizabethan and Jacobean ages produced great writers of English literature, including Shakespeare, Milton, Spenser, Marlowe, Donne, and others, who will be read and critically analyzed. The Restoration and Age of Reason gave us poetry, literary criticism, essays, drama and the emerging new genre, the novel. Selected writers of the period will be read and analyzed with a particular focus on women's issues. Critical response papers are required as well as the presentation of seminar papers on specific authors and/or topics. [3 credits]

ENG-526 Russian Fiction

Examines the distinctive role of Russian writers and their contributions to the literary canon.

ENG-527 Study Tour

Provides students with the opportunity to experience English life in the city and in the country, see professional plays, visit museums, cathedrals, and other places of interest.

ENG-528 Romanticism

Examines major concepts and themes of British and American Romanticism. Major Romantic concepts include a belief in the spiritual and restorative powers of nature, the importance of the imagination, and the truth of the emotions. Major Romantic themes include the pursuit of the Ideal, glorification of nature, centrality of the common man, and love of the supernatural and mysterious. Writers studied include British Romantic poets Wordsworth, Coleridge, Keats and Byron, and American Romantics Thoreau, Poe, Hawthorne, Dickinson, Radcliffe, and Emerson. [3 credits]

ENG-529 Realism and Victorianism

Examines major literary works of the realism period of the nineteenth century, with a primary focus on English, American, and continental fiction, the genre in which realism finds its greatest variety and richness. Students will explore the foundations of realism and its literary relation naturalism, including the psychological basis of character, the uniqueness of individual experience, the use of the commonplace, the goal of objectivity in reporting what novelist W. D. Howells called "the truthful

treatment of material," new ideas concerning the purposes of fiction?including the sometimes disparaged "novel with a purpose" ? and verisimilitude. Selected novels will emphasize the roles and condition of women of the period. Students will explore the importance of the magazine to the rise of the realistic novel and will also read examples of the literary criticism of the period in order to appreciate the parameters set for fiction by a new generation of professional literary critics. [3 credits]

ENG-530 Liturature of the Examined Life

A reading of selected works of literature representative of the human passion for knowledge and for life. The search for what is authentic in the human character, what is intelligible and valid in human experience, informs the literature. [3 credits]

ENG-538 Modernism and Postmodernism

Examines the poetry, drama, and fiction of selected representative writers and analyzes the works from various literary theoretical perspectives. Course will trace Modern concepts of radical individualism, re-contextualization through myth, dominance of psychoanalytic thinking, emancipatory emergence?particularly as it relates to women, and the shift from an epistemological to an ontological aesthetic in the works of modernists such as Yeats, Pound, Eliot, Woolf, Joyce, Faulkner, O?Neill, and others. In the context of the contractual nature of language and its development with structuralism, poststructuralism, and deconstruction, we will analyze the works of postmodern poets, playwrights, and novelists such as Beckett, Ionesco, Churchill, Byatt, Morrison, and Nabokov. Critical response papers are required, as well as the presentation of seminar papers on specific authors and/or topics. [3 credits]

ENG-541 Drama and Its Wisdom

Explores the philosophic nature of the art of drama. Through Nietzsche's thinking in Birth of Tragedy and Good and Evil, drama is examined in Greek tragedy with Euripides, Shakespeare's tragedies in the Renaissance, O'Neill's dark plays in the modern world and contemporary works of playwrights like Ed Bond. Horace's Ars Poetica tells us drama must "instruct and delight." In this course both the joy and the illumination of the plays take center stage. [3 credits]

ENG-547 New Woman Literature

Explores selections from the fiction, periodical journalism, and drama of the Victorian period, including George Gissing?s novel The Odd Women, essays by Sarah Grand and others, and plays such as Shaw's Mrs. Warren's Profession. Examines the "Woman Question" of late nineteenth-century England and identifies its main issues, e.g., the "nature" of women, women?s roles and esponsibilities, independence and its social effects, education, sexual relations, and gender differences. [3 credits]

ENG-548 Classical World Literature

Analyzes classics of world literature from ancient to pre-modern times, learning to identify and appreciate the qualities that make a work a classic, including its enduring worldview, its style, its impact, and its universality. The course will explore such issues as social and familial relationships, gender roles, the relationship between the individual and society, differing value systems, mythopoetic and folkloric influences on literature, elements of narrative, poetic, and conceptual structure in the works, and the ways in which literature shapes our perception of reality. Texts covered may include works by Homer, Sophocles, Aristophanes, Herodotus, Ovid, and Virgil from classical times, selections from Gilgamesh, the Bible, the Qur'an, the Bhagavad Gita (or another Vedantic book), the Tao Te Ching, and Persian poetry, works like The Art of War by Sun Tzu and The Pillow Book by Sei Sei Shonagon, and more recent works regarded as classic by such authors as Dante, Boccaccio, Rabelais, Moli?re, Cervantes, and Goethe. [3 credits]

ENG-549 Modern World Literature

Examines contemporar y literature from around the world, either in translation or written in English, analyzing it in terms of cultural differences, gender roles, literary archetypes, universalities of human experience and thought, and each book?s thematic focus and philosophical outlook. Potential issues raised by the course include existentialism in literature, symbolism and magical realism as literary styles, self-consciousness and structuralism in literary form, experimental fiction, the relationship of literature to political and cultural change, ethnocentrism and global consciousness, and the increasing emphasis in contemporary literature on the individual's responses to a bewildering, frustrating, and sometimes oppressive social context. [3 credits]

ENG-551 Literary Utopias

Analyzes pervasive themes and common concerns in utopian and dystopian visions of different times, starting with the genre-creating Renaissance classic, Thomas More's Utopia, and moving through the "nowheres" of 19th and 20th century writers like Butler, Bellamy, Zamiatin, LeGuin, and Piercy. Students trace political, philosophical, and scientific concepts underlying these imagined worlds, linking the concepts to theories of human nature on which they are based. Individual reports enhance seminar-style discussion. [3 credits]

ENG-558 Multicultural American Literature

Examines works by writers of various ethnic groups in twentieth- and twenty-first-century America, with emphasis on African American, Arab American, Asian American, Jewish American, Native American, and Latino American writings. Readings will come from several literary genres, including novels, short stories, and poetry, but students will also read theory and criticism relevant to recent work in ethnic and feminist studies. [3 credits]

ENG-698 Independent Study: Eng

Provides students with an opportunity to do in-depth study of an author, text, or genre.

French (Minor)

Modern Foreign Languages Department

Rachel L. Burk, Ph.D., Chair
Therese Marie Dougherty, SSND, Ph.D.
Linda Stilling, SSND, M.A.
Marcela Valencia, Ph.D
Associate Faculty
Joseph Wieczorek, Ph.D.

Degrees offered

Minor

Campuses

Main Campus

Bienvenue à notre programme de français! Our Program of Study integrates exciting interactive technology, small classes, communication-focused coursework and individualized attention. Our students take French from the classroom into the NDMU community and the larger world via study abroad, service learning, language-exchange partners, internships and a partnership with the Alliance Française of Baltimore.

Summary

Courses in French provide a grounding in the essential structure of language and foster practical communication while incorporating cultural learning. Small classes, close relationships with professors, multi-media technology, and interactions with native speakers encourage General Education students to speak, write, listen and read in French while gaining broad perspectives on the Francophone world. Majors and Minors refine their language skills and at the same time immerse themselves in the literature, history, film, art, and culture of the French-speaking worlds, in Baltimore, the United States, and beyond.

General Education Language Requirement

Native Speakers of English

Women's College students of traditional age—first-year and transfer—may fulfill the General Education Foreign Language Requirement in one of three ways:

- **AP Exam**: Provide evidence of an earned grade of 3 or higher on the Advanced Placement Language or Literature exam
- **Language Department Placement Exam:** Place into the advanced level (301) on the language department placement exam. (These students may wish to satisfy the General Education Literature Requirement through a literature course in the foreign language.)
- **Course work:** Complete one course at the intermediate level (103, 233 or 234), preferably building upon foreign language skills acquired at the secondary level.

Students in the Women's College ages 25 years and older at the time of matriculation, as well as students in the College of Adult Undergraduate Studies, may fulfill the General Education Language Requirement in one of two ways:

- **Exam:** Provide evidence of completion of one semester of foreign language study through the Advanced Placement Language or Literature exam or the CLEP test (available in French, Spanish and German through the College Board).
- **Coursework:** Complete one semester at the appropriate level (101,102,103 or higher).

Native speakers of English who are bilingual should consult with the Chair of the Language Department for guidance regarding the language requirement.

Language courses that satisfy the General Education Language Requirement are: 103, 233, 234 or any Latin course above the 102 level.

Non-Native Speakers of English

International students may fulfill the General Education Foreign Language Requirement in one of three ways:

- **TOEFL Exam:** At entrance, provide evidence of a score of 550 or higher on the TOEFL exam, or 213 or higher on the TOEFL: BT Test or 80 or higher on the IBT Test.
- **Language Department Placement Exam:** At entrance, score on the advanced level on all parts of the language department's English Placement Test.
- **Language Department Placement Exam:** Complete LEF-203, LEF-204, LCL-331 or LCL-332,

based on the results of the English Placement Test.

Placement Testing

Placement testing will assure every student studies at a level consistent with her current abilities. Students at Notre Dame must complete one semester of foreign language at the intermediate level (103) or above. The sequence of foreign language courses offered is as follows:

101-102	Beginning Spanish I and II (do not fulfill the language requirement)
103	Intermediate Spanish I (Courses beginning at this level fulfill language requirement.)
233/ 234	Spanish for Oral/Written Proficiency
301-302	Advanced Conversation and Composition I and II

Placement result	Courses needed to fulfill the language requirement
101	101, 102, 103
Start a new language	101, 102, 103
102	102, 103
103	103
233	233
234	234

Students who have achieved a score of 3 or above on the Advanced Placement Language or Literature Test are considered to have fulfilled the language requirement. No additional courses are required.

Transfer students

Those who have studied a foreign language at the college level satisfy the requirement with one

course at the intermediate level. *Those students who have college level language credit must make this information known to their advisors!* Since course numbering varies, failure to do so may result in taking the same course twice and being denied credit.

Foreign Language Major

Through language courses at NDMU and schools in the consortium, students study and demonstrate proficiency in two modern languages courses. This Major is highly recommended for those who want to become language teachers.

Requirements

Forty two (42) CREDIT HOURS (14 courses)

GRADE OF C OR ABOVE in all language courses in the Major

Checklist

LFN 201 World of Language (Introduction to the discipline, taught in English)

First Language

233 Oral Proficiency
234 Written Proficiency
301 Advanced Conversation & Composition I
302 Advanced Conversation & Composition II

Second Language

101 Beginning Language I

Forensic Psychology (Minor)

Psychology Department

Maria Mouratidis, Psy.D., *Chair*
Adem Can, Ph.D.
Irena Fedorovsky, Psy.D.

Degrees offered

Minor

Campuses

Main Campus

The Minor in Forensic Psychology assists students in developing counseling and communication skills to prepare them to interface with diverse populations, including victims and offenders. Graduates with this Minor will be prepared to succeed in an occupation involving interaction with people, including policy making, community action, social research and social services.

Graduates of the Program are employed in psychology-related careers and in a variety of human service, education, research and business organizations, including Sheppard Pratt Hospital, the Baltimore County Department of Health, Grassroots Crisis Intervention Center, Kennedy Krieger Institute, Americorps, Booz Allen Hamilton, the National Institutes of Health and the National Institute on Drug Abuse.

Courses

PSY-101 Introductory Psychology

Examines psychology's perspective on human behavior through many human experiences: learning and memory, perception, motivation and emotion, personality, social interaction, normal and abnormal behavior, and human development. Draws from experience and fosters application to the students' own lives. This is a foundational course, and it meets prerequisite requirements for most psychology courses. Fulfills general education requirement in social science. Lecture and lab. [4 credits]

PSY-101L Lab: Introductory Psychology

This lab is a co-requisite for PSY 101 focused on concept development and discipline specific skills.

PSY-130 Psychology At the Movies

Explores the impact of psychological themes and theories on popular movies within the context of culture. Consists of an intensive, didactic experience that introduces the student to related psychological research and applications as they apply to a specialty field within psychology. Special emphasis is given to the comparison of cultural and cross-cultural elements embedded and transmitted through the filmmaker's story. [3 credits]

PSY-165 Human Sexuality

Examines the role of sexuality in human behavior. Through integration of biological and psychological aspects, attempts to survey the breadth of human sexuality, alternative life styles and deviations. Includes individual differences through the life span. [3 credits]

PSY-203 Child and Adolescent Development

Surveys development from conception through adolescence. Explores methods of developmental research, major developmental theories, ways to analyze evidence generated through research, social and behavioral traits and the impact of cultural context on development. Applies concepts to teaching, parenting and working with children. Prerequisite: PSY-101 or status as an elementary education major. PSY-101 is strongly recommended for elementary education majors and will improve student performance in this course. [3 credits]

PSY-205 Theories of Personality

Explores the structure, processes and development of personality from major theoretical perspectives, including psychoanalytic, neoanalytic, humanistic, behavioral, social behavioral and trait approaches. Emphasizes the comprehension, application and contrast of theories of personality and the enhancement of the student's critical thinking skills. Prerequisite: PSY-101. [3 credits]

PSY-208 Multicultural Psychology

Explores the major ethnic groups and the particular psychological issues and needs relevant to specific groups. The impact of culture, race, and ethnicity on theory, research, and practice are examined. Issues related to diversity, tolerance and social behavior are explored. Specific consideration related to sex/gender differences within various cultures and ethnicities will be integral. Prerequisites PSY 101. Fulfills cross-cultural and/or gender studies requirement. [3 credits]

PSY-209 Social Psychology

Investigates the diverse mechanisms through which people influence the individual, particularly cultural socialization, stereotyping and prejudice, membership in formal and informal groups, and in close relationships. Examines topical areas of influence including attitudes, perceptual processes, conformity, conflict and aggression, roles and norms, and helping behavior, with a focus on gender. Emphasizes critical thinking about research and application of concepts to life experience. Prerequisite: PSY-101. Fulfills general education requirement, not the social science requirement for Morrissey only. [3 credits]

PSY-210 Research Methods

Introduces the basic methods of research design and report writing in the behavioral sciences. Descriptive, correlational and experimental research strategies will be discussed. Students design original research and select appropriate data analyses. Ethical issues in each type of research design will be explored. Lecture and laboratory. Prerequisites: MAT-215 and PSY-101. Satisfies the technological competency requirement. [4 credits]

PSY-210L Lab: Research & Stat Methods

This lab is a co-requisite for PSY 210 focused on concept development and discipline specific skills.

PSY-212 Cognition

Investigates the nature of thinking, including attention, perceptual organization, memory, imagery, concept formation, problem solving and language. Emphasis is placed on both research and practical applications of the decision-making process, strategies for problem solving and the facilitation of memory. Prerequisite: PSY-101. [3 credits]

PSY-220 Introduction to Neuroscience

This course is an introduction to the human nervous system exploring bio-behavioral relationships of the brain, mind, and behavior from a multidisciplinary perspective. Topics will include the sturcture and

function of the nervous system, sensory and motor functioning, cognition, motivation, emotion, consciousness, neuroplasticity, behavioral genetics and nervous system disorders. Prerequisites: BIO-111 or PSY-101. [3 credits]

PSY-223 Biopsychology

Presents a current understanding of the brain and its relationship to the behaviors of species from simple organisms to humans. Content includes the study of the anatomy and function of neural systems and their relationship to major disorders of the central nervous system. Contemporary techniques of neural investigation are included. The relationship between biopsychology and other content areas within psychology such as cognitive processes, human development, clinical psychology, learning, motivation and perception are high-lighted. Prerequisites: PSY-101 or BIO-111 with a minimum grade of C.

PSY-233 Human Growth and Development

Explores the principles of developmental psychology from infancy through adulthood and includes general consideration of developmental tasks through the lifespan. Prerequisite: PSY-101. [3 credits]

PSY-260 Positive Psychology

Focuses on the theoretical underpinnings and practical application of positive psychology. Students explore the fundamentals of positive psychology including human strength, virtues, positive emotions, happiness, love, humanity, leadership, spirituality, mindfulness, prosocial behavior, humane leadership, and approaches for living a healthy and meaningful life. Students learn how to apply and integrate these concepts into their understanding of the development of health lifestyles. They will also study their role in mitigating pathology, and analyze how these fundamentals are exhibited in work and community settings. Prerequisite: PSY 101 [3 credits]

PSY-271 Hrs: Psychology of Gender Roles

An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender. Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in social science and gender studies. [3 credits]

PSY-304 Adulthood and Aging

Explores developmental change over the adult life course in physical, cognitive and social domains. Examines issues of continuity and change and the impact of gender, ethnicity, and social and cultural

context on the developing person. Gives special emphasis to the mature adult and the process of aging. Prerequisites: PSY-210, PSY-233. [3 credits]

PSY-306 Theories and Techniques of Counseling

Introduces counseling perspectives, models, ethics and counseling skills for students interested in the helping professions. Surveys major theoretical paradigms and emphasizes mastery of basic communication skills useful in interpersonal relations settings. All students participate in lectures, class demonstrations, role playing and peer practice by using depart-mental counseling suites. This is the foundation course for PSY-406 Advanced Therapeutic Techniques. Prerequisites: PSY-210, PSY-205, and PSY-207 and Technical Standards as evaluated by the department. [3 credits]

PSY-306L Lab: Theories and Techniques of Counseling

This lab is a co-requisite for PSY 306 focused on concept development and discipline specific skills.

PSY-311 Special Topics

Provides a contemporary approach to analyzing and evaluating current topics in psychology or behavioral neuroscience through a critical theoretical framework along with empirical evidence. Topics vary. May be repeated with different topics for a maximum of 6 credits. Prerequisites: PSY 101 and PSY 210 (or an equivalent research methods course approved by the psychology department chair) or by permission of the psychology department chair [3 credits].

PSY-323 Sensation and Perception

Investigates the structure and function of sensory receptors and the organization of sensory input for the basic senses of vision, audition, taste, smell and touch. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-323L Lab: Sensation & Perception

This lab is a co-requisite for PSY 323 focused on concept development and discipline specific skills.

PSY-325 Learning and Motivation

Develops knowledge and research skills in learning and the experimental analysis of behavior in both animals and humans. Covers theoretical issues, basic principles and experimental procedures. Emphasizes biological explanatory mechanisms. Practical applications of basic principles are considered. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-325L Lab: Learning and Motivation

PSY-340 Quantitative Methods

Builds on the content of Research Methods I (PSY-210) to provide hands-on research and data analysis experience using more advanced techniques. Explores multivariate research designs and analysis including multifactor analysis of variance, multiple regression, factor analysis and selected non-parametric techniques. Students design and conduct a research project, write an APA research report, create a poster presentation and use professional statistical analysis software. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-340L Lab: Quantitative Methods

This lab is a co-requisite for PSY 340 focused on concept development and discipline specific skills.

PSY-342 Assessment and Evaluation

Surveys the theory and use of a variety of assessment instruments, including personality, aptitude, vocational, intelligence and interest testing. Evaluates the role of tests and questionnaires in placement and counseling. Prerequisites: PSY-101; statistics highly recommended. Students cannot take both PSY 342 and PSY 409 for credit. [3 credits]

PSY-343 Animal Behavior

Studies animal behavior from many perspectives, including the role of genetics and the environment, hormonal influences and neurobiology of behavior. Consideration of evolutionary causes and consequences. Topics include the organization and development of behavior, foraging and feeding, anti-predator behavior, mating and reproductive behavior, parenting, social behavior and animal communication. Three hours lecture, three hours laboratory/field experience. Prerequisites: BIO-230 or PSY-101. [4 credits]

PSY-343L Lab: Animal Behavior

This lab is a co-requisite for PSY 343 focused on concept development and discipline specific skills.

PSY-360 Industrial Organizational Psychology

Examines the methods, practices, and theories of industrial-organizational psychology as a specialty of psychology that focuses on individuals and structures in the workplace. Requires students to apply qualitative and quantitative methods to analyze the effectiveness and fairness of personnel

management decisions in such areas as candidate selection, performance appraisal, employee training, and employee attitudes and behaviors. Prerequisites: PSY-101 and PSY-210 or BUS-360. [3 credits]

PSY-370 Principles of Learning

Develops knowledge and practical skills in learning and the analysis of behavior applied to the work environment. Covers theoretical issues, basic principles and approaches to learning. Explores how behavioral principles are involved in employee relations and performance management. This course is for IOP majors. Not open to PSY majors. Prerequisites: PSY-101 and PSY 210 or BUS 360. Students cannot take both PSY 370 and PSY 325 for credit. [3 credits]

PSY-371 Hrs:Women and Her Symbols

Explores symbols and symbolism related to women through interdisciplinary lenses of psychology, philosophy, literature, politics, sociology, religious and cultural traditions, and art. Students will critically examine, analyze, and discuss the use of symbols in understanding women from psychological and spiritual perspectives. The use of symbols will be explored through theories, scientific evidence, cultural and religious rituals, art, and literature. Students will complete an integrative project. Prerequisite: Morrissey Scholar or permission from instructor and Morrissey Program Director. Fulfills gender studies requirement. [3 credits]

PSY-375 Sex and Gender

Explores the evidence for the cultural and biological influences on sex differences-the development of gender identity, gender role and sexual orientation. Investigates the impact of the cultural construct of gender on attitudes and behavior. Prerequisites: PSY-101 and junior standing. Fulfills general education requirement in gender studies. [3 credits]

PSY-380 Qualitative Methods

Explores the nature of qualitative methodologies, identifies which types of research questions are most appropriate for qualitative methods, and examines the assumptions underlying qualitative methods. Course focuses on the acquisition and application of qualitative analytic skills. Students complete a project involving the application of qualitative research skills. Prerequisites PSY-210 (or equivalent research course determined by the psychology department chair). [4 credits]

PSY-380L Lab: Qualitative Methods

This lab is a co-requisite for PSY 380 focused on concept development and discipline specific skills.

PSY-390 Career Counseling

Provides a practical and theoretical basis in personal and career development. Topics focus on occupational-educational information, career exploration techniques, vocational choice theory, and ethical standards, all within a context of diverse populations. Applications include computer-assisted career development and inventories. Prerequisite: PSY-101. [3 credits]

PSY-406 Advanced Therapeutic Techniques

Links the practice and application of techniques that flow from basic theoretical personality models. Expands the skills of students with clinical aptitude, background and interests. Therapeutic techniques from various clinical models are examined and tested. Communication, refocusing and redirection, behavioral assessment and change are explored. Prerequisites: PSY-205, PSY-207 and PSY-306 and Technical Standards as evaluated by the department. Conference and permission of instructor required. [3 credits]

PSY-406L Lab: Advanced Therapeutic Techniques

This lab is a co-requisite for PSY 406 focused on concept development and discipline specific skills.

PSY-409 Psychometrics

Provides opportunities for students to learn the theoretical and statistical principles related to the construction and use of psychological tests. Students will learn the standard administration, scoring, and interpretation of a borad battery of standardized cognitive and psychological assessment instruments. Students will become aware of the ethical issues related to cognitive and psychological testing. Student will be required to complete a clinical psychological assessment report analyzing and interpreting psychometric data. This course serves as an upper level research course. Lecture and laboratory. Prerequisites: PSY-210, PSY-205 and PSY-207 and Technical Standards as evaluated by the department. [4 credits]

PSY-409L Lab: Psychometrics

This lab is a co-requisite for PSY 409 focused on concept development and discipline specific skills.

PSY-411 Advanced Topics

Explores in depth a focused topic in psychology, based on instructor's area of specialization. Topic changes from year to year, with recent offerings including Psychology of Religion, Attachment, Psychopharmacology, Forensic Psychology, Health Psychology, Applied Behavioral Analysis and Culture of Violence. All students give a seminar paper and complete a major research paper.

Prerequisite: will be noted for specific course, based on topics. Prerequisite: PSY-210, senior status as a psychology major. Not open to minors. [3 credits]

PSY-420 History and Systems of Psychology

Considers, through an analytical approach, the history and development of the ideas that shaped psychology as a scientific discipline. Seminar-style deliberation concerning development of the foundational ideas of the field of psychology. Examines how the system of psychology is presently structured. Specific attention is given to the role of women in the development of psychology. Reading of original material from basic theorists in the field is required. Prerequisite: Status as senior psychology major or minor. [3 credits]

PSY-427 Study Tour: Women Surviving Trauma and Building Peace

Examines the dynamics of trauma and resilience through service-learning working with women recovering from trauma, cultivating resilience, and building peace following the Balkan Wars. Students will explore psychological processes through the lens of psychological theories, including psychodynamic and social psychology, and analyze the impact of gender, attitudes and values in the experience of stress, trauma, coping, and resilience. Students will deepen their understanding of the attitudes, values, cultural and gender factors influencing the experience of and recovery from trauma of women through direct service and through emersion into the local cutlture. Students will reflect upon the psychological factors that contribute to resilience, conflict resolution, and peace building in the context the attitudes and values related to the culture of the region and the role of women in these processes. Fulfills an upper leve course requirement for the psychology major, and the general edcuation requirements for cross-cultural studies and gender studies. [3 credits]

PSY-461 Practicum I

Provides opportunities for field experience for qualified students under professional supervision. Allows for consultative meeting with practicum coordinator concerning career goals and aspirations, which then determine the nature of a placement most consistent with student abilities and interests. Offers students an additional opportunity for advanced training and increased levels of professional responsibility through Practicum II. Requires students to meet academic and background requirements for chosen placement and to attend an academic seminar in addition to fieldwork. Prerequisite: junior psychology major status and conference with coordinator. Not open to liberal arts majors or psychology minors. Prerequisites: Technical Standards as evaluated by the department. Cannot retake if student receives a failing grade. [4 credits] Students will not be permitted to repeat PSY 461 or PSY 462 if they receive a failing grade (D or F) or are removed from their practicum site due to an ethical violation. Ethical violations are defined by the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Ethical violations may include plagiarism. The practicum requirement cannot be waived or completed through another institution.

PSY-462 Practicum II

Provides opportunities for field experience for qualified students under professional supervision. Allows for consultative meeting with practicum coordinator concerning career goals and aspirations, which then determine the nature of a placement most consistent with student abilities and interests. Offers students an additional opportunity for advanced training and increased levels of professional responsibility through Practicum II. Requires students to meet academic and background requirements for chosen placement and to attend an academic seminar in addition to fieldwork. Prerequisite: junior psychology major status and conference with coordinator. Not open to liberal arts majors or psychology minors. Prerequisites: Technical Standards as evaluated by the department. Cannot retake if student receives a failing grade. [4 credits] Students will not be permitted to repeat PSY 461 or PSY 462 if they receive a failing grade (D or F) or are removed from their practicum site due to an ethical violation. Ethical violations are defined by the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Ethical violations may include plagiarism. The practicum requirement cannot be waived or completed through another institution.

PSY-463 Independent Research/Independent Study

Independent study of a topic and development of a project of a student's choice. Includes directed readings, literature review and clinical study or data collection and analysis. Mentored and supervised by a faculty member of the department. Each student completes a major research paper and oral presentation. Prerequisites: PSY-210, PSY-340 and acceptance for supervision by a department member. [3 credits]

PSY-464 Directed Research

Students participate in the work of faculty by serving as members of a research team for one semester. May include input on project design, instrument development, data collection and analysis, literature review and development of a research report. Requirements: 10 hours/week including a one-hour conference or team meeting and one major written assignment to be determined in conjunction with the faculty supervisor. Prerequisites: PSY-210, PSY-340 and acceptance for supervision by a department member. [3 credits]

PSY-527 Study Tour: Women Surviving Trauma

Examines the dynamics of trauma and resilience through service-learning working with women recovering from trauma, cultivating resilience, and building peace following the Balkan Wars. Students will explore psychological processes through the lens of pschological theories, including psychodynamic and social psychology, and analyze the impact of gender, attituded and values in the experience of stress, trauma, coping, and resilience. Students will deepen their understanding of the attitudes, values, cultural and gender factors unfluencing the experience of and recovery from trauma of women through direct service and through emersion into the local culture. Students will reflect upon

the psychological factors that contribute to resilience, conflict resolution, and peace building in the context the attitudes and values related to the culture of the region and the role of women in these processes. [3 credits]

Minor

Campuses

Main Campus

Summary

The Minor in History equips students to analyze and interpret events of the past with the goal of building a better future. With its uniquely interdisciplinary focus, the Program of Study encourages students to augment their studies with coursework in the social sciences and humanities to gain a fuller understanding of the interplay of culture, politics, race, class, and gender in the shaping of history.

The Minor in History equips students to analyze and interpret events of the past with the goal of building a better future. It offers a strong grounding in political and cultural history in the United States and the world. The Minor is distinctive for its focus on the role of women in history, as well as issues of justice and peace throughout human history. It offers unique perspectives on historical problems of war, revolution, genocide, racism, religious intolerance, and violence against women, and provides students with experiential learning opportunities to explore the contemporary implications of these issues.

Students must earn a minimum Cumulative Grade Point Average of 2.0 in all courses taken to complete the requirements of the History Minor.

The following courses fulfill the General Education Requirement in History: HIS-101, 103, 104, 200, 203, 206, 207, 208, 211, 215, 216, 219, 221, 222, 228, 230, 233, 235, 252, 260, 261, 290, 303, 312, 317, 320, 323, 325, 327, 328, 331, 335, 338, 340, 346, 350, 352, 355, 370, 372, 373, 390, 402, 404 and 410.

History courses which satisfy the General Education Requirement in Cross-cultural Studies: HIS 160, 207, 211, , 222, 228, 233, 252, 290, 317, 320, 325, 327, 328, 331, 335, 337, 338, 346, 370.

History courses which satisfy the General Education Requirement in Gender Studies: HIS-215, 261, 290, 303, , 323, 350, 352, 355, 402.

Programs of Study

Minor in History

The Department offers a Minor in History consisting of a minimum of 18 credits of course work in history. HIS-101 Dynamics of History or HIS-456 Junior/Senior Seminar in History is required. The other courses are chosen in consultation with the department chair. Students who wish to Minor in History should consult the department chair.

Courses

GEO-206 Geography of the Major Regions Of the World

Surveys the different regions of the world with a focus on the dynamic relationships among them. Considers physical, demographic, ethnic and economic differences. A requirement for elementary education/liberal studies students. [3 credits]

HIS-101 Dynamics of History

Introduces students to analysis of primary sources and to key aspects of critical thinking in history. Offers the opportunity to do history by exploring and interpreting print and online primary sources. Students consider the same historical materials as primary source, as written historical account (secondary source) and as film. A final project is an oral history interview. Fulfills general education requirement in history. [3 credits]

HIS-103 Ancient World

Concentrates on providing an overview of the birth, contributions and decline of classical civilization. Focuses on political, social, cultural and intellectual history of Greece and Rome. Fulfills general education requirement in history. [3 credits]

HIS-104 Early Europe: 800-1648

Concentrates on the cultural and institutional development of European self-consciousness as separate from its Greco-Roman origins. Emphasizes the development of European city-states and a divided Christianity. Fulfills the general education requirement in history. [3 credits]

HIS-160 Introduction to Peace Studies

This is an introduction to peace and justice studies. The course focuses on negative peace (i.e., eliminating direct violence, including war) as well as positive peace building (fostering an equitable economic system and ecological balance). The course analyzes the roots of violence and inequity as well antidotes to these problems. Fulfills general education requirement in cross-cultural studies and history. [3 credits]

HIS-200 Hrs: To Break the Killing Machine: Understanding, Preventing, and Overcoming Genocide

Examines the nature, causes and consequences of genocide in order to understand the possibilities and challenges of preventing genocidal violence in the future. The course introduced students to the controversies surrounding the definition and analysis of genocide. It begins with the contested question of what constitutes genocide, and how genocide stands apart from other forms of mass violence such as ethnic cleansing and massacres. The course then considers several approaches to theorizing the causes of genocide. In addition, we analyze the challenges of identifying potentially genocidal situations before the killing begins and of intervening to prevent and stop genocides. The course also studies processes of reconciliation in societies that have experienced, or teetered on, the brink of genocide. Using scholarly texts, works of fiction and films, we explore issues of causation, intervention and healing in cases including the colonial genocides of indigenous populations, the Holocaust, Rwanda, Cambodia, Bosnia, Kosovo, the Iraqi Kurds and Darfur. Ultimately, the course asks students to decide whether genocide is an inevitable scourge of the human condition or a tragic aberration that humanly has the power to transcord. [3 credits] Fulfills General Education Requirement: History

HIS-203 Colonial America

Examines the development of the British colonies in North America into autonomous entities. Accounts for their rebellion from Britain and considers the establishment of the new nation. Fulfills general education requirement in history. [3 credits]

HIS-206 The United States in the 19th Century

Surveys the development of the United States from the ratification of the 1789 Constitution to the

transforming election of 1896. Explores the maturation of American political, economic, social, cultural and legal life in the period. Fulfills general education requirement in history. [3 credits]

HIS-207 Ethnic Groups in America

Analyzes the American social fabric by examining the experiences of several ethnic groups, including, but not limited to, Native Americans, Asian and European immigrants, Hispanic Americans and African Americans. Fulfills general education requirement in history and cross-cultural studies. [3 credits]

HIS-208 The United States:1900-1945

Examines the transformation of the United States into an industrial-urban state and the impact of reform movements on American politics and life. Considers the rise of the United States as a world power. Fulfills general education requirement in history. [3 credits]

HIS-211 Introduction to East Asian Civilization

Focuses on major stages in the development of Chinese civilization from earliest times to about 1850. Also discusses the history of peoples who received their higher culture from China, such as the Japanese, and of nomadic groups that interacted with the Chinese over many centuries, such as the Mongols. Fulfills general education requirement in history and cross-cultural studies. [3 credits]

HIS-215 Women in American History

Surveys the historical significance of women's changing roles in American society from the colonial period to the present. Emphasizes differences on the basis of race, class and region. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-216 The United States, 1945 to the Present

Examines the United States since World War II with a focus on the origins and longevity of the Cold War, the war in Vietnam, and the social and political upheaval of the 1960s and 1970s. Fulfills general education requirement in history. [3 credits]

HIS-219 The American Presidency

Examines presidential power, presidential elections, foreign and domestic policy, presidential decision-making, and relations with Congress with historic and contemporary examples. Fulfills general education requirement in history. [3 credits]

HIS-221 Early Modern Europe

Examines European history from the Renaissance to the French Revolution (ca. 1350-1800) in an investigation of the following question: Why and how did the modern world originate in previously

backward Europe? Stresses use of primary sources. Fulfills general education requirement in history. [3 credits]

HIS-222 Europe: 1848 to Present

Examines the political and intellectual zenith of Europe in the 19th century and its decline during the two World Wars. We emphasize the changing intellectual outlook: imperialism, right- and left-wing totalitarianism, socialism, the formation of the European Union, the fall of communist governments in the east and current immigration problems. Fulfills general education requirement for history and cross-cultural studies. [3 credits]

HIS-228 World History Since 1500

Introduces students to the history of the modern world. Students will examine political, economic, and social changes of the last five centuries, focusing on the relations between societies and cultures and how they have shaped the modern world. Emphasis will be placed on the rise of industry and technology, the changing role and nature of conflict, the worldwide evolution of political and religious ideologies, global and culture-specific shifts in gender roles, the development of international interdependence, and the impact of social movements on world history. Fulfills general education requirements for history and cross-cultural studies. [3 credits]

HIS-230 People and Life in Maryland

Examines the political, social and economic history of Maryland from the colonial period to the 20th century. Fulfills general education requirement in history. [3 credits]

HIS-233 Europe and the World

Examines European diplomatic relations from the Congress of Vienna to the present. The course will focus on the major 19th century events as well as World War I, World War II, the Cold War and the post-Cold War periods. Fulfills general education requirements for history and cross-cultural studies. [3 credits]

HIS-235 Post-Communist Experience

Explores the evolution of communist beliefs and institutions across the breadth of the 20th century. Studies the weakening and ultimate disintegration of those beliefs and institutions in the Soviet Union and its satellites151one of the most significant clusters of world events of the late 20th century. Fulfills general education requirement in history. [3 credits]

HIS-252 Latin American History and Politics

Analyzes the history or Latin America from pre-Columbian times to the present, navigating through colonialism, independence, the formation of nations, military and personal dictatorships, to current imperfect democracies. The course reviews the economic swings between protectionism and neo-liberalism, and studies how different countries deal with income inequality, race, environmental issues, the changing role of women, cultural differences, and the role of religion. Case studies will focus on Argentina, Brazil, Mexico, Chile, Venezuela, and Cuba. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-260 Top/Themes Russian Hist

HIS-261 Winning the Vote: The History of Women's Suffrage in America

Uses primary and secondary sources to examine the struggle for women's suffrage from the colonial period to the 20th century. Focuses on suffrage leaders and the strategies they implemented to secure the right to vote for American women, with attention paid to racial and class differences. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-290 Women in Islamic Societies

Examines the historical development and current realities of women's political, cultural, and economic roles in Islamic societies. The course explores the diversity of women's roles in Muslim countries in Europe, Central Asia, the Middle East, africa, and Asia. It examines how women have influenced, and been affected by, international trends such as the spread of democracy, the rise of religious fundamentalism, and the process of globalization. Students learn how Muslim women have defined themselves, and been defined, in the realms of political/social activism, work, the arts and culture, and the family. In addition, students critically analyze Western perceptions and stereotypes of Muslim women and their lives. Fulfills general education requirement in history, cross-cultural and gender studies. [3 credits]

HIS-303 Women in the Ancient World

Examines the contributions of women to the making of the ancient world through a study of their lives and writings. Looks briefly at women in Mesopotamia and Egypt; then focuses primarily on women in ancient Greece and Rome. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-312 From the Poor House to the Great Society: A History of Welfare in the United States

Examines changes in the delivery of aid to poor Americans from a system of charity by private institutions to one of public welfare provided by the state. Explores the "feminization of poverty" and

the ways in which race, ethnicity, class, region and age affected the provision of services. Fulfills general education requirement in history and gender studies. [3 credits]

HIS-317 The African American Experience

Examines the experiences of African Americans in the United States from the 17th century to the civil rights movement of the mid-20th century. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-320 The African Diaspora

Examines the historical experiences of Africans in the African Diaspora with a focus on the international dimensions and commonalities. Concentrates attention on the creation and definition of the African Diaspora, the chronology of significant events in Diaspora history, and the struggle by Africans to obtain social, political and economic equality in their respective global locations. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-323 Black Women in American History

Examines the historical experiences of African American women from the colonial period to the present. Focuses on the impact of race, culture and ethnicity; the chronology of significant events in African American women's history; significant contributions by African American women; and the struggle for social, political and economic equality. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-325 Revolution and Terrorism

Traces the causes, patterns and outcomes of the French, Russian, Cuban and Iranian Revolutions, and analyzes the similarities and differences between revolutionary movements and guerrilla and terrorist groups. The course looks at the ideological, ethnic and religious terrorist groups with a special emphasis on religious terrorism and its worldwide impact. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-327 Slave Freed/Afr Am Exp Md

This course examines the African-American experience in Maryland from the colonial period until the Civil War. The daily life of slaves and free blacks is examined as well as the struggle for freedom. The relationship and attitudes of white Marylanders toward their African-American neighbors is explored in terms of the state's policies regarding slaves and free blacks. The course also examines how Maryland's position as a border state with northern and southern characteristics and sentiments affected these policies. Fulfills General Education requirements for history and Cross-cultural Studies. 3 credits.

HIS-328 Post-Colonial Africa

Focuses on helping students understand the socioeconomic, political and cultural development of Africa in the post-colonial era. Students examine the struggle for and acquisition of independence from European powers, the experiences of early post-colonial regimes, and the threat of post-colonialism. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-331 Modern China

Illuminates today?s China by examining central themes in the modern revolution there, from 1850 to the present time. Focuses also on fundamental social and political change as human experience in Chinese literature and autobiographical writing. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-335 Modern Japan

Studies the modern transformation of Japan from the mid-19th century to the present day. Focuses especially on distinctive patterns of Japanese society and their influence on modernization, characteristics of Japanese cultural identity vis-?-vis the West, key factors in Japan's economic life and problems in Japanese-American relations. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-338 Russia Since 1917

Examines major problems of interpretation in the history of the Russian Revolution and the Soviet Union. Focuses especially on the fall of the Soviet Union and its aftermath in Russia and the independent states. Addresses cultural as well as political and economic issues. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-340 History of the Holocaust

Uses original and secondary sources, including memoirs, survivor and perpetrator testimonies, films, and scholarly texts, to examine the history of the Holocaust. Examines the nature, causes, and consequences of the Holocaust, and introduces students to the controversies surrounding its analysis, meaning, and legacies. Fulfills the General Education Requirement for History. [3 credits]

HIS-346 History of Middle Eastern Politics

Engages in a comprehensive analytical examination of Middle East politics with a special focus on four problem relationships: The Israelis and the Palestinians; the Arabs and the Persians; the Turks and the Kurds; and the Indians and the Palestinians. The role of the United States in each of these conflicts--as well as the continuing unrest in Afghanistan, Kuwait, Saudi Arabia and Iraq151will be

discussed. The Palestinian situation will be a topic of intense concentration. Fulfills the general education requirements in history and cross-cultural studies. [3 credits]

HIS-350 Harlots and Helpmates: The History of Women in Europe, 1750-1945

Examines the changing relationship of European women to the family, the workplace and the state during the 19th and 20th centuries. Places particular emphasis on French and English women. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-352 Honors: Educating Women in the United States

Examines women's education from the colonial period through the mid-20th century. Pays particular attention to the contributions of key educators and on the ways race, class, ethnicity and gender shaped decisions about who was to be educated, by whom, and for what purpose. Assesses contemporary issues in women's education. Prerequisite: Morrissy scholar or permission. Fulfills the general education requirements in history and gender studies. [3 credits]

HIS-355 Women and Work: The American Experience

Examines the historical origins of the current status of women in the American work force with a focus on the effects of technological and economic change, on social attitudes toward working women, and on women's efforts at unionization. Pays attention to differences among women on the basis of race and class. Fulfills general education requirements in history and gender studies. [3 credits]

HIS-370 Honors: The City in History

Considers the reality that, before 1800, most people everywhere lived in rural villages or small towns, in a world of long-familiar faces. More recently, many have lived in cities of more than one million in population in what one sociologist calls a "world of strangers." What difference does it make? How does society control individuals in a big city? How do individuals experience urban life? Social scientists have long debated these questions, and the course examines the major answers that they have proposed. It also considers the implications of those answers for the solution of today's city problems. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-372 Classical Archeology

Studies the material remains of ancient Greece and Rome. In addition to printed materials, uses films, slides and Internet access to examine and discuss several major archaeological sites and the effect of their excavation on our knowledge of the ancient world. Fulfills general education requirement in history. [3 credits]

HIS-390 Environmental Policy at the U. S. State and National Level

Focuses on U.S. state and national environmental policies regarding air and water pollution, use of public lands, climate change, and alternative energy sources. The course will also focus on risk assessment and environmental justice issues. Students will analyze the historical development of policies as well as current and evolving political processes. Fulfills general education requirement in history. [3 credits]

HIS-402 Women, War and Peace

Examines the wartime experiences of women in Europe, the United States and Asia. Addresses question of how perceptions of women and "female nature" inform attitudes about women's wartime roles. Uses historical monographs, literature, art and film to examine and evaluate the relationship between war and gender. Also assesses women's role in the international peace movement. Fulfills general education requirements in history and gender studies. [3 credits].

HIS-404 United States Foreign Relations in the 20th Century

Examines United States foreign relations from the end of World War I to the post-Cold War Era. Focuses on the Cold War, its aftermath and the fallout from September 11. Fulfills general education requirement in history. [3 credits]

HIS-410 Law and Society in America

Explores the history of law in the United States from the colonial period to the present. Considers the symbiotic relationship of law and social/political developments. Fulfills general education requirement in history. [3 credits]

HIS-427 Study Tour

Combines study with travel to various parts of the world. Organized by faculty members of the department. Offered periodically in summer and Winterim. [3 credits]

HIS-456 Senior Seminar in History

Applies ideas, methods, and approaches from history, political science, and international studies to the exploration of selected topics. Students situate their discipline within the context of related fields, while also advancing the skills necessary for professional work in their own areas. In this team-taught course, history majors address the selected topic through focusing on the history of history, the politics of history, and the art of writing history based on original sources. Meanwhile, political science and international studies majors use the selected topic as a focal point for synthesizing their understanding of the diverse theories and methods of their disciplines. All students will, in consultation with their professors, select, design and write an original research paper to be presented to the class at the end

of the semester. Serves as the capstone course for history, political science, and international studies majors. Pre-requisites: POL 101 or 103 and POL 361 for Political Science and International Studies majors; HIS101 for History Majors. [3 credits]

HIS-463 Independent Study in History

Provides opportunities for individual study of a specific topic of special interest in history, usually involving research under the guidance of faculty of the department. [2-6 credits]

HIS-465 Directed Readings: Selected Topics in History

Provides an opportunity for individualized study, under the guidance of a department member, with regular discussions of written works. Permits a student to do an intensive examination of an area or topic of special interest. [3-4 credits]

International Business (Major)

Department

Deborah Calhoun, M.B.A. Ph.D, *Chair*
Ademar Bechtold, Ph.D.*Coordinator*

Degrees offered

Major

Campuses

The International Business Major is offered to students in the Women's College. Students completing the Major acquire the business, trade, cultural, international affairs, and language skills to become successful leaders in the competitive global marketplace.

Summary

Women's College

The world of business is changing as national economies merge into an interdependent and global economic system where more firms, large and small, become international in scope. The International Business Major provides a strong foundation of knowledge and skills to deal with the complexities that arise from doing business in different countries. International Business students learn how to take advantage of globalization of production and markets to minimize costs and to maximize value added for their companies. They learn how to evaluate exports, imports, licensing, joint ventures and foreign investment opportunities by gaining knowledge of the rules governing international trade and investment, by developing strategies to deal with government interventions, and by learning how to manage risks associated with converting dollars into foreign currencies.

Students who complete the International Business Major will think globally about employment, production, sales, and investment opportunities. They will apply techniques and theories from major areas of business to global enterprises and analyze the current global trade and investment

environment and its links to the political economy and the global monetary system. Graduates will be able to communicate and work effectively with people in other countries and cultures, as well as to formulate international business plans. They will be models of cross-cultural awareness through teaching, scholarship, and community outreach - with special emphasis on culture, ethics, and business practices and protocols in different countries.

Knowledge of international business has become important in several fields, including public relations, human resources, marketing, advertising, finance, and management. Students with an international business degree have many employment opportunities. These include marketing manager, brand manager, global logistics manager, project manager, public relations specialist, training specialist, labor relations manager, human resource manager, financial analyst, sales manager, import/export agent, entrepreneur, and management analyst.

A grade of C or better is required for all courses in the International Business Major.

Program of Study

Required Courses for a Major in International Business (Credits)

BUS-253 Financial Accounting (3)
BUS-225 Data Analysis for Business Decisions (3)
BUS-302 Principles of Management (3)
BUS-303 Principles of Marketing (3)
BUS-321 Corporate Financial Management (3)
BUS-334 Teamwork and Negotiation (3)
BUS-350 International Business (3)
BUS-442 International Finance (3)
BUS-450 International Business Capstone (3)
ECO-211 Introduction to Macroeconomics or ECO-212 Introduction to Microeconomics (3)
ECO-404 International Economics (3)
POL-103 Introduction to International Affairs (3)
POL-351 Problems of Developing Nations or POL-440 Global Issues (3)
POL-401 Political and Economic Globalization (3)
Foreign language: one course beyond the general education requirement (3)
Study Aboard, short term study tour or internship (3-4)

Computer Competency

A computer competency is required. A student may demonstrate this competency by one of two methods: completing CST-130 Introduction to Microcomputer Applications (or a comparable course) or

earning a passing score of 70% on the CST-130 Challenge Exam.

International Business Majors must fulfill the General Education Math Requirement with MAT-103 Applied Algebra, College Algebra or MAT-211 Calculus.

Four-Year Plan

Below is a sample Program of Study for the International Business Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
BUS-105 or elective	3	ECO-211 or ECO-212	3
General Education/Electives	6	Foreign language 102	3
POL-103	3	General education/Electives	6
Foreign language 101	3	[15 credits]	
[15 credits]			
Second year			
BUS-253	3	BUS-225	3
BUS-302	3	BUS-303	3

International Studies (Major)

History and Political Science Department

Anne E. Henderson, Ph.D., *Coordinator*

Degrees offered

Major
Minor

Campuses

Main Campus

The International Studies Program of Study in the College of Arts, Sciences, and Business offers a Major to students in the Women's College. The Program develops the global knowledge and skills students will need in order to thrive in an increasingly interconnected world. Core courses in International Studies are drawn from the Political Science and History, Business and Economics, and Modern Foreign Languages Departments. The Program fosters an understanding of different cultures as well as the institutions, ideas and policies that determine how nations relate to each other in the 21st century. An off-campus experience in the form of an internship, study abroad semester or study tour provides the student with opportunities to immerse herself in another culture and to apply her knowledge in a realistic setting while increasing her awareness of career possibilities in the field.

Summary

International Studies students choose a specialization in International Business or International Relations, and can Minor in Asian Studies or Latin American Studies. Students are strongly encouraged to complete MAT-215 Statistics to satisfy their General Education Requirement in Mathematics and ECO-211 Macroeconomics for the Social Science General Education Requirement.

Students must earn a minimum cumulative grade point average of 2.0 in all courses taken to complete the requirements of the Major.

Programs of Study

Required Core Courses for a Major in International Studies (Credits)

POL-103 Introduction to International Affairs (3)
POL-401 Political and Economic Globalization (3)
HIS/POL 456 Senior Seminar

Four of the following five courses:

POL-440 Global Issues (3)
HIS/POL-325 Revolution and Terrorism (3)
HIS-404 U.S. Foreign Relations (3)
HIS/POL-330 European Foreign Relations Since 1815 (3)
POL-351 Problems of Developing Nations (3)

Off-campus experience (one of the following) (3+)

Internship (IDS-361, 461)
Study tour
Study abroad semester

Foreign language*

Two courses beyond the General Education Requirement (one may be a culture course in the foreign language) (6)

**International Studies students may take LEF-203 English: Conversation for International Students or LEF-204 English: Composition for International Students to fulfill the language requirement for the Major, or may be exempted from the language requirement if they test above LEF-203 or LEF-204.*

International Studies with a Concentration in International Business

In addition to the required Core courses:

BUS-261 Managing Financial Resources (3)
BUS-302 Principles of Management (3)
BUS-303 Principles of Marketing (3)
BUS-350 International Business (3)

ECO-212 Introduction to Microeconomics or
ECO-211 Introduction to Macroeconomics (3)
ECO-404 International Economics (3)

International Studies with a Concentration in International Business—Four-Year Plan

Below is a sample Program of Study for the International Studies—International Business Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
NDMU-100 Perspectives in Education	3	Philosophy (200-level)	3
ENG-101 College Writing	3	COM-106 Fundamentals of Oral Comm	3
POL-103 Introduction to International Affairs	3	MAT-215 Statistics	3
Foreign Language	3	ECO-211 Macroeconomics or ECO-212 Microeconomics	3
BUS-302 Principle of Management	3	BUS-303 Principles of Marketing	3
[15 credits]		[15 credits]	
Second year			
ECO-211 Macroeconomics or ECO-212 Microeconomics	3	RST-201 Introduction to Biblical Studies	3

2018-2019

Latin American Studies (Minor)

Anne E. Henderson, Ph.D., Coordinator

The Latin American Studies Minor is an interdisciplinary program for students in the Women's College offering students the opportunity to focus on the rich diversity of the Latin American and Caribbean region. The combination of courses in the history, culture, politics, and economics of the region, combined with proficiency in Spanish, enhances student awareness and understanding of this complex area and its people.

The Program is designed for students who wish to specialize in Latin America and those for whom a deeper knowledge of the region would complement careers in business, education, foreign affairs, government, journalism, law, medicine, religion or humanitarian work.

The Minor consists of six courses (18 credits) and must include two courses in Spanish above the General Education Requirement (one skills course, and one literature or culture course). The remaining four courses may be selected from business, economics, history or political science, according to individual interests. No more than two courses applied to the student's Major may be applied to the Latin American Studies Minor.

Study abroad is strongly recommended. No more than two courses toward the Minor may be taken through any one study abroad program. Currently, Notre Dame sponsors a program at the Cuernavaca Universidad Internacional Center for Linguistic and Multicultural Studies. Notre Dame-approved programs in Latin America are CIEE (Council on International Educational Exchange) sponsored programs in Santiago de Chile (Universidad e Chile y Pontificia Universidad Catolica de Chile), in Costa Rica (Monteverde), and in Santiago, Dominican Republic (Pontificia Universidad Católica Madre y Maestra). One study tour to Latin America may count toward the Minor. One course or study tour from any area school participating in the consortium may count toward the Minor, subject to approval by the Notre Dame Minor advisor.

Back to top

Program of Study

One skills course in Spanish, chosen from

LSP-233 Spanish for Oral Proficiency
LSP-234 Spanish for Written Proficiency
LSP-301/302 Advanced Spanish Conversation and Composition I, II

One literature or culture course in Spanish, chosen from
LSP-258 Readings in Hispanic Literature
LSP-310 Survey of Masterpieces in Latin American Literature I
LSP-311 Survey of Masterpieces in Latin American Literature II
LSP-359 Latin American Culture and Civilization
LSP-401 Topics in Spanish
LSP-463 Independent Study

Four courses from the following list
BUS-350 International Business
ECO-307 Comparative Economic Systems
ECO-404 International Economics
ECO-411 Topics in Economics (if related to Latin America)
HIS-252 Latin American History and Politics
HIS/POL-325 Revolution and Terrorism
POL-351 Problems of Developing Nations
POL-370 Honors: Model OAS
POL-440 Global Issues
POL/HIS/LSP-427 Study Tour to Latin America

Independent Study courses in Latin American culture, history, political science, economics or business.

2018-2019

Leadership in Hospitality and Event Management (Major)

Business and Economics Department

Gemma Wenner, MTA

Degrees offered

Major

Campuses

Main Campus

The Leadership in Hospitality and Event Management Program of Study is designed to prepare graduates to function at entry to mid-level management positions within the hospitality/leisure services industry. Courses are organized to provide theory and real-world application for basic to mid-management level opportunities within the main sectors of a hospitality and event management career, providing opportunities and professional consideration in hotel and lodging, meeting and convention, food service, country club, and tourism enterprises. Variations in internships, real-life learning and availability of electives accommodate those who have no experience as well as incumbent workers who have relevant past experience. The Program will prepare graduates for sustainable, lifelong employment in the hospitality field.

Course Descriptions

LHE-1110 Introduction to Hospitality Management (3)

Explores the broad spectrum of the leisure and event industry. The course surveys professional operations and practices associated with hospitality and event management field: food service, lodging, travel/tourism, recreation, gaming and entertainment, meeting and convention and expositions. The course explores historical aspects of hospitality as well as current best practices related to hospitality and event management. In addition, students will examine the basic functions of

management and business administration principles related specifically to this field. Student will engage the learning process for the course objectives through class lecture, interactive class activities guest speakers, and experiential learning tied to field trips and excursions.

COM-375-01/20 Special Topics – Introduction to Event Planning/Communication in Hospitality Operation (3)

Explores communication in the planning an event management field. The course focuses on the skills requires skill required in the coordination and execution of events. Paying attention to detail-oriented, problem-solving, creative thinkers. This course will introduce students to an overview of the basics of planning an event – including types of events, venue selection, catering, marketing & promotions, networking, budgeting, execution and evaluation. This course is a good career option for those with strong organizational and communication skills. Businesses rely on successful events to encourage growth and promote enthusiasm throughout an industry in regards to their company; non-profit organizations rely on successful events to raise awareness and funds; and individuals rely on experienced planners to help create meaningful and memorable events – weddings, birthday celebrations, anniversaries, graduation parties, etc. In this course, you will learn about various types of events and plan your own case study event from start to finish.

LHE-1210 - Managing Service in Food and Beverage Operations (3)*

Explores the basic understanding of the management process in food and beverage operations. The course special emphasis is on the institutional aspects of food and beverage management common to restaurants, cafeterias, hotels, conference centers and clubs. This course offers a student the knowledge necessary to succeed in an entry to mid-level management position in the hospitality industry as it relates to food and beverage management. The course also covers subjects such as food service sanitation procedures, quality standards, operational organization, marketing, menus, costs and pricing, production, and finances. Students engage in the learning process for course objectives through class lectures, guest speakers and field trips.

LHE-2xxx Casino Operations (3)*

This course provides an overview of the gaming industry with an emphasis on casino hotel operations as an integral part of the hospitality industry. Topics include the history of gaming, casino layout and design, surveillance, demographic profiles, psychological profiles, and economic impact.

LHE-2xxx – Lodging Management (3)*

Explores a systematic approach to managing the lodging management in particular the front office operation through an examination of the critical management functions and interdepartmental dynamics essential to operational success and guest satisfaction at hotels, resorts and timeshare properties. The course investigates revenue management, business forecasting, budget planning, how blogging and social networking affect hotels, the impact of automated information technologies on a

variety of front office functions, and manual backup procedures for automated system failure. Students engage the learning process for the course objectives through class lecture, case studies, field trips and hands-on applications.

LHE-2xxx – Legal Environment, Human Resources & Labor Relations (3)*

Explores the legal environments as it relates to food service, travel, and lodging industries. Covers the laws of the various nuances of the hotel, restaurant, bar, spa, country club, meeting, and convention industries, among others. Hospitality law commonly encompasses a wide array of laws including contracts, anti-trust, torts, real estate, and many others. This course also covers cases that have brought hospitality laws front and center in the public conscience. The course also explores human resources guidelines and requirements to include ADA policies as it relates to the hospitality industry.

LHE-3xxx - Management Information Systems for the Hospitality Industry (3)*

Explores the information needs of Hospitality properties, food service establishments and methods of addressing different event management venues with an information systems approach; addresses essential aspects of computer systems such as hardware, software and generic applications; focuses on computer-based property management systems for both front office and back office functions; examines features of computerized restaurant management systems; describes event sales computer applications, revenue management strategies and accounting applications; addresses the selection and implementation of computer systems; focuses on managing information systems; and examines the impact of the Internet and private intranets on the hospitality industry.

LHE- 3xxx - Catering and Special Events (3)*

Prerequisite: Managing Service in Food and Beverage Operations

Explores the basic understanding of the management process in catering and event operations. The course special emphasis is on off-premise and on-premise catering for social and business functions and the management of large-scale independent events such as sporting events, artist performance, and production launches. This course offers a student the knowledge necessary to succeed in an entry to mid-level management in the catering field, this course also includes aspects of organizational structure, legal aspects of catering and special events management, production and service development, marketing and sales, catered functions and special planning execution, staff recruitment and training. The course also focuses on recording keeping and analysis for financial success of catering.

LHE- 4xxx Sustainable and Eco-Tourism (3)*

Explores travel and the impacts of tourism throughout history and the world. Offers an International and global approach to the travel industry, an all-encompassing exploration of the travel industry. The course explores tourism, attractions, food, planning, accommodations, transportation and more, with a

full examination of economics, cultural impact, environmental effects, and governmental involvement. Students engage the learning process for the course objectives through lecture, guest speakers and field trip.

LHE 4xxx - Sports, Recreation and Convention Management (3)*

Explores the field of sport, recreation and event/convention management. The course will address the benefits of sport and recreation, the problem areas facing sport and recreation management, the socio-cultural dimensions of sport and recreation as they relate to sport and recreation management, the relationship between sport and recreation behavior and the natural environment, the evolution of the sport and recreation management profession, the institutional basis for the sport and recreation movement in the United States, the governance of sport, career opportunities in sport and recreation management, professional organizations, the roles of professional sport and recreation managers, ethical behavior and ethical codes in sport and recreation management, and current issues and trends in sport and recreation.

Courses

HOS-190 Introduction to Hospitality and Event Planning

Explores the broad spectrum of the leisure and event industry. The course surveys professional operations and practices associated with hospitality and event menagement field: food service, lodging, travel/tourism, recreation, gaming and entertainment, meeting and convention and expositions. The course explores historical aspects of hospitality as well as current best practices related to hospitality and event management. In addition, students will examine the basic functions of management and business adminstration principles related specifically to this field. Students will engage the learning process for the course objectives through class lectures, interactive class activities, guest speakers, and experiential learning tied to field trips and excursions. [3 credits]

HOS-200 Special Topics in Hospitality and Event Management

Investigates salient professional and industry issues within the Hospitality and Events Management field. The topics and course design vary to allow exploration of areas of current concern, such as tourism in a particular geographical region or cultural contect. Classes typically require field trips, occasional overnight participation, day excursions, conferences, and a combination of hands-on assignments. Students achieve course learning objectives through class lectures, interactions with professional practitioners, field trips, and other experiential learning opportunities. [3 credits]

HOS-210 Professional Communication: Hospitality and Event Planning

Emphasizes professional written and oral communication, social media skills, press release and event information, marketing collateral, and other modes of communication required in the field. [3 credits]

HOS-230 Travel and Tourism

Basic introduction to the social science of tourism in the U.S. and the world, including definitional issues, motivations for travel, factors influencing demand-side and supply-side growth, the tourism product, market segmentation and marketing, socioeconomic, and ecological impacts, and destination life cycle dynamics. [3 credits]

HOS-250 Food and Beverage Safety Certification

Explores the basic understanding of the management processes specific to food and beverage operations. The course places special emphasis on the institutional aspects of food and beverage management common to restaurants, cafeterias, hotels, conference centers and clubs. This course offers students the knowledge necessary to succeed in an entry- to mid-level management appointment aligned with this specialization in the field. The course covers topics such as food service sanitation procedures, quality standards, operational organization, marketing, menus, costs and pricing, production, and finances. Students engage in achieving the course learning outcomes through class lectures, guest speakers, field trips and experiential learning opportunities. Prerequisite: HOS-190, Introduction to the Hospitality and Event Planning Industry. [3 credits]

HOS-350 Food and Beverage Safety Certification

Explores the basic understanding of the management processes specific to food and beverage operations. The course places special emphasis on the institutional aspects of food and beverage management common to restaurants, cafeterias, hotels, conference centers and clubs. This course offers students the knowledge necessary to succeed in an entry- to mid-level management appointment aligned with this specialization in the field. The course covers topics such as food service sanitation procedures, quality standards, operational organization, marketing, menus, costs and pricing, production, and finances. Students engage in achieving the course learning outcomes through class lectures, guest speakers, field trips and experiential learning opportunities. Prerequisite: HOS-190, Introduction to the Hospitality and Event Planning Industry. [3 credits]

HOS-360 Catering and Special Events

Management techniques, including planning, production, and performance of off-premise catering.

Provide leadership and commnicate direction for production of an event including developing budgets, publicity, adertising, fund raising, choreography, staging, lighting, and food. [3 credits]

HOS-370 Lodging Management

Introduction to functional department activities and current issues of lodging organizations with emphasis on front office and housekeeping. Reservation activities and night audit exercises. Case studies. [3 credits]

HOS-380 Meeting and Convention Management

Application of event management principles to conference and meeting planning, trade shows, and conventions focusing on budget development, resource allocation, promotion, hospitality, and professional development. [3 credits]

HOS-400 Hospitality Management Information Systems

Covers the use of technology to support work in the hospitality industry, including reservation and ticketing systems, financial tracking and reporting systems, HR technology systems, and other related technology services. [3 credits]

HOS-450 Legal Environment: Hospitality and Event Management

Reviews laws relating to ownership and operation of hospitality organizations, as well as the duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions are discussed and explored. [3 credits]

HOS-470 Human Resources and Labor Relations

This foundation course provides students with knowledge, skills and understanding of human resource management and workforce development. Students learn about major human resource functions and how each impacts the performance of the organization. This course explores the theory and practice of negotiations within the sports, entertainment, event, hotel, tourism and food service industries. [3 credits]

HOS-480 Supply Chain Logistics: Hospitality and Events

Explores topics related to design and management of supply chains, from incoming materials to final

product delivery in the hospitality and event industry. Course topics will include supply chain network design, facility planning, capacity planning, globalization and outsourcing, information technology, and global issues in supply chain management. [3 credits]

HOS-490 Contemporary Topics in Hospitality and Events

Students will apply theory and best practice acquired through the program sequence to case study analysis of current trends and challenges facing the hotel, food and beverage, catering and banquet, human resource, and event planning sectors of the industry. This course is designed to apply the skills necessary for success in hospitality management to real-world issues and scenarios. [4 credits]

2018-2019

Liberal Arts (Major - Option A, Option B, Option C)

Department

Debra Minick Franklin, Ph.D.

Degrees offered

Major

Campuses

Main Campus

The College of Arts, Sciences, and Business offers an Interdisciplinary Major to students in the College of Adult Undergraduate Studies and the Women's College. This Program of Study encourages the student to develop a broad understanding and appreciation of the main areas of human knowledge and values. Under the guidance of an academic advisor, the liberal arts student is encouraged to develop an integrated approach to the study of liberal arts.

Summary

Women's College and College of Adult Undergraduate Studies

Through the Liberal Arts Major, students select their courses to meet their interests and goals. For Option A, B and C discussed below, the Major consists of 12 courses, six of which must be at the 300- or 400-level. The courses in the interdisciplinary Major are exclusive of the General Education Requirements for the degree. The 12 courses required for the Major must be completed with a grade of C or higher. A student with transfer credits must also meet the above requirements. All students, including transfer students, must complete least eight total courses in the Liberal Arts major at Notre Dame.

Programs of Study

Option A

The student selects a primary track of seven courses (four of which must be upper-division) and a supporting track of five courses (including two upper-division courses). Students must complete at least two courses in each track at Notre Dame. The student is strongly advised to select the primary and supporting track prior to completion of 60 credits. Students in the Women's College may select from the following tracks:

Art	Economics	Philosophy
Biology	Education	Physics
Business	English	Political Science
Chemistry	History	Psychology
Classics	Mathematics	Sociology/Criminology
Computer Studies	Modern Languages	Religious Studies
Communication Arts/Digital Media Arts	Music	

Students in the College of Adult Undergraduate Studies may select from among the following tracks:

Art (supporting track only)	Education	Sociology/Criminology
Business	English	Religious Studies
Computer Studies	History	

Courses Required for Option A (Credits):

Art

ART-120 Art of Europe and the Near East or
ART-121 Art of Europe & the United States (3)

Any one of the following:

ART-101 Drawing I (3)
ART-102 Color and Design (3)
ART-103 Three Dimensional Design (3)
ART-109 Basic Photography (3)
ART-142 Painting I (3)

Biology

BIO-111 Fundamentals of Biology (4)
Either BIO-307 Ecology or BIO-311 Evolution (4)

Business

One course in economics.

Chemistry

Primary Track

CHM-110 and 111 General Chemistry I and II (8)
CHM-210 and 211 Organic Chemistry I and II (8)
CHM-303 Analytical Chemistry (4)
CHM-350 Chemical Literature (1)

One of the following

CHM-301 Physical Chemistry I (4)
CHM-305 Instrumental Analysis (4)
CHM-425 Biochemistry I (4)

Classics

Primary track

1 course in Latin or Greek, above the 103 level (3)
6 courses selected with the approval of the liberal arts advisor

Supporting track

1 course in Latin or Greek, any level (3)

4 courses selected with the approval of the liberal arts advisor

Communication Arts/Digital Media Arts

There are no required courses; confer with your advisor.

Computer Studies

CST-171 Programming Concepts (3)

Economics

ECO-211 Introduction to Macroeconomics (3)
ECO-212 Introduction to Microeconomics (3)

Education

Consult with liberal arts advisor for a list of required courses.

English

There are no required courses; confer with your advisor.

History

There are no required courses; confer with your advisor. (GEO-206 does not count as a history course.)

Mathematics

MAT-212 Calculus II (4)

Modern Foreign Languages

Choice of:

LFR-233 French for Oral Proficiency (3)
LFR-234 French for Written Proficiency (3)
One French culture or literature course (3)

Or

LSP-233 Spanish for Oral Proficiency (3)
LSP-234 Spanish for Written Proficiency (3)
One Spanish culture or literature course (3)

Music*

Choose two required courses

MUS-106 Music and Culture: Timeless Threads or
MUS-107 Music and Culture: Lasting Legacies (3)
MUS-148 Theoretical Studies I: Fundamentals (3)
Additional courses selected from the music minor curriculum.
Applied music courses do not count toward the required number of courses.

**Requires written permission from the Department*

Philosophy

Choose one from the following:

PHL-302 Philosophy of Human Nature
PHL-305 Philosophy of Religion (3)
PHL-321 Epistemology (3)
PHL-374 Metaphysics (3)

Choose one from the following:

PHL-303 Ancient Philosophy (3)
PHL-304 Medieval Philosophy (3)
PHL-307 History of Modern Philosophy (3)
PHL-309 History of Contemporary Philosophy (3)
Must include ethics course if not taken as a general education values course.

Physics

PHY-101 General Physics I (4)
PHY-102 General Physics II (4)

Political Science

POL-101 Introduction to Political Science (3)

Psychology

PSY-210 Research Methods I (for first concentration only) (4)
Only courses with a PSY designation are acceptable. PSY-105, PSY-461 and PSY-462 do not count toward this concentration.

Sociology/Criminology

Primary Track

SOC-101 Introduction to Sociology or CRM-101 Introduction to Criminology (3)
SOC-209 Race, Class, and Gender (3)
PSY-210 Research Methods I (4)
SOC-350 Sociological Theory or CRM 303 Theories of Crime and Deviance (3)
Two additional courses in SOC or CRM at the 300 level (6)
One course in SOC or CRM at the 400 level (3)

Supporting track

SOC-101 Introduction to Sociology or CRM-101 Introduction to Criminology (3)
SOC-209 Race, Class, and Gender (3)
PSY-210 Research Methods I (4)
SOC-350 Sociological Theory or CR- 303 Theories of Crime and Deviance (3)
One course in SOC or CRM at the 400 level (3)

Religious Studies

RST-201 Introduction to Biblical Studies (3)
RST-315 Old Testament or RST-317 New Testament (3)
One systematic theology course (3)
One practical theology or religion and culture course (3)
One religious ethics course (3)

Students with a primary track in Religious Studies will be expected to participate in the Religious Studies Capstone Experience, which includes a portfolio preparation workshop and compilation of a portfolio, an interview with department faculty, and a presentation to department faculty, current religious studies students and alumnae. Students with a supporting track will be invited to participate in the Capstone Experience and required only to attend the presentations.

Option B

This option is open to any student but should be chosen by students who plan to continue to the Master of Arts in Teaching.

Two courses (of student's choice) from each of the following: English; Science; Mathematics; Art or Music; History or Social Sciences; plus two elective courses in liberal arts and EDU-402. Six of these 12 courses must be at the 300/400 level.

Option C

The student selects a primary area of emphasis of seven courses (four of which must be at the 300- or 400-level) and a supporting area of emphasis of five courses (including two courses at the 300- or 400-level). Students must complete at least two courses in each area of emphasis at Notre Dame. The student is strongly advised to select the primary and supporting areas of emphasis prior to completion of 60 credits.

Areas of Emphasis

- Natural Sciences and Mathematics: includes courses in Biology, Chemistry, Computer Studies,

Mathematics, Physics

- Social Sciences: includes courses in Economics, Political Science, Psychology, Sociology and Criminology
- Arts and Humanities: includes courses in Art, Classical and Modern Foreign Languages, English, History, Music, Philosophy, Religious Studies
- Professional Studies: includes courses in Business, Nonprofit Management, Communication Arts, Digital Media Arts, Education

Marketing Communications (Major)

Business and Economics Department and Communication Arts Department

Deborah Calhoun, M.B.A, Ph.D., *Coordinator*
Pamela O'Brien, Ph.D.

Degrees offered

Major

Campuses

Main Campus

The Marketing Communications Major is an interdisciplinary Program of Study for students in the Women's College who are interested in pursuing careers in a dynamic and rapidly expanding field. Integrated Marketing Communications involves the coordination of a company's marketing and communication efforts towards the creation of messages that maximize consumer satisfaction at minimal cost. The Marketing Communications Major provides students with a comprehensive mix of real-world business skills and cutting-edge communication tools needed to succeed, whether employed in a start-up company or a global corporation.

Summary

Women's College

Underpinning the Marketing Communications Major is a liberal arts approach that allows students to draw the best from diverse disciplines. From Communication Arts, students receive a broad foundation in writing and speaking skills, as well as specific career training in a range of creative fields, such as advertising, public relations, event planning, and publication and digital design. From Business, students acquire a broad knowledge base in key areas such as finance, teamwork, and negotiation, along with a thorough mastery of the full spectrum of marketing strategies and promotional tactics. The

variety of courses available in the Program allows students to develop a thorough knowledge of communication theories, processes and technologies while cultivating the necessary business experience and flexibility to adapt to current and future marketplace trends.

Through learning the language of marketing and the nature of markets, students will understand how building an organization's image and brands with an effective integrated marketing communications strategy is critical to its success. Students will complete promotions opportunity and communications market analyses, and study consumer and organizational consumer behavior. They will also assess the effectiveness of both traditional and non-traditional forms of communication, and create marketing communications plans as part of a systematic approach to defining uncontested market space. The development of teamwork, bargaining, and negotiation skills will be emphasized, along with knowledge of the basic accounting principles and financial statements needed for budgets and decision making.

The Program culminates in a professional practicum through which students gain work experience analyzing, designing, implementing and reviewing integrated marketing communication plans for local businesses. Graduates from Notre Dame's Program learn to 1) effectively use data in the analysis of marketing problems and in the development of the subsequent marketing communications strategy, 2) evaluate and design effective communication plans for internal and external audiences either working individually or as a member of a team, and 3) create effective marketing messages that are ethical, socially responsible and well-reasoned using diverse media.

The Marketing Communications curriculum prepares students to work as corporate marketing communications professionals, account managers in advertising or direct marketing firms, event planners, public relations professionals, marketing representatives, trade show coordinators, publication managers, product managers, media buyers, sales promotion directors or internet marketing managers.

Program of Study

Required Courses for a Major in Marketing Communications (Credits)

BUS-225 Data Analysis for Business Decisions (3)
BUS-303 Principles of Marketing (3)
BUS-334 Teamwork and Negotiation (3)
BUS-416 Managing Financial Resources (3)
BUS-482 Consumer Behavior (3)
BUS-483 Integrated Marketing Communications (capstone) (3)
COM-210 Social Media
COM-101 Introduction to Media Writing (3)
COM-319 Advertising and Analytics (3)

COM-331 Public Relations (3)
BUS-360 Business Research (3)
DMA-101 Graphic Design I (3)
COM-375 Event Planning (3)
COM-401 Writing for the Web or CST-261 Web Page Design (3)
COM-461 Communication Arts Practicum or BUS-461 Business Practicum (4)

Computer competency is required. A student may demonstrate this competency by one of two methods:

1. complete CST-130 Introduction to Microcomputer Applications (or a comparable course) with a grade of "C" or better, or,
2. earn a passing score of 70 percent on the CST-130 Challenge Exam.

Marketing Communication Majors may fulfill the General Education Math Requirement with BUS-225.

Students are encouraged but not required to take BUS105 Introduction to Business and Entrepreneurship.

Four-Year Plan

Below is a sample Program of Study for the Marketing Communications Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
COM-101 Introduction to Media Writing	3	BUS-334 Teamwork and Negotiation	3
BUS-105 Introduction Business and Entrepreneurship (recommended)	3	CST-130 Intro to Computer Applications	3
NDMU-100 First Year Experience	3	General Education Requirements	6
General Education Requirements	6	COM-210 Social Media	3
[15 credits]		[15 credits]	
Second year			

BUS-303 Principles of Marketing	3	COM-319 Advertising or COM-331 Public Relations	3
COM-106 Fundamentals of Oral Communication	3	BUS 225 Data Analysis for Business Decisions	3
General Education/Electives	6	General Education/Electives	9
DMA 101 Graphic Design	3		
[15 credits]		[15 credits]	
Third year			
COM-375 Communication Research	3	COM-319 Advertising or COM-331 Public Relations	3
CST-261 Web Page Design	3	BUS-482 Consumer Behavior or BUS 483 Integrated Marketing Communication	3
General Education/Electives	9	General Education/Electives	6
		BUS 416 Managing Financial Resources	3
[15 credits]		[15 credits]	
Fourth year			
BUS-360 Business Research	3	BUS-461 Business Practicum	4
IDS-361 Internship (recommended)	3	BUS-416 Managing Financial Resources	3
General Education/Electives	9	BUS-482 Consumer Behavior or BUS-483 Integrated Marketing Communication	3
		General Education/Electives	6
[15 credits]		[16 credits]	

Note: Descriptions for the courses required as part of the Marketing Communications Major may be found in the Business, Communication Arts, Art, and Computer Studies sections of the Catalog.

Accreditation

Accreditation Council for Business Schools & Programs (ACBSP)

ACBSP promotes excellence in business education. It focuses on strong student learning outcomes and teaching excellence.

Mathematics, Physics, and Computer Studies Department

Alexandra L. Chaillou, Ph.D., *Chair*
Charles Buehrle, Ph.D.
Kristyanna Erickson, Ed.D.

Degrees offered

Major
Minor

Campuses

Main Campus

Mathematics students develop critical thinking skills, becoming analytical thinkers and problems solvers. They learn to use mathematical software and technologies, to problem solve, to communicate mathematically through proofs, data analysis, and programming, and to relate mathematics to a variety of other disciplines. Each student completes a capstone project that includes an essay reflecting on her growth as a mathematician and her expanded understanding of the discipline, as well as a presentation of an independent project of her choosing.

Built on the recommendations of the Mathematical Association of America's Committee on Undergraduate Programs in Mathematics, the goals of the mathematics program are:

1. develop mathematical thinking and communication skills;
2. develop skills with a variety of technologies; and
3. develop a broad view of the mathematical sciences.

Women's College

Overview
Major
Mathematics/Secondary Education Certification
Minor
Four-Year Plan
Course Descriptions

The Mathematics/Physics/Computer Studies Department of the School of Arts, Sciences and Business offers a Major or Minor in Mathematics to students in the Women's College. Students may also prepare for teaching mathematics through the Secondary Education Certification Program. Recognizing the role our fields plays in other disciplines, we offer courses for department majors and non-majors that serve the students of NDMU in the Catholic Liberal Arts tradition. As an integral part of the liberal arts, we provide the students at NDMU with an understanding of the physical world, quantitative and technologically based knowledge, and enable our students to become leaders in their future professions.

Mathematics Majors have completed graduate study at institutions such as University of Maryland Baltimore County, University of Maryland College Park, Boston College, Drexel University, George Washington University and Rochester University. Program graduates have positions with organizations such as CareFirst BlueCross BlueShield of Maryland, Aberdeen Proving Ground, the National Security Agency, Lockheed Martin Information Technologies, Arbitron and the Federal Bureau of Investigation.

Mathematics Majors often choose a Minor such as Computer Science, Business, Accounting or Physics. Recent students have successfully completed double majors such as Mathematics/Physics, Mathematics/Biology, Mathematics/Chemistry, and Mathematics/Art.

The General Education Requirement in Mathematics is normally fulfilled by a variety of 100- or 200-level mathematics courses.

Students must earn a minimum Cumulative Grade Point Average of 2.0 in all courses taken to complete the requirements of the Mathematics Major.

Programs of Study

Required Courses for a Major in Mathematics (Credits)

MAT-110 Discrete Mathematics (3)

CST-171 Programming Concepts or CST-295 C++: Object Oriented Programming (3)
MAT-211 , 212, 213 Calculus I, II, III (11)
MAT-243 Linear Algebra (3)
MAT-301 Abstract Algebra (3)
MAT-303 Analysis (3)
MAT-311 Theory of Probability (3)
MAT-425 Simulation and Modeling (3)
MAT-455 History of Mathematics (3)
In addition to required courses, at least three electives from the following:
MAT-215 Basic Statistics (3)
MAT-305 Geometry (3)
MAT-307 Numerical Analysis (3)
MAT-309 Number Theory (3)
MAT-315 Differential Equations (3)
MAT-406 Complex Variables (3)
Recommended:
PHY-101, 102 General Physics I, II (8)
MAT-214 Calculus of Vector Fields (1)

Mathematics Capstone Experience

The capstone experience for each student majoring in Mathematics is twofold. In her final spring semester at the University, each Major writes an essay reflecting on her growth as a mathematician and on her expanded understanding of the discipline of Mathematics. In addition, in consultation with her faculty advisor, each Major develops a poster or presentation on a topic selected from one or more of her courses, or the selected topic may be related to an internship experience. This presentation should extend the topic beyond the coverage of the course(s).

The spring mathematics capstone presentation is open to interested faculty, students and guests as a celebration of each student's work and achievements.

Courses

MAT-100 Algebra Applications

Combines algebra preparation and applied algebra, designed to develop students' critical thinking and quantitative reasoning skills needed to understand everyday issues. Provides a thorough study of linear equations and functions as well as an exploration of a variety of nonlinear functions. Data analysis and mathematical modeling focus on real world problems from a variety of fields including science, finance and business. Graphing calculator is used throughout the course. Students meet five times a week in 50-minute classes. Satisfactory completion is a prerequisite for MAT-215, Statistics or

MAT-107, Elementary Functions. Available to Women's College students only. Satisfies the General Education Requirement in Mathematics. This course may not be completed for credit after successful completion of MAT-103. [4 credits]

MAT-103 Applied Algebra

Focuses on fundamental algebraic concepts and the solution of real world problems through the use of basic mathematical models. Provides a thorough study of linear functions as well as an exploration of a variety of nonlinear functions. Data analysis and mathematical modeling focus on real world problems from a variety of fields including science, finance and business. Graphing calculator is used throughout the course. Intended for students of science, finance and business who have limited algebraic skills. The course may be taken to prepare for MAT-107 Elementary Functions or MAT-215 Basic Statistics. Prerequisite: minimum of one year of high school algebra. Satisfies the General Education Requirement in Mathematics. This course may not be completed for credit after successful completion of MAT-100. [3 credits]

MAT-107 Elementary Functions

Provides preparation for study of calculus, and is also designed for pre-service elementary educators with a strong interest in mathematics. Covers polynomial, exponential, logarithmic and trigonometric functions and their applications. Graphing calculator is used throughout the course. Prerequisite: Successful completion of two years of high school algebra. Fulfills the General Education Requirement in Mathematics. [3 credits]

MAT-110 Discrete Mathematics

Introduces topics that find their applications in the field of computers and computing. Topics include: logic, proof, graphs, trees and counting techniques. This course is designed for Mathematics Majors, Computer Studies Majors and students with a particular interest in mathematics. [3 credits]

MAT-120 Sets, Logic and Numbers

Covers basic set theory and Venn diagram applications, an introduction to formal logic and valid argument forms, elementary number theory, and the arithmetic of integers and the rational numbers. Intended for pre-service elementary educators and others interested these topics. [3 credits]

MAT-121 Geometry and Graphs

Covers properties of angles, lines, triangles and quadrilaterals, constructions with a variety of tools,

perimeter, area, volume and qualitative graphs. Intended for pre-service elementary educators and others interested in these topics. [3 credits]

MAT-122 Counting, Chance & Statistics

Covers fundamental counting rules and basic probability as well as the collection, analysis and interpretation of data. Statistical content includes sampling and experimental design, numerical and graphical presentation of data, regression lines and use of the normal curve. Intended for pre-service elementary educators and others interested in an introduction to statistics (possibly before taking MAT-215, BUS-215 or BUS-225). This course may not be taken after successful completion of MAT-215, BUS-215 or BUS-225. Fulfills the General Education Requirement in Mathematics. [3 credits]

MAT-125 Elementary Mathematical Models

Includes the application of linear, quadratic, exponential and mixed models to real world problems. Models are investigated numerically and graphically as well as algebraically. Graphing calculator is used throughout the course. Intended for pre-service elementary educators and others interested in these topics. Fulfills the General Education Requirement in Mathematics. Prerequisite: minimum of one year of high school algebra. [3 credits]

MAT-211 Calculus I

Introduces functions, limits, continuity, differential calculus of polynomial, rational, exponential and logarithmic functions, as well as basic integration techniques. Applications are considered throughout the course with an emphasis on the life sciences. Weekly laboratory is an integral part of the course. Graphing calculators used to explore topics covered. Fulfills the General Education Requirement in Mathematics Prerequisite: Placement in MAT 211 or successful completion of MAT-107. [4 credits]

MAT-211L Lab: Calculus I

This lab is a corequisite of MAT 211.

MAT-212 Calculus II

Studies trigonometric functions, integration by parts and tables, improper integrals, functions of two variables, partial derivatives, double integrals, differential equations, geometric and power series, basic convergence tests, Taylor polynomials and series, and Fourier polynomials and series. Applications are considered throughout the course with an emphasis on the life sciences. Weekly laboratory is an integral part of the course. Graphing calculator is used to explore topics covered.

Prerequisite: Calculus I or placement into MAT-212. [4 credits]

MAT-212L Lab: Calculus II

This lab is a corequisite of MAT 212.

MAT-213 Calculus III

Covers visualization of functions of two variables, contour graphs, vector geometry, partial derivatives, gradient vector, directional derivatives, constrained optimization, double integral in rectangular and polar coordinates, triple integrals in rectangular, cylindrical and spherical coordinates. Applications are considered throughout the course. Mathematica is used to explore topics covered. Prerequisite: Calculus II or placement into MAT-213. [3 credits]

MAT-214 Calculus of Vector Fields

Analyzes parametric curves and surfaces, vector fields, line integrals and their applications, the Fundamental Theorem of Line Integrals, Green's Theorem, flux integrals, divergence and curl, Stokes' Theorem and the Divergence Theorem. Mathematica is used to explore topics covered. Prerequisite: Calculus III. [1 credit]

MAT-215 Basic Statistics

Introduces the basic ideas of statistics: descriptive statistics, central tendency variability, probability distributions, sampling, estimation, hypothesis testing, correlation and regression, multinomial experiments, contingency tables and analysis of variance. A statistical software package is used. Designed for students in a variety of fields that rely on regular statistical analysis in decision-making. Fulfills general education requirement in mathematics. Prerequisite: Placement in MAT 215 or successful completion of MAT 100 or MAT 103 is recommended. [3 credits]

MAT-243 Linear Algebra

Studies systems of linear equations and their respective solution set. Material covered has use in such fields as physical and biological science, business, economics, computing and cryptography. Topics include matrices, vector spaces, linear transformations, determinants, eigenspaces and approximation techniques. Prerequisite: MAT-110 or MAT-211. [3 credits]

MAT-301 Abstract Algebra

Considers groups, rings and fields with emphasis on group theory. Topics include modulo groups, cyclic groups, permutation groups, rings, integral domains and fields, isomorphism and

homomorphism, and the Fundamental Theorem of Homomorphism for groups and rings. Prerequisite: MAT-243. [3 credits]

MAT-303 Analysis

Introduces the theory that underlies the Calculus. Topics include cardinality, the Completeness Axiom and the topology of the real numbers, convergence of sequences, limits and continuity, the derivative and the Mean Value theorem, convergence of infinite series, sequences and series of functions. Prerequisite: MAT-213. [3 credits]

MAT-305 Geometry

Explores several different geometries. Included are ways of classifying geometries by sets of axioms or by the type of transforms defined. Finite geometries, projective geometry, non-Euclidean geometries, topology and the geometry of inversion are investigated. Designed for Mathematics Majors or educators to be certified to teach Secondary Mathematics. Geometers Sketchpad or Geogebra is used throughout the course. Prerequisite: MAT-212. [3 credits]

MAT-307 Numerical Analysis

Introduces numerical methods. Topics include: numerical linear algebra, interpolation, numerical differentiation and integration, solution of nonlinear equation, numerical treatment of differential equations, and error analysis. Intended for mathematics, physics and engineering majors. Makes use of a mathematical software package such as Mathematica. Prerequisite: MAT-212. [3 credits]

MAT-309 Number Theory

Considers divisibility and unique factorization; congruencies and the Chinese Remainder Theorem; Diophantine Equations; Fermat's, Wilson's and Euler's theorems; perfect numbers; Pythagorean triples; primitive roots; and quadratic congruencies. Designed for Mathematics Majors or educators to be certified to teach Secondary Mathematics. Prerequisite: MAT-212. [3 credits]

MAT-311 Theory of Probability

Analyzes combinatorial methods; probability and sample spaces; random variables and their distributions (discrete and continuous); moment generating functions; and the relation between probability and statistics. Probability exposes students to the diverse possible applications in such fields as Mathematics, Science, Engineering, Psychology, Social Sciences and Management Science. Prerequisite: MAT-212. [3 credits]

MAT-315 Differential Equations

Introduces the solution, applications and theory of ordinary differential equations. Topics include: solutions of differential equations, initial value problems, boundary value problems, Laplace transforms and series solutions. Prerequisite: MAT-212. [3 credits]

MAT-406 Complex Variables

Introduces the theory and applications of functions of complex variables. Topics include: powers and roots, analytic functions, contour integrals, Taylor and Laurent series, singularities and residues. Intended for Mathematics, Physics and Engineering Majors. Prerequisite: MAT-213. [3 credits]

MAT-425 Simulation and Modeling

Considers mathematical models and their applications. Emphasizes model constructions to promote student creativity and to demonstrate the artistic nature of model building, including the ideas of experimentation and simulation. Prerequisite: MAT-212. [3 credits]

MAT-455 History of Mathematics

Focuses on the historical development of modern mathematics. Basic research techniques are reviewed. A research paper on an issue of significance in mathematics or a scholar important to the development of the field is required. Students develop oral presentations about their research. Prerequisite: MAT-212. [3 credits]

MAT-463 Directed Study in Mathematics

Supports guided study of special current topics of interest to the student and approved by the instructor. Prerequisite: MAT-212. [1, 2 or 3 credits]

MAT-501 Number and Operations for the Middle School Educator

An integration of the study of the rational numbers with reflection on the teaching and learning of arithmetic concepts in the spirit of the NCTM?s Principles and Standards of School Mathematics. Mathematical content includes rational numbers and their fundamental algorithms, the place of the rational numbers in the real number system, scientific notation as a means of expressing very large and very small numbers and number theory topics appropriate for the middle school. [3 credits]

MAT-503 Fundamentals of Algebra for the Middle School Educator

An integration of the study of algebra and its applications to the world around us with reflection on the teaching and learning of algebraic concepts in the spirit of the NCTM's Principles and Standards of

School Mathematics. Mathematical content focuses on basic algebraic concepts including signed numbers and their operations, problem solving, quantitative and qualitative graphs, proportional reasoning, linear functions, and functions defined by tables and graphs. Algebra is presented as the study of patterns, as a symbolic language, as a tool for problem solving, and as a way of modeling and understanding the physical world. Graphing calculators are used throughout the course. [3 credits]

MAT-507 Algebraic Functions for the Middle School Educator

An integration of the study of algebraic functions and their applications to the world around us with reflection on the teaching and learning of algebraic concepts in the spirit of the NCTM's Principles and Standards of School Mathematics. Mathematical content focuses on the function concept, function notation, function definition by equation, table and graph, rates of change, linear, quadratic and exponential functions and their applications. Graphing calculators are used throughout the course to explore functions and their properties numerically and graphically. Prerequisite: MAT-503 Fundamentals of Algebra for the Middle School Educator. [3 credits]

MAT-521 Geometry and Measurement for the Middle School Educator

An integration of the study of geometric shapes, spatial reasoning, and measurement with reflection on the van Hiele framework and the NCTM's Principles and Standards of School Mathematics. Mathematical content includes two-and three-dimensional shapes and their properties e.g. congruence, similarity and symmetry, spatial reasoning and transformations, the measurement process and techniques. Interactive software will be used in the exploration of these topics. [3 credits]

MAT-531 Data Analysis and Statistics for the Middle School Educator

An integration of the study of data analysis and statistics with reflection on the teaching and learning of data analysis in the spirit of the NCTM's Principles and Standards of School Mathematics. Mathematical content includes experimental design and data collection, displaying data, exploring and interpreting data, measures of center and spread, ways to investigate the association between two variables and misuses of statistics. Graphing calculators and spreadsheet software are used throughout the course. [3 credits]

MAT-532 Discrete Mathematics and Probability for the Middle School Educator

An integration of the study of discrete mathematics (sets, logic, counting) and probability with reflection on the teaching and learning of these concepts in the spirit of the NCTM's Principles and Standards of School Mathematics. Mathematical content includes sets and their operations, logical connectives and quantified statements, types of mathematical arguments and proofs, counting techniques, the probability of simple and compound events, sample spaces, probability distributions, and the use of simulations to generate data for determining probabilities and to test conjectures.

Graphing calculators are used throughout the course. [3 credits]

MAT-533 Calculus for Middle School Educators

An integration of the study of calculus and its connections to the middle school curriculum with reflection on the teaching and learning of these concepts in the spirit of the NCTM's Principles and Standards of School Mathematics. Mathematics content includes sequences and series, functions, differentiation, integration and applications. Graphing calculators are used throughout the course. [3 credits]

MAT-541 Number and Operations for Elementary School Educators

An integration of the study of the whole numbers and the integers with the approach to mathematics teaching and learning found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Mathematical content includes place value, estimation, conceptual underpinnings of the conventional computational algorithms for whole numbers and extending these ideas to the integers. Early number concepts, how students develop number sense, how to judge when student-developed procedures are mathematically sound, common misconceptions and how to address these misconceptions are integral to this course. [3 credits]

MAT-542 Number and Relationships for Elementary School Educators

A continuation of Number and Operations for Elementary School Educators extending the ideas developed for whole numbers and integers to the rational numbers (represented as fractions and decimals) and the behavior of units under the four basic operations. Mathematical content also includes ratio and proportion as well as basic concepts of number theory. The mathematical content is integrated with the approach to mathematics teaching and learning found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Common misconceptions related to this material and how to address these misconceptions are integral to the course. [3 credits]

MAT-543 Geometry and Measurement for Elementary School Educators

Mathematical content focuses on the development of visualization skills, familiarity with basic shapes, their properties, and the relationships between them (e.g., transformations, similarity and congruence), the communication of geometric ideas, the process of measurement, and working with length, area and volume. The mathematical content is integrated with the approach to the teaching and learning of these concepts found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Reflection on the van Heile model for the development of geometric understanding is integral to the course as is the consideration of relevant common misconceptions and how to address them. [3 credits]

MAT-544 Data Analysis and Probability for Elementary School Teachers

An integration of the study of probability and statistics with the approach to the teaching and learning of these concepts found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Mathematical content includes designing data investigations, describing data in graphical and numerical formats, drawing conclusions, theoretical and empirical probability for simple events and two or more independent events, randomness and the difference between predicting individual events and predicting patterns of events. How students learn these concepts, associated misconceptions and how to address them are also considered in the course. [3 credits]

MAT-545 Patterns and Algebraic Thinking for Elementary School Educators

Mathematical content includes the study of patterns, representing and justifying the resultant generalizations using algebraic notation and other representations, expressing functional relationships in symbolic and graphical format, proportional reasoning, solving linear equations and inequalities through the application of basic properties of the real numbers. The mathematical content is integrated with the approach to mathematics teaching and learning found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Common misconceptions related to this material and how to address these misconceptions are integral to the course. [3 credits]

MAT-546 Algebra for Elementary School Educators

A continuation of Patterns and A lgebraic Thinking for Elementary School Educators, extending the ideas considered there to functions defined by tables and graphs and to functions defined in either closed or recursive forms. Mathematical content also includes quantitative and qualitative graphs, proportional reasoning, linear and quadratic functions, the field properties of the real numbers, rates of change, and applications of algebraic concepts in problem solving. The mathematical content is integrated with the approach to mathematics teaching and learning found in the National Council of Teachers of Mathematics' Principles and Standards of School Mathematics and the Maryland State Standards. Common misconceptions related to this material and how to address these misconceptions are integral to the course. [3 credits]

MAT-575 Applied Statistics and Programming

Covers concepts of testing for use in professional sciences, including simple linear regression, correlation, multiple regression, fixed and random effects, analysis of variance, analysis of covariance, experimental design, multivariate methods and various statistical packages, including R. Prerequisite: MAT-576. [3 credits]

MAT-576 Data and Decision Modeling

Provides an application-oriented introduction to the modeling techniques used to structure the way we think about managerial decision situations. Methodologies considered include decision analysis, simulation, optimization and sensitivity analysis. Stochastic models are developed with applications to finance, operations management, logistics and resource allocation. [3 credits]

Peace and Justice Studies (Minor)

History and Political Science Department

David Hoovler, Ph.D., *Coordinator*

Anne Henderson, Ph.D., *Department Chair*

Degrees offered

Minor

Campuses

Main Campus

The Peace and Justice Studies Minor is offered to students in the Women's College. It is an interdisciplinary program that increases consciousness about non-violent attitudes, beliefs and actions. Studying peace engenders an understanding of compassion and concern for justice, equity, fairness and respect.

In addition to fostering an understanding of the roots of violence and inequity, Peace and Justice Studies also teaches antidotes to violence and inequity. It leads to recognition of the roles of greed, hatred, fear, separation and objectification in promoting violence and inequitable relations. It directs the student to increased awareness of opportunities to act as a more responsible global citizen.

A Minor in Peace and Justice Studies can benefit students in a variety of careers including political science, public policy, the law, religion, counseling, conflict resolution, environmental issues, sociology, journalism, communication, history and ethics.

Requirements

The Peace and Justice Studies Minor consists of six courses (18 credits), including a 3-credit required Introduction to Peace and Justice Studies as well as a required 3-credit Senior Seminar. The remaining course requirements are one course devoted to roots of and antidotes to violence (violence and conflict resolution), one course focused on the roots of and antidotes to inequity (inequity and

social justice), one course focused on earth sustainability, and an experiential learning course.

A student wishing to declare a Peace and Justice Studies Minor is encouraged to meet with the Program Coordinator or Department Chair to design an appropriate course of study and to receive more detailed information on courses and course cycling.

Program of Study

Required Courses

IDS-160/HIS-160 Introduction to Peace and Justice Studies
IDS-450 Seminar Experience: Peace and Justice Studies
Experiential Learning Course — (consult with Program Coordinator)

One course on violence and conflict resolution:

HIS-200 Age of Genocide
HIS-340 History of the Holocaust
HIS/POL-325 Revolution and Terrorism
HIS-402 Women, War and Peace
HIS-404 United States Foreign Relations in the 20th Century
IDS-471 Honors: Politics and Ethics of War and Peace
POL-430 International Organizations and World Politics
RST-304 Christian Social Ethics
RST-345 Justice and Peace

One course on inequity and social justice:

HIS/POL-290 Women in Islamic Societies
PHL-322 Social and Political Philosophy
PHL-323 Feminist Philosophy
PHL-324 Critical Theories of Race
POL-351 Problems of Developing Nations
POL-401 Political and Economic Globalization
POL-430 International Organizations and World Politics
RST-304 Christian Social Ethics
RST-345 Justice and Peace
RST-411H Catholic Women Theologians

One course on Earth and sustainability:

BUS-436 Socially Responsible and Sustainable Business Practices

ENV-120 Earth's Biosphere
ENV-121 Earth's Physical Spheres
ECO-440 Economics of the Environment and Natural Resources
ENV/PHL-336 Environmental Ethics
POL-440 Global Issues

Pharmacy Studies (Pre-Pharmacy, Pre-Professional)

Biology or Chemistry Department

Jim Culhane, Ph.D.
Jennifer Kerr, Ph.D.

Degrees offered

Major

Campuses

Main Campus

Pharmacists are health care professionals who provide complementary expertise to medical care practitioners. With the growing need for more healthcare professionals as the population ages, and with continuing sophistication of medications, pharmacists have become important members of the healthcare team. Students in the Women's College are offered several pre-pharmacy options that provide preparation for entrance into a Doctor of Pharmacy (Pharm.D.) program.

Summary

Women's College

Preparing for a Career in Pharmacy

Students in the Women's College are offered several pre-pharmacy options that provide preparation for entrance into a Doctor of Pharmacy (Pharm.D.) program. Pharmacists are health care professionals who provide complementary expertise to medical care practitioners. Their knowledge and skills are utilized in a wide range of practice settings, including but not limited to community pharmacies, health care organizations, the pharmaceutical industry, pharmacy education, managed care, and governmental agencies. With the growing need for more healthcare professionals as the population ages, and with continuing sophistication of medications, pharmacists have become

important members of the healthcare team.

The Doctor of Pharmacy degree, conferred by schools of pharmacy, is the entry point into a career in pharmacy. To prepare for admission to pharmacy school, students take a core curriculum including courses in the sciences, mathematics, social sciences, and humanities.

The Pre-pharmacy Program Coordinators will assist Women's College students in identifying the appropriate course curriculum that will prepare them for entrance into a Pharm.D. program, including the School of Pharmacy at Notre Dame. There are a number of avenues to this end, including successfully completing the necessary undergraduate prerequisites, then applying to a school of pharmacy, or completing an appropriately configured undergraduate degree, followed by application to a school of pharmacy. (The undergraduate degree is typically earned in a science-related field.) An accelerated B.A Pharm.D. track (3 + 4 undergraduate/professional curriculum) is available to qualified Women's College students through the School of Arts and Sciences and the School of Pharmacy.

Pre-Pharmacy Program

In the Pre-pharmacy Program Option, a student follows a curriculum (approximately 74 credits) to complete specific courses in Biology, Chemistry, Mathematics, Physics and Liberal Arts. Students should indicate their intent to participate in the Pre-pharmacy Program by noting this on their application for admission and subsequently on the Declaration of Major form. Each student should contact her advisor or the pre-pharmacy program coordinator in order to plan her Program of Study and learn about program requirements; this must be done prior to registration.

During the Program of Study, students take the Pharmacy College Admission Test (PCAT) and apply for admission to a particular pharmacy school. They follow all application guidelines presented by the school of pharmacy regarding application procedures, deadlines, recommendation letters and interviews. Each school of pharmacy determines its own admission standards. Students are responsible for determining the unique prerequisite courses that are required by the school of pharmacy to which they will apply.

The Pre-pharmacy Program of Study for students at Notre Dame is shown below. It must be noted that study in summer and Winterim may be needed to complete the program in a timely manner. All students who are interested in the Program should consult their advisors and the Pre-pharmacy Program Coordinator for specific advice and course approval. Representatives from Notre Dame's School of Pharmacy are also available to students for consultation.

Courses in the Pre-pharmacy Curriculum

Notre Dame of Maryland University reserves the right to revise the curriculum at any time when deemed necessary and to apply such revisions to registered and accepted students and to new

admissions.

Requirement of 74 credits are as follows:

ENG-101 College Writing (3)
English Literature Course (3)
COM-106 or 206 Oral Communication/Public Speaking (3)
PHL-330 or 339 Ethics/Medical Ethics (3)
ECO-211 or 212 Micro- or Macroeconomics (3)
MAT-211 or 212 Calculus I or II* (4)
MAT-215 Basic Statistics (3)
CHM-110,111 General Chemistry (8)
CHM-210, 211 Organic Chemistry (8)
BIO-111 Fundamentals of Biology (4)
BIO-201, 202 Human Anatomy and Physiology I, II (8)
BIO-340 Microbiology (4)
BIO-239 Genetics (4)
PHY-101 or 102 General Physics I or II* (4)
Social Sciences (6)
IDS-100 First-Year Seminar (3)

Plus three elective credits (3) from religious studies, fine arts, humanities, languages, business or interdisciplinary studies, excluding science, mathematics, physical education or health care courses. See Below.

* MAT-212 and PHY-102 are required to complete the Chemistry Major.

#Students who did not receive transfer credits at the time of admission and all students matriculating in the Women's College in Fall 2009 and thereafter cannot use credits for anatomy & physiology received from community colleges to satisfy the NDMU School of Pharmacy pre-requisite requirement. Additionally, such students are required to take 8 credits of anatomy and physiology at Notre Dame of Maryland University should they wish to apply to the NDMU School of Pharmacy.

Note: Transfer students intending to apply to Notre Dame School of Pharmacy should check with the Notre Dame School of Pharmacy office of admissions to determine if science courses taken at community colleges will meet prerequisite requirements.

Recommended Elective Courses in the Pre-pharmacy Curriculum

COM-221 Small Group Communication (3)
IDS-100L Emerging Leaders Lab (1)
LSP-210 Spanish for Health Professions (3)

PHL-302 Philosophy of Human Nature (3)
PHL -330 or 339 Ethics or Medical Ethics (3)
PHL-334 Business Ethics (3)
POL-102 Introduction to American Politics (3)
POL-217 Civic Participation and Leadership (3)
POL-401 Political & Economic Globalization (3)
POL-440 Global Issues (3)
PSY-167 Human Relations in a Culturally Diverse Society (3)
PSY-205 Theories of Personality (3)
PSY-233 Human Growth & Development (3)
RST-306 Christian Bioethics (3)
RST-311 World Religions (3)
RST-331 Comparative Religious Ethics (3)
RST-450 Judaism, Christianity and Islam (3)
RST-452 Buddhism and Christianity (3)
RST-347 Introduction to Spirituality (3)
RST-409 Death & Dying (3)

Earning a BA in Preparation for a Pharm.D. Degree

Students may decide to complete a degree in Chemistry or Biology and then apply to pharmacy school to pursue a Pharm.D. degree (appropriate pharmacy admission prerequisites are taken). This option allows the student to present a strong application and provides a second degree. Many applicants to Pharm.D. programs hold an undergraduate degree—students may improve their prospects for admission by using this option and it provides additional career paths. To complete an undergraduate degree in Chemistry or Biology, students should complete the following courses in the first semester: BIO-111 , CHM-110 , ENG-101, IDS-100, MAT-211 . See the Chemistry and Biology department sections for other information and options.

The Accelerated 3+4 Year BA-Pharm.D. Program

Program Description

The Departments of Biology and Chemistry, together with the School of Pharmacy, provide an accelerated 3 + 4 year undergraduate - professional school education leading to the B.A. in Biology or Chemistry and the Doctor of Pharmacy (Pharm.D.) degrees. This Program of Study consists of three years of coursework in the Women's College (approximately 104 credits for Biology majors or 114 credits for Chemistry majors), followed by a four-year professional curriculum of Pharmacy (147 credits) in the School of Pharmacy.

Undergraduate Requirements for the BA in Biology or Chemistry-Doctor of Pharmacy Degree Program

Students who enter this Program of Study upon admission to Notre Dame must be matriculated Biology or Chemistry Majors in the College of Arts, Sciences, and Business. Students must complete the following courses with a minimum grade of 'C' for each course, an overall GPA of at least 3.0 and a science GPA of at least 3.0. Additional requirements are outlined below.

BA in Biology Coursework

Fall		Spring	
First year			
CHM-110	4	CHM-111	4
BIO-111	4	BIO-239 Genetics	4
MAT-211 Calculus	4	RST-201	3
IDS-100	3	LSP-101	3
COM-106	3	ENG-101	3
[18 credits]		[17 credits]	
Second year

[16 credits]		[17 credits]	
Summer			
First year			
Fine Arts	3		
Second year			
RST-201	3		
Third year			
RST Upper Level	3		

Students may need to complete coursework during the summer to fulfill program requirements.

Program Entrance, Standing, Admission to the School of Pharmacy, and Granting of the BA Degree

Applying to the BA-Pharm.D. Program of Study is a two step process—one application is filed for admission to the University and a supplemental application for acceptance into the accelerated program.

A student is eligible for application to the BA-Pharm.D. program if she:

1. Is an incoming first year student or a first year NDMU student in their fall semester (no transfer

students accepted),
2. Scored a minimum of 550 each on the Critical Reading and Mathematics portions of the SAT, or earned a minimum ACT score of 24, and,
3. Submits a copy of high school transcripts, NDMU midterm grades (if applicable), and essay to the B.A.-Pharm.D. Program Committee.

Prospective Women's College students should apply to the Program via the Notre Dame undergraduate admission procedure. They can indicate their interest in the Program on their application and present the required application materials. Qualified students are admitted to the Program prior to their first year of study or during the fall semester of their 1st year.

While in the Program, each student must maintain an overall GPA of 3.0 and a science GPA of 3.0 while meeting course grade requirements. The Pre-pharmacy Program Coordinator oversees student progress with the assistance of the Pre-pharmacy Program Committee. If a student's grades fall below minimum standards for the Program, the student will be placed on probation for a period of one semester and will be removed from the Program if she does not return to the specified GPA requirements. Students dismissed from the Program will be allowed to continue in the in the traditional Pre-pharmacy Studies undergraduate program at Notre Dame (provided the student meets the academic standards.)

Admission requirements to the School of Pharmacy are set and administered by the School of Pharmacy. Each student enrolled in the B.A.-Pharm.D. program will complete the application for admission to the School of Pharmacy, and will be granted a guaranteed seat if the following criteria are met and process followed:

1. Complete an application to the School of Pharmacy through the Pharmacy College Application Service (PharmCAS) by the deadline indicated in the SOP admissions information.
2. Earn a minimum overall GPA of 3.0 and a science GPA of 3.0 (on a 4.0 scale).
3. Complete a School of Pharmacy Supplemental application, which is sent to all qualified applicants. *(the fee for the supplemental application will be waived for Notre Dame of Maryland University undergraduate applicants in the B.A.-Pharm.D. program).*
4. Take the Pharmacy College Admission Test (PCAT) either in the summer prior to or the fall semester of the 3rd year, and earn a competitive composite score of 50 or above.
5. Complete an interview with a favorable outcome and fulfillment of other specified requirements.

Students entering the School of Pharmacy will be subject to all policies and procedures of the Program outlined in the School of Pharmacy Handbook and Catalog. Students in the B.A.-Pharm.D. program who have successfully completed 37 credits in the School of Pharmacy first-year professional curriculum will be granted their Bachelor of Arts in Biology or Chemistry upon completion of the following courses:

First-Year School of Pharmacy Course of Study

Fall		Spring	
PHRD-300: Foundations for Pharmacy Practice	2	PHRD-306: Pharmacist Care Lab II	2
PHRD-301: Pharmaceutical Calculations	2bc	PHRD-308: Developing the Leader Within	2
PHRD-302: Pharmacy & the U.S. Health Care System	3	PHRD-309: Immunology	3bc
PHRD-303: Pharmaceutics I & Lab	4bc	PHRD-310: Care of Diverse Populations	3
PHRD-304: Pharmacist Care Lab I	2	PHRD-311: Pharmaceutics II & Lab	4bc
PHRD-305: Biochemistry	4bc	PHRD-312: Pharmacy Practice Management	3
PHRD-307: Applied Biomedical Sciences Workshop	3bc	[17 credits]	
[20 credits]			

bCourses credited towards a B.A. in Biology
cCourses credited towards a B.A. in Chemistry

Applying to Pharmacy School

All applicants must submit an application both through the Pharmacy College Application Service (PharmCAS.org) and via a School of Pharmacy Supplemental Application The Pharmacy College Admissions Test (PCAT) is taken early in the second year of the Pre-pharmacy Program (if the student is pursuing a traditional undergraduate degree, the PCAT may be taken at a later time). Students are responsible for learning about the Pharm.D. program of study and admission requirements of the schools to which they will apply. A Committee letter or individual letters of recommendation are needed as well as an interview. Experiential learning in pharmacy-related activities is an important part of the path to pharmacy school.

The School of Pharmacy at Notre Dame will guarantee interviews to up to 15 students each year from the Women's College traditional Pre-pharmacy Program.

To be considered for Notre Dame School of Pharmacy admission, the student must:

- Maintain a 3.0 cumulative GPA and a minimum 3.3 GPA in pre-pharmacy courses with all pre-pharmacy/science courses carrying a grade of C or higher
- Earn a composite score on the Pharmacy College Admissions Test (PCAT) at the 50th percentile or higher
- Successfully complete an admissions interview.

The Pre-pharmacy Program Coordinators and the School of Pharmacy Director of Admissions can describe this opportunity.

2018-2019

Philosophy (Major, Minor)

Philosophy Department

Maeve O'Donovan, Ph.D., *Chair*
Desirée Melton, Ph.D.
Nancy Tarr-Hart, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Philosophy Department of the College of Arts, Sciences, and Business offers a Major and Minor in Philosophy to students in the Women's College, and a Minor to students in the College of Adult Undergraduate Studies.

Summary

Women's College and College of Adult Undergraduate Studies

Philosophy, the oldest of the liberal arts, rests on Socrates' views that "all philosophy begins in wonder" and "the unexamined life is not worth living." Socrates promoted the practical uses of philosophy in everyday life and encouraged dialogue and vigorous debate as the most effective ways of discerning truth. In this Socratic spirit, the Philosophy Department seeks to assist the student in acquiring a fundamental and realistic understanding of herself and her world, to acquaint the student with the thinking of philosophers whose ideas have most influenced the development of our culture, and to engender in the student those habits of critical and systematic thinking that are necessary for a coherent view of the world. The Philosophy Department Program of Study pays special attention to issues of social justice and diversity, providing courses in critical race theory, feminist philosophy, Islamic philosophy, and philosophy of disability.

Students with strong backgrounds in philosophy have chosen to attend graduate schools, including

the Yale School of Divinity, American University, University of Chicago, University of Maryland School of Law, University of Maryland School of Dentistry, State University of New York at Binghamton, and University of Oklahoma. Others have accepted positions in the fields of education, business, law, politics and medicine.

Notre Dame's General Education Requirements include two courses in Philosophy, one at the introductory 200-level and one at the 300-or 400-level.

To fulfill the General Education Requirement in Values, a student may take PHL-322, 330, 334, 336, 339 or 471. PHL-323 fulfills the General Education Requirement in Gender Studies.

Philosophy courses are also offered in the university's graduate programs.

Students must earn of minimum cumulative grade point average of at least 2.0 in all courses taken to complete the requirements of the Philosophy Major.

Program of Study

Required Courses for the Major in Philosophy (Credits)

The major consists of a total of 33 credits to include:

One introductory course (3)

IDS-172 Honors: The Axial Age: Philosophy of East and West
PHL-201 Introduction to Philosophy

One course in religion and human nature (3)

PHL-302 Philosophy of Human Nature
PHL-305 Philosophy of Religion
PHL-306 Problem of Evil
IDS-479 Honors: Philosophy through Literature

One course in metaphysics and epistemology (3)

PHL-321 Epistemology
PHL-374 Metaphysics
PHL-310 Logic
PHL-301 Honors: The Mind-Body Problem

One course in ethics (3)

PHL-330 Ethics

PHL-334 Business Ethics
PHL-336 Environmental Ethics
PHL-339 Medical Ethics
PHL-471 Honors: Morals and Mortality: Ethics of Exiting

One course in value theory (3)

PHL-322 Social & Political Philosophy
PHL-324 Critical Theories of Race
PHL-323 Feminist Philosophy
PHL-320 Aesthetics

One course from the historical sequence (3)

PHL-312 History of Western Ancient and Medieval Philosophy
PHL-313 History of Western Modern and Contemporary Philosophy
PHL-376H: Honors: Human Flourishinh: Ancient Perspectives, Contemporary Interpretations

One seminar (3)
PHL-422 Major Themes in Philosophy
PHL-424 Major Figures in Philosophy

Three electives at the 300- or 400-level (3)
PHL-411 Senior Thesis (3)

Minor in Philosophy

The Philosophy Department also offers a Minor in Philosophy that consists of 18 credit hours of course work in Philosophy. Courses for the Minor are chosen by the student and should be selected in consultation with a faculty member in the Philosophy Department.

Philosophy Four-Year Plan

Below is a sample Program of Study for the Philosophy Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring

NDMU Catalog

2018-2019

Pre-Medical, Pre-Dental, Pre-Veterinary (Pre-professional)

Rebecca Zordan, Ph.D., Chairperson of the Pre-Health Professions Advisory Committee; Pre-Health Professions Advisor

Summary

Women's College

The College of Arts, Sciences, and Business offers Programs of Study for Women's College students who wish to enter allopathic and osteopathic medical, dental and veterinary schools, as well as schools of optometry, podiatric medicine and chiropractic. Students preparing for admission to such professional schools may choose any academic major as long as the minimum admissions requirements of the professional schools are met. While many students choose Biology, Chemistry or Behavioral Neuroscience as Majors, any program that gives a broad training in the liberal arts and allows completion of the proper requirements in the physical, biological, and behavioral sciences and mathematics is acceptable to professional schools. Students will be assigned an advisor for their chosen Major, as well as the Pre-Health Professions Advisor. By working with two advisors, students will have ample academic advice to enable completion of graduation requirements and preparation for their intended professional school. The student should maintain regular contact with both Advisors to ensure the student is satisfactorily progressing toward these goals.

Graduates have been accepted to a diverse group of medical schools, including University of Maryland, Johns Hopkins University, University of Wisconsin, George Washington University, University of Connecticut, Boston University, Virginia Commonwealth University, and Drexel University Schools of Medicine, Harvard School of Dental Medicine, New York Medical College, University of Rochester School of Medicine and Dentistry, Virginia-Maryland Regional, University of Florida, Cornell University, and Michigan State University Colleges of Veterinary Medicine, and the Pennsylvania (Salus University) College of Optometry.

Students are cautioned that entrance requirements to different medical professional schools vary and are advised to consult the Catalogs or websites of the schools to which they wish to apply to acquaint themselves with specific requirements and to keep abreast of any changes in admission

requirements. However, almost all medical professional schools insist that applicants have certain courses that they feel will prepare the students for their curricula. (See Standard Course Requirements for the Medical Professions listed below.) Other courses that are frequently required or recommended include: anatomy, animal physiology, developmental biology, immunology, and computer science. When choosing courses, consideration should be given to specific professional school prerequisites as well as subject material covered in the admissions tests, *e.g.* MCAT, DAT.

Medical schools prepare students to become "total physicians," capable of understanding human needs as well as diagnosing disease and able to communicate and respond effectively and compassionately. In this regard, it is important that a student's electives should also include a wide range of humanities, behavioral and social science courses, and that extracurricular activities reflect a history of service to others.

Notre Dame has a Pre-Professional Advisory Committee whose members assist students with the application process for medical professional schools. The Committee will also prepare a Committee Letter of Recommendation (in place of three individual letters of recommendation) for qualified applicants. There are specific prerequisites for obtaining a Committee Letter, and students are advised to consult with the pre-professional advisors to obtain this information. Current students or alumna who are not in a position to secure a Committee Letter have the option of obtaining three individual letters of recommendation from faculty members and professional supervisors. Students who are considering careers in professional medicine should contact the coordinators very early in their studies so that they may be properly advised and kept aware of current information about admissions policies and trends.

Standard Course Requirements for the Medical Professions

Courses	Semesters
Biology (with lab)	2 semesters
General (Inorganic) Chemistry (with lab)	2 semesters
Organic Chemistry (with lab)	2 semesters
Biochemistry	1-2 semesters
General Physics (with lab)	2 semesters
English (includes one writing intensive course)	2 semesters
Additional courses, often required:	

Microbiology (with lab)	1 semester
Mathematics (through Calculus)	2 semesters
Basic Statistics	
Social Sciences	2-4 semesters
Humanities	2-4 semesters

Political Science (Major, Minor)

History and Political Science Department

Anne E. Henderson, Ph.D, *Chair*
Therese Marie Dougherty, SSND, Ph.D. (Joint Appointment with Language Dept.)
David G. Hoovler, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Political Science curriculum offers in-depth instruction in American Politics, Comparative Politics, and International Affairs.

Summary

Women's College

The History/Political Science Department of the College of Arts, Sciences, and Business offers a Major and Minor in Political Science to students in the Women's College. Students in the Program may specialize in international relations, public service, law and civic engagement, or public leadership. History and political science provide an important bridge between the humanities and the social sciences. Together they invite students to develop a wide perspective on humanity and its institutions in the past, the present and the future. They also offer students a rich variety of career preparations in academic, public or private sector opportunities.

The Program of Study in Political Science is designed to introduce students to the concepts and theories for understanding a broad range of political problems and to develop analytical skills for thinking and acting responsibly in the diverse field of political affairs. The Program provides preparation in four broad fields of political science: American Politics, Comparative Politics,

International Affairs and Political Theory. The Program is particularly distinctive for its focus on the role of women in politics, as well as issues of justice and peace. It offers unique perspectives on problems of political violence, terrorism, genocide, and human rights abuses, and provides students with experiential learning opportunities to grapple with these problems in real-world contexts.

The student is encouraged to seek practical experience in politics and law through internships in federal, state and local agencies arranged through consultation with the department advisor. The Department also sponsors a chapter of *Pi Sigma Alpha* (Alpha Delta Nu) for students who meet the membership requirements for this national honor society in political science.

The emphasis throughout is to plan a program with experiences to develop the student's potential, whether her interests and talents direct her toward graduate or professional study or toward employment in the public or private sector upon graduation. Political Science graduates have earned advanced degrees at institutions such as the University of Notre Dame School of Law, University of Maryland School of Law, University of Maryland School of Social Work, The Catholic University of America and George Washington University. Graduates are employed by organizations such as Sinai Hospital, MBNA Corporation, Primerica Financial Services, Legg Mason and Catholic Relief Services.

The General Education Requirement in Social Science may be fulfilled by the following Political Science courses: POL-101, 103, 201, 252, and 324.

Political Science courses that satisfy the General Education Requirement in Cross-cultural Studies: POL-101, 103, 201, 290, 325, 351, 370, 401, 430, 440.

Political Science courses that satisfy the General Education Requirement in Gender Studies: POL/HIS-290 and POL-324

Students are strongly encouraged to take MAT-215 to satisfy their General Education Requirement in Mathematics and ECO-211 to meet the Social Science General Education Requirement.

Students must earn a minimum cumulative grade point average of 2.0 in all courses taken to complete the requirements of the Political Science Major.

Programs of Study

Required Courses for a Major in Political Science (Credits)

POL-101 Introduction to Politics (3)
POL-103 Introduction to International Affairs (3)
POL-202 American Politics in Comparative Perspective (3)
POL-217 Civic Participation and Leadership (3)
POL-361 Methods in Political Science Research (3)

POL-401 Political and Economic Globalization (3)
POL-404 US Foreign Relations
POL-456 Senior Seminar (3)
Internship (3)

Three of the following:

POL-290 Women in Islamic Societies
POL-351 Politics of Developing Nations (3)
POL-370 Model OAS
POL-430 International Organizations and World Politics (3)
POL-440 Global Issues (3)
HIS-233 Europe and the World (3)

One of the following:

POL/HIS-219 The American Presidency (3)
POL-312 Legal Reasoning
POL 344 Civil Liberties/Civil Rights
POL-412 Constitutional Law (3)
POL-324 Women, Politics, and the Law (3)

Required Courses for a Major in Political Science/International Relations

HIS-404 U.S. Foreign Relations in the 20th Century (3)
HIS-330 European Foreign Relations Since 1815 (3)
POL-103 Introduction to International Affairs (3)
POL-351 Problems of Developing Nations (3)
POL-361 Methods in Political Science Research (3)
POL-401 Political and Economic Globalization (3)
POL-430 International Organizations and World Politics (3)
POL-440 Global Issues or HIS/POL-325 Revolution and Terrorism (3)
POL-456 Senior Seminar (3)
Internship (3)

Four of the following:

HIS-200 Honors: The Age of Genocide (3)
POL/HIS-252 Latin American History and Politics (3)
POL-290 Women in Islamic Societies (3)
HIS-328 Post-Colonial Africa (3)
HIS-331 Modern China (3)

HIS-335 Modern Japan (3)
POL-370 Honors: Model OAS

Approved Program for Secondary Certification in Social Studies/History (Dual Certification) (See History section of the Catalog for details.)

Required Courses for a Major in Political Science/Public Service

POL-101 Introduction to Politics (3)
POL-202 American Politics in Comparative Perspective (3)
POL-217 Civic Participation and Leadership (3)
POL-312 Legal Reasoning (3)
POL-361 Methods in Political Science Research (3)
Internship (3)
POL-456 Senior Seminar (3)

One of the following:

POL/HIS-319 The American Presidency (3)
POL-412 Constitutional Law (3)

One of the following:

HIS-208 The United States, 1900-1945 (3)
HIS-316 The United States, 1945 to the Present (3)

One of the following:

BUS-394 Organizational Behavior (3)
BUS-302 Principles of Management (3)

One of the following:

COM-331 Public Relations (3)
COM-403 Organizational Communication (3)
Three other political science or history courses of student's choice (9)
Recommended electives: BUS-211 and BUS-212 Principles of Accounting I and II.

Major in Political Science/Law and Civic Engagement

The Political Science Major with a Law and Civic Engagement track introduces students to the principal fields of inquiry and intersection within legal systems and political institutions. The Program explores the special relationships of women to law and government—as lawmakers, leaders, and

policymakers. Accordingly, the Major helps prepare students to assume positions of leadership in their communities.

Students interested in attending law school should consider taking a broad undergraduate program in the liberal arts, with a particular focus on courses in English, History, Political Science and Philosophy. Successful law school applicants should have a broad understanding of History, including the various factors that have influenced the development of society in the United States. They should possess a fundamental understanding of political thought and of the contemporary American political system. Through strategic selection of courses fulfilling General Education Requirements they should also acquire mathematical and financial skills, such as an understanding of pre-calculus mathematics and an ability to analyze financial data. Finally, they should possess an understanding of human behavior and social interaction as well as an understanding of diverse cultures within and beyond the United States, of international institutions and issues, of world events, and of the increasing interdependence of the nations and communities within our world.

Required Courses for Major in Political Science/Law and Civic Engagement

POL-101 Introduction to Political Science (3)
POL-2xx American Presidency
POL-324 Women, Politics, and the Law (3)
POL-202 American Politics in Comparative Perspective (3)
POL-217 Civic Participation and Leadership (3)
POL-312 Legal Reasoning (3)
POL-361 Methods in Political Science Research (3)
POL-412 Constitutional Law (3)
POL-440 Global Issues (3) or POL-370 Model OAS
POL/HIS-456 Senior Seminar (3)
POL-344 Civil Liberties/Civil Rights (3)
One internship or study abroad experience (3)

Four additional courses (12)

Courses fulfilling this requirement include, but are not limited to:

BUS-304 Legal Environment of Business I
BUS-305 Legal Environment of Business II
COM-441 Mass Communication Law
CRM-107 Introduction to Criminology
CRM-307 Theories of Crime and Social Deviance
CRM-310 The Criminal Justice System
HIS/POL-200 Genocide

HIS/POL-290 Women in Islamic Societies
HIS-2xx Women in American History
HIS-404 U.S. Foreign Relations
PHL-310 Logic
POL-260 Immigration Law and Policy
POL-401 Globalization
POL-430 International Organizations

Minor in Political Science

The Department also offers a Minor in Political Science consisting of a minimum of 18 credits of course work in Political Science. Students who wish to Minor in Political Science should consult the department chair. POL-101, 103 and 201 are required.

Minor in Law and Civic Engagement

The Minor in Law and Civic Engagement is an 18 credit course of study designed to deepen understanding of the structures and functions of American government and the role of law in contemporary society. The Minor particularly seeks to explore the special relationships of women to law and government—as lawmakers, leaders, and policymakers. When coupled with the student's Major, the law and civic engagement Minor prepares students to assume positions of leadership in their communities. For those interested in attending law school, the Minor provides a focused set of courses aimed at providing relevant skills and knowledge. The Minor includes the following courses:

POL-202 American Politics in Comparative Perspective
POL-312 Legal Reasoning
POL-217 Civic Participation and Leadership
POL-412 Constitutional Law

Two courses from the following:

POL-101 Introduction to Political Science
POL-2xx American Presidency
POL-324 Women, Politics, and the Law
POL-344 Civil Liberties
POL-370 Model OAS
POL-440 Global Issues

Internship (Typical sites include state and federal courts, the Maryland State Legislature, state agencies, local government bodies, law firms, advocacy groups, and other organizations.)

Minor in Public Leadership

The Department also offers an interdisciplinary Minor in Public Leadership designed to meet the needs of students who are interested in preparing for leadership roles (professional or voluntary) after graduation. This Minor should also be useful for students active in student government by providing academic experiences related to effective leadership. The nature of this Minor makes it an effective complement to many Majors. The requirements are as follows: 18 credits consisting of 9-12 credits in academic courses and 6-9 credits in experiential components.

Required courses: POL-202 American Politics in Comparative Perspective; POL-217 Civic Participation and Leadership; and POL-319 The American Presidency or POL-324 Women, Politics and the Law. Students taking 12 credits in academic courses will select one course from the following: HIS-208 The United States, 1900-1945 or HIS-316 The United States, 1945 to the present.

Students must also participate in two or three experiential components under faculty supervision: POL-411 Women and Public Policy: A Washington Seminar; POL-370 Honors: Model OAS; POL-462.

Directed Leadership Experience

Students interested in this Minor should consult the Department Chair.

Political Science Four-Year Plan

Below is a sample Program of Study for the Political Science Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring

Courses

POL-101 Introduction to Politics

Introduces students to major historical and contemporary belief systems and ideologies as well as major aspects of political systems. Fulfills general education requirement in social science and cross cultural studies. [3 credits]

POL-103 Introduction to International Affairs

Introduces students to different perspectives on power, conflict, international economics and the environment. The role of international organizations and especially the United Nations will also be a focus of the class. Fulfills general education requirements in social science and cross-cultural studies. [3 credits]

POL-105 Comparative Politics

Analyzes political systems of a variety of rich and poor countries and democratic and non-democratic

countries. Fulfills general education requirements in social science and cross-cultural studies. [3 credits]

POL-200 Hrs: To Break the Killing Machine: Understanding, Preventing, and Overcoming Genocide

Examines the nature, causes and consequences of genocide in order to understand the possibilities and challenges of preventing genocidal violence in the future. The course introduced students to the controversies surrounding the definition and analysis of genocide. It begins with the contested question of what constitutes genocide, and how genocide stands apart from other forms of mass violence such as ethnic cleansing and massacres. The course then considers several approaches to theorizing the causes of genocide. In addition, we analyze the challenges of identifying potentially genocidal situations before the killing begins and of intervening to prevent and stop genocides. The course also studies processes of reconciliation in societies that have experienced, or teetered on, the brink of genocide. Using scholarly texts, works of fiction and films, we explore issues of causation, intervention and healing in cases including the colonial genocides of indigenous populations, the Holocaust, Rwanda, Cambodia, Bosnia, Kosovo, the Iraqi Kurds and Darfur. Ultimately, the course asks students to decide whether genocide is an inevitable scourge of the human condition or a tragic aberration that humanly has the power to transcord. [3 credits]

POL-202 American Politics in Comparative Perspective

Introduces students to the nature and structure of the American political process. It gives special attention to the presidency, the congress and the courts, as well as elections, interest groups, and foreign and domestic policy. Contrasts the American system with a variety of rich and poor countries and democratic and non-democratic countries. Fulfills general education requirement in social science and cross cultural studies. [3 credits]

POL-217 Civic Participation and Leadership

Examines citizenship at the local, state, national and international levels. Offers alternative leadership models to help students in their civic engagement. [3 credits]

POL-235 Post-Communist Experience

POL-241 Cuban Rev:Cold War & After

POL-252 Latin American History and Politics

Analyzes the history or Latin America from pre-Columbian times to the present, navigating through colonialism, independence, the formation of nations, military and personal dictatorships, to current

imperfect democracies. The course reviews the economic swings between protectionism and neo-liberalism, and studies how different countries deal with income inequality, race, environmental issues, the changing role of women, cultural differences, and the role of religion. Case studies will focus on Argentina, Brazil, Mexico, Chile, Venezuela, and Cuba. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

POL-260 The Politics of Immigration in the U.S.

Surveys the politics of U.S. immigration from historic, economic, security, social, humanitarian and global perspectives. Students study current immigration reform debates and examine immigration policies, including those on visas, employment and family based immigration, deportation, asylum/refugee status, naturalization, and citizenship. The course explores the relationship between immigration and assimilation, inclusion, social justice, human rights, racism, civil rights, tolerance and multiculturalism. Fulfills general education requirement in cross-cultural studies. [3 credits]

POL-290 Women in Islamic Societies

Examines the historical development and current realities of women's political, cultural, and economic roles in Islamic societies. The course explores the diversity of women's roles in Muslim countries in Europe, Central Asia, the Middle East, africa, and Asia. It examines how women have influenced, and been affected by, international trends such as the spread of democracy, the rise of religious fundamentalism, and the process of globalization. Students learn how Muslim women have defined themselves, and been defined, in the realms of political/social activism, work, the arts and culture, and the family. In addition, students critically analyze Western perceptions and stereotypes of Muslim women and their lives. Fulfills general education requirement in cross-cultural and gender studies. [3 credits]

POL-312 Legal Reasoning

Introduces students to the structure of the American legal system and the sources of legal authority. Students learn how to read and analyze cases and statutes and how to communicate their analysis by writing memoranda, letters to clients and briefs. The course also includes some basic instruction in legal research and citation form. [3 credits]

POL-324 Women, Politics and the Law

Analyzes the changing legal status and political role of women in the United States. Focuses on issues related to marriage and family, women's employment and political participation. Studies Supreme Court decisions related to women. Fulfills general education requirements in social science and gender studies. [3 credits]

POL-325 Revolution and Terrorism

Traces the causes, patterns and outcomes of the French, Russian, Cuban and Iranian Revolutions, and analyzes the similarities and differences between revolutionary movements and guerrilla and terrorist groups. The course looks at the ideological, ethnic and religious terrorist groups with a special emphasis on religious terrorism and its worldwide impact. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

POL-344 Civil Liberties, Civil Rights

Introduces students to the study of civil liberties as protected by the Constitution of the United States, with a primary focus on those rights incorporated into the Bill of Rights, especially the freedoms of speech, press, association, and religion. Also addresses the rights to privacy, franchise and citizenship, due process, equal protection against race, gender, and other discrimination, and the rights of those accused or crimes and the death penalty. Confronts contemporary civil liberties issues in a post 9/11 world and the global war on terror by touching on such matters as interrogation and torture, killing and assassination, detention and trial. Provides a deeper understanding of two central questions: how the Constitution protects us from each other, and how the Constitution protects us from our government. Fulfills general education requirement in social science. [3 credits]

POL-346 History of Middle Eastern Politics

Engages in a comprehensive analytical examination of Middle East politics with a special focus on four problem relationships: The Israelis and the Palestinians; the Arabs and the Persians, the Turks and the Kurds; and the Indians and the Palestinians. The role of the United States in each of these conflicts, as well as the continuing unrest in Afghanistan, Kuwait, Saudi Arabia and Iraq, will be discussed. The Palestinian situation will be a topic of intense concentration. Fulfills the general education requirements in history and cross-cultural studies. [3 credits]

POL-351 Problems of Developing Nations

Introduces students to economic, political and cultural issues of development and underdevelopment in Asia, Latin America, Sub-Saharan Africa, the Middle East and North Africa. Fulfills general education requirement in cross-cultural studies. [3 credits]

POL-361 Methods in Political Science Research

Examines political science research including theory construction, data generating techniques and data analysis. Students learn to match appropriate methodologies with relevant research questions in the field. Prerequisite: MAT-215. [3 credits]

POL-370 Hrs: Model Organization of American States (OAS)

Prepares students to participate in the Model Organization of American States (Model OAS)

competition, which takes place at OAS headquarters in Washington, D.C. in the spring. A team of 10 Notre Dame students, representing an assigned country, debates other colleges and universities from the United States, Latin America and the Caribbean on issues such as democratization, regional integration, poverty, environmental problems and human rights issues. In addition to becoming familiar with hemispheric issues, students learn leadership, cooperation, persuasion and diplomatic skills. Prerequisite: Morrissy scholar and permission. Fulfills general education requirement in social science and cross-cultural studies. [3 credits]

POL-390 Environmental Policy at the U. S. State and National Level

Focuses on U.S. state and national environmental policies regarding air and water pollution, use of public lands, climate change and alternative energy sources. The course will also focus on risk assessment and environmental justice issues. Students will analyze the historical development of policies as well as current and evolving political processes. Fulfills general education requirement in history [3 credits]

POL-401 Political and Economic Globalization

Introduces students to the political implications of trade, aid, investment, technology and energy relations along with their impact on relations between rich as well as poor countries. Fulfills general education requirement for cross cultural studies. Prerequisite: POL-103 or permission. [3 credits]

POL-412 Constitutional Law

Examines the evolving interpretation of the provisions of the U.S. Constitution. Considers current issues and benchmark cases important to understanding Constitutional law. [3 credits]

POL-427 Study Tour

Combines study with travel to various parts of the world. Organized by faculty members of the department. Offered periodically in Summer and Winterim. [3 credits]

POL-430 International Organizations and World Politics

Introduces students to past, present and future international organizations. Emphasizes evaluation of the operations of the United Nations as an arena for conflict resolution and attention to social welfare concerns in the international system. Fulfills general education requirement for cross cultural studies. Prerequisite: POL-103. [3 credits]

POL-440 Global Issues

Examines five to six major topics that interconnect or divide the contemporary world. Democracy, the

global economy, religion and ethnicity, global migration, population trends, women, the environment, and technology and communication are some of the issues we visit. Fulfills general education requirement in cross-cultural studies. Prerequisite: POL-103. [3 credits]

POL-456 Senior Seminar

Applies ideas, methods, and approaches from history, political science, and international studies to the exploration of selected topics. Students situate their discipline within their context of related fields, while also advancing the skills necessary for professional work in their own areas. In this team-taught course, history majors address the selected topic through focusing on the history of history, the politics of history, and the art of writing history based on original sources. Meanwhile, political science and international studies major use the selected topic as a focal point for synthesizing their understanding of the diverse theories and methods of thier disciplines. All students will, in consultation with their professors, select, design and write an original research paper to be presented to the class at the end of the semester. Serves as the capstone course for history, political science, and international studies majors. Prerequisites: POL-101 or POL-103 and POL-361 for POL and INS majors; HIS-101 for History Majors. For seniors only; juniors by permission of instructor and department chair. [3 credits]

POL-463 Independent Study

Focuses on an independent research project of the student's choosing with direction and guidance by a faculty member of the department. [2-6 credits]

POL-465 Directed Readings: Selected Topics in Political Science

Offers an opportunity to focus on extensive examination of a topic of special interest to the student under the guidance of a faculty member of the department. [3-4 credits]

POL-527 Study Tour

We need a description for this course.

Physics (Major, Minor)

Math, Computer Studies, and Physics Department

Brian Christy, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus

The Mathematics/Physics/Computer Information Systems Department of the School of Arts, Sciences, and Business offers a Major and Minor in Physics to students in the Women's College. Recognizing the role our field plays in other disciplines, we offer courses for department majors and non-majors that serve the students of NDMU in the Catholic Liberal Arts tradition. As an integral part of the liberal arts, we provide the students at NDMU with an understanding of the physical world, quantitative and technologically based knowledge, and enable our students to become leaders in their future professions.

Summary

Women's College

Physics represents humanity's most profound attempt to understand the universe in which we live by studying the events and interactions that occur in nature and by trying to comprehend the truths or laws that govern these physical processes. As the most fundamental and all-inclusive of the sciences, physics naturally forms an educational base from which students may enter many diverse occupations and careers. Graduates are employed at NASA/Goddard Space Flight Center, NASA/Marshall Space Flight Center the U.S. Department of Energy, Lockheed Martin, U.S. Army Aberdeen Test Center, Thornton Tomasetti, and the Peace Corps. Among the institutions where graduates have pursued

advanced studies are Rochester University, Princeton University, Drexel University, George Washington University, University of Delaware, Delaware State, and Boston College.

Physics Majors may add an additional Major in a discipline such as Mathematics, Computer Studies or Chemistry, or Minor in one of several different fields.

A student may fulfill the General Education Requirement in natural science by taking PHY-101, 111 (College of Adult Undergraduate Studies), 132 (CAUS), or 155. The cooperative program with neighboring colleges provides concentrators with a wide choice of upper-level courses and a variety of faculty viewpoints.

Programs of Study

Required Courses for a Major in Physics

PHY-101 and PHY-102 General Physics I, II (8)
PHY-201 Modern Physics (3)
PHY-316L Classical Mechanics (3)
PHY-314 Quantum Mechanics (3)
PHY-315 Electricity and Magnetism (3)
Two other physics courses (at 300 level or higher) (6)
PHY-463 Investigations in Physics (1-4)

Credit is earned for PHY 463 by completing one of the following:

- Internship
- Teaching Apprenticeship
- Research Experience

CHM-110 and CHM-111 General Chemistry I and II (8)
CST-171 Programming Concepts or CST-295 C++ Programming (3)

MAT-211, MAT-212, MAT-213 Calculus I, II, III (11)
MAT-214 Calculus of Vector Fields (1)
MAT-243 Linear Algebra (3)
MAT-315 Differential Equations (3)

Required Courses for a Minor in Physics

MAT-211 and MAT-212 Calculus I, II (8)
PHY-101 and PHY-102 General Physics I, II (8)
PHY-201 Modern Physics (3)
Plus one other course in mathematics, physics or computer science at the 200-level or higher (3)

Four-Year Plan

Below is a sample Program of Study for the Physics Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
PHY-101 General Physics I	4	PHY-102 General Physics II	4
MAT-211 Calculus I	4	MAT-212 Calculus II	4
ENG-101 College Writing	3	MAT-243 Linear Algebra or CST-171 Program Concepts	3
NDMU-100 First Year Seminar	4	Foreign Language	3
[15 credits]		[14 credits]	
Second year			
PHY-201 Modern Physics	3	PHY-316L Classical Mechanics*	3
MAT-213 Calculus III	3	CHM-111 General Chemistry II	4
CHM-110 General Chem I	4	CST-171 Program Concepts or MAT-243 Linear Algebra	3
General Education/Electives	6	General Education	3
[16 credits]		MAT-214 Calculus of Vector Fields	1
		[14 credits]	
Third year			
PH 314 Quantum Mechanics* or PH 315 Electricity & Magnetism I*	3	Program Electives	6

Gen Education/Electives	12	MAT 315 Differential Equations	3
[15 credits]		Physical Education	1
		PHYS 330+	3
		[16 credits]	
Fourth year			
PH 314 or PH 315	3	Program Electives	3
Gen Education/Electives	12	Gen Education/Electives	9
		PHYS 463	1-4
[15 credits]		[13-17 credits]	

Notes:
*+ need to take at least two Physics courses at level 300 or higher **[excluding PHY 463]'***

Depending on transfer credit and courses chosen, students must complete between 28-46 credit hours of General Education coursework. Please consult with the faculty advisor for your particular situation and which courses to take that best align with your interests and career path'

'Students are required to take 120 credit hours total in order to earn the degree. Consult the faculty advisor for which courses are most appropriate to select based on interests and career goals.'

need to take at least two physics courses at level 300 or higher
**Courses with a designation of "L" are taught at Loyola. Notre Dame students take the courses through the cooperative program. For more information, contact the Program Chair.*

Courses

PHY-101 General Physics I

Studies the fundamental physical laws of nature and their use in understanding natural phenomena.

Course provides a knowledge base for study in all areas of science and mathematics. Topics include kinematics, dynamics of motion, Newton's laws, rotational mechanics and conservation of energy and momentum. Development of the concepts of vector algebra and calculus are provided as needed. Three lectures, one three-hour laboratory weekly. Fulfills general education requirement in natural science. [4 credits]

PHY-101L Lab: General Physics I

This lab is a co-requisite for PSY 101.

PHY-102 General Physics II

Continues studies of the fundamental physical laws of nature and their use in understanding natural phenomena. Topics include classical wave motion, acoustics, optics, electricity and magnetism. Development of the concepts of vector algebra and calculus are provided as needed. Three lectures, one three-hour laboratory weekly. [4 credits]

PHY-102L Lab: General Physics II

This lab is a co-requisite for PSY 102.

PHY-111 College Physics

Provides a survey of the field for students with interests in the health sciences. Topics include mechanics of motion, energy, thermodynamics, electricity, magnetism, atomic and nuclear structure, and radioactivity. Fulfills general education requirement in natural science. CAUS only. [3 credits]

PHY-114 Environmental Science for Educators

Interdisciplinary study of the interactions among the physical, chemical, biological, political and social forces which impact the environment. Provides students with scientific principles, concepts, and methodologies necessary to comprehend the relationships abundant within the natural world in order to identify problems, evaluate risks and examine solutions for resolving issues facing the global environment. Topics include the major biomes in the world, populations, biodiversity, water, air and land uses, energy resources, and waste management. [3 credits]

PHY-132 Environmental Science

Explores the global environment, focusing on current threats to the planet's well-being and presenting options for the future. Introduces the basic principles of ecology. Designed for non-science students. Laboratory and lecture integrated. Fulfills general education requirement in natural science. CAUS only. [3 credits]

PHY-155 Introduction to Astronomy

Presents topics in astronomy designed for the non-science student. Describes and traces the historical development of astronomy from ancient myths to modern cosmology. Course concentrates on trying to understand the properties and motion of planets, stars, galaxies and the universe itself. Three lectures, one two-hour laboratory weekly. Extensive use of the telescope. Fulfills general education requirement in natural science. [4 credits Women's College; 3 credits College of Adult Undergraduate Studies]

PHY-155L Lab: Introduction to Astronomy

This lab is a co-requisite for PSY 155.

PHY-201 Modern Physics

Traces the development of ideas and theories that have shaped physics in the last 100 years. Topics include relativity, quantum theory, atomic and nuclear structure, particle physics and cosmology. Course can be used to fulfill minor in physics. Prerequisites: PHY-102 and MAT-212. [3 credits]

PHY-330 Introduction to Modern Astrophysics

Studies the discipline of astrophysics through a survey of topics including an introduction to general relativity, an introduction to modern telescopes, and applications such as stellar astrophysics, black holes, galaxies, and/or cosmology. Prerequisites: MAT-212, PHY-201 and Women's College students only and Loyola University students through the BSEP program. [3 credits]

PHY-463 Investigation in Physics

Provides guided study of special topics of interest to the student under the direction of the instructor. [3-4 credits]

PHY-550 Cosmos and Quanta

Examines the most recent ideas on the birth and ultimate fate of the Universe from ancient myths to modern scientific theories. Students will be able to appreciate how knowledge of the very small dimensions can inform and illuminate knowledge of the very large. Topics to be investigated include the Big Bang Theory, the accelerating Universe, black holes, relativity, quantum, and superstring theory. Students will be able to ascertain whether science can answer fundamental questions such as whether there is a purpose to the Universe and what is humanity's role in it. No prior scientific experience necessary. [3 credits]

PHY-560 Physics for Teachers Grades K-8

This course is an introduction to the fundamental laws of nature and their application to physical phenomena through science, technology, engineering and mathematics (STEM). Physics content includes mechanics, acoustics, optics, electricity, and magnetism appropriate for educators in grades K-8. It will also include an integration of the study of number relationships and computation in problem solving. [3 credits]

PHY-560L Lab: Physics Methods for the Middle School Educator

Models of teaching and appropriate techniques for instruction of middle school students in physics with emphasis on scientific inquiry. Application of teaching-learning theory to physics in planning, motivation, instruction, questioning, discussion and assessment. Co-requisite PHY-560

PHY-561 Earth and Space Science for Teachers K-8

This course presents an introduction to fundamental concepts of space and earth sciences. The Space and Earth science content includes topics in Geology, Astronomy, Meteorology, energy in the Earth and Space System, and Hydrology. STEM strategies as well as statistics and probability skills and technology applications are integrated to quantify, strengthen and deepen conceptual understanding. [3 credits]

PHY-561L Lab: Space and Earth Science Methods for the Middle School Educator

Models of teaching and appropriate techniques for instruction of middle school students in space and Earth science with emphasis on scientific inquiry. Application of teaching-learning theory to space and Earth science in planning, motivation, instruction, questioning, discussion and assessment. Co-requisite: PHY-561

Psychology (Major, Minor)

Psychology Department

Maria Mouratidis, Psy.D., *Chair*
Adem Can, Ph.D.
Irena Fedorovsky, Psy.D.

Degrees offered

Major
Minor

Campuses

Main Campus

Women's College

The Psychology Department of the School of Arts, Sciences and Business offers a Major and Minor in Psychology, and Minors in Psychology and in Forensic Psychology through the Women's College. The Department offers a Major in Industrial-Organizational Psychology through the College of Adult Undergraduate Studies. Psychology as a science (STEM program) studies mental processes as well as human and animal behavior. While the roots of psychology are in philosophy and the humanities, contemporary developments strongly support grounding the discipline in scientific thought and in empirical practice. These scientific roots place objective methods of data collection, critical thinking, analysis and theory construction at the core of the curriculum. The goal is to apply these understandings across settings to advance science and improve the quality of human life. Our curriculum, grounded in the traditional liberal arts and the value of social responsibility, is consistent with the scientist-practitioner model. Our students learn to think critically and to be critical consumers of the scientific

literature. They learn to use the Statistical Package for the Social Sciences (SPSS), take laboratory courses (such as Learning and Motivation), learn about the normal and abnormal functioning of personality with an emphasis on cultural sensitivity and competence, explore the social and biological bases of behavior, are required to use APA Style, and demonstrate their ability to express themselves both orally and in writing. As a Capstone experience, students complete an individualized practicum where they apply knowledge and skills they have gained under supervision. Licensed psychologists teach clinical courses in the Psychology Program of Study.

Program Objectives

The Psychology Program of Study goals are to: (1) develop a strong knowledge base in the discipline; (2) develop discipline specific professional skills including writing, oral presentation, critical thinking, research design and statistics; (3) know and apply a professional ethical code by articulating and applying the relevant ethical principles; (4) prepare for entry-level career placement or graduate school; and (5) contribute to the well-being of self and others (generativity).

Integral to the Psychology Major is the psychology practicum placement where students apply knowledge and skills in field settings integrating theory, research and practice. The Practicum has evolved to include placements of national prominence in which students demonstrate mastery of psychological principles in clinical psychology, school psychology, biopsychology, animal research, clinical/psychiatric research, and guidance and counseling. Students have placements working with diverse patient populations and across all age groups.

The Psychology Program of Study prepares students for a range of career paths, including graduate school, medical school or entry-level positions that use psychological skills and knowledge. Students can use the principles of psychology in clinical or research settings, or in the fields of education and training. Psychology complements many other courses of study, especially education, business, art and music, political science, women's studies, biology, pharmacy, criminology and communications. Understanding human behavior and scientific processes of measurement and analysis provides students with a portable skill set.

The Minor in Forensic Psychology assists students in developing counseling and communication skills to prepare them to interface with diverse populations, including victims and offenders. Graduates with this Minor will be prepared to succeed in an occupation involving interaction with people, including policy making, community action, social research and social services.

Graduates of the Program are employed in psychology-related careers and in a variety of human service, education, research and business organizations, including Sheppard Pratt Hospital, the Baltimore County Department of Health, Grassroots Crisis Intervention Center, Kennedy Krieger Institute, Americorps, Booz Allen Hamilton, the National Institutes of Health and the National Institute on Drug Abuse.

PSY-101 Introduction to Psychology fulfills the General Education Requirement in Social Science. PSY-375 Sex and Gender, SOC/PSY-271Psychology/Sociology of Gender Roles, PSY 209 Social Psychology, and PSY 371 Honors Women and Her Symbols fulfill the General Education Requirement in Gender Studies. PSY 208 Multicultural Psychology and PSY 427 Psychology Study Abroad: Women Surviving Trauma and Building Peace fulfill both the General Education in Cross Cultural Studies and Gender Studies. Students with a 3.0 Grade Point Average in Psychology who are in the top 35% of the class may become active members of *Psi Chi*, the National Honor Society in Psychology. These students typically pursue an independent study project.

Psychology Majors and Minors and students choosing Psychology as a concentration for Liberal Studies must complete all courses for the Major/Minor with a grade of C or higher.

A student must have abilities and skills in five areas for PSY 306, PSY 406, PSY 409, PSY 461, and PSY 462: 1) observation; 2) communication; 3) motor; 4) intellectual, conceptual, integrative, and quantitative; and 5) behavioral and social. Technological compensation can be made for some limitation in certain of these areas, but a student should be able to perform in a reasonably independent manner.

1. **Observation:** The student must be able to accurately make observations at a distance and close at hand. Observation necessitates the functional use of the sense of vision and somatic sensation and is enhanced by the functional use of all of the other senses.
2. **Communication:** The student must be able to communicate effectively, efficiently and sensitively in both oral and written form and be able to perceive nonverbal communication.
3. **Motor:** Student must be able to coordinate both gross and fine muscular movements, maintain equilibrium and have functional use of the senses of touch and vision. The student must possess sufficient postural control, neuromuscular control and eye-to-hand coordination to perform profession-specific skills and tasks.
4. **Intellectual, Conceptual, Integrative and Quantitative Abilities:** The student must be able to problem solve, calculate, reason, analyze, record and synthesize large amounts of information in a timely manner. The student must be able to comprehend three-dimensional relationships and understand spatial relationships.
5. **Behavioral and Social Attributes:** The student must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the consistent, prompt completion of all responsibilities and the development of mature, sensitive and effective

relationships. Students must be able to tolerate physically, mentally and emotionally taxing workloads and to function effectively under stress. The student must be able to adapt to changing environments, to display flexibility, and to learn to function in the face of uncertainties. Compassion, integrity, concern for others, effective interpersonal skills, willingness and ability to function as an effective team player, interest and motivation to learn are all personal qualities required during the educational process.

Students who may not meet the technical standards are encouraged to contact the NDMU Director of Disability Support Services to discuss and identify what accommodations, if any, would need to made in order that the student might be able to meet the standards.

Programs of Study

Required Courses for a Major in Psychology

PSY-101 Introductory Psychology (4)
PSY-205 Theories of Personality (3)
MAT-215 Basic Statistics (Strongly recommended to be taken in the first year) (3)
PSY-210 Research Methods I (4)
PSY-420 History and Systems of Psychology (3)
PSY-461 Practicum (4)

Upper Level Research Course: One of the following (4)

PSY-340 Quantitative Methods
PSY-380 Qualitative Methods
PSY 409 Psychometrics

Outcomes Course: One of the following (3)

PSY-411 Special Topics
PSY-406 Advanced Therapeutic Techniques
PSY-463 Independent Research (individual data collection project)

Biological Bases (choose one)

PSY-220 Introduction to Neuroscience (3)
PSY-212 Cognition (3)
PSY-223 Biopsychology (3)
PSY-323 Sensation and Perception (4)

Behavioral Bases (choose one)

PSY-325 Learning and Motivation (4)
PSY/BIO-343 Animal Behavior (4)

Developmental Bases (choose one)

PSY-203 Child and Adolescent Development (3)
PSY-233 Human Development (3)
PSY-304 Adulthood and Aging (3)

Social Bases (choose one)

PSY-260 Positive Psychology (3)
PSY-209 Social Psychology (3)
PSY-208 Multicultural Psychology (3)
PSY-271-H Gender Roles (3)
PSY-375 Sex and Gender (3)

Applied (choose one)

PSY-306 Theories and Techniques of Counseling and Psychotherapy (4)
PSY-207 Psychopathology (3)
PSY-390 Career Counseling (3)

Two additional courses at the 200-level or above (6-8)
One of these courses must be at the 300- or 400-level (a second practicum does not fulfill this requirement).

Required Courses for a Minor in Psychology

PSY-101 Introductory Psychology (4)
PSY-205 Theories of Personality (3)
PSY-210 Research Methods I (4)

(or an acceptable course from the student's major discipline as determined by the psychology department chair)
Five additional psychology electives, at least one chosen from each category, and at least two from the 300-level* (12-15)
**PSY 461 and 462 are not open to Psychology Minors.*

Required Courses for a Minor in Forensic Psychology

PSY-101 Introductory Psychology (4)
CRM-101 Introduction to Criminology (3)
CRM-203 Theories of Crime and Social Deviance (3)
PSY-205 Theories of Personality (3)
PSY-207 Psychopathology (3)

PSY-210 Research Methods (4)
PSY-306 Theories and Techniques of Counseling (4)
PSY-409 Psychometrics (4)

Options for Psychology Majors

The Behavioral Neuroscience Major

This interdisciplinary program is designed to serve students interested in the biological basis of behavior, with primary emphasis on brain-behavior relationships. (See separate Catalog section under behavioral neuroscience). It provides a core of Biology, Chemistry, Psychology, and Neuroscience courses. Students interested in this Program should contact the Department Chair in their first year to facilitate graduation within four years.

Art Therapy

The Psychology and Art Departments collaborate in assisting students who wish to pursue the study of Art Therapy on the graduate level. Students are strongly encouraged to contact specific Art Therapy graduate programs early in their undergraduate work in order to complete courses required by the graduate program of their choice. The Departments also closely monitor the course recommendations of the American Art Therapy Association. The student's Program of Study in Psychology should include six credits earned through PSY-207 Abnormal Psychology and either PSY-233 Human Growth and Development or PSY-203 Child and Adolescent Psychology.

Music Therapy

Music therapy is a graduate course of study. However, the psychology and music departments assist students who desire to pursue an advanced degree in music therapy. These students complete a major in psychology and a minor in music with the advice and close supervision of a faculty member. Students are expected to contact specific music therapy graduate programs early in their undergraduate work in order to identify specific courses required by the graduate program of their choice. The departments monitor the course recommendations of the American Music Therapy Association. The student's program of study in psychology would normally include 6 credits earned through PSY-207 Abnormal Psychology and either PSY-233 Human Growth and Development or PSY-203 Child and Adolescent Psychology.

Four-Year Plan

Below is a sample Program of Study for the Psychology Major. Students should select courses with the assistance of a faculty advisor. It is recommended that students complete MAT- 215 and PSY-210 by their sophomore year.

Fall		Spring	
First year			
PSY-101 Introduction to Psychology	4	100/200-level Psychology	3
NDMU-100 First Year Seminar	3	MAT-215 Basic Statistics	3
General Education	9	General Education/Electives	9
[16 credits]		[15 credits]	
Second year			
PSY-205	3-4	200-level PSY course	3-4
PSY-210 Research Methods I	4	Upper Level Research Course	4
General Education/Electives	9	General Education/Electives	6
[16-17 credits]		[13-14 credits]	
Third year			
PSY courses	6-7	300-level PSY course	3-4
PSY 463 or PSY 464	3	300-level PSY course	3-4
General Education/Electives	6	PSY-461 Practicum (option)	4
[15-16 credits]		General Education/Electives	6
		[16-18 credits]	
Fourth year			
PSY-420 History and Systems	3	PSY-406 or PSY-411 or PSY-464	3
400-level PSY course	3-4	PSY-406 or PSY-411 or PSY-464	3
PSY-461 or PSY-462 Practicum (option)	4	PSY-462 Practicum (option)	4
General Elective	3	General Education/Electives	6

[13-14 credits]	[16 credits]

Courses

PSY-101 Introductory Psychology

Examines psychology's perspective on human behavior through many human experiences: learning and memory, perception, motivation and emotion, personality, social interaction, normal and abnormal behavior, and human development. Draws from experience and fosters application to the students' own lives. This is a foundational course, and it meets prerequisite requirements for most psychology courses. Fulfills general education requirement in social science. Lecture and lab. [4 credits]

PSY-101L Lab: Introductory Psychology

This lab is a co-requisite for PSY 101 focused on concept development and discipline specific skills.

PSY-130 Psychology At the Movies

Explores the impact of psychological themes and theories on popular movies within the context of culture. Consists of an intensive, didactic experience that introduces the student to related psychological research and applications as they apply to a specialty field within psychology. Special emphasis is given to the comparison of cultural and cross-cultural elements embedded and transmitted through the filmmaker's story. [3 credits]

PSY-165 Human Sexuality

Examines the role of sexuality in human behavior. Through integration of biological and psychological aspects, attempts to survey the breadth of human sexuality, alternative life styles and deviations. Includes individual differences through the life span. [3 credits]

PSY-203 Child and Adolescent Development

Surveys development from conception through adolescence. Explores methods of developmental research, major developmental theories, ways to analyze evidence generated through research, social and behavioral traits and the impact of cultural context on development. Applies concepts to teaching, parenting and working with children. Prerequisite: PSY-101 or status as an elementary education major. PSY-101 is strongly recommended for elementary education majors and will improve student performance in this course. [3 credits]

PSY-205 Theories of Personality

Explores the structure, processes and development of personality from major theoretical perspectives, including psychoanalytic, neoanalytic, humanistic, behavioral, social behavioral and trait approaches. Emphasizes the comprehension, application and contrast of theories of personality and the enhancement of the student's critical thinking skills. Prerequisite: PSY-101. [3 credits]

PSY-208 Multicultural Psychology

Explores the major ethnic groups and the particular psychological issues and needs relevant to specific groups. The impact of culture, race, and ethnicity on theory, research, and practice are examined. Issues related to diversity, tolerance and social behavior are explored. Specific consideration related to sex/gender differences within various cultures and ethnicities will be integral. Prerequisites PSY 101. Fulfills cross-cultural and/or gender studies requirement. [3 credits]

PSY-209 Social Psychology

Investigates the diverse mechanisms through which people influence the individual, particularly cultural socialization, stereotyping and prejudice, membership in formal and informal groups, and in close relationships. Examines topical areas of influence including attitudes, perceptual processes, conformity, conflict and aggression, roles and norms, and helping behavior, with a focus on gender. Emphasizes critical thinking about research and application of concepts to life experience. Prerequisite: PSY-101. Fulfills general education requirement, not the social science requirement for Morrissey only. [3 credits]

PSY-210 Research Methods

Introduces the basic methods of research design and report writing in the behavioral sciences. Descriptive, correlational and experimental research strategies will be discussed. Students design original research and select appropriate data analyses. Ethical issues in each type of research design will be explored. Lecture and laboratory. Prerequisites: MAT-215 and PSY-101. Satisfies the technological competency requirement. [4 credits]

PSY-210L Lab: Research & Stat Methods

This lab is a co-requisite for PSY 210 focused on concept development and discipline specific skills.

PSY-212 Cognition

Investigates the nature of thinking, including attention, perceptual organization, memory, imagery, concept formation, problem solving and language. Emphasis is placed on both research and practical

applications of the decision-making process, strategies for problem solving and the facilitation of memory. Prerequisite: PSY-101. [3 credits]

PSY-220 Introduction to Neuroscience

This course is an introduction to the human nervous system exploring bio-behavioral relationships of the brain, mind, and behavior from a multidisciplinary perspective. Topics will include the sturcture and function of the nervous system, sensory and motor functioning, cognition, motivation, emotion, consciousness, neuroplasticity, behavioral genetics and nervous system disorders. Prerequisites: BIO-111 or PSY-101. [3 credits]

PSY-223 Biopsychology

Presents a current understanding of the brain and its relationship to the behaviors of species from simple organisms to humans. Content includes the study of the anatomy and function of neural systems and their relationship to major disorders of the central nervous system. Contemporary techniques of neural investigation are included. The relationship between biopsychology and other content areas within psychology such as cognitive processes, human development, clinical psychology, learning, motivation and perception are high-lighted. Prerequisites: PSY-101 or BIO-111 with a minimum grade of C.

PSY-233 Human Growth and Development

Explores the principles of developmental psychology from infancy through adulthood and includes general consideration of developmental tasks through the lifespan. Prerequisite: PSY-101. [3 credits]

PSY-260 Positive Psychology

Focuses on the theoretical underpinnings and practical application of positive psychology. Students explore the fundamentals of positive psychology including human strength, virtues, positive emotions, happiness, love, humanity, leadership, spirituality, mindfulness, prosocial behavior, humane leadership, and approaches for living a healthy and meaningful life. Students learn how to apply and integrate these concepts into their understanding of the development of health lifestyles. They will also study their role in mitigating pathology, and analyze how these fundamentals are exhibited in work and community settings. Prerequisite: PSY 101 [3 credits]

PSY-271 Hrs: Psychology of Gender Roles

An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender. Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite:

Morrissy scholar or permission. Fulfills general education requirements in social science and gender studies. [3 credits]

PSY-304 Adulthood and Aging

Explores developmental change over the adult life course in physical, cognitive and social domains. Examines issues of continuity and change and the impact of gender, ethnicity, and social and cultural context on the developing person. Gives special emphasis to the mature adult and the process of aging. Prerequisites: PSY-210, PSY-233. [3 credits]

PSY-306 Theories and Techniques of Counseling

Introduces counseling perspectives, models, ethics and counseling skills for students interested in the helping professions. Surveys major theoretical paradigms and emphasizes mastery of basic communication skills useful in interpersonal relations settings. All students participate in lectures, class demonstrations, role playing and peer practice by using depart-mental counseling suites. This is the foundation course for PSY-406 Advanced Therapeutic Techniques. Prerequisites: PSY-210, PSY-205, and PSY-207 and Technical Standards as evaluated by the department. [3 credits]

PSY-306L Lab: Theories and Techniques of Counseling

This lab is a co-requisite for PSY 306 focused on concept development and discipline specific skills.

PSY-311 Special Topics

Provides a contemporary approach to analyzing and evaluating current topics in psychology or behavioral neuroscience through a critical theoretical framework along with empirical evidence. Topics vary. May be repeated with different topics for a maximum of 6 credits. Prerequisites: PSY 101 and PSY 210 (or an equivalent research methods course approved by the psychology department chair) or by permission of the psychology department chair [3 credits].

PSY-323 Sensation and Perception

Investigates the structure and function of sensory receptors and the organization of sensory input for the basic senses of vision, audition, taste, smell and touch. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-323L Lab: Sensation & Perception

This lab is a co-requisite for PSY 323 focused on concept development and discipline specific skills.

PSY-325 Learning and Motivation

Develops knowledge and research skills in learning and the experimental analysis of behavior in both animals and humans. Covers theoretical issues, basic principles and experimental procedures. Emphasizes biological explanatory mechanisms. Practical applications of basic principles are considered. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-325L Lab: Learning and Motivation

PSY-340 Quantitative Methods

Builds on the content of Research Methods I (PSY-210) to provide hands-on research and data analysis experience using more advanced techniques. Explores multivariate research designs and analysis including multifactor analysis of variance, multiple regression, factor analysis and selected non-parametric techniques. Students design and conduct a research project, write an APA research report, create a poster presentation and use professional statistical analysis software. Lecture and laboratory. Prerequisite: PSY-210. [4 credits]

PSY-340L Lab: Quantitative Methods

This lab is a co-requisite for PSY 340 focused on concept development and discipline specific skills.

PSY-342 Assessment and Evaluation

Surveys the theory and use of a variety of assessment instruments, including personality, aptitude, vocational, intelligence and interest testing. Evaluates the role of tests and questionnaires in placement and counseling. Prerequisites: PSY-101; statistics highly recommended. Students cannot take both PSY 342 and PSY 409 for credit. [3 credits]

PSY-343 Animal Behavior

Studies animal behavior from many perspectives, including the role of genetics and the environment, hormonal influences and neurobiology of behavior. Consideration of evolutionary causes and consequences. Topics include the organization and development of behavior, foraging and feeding, anti-predator behavior, mating and reproductive behavior, parenting, social behavior and animal communication. Three hours lecture, three hours laboratory/field experience. Prerequisites: BIO-230 or PSY-101. [4 credits]

PSY-343L Lab: Animal Behavior

This lab is a co-requisite for PSY 343 focused on concept development and discipline specific skills.

PSY-360 Industrial Organizational Psychology

Examines the methods, practices, and theories of industrial-organizational psychology as a specialty of psychology that focuses on individuals and structures in the workplace. Requires students to apply qualitative and quantitative methods to analyze the effectiveness and fairness of personnel management decisions in such areas as candidate selection, performance appraisal, employee training, and employee attitudes and behaviors. Prerequisites: PSY-101 and PSY-210 or BUS-360. [3 credits]

PSY-370 Principles of Learning

Develops knowledge and practical skills in learning and the analysis of behavior applied to the work environment. Covers theoretical issues, basic principles and approaches to learning. Explores how behavioral principles are involved in employee relations and performance management. This course is for IOP majors. Not open to PSY majors. Prerequisites: PSY-101 and PSY 210 or BUS 360. Students cannot take both PSY 370 and PSY 325 for credit. [3 credits]

PSY-371 Hrs:Women and Her Symbols

Explores symbols and symbolism related to women through interdisciplinary lenses of psychology, philosophy, literature, politics, sociology, religious and cultural traditions, and art. Students will critically examine, analyze, and discuss the use of symbols in understanding women from psychological and spiritual perspectives. The use of symbols will be explored through theories, scientific evidence, cultural and religious rituals, art, and literature. Students will complete an integrative project. Prerequisite: Morrissey Scholar or permission from instructor and Morrissey Program Director. Fulfills gender studies requirement. [3 credits]

PSY-375 Sex and Gender

Explores the evidence for the cultural and biological influences on sex differences-the development of gender identity, gender role and sexual orientation. Investigates the impact of the cultural construct of gender on attitudes and behavior. Prerequisites: PSY-101 and junior standing. Fulfills general education requirement in gender studies. [3 credits]

PSY-380 Qualitative Methods

Explores the nature of qualitative methodologies, identifies which types of research questions are most appropriate for qualitative methods, and examines the assumptions underlying qualitative methods. Course focuses on the acquisition and application of qualitative analytic skills. Students

complete a project involving the application of qualitative research skills. Prerequisites PSY-210 (or equivalent research course determined by the psychology department chair). [4 credits]

PSY-380L Lab: Qualitative Methods

This lab is a co-requisite for PSY 380 focused on concept development and discipline specific skills.

PSY-390 Career Counseling

Provides a practical and theoretical basis in personal and career development. Topics focus on occupational-educational information, career exploration techniques, vocational choice theory, and ethical standards, all within a context of diverse populations. Applications include computer-assisted career development and inventories. Prerequisite: PSY-101. [3 credits]

PSY-406 Advanced Therapeutic Techniques

Links the practice and application of techniques that flow from basic theoretical personality models. Expands the skills of students with clinical aptitude, background and interests. Therapeutic techniques from various clinical models are examined and tested. Communication, refocusing and redirection, behavioral assessment and change are explored. Prerequisites: PSY-205, PSY-207 and PSY-306 and Technical Standards as evaluated by the department. Conference and permission of instructor required. [3 credits]

PSY-406L Lab: Advanced Therapeutic Techniques

This lab is a co-requisite for PSY 406 focused on concept development and discipline specific skills.

PSY-409 Psychometrics

Provides opportunities for students to learn the theoretical and statistical principles related to the construction and use of psychological tests. Students will learn the standard administration, scoring, and interpretation of a borad battery of standardized cognitive and psychological assessment instruments. Students will become aware of the ethical issues related to cognitive and psychological testing. Student will be required to complete a clinical psychological assessment report analyzing and interpreting psychometric data. This course serves as an upper level research course. Lecture and laboratory. Prerequisites: PSY-210, PSY-205 and PSY-207 and Technical Standards as evaluated by the department. [4 credits]

PSY-409L Lab: Psychometrics

This lab is a co-requisite for PSY 409 focused on concept development and discipline specific skills.

PSY-411 Advanced Topics

Explores in depth a focused topic in psychology, based on instructor's area of specialization. Topic changes from year to year, with recent offerings including Psychology of Religion, Attachment, Psychopharmacology, Forensic Psychology, Health Psychology, Applied Behavioral Analysis and Culture of Violence. All students give a seminar paper and complete a major research paper. Prerequisite: will be noted for specific course, based on topics. Prerequisite: PSY-210, senior status as a psychology major. Not open to minors. [3 credits]

PSY-420 History and Systems of Psychology

Considers, through an analytical approach, the history and development of the ideas that shaped psychology as a scientific discipline. Seminar-style deliberation concerning development of the foundational ideas of the field of psychology. Examines how the system of psychology is presently structured. Specific attention is given to the role of women in the development of psychology. Reading of original material from basic theorists in the field is required. Prerequisite: Status as senior psychology major or minor. [3 credits]

PSY-427 Study Tour: Women Surviving Trauma and Building Peace

Examines the dynamics of trauma and resilience through service-learning working with women recovering from trauma, cultivating resilience, and building peace following the Balkan Wars. Students will explore psychological processes through the lens of psychological theories, including psychodynamic and social psychology, and analyze the impact of gender, attitudes and values in the experience of stress, trauma, coping, and resilience. Students will deepen their understanding of the attitudes, values, cultural and gender factors influencing the experience of and recovery from trauma of women through direct service and through emersion into the local cutlture. Students will reflect upon the psychological factors that contribute to resilience, conflict resolution, and peace building in the context the attitudes and values related to the culture of the region and the role of women in these processes. Fulfills an upper leve course requirement for the psychology major, and the general edcuation requirements for cross-cultural studies and gender studies. [3 credits]

PSY-461 Practicum I

Provides opportunities for field experience for qualified students under professional supervision. Allows for consultative meeting with practicum coordinator concerning career goals and aspirations, which then determine the nature of a placement most consistent with student abilities and interests. Offers students an additional opportunity for advanced training and increased levels of professional responsibility through Practicum II. Requires students to meet academic and background requirements for chosen placement and to attend an academic seminar in addition to fieldwork. Prerequisite: junior psychology major status and conference with coordinator. Not open to liberal arts

majors or psychology minors. Prerequisites: Technical Standards as evaluated by the department. Cannot retake if student receives a failing grade. [4 credits] Students will not be permitted to repeat PSY 461 or PSY 462 if they receive a failing grade (D or F) or are removed from their practicum site due to an ethical violation. Ethical violations are defined by the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Ethical violations may include plagiarism. The practicum requirement cannot be waived or completed through another institution.

PSY-462 Practicum II

Provides opportunities for field experience for qualified students under professional supervision. Allows for consultative meeting with practicum coordinator concerning career goals and aspirations, which then determine the nature of a placement most consistent with student abilities and interests. Offers students an additional opportunity for advanced training and increased levels of professional responsibility through Practicum II. Requires students to meet academic and background requirements for chosen placement and to attend an academic seminar in addition to fieldwork. Prerequisite: junior psychology major status and conference with coordinator. Not open to liberal arts majors or psychology minors. Prerequisites: Technical Standards as evaluated by the department. Cannot retake if student receives a failing grade. [4 credits] Students will not be permitted to repeat PSY 461 or PSY 462 if they receive a failing grade (D or F) or are removed from their practicum site due to an ethical violation. Ethical violations are defined by the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Ethical violations may include plagiarism. The practicum requirement cannot be waived or completed through another institution.

PSY-463 Independent Research/Independent Study

Independent study of a topic and development of a project of a student's choice. Includes directed readings, literature review and clinical study or data collection and analysis. Mentored and supervised by a faculty member of the department. Each student completes a major research paper and oral presentation. Prerequisites: PSY-210, PSY-340 and acceptance for supervision by a department member. [3 credits]

PSY-464 Directed Research

Students participate in the work of faculty by serving as members of a research team for one semester. May include input on project design, instrument development, data collection and analysis, literature review and development of a research report. Requirements: 10 hours/week including a one-hour conference or team meeting and one major written assignment to be determined in conjunction with the faculty supervisor. Prerequisites: PSY-210, PSY-340 and acceptance for supervision by a department member. [3 credits]

PSY-527 Study Tour: Women Surviving Trauma

Examines the dynamics of trauma and resilience through service-learning working with women recovering from trauma, cultivating resilience, and building peace following the Balkan Wars. Students will explore psychological processes through the lens of pschological theories, including psychodynamic and social psychology, and analyze the impact of gender, attituded and values in the experience of stress, trauma, coping, and resilience. Students will deepen their understanding of the attitudes, values, cultural and gender factors unfluencing the experience of and recovery from trauma of women through direct service and through emersion into the local culture. Students will reflect upon the psychological factors that contribute to resilience, conflict resolution, and peace building in the context the attitudes and values related to the culture of the region and the role of women in these processes. Radiological Sciences (Major)

Chemistry Department

Angela Sherman, Ph.D.

Degrees offered

Major

Campuses

Main Campus

The College of Arts, Sciences, and Business offers a baccalaureate degree linked with a clinical certification program in various areas of Radiological Sciences in collaboration with The Johns Hopkins Hospital School of Medical Imaging. Through studies in liberal arts, science and mathematics, students in the Women's College and the College of Adult Undergraduate Studies broaden their professional knowledge and competence, strengthen their critical thinking and communication skills, develop their leadership potential and deepen their ethical commitments. The technical curriculum provides both theoretical training and practical hands-on clinical experience. There is a strong emphasis on clinical education with the aim of producing graduates who are leaders in health care.

Summary

Women's College and College of Adult Undergraduate Studies

The typical Radiological Sciences student fulfills the requisite mathematics and science courses as well as the General Education Requirements for a Bachelor of Science degree at Notre Dame. All courses credited toward the Major must be completed with a grade of C or higher. Effective June 2014, students beginning Radiography training must complete all non-clinical requirements prior to admission to the Program (see the Three-year Sample Program of Study below). The student seeking

certification in Nuclear Medicine, Diagnostic Sonography or Echocardiography must complete at least 60 college credits before starting the clinical program. Students apply to the full-time clinical program in the fall semester prior to the start of the Program. The College of Adult Undergraduate Studies students who have completed a clinical training program and are certified technologists are awarded a block of credits towards the bachelor's degree.

Driven by an aging population and advances in technology, there is a great demand for professionals in this field. Students must demonstrate academic excellence, strong interpersonal skills, and knowledge of the profession. Under the guidance of the radiological sciences program coordinator, the qualified student begins the application process for clinical studies. Students must monitor the qualifications for admission to Programs in which they are interested to ensure they have met all the requirements for clinical training. They are expected to confer regularly with the coordinator as to their readiness and preparedness for clinical study. The clinical training site determines the admissions criteria for the clinical component, in accord with the professional accrediting agencies. Students are advised that admission to the clinical component of this program is highly competitive and determined by the hospital.

On completing the academic and clinical programs, students are qualified to become licensed medical imaging technologists by passing the National Registry Exam.

The Maryland Higher Education Commission and the Maryland State Board of Higher Education approve these programs for the education of veterans.

Students in a Bachelor of Science degree program follow the general education program for a Bachelor of Arts degree, except for Fine Arts and Foreign Language, which are recommended, but not required.

The student completes one of the following full-time clinical certification programs and one of the two options to obtain the degree.

Clinical Certification Programs

- Radiography - 18 months
- Nuclear Medicine Technology - 18 months
- Diagnostic Medical Sonography - 18 months

Currently, the Radiography Program is accredited by the Joint Review Committee (JRC) on Education in Radiologic Technology; the Nuclear Medicine Technology program is accredited by the JRC on Educational Programs in Nuclear Medicine Technology; and the Diagnostic Medical Sonography is accredited by the JRC on Education in Diagnostic Medical Sonography.

Program of Study

Part I

Pre-clinical Certification Requirements

Required Courses in Core (Credits)

CHM-110 and CHM-111 General Chemistry I* & II or **CHM-104 Introduction to Inorganic Chemistry* (8 or 3)

CHM-210 and CHM-211 Organic Chemistry I & II or **CHM-106 Introduction to Organic Chemistry (8 or 3)

PHY-101 and PHY-102 General Physics I* & II or **PHY-111 College Physics* (8 or 3)

BIO-201 and BIO-202 Human Anatomy and Physiology I & II (8)

COM-201 Interpersonal Communication* or COM-106 **Fundamentals of Oral Communication (3)

LCL-333 Medical Terminology (3)

MAT-107 Elementary Functions* or MAT-211 Calculus I* (3 or 4)

MAT-215 Basic Statistics* (3)

PHL-339 Medical Ethics* (3)

PSY-101 Introductory Psychology* (4)

** Course also satisfies General Education Requirement*

*** College of Adult Undergraduate Studies course*

Part II: Professional Training

Option I

Complete two clinical concentrations (not an option for Radiography)

Radiography (38)
Nuclear Medicine Technology (38)
Diagnostic Medical Sonography (38)

Advanced Imaging Programs (prior completion of Radiography is required)

Magnetic Resonance Imaging (MRI) (6 months) (12)
Computed Tomography (CT) (6 months) (12)
Interventional Cardiovascular (6 months) (12)

Option II

Complement one clinical certification program with the equivalent of one year of concentrated study in Business (required for Radiography, optional for other modalities).

Business Concentration

The purpose of the Business concentration is to meet the needs of Radiological Sciences professionals in middle-level positions who find themselves supervising staff or who have substantial information systems responsibilities beyond the level of their preparation in typical clinical certification programs. All Business concentrators will have exposure to management and professional communication principles, and some accounting and finance.

Beyond these core courses, students may choose the Organizational Management track or the Computer Systems Management track. The Organizational Management track emphasizes preparing to supervise others and contributing to the market orientation now emerging in health care organizations. The Computer Systems Management track prepares students to address the increasingly complex information systems responsibilities faced by many health care professionals. Students following this track may qualify, depending on course selection, for the Minor in Business.

Core Required Courses

BUS-302 Principles of Management (3)
BUS-310 Professional Communications (3)
BUS-416 Managing Financial Resources (3)

Organizational Management Track

BUS-303 Principles of Marketing (3)
ECO-212 Introduction to Microeconomics (3)
BUS-480 Organizational Behavior or BUS-486 Human Resource Management (3)

Select one of the following (3)

BUS-334 Teamwork and Negotiation
BUS-360 Business Research
BUS-400 Leadership
COM-403 Organizational Communication

Computer Systems Management Track

CST-141 Fundamentals of Information Systems (3)
CST-171 Programming Concepts (3)
CST-385 Systems Analysis (3)
CST-421 Database Concepts (3)

Select two of the following (6)

ECO-212 Introduction to Microeconomics
BUS-400 Leadership
CST-355 Project Management
CST-356 Internet/Intranet Information Management

Three-Year Plan

Below is a sample Program of Study for the Radiological Sciences Major in the Women's College prior to clinical training (required for Radiography, recommended for all modalities). Students should select courses with the assistance of the program coordinator. (See course descriptions for a list of required courses and description of course and program options.)

Fall/Winterim		Spring

Religious Studies (Major, Minor)

Religious Studies (Major, Minor) Department

LaReine-Marie Mosely, Ph.D., *Chair*

Degrees offered

Major
Minor

Campuses

Main Campus

Religion touches every aspect of life, and Religious Studies can help us think more deeply and carefully about all the big issues humans face: love, death, suffering, power, violence, justice, morality, sex, family, money, community, the divine, and the meaning of life. The Religious Studies Department, part of the School of Arts, Sciences, and Business offers a Major and Minor to students in the Women's College and the College of Adult Undergraduate Studies. The Religious Studies Program of Study is based on four pillars: biblical studies, systematic theology, religious ethics, and religious issues (practical theology and religion and culture).

Summary

Women's College

College of Adult Undergraduate Studies

Grounded in Roman Catholic and ecumenical Christian traditions, we actively engage in dialogue with other world religions. Women's contributions to spirituality, religious thought and history, as well as the ecumenical and interfaith aspects of the discipline, are woven into the Program and are treated in

greater depth in courses devoted exclusively to these topics. The Program stresses critical thinking and respect for the religious commitments of all persons, and also is seen as a step toward transforming society. Graduates are ordained ministers, religion teachers, guidance counselors, parish educators, directors of religious education, pastoral and youth ministers, campus ministers, hospital chaplains, parish music ministers, leaders in diocesan offices, and employees of Catholic Charities.

In addition to the Major, the Religious Studies Department offers Minors in Religious Studies and participates in Catholic Studies, Justice and Peace Studies and Women's Studies, as well as providing a track within the Liberal Arts Major (seven courses for the primary track or five for the supporting track).

Transfer credits from the Religious Studies or Theology Department of an accredited college or university will be accepted after assessment by the Chair of the Religious Studies Department. Credits should have been earned since 2000.

The General Education Requirement includes two courses in Religious Studies, one of which must be at the 300- or 400- level. To fulfill the General Education Requirement in values, a student may take any of the following courses: RST-303, 304, 306, 331, 345, 411.

The following courses satisfy the General Education Requirement at the 300- or 400-level: RST-300, 303, 304, 305, 306, 307, 308, 309, 311, 312, 315, 316, 317, 325, 331, 340, 341, 345, 347, 360, 361, 370, 401, 405, 409, 411, 415, 421, 424, 427, 430, 431, 432, 433, 450, 452, IDS-340.

Religious Studies courses that satisfy the General Education Requirement in cross-cultural studies are: RST-311 , 331, 345, 350, 360, 361, 401 (depending on topic), 427, 450, 452.

Religious studies courses that satisfy the General Education Requirement in gender studies are: RST-305, 308, 340, 341, 390, 411.

All courses credited toward the Major or Minor must be completed with a grade of C or higher.

Programs of Study

The Religious Studies Major provides the student with proficiency in four categories: biblical studies, systematic theology, practical theology/religion and culture, and religious ethics.

The curriculum requirements of 45 credits are as follows.

Required Courses for a Major in Religious Studies

Biblical Studies (12 credits)

RST-201 Introduction to Biblical Studies (3)

RST-315 Old Testament (3)
RST-317 New Testament (3)

One of the following:
RST-308 Gender and Power in the Book of Genesis (3)
RST-309 Revelation and the Apocalyptic Imagination (3)
RST-316 Psalms (3)
RST-430 Topics in Pauline Theology (3)

Systematic Theology (12 credits)

RST-312 Sin and Grace (3)
RST-325 Jesus Christ (3)

Any two of the following:
RST-307 Trinity: Images of God (3)
RST-415 Church (3)
RST-421 Christian Worship (3)

Practical Theology/Religion and Culture (12 credits)

RST-105 Religion and the Big Question (3)

Practical Theology

At least on of the following:

RST-305 Marriage and Family (3)
RST-341 Theology of the Body (3)
RST-347 Introduction to Spirituality (3)
RST-409 Death and Dying (3)
RST-431 Teaching Religion to Adolescents (3)
RST-432 Faith Development of Children and Adolescents (3)
RST-433 Teaching Religion to Children (3)

Religion and Culture

At least on of the following:

RST-300 American Catholicism (3)
RST-311 World Religions (3)
RST-360 Islam (3)
RST-361 African American Religions (3)

RST-427 Study Tour (3)
RST-445 Islamic Perspectives on Peace and Conflict (3)
RST-450 Judaism, Christianity and Islam (3)
RST-452 Buddhism and Christianity (3)

Students are also required to complete any two other courses from either practical theology or religion and culture.

Religious Ethics (9 credits)

RST-303 Christian Ethics (3)

Any one of the following:
RST-304 Christian Social Ethics (3)
RST-345 Justice and Peace (3)

Any one of the following:
RST-306 Christian Bioethics (3)
RST-331 Comparative Religious Ethics (3)
RST 411H Catholic Women Theologians

For those planning to seek catechist certification from the Roman Catholic Archdiocese of Baltimore, it is recommended that at least one course from RST-431, 432 and 433 be selected.
Religious studies majors and minors are encouraged to choose RST-427 Study Tour. Internships in religious studies are also available.

Capstone Experience

The Religious Studies Capstone Experience provides students with the opportunity to reflect on their Religious Studies Program and synthesize what they have learned. The Capstone Experience has three related components: a capstone preparation workshop and compilation of a portfolio, an interview with department faculty, and a presentation to department faculty, current Religious Studies students and alumnae. It is required of all Religious Studies majors and is typically completed during the student's final semester. The Capstone Experience earns 1 credit.

Required Courses for a Minor in Religious Studies

The curriculum requirements of 21 credits are as follows:

RST-201 Introduction to Biblical Studies (3)
RST-315 Old Testament or RST-317 New Testament (3)
One systematic theology course (3)
One practical theology or religion and culture course (3)

One religious ethics course (3)
Any two other courses from departmental offerings (6)

Four-Year Plan

Below is a sample Program of Study for Religious Studies Major in the College of Arts, Sciences, and Business. Students should select courses with the assistance of the program coordinator. (See course descriptions for a list of required courses and description of course and program options.)

NDMU Catalog

2018-2019

Sociology (Minor)

Criminology Department

Maria Mouritidis, Ph.D., Chair
Ashley Fundack, M.S.
Catherine Sacarellos, M.S.

Degrees offered

Minor

Campuses

Main Campus

The Sociology Program of Study in the College of Arts, Sciences, and Business, offers a Minor in Sociology to Women's College students. The scientific study of society, sociology examines the interworkings of different social institutions, the order of social interaction in groups, and the politics of social reality. Many sociologists address social problems such as crime, education, poverty, immigration, institutional discrimination and prejudice. The Sociology Program provides students with a perspective on the world best described as sociological mindfulness or, put simply, a way to tune in to the social world. It gives students the opportunity to investigate society and better understand their respective roles in it.

Summary

Women's College

Offered as a Minor and as a foundation for the Criminology Major, the Sociology curriculum provides both a micro- and macro- perspective on society. Its courses expose students to peer-reviewed research based on surveys, field work, comparative/historical reviews and experimentation.

A Sociology Minor is an excellent way to round out the student's experience at Notre Dame. Sociology courses that satisfy the General Education Requirement in social science: SOC-101. Sociology courses that fulfill the requirement for cross-cultural studies: CRM-209. Sociology courses that fulfill the requirement for gender: SOC-215.

All courses credited toward the Minor must be completed with a C grade or higher.

Program of Study

The Minor in Sociology consists of seven courses as indicated below.

Minor in Sociology

Required courses:

SOC-101 Introduction to Sociology (3)
SOC-209 Race, Class and Gender (3)
PSY-210 Research Methods I (4)
SOC-350 Social Theory (3)

Two electives chosen from:

CRM-101 Introduction to Criminology (3)
SOC-202 Sociology of the Family (3)
SOC-215 Gender Roles or SOC-271 Honors: Sociology of Gender Roles (3)
SOC-220 Self and Society (3)
SOC-222 Social Problems or SOC-371 Honors: Social Problems (3)
SOC-231 Medicine and Society (3)
SOC-250 Sociology of Sport (3)
SOC-315 Sociology of Law (3)
SOC-340 Sociology of Deviance (3)
SOC-360 Sociology of Work (3)
SOC-390 Sociology of Education (3)
PSY-340 Quantitative Methods (4)

One senior experience chosen from:

SOC-411 Advanced Topics in Sociology (3)
CRM-461 Criminology Practicum (4)
SOC-463 Sociology Independent Study (3)

Note: Those who wish to Major in Criminology and Minor in Sociology must take three elective Sociology courses instead of two due to the overlapping requirements of SOC-101, SOC-209, and

PSY-210. The electives cannot have a dual purpose of also fulfilling the electives used for the Criminology Major. A separate Senior Experience course also should be chosen to fulfill the requirement for a Minor in Sociology. For example, if SOC-411 serves to fulfill the senior elective for the Criminology Major, it cannot also be used to fulfill the elective for the Sociology Minor. Please contact the faculty advisor to tailor an appropriate course schedule.

Courses

CRM-101 Introduction to Criminology

Provides an examination of the nature, causes and social significance of crime. Emphasizes the major explanations of criminal behavior and typologies of crime and examines crime and crime prevention strategies as they relate to theory, policy and practice. Serves as a gateway course for students interested in the field of criminology. Fulfills general education requirement in social science. [3 credits]

CRM-105 Applied Defensive Techniques in Criminology

Introduces the principles and practices employed by law enforcement personnel for the purpose of self defense in the field. Provides a holistic approach to the control of subjects through both classroom instruction and the practice and performance of the necessary physical skills. Emphasis is placed on the social context of violence as well as the personal, psychological, and physical control of aggression. [3 credits]

CRM-130 Criminology At the Movies

Explores the impact of criminological themes and theories on popular movies. Consists of an intensive, didactic experience that introduces the student to related criminological research and applications. [3 credits]

CRM-203 Theories of Crime and Social Deviance

Examines major paradigms, models and theories of criminology. Students critically review explanations of criminal behavior and analyze past, current and future trends in criminal activity. Theories in deviance and criminology from multidisciplinary perspectives provide a foundation for discussion. Prerequisite: CRM-101. [3 credits]

CRM-205 Policing and Society

Focuses on the history, structure, role, and function of policing in American society. Types of policing and police-community relations will be explored. Students will examine the functions of policing including patrol, order maintenance, investigation and community policing. A number of contemporary police problems will be presented including corruption, discretion, deadly force and minority relations. Course will include an exploration of cross-national comparisons. Prerequisite: CRM-101 or SOC-101. [3 credits]

CRM-230 Terrorism and Homeland Security

Examines terrorism with a focus on the contemporary societal experience, although historical perspectives will provide context as well. Differentiating characteristics of domestic and international terror groups will be identified. Legal implications of anti-terrorist measures and homeland security enforcement will be reviewed. Prerequisite: CRM-101. [3 credits]

CRM-240 Corrections in America

This course provides an examination into corrections in America. We will differentiate the purpose and operation of jails versus prisons. Additionally, we will look at the use of non-custodial corrections alternatives such as community service, probation and parole. In this course, the history of corrections as well as contemporary issues in corrections will be examined. [3 credits]

CRM-303 Theories of Crime and Social Deviance

Examines major paradigms, models and theories of criminology. Students critically review explanations of criminal behavior and analyze past, current and future trends in criminal activity. Theories in deviance and criminology from multidisciplinary perspectives provide a foundation for discussion. Prerequisite: CRM-107. [3 credits]

CRM-310 The Criminal Justice System

Examines the American criminal justice system. Introduces students to the workings of police, courts and corrections in American society, and how each functions as a mechanism of social control. Explores local, state and federal agencies as individual components of the comprehensive and interrelated system of justice. Prerequisites: CRM-101; PSY-210 or CRM-360. [3 credits]

CRM-311 Topics in Criminology

Uses empirical evidence to provide a contemporary approach to analyzing and evaluating crime and social deviance through a critical theoretical framework or uses empirical evidence to provide a contemporary approach to examining specific areas within criminology. Topics will vary. May be repeated with different topics for a maximum of 6 credits. Prerequisites: SOC-101 and CRM-101. [3 credits]

CRM-315 Victims of Crime

Examines the impact of crime on its victims, including identification of victim types, victim compensation and reduction of victimization. The course focuses on the relationship of criminology and the criminal justice system to victims themselves. Prerequisite: CRM-101. [3 credits]

CRM-320 Juvenile Delinquency

Examines delinquency as a form of socially deviant or criminal behavior engaged in by minors. Topics include definitions of delinquency, long- and short-term trends, explanations of delinquent behavior, drug use, gangs and school violence. Possible interventions, treatment and prevention strategies are also addressed. Prerequisite: SOC-101; PSY-210 or CRM-360. [3 credits]

CRM-325 Violence Against Women

Examines violence against women through a wide range of socially institutionalized and individually perpetuated political, social, economic and physical frameworks. Violence against women takes place within socially constructed race-ethnicity, gender, sexual preference, and class specificities, as well as socio-historical contexts. The course examines how race, ethnicity, class, gender, sexual orientation, and socio-historical constraints and shifts perpetuate systems of domination and oppression. It looks at ways in which these forces shape how women experience economic, social, sexual, class and gender domination and exploitation. Prerequisite: CRM-101 or SOC-101. Fulfills the general education requirement in gender studies. [3 credits]

CRM-360 Research Methods and Crime Analysis

Provides framework for the critical and empirical analysis of social science data relating to crime and social deviance, including experimental and quasi-experimental research design, crime analysis, ethical issues, quantitative and qualitative statistical methods and scientific report writing. Students learn how to use the statistical package for the social sciences and compute descriptive, inferential statistics and multivariate analysis. This course instructs students on the relationship between theory and scholarly inquiry, the nature of causation, and how to formulate and test hypotheses using a variety of empirical methods. Students learn a range of research approaches including surveys, experiments, field work, case studies and unobtrusive measures typically employed in the criminology and criminal justice fields. Students develop a research question and appropriate research methodology, empirically evaluate a hypothesis and write a research report. Prerequisites: MAT-215; and either CRM-101, PSY-101, or SOC-101. [4 credits]

CRM-360L Lab: Research Methods

Lab associated with CRM 360 Research Methods and Crime Analysis.

CRM-411 Topics in Criminology

Provides a context for understanding the broad focus of the discipline of criminology. As an upper-level course in the criminology major, reviews key criminological writings from an advanced, informed perspective. The student uses these scholarly resources to develop a paper that synthesizes her particular knowledge of criminological theory, research and applications. Students also develop their abilities to analyze their personal experiences from a sociological perspective and explore options for continued study or employment related to their sociological training. Topics will vary, though recent topics have included: Corporate Crime, Violence Against Women, Social Inequality in the Criminal Justice System, and Policing. Prerequisites: PSY-210, CRM-203 or SOC-350, and junior/senior status. [3 credits]

CRM-461 Criminology Practicum I

Integrates field experience with an academic seminar. Students are required to find a placement (internship) in social service, criminal justice or social action agencies consistent with their abilities and interests. This placement must be approved by the student's advisor and practicum coordinator prior to beginning the course. Prerequisites: PSY-210 or CRM-360, and conference with the coordinator. Limited to majors of at least junior status. Not open to liberal arts majors. [4 credits]

CRM-463 Independent Study in Criminology

Provides a student with an opportunity to pursue a scholarly project under the direction of a faculty member. Work may include directed readings, literature review, clinical study, or data collection and analysis. Prerequisites: PSY-210 or CRM-360 and acceptance for supervision by a department faculty member. [3 credits]

SOC-101 Introductory Sociology

Uses the sociological imagination to help explain what sociology is and how it is relevant to everyday life. Examines culture, social structure, socialization, social institutions, social inequality and social change. Topics include gender roles, deviance and social control, class, race and ethnic inequality, family, and work. Serves as a foundation course for students interested in the field of sociology and criminology. Fulfills general education requirement in social science. [3 credits]

SOC-202 Sociology of the Family

Examines the historical development and transformation of the American family. Explores marriage and alternatives to traditional arrangements. Students will analyze issues relating to parenting, divorce, remarriage and grandparenting, paying special attention to class and race, as well as ethnicity, gender differences and sexual orientation. Fulfills general education requirement in social

science. Prerequisite: SOC-101 or permission of instructor. [3 credits]

SOC-209 Race, Class and Gender

Explores the intersecting systems of inequality, race, ethnicity, social class and gender. Examines the construction of identity categorizations and links them to our current experiences and conceptions of self. Covers the nature of privilege and its reproduction in social institutions such as the workplace, education, and the criminal justice system. Fulfills general education requirements in social science and cross-cultural studies. Prerequisite: SOC-101 or permission of instructor. [3 credits]

SOC-215 Gender Roles

Addresses the social construction of gender roles. Demonstrates patterns of inequality and power relations through historical and cross-cultural data. Explains concepts such as sexism, gender socialization, and gendered institutions. Examines the consequences of division of labor in marital relations, the family and the workplace. Fulfills general education requirement in social science and gender roles. Prerequisite: SOC-101 or permission. [3 credits]

SOC-222 Social Problems

Examines how social conditions come to be defined as social problems. Surveys the causes of, theoretical explanations for, and possible interventions to resolve social problems. Provides students with opportunities to analyze in-depth such social concerns as substance abuse, family violence, environmental issues, discrimination, crime and terrorism. Fulfills general education requirement in social science. Prerequisite: SOC-101 or permission. [3 credits]

SOC-250 Sociology of Sport

Examines sport as a social phenomenon. Particular attention is given to comparing and contrasting cultural variances in sport. The course uses sports to study social shifts, the politics of inequality, and power structures across cultures. Topics include community identity as defined by the culture of sport; the construction of morality through sport; politics and sport; the role of gender and sexuality in sport; and the role of sport in economic development. Fulfills general education cross-cultural requirement. Crosslisted with PED-250. Prerequisite: SOC-101. [3 credits]

SOC-271 Honors: Sociology of Gender Roles

An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender. Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in social science and gender studies. [3 credits]

SOC-301 Social Justice

Overviews social injustice in American society and in American social institutions. Addresses issues of prejudice, racism and sexism, as well as discrimination based on sexual orientation, religious preference and disability. Provides students with opportunities to evaluate problem-solving procedures for social service agencies and the community at large. Prerequisite: SOC-101, PSY-210, CRM-101 or SOC-222. [3 credits]

SOC-315 Sociology of Law

Studies criminal law from a sociological perspec-tive with an emphasis on the United States Constitution. Examines the impact of the social usages of law as an instrument of social policy, social control and social regulation. Prepares students to interact professionally with the legal system. Prerequisites: PSY-210, SOC-101 or CRM-101. [3 credits]

SOC-340 Deviance and Social Control

Examines how we come to define attitudes, behavior, and characteristics as "normal" or "deviant" in society. Explores the construction of categories of difference with an eye toward the idea that labeling people or ideas as deviant is often a way to maintain the status quo. Addresses "deviant" behavior as an agent of social change as well as a source of social stability. Applies various sociological paradigms to such topics as social movements, crime and delinquency, and mental illness. Prerequisite: PSY-210, SOC-101 or CRM-101. [3 credits]

SOC-350 Sociological Theory

Provides an overview of the theoretical foundations of the discipline. First exposes students to the works of Karl Marx, Emile Durkheim and Max Weber-the "fathers" of sociology-and then provides current theoretical considerations. Analyzes various sociological perspectives in explaining social phenomena, such as structural functionalism, conflict theory, symbolic interaction, and feminist sociology. Explores every day applications of sociological paradigms. Prerequisites: SOC-101. [3 credits]

SOC-360 Sociology of Work

Analyzes social relations in the workplace as well as the dynamics of the labor market. Identifies the units of analysis in the study of work and changes to each in U.S. industrial shifts. The demographics of the labor market are analyzed in the context of the Great Migration, the dual labor market, control systems, flexible firms, occupational sex segregation, and globalization. Public policies that influence work relations such as the National Labor Relations Act and the Civil Rights Act are couched in labor market dynamics. Interpersonal dimensions of work are also addressed including the negotiation

between family, intergenerational mobility and work and job satisfaction. Prerequisites: SOC-101 and PSY-210 or CRM-360. [3 credits]

SOC-371 Honors: Social Problems

Considers how social conditions come to be defined as social problems. Reviews causes and theoretical explanations for their origins and possible interventions to resolve social problems. Topics include substance abuse, family violence, environmental issues, discrimination, crime and terrorism. Prerequisite: Morrissy scholar or permission. [3 credits]

SOC-390 Sociology of Education

Provides an overview of sociological theories and research about education in modern societies. Education is analyzed as a social institution that both challenges and reflects social stratification and institutionalized racism. The course addresses the reciprocal relationship between education and other social institutions such as family and the economy. The course considers education at a variety of levels, from preschool to university and its influence on human capital accumulation. Prerequisites: SOC-101 and PSY-210 pt CRM-360. [3 credits]

SOC-411 Advanced Topics

Provides a context for understanding the broad focus of the discipline of criminology. As an upper-level course in the criminology major, reviews key sociological and criminological writings from an advanced, informed perspective. The student uses these scholarly resources to develop a paper that synthesizes her particular knowledge of criminological theory, research and applications. Students also develop their abilities to analyze their personal experiences from a sociological perspective and explore options for continued study or employment related to their sociological training. Topics will vary, though recent topics have included: Corporate Crime, Violence Against Women, Social Inequality in the Criminal Justice System, and Policing. Prerequisites: PSY-210, CRM-203 or SOC-350, and junior/senior status. [3 credits]

SOC-463 Independent Research/Independent Study

Provides a student with an opportunity to pursue a scholarly project under the direction of a faculty member. Work may include directed readings, literature review, clinical study, or data collection and analysis. Prerequisites: PSY-210, PSY-340 or CRM-360 and acceptance for supervision by a department faculty member. [3 credits]

NDMU Catalog

2018-2019

Spanish (Major, Minor)

Classical and Modern Foreign Languages Department

Rachel Burk, Ph.D
Flora Marcella Valencia, Ph.D.

Degrees offered

Major
Minor

Campuses

Main Campus
Anne Arundel Community College
College of Southern Maryland (CSM)
Southern Maryland Higher Education Center (SMHEC)
University Center Northeastern Maryland (formerly the HEAT Center)

¡Bienvenidos al programa de español! Learn to speak the third most popular language in the world through individualized attention, integrated technology, and communication-focused coursework. Our students take Spanish from the classroom into the NDMU community and the larger world via study abroad, service learning, language-exchange partners, the Hispanic Culture Club, and internships. *¡Qué aproveche!*

Summary

Spanish courses cover essential language structures, practical communication, and cultural learning. Small classes, close relationships with professors, multi-media technology, and interactions with native speakers encourage General Education students to speak, write, listen, and read in Spanish while gaining perspectives on the Hispanic world. Majors and Minors in Spanish refine their language skills and at the same time immerse themselves in Hispanic literature, history, film, art, and culture, locally and internationally.

General Education Language Requirement

Native Speakers of English

Women's College students of traditional age—first-year and transfer—may fulfill the General Education Foreign Language Requirement in one of three ways:

- **AP Exam**: Provide evidence of an earned grade of 3 or higher on the Advanced Placement Language or Literature exam
- **Language Department Placement Exam:** Place into the advanced level (301) on the language department placement exam. (These students may wish to satisfy the General Education Literature Requirement through a literature course in the foreign language.)
- **Course work:** Complete one course at the intermediate level (103, 233 or 234), preferably building upon foreign language skills acquired at the secondary level.

Students in the Women's College ages 25 years and older at the time of matriculation, as well as students in the College of Adult Undergraduate Studies, may fulfill the General Education Language Requirement in one of two ways:

- **Exam:** Provide evidence of completion of one semester of foreign language study through the Advanced Placement Language or Literature exam or the CLEP test (available in French, Spanish and German through the College Board).
- **Coursework:** Complete one semester at the appropriate level (101,102,103 or higher).

Native speakers of English who are bilingual should consult with the Chair of the Language Department for guidance regarding the language requirement.

Language courses that satisfy the General Education LanguageRrequirement are: 103, 233, 234 or any Latin course above the 102 level.

Non-Native Speakers of English

International students may fulfill the General Education Foreign Language Requirement in one of three ways:

- **TOEFL Exam:** At entrance, provide evidence of a score of 550 or higher on the TOEFL exam, or 213 or higher on the TOEFL: BT Test or 80 or higher on the IBT Test.
- **Language Department Placement Exam:** At entrance, score on the advanced level on all parts of the language department's English Placement Test.
- **Language Department Placement Exam:** Complete LEF-203, LEF-204, LCL-331 or LCL-332,

based on the results of the English Placement Test.

Placement Testing

Placement testing will assure every student studies at a level consistent with her current abilities. Students at Notre Dame must complete one semester of foreign language at the intermediate level (103) or above. The sequence of foreign language courses offered is as follows:

101-102	Beginning Spanish I and II (do not fulfill the language requirement)
103	Intermediate Spanish I (Courses beginning at this level fulfill language requirement.)
233/ 234	Spanish for Oral/Written Proficiency
301-302	Advanced Conversation and Composition I and II

Placement result	Courses needed to fulfill the language requirement
101	101, 102, 103
Start a new language	101, 102, 103
102	102, 103
103	103
233	233
234	234

Students who have achieved a score of 3 or above on the Advanced Placement Language or Literature Test are considered to have fulfilled the language requirement. No additional courses are required.

Transfer students

Those who have studied a foreign language at the college level satisfy the requirement with one course at the intermediate level. *Those students who have college level language credit must make*

this information known to their advisors! Since course numbering varies, failure to do so may result in taking the same course twice and being denied credit.

Placement Testing for Nursing Majors

Nursing students at Notre Dame must successfully complete LSP 108 as part of the requirement for the Nursing Major. Students who do not place directly into this course must complete LSP 105 and/or LSP 106, depending on their individual placement, prior to enrolling in LSP 108:

LSP-105 Spanish Language and Culture for Professional Settings I
LSP-106 Spanish Language and Culture for Professional Settings II
LSP-108 Spanish Language and Culture for Healthcare Professions

NOTE: LSP 108 satisfies the language requirement for *Nursing students.* It does not satisfy the General Education Requirement for language for students outside of the Nursing program.

Placement result	Courses needed to fulfill the language requirement for Nursing majors
105	105, 106, 108
106	106, 108
108	108

Programs of Study

Students who wish to Major in a modern foreign language may choose one of the following Programs of Study:

* The French major
* The Spanish major
* The modern foreign language major (a dual language major which combines the study of two modern languages)

Students who wish to Minor in a modern foreign language choose one modern language.

To declare a Major or a Minor in the Department, a student must have a minimum grade of C in the course that satisfies the General Education Language Requirement. All courses in the Major and the Minor must be completed with a grade of C or above. Double Major programs may be developed through consultation with academic advisors from each department.

The Language Department strongly recommends that students who Major or Minor in foreign language study abroad. All such courses must be pre-approved by the University in advance of the study abroad year or semester.

The Spanish Major

The Spanish Major requires 33 credit hours (11 courses) beginning at the 200-level. Students who place out of LSP-233 and 234 will take 27 credits (nine courses). All Majors, including native speakers, must take LSP-301 and LSP-302.

Required Courses for The Spanish Major Credits

Language Skills:

LSP-233 Spanish for Oral Proficiency or LSP-210 Spanish for Health Professions (3)
LSP-234 Spanish for Written Proficiency (3)
LSP-301 Advanced Spanish Conversation and Composition I (3)
LSP-302 Advanced Spanish Conversation and Composition II (3)

Introduction to the Discipline:

LFN-201 The World of Language (taught in English) (3)
LSP-258* Readings in Hispanic Literature (taught in Spanish) (3)

**For native speakers who have successfully completed a literature course in English, LSP-258 should be replaced by one 300-level literature course in Spanish.*

Literature:

One 3 credit course at the 300-level (3)

Culture and Civilization:

LSP-358 Spanish Culture & Civilization or LSP-359 Latin American Culture & Civilization (3)
LFN-450 Research Seminar (3)

Elective Courses:

One course at the 200- or 300-level (3)
One 400-level course in linguistics, literature or culture in Spanish (3)

Foreign Language Major

Through language courses at NDMU and schools in the consortium, students study and demonstrate

proficiency in ***two*** modern languages courses. This Major is highly recommended for those who want to become language teachers.

Requirements

Forty two (42) CREDIT HOURS (14 courses)

GRADE OF C OR ABOVE in all language courses in the Major

Checklist

LFN 201 World of Language (Introduction to the discipline, taught in English)

First Language

233 Oral Proficiency
234 Written Proficiency
301 Advanced Conversation & Composition I
302 Advanced Conversation & Composition II

Second Language

101 Beginning Language I
102 Beginning Language II
103 Intermediate
233 Oral Proficiency
234 Written Proficiency

Literature

258 Readings in _____ Literature
3__ Literature Course

Other

358 Culture and Civilization
450 Research Seminar

Options for 300 or 400-level courses

** prior departmental approval required**

Consortium (Loyola, Hopkins, Goucher, Towson, Morgan)
Study Abroad (strongly recommended)

Internship or Teaching Apprentice (strongly recommended)
Notre Dame Study Tour Abroad

Modern Foreign Language Minor

The Minor requires 21 credit hours in the same modern language (seven courses). Students who place into the 300-level must complete a minimum of 18 credits (six courses) in order to Minor in the language. They may substitute one 300-level literature, culture or linguistics course for 233/234.

Courses for a Minor in Foreign Language

Required Courses (15 credits)

LFN-201 The World of Language (taught In English) (3)
233 Oral Proficiency (3)
234 Written Proficiency (3)
301, 302 Advanced Conversation and Composition I, II (6)
All Minors, including native speakers, must take 301 and 302.

Elective Courses (6 credits) two of the following:

103 Intermediate language (through placement only) (3)

258* Readings in Literature (3)

358 or 359 Culture and Civilization (3)

**For native speakers who have successfully completed a literature course in English, 258 should be replaced by one 300-level literature course in the target language.*

International Studies Majors who Minor in language are not required to take a culture course. They may complete the Minor with 18 credits (six courses).

Students who place into the 300-level must complete a minimum of 18 credits (six courses) in order to Minor in the language. They may substitute one 300-level literature, culture or linguistics course for 233/234.

Spanish Language and Culture Program

The Spanish Language and Culture Program is a unique, one-of-a-kind experience!

What's unique about this program?

- It is focused on conversation in Spanish and study of Latino culture.

- Three sequential courses (LSP 105, 106, 107) can be taken for one credit each for NDMU students. A Certificate is offered to persons from the community who are not taking the course for credit.
- A fourth course, Spanish Language and Culture for Healthcare Professions (LSP 108) is also offered.
- Classes meet for two hours once a week for ten weeks.
- It is made up of professionals, people from the community as well as NDMU students.

Why is this program important?

We live in a country and a world where the Spanish speaking population is ever-growing and there is a need for cultural sensitivity and understanding among all people. Employment and volunteer opportunities are broadened through knowledge of Spanish Language and Culture. It is truly a great asset. Diversity can enrich us all!

What can you expect from this course?

You can expect to increase your speaking skills in Spanish and also grow in cultural awareness and sensitivity so as to be able to build bridges between communities. “The limits of our language are the limits of our world.” – Ludwig Wittgenstein

Who ought to enroll in this course?

- Students enrolled in LSP 101,102,103 who want to supplement their language courses by increasing conversational skills and cultural knowledge of the Hispanic world.
- Persons who want to work or volunteer with the Latino community.
- Those who want to take an active role in becoming a global citizen.

Spanish Language Skills Courses

LSP-101, 102 Beginning Spanish I, II
LSP-103 Intermediate Spanish
LSP-105 Spanish Language and Culture for Professionals I
LSP-106 Spanish Language and Culture for Professionals II
LSP-107 Spanish Language and Culture for Professionals III
LSP-210 Spanish for Health Professions
LSP-233 Spanish for Oral Proficiency
LSP-234 Spanish for Written Proficiency
LSP-301, 302 Advanced Spanish Conversation and Composition I, II

Literature

LSP-258 Readings in Hispanic Literature
LSP-310 Survey of Masterpieces in Latin American Literature I
LSP-311 Survey of Masterpieces in Latin American Literature II
LSP-322 Survey of Masterpieces in Peninsular Literature

Culture and Civilization

LSP-358 Spanish Culture and Civilization
LSP-359 Latin American Culture and Civilization

Special Topics

LSP-401 Topics in Spanish
LSP-463 Independent Study

Short-Term Academic Experiences Abroad

(Offered On A Rotating Basis)

LSP-427 Short-Term Academic Experience in a Spanish-Speaking Country

2018-2019

Women's Studies (Minor)

History and Political Science Department

Anne Henderson, Ph.D., *Coordinator*

Jen Erdman, Ph.D.

Degrees offered

Minor

Campuses

Main Campus

The Women's Studies Minor is offered to students in the Women's College. It is an interdisciplinary program that examines women's lives, perspectives and experiences. Through scholarship by and/or about women and the study of feminist theories and research methodologies, the student develops an intellectual framework through which to examine gender as a social, cultural and historical construct.

Students will explore the way gender interacts with other socially constructed categories such as race, class, nationality, sexual orientation as well as with other dimensions of identity (including religion, ethnicity, and age) that have often been used as the basis for discrimination. Students also will be encouraged to examine and understand the impact of these categories on their own experiences, and will be prepared to participate in the processes of social change that would promote the full development of all women and men.

A Minor in women's studies can benefit students in a variety of careers including art, business, communication, counseling, education, health, journalism, law, music, politics, psychology, public policy, religion, social services and sports.

Requirements

The Minor in Women's Studies consists of seven courses and 21 credits, including IDS-150

Introduction to Women's Studies and IDS-440 Seminar in Women's Studies. Of the five remaining courses, all must be at the 200-level or above, and three of the five must be at the 300/400 level. (See program of study, following.)

Courses taken to fulfill General Education Requirements, and two courses from the student's Major, may be counted toward the Women's Studies Minor.

A student wishing to Minor in Women's Studies is encouraged to meet with the Program Coordinator to design an appropriate Program of Study to complement her Major and to receive information about course cycling.

Program of Study

Required Courses:

IDS-150 Introduction to Women's Studies
IDS-440 Seminar in Women's Studies

Five of the following courses, at least three at the 300/400 level:

ART-315 Explorations of Women in Art
BUS-451 Women in Leadership
COM-330 Women in Film
COM-382 Gender and Communication
ENG-243 Literature by Women
ENG-275 American Women Writers
HIS-261 Winning the Vote: The History of Women's Suffrage in America
HIS-290/POL-290 Women in Islamic Societies
HIS-309 Women in American History
HIS-323 Black Women in American History
HIS-352 Honors: Educating Women in the U.S.
HIS-355 Women and Work: The American Experience
HIS-402 Honors: Women, War and Peace
HIS-303/LCL-303 Women in the Ancient World
MUS-320 Women in Music
PED-301 American Women in Sports History
PHL-323 Feminist Philosophy
POL-324 Women, Politics and the Law
PSY-209 Social Psychology
PSY-375 Sex and Gender
RST-305 Marriage and the Family

RST-355 Women in the Present and in the Judeo-Christian Tradition

SOC-202 Sociology of the Family

SOC-271 Honors: Sociology of Gender Roles

See course descriptions in Departmental Listings.

Evelyn Spratt, Ph.D.

Summary

The School of Education offers full-time and part-time, four-year and five-year Programs of Study that integrate academic and professional studies and lead to Certification in Secondary Education, Certification in Secondary and Special Education, Certification in Elementary Education, Certification in Elementary and Special Education, or Certification in Elementary and Early Childhood Education. Each Program of Study requires the creation of an electronic portfolio

throughout the course of study; it is to be completed with each course of study. An ePortfolio license fee is required.

All Programs of Study leading to a Bachelor of Arts in Education are designed to provide a balance among liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences which may begin in the first year of college and culminate in an extended internship experience in the student's senior year. The School of Education may require a student to complete specific courses in addition to those listed as requirements. Each Program of Study aims to build competence through appropriate academic and professional course work, and to involve the student in practical classroom internship activities of steadily increasing responsibility. Internship placements are in professional development school environments through collaborative arrangements between Notre Dame and area school systems.

Graduates of the School of Education are educators in virtually every public school district throughout the State of Maryland, as well as in many private, independent and parochial schools. Not only do they ably serve Maryland's students, they are recognized as outstanding leaders. Many have been honored as "Teacher of the Year" in their respective districts; e.g, Anne Arundel County, Baltimore City, Baltimore County, Caroline County, Carroll County, Harford County, St. Mary's County.

To schedule course work effectively, each student is expected to meet regularly each semester with her advisor. Upon declaring a Major, the student also must complete the Application for Teacher Education through the School of Education.

To be eligible for the extended teaching internship in a professional development school, a student must attain a 3.2 cumulative grade point average, a 3.0 or higher in methods courses, and a grade of C or higher in each of her professional courses. Students must pass PRAXIS Core* prior to enrolling in Methods courses. Students in Secondary Education, Art and Music Education also must have the recommendation of their academic departments. To be eligible for Maryland State Certification through one of the approved programs at the University, the student must attain a 3.0 cumulative grade point average, must earn a grade of B or higher during the internship and pass PRAXIS Core Academic Skills* and PRAXIS II examinations. PRAXIS Core* must be passed prior to enrolling in Methods courses; PRAXIS II must be taken during the internship semester and passed before approval for certification.

Note: Taking and passing PRAXIS Core: Any student who is actively considering making application to the School of Education to pursue a career in teaching is required to pass the PRAXIS Core exam as a condition of admission to the School of Education. Students should take the PRAXIS Core as early as possible during their college experience so that they have time to

assess and (if need be) remediate any area of concern (reading, writing or mathematics). Participation in methods courses and the student internship will not be permitted until the PRAXIS Core has been passed. There are a variety of resources available for students who perceive the need for additional support: e.g, texts in the Education Lab, on-line tutorials, PRAXIS prep seminars, etc. For more information regarding testing opportunities and preparation, consult www.ETS.org.

*In place of PRAXIS Core, Maryland will accept the following options:

- SAT taken after 2005, combined math and critical reading scores of 1100;
- SAT taken between 4/95 and 2005, math and verbal composite score of 1100;
- SAT taken prior to 4/95, math and verbal score of 1000;
- ACT composite score of 24

Certification candidates in all Programs of Study complete a professional electronic portfolio using guidelines developed by the education department in accordance with Interstate New Teacher Assessment and Support Consortium (InTASC) Core Standards. Approved Program graduates benefit from interstate reciprocity agreements in all states.

Teacher Education Programs are offered in Elementary Education, Elementary and Special Education, Elementary and Early Childhood Education, Art N-12, and Vocal Music N-12. Notre Dame also offers Secondary Education Programs in Art, Biology, Business, Chemistry, Computer Studies, English, ESOL, History, Mathematics, Modern Foreign Languages (French, Spanish)**, Physics and Social Studies.

** *Because NDMU's World Languages Program is nationally recognized by the American Council on the Teaching of Foreign Languages (ACTFL), teacher candidates who are seeking certification in Maryland for Spanish or French are required to achieve a passing score of "Advanced Low" or better on BOTH the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT), both of which are administered by an interviewer/proctor who is certified by ACTFL. Note that some teacher candidates in lieu of the OPI may elect to take the OPI(c) which is a computer version of the OPI. Teacher candidates may take these two assessments at any time during their Program of Study but prior to their Methods course of study. Teacher candidates are encouraged to explore opportunities that will enable them to meet the "Advanced Low" standard/score, including participation in study abroad, volunteer and service learning opportunities, language clubs, and film festivals and by viewing films and television programs in the world language they will be studying. More information about these assessments can be found at www.languagetesting.com*

Students should confer with their School of Education advisor to confirm they have completed all the requirements for the MSDE approved program(s) as well as the Notre Dame's degree requirements.

Pathways to Dual, Triple or Four Certifications

The NDMU School of Education strives to prepare teacher candidates to respond to the supply and demand of the teacher education workforce and endeavors to prepare candidates who are highly skilled and equipped to teach children regardless of learning style, differentiated or special needs, and racial or socio-economic status. As such, candidates are encouraged to pursue certification in more than one content area or specialization; e.g, Certification in Biology and Special Education; or in English and TESOL; or in Elementary Education and Early Childhood Education. In some cases, candidates can even obtain three or four certifications (e.g, elementary, special education, early childhood education and/or TESOL).

Having more than one certification yields several benefits: 1) Most important of all, candidates are exposed to specific content and instructional strategies that may be unique to targeted individuals or groups of students (e.g, second language generation students whose parents speak only in their native language). 2) Candidates acquire a deeper, richer background in the vast variety of instructional strategies that one might employ, irrespective of the student's classification (e.g, a student in a Gifted and Talented class might respond just as readily to a 'reward and praise' technique as would a student with special needs). 3) Candidates find that, when seeking employment, they are more marketable because principals are afforded greater flexibility in assigning them to teaching positions that fit the needs of their school and student population (e.g, if given two equally qualified candidates from which to select, a principal is more likely to hire a candidate who has more than one certification, thereby giving them more flexibility to assign highly qualified teachers to classrooms based on that certification).

In essence, the teacher candidates enter the education profession with a larger and more diverse skill set of instructional strategies and content knowledge to better meet the needs of the school system, where employed, and the children whom they are entrusted to teach.

Pathways to obtain dual, triple, or even four certifications are outlined in the following tables, based on professional courses needed, content areas, programs and degrees.

ECE = Early Childhood Education TESOL = Teachers of English for Speakers of Other Languages

Some Programs of Study may require coursework during the summer and/or winterim. These six certification pathways do not cover the full range of possibilities.

Women's College or College of Adult Undergraduate Studies?

Although many Programs of Study are offered through both the Women's College and the College of Adult Undergraduate Studies (CAUS), there are significant differences in their populations and scheduling. To determine whether the Women's College or CAUS is the most appropriate for you, see the college descriptions under Academic Information.

Option: B.A.

The School of Education offers the Bachelor of Arts in Elementary Education/Liberal Studies to students in the Women's College and College of Adult Undergraduate Studies. For students in the Women's College, the School of Education also offers a program of professional courses for Certification in Secondary Education. Additionally, the School offers a sequence of courses in special education and early childhood education that provides the opportunity for elementary education/liberal studies majors to meet certification requirements in special education, early childhood education or ESOL in addition to elementary education. The special education sequence also may be taken by students in a secondary education program. All programs are NCATE accredited and MSDE approved.

Elementary Education/Liberal Studies

The Elementary Education/Liberal Studies Major provides a balanced program of liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences that culminate in an extended teaching internship experience. Completion of the program qualifies graduates for Maryland State Department Certification in Elementary Education. Each student works closely with an academic advisor to ensure that the student obtains all the credits needed for the degree, as well as the requirements of the State Department of Education for Certification in Elementary Education. All students must complete the Application for Teacher Education through the School of Education prior to methods courses. Women's College students interested in Elementary Education are encouraged to declare the Elementary Education/Liberal Studies Major in spring semester of the first year.

For students in CAUS, the practical field experiences, including the teaching internship, are the only parts of the Program of Study offered during the day. These must be taken during the academic year when elementary schools are in session. The teaching internship must be completed in the fall semester.

Secondary Education

(Women's College only)

A student seeking to be certified in Secondary Education (*e.g.*, Art, Biology, Chemistry, English, etc.) must Major in one of the academic departments offering a Maryland State Department of Education-approved program in secondary education and complete the sequence of professional courses listed in the education program listings. Students interested in Secondary Education declare the Minor after acceptance as Majors in their academic disciplines, preferably by the end of sophomore year.

Option: BA/MAT

(Women's College only)

This option enables a full-time student to complete the Bachelor of Arts and Master of Arts in Teaching degrees and to fulfill state certification requirements within four or five years. For the Elementary Education option, students complete the liberal arts Major for their baccalaureate degree and the Master of Arts in Teaching in Elementary Education in the final year. (See liberal arts program listings for a description of the liberal arts Major.)

For the secondary education option, students complete a Major in an academic discipline for their bachelor's degree and the Master of Arts in Teaching in the final year.

If a student wishes to pursue the four-year B.A./M.A.T. option, she must meet with the advisor of the School of Education at the time of entrance or before beginning the second semester of the

first year to plan her program appropriately. In the five-year option, the student meets with the chair in the second semester of the sophomore year.

Programs of Study

Required Courses for a Major in Elementary Education/Liberal Studies

Liberal Arts courses in the Major are exclusive of those required for General Education.

Literature (6)
American literature and
World literature

American and World History (3)
U.S. History (if World History was selected for general education) or
Non-U.S. History (if American History was selected for general education)

Mathematics (9)

Natural Sciences (8/9)*
Biological science with lab and
Physical science with lab

Social sciences (6)
Geography and
One of economics, psychology, political science or sociology

Fine arts (3)
ART-208 (if Music was selected for general education) or
MUS-202 (if Art was selected for general education)

**Women's College students take two four-credit science courses; College of Adult Undergraduate Studies students take three three-credit science courses.*

Professional Courses

EDU-300 Technology for Instruction and Management (3)
EDU-303 Elementary Reading Materials (3)
EDU-357 Processes and Acquisition of Reading (3)
EDU-252 Clinical Field Experience: Elementary (3)
EDU-301 Educational Psychology (3)
EDU-307 Social Studies in the Elementary School (3)
EDU-309 Instruction in Reading (3)

EDU-310 Mathematics in the Elementary School (3)

EDU-312 Science in the Elementary School (3)

EDU-402 American Education in Historical Perspective (3)

EDU-411 Internship: Teaching in the Elementary School (Internship teaching fee required.) (10 or 16)

EDU-460 Assessment of Reading (3)

SPE-326 Special Education for the Classroom Teacher (3)

PSY-203 Child and Adolescent Development (3)

Transportation is required for methods labs, field experiences and internships.

Elementary Education with Dual Certification in Special Education

Required Courses

The following courses are available to the student seeking to meet the course requirements for Maryland Certification in Special Education in addition to Certification through the approved program in Elementary Education. The student interested in pursuing this option is advised to begin coursework in the first year and to follow carefully the sequence outlined by her advisor. Students working toward dual certification will use special education courses in place of electives. They will take the Liberal Studies and Elementary Education courses listed previously and an additional 24 credits in Special Education. The student teaching experience can be accomplished during the same semester as the Elementary Education student teaching. More than 120 credits are needed to graduate with dual certification.

Professional Courses

SPE-337 Communication Skills for the Special Educator (3)

SPE-321 Methods of Teaching Students with Special Needs (3)

SPE-344 Assessment in Special Education (3)

SPE-373 Field Experience in Special Education (3)

SPE-421 Elementary Curriculum Design and Adaptation (3)

SPE-422 Secondary Curriculum Design and Adaptation (for students seeking secondary certification only) (3)

SPE-475 Student Teaching in Special Education (Student teaching fee required) (6)

Transportation is required for method labs, field experiences and internships.

Elementary Education with Dual Certification in Early Childhood Education

Required Courses

The following courses are available to the student seeking to meet the course requirements for Maryland Certification in Early Childhood Education in addition to Certification through the approved program in Elementary Education. The student interested in pursuing this option is advised to begin coursework in the sophomore year and to follow carefully the sequence outlined by her advisor. Students working toward dual certification will use early childhood education courses in place of electives. They will take the Liberal Studies and Elementary Education courses listed previously and the following courses in Early Childhood Education:

Professional Courses

EDU-315 Curriculum/Methods and Materials for the Young Child (3)
EDU-410 Internship: Teaching in Early Childhood Education (6)
Internship fee required.

Certification in English for Speakers of Other Languages (ESOL)

Women's College students in Elementary and Secondary Education Programs of Study who also wish to earn Certification in ESOL complete the following additional courses:

Courses

EDU-253 Clinical Field Experience: ESOL (3)
EDU-308 Issues in ESOL (3)
EDU-346 Methods and Materials ESOL (3)
EDU-347 Assessing Second Language (3)
EDU-360 Techniques of Teaching Reading and Writing to Students with Limited English Proficiency (3)
EDU-409 Internship: Teaching ESOL K-12 (16)
EDU-440 English Grammar for ESOL Teachers (3)

The following additional professional preparation courses also are required:

EDU-300 Technology for Instruction (3)
EDU-357 Processes/Acquisition of Reading (3)
EDU-301 Educational Psychology (3)
EDU-402 American Education in Historical Perspective (3)
PSY-203 Child and Adolescent Psychology (3)
SPE-326 Special Education for the Classroom Teacher (3)

Secondary Education Certification

Required Courses

Students preparing for Certification in Secondary Education subject areas will Major in one of the academic departments offering an approved program and will meet the requirements for that department. In addition, the student completes the following professional courses:

Professional Courses

EDU-300 Technology for Instruction and Management (3)
EDU-301 Educational Psychology (3)
EDU-344 Teaching Reading and Writing in the Secondary School Content Areas I (4)
EDU-363 Field Experience in Secondary Education (variable)
EDU-376 Clinical Field Experience: Secondary (3)
EDU-402 American Education in Historical Perspective (3)
EDU-451 Teaching Reading and Writing in the Secondary School Content Areas II (3)
SPE-326 Special Education for the Classroom Teacher (3)
PSY-203 Child and Adolescent Development (3)

The following courses in the required sequence are taken in the education semester, the first semester of senior year. Since no other courses may be taken during this time, the student needs to plan her departmental program accordingly.

Education Semester Courses

Methods in the student's area of concentration selected from:

EDU-430 Art N-12 (3)
EDU-431 English in the Secondary School (3)
EDU-432 Modern Foreign Language in the Secondary School (3)
EDU-433 Mathematics in the Elementary and Secondary School (3)
EDU-437 Science in the Secondary School (3)
EDU-439 Social Studies in the Secondary School (3)
MUS-305 Methods of Teaching Music in the Elementary School (3)
EDU-412 Internship: Teaching Elementary Art (Internship fee required (variable)
EDU-413 Internship: Teaching in the Secondary School (Internship fee required) (12)
EDU-417 Internship: Elementary Vocal Music (Internship fee required) (variable)
EDU-418 Internship: Secondary Vocal Music (Internship fee required) (variable)
EDU-419 Internship: Secondary Art (Internship fee required) (variable)
Transportation is required for methods and teaching internship.

Physical Education

Melissa Falen, M.A, *Coordinator*

The Physical Education Program of Study is an integral part of a liberal arts education. Physical Education is designed to encourage the student's knowledge, interest, participation and competence in physical activities. Courses are offered in two areas: Theory and Skill-based classes. Emphasis is on developing and maintaining comprehensive wellness, including physical fitness and personal well being, by enjoying leisure activities and developing leadership skills through building self-confidence.

Requirements

All Physical Education courses fulfill the 1-credit General Education Requirement in Physical Education. Students may choose either a Skill (100-level) or Theory (200/300-level) course. Students may take up to 3 credits of Physical Education toward the 120 graduation credit total. Students may opt to take more than 3 credits of Physical Education credits as electives that do not count toward the 120 credit minimum.

The General Education Requirement may be fulfilled through participation on a University varsity athletic team in accordance with University policy. Policy information is available in the Physical Education office, the Athletic Department and from the Registrar.

Elementary Education/Liberal Studies Four-Year Plan

Below is a sample Program of Study for the Women's College Liberal Studies/Elementary Education Major. Students should select courses with the assistance of a faculty advisor. (See course descriptions for a list of required courses and description of course and program options.)

Fall		Spring	
First year			
IDS-100 Perspectives on Education	3	Chemistry or Physical Science	4
ENG-101 College Writing	3	Foreign Language (if needed)	3
Physical Science or Biology	4	EDU-303 Elementary Reading Materials	3

This program also requires that students complete courses during the Winterim session -

First-year Winterim: EDU-300 Technology for Management and Instruction
Second-year Winterim: EDU-252 Clinical Field Experience: Elementary

Secondary Education Four-Year Plan

Women's College students seeking Certification in Secondary Education complete an Academic Major in one of the following: Art, Biology, Business, Chemistry, Computer Studies, English, Foreign Language (French, Spanish), History, Mathematics, Physics or Social Studies, and the professional Program of Study outlined below:

Fall		Spring	
First year			
Required courses in general education		Required courses in general education	
Second year			
Required courses in general education		EDU-300 Technology for Management and Instruction	3
PSY-203 Child & Adolescent Psychology	3		
Pass PRAXIS Core before methods classes			
Third year			
EDU-430-439 Methods of Teaching in the content area	3	EDU-344 Teaching Reading & Writing in the Secondary School Content Areas I	3

EDU-301 Educational Psychology for the Classroom Teacher	3	Courses in the academic major and electives	
SPE-326 Special Education for the Classroom Teacher	3		
Courses in the academic major and electives			
Fourth year			
EDU-413 Student Teaching in Secondary School	12	EDU-402 American Education in History	3
		Courses in the academic major and electives	3

EDU-301 may be taken in spring of sophomore year.
PSY-203 may be taken in spring of sophomore year.
SPE-326 may be taken in spring of sophomore year.

This program also requires that students complete courses during the Winterim session -

Third-Year Winterim: EDU-376 Clinical Field Experience: Secondary
Fourth-Year Winterim: EDU-451 Teaching Reading and Writing in the Secondary School Content Areas II

Methods of Teaching in Secondary Schools

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses.

Courses

EDU-252 Clinical Field Experience: Elementary

Offers a direct instructional field experience in an assigned area elementary public school for three weeks, all day. Includes instruction in school organization, curriculum, characteristics and diverse needs of children, and issues in teaching and learning. Classroom observation and participation seminars. Permission required. (Offered in Winterim. Three-week session, full school days.) [3 credits]

EDU-253 Clinical Field Experience: ESOL

Provides opportunities for supervised classroom observation and participation in ESOL in a Baltimore area school. Assigned by the education department in cooperation with the local school systems. Three-week session, full school days. (Offered in Winterim.) [3 credits]

EDU-300 Technology for Instruction & Management

Provides prospective classroom teacher swith opportunities for planning, designing and producing projects that support the instructional needs of students in grades K-12, including best practices for the integration of technology into curriculum with state and national

technology standards. Students complete a variety of projects to develop skills in word processing, Web page development, computer presentations and other technolgies. For education majors only. [3 credits]

EDU-301 Educational Psychology

Examines stages of the cognitive, affective and physical domains of student development. Includes analysis and discussion of basic theories of learning and teaching and their applications to classroom situations including diversity and individual differences as factors influencing student learning (including socioeconomic diversity, cultural diversity and the needs of special education students, gifted and talented education and English Language Learners), motivation and classroom management. Assessment issues including formal and informal assessment, norm referenced and criterion referenced testing, and the implications of assessment measures (such as the Maryland Common Core Curriculum Standards) for learning and teaching are also examined. Includes student-centered approaches to learning (including service-learning activities). Recommended prerequisite: PSY-203. [3 credits]

EDU-303 Elementary School Reading Materials

Assists participants in selecting and evaluating materials for teaching reading and developing related skills that are consistent with the findings of scientifically based reading research. Strengthens understanding of research-supported programs, approaches and methods to address different levels of reading proficiency within the classroom and thereby enable all students (G&T, ELL, Special Needs, etc) to become strategic, fluent and independent readers. Participants will use a variety of texts and other materials to promote independent reading. Participants will be prepared to involve parents and members of the school and community to promote daily reading inside and outside of school. Throughout the course, participants will apply key concepts to various group and individual tasks and projects, including discussions and simulations. NOTE: Students cannot receive credit for both EDU-103 and EDU-303. [3 credits]

EDU-307 Social Studies in the Elementary School

Provides a conceptual and analytical approach to teaching and learning social studies in the elementary school. Emphasis on integration of content and process through use of experimental, activity and inquiry approaches to meet the needs of diverse learners. Includes information related to selecting instructional resources, developing curriculum materials and integrating concepts, skills and values. Requires construction of learning materials and peer teaching. Permission required. Prerequisite: PRAXIS I, EDU-301, 309. [4 credits]

EDU-308 Issues in ESOL

Introduces students to the field of TESOL by providing an overview of instructional programs and approaches for teaching English as a second language to students from K-12 to postsecondary levels. The course includes bilingualism, legal and political trends as they pertain to ESL students in various educational settings, and the impact of state and national initiatives, such as the Common Core State Standards and ESSA, on ESL students and TESOL. [3 credits]

EDU-309 Instruction in Reading

Increases the participant's familiarity with a representative array of research-based instructional techniques and strategies in reading. Participants will learn age-appropriate instructional routines and strategies in the five major components of reading instruction (phonological and phonemic awareness; phonics, spelling and word study; fluency development; vocabulary; and comprehension). Throughout the course candidates will demonstrate their knowledge of the instructional routines and strategies by role-play, live demonstration, critiquing models, using the Common Core Reading Standards and reviewing the research in support of those approaches. Prerequisite: PRAXIS I. [4 credits]

EDU-310 Mathematics in the Elementary School

Integrates mathematical concepts with the methods employed to teach mathematics in the elementary school. Emphasis on National Council of Teachers of Mathematics (NCTM) Standards and implementation of the Common Core Mathematics standards in instruction. Focus on a hands-on approach using manipulatives. Includes preparation of lesson plans and microteaching experiences. Permission required. Prerequisite: PRAXIS I. [4 credits]

EDU-312 Science in the Elementary School

Integration of basic concepts of physical, life, earth and space sciences. Emphasis on discovery of concepts through demonstrations and investigations. Addresses the three domains of science education: knowledge, skills and attitudes. Attention given to National Standards, the Common Core Science Standards and the use of indicators in planning, instruction and assessing. Includes preparation of a science unit and microteaching experience. Permission required. Prerequisite: PRAXIS I, EDU-301, 309, 310. [4 credits]

EDU-313 Science and Social Studies in the Elementary School

Emphasizes integration of content and process through demonstration, investigative and inquiry approaches. Addresses the three domains of knowledge, skills and attitudes. Attention is given to recent trends, national and state standards, and the use of indicators in planning

instruction and assessing. Includes preparation of instructional units and microteaching experience. [3 credits]

EDU-315 Curriculum/Methods and Materials For the Young Child

Presents curriculum, methods and materials for early childhood programs, preschool through primary grades. Family and community involvement strategies. Instruction in planning, implementation and assessment of interdisciplinary activities to stimulate cognitive, linguistic, social and motor development to meet the diverse needs of learners. [4 credits]

EDU-344 Teaching Reading and Writing in the Secondary School Content Areas I

Studies principles and techniques in teaching interactive reading and writing in secondary school content areas: vocabulary and skill development; pre-reading, reading and post-reading strategies. Techniques for assessing student literacy levels and readability levels of texts. Strategies for individualizing instruction to address the unique needs of diverse learners; e.g., gifted and talented, second language learners, students with special needs, etc. Includes classroom observation and participation in Baltimore area secondary schools. Preparation of lesson plans and peer teaching. [3 credits]

EDU-346 Methods and Materials for ESOL

Familiarizes students with methods and materials available to the ESOL teacher. Analyzes a wide variety of methods, with emphasis on currently accepted methodology. Different kinds of materials are examined in detail, including authentic materials and the Internet. Students will develop techniques for effectively teaching the four language skill areas in well-designed courses while also adapting standards-based content to the needs of ESOL students. [3 credits]

EDU-347 Assessing Second Language Acquisition

Introduces the student to various assessment techniques that are used in ESOL teaching. Examines traditional testing techniques, along with more recently developed alternative (authentic) methods for assessing second language learning, focusing on the four language skills: reading, writing, listening and speaking. Communicative competence in general will be stressed. n addition, we will critically evaluate the ESOL assessment methods used for placement purposes by various local public school systems as well as placement tests used for adult and higher education. [3 credits]

EDU-357 Procurement & Acquisition of Reading

Assists pre-service and in-service teachers in understanding the reading acquisition process through observation and analysis of reading and written language development. The course is organized around current, accepted, research-based theoretical models that account for individual differences in reading. Introduction to language structure including spoken syllables, phonemes, graphemes and morphemes is included. Using current research-based strategies, participants will apply knowledge of the core areas of language to reading acquisition in terms of first and second language acquisition, typical development, gifted and talented and other exceptionalities. Throughout the course, candidates will demonstrate their knowledge of concepts and skills through a variety of tasks such as assessing their ability to identify linguistic units, observations of students and analysis of student work, and presentations of research summaries. NOTE: Students cannot receive credit for both EDU-207 and EDU-357. [3 credits]

EDU-360 Techniques of Teaching Reading and Writing to Students With Limited English Proficiency

Addresses the development of reading and writing from a cognitive perspective. Students will become familiar with the approaches, methods and techniques appropriate for the teaching of reading and writing to English Language Learners. Special topics such as the integrated skills curriculum, language-specific rhetorical styles and free voluntary reading will also be discussed. Students will evaluate and design appropriate classroom materials. [3 credits]

EDU-373 Field Exp in Spec Ed

Provides supervised classroom observation and participation in special education in diverse Baltimore area schools. Assigned by the School of Education in cooperation with local school systems. Permission required. Offered in Winterim. [3 credits]

EDU-376 Clinical Field Experience: Secondary

Provides direct instructional field experience in an assigned Baltimore area public middle school for three weeks, all day. Includes instruction in middle school organization and curriculum, characteristics and diverse needs of middle school children, and issues in teaching and learning. Classroom observation and participation. Weekly seminars. Permission required. Offered in Winterim. Three-week session, full school days. [3 credits]

EDU-402 American Education in Historical Perspective

Surveys major developments in the history of American education from colonial times to the

present. Examines influential persons, ideas and institutions in the context of American society. Education and public policy, legal issues, priorities and innovations in American education reviewed from a critical perspective. [3 credits]

EDU-409 Internship:Teaching ESOL K-12

Develops intensive opportunities for full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-410 Internship: Teaching in Early Childhood Education

Incorporates full-time observation and supervised student teaching experiences in diverse Baltimore area professional development schools. Permission required. Internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-411 Internship: Teaching in the Elementary School

Provides full-time observation and supervised internship experiences in diverse Baltimore area professional development schools. Seminars on various topics in education such as analysis of teaching in elementary schools, school and family relationships, and interviewing and employment practices. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-413 Internship:Teaching in the Secondary School

Incorporates full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools during the fall semester only. Permission required. Teaching internship fee required. [12 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-420 Dim Curric/Inst Sec Sch

Examines aims, organization and administration of American secondary schools. Principles of curriculum organization and design for middle and senior high schools. Curriculum

development in school systems, in specific schools, and in academic disciplines. Multicultural and gender issues are considered. Class is interrelated with methods courses in study and application of principles of teaching-learning, used of technology for instruction, analysis of teaching, assessment of classroom management. [3 credits]

EDU-429 Meth Bus Ed/Sec Sch

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-430 Art N-12

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-431 English in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-432 Modern Foreign Language in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-433 Mathematics in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-437 Science in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-439 Social Studies in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the

content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-440 English Grammar for ESOL Teachers

Analyzes the grammar of American English in detail, with an emphasis on those areas of English grammar that tend to present problems for ESOL/EFL students. Students will learn how to teach grammar, including how to contextualize grammar instruction in thematic lessons. Included will be a discussion of how grammar instruction fits into current trends in language teaching. [3 credits]

EDU-451 Teaching Reading and Writing in the Content Areas II

Examines methods, purposes and criteria used in diagnosing strengths and weaknesses of students with a range of reading abilities; e.g., special needs, gifted and talented, ESOL. Focus is on authentic formal and informal assessment of individual secondary school students and application of test results in various secondary curriculum content areas. Includes an applied, school-based assessment experience. [3 credits]

EDU-460 Assessment of Reading

Provides students with a background in assessment and its relationship to instruction. Students will learn about the variety of assessments available to the classroom teacher in the areas of reading and writing and how to administer, score and interpret the results of these various assessments. Instructional decisions regarding the educational program of the child, and his/her diverse needs will also be examined. [3 credits] NOTE: Please refer to cohort schedule. Additional clas times may meet in previous semester.

EDU-491 Topics in Education

SPE-321 Methods of Teaching Students With Special Needs

Provides the student with methods to facilitate the teaching of students with diverse learning needs. Course content includes cognitive processing, classroom management and organization strategies. Models of instructional delivery, adaptation of instructional materials, strategy instruction and means of assessing student progress are explored. Current trends and issues in special education are included as well. [3 credits]

SPE-326 Special Education for the Classroom Teacher

Includes brief history as well as legal foundations of current special education models and practices. Explores characteristics of students with disabilities as well as at-risk populations in general education. Addresses the responsibilities of educators, exploring generic strategies for programming for special needs students in the general education classroom, including the Common Core Standards. Required for all Maryland teachers. [3 credits]

SPE-337 Communication Skills for the Special Educator

Addresses human relations, communication and informal counseling skills and their critical role in meeting the diverse needs of students with disabilities. Explores role of the special educator as a member of an interdisciplinary team. Includes research on parent/teacher attitudes, roles and responsibilities. Presents models and techniques for effective interface with parents as well as other professionals encountered in theprocess of holistic programming. Additional topics include parent training, advocacy, multicultural considerations and accessing community services. NOTE: Students cannot receive credit for both SPE-237 and SPE-337. [3 credits]

SPE-344 Assessment in Special Education

Introduces diagnostic processes used in special education. Includes student-conducted informal and formal assessments as well as analysis, interpretation and presentation of test results. Covers prescriptive techniques and instructional planning as well as current trends in student assessment. Addresses P.L. 94-142, COMAR and other related legislation. Permission required. Prerequisite: SPE-326. [3 credits]

SPE-373 Field Experience in Special Education

Provides supervised classroom observation and participation in special education in a Baltimore area school. Assigned by the education department in cooperation with local school systems. Permission required. (Offered in Winterim.) [3 credits]

SPE-421 Elementary Curriculum Design and Adaptation

Applies principles for adapting curriculum to special needs students at the elementary level. Includes analysis of diagnostic and developmental factors, goal setting and IEP formulation. Explores instructional strategies, identification of materials and resources, and evaluation techniques as they relate to the basic content areas and the Common Core Standards. Prerequisites: SPE-326. Permission required. [3 credits]

SPE-475 Internship: Teaching in Special Education

Provides student with opportunities for full-time supervised teaching in a special education program in diverse Baltimore area schools. Permission required. Teaching internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

SPE-491 Top: Comm Skills for Spec Educ

This course is reserved for specialized topics and independent study. [3 credits]

NDMU Catalog

2018-2019

Early Childhood Education

The NDMU College of Adult Undergraduate Studies (CAUS) prepares interested students to become certified to teach children in pre-kindergarten through grade three. NDMU invites students to consider preparing for a career as an early childhood education teacher. Being a certified early childhood educator allows the professional to teach in a public or private school setting where they work with children who are in pre-kindergarten up to and including grade three. Teaching at this level requires close attention to the developmental needs of young children and how to appropriately support their learning process. As with any teaching assignment, the educator must be equipped to effectively plan lessons to engage these young learners in activities stimulating their fine and gross motor skills as well as their kinesthetic, auditory, and visual senses. Early Childhood Education Program of Study focuses on the academic, social, and cognitive skills that develop in children during their formative years.

Most early childhood educators work throughout the school day in a classroom setting with a single group of students for whom all content areas must be taught, i.e., English language arts, social studies, mathematics, and science instruction. Regardless of age and grade-level placement, NDMU will prepare all graduates to be highly qualified for any teaching situation by providing multiple opportunities for them to learn and teach in a variety of settings under outstanding mentor teachers. In fact, NDMU is the only teacher preparation program in Maryland that affords students the opportunity to observe pre-school age children on its main campus in LeClerc Hall in a program called 'A Child's Place', a school for children age 3 through kindergarten.

Courses

EDU-252 Clinical Field Experience: Elementary

Offers a direct instructional field experience in an assigned area elementary public school for three weeks, all day. Includes instruction in school organization, curriculum, characteristics and diverse needs of children, and issues in teaching and learning. Classroom observation

and participation seminars. Permission required. (Offered in Winterim. Three-week session, full school days.) [3 credits]

EDU-253 Clinical Field Experience: ESOL

Provides opportunities for supervised classroom observation and participation in ESOL in a Baltimore area school. Assigned by the education department in cooperation with the local school systems. Three-week session, full school days. (Offered in Winterim.) [3 credits]

EDU-300 Technology for Instruction & Management

Provides prospective classroom teacher swith opportunities for planning, designing and producing projects that support the instructional needs of students in grades K-12, including best practices for the integration of technology into curriculum with state and national technology standards. Students complete a variety of projects to develop skills in word processing, Web page development, computer presentations and other technolgies. For education majors only. [3 credits]

EDU-301 Educational Psychology

Examines stages of the cognitive, affective and physical domains of student development. Includes analysis and discussion of basic theories of learning and teaching and their applications to classroom situations including diversity and individual differences as factors influencing student learning (including socioeconomic diversity, cultural diversity and the needs of special education students, gifted and talented education and English Language Learners), motivation and classroom management. Assessment issues including formal and informal assessment, norm referenced and criterion referenced testing, and the implications of assessment measures (such as the Maryland Common Core Curriculum Standards) for learning and teaching are also examined. Includes student-centered approaches to learning (including service-learning activities). Recommended prerequisite: PSY-203. [3 credits]

EDU-303 Elementary School Reading Materials

Assists participants in selecting and evaluating materials for teaching reading and developing related skills that are consistent with the findings of scientifically based reading research. Strengthens understanding of research-supported programs, approaches and methods to address different levels of reading proficiency within the classroom and thereby enable all students (G&T, ELL, Special Needs, etc) to become strategic, fluent and independent readers. Participants will use a variety of texts and other materials to promote independent reading. Participants will be prepared to involve parents and members of the school and community to promote daily reading inside and outside of school. Throughout the course, participants will apply key concepts to various group and individual tasks and projects,

including discussions and simulations. NOTE: Students cannot receive credit for both EDU-103 and EDU-303. [3 credits]

EDU-307 Social Studies in the Elementary School

Provides a conceptual and analytical approach to teaching and learning social studies in the elementary school. Emphasis on integration of content and process through use of experimental, activity and inquiry approaches to meet the needs of diverse learners. Includes information related to selecting instructional resources, developing curriculum materials and integrating concepts, skills and values. Requires construction of learning materials and peer teaching. Permission required. Prerequisite: PRAXIS I, EDU-301, 309. [4 credits]

EDU-308 Issues in ESOL

Introduces students to the field of TESOL by providing an overview of instructional programs and approaches for teaching English as a second language to students from K-12 to postsecondary levels. The course includes bilingualism, legal and political trends as they pertain to ESL students in various educational settings, and the impact of state and national initiatives, such as the Common Core State Standards and ESSA, on ESL students and TESOL. [3 credits]

EDU-309 Instruction in Reading

Increases the participant's familiarity with a representative array of research-based instructional techniques and strategies in reading. Participants will learn age-appropriate instructional routines and strategies in the five major components of reading instruction (phonological and phonemic awareness; phonics, spelling and word study; fluency development; vocabulary; and comprehension). Throughout the course candidates will demonstrate their knowledge of the instructional routines and strategies by role-play, live demonstration, critiquing models, using the Common Core Reading Standards and reviewing the research in support of those approaches. Prerequisite: PRAXIS I. [4 credits]

EDU-310 Mathematics in the Elementary School

Integrates mathematical concepts with the methods employed to teach mathematics in the elementary school. Emphasis on National Council of Teachers of Mathematics (NCTM) Standards and implementation of the Common Core Mathematics standards in instruction. Focus on a hands-on approach using manipulatives. Includes preparation of lesson plans and microteaching experiences. Permission required. Prerequisite: PRAXIS I. [4 credits]

EDU-312 Science in the Elementary School

Integration of basic concepts of physical, life, earth and space sciences. Emphasis on discovery of concepts through demonstrations and investigations. Addresses the three domains of science education: knowledge, skills and attitudes. Attention given to National Standards, the Common Core Science Standards and the use of indicators in planning, instruction and assessing. Includes preparation of a science unit and microteaching experience. Permission required. Prerequisite: PRAXIS I, EDU-301, 309, 310. [4 credits]

EDU-313 Science and Social Studies in the Elementary School

Emphasizes integration of content and process through demonstration, investigative and inquiry approaches. Addresses the three domains of knowledge, skills and attitudes. Attention is given to recent trends, national and state standards, and the use of indicators in planning instruction and assessing. Includes preparation of instructional units and microteaching experience. [3 credits]

EDU-315 Curriculum/Methods and Materials For the Young Child

Presents curriculum, methods and materials for early childhood programs, preschool through primary grades. Family and community involvement strategies. Instruction in planning, implementation and assessment of interdisciplinary activities to stimulate cognitive, linguistic, social and motor development to meet the diverse needs of learners. [4 credits]

EDU-344 Teaching Reading and Writing in the Secondary School Content Areas I

Studies principles and techniques in teaching interactive reading and writing in secondary school content areas: vocabulary and skill development; pre-reading, reading and post-reading strategies. Techniques for assessing student literacy levels and readability levels of texts. Strategies for individualizing instruction to address the unique needs of diverse learners; e.g., gifted and talented, second language learners, students with special needs, etc. Includes classroom observation and participation in Baltimore area secondary schools. Preparation of lesson plans and peer teaching. [3 credits]

EDU-346 Methods and Materials for ESOL

Familiarizes students with methods and materials available to the ESOL teacher. Analyzes a wide variety of methods, with emphasis on currently accepted methodology. Different kinds of materials are examined in detail, including authentic materials and the Internet. Students will

develop techniques for effectively teaching the four language skill areas in well-designed courses while also adapting standards-based content to the needs of ESOL students. [3 credits]

EDU-347 Assessing Second Language Acquisition

Introduces the student to various assessment techniques that are used in ESOL teaching. Examines traditional testing techniques, along with more recently developed alternative (authentic) methods for assessing second language learning, focusing on the four language skills: reading, writing, listening and speaking. Communicative competence in general will be stressed. n addition, we will critically evaluate the ESOL assessment methods used for placement purposes by various local public school systems as well as placement tests used for adult and higher education. [3 credits]

EDU-357 Procurement & Acquisition of Reading

Assists pre-service and in-service teachers in understanding the reading acquisition process through observation and analysis of reading and written language development. The course is organized around current, accepted, research-based theoretical models that account for individual differences in reading. Introduction to language structure including spoken syllables, phonemes, graphemes and morphemes is included. Using current research-based strategies, participants will apply knowledge of the core areas of language to reading acquisition in terms of first and second language acquisition, typical development, gifted and talented and other exceptionalities. Throughout the course, candidates will demonstrate their knowledge of concepts and skills through a variety of tasks such as assessing their ability to identify linguistic units, observations of students and analysis of student work, and presentations of research summaries. NOTE: Students cannot receive credit for both EDU-207 and EDU-357. [3 credits]

EDU-360 Techniques of Teaching Reading and Writing to Students With Limited English Proficiency

Addresses the development of reading and writing from a cognitive perspective. Students will become familiar with the approaches, methods and techniques appropriate for the teaching of reading and writing to English Language Learners. Special topics such as the integrated skills curriculum, language-specific rhetorical styles and free voluntary reading will also be discussed. Students will evaluate and design appropriate classroom materials. [3 credits]

EDU-373 Field Exp in Spec Ed

Provides supervised classroom observation and participation in special education in diverse

Baltimore area schools. Assigned by the School of Education in cooperation with local school systems. Permission required. Offered in Winterim. [3 credits]

EDU-376 Clinical Field Experience: Secondary

Provides direct instructional field experience in an assigned Baltimore area public middle school for three weeks, all day. Includes instruction in middle school organization and curriculum, characteristics and diverse needs of middle school children, and issues in teaching and learning. Classroom observation and participation. Weekly seminars. Permission required. Offered in Winterim. Three-week session, full school days. [3 credits]

EDU-402 American Education in Historical Perspective

Surveys major developments in the history of American education from colonial times to the present. Examines influential persons, ideas and institutions in the context of American society. Education and public policy, legal issues, priorities and innovations in American education reviewed from a critical perspective. [3 credits]

EDU-409 Internship:Teaching ESOL K-12

Develops intensive opportunities for full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-410 Internship: Teaching in Early Childhood Education

Incorporates full-time observation and supervised student teaching experiences in diverse Baltimore area professional development schools. Permission required. Internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-411 Internship: Teaching in the Elementary School

Provides full-time observation and supervised internship experiences in diverse Baltimore area professional development schools. Seminars on various topics in education such as analysis of teaching in elementary schools, school and family relationships, and interviewing and employment practices. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-413 Internship:Teaching in the Secondary School

Incorporates full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools during the fall semester only. Permission required. Teaching internship fee required. [12 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-420 Dim Curric/Inst Sec Sch

Examines aims, organization and administration of American secondary schools. Principles of curriculum organization and design for middle and senior high schools. Curriculum development in school systems, in specific schools, and in academic disciplines. Multicultural and gender issues are considered. Class is interrelated with methods courses in study and application of principles of teaching-learning, used of technology for instruction, analysis of teaching, assessment of classroom management. [3 credits]

EDU-429 Meth Bus Ed/Sec Sch

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-430 Art N-12

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of

teaching. Permission required for all methods courses. [3 credits]

EDU-431 English in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-432 Modern Foreign Language in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-433 Mathematics in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-437 Science in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research

on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-439 Social Studies in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-440 English Grammar for ESOL Teachers

Analyzes the grammar of American English in detail, with an emphasis on those areas of English grammar that tend to present problems for ESOL/EFL students. Students will learn how to teach grammar, including how to contextualize grammar instruction in thematic lessons. Included will be a discussion of how grammar instruction fits into current trends in language teaching. [3 credits]

EDU-451 Teaching Reading and Writing in the Content Areas II

Examines methods, purposes and criteria used in diagnosing strengths and weaknesses of students with a range of reading abilities; e.g., special needs, gifted and talented, ESOL. Focus is on authentic formal and informal assessment of individual secondary school students and application of test results in various secondary curriculum content areas. Includes an applied, school-based assessment experience. [3 credits]

EDU-460 Assessment of Reading

Provides students with a background in assessment and its relationship to instruction. Students will learn about the variety of assessments available to the classroom teacher in the areas of reading and writing and how to administer, score and interpret the results of these various assessments. Instructional decisions regarding the educational program of the child,

and his/her diverse needs will also be examined. [3 credits] NOTE: Please refer to cohort schedule. Additional clas times may meet in previous semester.

EDU-491 Topics in Education

SPE-321 Methods of Teaching Students With Special Needs

Provides the student with methods to facilitate the teaching of students with diverse learning needs. Course content includes cognitive processing, classroom management and organization strategies. Models of instructional delivery, adaptation of instructional materials, strategy instruction and means of assessing student progress are explored. Current trends and issues in special education are included as well. [3 credits]

SPE-326 Special Education for the Classroom Teacher

Includes brief history as well as legal foundations of current special education models and practices. Explores characteristics of students with disabilities as well as at-risk populations in general education. Addresses the responsibilities of educators, exploring generic strategies for programming for special needs students in the general education classroom, including the Common Core Standards. Required for all Maryland teachers. [3 credits]

SPE-337 Communication Skills for the Special Educator

Addresses human relations, communication and informal counseling skills and their critical role in meeting the diverse needs of students with disabilities. Explores role of the special educator as a member of an interdisciplinary team. Includes research on parent/teacher attitudes, roles and responsibilities. Presents models and techniques for effective interface with parents as well as other professionals encountered in theprocess of holistic programming. Additional topics include parent training, advocacy, multicultural considerations and accessing community services. NOTE: Students cannot receive credit for both SPE-237 and SPE-337. [3 credits]

SPE-344 Assessment in Special Education

Introduces diagnostic processes used in special education. Includes student-conducted informal and formal assessments as well as analysis, interpretation and presentation of test results. Covers prescriptive techniques and instructional planning as well as current trends in student assessment. Addresses P.L. 94-142, COMAR and other related legislation. Permission required. Prerequisite: SPE-326. [3 credits]

SPE-373 Field Experience in Special Education

Provides supervised classroom observation and participation in special education in a Baltimore area school. Assigned by the education department in cooperation with local school systems. Permission required. (Offered in Winterim.) [3 credits]

SPE-421 Elementary Curriculum Design and Adaptation

Applies principles for adapting curriculum to special needs students at the elementary level. Includes analysis of diagnostic and developmental factors, goal setting and IEP formulation. Explores instructional strategies, identification of materials and resources, and evaluation techniques as they relate to the basic content areas and the Common Core Standards. Prerequisites: SPE-326. Permission required. [3 credits]

SPE-475 Internship: Teaching in Special Education

Provides student with opportunities for full-time supervised teaching in a special education program in diverse Baltimore area schools. Permission required. Teaching internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

SPE-491 Top: Comm Skills for Spec Educ

This course is reserved for specialized topics and independent study. [3 credits]

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Elementary Education

The NDMU School of Education strives to prepare teacher candidates to respond to the supply and demand of the teacher education workforce and endeavors to prepare candidates who are highly skilled and equipped to teach children regardless of learning style, differentiated or special needs, and racial or socio-economic status. As such, candidates are encouraged to pursue certification in more than one content area or specialization; e.g, Certification in Biology and Special Education; or in English and TESOL; or in Elementary Education and Early Childhood Education. In some cases, candidates can even obtain three or four certifications (e.g, elementary, special education, early childhood education and/or TESOL).

Having more than one certification yields several benefits: 1) Most important of all, candidates are exposed to specific content and instructional strategies that may be unique to targeted individuals or groups of students (e.g, second language generation students whose parents speak only in their native language). 2) Candidates acquire a deeper, richer background in the vast variety of instructional strategies that one might employ, irrespective of the student's classification (e.g, a student in a Gifted and Talented class might respond just as readily to a 'reward and praise' technique as would a student with special needs). 3) Candidates find that, when seeking employment, they are more marketable because principals are afforded greater flexibility in assigning them to teaching positions that fit the needs of their school and student population (e.g, if given two equally qualified candidates from which to select, a principal is more likely to hire a candidate who has more than one certification, thereby giving them more flexibility to assign highly qualified teachers to classrooms based on that certification).

In essence, the teacher candidates enter the education profession with a larger and more diverse skill set of instructional strategies and content knowledge to better meet the needs of the school system, where employed, and the children whom they are entrusted to teach.

Pathways to obtain dual, triple, or even four certifications are outlined in the following tables, based on professional courses needed, content areas, programs and degrees.

Course Matrix for CAUS Elementary Education BA Degrees

Required Professional Courses	Bachelor of Arts Degrees** - Elementary Education				
	Elem Education	Elem & Special Education	Elem & Early Childhood	Elem & TESOL	Elem, Special, and ECE

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Liberal Studies/ESOL

The NDMU School of Education strives to prepare teacher candidates to respond to the supply and demand of the teacher education workforce and endeavors to prepare candidates who are highly skilled and equipped to teach children regardless of learning style, differentiated or special needs, and racial or socio-economic status. As such, candidates are encouraged to pursue certification in more than one content area or specialization; e.g, Certification in Biology and Special Education; or in English and TESOL; or in Elementary Education and Early Childhood Education. In some cases, candidates can even obtain three or four certifications (e.g, elementary, special education, early childhood education and/or TESOL).

Having more than one certification yields several benefits: 1) Most important of all, candidates are exposed to specific content and instructional strategies that may be unique to targeted individuals or groups of students (e.g, second language generation students whose parents speak only in their native language). 2) Candidates acquire a deeper, richer background in the vast variety of instructional strategies that one might employ, irrespective of the student's classification (e.g, a student in a Gifted and Talented class might respond just as readily to a 'reward and praise' technique as would a student with special needs). 3) Candidates find that, when seeking employment, they are more marketable because principals are afforded greater flexibility in assigning them to teaching positions that fit the needs of their school and student population (e.g, if given two equally qualified candidates from which to select, a principal is more likely to hire a candidate who has more than one certification, thereby giving them more flexibility to assign highly qualified teachers to classrooms based on that certification).

In essence, the teacher candidates enter the education profession with a larger and more diverse skill set of instructional strategies and content knowledge to better meet the needs of the school system, where employed, and the children whom they are entrusted to teach.

Pathways to obtain dual, triple, or even four certifications are outlined in the following tables, based on professional courses needed, content areas, programs and degrees.

Elementary Education/Liberal Studies

The Elementary Education/Liberal Studies Major provides a balanced program of liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences that culminate in an extended teaching internship experience. Completion of the program qualifies graduates for Maryland State Department Certification in Elementary Education. Each student works closely with an academic advisor to ensure that the student obtains all the credits needed for the degree, as well as the requirements of the State Department of Education for Certification in Elementary Education. All students must complete the Application for Teacher Education through the School of Education prior to methods courses. Women's College students interested in Elementary Education are encouraged to declare the Elementary Education/Liberal Studies Major in spring semester of the first year.

For students in CAUS, the practical field experiences, including the teaching internship, are the only parts of the Program of Study offered during the day. These must be taken during the academic year when elementary schools are in session. The teaching internship must be completed in the fall semester.

Programs of Study

Required Courses for a Major in Elementary Education/Liberal Studies

Liberal Arts courses in the Major are exclusive of those required for General Education.

Literature (6)
American literature and
World literature

American and World History (3)
U.S. History (if World History was selected for general education) or
Non-U.S. History (if American History was selected for general education)

Mathematics (9)

Natural Sciences (8/9)*
Biological science with lab and
Physical science with lab

Social sciences (6)
Geography and
One of economics, psychology, political science or sociology

Fine arts (3)
ART-208 (if Music was selected for general education) or

MUS-202 (if Art was selected for general education)

**Women's College students take two four-credit science courses; College of Adult Undergraduate Studies students take three three-credit science courses.*

Professional Courses

EDU-300 Technology for Instruction and Management (3)
EDU-303 Elementary Reading Materials (3)
EDU-357 Processes and Acquisition of Reading (3)
EDU-252 Clinical Field Experience: Elementary (3)
EDU-301 Educational Psychology (3)
EDU-307 Social Studies in the Elementary School (3)
EDU-309 Instruction in Reading (3)
EDU-310 Mathematics in the Elementary School (3)
EDU-312 Science in the Elementary School (3)
EDU-402 American Education in Historical Perspective (3)
EDU-411 Internship: Teaching in the Elementary School (Internship teaching fee required.) (10 or 16)
EDU-460 Assessment of Reading (3)
SPE-326 Special Education for the Classroom Teacher (3)
PSY-203 Child and Adolescent Development (3)

Transportation is required for methods labs, field experiences and internships.

Certification in English for Speakers of Other Languages (ESOL)

Women's College students in Elementary and Secondary Education Programs of Study who also wish to earn Certification in ESOL complete the following additional courses:

Courses

EDU-253 Clinical Field Experience: ESOL (3)
EDU-308 Issues in ESOL (3)
EDU-346 Methods and Materials ESOL (3)
EDU-347 Assessing Second Language (3)
EDU-360 Techniques of Teaching Reading and Writing to Students with Limited English Proficiency (3)
EDU-409 Internship: Teaching ESOL K-12 (16)
EDU-440 English Grammar for ESOL Teachers (3)

The following additional professional preparation courses also are required:

EDU-300 Technology for Instruction (3)
EDU-357 Processes/Acquisition of Reading (3)
EDU-301 Educational Psychology (3)
EDU-402 American Education in Historical Perspective (3)
PSY-203 Child and Adolescent Psychology (3)
SPE-326 Special Education for the Classroom Teacher (3)

Special Education (Dual Certification)

Special Education - CAUS.

Elementary Education/Liberal Studies

The Elementary Education/Liberal Studies Major provides a balanced program of liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences that culminate in an extended teaching internship experience. Completion of the program qualifies graduates for Maryland State Department Certification in Elementary Education. Each student works closely with an academic advisor to ensure that the student obtains all the credits needed for the degree, as well as the requirements of the State Department of Education for Certification in Elementary Education. All students must complete the Application for Teacher Education through the School of Education prior to methods courses. Women's College students interested in Elementary Education are encouraged to declare the Elementary Education/Liberal Studies Major in spring semester of the first year.

For students in CAUS, the practical field experiences, including the teaching internship, are the only parts of the Program of Study offered during the day. These must be taken during the academic year when elementary schools are in session. The teaching internship must be completed in the fall semester.

Elementary Education with Dual Certification in Special Education

Required Courses

The following courses are available to the student seeking to meet the course requirements for Maryland Certification in Special Education in addition to Certification through the approved program in Elementary Education. The student interested in pursuing this option is advised to begin coursework in the first year and to follow carefully the sequence outlined by her advisor. Students working toward dual certification will use special education courses in place of electives. They will take the Liberal Studies and Elementary Education courses listed previously and an additional 24 credits in Special Education. The student teaching experience can be accomplished during the same semester as the Elementary Education student teaching. More than 120 credits

are needed to graduate with dual certification.

Professional Courses

SPE-337 Communication Skills for the Special Educator (3)
SPE-321 Methods of Teaching Students with Special Needs (3)
SPE-344 Assessment in Special Education (3)
SPE-373 Field Experience in Special Education (3)
SPE-421 Elementary Curriculum Design and Adaptation (3)
SPE-422 Secondary Curriculum Design and Adaptation (for students seeking secondary certification only) (3)
SPE-475 Student Teaching in Special Education (Student teaching fee required) (6)

Transportation is required for method labs, field experiences and internships.

Elementary Education/Liberal Studies and Special Education Certification Four-Year Plan

Below is a sample Program of Study for the Women's College student enrolled in the Elementary Education/Liberal Studies with Special Education Certification Major. Students should select courses with the assistance of a faculty advisor.

Fall		Spring	
First year			
IDS-100 Perspectives on Education	3	Chemistry or Physical Science	4
ENG-101 College Writing	3	English Literature	3
Physical Science or Biology	4	EDU-303 Elementary Reading Materials	3
Mathematics (120, 121, 122, 125)	3	MUS-202 Music for Teachers	3
Foreign Language	3	SPE-201 Introduction to Special Education	3
[16 credits]		Physical Education	1
		[17 credits]	
Second year			

Physical Science or Biology	4	ART-208 Creative Arts	3
EDU-357 Processes and Acquisition/Reading	3	Mathematics (120, 121, 122, 125)	3
Philosophy (200-level)	3	Sociology	3
COM-206 Public Speaking	3	GEO-206 Geography	3
SPE-344 Assessment Special Education	3	SPE-337 Communication Skills for Teachers	3
[16 credits]		RST-201 Introduction to Biblical Studies	3
		[18 credits]	
Pass PRAXIS Core before methods classes			
Third year			
SPE-321 Methods of Teaching Students with Special Needs	3	EDU-309/310 Methods:	
PSY-203 Child/Adolescent Development	3	Reading in Elem. School	3
Special Education	3	Mathematics in Elem. School	3
EDU-301 Educational Psychology	3	EDU-307/312 Methods:	
Mathematics (120, 121, 122, 125)	3	Social Studies in Elem. School	3
[15 credits]		Science in Elem. School	3
		[12 credits]	
Fourth year			
EDU-411 Internship: Teaching in the Elementary School	10	English Literature	3
SPE-475 Internship: Teaching Special Education	6	EDU-402 Am. Ed. in History	3
[16 credits]		EDU-460 Assessment of Reading	3

	Religious Studies (300)	3
	History	3
	Mathematics (120, 121, 122, 125)	3
	[18 credits]	

This Program requires that students complete courses during the Winterim session -

First-Year Winterim: EDU-300 Technology for Management and Instruction
Second-Year Winterim: EDU-252 Clinical Field Experience: Elementary
Third-Year Winterim: SPE-373 Field Experience: Special Education
Fourth-Year Winterim: Philosophy 300- or 400-level course

2018-2019

BA/MA

The School of Education offers full-time and part-time, four-year and five-year Programs of Study that integrate academic and professional studies and lead to Certification in Secondary Education, Certification in Secondary and Special Education, Certification in Elementary Education, Certification in Elementary and Special Education, or Certification in Elementary and Early Childhood Education. Each Program of Study requires the creation of an electronic portfolio throughout the course of study; it is to be completed with each course of study. An ePortfolio license fee is required.

All Programs of Study leading to a Bachelor of Arts in Education are designed to provide a balance among liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences which may begin in the first year of college and culminate in an extended internship experience in the student's senior year. The School of Education may require a student to complete specific courses in addition to those listed as requirements. Each Program of Study aims to build competence through appropriate academic and professional course work, and to involve the student in practical classroom internship activities of steadily increasing responsibility. Internship placements are in professional development school environments through collaborative arrangements between Notre Dame and area school systems.

Graduates of the School of Education are educators in virtually every public school district throughout the State of Maryland, as well as in many private, independent and parochial schools. Not only do they ably serve Maryland's students, they are recognized as outstanding leaders. Many have been honored as "Teacher of the Year" in their respective districts; e.g, Anne Arundel County, Baltimore City, Baltimore County, Caroline County, Carroll County, Harford County, St. Mary's County.

The School of Education offers the Bachelor of Arts in Elementary Education/Liberal Studies to students in the Women's College.

Listed below is the Course Matrix for Women's College Elementary and Secondary Education BA

Degrees.

2018-2019

BA/MAT

Notre Dame of Maryland University enables a full-time student to complete the Bachelor of Arts and Master of Arts in Teaching degrees and to fulfill state certification requirements within four or five years. For the Elementary Education option, students complete the Liberal Studies Major for their baccalaureate degree and the Master of Arts in Teaching in Elementary Education in the final year. (See Liberal Studies program listings for a description of the liberal arts Major.)

For the Secondary Education option, students complete a Major in an academic discipline for their bachelor's degree and the Master of Arts in Teaching in the final year.

If a student wishes to pursue the four-year B.A./M.A.T. option, she must meet with the advisor of the School of Education at the time of entrance or before beginning the second semester of the first year to plan her Program of Study appropriately. In the five-year option, the student meets with the chair in the second semester of the sophomore year.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Early Childhood Education

The NDMU College of Adult Undergraduate Studies (CAUS) prepares interested students to become certified to teach children in pre-kindergarten through grade three. NDMU invites students to consider preparing for a career as an early childhood education teacher. Being a certified early childhood educator allows the professional to teach in a public or private school setting where they work with children who are in pre-kindergarten up to and including grade three. Teaching at this level requires close attention to the developmental needs of young children and how to appropriately support their learning process. As with any teaching assignment, the educator must be equipped to effectively plan lessons to engage these young learners in activities stimulating their fine and gross motor skills as well as their kinesthetic, auditory, and visual senses. Early Childhood Education Program of Study focuses on the academic, social, and cognitive skills that develop in children during their formative years.

Most early childhood educators work throughout the school day in a classroom setting with a single group of students for whom all content areas must be taught, i.e., English language arts, social studies, mathematics, and science instruction. Regardless of age and grade-level placement, NDMU will prepare all graduates to be highly qualified for any teaching situation by providing multiple opportunities for them to learn and teach in a variety of settings under outstanding mentor teachers. In fact, NDMU is the only teacher preparation program in Maryland that affords students the opportunity to observe pre-school age children on its main campus in LeClerc Hall in a program called 'A Child's Place', a school for children age 3 through kindergarten.

Courses

EDU-252 Clinical Field Experience: Elementary

Offers a direct instructional field experience in an assigned area elementary public school for three weeks, all day. Includes instruction in school organization, curriculum, characteristics and diverse needs of children, and issues in teaching and learning. Classroom observation

and participation seminars. Permission required. (Offered in Winterim. Three-week session, full school days.) [3 credits]

EDU-253 Clinical Field Experience: ESOL

Provides opportunities for supervised classroom observation and participation in ESOL in a Baltimore area school. Assigned by the education department in cooperation with the local school systems. Three-week session, full school days. (Offered in Winterim.) [3 credits]

EDU-300 Technology for Instruction & Management

Provides prospective classroom teacher swith opportunities for planning, designing and producing projects that support the instructional needs of students in grades K-12, including best practices for the integration of technology into curriculum with state and national technology standards. Students complete a variety of projects to develop skills in word processing, Web page development, computer presentations and other technolgies. For education majors only. [3 credits]

EDU-301 Educational Psychology

Examines stages of the cognitive, affective and physical domains of student development. Includes analysis and discussion of basic theories of learning and teaching and their applications to classroom situations including diversity and individual differences as factors influencing student learning (including socioeconomic diversity, cultural diversity and the needs of special education students, gifted and talented education and English Language Learners), motivation and classroom management. Assessment issues including formal and informal assessment, norm referenced and criterion referenced testing, and the implications of assessment measures (such as the Maryland Common Core Curriculum Standards) for learning and teaching are also examined. Includes student-centered approaches to learning (including service-learning activities). Recommended prerequisite: PSY-203. [3 credits]

EDU-303 Elementary School Reading Materials

Assists participants in selecting and evaluating materials for teaching reading and developing related skills that are consistent with the findings of scientifically based reading research. Strengthens understanding of research-supported programs, approaches and methods to address different levels of reading proficiency within the classroom and thereby enable all students (G&T, ELL, Special Needs, etc) to become strategic, fluent and independent readers. Participants will use a variety of texts and other materials to promote independent reading. Participants will be prepared to involve parents and members of the school and community to promote daily reading inside and outside of school. Throughout the course, participants will apply key concepts to various group and individual tasks and projects,

including discussions and simulations. NOTE: Students cannot receive credit for both EDU-103 and EDU-303. [3 credits]

EDU-307 Social Studies in the Elementary School

Provides a conceptual and analytical approach to teaching and learning social studies in the elementary school. Emphasis on integration of content and process through use of experimental, activity and inquiry approaches to meet the needs of diverse learners. Includes information related to selecting instructional resources, developing curriculum materials and integrating concepts, skills and values. Requires construction of learning materials and peer teaching. Permission required. Prerequisite: PRAXIS I, EDU-301, 309. [4 credits]

EDU-308 Issues in ESOL

Introduces students to the field of TESOL by providing an overview of instructional programs and approaches for teaching English as a second language to students from K-12 to postsecondary levels. The course includes bilingualism, legal and political trends as they pertain to ESL students in various educational settings, and the impact of state and national initiatives, such as the Common Core State Standards and ESSA, on ESL students and TESOL. [3 credits]

EDU-309 Instruction in Reading

Increases the participant's familiarity with a representative array of research-based instructional techniques and strategies in reading. Participants will learn age-appropriate instructional routines and strategies in the five major components of reading instruction (phonological and phonemic awareness; phonics, spelling and word study; fluency development; vocabulary; and comprehension). Throughout the course candidates will demonstrate their knowledge of the instructional routines and strategies by role-play, live demonstration, critiquing models, using the Common Core Reading Standards and reviewing the research in support of those approaches. Prerequisite: PRAXIS I. [4 credits]

EDU-310 Mathematics in the Elementary School

Integrates mathematical concepts with the methods employed to teach mathematics in the elementary school. Emphasis on National Council of Teachers of Mathematics (NCTM) Standards and implementation of the Common Core Mathematics standards in instruction. Focus on a hands-on approach using manipulatives. Includes preparation of lesson plans and microteaching experiences. Permission required. Prerequisite: PRAXIS I. [4 credits]

EDU-312 Science in the Elementary School

Integration of basic concepts of physical, life, earth and space sciences. Emphasis on discovery of concepts through demonstrations and investigations. Addresses the three domains of science education: knowledge, skills and attitudes. Attention given to National Standards, the Common Core Science Standards and the use of indicators in planning, instruction and assessing. Includes preparation of a science unit and microteaching experience. Permission required. Prerequisite: PRAXIS I, EDU-301, 309, 310. [4 credits]

EDU-313 Science and Social Studies in the Elementary School

Emphasizes integration of content and process through demonstration, investigative and inquiry approaches. Addresses the three domains of knowledge, skills and attitudes. Attention is given to recent trends, national and state standards, and the use of indicators in planning instruction and assessing. Includes preparation of instructional units and microteaching experience. [3 credits]

EDU-315 Curriculum/Methods and Materials For the Young Child

Presents curriculum, methods and materials for early childhood programs, preschool through primary grades. Family and community involvement strategies. Instruction in planning, implementation and assessment of interdisciplinary activities to stimulate cognitive, linguistic, social and motor development to meet the diverse needs of learners. [4 credits]

EDU-344 Teaching Reading and Writing in the Secondary School Content Areas I

Studies principles and techniques in teaching interactive reading and writing in secondary school content areas: vocabulary and skill development; pre-reading, reading and post-reading strategies. Techniques for assessing student literacy levels and readability levels of texts. Strategies for individualizing instruction to address the unique needs of diverse learners; e.g., gifted and talented, second language learners, students with special needs, etc. Includes classroom observation and participation in Baltimore area secondary schools. Preparation of lesson plans and peer teaching. [3 credits]

EDU-346 Methods and Materials for ESOL

Familiarizes students with methods and materials available to the ESOL teacher. Analyzes a wide variety of methods, with emphasis on currently accepted methodology. Different kinds of materials are examined in detail, including authentic materials and the Internet. Students will

develop techniques for effectively teaching the four language skill areas in well-designed courses while also adapting standards-based content to the needs of ESOL students. [3 credits]

EDU-347 Assessing Second Language Acquisition

Introduces the student to various assessment techniques that are used in ESOL teaching. Examines traditional testing techniques, along with more recently developed alternative (authentic) methods for assessing second language learning, focusing on the four language skills: reading, writing, listening and speaking. Communicative competence in general will be stressed. n addition, we will critically evaluate the ESOL assessment methods used for placement purposes by various local public school systems as well as placement tests used for adult and higher education. [3 credits]

EDU-357 Procurement & Acquisition of Reading

Assists pre-service and in-service teachers in understanding the reading acquisition process through observation and analysis of reading and written language development. The course is organized around current, accepted, research-based theoretical models that account for individual differences in reading. Introduction to language structure including spoken syllables, phonemes, graphemes and morphemes is included. Using current research-based strategies, participants will apply knowledge of the core areas of language to reading acquisition in terms of first and second language acquisition, typical development, gifted and talented and other exceptionalities. Throughout the course, candidates will demonstrate their knowledge of concepts and skills through a variety of tasks such as assessing their ability to identify linguistic units, observations of students and analysis of student work, and presentations of research summaries. NOTE: Students cannot receive credit for both EDU-207 and EDU-357. [3 credits]

EDU-360 Techniques of Teaching Reading and Writing to Students With Limited English Proficiency

Addresses the development of reading and writing from a cognitive perspective. Students will become familiar with the approaches, methods and techniques appropriate for the teaching of reading and writing to English Language Learners. Special topics such as the integrated skills curriculum, language-specific rhetorical styles and free voluntary reading will also be discussed. Students will evaluate and design appropriate classroom materials. [3 credits]

EDU-373 Field Exp in Spec Ed

Provides supervised classroom observation and participation in special education in diverse

Baltimore area schools. Assigned by the School of Education in cooperation with local school systems. Permission required. Offered in Winterim. [3 credits]

EDU-376 Clinical Field Experience: Secondary

Provides direct instructional field experience in an assigned Baltimore area public middle school for three weeks, all day. Includes instruction in middle school organization and curriculum, characteristics and diverse needs of middle school children, and issues in teaching and learning. Classroom observation and participation. Weekly seminars. Permission required. Offered in Winterim. Three-week session, full school days. [3 credits]

EDU-402 American Education in Historical Perspective

Surveys major developments in the history of American education from colonial times to the present. Examines influential persons, ideas and institutions in the context of American society. Education and public policy, legal issues, priorities and innovations in American education reviewed from a critical perspective. [3 credits]

EDU-409 Internship:Teaching ESOL K-12

Develops intensive opportunities for full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-410 Internship: Teaching in Early Childhood Education

Incorporates full-time observation and supervised student teaching experiences in diverse Baltimore area professional development schools. Permission required. Internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-411 Internship: Teaching in the Elementary School

Provides full-time observation and supervised internship experiences in diverse Baltimore area professional development schools. Seminars on various topics in education such as analysis of teaching in elementary schools, school and family relationships, and interviewing and employment practices. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-413 Internship:Teaching in the Secondary School

Incorporates full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools during the fall semester only. Permission required. Teaching internship fee required. [12 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-420 Dim Curric/Inst Sec Sch

Examines aims, organization and administration of American secondary schools. Principles of curriculum organization and design for middle and senior high schools. Curriculum development in school systems, in specific schools, and in academic disciplines. Multicultural and gender issues are considered. Class is interrelated with methods courses in study and application of principles of teaching-learning, used of technology for instruction, analysis of teaching, assessment of classroom management. [3 credits]

EDU-429 Meth Bus Ed/Sec Sch

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-430 Art N-12

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of

teaching. Permission required for all methods courses. [3 credits]

EDU-431 English in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-432 Modern Foreign Language in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-433 Mathematics in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-437 Science in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research

on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-439 Social Studies in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-440 English Grammar for ESOL Teachers

Analyzes the grammar of American English in detail, with an emphasis on those areas of English grammar that tend to present problems for ESOL/EFL students. Students will learn how to teach grammar, including how to contextualize grammar instruction in thematic lessons. Included will be a discussion of how grammar instruction fits into current trends in language teaching. [3 credits]

EDU-451 Teaching Reading and Writing in the Content Areas II

Examines methods, purposes and criteria used in diagnosing strengths and weaknesses of students with a range of reading abilities; e.g., special needs, gifted and talented, ESOL. Focus is on authentic formal and informal assessment of individual secondary school students and application of test results in various secondary curriculum content areas. Includes an applied, school-based assessment experience. [3 credits]

EDU-460 Assessment of Reading

Provides students with a background in assessment and its relationship to instruction. Students will learn about the variety of assessments available to the classroom teacher in the areas of reading and writing and how to administer, score and interpret the results of these various assessments. Instructional decisions regarding the educational program of the child,

and his/her diverse needs will also be examined. [3 credits] NOTE: Please refer to cohort schedule. Additional clas times may meet in previous semester.

EDU-491 Topics in Education

SPE-321 Methods of Teaching Students With Special Needs

Provides the student with methods to facilitate the teaching of students with diverse learning needs. Course content includes cognitive processing, classroom management and organization strategies. Models of instructional delivery, adaptation of instructional materials, strategy instruction and means of assessing student progress are explored. Current trends and issues in special education are included as well. [3 credits]

SPE-326 Special Education for the Classroom Teacher

Includes brief history as well as legal foundations of current special education models and practices. Explores characteristics of students with disabilities as well as at-risk populations in general education. Addresses the responsibilities of educators, exploring generic strategies for programming for special needs students in the general education classroom, including the Common Core Standards. Required for all Maryland teachers. [3 credits]

SPE-337 Communication Skills for the Special Educator

Addresses human relations, communication and informal counseling skills and their critical role in meeting the diverse needs of students with disabilities. Explores role of the special educator as a member of an interdisciplinary team. Includes research on parent/teacher attitudes, roles and responsibilities. Presents models and techniques for effective interface with parents as well as other professionals encountered in theprocess of holistic programming. Additional topics include parent training, advocacy, multicultural considerations and accessing community services. NOTE: Students cannot receive credit for both SPE-237 and SPE-337. [3 credits]

SPE-344 Assessment in Special Education

Introduces diagnostic processes used in special education. Includes student-conducted informal and formal assessments as well as analysis, interpretation and presentation of test results. Covers prescriptive techniques and instructional planning as well as current trends in student assessment. Addresses P.L. 94-142, COMAR and other related legislation. Permission required. Prerequisite: SPE-326. [3 credits]

SPE-373 Field Experience in Special Education

Provides supervised classroom observation and participation in special education in a Baltimore area school. Assigned by the education department in cooperation with local school systems. Permission required. (Offered in Winterim.) [3 credits]

SPE-421 Elementary Curriculum Design and Adaptation

Applies principles for adapting curriculum to special needs students at the elementary level. Includes analysis of diagnostic and developmental factors, goal setting and IEP formulation. Explores instructional strategies, identification of materials and resources, and evaluation techniques as they relate to the basic content areas and the Common Core Standards. Prerequisites: SPE-326. Permission required. [3 credits]

SPE-475 Internship: Teaching in Special Education

Provides student with opportunities for full-time supervised teaching in a special education program in diverse Baltimore area schools. Permission required. Teaching internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

SPE-491 Top: Comm Skills for Spec Educ

This course is reserved for specialized topics and independent study. [3 credits]

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Elementary Education

The NDMU School of Education strives to prepare teacher candidates to respond to the supply and demand of the teacher education workforce and endeavors to prepare candidates who are highly skilled and equipped to teach children regardless of learning style, differentiated or special needs, and racial or socio-economic status. As such, candidates are encouraged to pursue certification in more than one content area or specialization; e.g, Certification in Biology and Special Education; or in English and TESOL; or in Elementary Education and Early Childhood Education. In some cases, candidates can even obtain three or four certifications (e.g, elementary, special education, early childhood education and/or TESOL).

Having more than one certification yields several benefits: 1) Most important of all, candidates are exposed to specific content and instructional strategies that may be unique to targeted individuals or groups of students (e.g, second language generation students whose parents speak only in their native language). 2) Candidates acquire a deeper, richer background in the vast variety of instructional strategies that one might employ, irrespective of the student's classification (e.g, a student in a Gifted and Talented class might respond just as readily to a 'reward and praise' technique as would a student with special needs). 3) Candidates find that, when seeking employment, they are more marketable because principals are afforded greater flexibility in assigning them to teaching positions that fit the needs of their school and student population (e.g, if given two equally qualified candidates from which to select, a principal is more likely to hire a candidate who has more than one certification, thereby giving them more flexibility to assign highly qualified teachers to classrooms based on that certification).

In essence, the teacher candidates enter the education profession with a larger and more diverse skill set of instructional strategies and content knowledge to better meet the needs of the school system, where employed, and the children whom they are entrusted to teach.

Pathways to obtain dual, triple, or even four certifications are outlined in the following tables, based on professional courses needed, content areas, programs and degrees.

Course Matrix for CAUS Elementary Education BA Degrees

Required Professional Courses	Bachelor of Arts Degrees** - Elementary Education				
	Elem Education	Elem & Special Education	Elem & Early Childhood	Elem & TESOL	Elem, Special, and ECE

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Special Education (Dual Certification)

Special Education - Women's College.

Elementary Education/Liberal Studies

The Elementary Education/Liberal Studies Major provides a balanced program of liberal arts courses in a variety of academic fields, a planned sequence of professional courses, and practical field experiences that culminate in an extended teaching internship experience. Completion of the program qualifies graduates for Maryland State Department Certification in Elementary Education. Each student works closely with an academic advisor to ensure that the student obtains all the credits needed for the degree, as well as the requirements of the State Department of Education for Certification in Elementary Education. All students must complete the Application for Teacher Education through the School of Education prior to methods courses. Women's College students interested in Elementary Education are encouraged to declare the Elementary Education/Liberal Studies Major in spring semester of the first year.

For students in CAUS, the practical field experiences, including the teaching internship, are the only parts of the Program of Study offered during the day. These must be taken during the academic year when elementary schools are in session. The teaching internship must be completed in the fall semester.

Elementary Education with Dual Certification in Special Education

Required Courses

The following courses are available to the student seeking to meet the course requirements for Maryland Certification in Special Education in addition to Certification through the approved program in Elementary Education. The student interested in pursuing this option is advised to begin coursework in the first year and to follow carefully the sequence outlined by her advisor. Students working toward dual certification will use special education courses in place of electives. They will take the Liberal Studies and Elementary Education courses listed previously and an additional 24 credits in Special Education. The student teaching experience can be accomplished during the same semester as the Elementary Education student teaching. More than 120 credits

are needed to graduate with dual certification.

Professional Courses

This Program requires that students complete courses during the Winterim session -

First-Year Winterim: EDU-300">EDU-300 Technology for Management and Instruction
Second-Year Winterim: EDU-252">EDU-252 Clinical Field Experience: Elementary
Third-Year Winterim: SPE-373">SPE-373 Field Experience: Special Education
Fourth-Year Winterim: Philosophy 300- or 400-level course

Courses

EDU-252 Clinical Field Experience: Elementary

Offers a direct instructional field experience in an assigned area elementary public school for three weeks, all day. Includes instruction in school organization, curriculum, characteristics and diverse needs of children, and issues in teaching and learning. Classroom observation and participation seminars. Permission required. (Offered in Winterim. Three-week session, full school days.) [3 credits]

EDU-253 Clinical Field Experience: ESOL

Provides opportunities for supervised classroom observation and participation in ESOL in a Baltimore area school. Assigned by the education department in cooperation with the local school systems. Three-week session, full school days. (Offered in Winterim.) [3 credits]

EDU-300 Technology for Instruction & Management

Provides prospective classroom teacher swith opportunities for planning, designing and producing projects that support the instructional needs of students in grades K-12, including

best practices for the integration of technology into curriculum with state and national technology standards. Students complete a variety of projects to develop skills in word processing, Web page development, computer presentations and other technolgies. For education majors only. [3 credits]

EDU-301 Educational Psychology

Examines stages of the cognitive, affective and physical domains of student development. Includes analysis and discussion of basic theories of learning and teaching and their applications to classroom situations including diversity and individual differences as factors influencing student learning (including socioeconomic diversity, cultural diversity and the needs of special education students, gifted and talented education and English Language Learners), motivation and classroom management. Assessment issues including formal and informal assessment, norm referenced and criterion referenced testing, and the implications of assessment measures (such as the Maryland Common Core Curriculum Standards) for learning and teaching are also examined. Includes student-centered approaches to learning (including service-learning activities). Recommended prerequisite: PSY-203. [3 credits]

EDU-303 Elementary School Reading Materials

Assists participants in selecting and evaluating materials for teaching reading and developing related skills that are consistent with the findings of scientifically based reading research. Strengthens understanding of research-supported programs, approaches and methods to address different levels of reading proficiency within the classroom and thereby enable all students (G&T, ELL, Special Needs, etc) to become strategic, fluent and independent readers. Participants will use a variety of texts and other materials to promote independent reading. Participants will be prepared to involve parents and members of the school and community to promote daily reading inside and outside of school. Throughout the course, participants will apply key concepts to various group and individual tasks and projects, including discussions and simulations. NOTE: Students cannot receive credit for both EDU-103 and EDU-303. [3 credits]

EDU-307 Social Studies in the Elementary School

Provides a conceptual and analytical approach to teaching and learning social studies in the elementary school. Emphasis on integration of content and process through use of experimental, activity and inquiry approaches to meet the needs of diverse learners. Includes information related to selecting instructional resources, developing curriculum materials and integrating concepts, skills and values. Requires construction of learning materials and peer teaching. Permission required. Prerequisite: PRAXIS I, EDU-301, 309. [4 credits]

EDU-308 Issues in ESOL

Introduces students to the field of TESOL by providing an overview of instructional programs and approaches for teaching English as a second language to students from K-12 to postsecondary levels. The course includes bilingualism, legal and political trends as they pertain to ESL students in various educational settings, and the impact of state and national initiatives, such as the Common Core State Standards and ESSA, on ESL students and TESOL. [3 credits]

EDU-309 Instruction in Reading

Increases the participant's familiarity with a representative array of research-based instructional techniques and strategies in reading. Participants will learn age-appropriate instructional routines and strategies in the five major components of reading instruction (phonological and phonemic awareness; phonics, spelling and word study; fluency development; vocabulary; and comprehension). Throughout the course candidates will demonstrate their knowledge of the instructional routines and strategies by role-play, live demonstration, critiquing models, using the Common Core Reading Standards and reviewing the research in support of those approaches. Prerequisite: PRAXIS I. [4 credits]

EDU-310 Mathematics in the Elementary School

Integrates mathematical concepts with the methods employed to teach mathematics in the elementary school. Emphasis on National Council of Teachers of Mathematics (NCTM) Standards and implementation of the Common Core Mathematics standards in instruction. Focus on a hands-on approach using manipulatives. Includes preparation of lesson plans and microteaching experiences. Permission required. Prerequisite: PRAXIS I. [4 credits]

EDU-312 Science in the Elementary School

Integration of basic concepts of physical, life, earth and space sciences. Emphasis on discovery of concepts through demonstrations and investigations. Addresses the three domains of science education: knowledge, skills and attitudes. Attention given to National Standards, the Common Core Science Standards and the use of indicators in planning, instruction and assessing. Includes preparation of a science unit and microteaching experience. Permission required. Prerequisite: PRAXIS I, EDU-301, 309, 310. [4 credits]

EDU-313 Science and Social Studies in the Elementary School

Emphasizes integration of content and process through demonstration, investigative and inquiry approaches. Addresses the three domains of knowledge, skills and attitudes. Attention is given to recent trends, national and state standards, and the use of indicators in planning

instruction and assessing. Includes preparation of instructional units and microteaching experience. [3 credits]

EDU-315 Curriculum/Methods and Materials For the Young Child

Presents curriculum, methods and materials for early childhood programs, preschool through primary grades. Family and community involvement strategies. Instruction in planning, implementation and assessment of interdisciplinary activities to stimulate cognitive, linguistic, social and motor development to meet the diverse needs of learners. [4 credits]

EDU-344 Teaching Reading and Writing in the Secondary School Content Areas I

Studies principles and techniques in teaching interactive reading and writing in secondary school content areas: vocabulary and skill development; pre-reading, reading and post-reading strategies. Techniques for assessing student literacy levels and readability levels of texts. Strategies for individualizing instruction to address the unique needs of diverse learners; e.g., gifted and talented, second language learners, students with special needs, etc. Includes classroom observation and participation in Baltimore area secondary schools. Preparation of lesson plans and peer teaching. [3 credits]

EDU-346 Methods and Materials for ESOL

Familiarizes students with methods and materials available to the ESOL teacher. Analyzes a wide variety of methods, with emphasis on currently accepted methodology. Different kinds of materials are examined in detail, including authentic materials and the Internet. Students will develop techniques for effectively teaching the four language skill areas in well-designed courses while also adapting standards-based content to the needs of ESOL students. [3 credits]

EDU-347 Assessing Second Language Acquisition

Introduces the student to various assessment techniques that are used in ESOL teaching. Examines traditional testing techniques, along with more recently developed alternative (authentic) methods for assessing second language learning, focusing on the four language skills: reading, writing, listening and speaking. Communicative competence in general will be stressed. n addition, we will critically evaluate the ESOL assessment methods used for placement purposes by various local public school systems as well as placement tests used for adult and higher education. [3 credits]

EDU-357 Procurement & Acquisition of Reading

Assists pre-service and in-service teachers in understanding the reading acquisition process through observation and analysis of reading and written language development. The course is organized around current, accepted, research-based theoretical models that account for individual differences in reading. Introduction to language structure including spoken syllables, phonemes, graphemes and morphemes is included. Using current research-based strategies, participants will apply knowledge of the core areas of language to reading acquisition in terms of first and second language acquisition, typical development, gifted and talented and other exceptionalities. Throughout the course, candidates will demonstrate their knowledge of concepts and skills through a variety of tasks such as assessing their ability to identify linguistic units, observations of students and analysis of student work, and presentations of research summaries. NOTE: Students cannot receive credit for both EDU-207 and EDU-357. [3 credits]

EDU-360 Techniques of Teaching Reading and Writing to Students With Limited English Proficiency

Addresses the development of reading and writing from a cognitive perspective. Students will become familiar with the approaches, methods and techniques appropriate for the teaching of reading and writing to English Language Learners. Special topics such as the integrated skills curriculum, language-specific rhetorical styles and free voluntary reading will also be discussed. Students will evaluate and design appropriate classroom materials. [3 credits]

EDU-373 Field Exp in Spec Ed

Provides supervised classroom observation and participation in special education in diverse Baltimore area schools. Assigned by the School of Education in cooperation with local school systems. Permission required. Offered in Winterim. [3 credits]

EDU-376 Clinical Field Experience: Secondary

Provides direct instructional field experience in an assigned Baltimore area public middle school for three weeks, all day. Includes instruction in middle school organization and curriculum, characteristics and diverse needs of middle school children, and issues in teaching and learning. Classroom observation and participation. Weekly seminars. Permission required. Offered in Winterim. Three-week session, full school days. [3 credits]

EDU-402 American Education in Historical Perspective

Surveys major developments in the history of American education from colonial times to the

present. Examines influential persons, ideas and institutions in the context of American society. Education and public policy, legal issues, priorities and innovations in American education reviewed from a critical perspective. [3 credits]

EDU-409 Internship:Teaching ESOL K-12

Develops intensive opportunities for full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-410 Internship: Teaching in Early Childhood Education

Incorporates full-time observation and supervised student teaching experiences in diverse Baltimore area professional development schools. Permission required. Internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-411 Internship: Teaching in the Elementary School

Provides full-time observation and supervised internship experiences in diverse Baltimore area professional development schools. Seminars on various topics in education such as analysis of teaching in elementary schools, school and family relationships, and interviewing and employment practices. Permission required. Teaching internship fee required. [16 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-413 Internship:Teaching in the Secondary School

Incorporates full-time observation and supervised internship teaching experience in diverse Baltimore area professional development schools during the fall semester only. Permission required. Teaching internship fee required. [12 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

EDU-420 Dim Curric/Inst Sec Sch

Examines aims, organization and administration of American secondary schools. Principles of curriculum organization and design for middle and senior high schools. Curriculum

development in school systems, in specific schools, and in academic disciplines. Multicultural and gender issues are considered. Class is interrelated with methods courses in study and application of principles of teaching-learning, used of technology for instruction, analysis of teaching, assessment of classroom management. [3 credits]

EDU-429 Meth Bus Ed/Sec Sch

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-430 Art N-12

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-431 English in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-432 Modern Foreign Language in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-433 Mathematics in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-437 Science in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-439 Social Studies in the Secondary School

Students in all methods courses examine the nature of the academic discipline, the structure and modes of thinking through which knowledge in the discipline advances, current research on teaching the subject, models of teaching, and techniques appropriate for instruction in the

content area. Application of teaching-learning theory to the content area in planning, motivation, instruction, questioning, discussion and assessment in the content area. Evaluation and use of the Maryland Common Core State Curriculum and student learner outcomes (as applicable), other curriculum guides, textbooks and resource materials in the field. Presentation and evaluation of demonstration lessons. Videotaping for analysis of teaching. Permission required for all methods courses. [3 credits]

EDU-440 English Grammar for ESOL Teachers

Analyzes the grammar of American English in detail, with an emphasis on those areas of English grammar that tend to present problems for ESOL/EFL students. Students will learn how to teach grammar, including how to contextualize grammar instruction in thematic lessons. Included will be a discussion of how grammar instruction fits into current trends in language teaching. [3 credits]

EDU-451 Teaching Reading and Writing in the Content Areas II

Examines methods, purposes and criteria used in diagnosing strengths and weaknesses of students with a range of reading abilities; e.g., special needs, gifted and talented, ESOL. Focus is on authentic formal and informal assessment of individual secondary school students and application of test results in various secondary curriculum content areas. Includes an applied, school-based assessment experience. [3 credits]

EDU-460 Assessment of Reading

Provides students with a background in assessment and its relationship to instruction. Students will learn about the variety of assessments available to the classroom teacher in the areas of reading and writing and how to administer, score and interpret the results of these various assessments. Instructional decisions regarding the educational program of the child, and his/her diverse needs will also be examined. [3 credits] NOTE: Please refer to cohort schedule. Additional clas times may meet in previous semester.

EDU-491 Topics in Education

SPE-321 Methods of Teaching Students With Special Needs

Provides the student with methods to facilitate the teaching of students with diverse learning needs. Course content includes cognitive processing, classroom management and organization strategies. Models of instructional delivery, adaptation of instructional materials, strategy instruction and means of assessing student progress are explored. Current trends and issues in special education are included as well. [3 credits]

SPE-326 Special Education for the Classroom Teacher

Includes brief history as well as legal foundations of current special education models and practices. Explores characteristics of students with disabilities as well as at-risk populations in general education. Addresses the responsibilities of educators, exploring generic strategies for programming for special needs students in the general education classroom, including the Common Core Standards. Required for all Maryland teachers. [3 credits]

SPE-337 Communication Skills for the Special Educator

Addresses human relations, communication and informal counseling skills and their critical role in meeting the diverse needs of students with disabilities. Explores role of the special educator as a member of an interdisciplinary team. Includes research on parent/teacher attitudes, roles and responsibilities. Presents models and techniques for effective interface with parents as well as other professionals encountered in theprocess of holistic programming. Additional topics include parent training, advocacy, multicultural considerations and accessing community services. NOTE: Students cannot receive credit for both SPE-237 and SPE-337. [3 credits]

SPE-344 Assessment in Special Education

Introduces diagnostic processes used in special education. Includes student-conducted informal and formal assessments as well as analysis, interpretation and presentation of test results. Covers prescriptive techniques and instructional planning as well as current trends in student assessment. Addresses P.L. 94-142, COMAR and other related legislation. Permission required. Prerequisite: SPE-326. [3 credits]

SPE-373 Field Experience in Special Education

Provides supervised classroom observation and participation in special education in a Baltimore area school. Assigned by the education department in cooperation with local school systems. Permission required. (Offered in Winterim.) [3 credits]

SPE-421 Elementary Curriculum Design and Adaptation

Applies principles for adapting curriculum to special needs students at the elementary level. Includes analysis of diagnostic and developmental factors, goal setting and IEP formulation. Explores instructional strategies, identification of materials and resources, and evaluation techniques as they relate to the basic content areas and the Common Core Standards. Prerequisites: SPE-326. Permission required. [3 credits]

SPE-475 Internship: Teaching in Special Education

Provides student with opportunities for full-time supervised teaching in a special education program in diverse Baltimore area schools. Permission required. Teaching internship fee required. [6 credits] NOTE: Student Teaching Internships may start earlier than the official term start dates. Please refer to the information received at the internship orientation or contact the Education Department.

SPE-491 Top: Comm Skills for Spec Educ

This course is reserved for specialized topics and independent study. [3 credits]

2018-2019

School of Nursing

The philosophy of the School of Nursing grounds the caring curriculum, as well as all activities of the School:

Nursing and the teaching of Nursing is a journey through deep caring connections with patients, students, colleagues, and the discipline of Nursing. Nursing is imagined and known through caring authentic presence with others and multiple ways of knowing. Nursing is a presence to life lived with those entrusted to our care, a beacon, attentive to the extraordinary in the mundane and boldly entering questions of meaning. All stories of individuals and of the discipline are valued as necessary to the growth and advancement of the profession. Healing practice is possible in partnership relationships; nursing creates safe welcoming places, encouraging growth, seeking to understand and knowing each other's hearts.

Nurses are called to care through advocacy, action, 'power-with' and trusting relationships with persons and groups in diverse settings. Nursing embraces diversity and commitment to social justice. With perseverance and fortitude, caring and compassion are preserved as the ethical foundation of nursing practice and scholarship.

A nursing way of being requires reflective practice, a listening, that allows for meaning-making in all dimensions of academic and practice endeavors. Nursing practice is characterized by thoughtfulness and necessarily lived out with intention. This way of being a College of Nursing in all aspects allows for possibilities for our mission to be realized—educating nurses to transform the world.

The Philosophy of the School of Nursing is lived by the graduates through the following program outcomes: Presence, Praxis, Advocacy, Scholarship, Self-Care and Leadership.

Women's College or College of Adult Undergraduate Studies?

Although many Programs of Study are offered through both the Women's College and the College of Adult Undergraduate Studies (CAUS), there are significant differences in their populations and scheduling. To determine whether the Women's College or CAUS is the most appropriate for you, see the college descriptions under Academic Information.

Kathleen Wisser, PhD, RN, CNE, Dean, School of Nursing

The School of Nursing offers a Bachelor of Science in Nursing (BSN) to students admitted through the Women's College. Dedicated to the mission of the School Sisters of Notre Dame, the School of Nursing educates students in a caring science curriculum to become leaders in the profession of nursing, and thereby to transform healthcare and the world. The BSN program challenges students to strive for intellectual and professional excellence, to build inclusive communities, to engage in service to others, and to promote social responsibility. The philosophy of the School of Nursing grounds the caring curriculum, as well as all activities of the School:

Nursing and the teaching of nursing is a journey through deep caring connections with patients, students, colleagues, and the discipline of nursing. Nursing is imagined and known through caring authentic presence with others and multiple ways of knowing. Nursing is a presence to life lived with those entrusted to our care, a beacon, attentive to the extraordinary in the mundane and boldly entering questions of meaning. All stories of individuals and of the discipline are valued as necessary to the growth and advancement of the profession. Healing practice is possible in partnership relationships; nursing creates safe welcoming places, encouraging growth, seeking to understand and knowing each other's hearts.

Nurses are called to care through advocacy, action, 'power-with' and trusting relationships with persons and groups in diverse settings. Nursing embraces diversity and commitment to social justice. With perseverance and fortitude, caring and compassion are preserved as the ethical foundation of nursing practice and scholarship.

A nursing way of being requires reflective practice, a listening, that allows for meaning-making in all dimensions of academic and practice endeavors. Nursing practice is characterized by thoughtfulness and necessarily lived out with intention. This way of being a School of Nursing in all aspects allows for possibilities for our mission to be realized—educating nurses to transform the world.

The Philosophy of the School of Nursing is lived by the graduates through the following program outcomes: Presence, Praxis, Advocacy, Scholarship, Self-Care and Leadership.

Students are admitted to Notre Dame as Nursing students and complete most liberal arts and basic science courses prior to beginning the Nursing Major in the junior year. The BSN program integrates the academic discipline with reflective clinical practice. Clinical experiences occur in a variety of hospital and community settings serving diverse populations throughout the region. BSN graduates are prepared as nurse generalists and are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX–RN) in order to secure licensure as a Registered Nurse.

The Nursing Program is approved by the Maryland Board of Nursing and is accredited by the Commission on Collegiate Nursing Education (655 K Street, NW, Suite 750, Washington, DC 20001; Phone: 202-887-6791).

Progression Policy in the Nursing Major

Once enrolled in the Nursing Major, students must meet the following criteria in order to progress in the Major:

Criteria for Progression

- Adhere to the *NSNA Code of Ethics for Nursing Students—Code of Academic and Clinical Conduct*.
- Maintain a cumulative grade point average of 2.8 in Nursing courses.
- Achieve a grade of C or better in all Nursing courses.
  - Satisfactorily complete the clinical component of each Nursing course. A clinical failure constitutes failure of the entire Nursing course regardless if a passing grade was obtained in classroom theory tests.
  - Minimum of 70% examination average must be met before other assignments are considered in select Nursing courses in order to pass the course. Once the examination average of 70% is met, all other assignment grades will be factored. These select courses include: NUR-301 Holistic Health Assessment, NUR-305 Foundations of a Caring Profession, NUR-310 Pathopharmacology, NUR-311 Professional Nursing Care of the Adult I, NUR-312 Nursing Care of Children and Families, NUR-408 Maternal and Infant Nursing, NUR-409 Professional Nursing Care of the Adult II, NUR-410 Psychiatric Mental Health Nursing, NUR-431 Community Health Nursing.
- Only one Nursing course (NUR designation) may be repeated—and only one time. Failure of a second Nursing course results in dismissal from the Nursing Program.
- Students are limited to repeating one science course (for a grade less than C) and one Nursing course (for a grade less than C) throughout the entire Program of Study.
- Students are limited to two withdrawals from Nursing courses during their course of study.
- Students who withdraw from the Program due to non-academic reasons may be reinstated on a space available basis. Students must have withdrawn in good academic standing with a cumulative GPA of 2.8 or above in all Nursing courses. University admission policies are followed.

The complete policy for acceptance to the Nursing Major is contained on this page and in the Undergraduate Nursing Student Entry-Level BSN Student Handbook. See here for the complete progression policy for Majors.

Program of Study

Required Courses for the Major in Nursing (Credits)

BIO-111 General Biology (4)
BIO-253 General Microbiology (4)
BIO-260 Genetics and Genomics for Clinical Practice (3)
BIO-281 Human Anatomy & Physiology I (4)
BIO-282 Human Anatomy & Physiology II (4)
CHM-108 Survey of General, Organic & Biochemistry (4)
LSP-108 Spanish Language and Culture for Healthcare Professionals (3)

MAT-103 Applied Algebra (unless waived) (3)
MAT-215 Basic Statistics (3)
NUR-250 Nutrition for Wellness (online) (3)
NUR-301 Holistic Health Assessment (4)
NUR-303 Nursing Informatics (online) (2)
NUR-304 Healthy Aging (3)
NUR-305 Foundations of a Caring Profession (5)
NUR-307 Research in Nursing Practice (3)
NUR-308 Professional Nursing Care: Psychiatric/Mental Health (4)
NUR-310 Pathopharmacology (4)
NUR-311 Professional Nursing Care of the Adult I (4)
NUR-406 Contemporary Trends and Theory (3)
NUR-408 Professional Nursing Care: Maternal and Newborn (4)
NUR-409 Professional Nursing Care of the Adult II (4)
NUR-417 Professional Nursing Care: Children and Families (4)
NUR-431 Community Health Nursing (5)
NUR-432 Caring Nursing Leadership (3)
NUR-461 Clinical Practicum (6)
PSY-101 Introductory Psychology (4)
PSY-233 Human Growth & Development (3)
PHL-339 Medical Ethics (3)
SOC-101 Introductory Sociology (3)

Note: *Students also complete the General Education Requirements for the Bachelor of Science degree. Nursing students are encouraged to take fine arts and Spanish courses for their elective requirements.*

Nursing Four-Year Plan

Students must select courses with the assistance of a faculty advisor. The Program of Study requires a total of 123 to 129 credits.

FALL		SPRING	
FIRST YEAR			
*MAT-100 Algebraic Applications OR *MAT-103 Applied Algebra (unless	4	CHM-108 Survey of General, Organic & Biochemistry	4

waived)	3
NDMU-100 First Year Seminar	4
ENG-101 College Writing	3

NUR-409 Professional Nursing Care of the Adult II	4	NUR-461 Clinical Practicum	6
[15 credits]		*[15 credits]*	

Total General Education Credits: 62/68

Total Nursing Credits: 61

[123/129 total credits]

Additional Curriculum Information

Gender and Cross-Cultural Studies General Education Requirements - In addition to the General Education Requirements listed in the curriculum, all NDMU students must satisfy a Gender Studies Requirement and a Cross-Cultural Studies Requirement.

Students who take both MAT-100/103 and BIO-110 will need to fit a General Education Requirement into a winterim or summer semester (these students will meet with their advisor to make a plan for completing the requirement).

***Math Requirement**

If Nursing students place into MAT-100 Algebraic Applications on the Math Placement Test, then they are required to take MAT-100. If Nursing students place into MAT-103 Applied Algebra, then they are required to take MAT-103; however, if they place into MAT 107 or higher, then MAT-103 may be waived.

***General Biology Requirement**

BIO-111 General Biology requires permission of instructor to take without BIO-110 Exploring Concepts of Biology as a pre-requisite course.

***Foreign Language Requirement for Nursing Majors only**

LSP-108 Spanish Language & Culture for Healthcare Professionals is a requirement of the Nursing Major. Students will take a Spanish Placement Test that determines whether or not LSP-105 Spanish Language & Culture for Professionals I and/or LSP-106 Spanish Language & Culture for Professionals II is required to take prior to LSP-108. If students place into LSP-105 on the placement test, then they are required to take LSP-105, LSP-106 and LSP-108. If students place into LSP-106 on the placement test, then they are required to take LSP-106 and LSP-108. If students place into LSP-108 on the placement test, then they are required to take LSP-108 only.

Courses

NUR-250 Nutrition for Wellness

This three credit online course focuses on the basic principles of nutrition that will support nursing praxis and their application during the human life span in health and disease. Learners are offered the opportunity to explore the assumptions underlying nutrition for individuals of varying cultural backgrounds, stages of development, and across the wellness-illness continuum. The 14-week course will be offered in seven online modules. [3 credits]

NUR-301 Holistic Health Assessment

Introduces the student to knowledge and skills essential for holistic health assessment. The psychological, physical, environmental, social, spiritual and genetic components of a health assessment will be applied. The student will practice assessment and interviewing skills in a skills laboratory. The student will analyze both subjective and objective data and document findings in the appropriate format. This course has 2 components: theory (3 credits) and practice (1 credit). Women's College only. [4 credits]

NUR-303 Nursing Informatics

Introduces students to online computer applications used in nursing and health care. Students acquire technical skills needed for the application of patient care technologies and competency in information literacy, information management, and information management systems for the purpose of safe, competent and quality patient care. Women's College only.

[2 credits]

NUR-304 Healthy Aging

Explores the multiple dimensions of aging in America and in global societies. The course focuses on the foundations of healthy, successful aging based on national indicators, as well as the personal definitions and meanings of the older adult. Students will learn to support optimal promotion of health and wellness while exploring the care of those who might also be experiencing illness, recovery or the end-of-life. The complex relationships among person-health-nursing environment will be examined in depth. Women's College only. [3 credits]

NUR-305 Foundations of a Caring Profession

Builds upon previous classes in social and physical sciences, humanities, as well as lived experiences that students bring to the discipline of nursing. In this course, students are introduced to the caring profession of nursing through exploration of philosophical underpinnings, contributions from nurse theorists, and concepts of health and healing. Students develop ways of thinking and knowing, ways of being in relationships with self and others, and appreciation of providing technological care, compassion, and comfort to persons, families and communities. Through thoughtful integration of theory and reflective lived practice, students deepen understanding of the meaning of caring necessary for compassionate presence and technological skill in the art and science of professional nursing. Students are invited to a call to care and to a life-long commitment to nursing scholarship. This course has two components: theory (3 credits) and practice (2 credits). Women's College only. [5 credits]

NUR-307 Research in Nursing Practice

Introduces students to knowledge and skills that are essential for a consumer of nursing research. Examines use of the research process as a method to enhance scientific inquiry and to develop a knowledge base for nursing practice. Critical appraisal of both qualitative and quantitative methods in published nursing research is emphasized. Includes interpretation of basic descriptive and inferential statistics in published studies and evaluation of studies for nursing practice. Women's College only. Prerequisites: NUR-303. [3 credits]

NUR-308 Professional Nursing Care: Psychiatric/Mental Health

Provides opportunities for students to understand and care for persons who are experiencing

struggles in human living and major psychiatric and mental health problems. Through directed readings, narrative writing, classroom conversations, and engagement with patients in clinical settings, students focus on coming to understand what it is like to live through selected health states such as depression, bipolar disorder, anxiety, schizophrenia, psychoactive substance use disorders, and more. Emphasis on the lived experiences of persons with psychiatric illness allows for a focus on reflective ways of 'being-with' patients that integrates knowledge of psychobiology, pharmacology, and thoughtful, competent, caring nursing practice. This course has two components: theory (2 credits) and practice (2 credits). Women's College only. Prerequisites: NUR-301, NUR-303, NUR-305, NUR-310. [4 credits]

NUR-310 Pathopharmacology

Combines pathophysiology, the study of altered health status, with pharmacology, the study of medications prescribed to prevent, cure or treat pathophysiological conditions. Major health problems will be highlighted with an emphasis on caring for persons across the lifespan and their individual needs. Major drug classes and prototypical drugs are presented with specific application to nursing care within the nursing process. Women's College only. [4 credits]

NUR-311 Professional Nursing Care of the Adult I

Focuses on the integration of caring for adults experiencing commonly occurring health concerns using competencies that are directed toward health promotion, disease prevention and maintenance/restoration of health. Applying specialized knowledge, communication skills and therapeutic interventions, nursing students will develop relationships with patients/families which will foster partnerships directed toward holistic care. Beginning relationships with the intra/interdisciplinary team will be developed. This course has 2 components: theory (2 credits) and practice (2 credits). Women's College only. Prerequisites: NUR-301, NUR-303, NUR-305, NUR-310. [4 credits]

NUR-406 Contemporary Nursing Trends and Theory

Focuses on the use of nursing theory and contemporary challenges of providing and ensuring quality nursing and health care. Nursing process is reviewed with emphasis on evidence-based practice and health care today including current professional, legal and ethical standards. Prerequisite: NUR-307 or NUR-407. Women's College only. [3 credits]

NUR-408 Professional Nursing Care: Maternal and Infant

Focuses on holistic caring of childbearing families during pregnancy, labor and delivery, post-partum as well as care of the newborn. Students learn and apply evidence-based nursing theoretical concepts in the nursing care of women, newborns, and families in a variety of environments. The course builds upon courses in social and physical sciences, humanities and professional nursing care and provides opportunities for clinical ethical reflection. This course has two components: theory (2 credits) and practice (2 credits). Prerequisites: NUR-304, NUR-311, NUR-407 or NUR-307, NUR-410 or NUR-308. Women's College only. [4 credits]

NUR-409 Professional Nursing Care of the Adult II

Builds on concepts from NUR-311 in caring for adults experiencing complex health concerns using competencies related to health, illness, dying and death. Nursing students will apply advanced levels of knowledge, communication and interventions as they support patients/families experiencing more severe alterations in health. Relationships with intra/interdisciplinary team members will be integrated into individual nursing practice. This course has two components: theory (2 credits) and practice (2 credits). Prerequisites: NUR 304, NUR 311, NUR 407 or NUR 307, NUR 410 or NUR 308. Women's College only. [4 credits]

NUR-417 Professional Nursing Care: Children and Families

Focuses on caring for children and adolescents and their families who are experiencing physiological and psychsocial alterations in health as well as promoting health and wellness. Students engage in theory-based, evidence-based reflective nursing practice with children and adolescents in a variety of places to include inpatient pediatric units, outpatient clinics, and home. The course builds upon courses in social and physical sciences, human growth and development, humanities, professional nursing care, and offers opportunities to reflect on ethical issues concerning children and adolescents. This course has two components: theory (2 credits) and practice (2 credits). Women's College only. Prerequisites: NUR-304, NUR-311, NUR-407 or NUR-307, NUR-410 or NUR-308. [4 credits]

NUR-431 Community Health Nursing

Focuses on and explores theory, concepts, and practices of community/ public health nursing from a culturally sensitive perspective with an emphasis on vulnerable populations. Learners explore specific issues and societal concerns that affect public health, including healthcare needs of populations at risk. A reflection on nursing care of communities as social justice is

explored. Using assigned service learning settings, learners will assess community health needs, plan health promotion and disease and injury prevention interventions through the application of selected behavioral change theories. This course has two components: theory (3 credits) and practice (2 credits). Women's College only. Prerequisites: NUR 312 or NUR 417, NUR 406, NUR 408, NUR 409 [5 credits]

NUR-432 Caring Nursing Leadership

Integrates previously learned nursing knowledge and skills with contemporary leadership and management theories, to assist the student to personify the professional role as a leader in the healthcare environment as a baccalaureate-prepared nurse. Theories of leadership, management, and organizational behavior are introduced along with practical applications for the workplace to help students analyze the process to professional nursing. Women's College only. Prerequisites: NUR 406 [3 credits]

NUR-461 Clinical Practicum

Engages students in comprehensive clinical practice with patients in one of a variety of practice settings. Opportunities are provided for students to assume responsibility, in the context of theory-based, evidence-based reflective practice, for the holistic care of assigned patients in a select health care setting. With the guidance of a preceptor who is on staff in the facility, the student collaborates with all members of the health care team in the planning and care of her patients and transitions from nursing student to entry-level professional nurse. Practice settings include, but are not limited to, care of persons in emergency departments, medical-surgical units, homeless shelters, outpatient clinics, critical care units, and labor and delivery units. The focus of the practicum is on intentionally bringing together knowledge and understanding of pathophysiology, social justice, ways of being in relationship with self and others, and excellence in technological caring-toward compassionate, transformative care with persons, families and communities. -155 hours. Prerequisites: NUR 312 or NUR 417, NUR 406, NUR 408, NUR 409. Women's College only. [6 credits]

Degrees offered

Major

Campuses

Main Campus

The School of Nursing offers a RN to BSN (Bachelor of Science in Nursing)

Program to students admitted through the College of Adult Undergraduate Studies (CAUS). Designed for practicing registered nurses, the program challenges women and men to strive for intellectual and professional excellence, to build inclusive communities, to engage in service to others and to promote social responsibility.

Summary

The Nursing Program of Study builds on registered nurses' prior education and clinical experiences and prepares them for the challenges and opportunities of the contemporary health care environment. Through Notre Dame's innovative curriculum, RN professional opportunities are expanded in as few as two and a half years of part-time study, or one year of full-time study.

The Nursing Program is approved by the Maryland Board of Nursing and is accredited by the Commission on Collegiate Nursing Education (655 K Street, NW, Suite 750, Washington, DC 20001; Phone: 202-887-6791).

Notre Dame's **RN to BSN program is offered through an accelerated format.** Students begin their Program of Study with an upper-level Nursing course designed to assist students with the transition to baccalaureate nursing education. Nursing courses are embraced by a liberal arts curriculum. Students must complete a minimum of 120 credits and all University and Nursing requirements to earn the Bachelor of Science degree. The curriculum requires: 24 general education credits, 21 departmental requirement credits, and 31 upper-level Nursing credits earned at Notre Dame. Students may transfer up to 68 credits, in addition to receiving 30 extra credits per the Maryland Nursing Education Articulation Model.

All Nursing courses meet in four-hour sessions on the same day of the week and at the same four-hour time frame during the entire Program.

Maryland Nursing Education Articulation Model

Notre Dame of Maryland University is a participant in the Maryland Nursing Education Articulation Model.

All registered nurses admitted to the University will enter under the terms of this model, as they apply to Notre Dame of Maryland University's Nursing Program.

All Registered Nurses (RNs) or students who plan to take NCLEX-RN for licensure or are currently licensed and admitted to Notre Dame of Maryland University will enter under the following terms:

- A maximum of 68 credits will be accepted in transfer;

- No community college nursing credits will be transferred;
- All RNs with an active license in Maryland or a compact state will be granted 30 upper-level Nursing credits per the Maryland Nursing Education Articulation Model; and,
- RNs will complete the remaining 31 upper-level nursing credits and any additional program requirements through Notre Dame of Maryland University.

Note: Students potentially could start at Notre Dame with 98 credits, i.e. up to 68 accepted as transfer credits + 30 credits per the Maryland Nursing Education Articulation Model.

Credits Needed from Notre Dame

A minimum of 30 earned credits from Notre Dame of Marylyand University is required for graduation. The final 30 credits for the degree must be earned at Notre Dame of Maryland University.

Specific course requirements for the accelerated Bachelor of Science degree with a Major in Nursing include:

General Education requirements (24 Credits)*

200-level Philosophy (3)
200-level Religious Studies (3)
300-level Philosophy (Ethics or Moral Issues) (3)
300/400-level Religious Studies (3)
English Composition (3)
Literature (3)
History (3)
Math (Basic Statistics) (3)

**The General Education Requirements for Natural and Social Sciences are part of the Department requirements.*

Please Note: As part of the degree program (120 credits) at least one course must be focused on Gender Studies and one on Cross-cultural Studies. Students who take the upper-level Religious Studies course as part of the accelerated sequence will fulfill the Gender Studies requirement through that course. The Cross-cultural Studies requirement will be fulfilled through the upper-level nursing course NUR-412 *Population Health through a Caring Lens*. NUR-412 is a required course for the Nursing Major. Students who have earned an associate degree prior to admission to the University are exempt from the Gender and Cross-cultural Requirement. However, most students will need to complete the upper-level Religious Studies course at NDMU in order to fulfill General Education Requirements;

Department Requirements for the Nursing Major (21 credits)

Core

Human Anatomy & Physiology (6-8)*
Microbiology (3-4)*
Introduction to Psychology** (3)
Human Growth & Development ** (3)
Introduction to Sociology (3)
Genetics and Genomics for Clinical Practice (3)

*Lab Required
**Challenge Exam Available

Upper-level Nursing credits from ADN or diploma program granted through Maryland Nursing Education Articulation Model (30 credits)

Upper-level Nursing courses at Notre Dame (31 credits)

NUR-300 Foundations of Caring Science (1)
NUR-302 Caring Approaches to Practice (3)
NUR-306 Writing for Professionals (1)
NUR-319 Holistic Health Assessment & Nutrition Across the Lifespan for Professional Nurses (5)
NUR-400 Information Systems for Caring Practice (3)
NUR-411 Healthy Aging for Professional Nurses (3)
NUR-412 Population Health through a Caring Lens (4)
NUR-420 Nursing Research for Professional Nurses (3)
NUR-440 Caring Nursing Leadership for Professional Nurses (3)
NUR-450 Capstone Experience (2)

One Nursing Elective:

NUR-314 Nursing Situations in Palliative Caring (3) or

NUR-315 Advocacy, Politics and Power (3) or

NUR-316 Spirituality in Nursing Practice (3)

Accelerated Format

RNs with Associate Degrees in Nursing can complete all remaining requirements for the bachelor's degree in two and a half years as a part-time student, or one year as a full-time student. With the accelerated format, students complete several courses over the time frame of an academic semester,

usually enrolled in one course at a time. Courses in the accelerated format are offered in 8-week sessions (generally 6 weeks during the summer) at times convenient for working students. Cohort meeting times may be scheduled mornings, afternoons, or evenings on weekdays. Courses in the accelerated format are sequenced in an academically sound order that is designed to foster student success in the Program.

International/Study Abroad Opportunities

Special topics in Nursing may be taken in partial fulfillment of select Nursing courses. Contact the School of Nursing at 410-532-5526 for more information.

Licensure

Students may start the RN to BSN program of study at Notre Dame without a RN license. However, students must have an **active** unencumbered Maryland or compact RN license before enrolling in Notre Dame coursework that incorporates experiential learning components with Notre Dame's practice partners, *and/or* a designated capstone course.

Policies

In addition to the policies and procedures in this Catalog, all students are responsible for the policies and procedures in the current *School of Nursing RN to BSN Student Handbook* that is located in on the School of Nursing homepage under Resources.

Courses

NUR-300 Foundations of Caring Science

Explores human caring science as a foundation of the discipline and profession of nursing. In this course RN-BSN students have the opportunity to reflect on lived practice experiences through multiple ways of knowing and examination of caring as a way of being. Implications for transformational practice, education, and research are addressed. [1 credit]

NUR-302 Caring Approaches to Practice

This three-credit course is designed to explore various aspects of professional nursing practice. Learning experiences will include caring ways of being present to our patients, peers, and families. Students will also engage in the exploration of practice standards, ethical ways of being, linkages

between theory/practice, multiple ways of knowing, reflective practice, and current trends in nursing. Upon completion of the course, students will have had the opportunity to refine their abilities to communicate through scholarly writing and informative presentations. [3 credits]

NUR-306 Writing for Professionals

This course is designed for students to develop proficiency in information access and evaluation skills. The principles and techniques of scholarly writing along with other types of writing used by professional nurses will be introduced. Students will transform information into clear scholarly narratives. [1 credit]

NUR-314 Nursing Situations in Palliative Caring

Grounded in caring science, this three-week online course focuses on promoting holistic patient and family assessment and nursing care in the context of chronic and life-limiting illness. The role of the nurse in communicating with the patient, family, and interdisciplinary team will frame an exploration of personal beliefs and practices that inform the provision of palliative care. The framework of *The Nursing Situation*, as well as the End of Life Nursing Education Consortium (ELNEC) curricular framework will guide examination of the practice of palliative care, including pain and symptom management, pharmacology and complementary alternative methodologies, ethical issues, communication, and cultural competency will all be explored. The practice of palliative care nursing, within the context of a variety of cultures and among vulnerable populations will be considered. [3 credits]

NUR-315 Advocacy, Politics and Power

This course prepares the student to critically evaluate the ethical, socioeconomic, political, legal, and power considerations influencing health care policy. An emphasis on professional values, advocacy, and political activism assists the student to become influencers in policy formation. Students will create an advocacy toolkit focused on a specific health policy, with the goal of exploring the role of the nurse in identifying, analyzing, and influencing policy at the local, state, federal and/or global levels. [3 credits]

NUR-316 Spirituality in Nursing Practice

This course will examine the concept of spirituality within nursing practice and its significance to patient care through an exploration of spiritual assessments, interventions, coping strategies and religious customs/beliefs. Students will learn to identify the spiritual needs of patients within a variety

of settings and examine the relationship between religion and spirituality to promote a healing environment for the patient. Students will reflect on their own spiritual beliefs and practices to cultivate a deeper connection with spirit and the one-being-cared-for. Self-care for the caregiver will be emphasized throughout the course to foster loving-kindness and compassion within the context of caring practice. [3 credits]

NUR-319 Holistic Health Assessment and Nutrition Across the Lifespan for Professional Nurses

This course introduces the student to knowledge and skills essential for holistic health assessment through a lens of caring science and an emphasis on social determinants of health. The student will practice assessment and interviewing skills in the Center for Caring with Technology. The student will analyze both subjective and objective data and document findings in an appropriate format. Students will enhance their abilities to conduct a culturally sensitive assessment. Nutrition principles will be reviewed for populations across the lifespan. [5 credits]

NUR-400 Information Systems for Caring Practice

In this RN to BSN course, learners will explore the relationship between nurse and technology. Information systems used in nursing and healthcare and their application to patient safety and quality improvement through the lens of caring science will be introduced. Learners acquire technical skills needed for this application of patient care technologies and competency in information literacy, information management, and information management systems for safe, competent, and quality patient care. [3 credits]

NUR-411 Healthy Aging for Professional Nurses

In this course, students will explore healthy aging through the lens of caring science. The course will provide an examination of theories, trends, and research related to aging and nursing care of older adults, with an emphasis on health promotion and health disparities of aging. Students will be encouraged to become advocates for older adults within healthcare and the greater community, examining economic and policy implications that shape models of care. Students will gain knowledge that will better enable them to eliminate health disparities among older adults, and develop nursing care strategies that improve the care and health of older adults within the acute healthcare system, institutionalized settings, and in the community. The course will also prepare students to develop nursing care strategies that promote healthy aging for individuals throughout the lifespan. [3 credits]

NUR-412 Population Health Through a Caring Lens

Grounded in caring science, this course focuses on promoting and protecting the health of the public using health promotion, risk reduction, and disease management and control strategies. Community assessment, epidemiologic, change, political action, and case-management frameworks are used to guide evidence-based nursing care delivery to persons, families, and populations in community settings. The role of social determinants of health will be explored; cultural competency, social justice, and advocacy will be discussed as strategies for the elimination of health disparities. [4 credits]

NUR-420 Nursing Research for Professional Nurses

This course introduces learners to knowledge and skills essential for a consumer of nursing research. It examines use of the research process as a method to enhance scientific inquiry and to develop a knowledge base for nursing practice. Critical appraisal of both qualitative and quantitative methods in published nursing research is emphasized. Research on caring will be the central theme. [3 credits]

NUR-440 Caring Nursing Leadership for Professional Nurses

This course integrates previously learned nursing knowledge and skills of caring and contemporary leadership and management theories and processes, enabling learners to define more clearly their roles as baccalaureate-prepared nurses. Learners analyze health care environment challenges of changes in focus to population health, economic realities, opportunities for continued professional development, and leadership/management challenges created by increasingly complex healthcare environments. Knowing one's-self, appreciating the diversity of the workplace and communities, caring for vulnerable and marginalized populations, and using caring science as a basis for leadership in nursing and healthcare are woven throughout the course. [3 credits]

NUR-450 Capstone Experience

Building on previous learning in the curriculum and blending with leadership experiences, students will use the lens of caring science to analyze their current way of being with patients, colleagues, employers and the community at large. Being present in these relationships, students will use scholarship to investigate an area where relationships or processes could be improved with a focus on self-care, quality and/or safety. Each student will design a project that, if implemented, could improve praxis and advocate for change in the workplace. Using leadership skills, the student will determine the best way to communicate the proposed project. Reflective practice will be used throughout the course to focus on the program outcomes of presence, praxis, advocacy, scholarship, self-care, and leadership as it relates to their project. [2 credits]

Special Academic Programs

The Elizabeth Morrissy Honors Program
The Transformational Leaders Program
Student Designed Major

The Elizabeth Morrissy Honors Program

Jeana DelRosso, Ph.D., *Director*

Learn to Live

The Elizabeth Morrissy Honors Program is designed to meet the needs and interests of Women's College students of outstanding academic ability and high motivation. The goal is to provide opportunities for students to experience the same challenge and excitement in education that Elizabeth Morrissy encouraged throughout her distinguished 40-year career as a professor of History, Political Science and Economics at the Notre Dame.

Morrissy courses are designed to create small learning communities of scholars exploring a topic together and enjoying the pleasure of mutual discovery and intellectual stimulation. Some courses are offered within specific disciplines and may meet general education requirements. Other courses are interdisciplinary and become electives within the student's Program of Study. Drawn from a variety of departments, Morrissy courses promote the integration of knowledge which offers new insights into students' learning. This integration is often accomplished by two professors teaching together to provide perspectives from different disciplines and to enrich the experience of all. Through the Program's research, internship, service, leadership and collaborative opportunities, students are empowered to use their knowledge to improve the quality of their lives and the lives of others.

Students become Morrissy scholars by application or invitation. Students applying for admission to Notre Dame may apply for admission to the Morrissy Honors Program. The Morrissy Honors Council reviews the records of those applicants and of other incoming first-year students to prepare a cohort of potential scholars. In addition to selection at entrance, each semester the director of the Morrissy Program asks for recommendations from the faculty for other potential

scholars to be considered for invitation into the program.

Students must register for at least one honors course per year and take six honors courses during their four years at the University. Those who are enrolled in "3/2" programs with other institutions or who spend a semester or year studying overseas need to complete a minimum of 5 honors courses. Transfer students from an honors program may transfer nine honors credits. Transfer students with an AA degree from a community college without an honors program need to complete a minimum of 4 honors courses. Three credits of honors work may be taken as an independent study with the approval of the sponsoring faculty member and the Morrissy director. Students are expected to maintain a 3.3 overall average and a B average in honors courses to remain in the program. Honors courses cannot be taken on a pass/fail basis. The director reviews the records of Morrissy scholars at the end of each semester.

Morrissy scholars receive recognition in various ways. Honors courses are so designated on student transcripts. Completion of the program is noted on scholars' final transcripts and diplomas and in the Commencement program. Students in the Morrissy Program are also recognized publicly at Notre Dame's annual Honors Convocation. Students in the Program enjoy the special benefits of the Mildred Otenasek Honors House, which stands as a symbol of the Program and serves as a gathering place for social, academic, and program activities.

In addition to special courses, Morrissy scholars have access to a variety of honors activities. Each semester, the director hosts a dinner for Morrissy scholars and honors faculty. Each year, the Honors Program sponsors off-campus trips to museums and performing arts events. Morrissy scholars often serve the University during programs planned for prospective students visiting campus as well as at lecture series or cultural events offered for the Notre Dame community and the general public. Members of the Morrissy Honors Student Executive Board assist the Morrissy director in making plans for the program.

The Elizabeth Morrissy Honors Program maintains memberships in the National Collegiate Honors Council, the Northeast Regional Honors Council, and the Maryland Collegiate Honors Council. Morrissy scholars regularly participate in honors conferences through poster and paper presentations.

Honors Course Descriptions

ART-279 Honors: Concepts in Visual Aesthetics
Introduces new ideas and concepts stemming from a particular period and/or movement in society, becoming the "fireworks" that stir the artistic spirit to react to those ideas consciously, vibrantly, intuitively and with unique creativity. This class will use audio-visuals, readings and shared dialog to examine works of art and varied aesthetic concepts. It will address the artist as a gendered translator of history, as a visionary, and as a social documentarian within the context of

significant periods in Western art. Prerequisite: Morrissy scholar or permission. Fulfills the general education requirement in fine arts. [3 credits]

BIO-108 Honors: Natural History
Examines the contributions made by natural historians over the past 200 years, including Charles Darwin, Konrad Lorenz and Stephen Jay Gould. Readings and discussions will focus on topics including mechanisms of evolution, the fossil record and animal domestication. Students will consider how natural history has contributed extensively to theories of biological evolution. Prerequisite: Morrissy scholar or permission. [3 credits]

BIO-239 Honors: Genetics
Meets concurrently with and considers the same subject matter as BIO-239 (non-Honors). Honors students meet for one hour extra per week to concentrate on the historical and social aspects of genetics. Four hours lecture and three hours laboratory. Prerequisites: BIO-111 and CHM-110 with a minimum grade of C. [4 credits]

BIO-308 Honors: Geology and Ecology of the American West
Focuses on the basic concepts of plate tectonics and applies them to the geological events that shaped the American West. Focuses on the relationships between the plants and animals of the American West and their environment. Develops connections between the geology and ecology of the area. Integrates current ecological problems of the area such as water regulation, mining and logging. Lecture and laboratory are integrated into three two-hour sessions. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in natural science. Designed for non-science majors. [4 credits]

COM-329 Honors: Women in Mass Communication History
Engages students in an historical-critical study of the role of women in the communication fields of broadcasting, journalism, public relations and advertising. Surveys their contributions as practitioners and the challenges they have met as part of the professional media culture. Offers opportunities to meet women working in the media and to participate in an oral history project. Fulfills general education requirement in history and gender studies. [3 credits]

ECO-220 Honors: Economics and Contemporary Issues
Applies economic principles and methodologies to the decision-making process of individuals, businesses and governments. Evaluates current political, social and economic events using basic economic theories and principles. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

ECO-330 Honors: Food Safety Risk Analysis
Analyzes the extent and significance of food-borne diseases in the United States and around the world. Examines the most important hazards to food safety, including food additives and

pesticides, microbial hazards, irradiation, and food defense as well as science-based solutions to their management. Considers the interdisciplinary risk analysis paradigm as a modern approach to food safety systems in considerable detail. Prerequisite: Morrissy scholar or permission. [3 credits]

ENG-251 Honors: Ethnic American Literature
Examines works by writers of different ethnic groups in 20th century America, with emphasis on African-American, Asian-American, Jewish-American, Native-American and Latino/a writings. The course will provide interdisciplinary approaches to literature; readings will come from several literary genres, including novels, short stories and poetry, but students will also read theory and criticism relevant to recent work in ethnic studies. The course will teach students to read and write about literature, and it will introduce many of the important works of 20th century American minority literature. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature and cross-cultural studies. [3 credits]

ENG-313 Honors: Thomas Hardy: Novelist and Poet
Provides an in-depth study of English writer Thomas Hardy (1840-1928). Hardy is known as a Victorian novelist and a modern poet; his work thus crosses literary (generic) and historical boundaries. Students will read selected novels and poems as we trace Hardy's career and examine literary topics such as serial publication, the circulating library, and censorship, along with themes such as the Victorian "Woman Question," the part-real, part-invented land of Wessex, social class, law, and the "ache of modernism" in his later novels. Students will engage in primary (letters, notebooks, etc.) and secondary (critical) research as they explore these and other topics in two research projects during the semester. The course emphasizes the process of writing a research paper. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature. [3 credits]

ENG-324 Honors: The Irish "Troubles": Literature, History and Film
Examines, from a variety of perspectives, the Irish "Troubles," that is, the violent political conflicts between Irish and English in the early 20th century and between Catholics and Protestants in Northern Ireland in the late 20th century. Explores literary and cinematic treatments of the conflict and compares them with historical accounts in order to arrive at a better understanding of the "Troubles." Students will discuss the treatment of the "Troubles" in the plays of Sean O'Casey and Brian Friel, the poetry of W.B. Yeats and Seamus Heaney, the fiction of Frank O'Connor, Liam O'Flaherty, Eugene McCabe and others, and the memoir, *Guerilla Days in Ireland* by Tom Barry. Students will also view several films, including "Michael Collins" and "Bloody Sunday." Prerequisite: Morrissy scholar or permission. [3 credits]

ENG-347 Honors: “New Woman” Literature
This course will examine selections from the body of writing known as New Woman literature in

England during the 1880s and 1890s, along with selected works from American and European writers. New Woman novels, essays, and plays address what was called "the Woman Question" and its primary issues, e.g., women's independence, the "nature" of women, women's roles and responsibilities, the effects of women's independence, sexual relations and gender differences. The course will follow the development of the New Woman character and will examine common conflicts and themes among the various representative works. Prerequisite: Morrissy scholar or permission. Fulfills General Education requirement in literature. [3 credits]

ENG-360 Honors: Geek Lit

Epithets such as geeks, dorks, nerds, and dweebs were once pejorative labels designed to stigmatize individuals. With the rise of the digital age, however, some people have self-selected identification in these categories, developing a distinctive subculture. But is there an identifiable geek literary culture? Is there a geek canon? We will consider themes of escapism, social alienation, intellectual superiority, conspicuous consumption, and the effect of technology on human nature in a series of texts often associated with the geek. Authors studied in this class may include J.K. Rowling, J.R.R. Tolkien, Neal Stephenson, Douglas Adams, Harlan Ellison, Neil Gaiman, and Allan Moore, among others. Our texts will extend into non-print media, including digital and Internet phenomena. We will be investigating these texts with the same scholarly rigor and intensity with which we would consider any body of literature. Thus, this course is suitable for geeks themselves as well as the geek-curious. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature. [3 credits]

ENG-440 Honors: Women and/as Monsters in Literature and Culture

Women's writings, as well as women writers themselves, have historically been viewed as "monstrous"; this course investigates the notion of monstrous women, as well as women writing about monsters, by examining both female- and male-authored, canonical and non-canonical texts, primarily but not exclusively from the past two centuries. We will investigate some of the following questions: What is the connection between women and monsters in literature? In what ways, and why, has women's writing been considered monstrous? How do issues of gender, race, class, ethnicity, nationality, disability, and sexual orientation affect the literary connection between women and monsters? Who is included in and excluded from a society, what makes one human, what is natural and unnatural, and what do particular monsters show about the societies and cultures that describe them, define them, fear them? Writers studied may include Charlotte Brontë, Octavia Butler, Angela Carter, Henry James, Toni Morrison, Marge Piercy, and Mary Wollstonecraft Shelley. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature and gender studies. [3 credits]

HIS-200 Honors: The Age of Genocide

Examines the nature, causes, and consequences of genocide in order to understand the possibilities and challenges of preventing genocidal violence in the future. The course introduces

students to the controversies surrounding the definition and analysis of genocide. It begins with the contested question of what constitutes genocide, and how genocide stands apart from other forms of mass violence such as ethnic cleansing and massacres. The course then considers several approaches to theorizing the causes of genocide. In addition, we analyze the challenges of identifying potentially genocidal situations before the killing begins and of intervening to prevent and stop genocides. The course also studies processes of reconciliation in societies that have experienced, or teetered on the brink of, genocide. Using scholarly texts, works of fiction, and films, we explore issues of causation, intervention, and healing in cases including the colonial genocides of indigenous populations, the Holocaust, Rwanda, Cambodia, Bosnia, Kosovo, the Iraqi Kurds, and Darfur. Ultimately, the course asks students to decide whether genocide is an inevitable scourge of the human condition or a tragic aberration that humanity has the power to transcend. Prerequisite: Morrissy scholar or permission. Fulfills General Education requirement in history. [3 credits]

HIS-231 Honors: Traditional Japan through Literature and Art
Introduces students to pre-modern Japan (ca. 600-1800 CE) by means of highly evocative literature in excellent English translations. Approaches these readings as reflections of successive historical eras, as literature of universal appeal, and as examples of the development of Japanese aesthetics. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-352 Honors: Educating Women in the United States
Examines women's education from the colonial period through the mid-20th century. Pays particular attention to the contributions of key educators and on the ways race, class, ethnicity and gender shaped decisions about who was to be educated, by whom, and for what purpose. Assesses contemporary issues in women's education. Prerequisite: Morrissy scholar or permission. Fulfills the general education requirements in history and gender studies. [3 credits]

HIS-370 Honors: The City in History
Considers the reality that, before 1800, most people everywhere lived in rural villages or small towns, in a world of long-familiar faces. More recently, many have lived in cities of more than one million in population in what one sociologist calls a "world of strangers." What difference does it make? How does society control individuals in a big city? How do individuals experience urban life? Social scientists have long debated these questions, and the course examines the major answers that they have proposed. It also considers the implications of those answers for the solution of today's city problems. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-373 Honors: The Exploding Society: United States, 1950 to the present
Explores the quantitative and qualitative explosion in the United States after 1950. Considers

rapid demographic movement, economic growth, dramatic social change and expanded international responsibilities. Considers post-Watergate disillusionment. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in history. [3 credits]

HIS-402 Honors: Women, War and Peace
Examines the wartime experiences of women in Europe, the United States and Asia. Addresses question of how perceptions of women and "female nature" inform attitudes about women's wartime roles. Uses historical monographs, literature, art and film to examine and evaluate the relationship between war and gende Also assesses women's role in the international peace movement. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and gender studies. [3 credits].

NDMU-100 Honors: First Year Seminar
Provides a comprehensive view of related topics defining the college experience. Explores through readings, films and discussion such topics as personal culture, educational culture, cultural diversity and lifelong learning. For first-year Women's College students and transfer students with fewer than twelve (12) credits. Prerequisite: Morrissy scholar or permission. Fulfills ENG-101 writing requirement. [3 credits]

IDS-172 Honors: The Axial Age: Philosophy of East and West
Considers the new ways of thought that emerged in the ancient Near East, Greece, India and China during the first millennium B.C. ("the axial age"). Thinkers reconsidered basic areas of concern—the transcendent, human nature, the family, society, government, knowledge, the past and death—in relation to the pre-existing culture. For example, this re-interpretation of tradition led to the rise of Biblical Judaism in the Near East; classical philosophy in Greece; the Upanishads and Buddhism in India; and Confucianism and Daoism in China. In this seminar, students discuss the thought of the "axial age," compare ideas across civilizations and learn how to write philosophical essays. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in lower-level philosophy. [3 credits]

IDS-231 Honors: The Science of Science Fiction
Considers science fiction as a literature of ideas—the ideas of modern science. Selects contemporary science fiction writers and film makers in order to gain a perspective on the development of a fiction of scientific ideas and a prophecy of future technological change. Employs reading, film and the campus planetarium. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-271 Honors: Romanticism: The Beautiful Infinite
Analyzes seminal works of the 19th century Romantic movement in the fields of art and music. The relatedness of the two forms is revealed through discovery of common themes running through works of the Romantic period—the emancipation of the individual, the love of nature,

nationalism, and fondness for the fantastic and the exotic. Common qualities of expression found among the two art forms during the period also emerge, providing a holistic sense of the intellectual and artistic atmosphere of the times. Opportunities for visits to museums, concerts, and theatre or opera performances are provided. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in fine arts. [3 credits]

IDS-369 Honors: Genethics
Provides students with the opportunity to understand and evaluate various religious and philosophical positions and arguments on a range of contemporary moral issues related to biotechnology. Explores the science of genetics and its application to the fields of biology, technology and medicine. Examines selected topics in the ethics of genetic testing, research, drugs and therapy. Prerequisite: Morrissy scholar or permission and RST-201. Fulfills general education requirements for upper-level religious studies and values. [3 credits]

IDS-373 Cosmos and Creation: Religion and Science
Explores the relationship between religion and science as bodies of knowledge, modes of inquiry, and ways of knowing. Examines the complex history of science and religion as social institutions in various degrees of cooperation and tension. Areas of inquiry will include theology, spirituality, scientific theories, and philosophy of science, as well as the intersection of these areas at key historical moments such as the Copernican revolution, natural selection, and the development of quantum physics. Prerequisite: RST 201. Fulfills general education requirement for upper-level religious studies. [3 credits]

IDS-378 Honors: The Holocaust
Explores the roots of anti-Semitism and the rise to power of the Nazis. Considers the development of the German policies toward the Jews, from economic discrimination to planned extermination, the fate of Jews in various countries under German control, and the possibility of resistance and opportunities for rescue. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-471 Honors: Politics and Ethics of War and Peace
Explores war and peace through an examination of historical conflicts, social science explanations, ethical positions and alternative peace proposals. Considers 20th century conflicts and alternative explanations of war, and the individual, state and international levels. Compares and contrasts ethical positions from several religious and philosophical traditions. Prerequisite: Morrissy scholar or permission and RST-201. Fulfills general education requirements in upper-level religious studies, values, and history. [3 credits]

IDS-479 Honors: Philosophy through Literature
Takes a fresh look at traditional philosophical problems using classic philosophical texts and literary works that deal with common issues. Considers the questions: What is self? Is there an

answer to the problem of evil? Are our actions free or determined? Are there any objective moral values? Is the material world real? Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in upper-level philosophy. [3 credits]

LCO-378 Honors: From Homer to *Star Wars*: The Epic Tradition in Western Literature
Traces the evolution of the epic as a literary genre transcending national and cultural boundaries. Epics from Homer and Virgil through the romance epics will be analyzed, culminating in a study of epic characteristics in Star Wars. Prerequisite: Morrissy scholar or permission. [3 credits]

MUS-243 Honors: A Musical Mosaic
Focuses on representative musical compositions and related works of art in Western and non-Western cultures. An exploration of the varied elements which, through individual creativity, hold parts (not always compatible) together to form the sound structure that becomes the mosaic that is music. Develops the aural sense of formal structure and the visual sense of sound. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in fine arts. [3 credits]

PHL-301 Honors: The Mind-Body Problem
Introduces students to the problematic nature of the statement "our minds control our bodies." Identifies the philosophical and psychological assumptions underlying this statement. Examines the contradictions and unrecognized implications of these assumptions. Explores alternative accounts of what is known, in philosophy and psychology, as mind-body interaction, including accounts that deny the existence of mind, and/or provides alternative models. Prerequisites: IDS-172 or PHL-201 and PSY-101. Fulfills general education requirement in philosophy. [3 credits]

PHL-376 Honors: Human Flourishing
Requires students to examine, in a seminar format, the representations of human flourishing presented in Ancient philosophy and literature. Ancient texts, such as Homer's *Odyssey*, Plato's dialogues, Aristotle's Nicomachean Ethics, and Greek tragedies present myriad understandings of the relationship between moral goodness, luck, and human flourishing. These topics will be studied with a focus on primary texts, hand in hand with contemporary philosophical writings on relevant themes. Prerequisite: Morrissy Scholar or permission and 200-level PHL course. Fulfills general education requirement in upper-level philosophy. [3 credits]

PHL-471 Honors: Morals and Mortality: Ethics of Exiting
Considers the structure and foundations of morality with special emphasis on ethical problems related to death and dying. Prerequisite: PHL-201, Morrissy scholar or permission. Fulfills general education requirement in upper-level philosophy and values. [3 credits]

PHY-101, 102 Honors: General Physics I, II
Studies the fundamental physical laws of nature and their use in understanding natural phenomena. Provides a knowledge base for study in all the sciences and applications in

mathematics. Topics include mechanics, acoustics, optics, electricity and magnetism. Three lectures, one three-hour laboratory weekly. Pre-requisite: Morrissy scholar or permission. Fulfills general education requirement in natural science. [4 credits each semester]

POL-370 Honors: Model OAS

Prepares students to participate in the Model Organization of American States (Model OAS) competition, which takes place at OAS headquarters in Washington, D.C. in the spring. A team of 10 Notre Dame students, representing an assigned country, debates other colleges and universities from the United States, Latin America and the Caribbean on issues such as democratization, regional integration, poverty, environmental problems and human rights issues. In addition to becoming familiar with hemispheric issues, students learn leadership, cooperation, persuasion and diplomatic skills. Prerequisite: Morrissy scholar and permission. Fulfills general education requirement in social science and cross-cultural studies. [3 credits]

PSY-371 Women and her Symbols

Explores symbols and symbolism related to women through interdisciplinary lenses of psychology, philosophy, literature, politics, sociology, religious and cultural traditions, and art. Students will critically examine, analyze, and discuss the use of symbols in understanding women from psychological and spiritual perspectives. The use of symbols will be explored through theories, scientific evidence, cultural and religious rituals, art, and literature. Students will complete an integrative project. Prerequisite: Morrissy Scholar or permission from instructor and Morrissy Program Director. Fulfills general education requirement in social science and cross-cultural studies. [3 credits]

RST-471 Honors: Theological Investigations

Engages students in the exploration of current scholarship about a person, event or topic of religious or theological significance. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement for upper-level religious studies. [3 credits]

PSY/SOC-271 Honors: Psychology and Sociology of Gender Roles

An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

SOC-371 Honors: Social Problems

Considers how social conditions come to be defined as social problems. Reviews causes and theoretical explanations for their origins and possible interventions to resolve social problems. Topics include substance abuse, family violence, environmental issues, discrimination, crime and

terrorism. Prerequisite: Morrissy scholar or permission. [3 credits]

Back to top

The Transformational Leaders Program

Anne Ellen Henderson, Ph.D., *Coordinator*

The Transformational Leaders Program is offered to students in the Women's College. It embodies the University's commitment to the mission of its founders, the School Sisters of Notre Dame, to educate women to transform the world. The Transformational Leaders Program prepares students to be catalysts for positive social change. Through a combination of interdisciplinary coursework, internship and service learning experiences, international study opportunities, and professional development activities, students gain the expertise to become leaders who make change happen. Students in the Transformational Leaders Program earn a certificate in Leadership and Social Change. The Program can be combined with any Major, and is designed to complement a variety of Programs of Study.

Students begin the Transformational Leaders Program by completing a one-credit Emerging Leaders Lab, generally during their first year. This course builds students' project management skills and teamwork capabilities through service initiatives. The Program continues with IDS-200, Foundations of Leadership, which combines theoretical analysis of leadership with practical leadership-building experience. From approved options, students also select three discipline-based courses related to change-oriented leadership. Students participate in an internationally-oriented Professional Connections Experience designed to strengthen their global perspectives, enhance their understanding of cultural diversity, and provide hands-on career development opportunities. The Professional Connections Experience involves six credit hours of study abroad or service learning in a multinational or multicultural organization. The Program culminates in a capstone leadership seminar, IDS-410, which integrates academic research with a social change project. During the Program, students are also invited to participate in professional networking and workshop activities to help them build the contacts and the expertise relevant to their particular leadership interests.

As part of the Transformational Leaders Program, students develop leadership portfolios which, along with the record of their academic achievements, serve to demonstrate their development as leaders. Students' leadership portfolios are submitted to the program coordinator in their senior year. Portfolios must be approved for seniors to receive the Leadership and Social Change Certificate.

Program of Study

(Consult the program coordinator for the latest information on approved courses)

Required Courses (Credits)

IDS-100L Emerging Leaders Lab (1)
IDS-200 Foundations of Leadership (3)
IDS-410 Seminar: Leadership and Social Change. (3)
Off-campus experience: study abroad or service learning in a multinational or multicultural organization (6)

Three courses (at least two of which are at the 300/400 level) from among the following:

Social Issues and Values

Students choose two of the following courses:

BIO-115 Environmental Science (4)
BIO-307 Ecology (4)
ECO-220 Honors: Economics and Contemporary Issues (3)
ECO-440 Environmental Economics (3)
EDU-402 American Education in Historical Perspective (3)
ENG-327 Contemporary World Literature (3)
POL-324 Women, Politics and Law (3)
POL-440 Global Issues (3)
PSY-375 Sex and Gender (3)
RST-304 Christian Social Ethics (3)
RST-345 Justice and Peace. (3)
RST-403 Problems in Discrimination and Prejudice. (3)
RST-424 Ecology and Theology (3)
SOC-209 Race, Class and Gender (3)
SOC-271 Honors: Sociology of Gender Roles (3)
SOC-301 Social Justice (3)
SPE-326 Special Education for the Classroom Teacher (3)

Group/Organizational Leadership

Students choose one of the following courses:

ART-322 Picture Story (3)
BUS-394 Organizational Behavior (3)
COM-303 Intercultural Communication (3)
COM-331 Public Relations (3)

COM-382 Gender and Communication (3)
COM-403 Organizational Communication (3)
IDS-430 Women in Science and Technology: A Washington Seminar (3)
POL-317 Civic Participation and Leadership (3)
POL-370 Honors: Model OAS (3)
POL-411 Women and Public Policy (3)
SPE-237 Communication Skills for the Special Educator (3)

Student-Designed Major

The purpose of the student-designed Major is to allow a limited number of Women's College students with specific academic goals, interests, and needs an opportunity to pursue an area of study that is not presently offered by the University.

A student proposing a student-designed Major should have a minimum cumulative GPA of 2.5. She must have at least two faculty advisors, one of whom is designated as the primary advisor. The proposed Major should include:

a) number of credits equal to the average number of credits for a Major in a related area, typically about 40 credits,
b) a balanced number of upper division (300-400) courses with lower division (100-200) courses,
c) courses appropriate to the proposed Major, and,
d) no more than one independent study in the Major per year.

The student-designed Major should be prepared for submission for approval to the Dean of the School of Arts, Sciences, and Business in the second semester of the sophomore year..

Transformational Leaders Program

Anne Ellen Henderson, Ph.D., *Coordinator*

The Transformational Leaders Program is offered to students in the Women's College. It embodies the University's commitment to the mission of its founders, the School Sisters of Notre Dame, to educate women to transform the world. The Transformational Leaders Program prepares students to be catalysts for positive social change. Through a combination of interdisciplinary coursework, internship and service learning experiences, international study opportunities, and professional development activities, students gain the expertise to become leaders who make change happen. Students in the Transformational Leaders Program earn a certificate in Leadership and Social Change. The Program can be combined with any Major, and is designed to complement a variety of Programs of Study.

Students begin the Transformational Leaders Program by completing a one-credit Emerging Leaders Lab, generally during their first year. This course builds students' project management skills and teamwork capabilities through service initiatives. The Program continues with IDS-200, Foundations of Leadership, which combines theoretical analysis of leadership with practical leadership-building experience. 2018-2019

Elizabeth Morrissy Honors Program

Jeana DelRosso, Ph.D., *Director*

Learn to Live

The Elizabeth Morrissy Honors Program is designed to meet the needs and interests of Women's College students of outstanding academic ability and high motivation. The goal is to provide opportunities for students to experience the same challenge and excitement in education that Elizabeth Morrissy encouraged throughout her distinguished 40-year career as a professor of History, Political Science and Economics at the Notre Dame.

Morrissy courses are designed to create small learning communities of scholars exploring a topic together and enjoying the pleasure of mutual discovery and intellectual stimulation. Some courses are offered within specific disciplines and may meet general education requirements. Other courses are interdisciplinary and become electives within the student's Program of Study. Drawn from a variety of departments, Morrissy courses promote the integration of knowledge which offers new insights into students' learning. This integration is often accomplished by two professors teaching together to provide perspectives from different disciplines and to enrich the experience of all. Through the Program's research, internship, service, leadership and collaborative opportunities, students are empowered to use their knowledge to improve the quality of their lives and the lives of others.

Students become Morrissy scholars by application or invitation. Students applying for admission to Notre Dame may apply for admission to the Morrissy Honors Program. The Morrissy Honors Council reviews the records of those applicants and of other incoming first-year students to prepare a cohort of potential scholars. In addition to selection at entrance, each semester the director of the Morrissy Program asks for recommendations from the faculty for other potential scholars to be considered for invitation into the Program.

Students must register for at least one honors course per year and take six honors courses during their four years at the University. Those who are enrolled in "3/2" programs with other institutions or who spend a semester or year studying overseas need to complete a minimum of 5 honors courses. Transfer students from an honors program may transfer nine honors credits. Transfer students with an AA degree from a community college without an honors program need to

complete a minimum of 4 honors courses. Three credits of honors work may be taken as an independent study with the approval of the sponsoring faculty member and the Morrissy director. Students are expected to maintain a 3.3 overall average and a B average in honors courses to remain in the Program. Honors courses cannot be taken on a pass/fail basis. The Director reviews the records of Morrissy scholars at the end of each semester.

Morrissy scholars receive recognition in various ways. Honors courses are so designated on student transcripts. Completion of the program is noted on scholars' final transcripts and diplomas and in the Commencement program. Students in the Morrissy Program are also recognized publicly at Notre Dame's annual Honors Convocation. Students in the Program enjoy the special benefits of the Mildred Otenasek Honors House, which stands as a symbol of the Program and serves as a gathering place for social, academic and program activities.

In addition to special courses, Morrissy scholars have access to a variety of honors activities. Each semester, the director hosts a dinner for Morrissy scholars and honors faculty. Each year, the Honors Program sponsors off-campus trips to museums and performing arts events. Morrissy scholars often serve the University during programs planned for prospective students visiting campus as well as at lecture series or cultural events offered for the Notre Dame community and the general public. Members of the Morrissy Honors Student Executive Board assist the Morrissy director in making plans for the program.

The Elizabeth Morrissy Honors Program maintains memberships in the National Collegiate Honors Council, the Northeast Regional Honors Council, and the Maryland Collegiate Honors Council. Morrissy scholars regularly participate in honors conferences through poster and paper presentations.

Honors Course Descriptions

ART-279 Honors: Concepts in Visual Aesthetics
Introduces new ideas and concepts stemming from a particular period and/or movement in society, becoming the "fireworks" that stir the artistic spirit to react to those ideas consciously, vibrantly, intuitively and with unique creativity. This class will use audio-visuals, readings and shared dialog to examine works of art and varied aesthetic concepts. It will address the artist as a gendered translator of history, as a visionary, and as a social documentarian within the context of significant periods in Western art. Prerequisite: Morrissy scholar or permission. Fulfills the general education requirement in fine arts. [3 credits]

BIO-108 Honors: Natural History
Examines the contributions made by natural historians over the past 200 years, including Charles Darwin, Konrad Lorenz and Stephen Jay Gould. Readings and discussions will focus on topics including mechanisms of evolution, the fossil record and animal domestication. Students will

consider how natural history has contributed extensively to theories of biological evolution. Prerequisite: Morrissy scholar or permission. [3 credits]

BIO-239 Honors: Genetics
Meets concurrently with and considers the same subject matter as BIO-239 (non-Honors). Honors students meet for one hour extra per week to concentrate on the historical and social aspects of genetics. Four hours lecture and three hours laboratory. Prerequisites: BIO-111 and CHM-110 with a minimum grade of C. [4 credits]

BIO-308 Honors: Geology and Ecology of the American West
Focuses on the basic concepts of plate tectonics and applies them to the geological events that shaped the American West. Focuses on the relationships between the plants and animals of the American West and their environment. Develops connections between the geology and ecology of the area. Integrates current ecological problems of the area such as water regulation, mining and logging. Lecture and laboratory are integrated into three two-hour sessions. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in natural science. Designed for non-science majors. [4 credits]

COM-329 Honors: Women in Mass Communication History
Engages students in an historical-critical study of the role of women in the communication fields of broadcasting, journalism, public relations and advertising. Surveys their contributions as practitioners and the challenges they have met as part of the professional media culture. Offers opportunities to meet women working in the media and to participate in an oral history project. Fulfills general education requirement in history and gender studies. [3 credits]

ECO-220 Honors: Economics and Contemporary Issues
Applies economic principles and methodologies to the decision-making process of individuals, businesses and governments. Evaluates current political, social and economic events using basic economic theories and principles. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

ECO-330 Honors: Food Safety Risk Analysis
Analyzes the extent and significance of food-borne diseases in the United States and around the world. Examines the most important hazards to food safety, including food additives and pesticides, microbial hazards, irradiation, and food defense as well as science-based solutions to their management. Considers the interdisciplinary risk analysis paradigm as a modern approach to food safety systems in considerable detail. Prerequisite: Morrissy scholar or permission. [3 credits]

ENG-251 Honors: Ethnic American Literature
Examines works by writers of different ethnic groups in 20th century America, with emphasis on

African-American, Asian-American, Jewish-American, Native-American and Latino/a writings. The course will provide interdisciplinary approaches to literature; readings will come from several literary genres, including novels, short stories and poetry, but students will also read theory and criticism relevant to recent work in ethnic studies. The course will teach students to read and write about literature, and it will introduce many of the important works of 20th century American minority literature. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature and cross-cultural studies. [3 credits]

ENG-313 Honors: Thomas Hardy: Novelist and Poet
Provides an in-depth study of English writer Thomas Hardy (1840-1928). Hardy is known as a Victorian novelist and a modern poet; his work thus crosses literary (generic) and historical boundaries. Students will read selected novels and poems as we trace Hardy's career and examine literary topics such as serial publication, the circulating library, and censorship, along with themes such as the Victorian "Woman Question," the part-real, part-invented land of Wessex, social class, law, and the "ache of modernism" in his later novels. Students will engage in primary (letters, notebooks, etc.) and secondary (critical) research as they explore these and other topics in two research projects during the semester. The course emphasizes the process of writing a research paper. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature. [3 credits]

ENG-324 Honors: The Irish "Troubles": Literature, History and Film
Examines, from a variety of perspectives, the Irish "Troubles," that is, the violent political conflicts between Irish and English in the early 20th century and between Catholics and Protestants in Northern Ireland in the late 20th century. Explores literary and cinematic treatments of the conflict and compares them with historical accounts in order to arrive at a better understanding of the "Troubles." Students will discuss the treatment of the "Troubles" in the plays of Sean O'Casey and Brian Friel, the poetry of W.B. Yeats and Seamus Heaney, the fiction of Frank O'Connor, Liam O'Flaherty, Eugene McCabe and others, and the memoir, *Guerilla Days in Ireland* by Tom Barry. Students will also view several films, including "Michael Collins" and "Bloody Sunday." Prerequisite: Morrissy scholar or permission. [3 credits]

ENG-347 Honors: “New Woman” Literature
This course will examine selections from the body of writing known as New Woman literature in England during the 1880s and 1890s, along with selected works from American and European writers. New Woman novels, essays, and plays address what was called "the Woman Question" and its primary issues, e.g., women's independence, the "nature" of women, women's roles and responsibilities, the effects of women's independence, sexual relations and gender differences. The course will follow the development of the New Woman character and will examine common conflicts and themes among the various representative works. Prerequisite: Morrissy scholar or permission. Fulfills General Education requirement in literature. [3 credits]

ENG-360 Honors: Geek Lit

Epithets such as geeks, dorks, nerds, and dweebs were once pejorative labels designed to stigmatize individuals. With the rise of the digital age, however, some people have self-selected identification in these categories, developing a distinctive subculture. But is there an identifiable geek literary culture? Is there a geek canon? We will consider themes of escapism, social alienation, intellectual superiority, conspicuous consumption, and the effect of technology on human nature in a series of texts often associated with the geek. Authors studied in this class may include J.K. Rowling, J.R.R. Tolkien, Neal Stephenson, Douglas Adams, Harlan Ellison, Neil Gaiman, and Allan Moore, among others. Our texts will extend into non-print media, including digital and Internet phenomena. We will be investigating these texts with the same scholarly rigor and intensity with which we would consider any body of literature. Thus, this course is suitable for geeks themselves as well as the geek-curious. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature. [3 credits]

ENG-440 Honors: Women and/as Monsters in Literature and Culture

Women's writings, as well as women writers themselves, have historically been viewed as "monstrous"; this course investigates the notion of monstrous women, as well as women writing about monsters, by examining both female- and male-authored, canonical and non-canonical texts, primarily but not exclusively from the past two centuries. We will investigate some of the following questions: What is the connection between women and monsters in literature? In what ways, and why, has women's writing been considered monstrous? How do issues of gender, race, class, ethnicity, nationality, disability, and sexual orientation affect the literary connection between women and monsters? Who is included in and excluded from a society, what makes one human, what is natural and unnatural, and what do particular monsters show about the societies and cultures that describe them, define them, fear them? Writers studied may include Charlotte Brontë, Octavia Butler, Angela Carter, Henry James, Toni Morrison, Marge Piercy, and Mary Wollstonecraft Shelley. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in literature and gender studies. [3 credits]

HIS-200 Honors: The Age of Genocide

Examines the nature, causes, and consequences of genocide in order to understand the possibilities and challenges of preventing genocidal violence in the future. The course introduces students to the controversies surrounding the definition and analysis of genocide. It begins with the contested question of what constitutes genocide, and how genocide stands apart from other forms of mass violence such as ethnic cleansing and massacres. The course then considers several approaches to theorizing the causes of genocide. In addition, we analyze the challenges of identifying potentially genocidal situations before the killing begins and of intervening to prevent and stop genocides. The course also studies processes of reconciliation in societies that have experienced, or teetered on the brink of, genocide. Using scholarly texts, works of fiction, and

films, we explore issues of causation, intervention, and healing in cases including the colonial genocides of indigenous populations, the Holocaust, Rwanda, Cambodia, Bosnia, Kosovo, the Iraqi Kurds, and Darfur. Ultimately, the course asks students to decide whether genocide is an inevitable scourge of the human condition or a tragic aberration that humanity has the power to transcend. Prerequisite: Morrissy scholar or permission. Fulfills General Education requirement in history. [3 credits]

HIS-231 Honors: Traditional Japan through Literature and Art
Introduces students to pre-modern Japan (ca. 600-1800 CE) by means of highly evocative literature in excellent English translations. Approaches these readings as reflections of successive historical eras, as literature of universal appeal, and as examples of the development of Japanese aesthetics. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-352 Honors: Educating Women in the United States
Examines women's education from the colonial period through the mid-20th century. Pays particular attention to the contributions of key educators and on the ways race, class, ethnicity and gender shaped decisions about who was to be educated, by whom, and for what purpose. Assesses contemporary issues in women's education. Prerequisite: Morrissy scholar or permission. Fulfills the general education requirements in history and gender studies. [3 credits]

HIS-370 Honors: The City in History
Considers the reality that, before 1800, most people everywhere lived in rural villages or small towns, in a world of long-familiar faces. More recently, many have lived in cities of more than one million in population in what one sociologist calls a "world of strangers." What difference does it make? How does society control individuals in a big city? How do individuals experience urban life? Social scientists have long debated these questions, and the course examines the major answers that they have proposed. It also considers the implications of those answers for the solution of today's city problems. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and cross-cultural studies. [3 credits]

HIS-373 Honors: The Exploding Society: United States, 1950 to the present
Explores the quantitative and qualitative explosion in the United States after 1950. Considers rapid demographic movement, economic growth, dramatic social change and expanded international responsibilities. Considers post-Watergate disillusionment. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in history. [3 credits]

HIS-402 Honors: Women, War and Peace
Examines the wartime experiences of women in Europe, the United States and Asia. Addresses question of how perceptions of women and "female nature" inform attitudes about women's wartime roles. Uses historical monographs, literature, art and film to examine and evaluate the

relationship between war and gende Also assesses women's role in the international peace movement. Prerequisite: Morrissy scholar or permission. Fulfills general education requirements in history and gender studies. [3 credits].

NDMU-100 Honors: First Year Seminar
Provides a comprehensive view of related topics defining the college experience. Explores through readings, films and discussion such topics as personal culture, educational culture, cultural diversity and lifelong learning. For first-year Women's College students and transfer students with fewer than twelve (12) credits. Prerequisite: Morrissy scholar or permission. Fulfills ENG-101 writing requirement. [3 credits]

IDS-172 Honors: The Axial Age: Philosophy of East and West
Considers the new ways of thought that emerged in the ancient Near East, Greece, India and China during the first millennium B.C. ("the axial age"). Thinkers reconsidered basic areas of concern—the transcendent, human nature, the family, society, government, knowledge, the past and death—in relation to the pre-existing culture. For example, this re-interpretation of tradition led to the rise of Biblical Judaism in the Near East; classical philosophy in Greece; the Upanishads and Buddhism in India; and Confucianism and Daoism in China. In this seminar, students discuss the thought of the "axial age," compare ideas across civilizations and learn how to write philosophical essays. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in lower-level philosophy. [3 credits]

IDS-231 Honors: The Science of Science Fiction
Considers science fiction as a literature of ideas—the ideas of modern science. Selects contemporary science fiction writers and film makers in order to gain a perspective on the development of a fiction of scientific ideas and a prophecy of future technological change. Employs reading, film and the campus planetarium. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-271 Honors: Romanticism: The Beautiful Infinite
Analyzes seminal works of the 19th century Romantic movement in the fields of art and music. The relatedness of the two forms is revealed through discovery of common themes running through works of the Romantic period—the emancipation of the individual, the love of nature, nationalism, and fondness for the fantastic and the exotic. Common qualities of expression found among the two art forms during the period also emerge, providing a holistic sense of the intellectual and artistic atmosphere of the times. Opportunities for visits to museums, concerts, and theatre or opera performances are provided. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in fine arts. [3 credits]

IDS-369 Honors: Genethics

Provides students with the opportunity to understand and evaluate various religious and philosophical positions and arguments on a range of contemporary moral issues related to biotechnology. Explores the science of genetics and its application to the fields of biology, technology and medicine. Examines selected topics in the ethics of genetic testing, research, drugs and therapy. Prerequisite: Morrissy scholar or permission and RST-201. Fulfills general education requirements for upper-level religious studies and values. [3 credits]

IDS-373 Cosmos and Creation: Religion and Science
Explores the relationship between religion and science as bodies of knowledge, modes of inquiry, and ways of knowing. Examines the complex history of science and religion as social institutions in various degrees of cooperation and tension. Areas of inquiry will include theology, spirituality, scientific theories, and philosophy of science, as well as the intersection of these areas at key historical moments such as the Copernican revolution, natural selection, and the development of quantum physics. Prerequisite: RST 201. Fulfills general education requirement for upper-level religious studies. [3 credits]

IDS-378 Honors: The Holocaust
Explores the roots of anti-Semitism and the rise to power of the Nazis. Considers the development of the German policies toward the Jews, from economic discrimination to planned extermination, the fate of Jews in various countries under German control, and the possibility of resistance and opportunities for rescue. Prerequisite: Morrissy scholar or permission. [3 credits]

IDS-471 Honors: Politics and Ethics of War and Peace
Explores war and peace through an examination of historical conflicts, social science explanations, ethical positions and alternative peace proposals. Considers 20th century conflicts and alternative explanations of war, and the individual, state and international levels. Compares and contrasts ethical positions from several religious and philosophical traditions. Prerequisite: Morrissy scholar or permission and RST-201. Fulfills general education requirements in upper-level religious studies, values, and history. [3 credits]

IDS-479 Honors: Philosophy through Literature
Takes a fresh look at traditional philosophical problems using classic philosophical texts and literary works that deal with common issues. Considers the questions: What is self? Is there an answer to the problem of evil? Are our actions free or determined? Are there any objective moral values? Is the material world real? Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in upper-level philosophy. [3 credits]

LCO-378 Honors: From Homer to *Star Wars*: The Epic Tradition in Western Literature
Traces the evolution of the epic as a literary genre transcending national and cultural boundaries. Epics from Homer and Virgil through the romance epics will be analyzed, culminating in a study of epic characteristics in Star Wars. Prerequisite: Morrissy scholar or permission. [3 credits]

MUS-243 Honors: A Musical Mosaic

Focuses on representative musical compositions and related works of art in Western and non-Western cultures. An exploration of the varied elements which, through individual creativity, hold parts (not always compatible) together to form the sound structure that becomes the mosaic that is music. Develops the aural sense of formal structure and the visual sense of sound. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in fine arts. [3 credits]

PHL-301 Honors: The Mind-Body Problem

Introduces students to the problematic nature of the statement "our minds control our bodies." Identifies the philosophical and psychological assumptions underlying this statement. Examines the contradictions and unrecognized implications of these assumptions. Explores alternative accounts of what is known, in philosophy and psychology, as mind-body interaction, including accounts that deny the existence of mind, and/or provides alternative models. Prerequisites: IDS-172 or PHL-201 and PSY-101. Fulfills general education requirement in philosophy. [3 credits]

PHL-376 Honors: Human Flourishing

Requires students to examine, in a seminar format, the representations of human flourishing presented in Ancient philosophy and literature. Ancient texts, such as Homer's *Odyssey*, Plato's dialogues, Aristotle's Nicomachean Ethics, and Greek tragedies present myriad understandings of the relationship between moral goodness, luck, and human flourishing. These topics will be studied with a focus on primary texts, hand in hand with contemporary philosophical writings on relevant themes. Prerequisite: Morrissy Scholar or permission and 200-level PHL course. Fulfills general education requirement in upper-level philosophy. [3 credits]

PHL-471 Honors: Morals and Mortality: Ethics of Exiting

Considers the structure and foundations of morality with special emphasis on ethical problems related to death and dying. Prerequisite: PHL-201, Morrissy scholar or permission. Fulfills general education requirement in upper-level philosophy and values. [3 credits]

PHY-101, 102 Honors: General Physics I, II

Studies the fundamental physical laws of nature and their use in understanding natural phenomena. Provides a knowledge base for study in all the sciences and applications in mathematics. Topics include mechanics, acoustics, optics, electricity and magnetism. Three lectures, one three-hour laboratory weekly. Pre-requisite: Morrissy scholar or permission. Fulfills general education requirement in natural science. [4 credits each semester]

POL-370 Honors: Model OAS

Prepares students to participate in the Model Organization of American States (Model OAS) competition, which takes place at OAS headquarters in Washington, D.C. in the spring. A team of 10 Notre Dame students, representing an assigned country, debates other colleges and

universities from the United States, Latin America and the Caribbean on issues such as democratization, regional integration, poverty, environmental problems and human rights issues. In addition to becoming familiar with hemispheric issues, students learn leadership, cooperation, persuasion and diplomatic skills. Prerequisite: Morrissy scholar and permission. Fulfills general education requirement in social science and cross-cultural studies. [3 credits]

PSY-371 Women and her Symbols
Explores symbols and symbolism related to women through interdisciplinary lenses of psychology, philosophy, literature, politics, sociology, religious and cultural traditions, and art. Students will critically examine, analyze, and discuss the use of symbols in understanding women from psychological and spiritual perspectives. The use of symbols will be explored through theories, scientific evidence, cultural and religious rituals, art, and literature. Students will complete an integrative project. Prerequisite: Morrissy Scholar or permission from instructor and Morrissy Program Director. Fulfills general education requirement in social science and cross-cultural studies. [3 credits]

RST-471 Honors: Theological Investigations
Engages students in the exploration of current scholarship about a person, event or topic of religious or theological significance. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement for upper-level religious studies. [3 credits]

PSY/SOC-271 Honors: Psychology and Sociology of Gender Roles
An analysis of the social sources and psychological mechanisms that shape gender role differentiation. Special attention will be given to the political, ideological behavior and social construction of gender Historical and cross-cultural data will be used to demonstrate patterns of inequality. The psychological and social impact of gender inequality will be examined. Prerequisite: Morrissy scholar or permission. Fulfills general education requirement in social science. [3 credits]

SOC-371 Honors: Social Problems
Considers how social conditions come to be defined as social problems. Reviews causes and theoretical explanations for their origins and possible interventions to resolve social problems. Topics include substance abuse, family violence, environmental issues, discrimination, crime and terrorism. Prerequisite: Morrissy scholar or permission. [3 credits]

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Student Designed Major

The purpose of the student-designed Major is to allow a limited number of Women's College students with specific academic goals, interests, and needs an opportunity to pursue an area of study that is not presently offered by the University.

A student proposing a student-designed Major should have a minimum cumulative GPA of 2.5. She must have at least two faculty advisors, one of whom is designated as the primary advisor. The proposed Major should include:

a) number of credits equal to the average number of credits for a Major in a related area, typically about 40 credits,

b) a balanced number of upper division (300-400) courses with lower division (100-200) courses,

c) courses appropriate to the proposed Major, and,

d) no more than one Independent Study in the Major per year.

The student-designed Major should be prepared for submission for approval to the Dean of the School of Arts, Sciences, and Business in the second semester of the sophomore year.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Student Records

All official academic records of all students, past and present, are housed in the Office of the University Registrar (Registrar's Office). Questions regarding a student's official academic record should be directed to the University Registrar.

The following are general policies regarding Student Academic Records (official) at Notre Dame of Maryland University.

Privacy Rights of Students
File Confidentiality and Availability
Additional Academic Files
Other Records
Release of Records
Background Checks
Court Requests
Placement Records
Records of Deceased Students
Directory Information
Consent Not Required
Concerns and Complaints
Photo Release

Privacy Rights of Students

Notre Dame of Maryland University complies with the provisions of the The Family Educational Rights and Privacy Act (FERPA), as amended, and associated regulations. FERPA establishes requirements regarding the privacy of student records and provides students with certain rights with respect to their education records.

These include:

- the right to inspect and review their records;
- the right to request an amendment of the student's education record they believe is inaccurate;

- the right to consent to disclosure of personally identifiable information (PII) contained in the student's record (except where FERPA authorizes disclosure without consent).

Students and others who want specific information regarding their rights of access to official academic educational records maintained in their names should contact the Registrar's Office.

One exception that permits disclosure without consent is for school/university officials with legitimate educational interests. See the Consent Not Required section for more information.

Students have the ability to provide an approval for others (parents, spouses, etc) to have access to educational and financial records by completing an Authorization to Release Student Information Form.

Back to top

File Confidentiality and Availability

The official academic records of all students, past and present, are housed in the Registrar's Office. The official transcript contains identifying information, a complete record of all coursework, transfer credits, academic status and any degree(s) or certificate(s) granted. The transcript is kept as a permanent record of the University. The student's academic folder, which is kept for matriculated students, includes the degree requirement checksheet, application for admission, high school transcript(s), standardized test score reports, and transcript(s) from college(s) attended. The admission application is also kept as a permanent record.

For non-matriculated students, only a permanent record of course work completed at NDMU is retained.

These files, including the permanent record, are available for student review upon request. Members of the faculty or administration also have access to these records if they have a legitimate interest in the material and demonstrate a need to know as approved by the University Registrar.

Back to top

Additional Academic Files

The College of Adult Undergraduate Studies (CAUS) office maintains advising files on each matriculated CAUS student. These files include a summary of the information provided on the student's application materials, copies of relevant registration-related forms, waiver forms and copies of correspondence to the student. These files are retained for use of the CAUS office only and are not official records or documents.

Academic advisors have access to the academic records of their advisees. They also maintain academic progress reports of their students. These files are retained for the advisor's use only and are not official records or documents.

Any additional academically related files held by individual members of the faculty and/or administration are for the use of the individual holder only.

Back to top

Other Records

The Director of Financial Aid maintains records on students applying for and receiving financial aid. Financial records of students who receive aid are maintained for a period of four years after graduation or withdrawal.

Health records of Women's College students are maintained for the use of health service personnel only. The student may request a professional of her choice (medical doctor, psychiatrist) examine their health records. Such a request will be honored by the University Health Service.

Back to top

Release of Records

Grade Reports

Semester grade reports are available through the student's personal WebAdvisor account at the end of each semester. The grade report is also available to the student's academic advisor. Grade reports cannot be released until all financial obligations have been met.

Transcripts

No transcript will be issued without written authorization from the student. No telephone, email, or third-person requests will be honored. Transcript requests should be made at least one week in advance of expected delivery. Transcripts will not be released until all financial obligations to the University are met.

When a student graduates from NDMU, a student copy of the transcript is typically sent to the student's home address. This transcript should be reviewed carefully and any questions directed to the Registrar's Office *within four weeks of the completion of the degree.* This does not include any grade appeals – that process is outlined in the grade appeals section of this Catalog.

Back to top

Background Checks

Government agencies conducting background checks on potential government employees are provided information upon presentation of a written release from the student. A copy of the release with the agent's name is retained in the student's file. Agents are given information from the file by a member of the Registrar's staff, but are not given access to the file itself.

Back to top

Court Requests

The University will honor court subpoenas for information from official files if the court has jurisdiction over the University. An attempt will be made to notify the student, at the last known address, of the court's and the University's actions. If the student so requests, copies of the subpoenaed information will be provided.

Back to top

Placement Records

The Academic and Career Enrichment Center assists students in the preparation of resumes and in the compilation of recommendations, which the student may have sent, upon written request, to prospective employers. NDMU does not operate a permanent, ongoing placement service for its graduates.

Back to top

Records of Deceased Students

The records of deceased students may be released to survivors under the following circumstances: The order of succession for requests is first for the surviving spouse, parent, executor of the estate and eldest surviving child; then the eldest surviving sibling and then any surviving descendent. The requestor must provide as much of the following information as possible: name of the student, social security number, date of attendance at Notre Dame, and a copy of the death certificate. The requestor must provide the following personal information: name, address, evidence of qualification to receive the records (see order of succession above), phone number, signature, and date of the request.

Back to top

Directory Information

PII (Personally Identifiable Information) is defined in the FERPA regulations as:

1. The student's name;
2. The name of the student's parent or other family members;
3. The address of the student or student's family;
4. A personal identifier, such as the student's social security number, student number, or biometric record;
5. Other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name;
6. Other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or
7. Information requested by a person who the educational agency or institution reasonably believes knows the identity of the student to whom the education record relates. (Authority: 20 U.S.C. 1232g)

FERPA permits the disclosure of PII from students' education records, without the consent of the student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations, including Directory Information. Directory Information may be released to the general public without prior written consent. Notre Dame considers the following to be Directory Information:

- Student's Name;
- Email Address;
- Photograph (when created by the University for the purposes of promotion or advertisement);
- Classification;
- Degrees and awards received;
- Major/minor/concentration/field of study/minors;
- Dates of attendance;
- Grade level (e.g. junior, senior);
- Degrees, honors, and awards received;
- Participation in officially recognized activities and /sports;
- Weight and height of members of athletic teams

Students must send a written request to the Registrar's Office in the first week of the semester to place a hold on the release of any of this Directory Information. The hold is valid for one semester.

Back to top

Consent Not Required

FERPA permits the disclosure of personally identifiable information, without student consent, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations to the following parties:

- School officials with legitimate educational interests;
- Other schools to which a student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the University;
- Accrediting agenciesorganizations;
- Parent of a dependent student as defined for IRS tax purposes;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies;
- Information the University has designated as “directory information”;
- Alleged victim of a crime
- Parent of a student under 21 regarding the violation of a law regarding alcohol or drug abuse

Back to top

Concerns or Complaints

Any member of the campus community who has reason to believe that NDMU is not complying with the requirements of FERPA should inform the NDMU Registrar in writing.

A student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202.

Photo Release

Notre Dame of Maryland University has the right to the use and reproduction of photographs

taken of students while they are enrolled, for present and future use in University publications and marketing efforts, without compensation to the student. A student who does not wish to have a photo used must submit a signed statement to the Registrar's Office before the first Friday of each semester.

NOTRE DAME OF MARYLAND UNIVERSITY

NDMU Catalog

2018-2019

Tuition and Fees for 2018-2019

As the costs of a quality private education continue to escalate, Notre Dame takes pride in maintaining a moderate level of student tuition and fees. The University has been able to hold increased expenses to modest amounts.

Women's College

Tuition	
Full-Time Tuition (24 - 32 Credits)	**$35,600.00***
Part-Time (1-11 credits per term) per credit hour	**$825.00**
Consolidated Fee	
Full-Time	**$1,300.00**
Registration And Technology Fee Per Term (Non-Refundable)	**$170.00**
Room and Board*	**$11,850.00**

**Includes Winterim, a four-week January term for concentrated study, independent study, internships, study abroad, practicums or research (Average Double; including laundry costs).*

NB: Credit and debit card payments will include a 2.5% processing fee.

Room damages are billed to the student's account at the end of each semester. Residence halls are closed during the Thanksgiving, Christmas and Easter breaks.

Tuition Adjustment Policy

Tuition adjustments are based upon the total tuition due for all courses in any given semester. They are made on a percentage basis dependent on the date that the written withdrawal request is received in the registrar's office. Tuition adjustment schedules, with the appropriate dates and percentages, are published in the course schedules at the beginning of each semester. Please note: Telephone messages, communications with faculty members or advisors and non-attendance at class are not valid methods of withdrawing from classes and do not obligate the University to refund all or part of the tuition. The fact that a student has not attended a class has no impact on tuition adjustment.

Non-payment of tuition without proper notification to the registrar's office of withdrawal from classes does not obligate the University to refund tuition payments or to credit a student's account for the tuition for that semester. If the University exercises its right to drop students for non-payment, students must re-register for the courses. Payment of the outstanding tuition does not constitute re-registration and does not ensure the student a seat in any class.

Requests for a tuition refund must be made in writing to the business office or indicated on the withdrawal form available in the registrar's office. Registration, admission application fee and late fees are non-refundable. A student who is receiving financial aid will be subject to the refund policy established by federal guidelines.

For more information, contact the Business Office at 410-532-5440.

College of Adult Undergraduate Studies (CAUS)

Per credit hour (Non-Nursing)	**$520.00**
Registration and Technology Fee per term (Non-Refundable)	**$170.00**
Late tuition payment fee	**$100.00**

Registration/technology fee must accompany all College of Adult Undergraduate Studies registrations. Tuition may be paid by check, Visa, MasterCard, American Express or Discover. Payment can be made in person, by phone or online through WebAdvisor. NB: Credit and debit card payments will include a 2.5% processing fee.

Students interested in financial aid, such as Federal Pell Grants and Federal Stafford Loans (subsidized or unsubsidized) must:

- be admitted as a matriculated student at Notre Dame of Maryland University,
- complete the Free Application for Federal Student Aid (FAFSA),
- register/enroll for at least 6 credits.

Tuition Adjustment Policy

Tuition adjustments are based upon the total tuition due for all courses in any given semester. They are made on a percentage basis dependent on the date that the written withdrawal request is received in the registrar's office. Tuition adjustment schedules, with the appropriate dates and percentages, are published in the course schedules at the beginning of each semester. Please note: Telephone messages, communications with faculty members or advisors and nonattendance at class are not valid methods of withdrawing from classes and do not obligate the University to refund all or part of the tuition. The fact that a student has not attended a class has no impact on tuition adjustment.

Nonpayment of tuition without proper notification to the registrar's office of withdrawal from classes does not obligate the University to refund tuition payments or to credit a student's account for the tuition for that semester. If the University exercises its right to drop students for nonpayment, students must re-register for the courses. Payment of the outstanding tuition does not constitute re-registration and does not ensure the student a seat in any class.

Requests for a tuition refund must be made in writing to the business office or indicated on the withdrawal form available in the registrar's office. Registration, admission application fee and late fees are nonrefundable. A student who is receiving financial aid will be subject to the refund policy established by federal guidelines.

For more information, contact the Business Office at 410-532-5440.

Graduate Studies (per credit hour unless otherwise indicated)

Application Fee	**none**
Re-admission/re-matriculation fee (returning students)	**none**
School of Education	
Master’s (per credit hour)	**$580.00**
CASE	**$720.00**
Ph.D.	**$720.00**
School of Arts and Sciences	**$585.00**
School of Arts and Sciences Art Therapy	**$670.00**

School of Nursing	**$670.00**
School of Pharmacy (Full-Time Tuition)	**$38,750.00**
Fees	
Student Fee (only Pharmacy students)	**$2,000.00**
Online Consortium Tuition Differential (per credit)	**$27.00**
Registration/Technology Fee per term for Graduate Studies	**$170.00**
Internship fee (M.A. in Teaching Program, in addition to tuition)	**$640.00**
Online Programs	
Bachelor's (RN to BSN)	**$360.00**
Bachelor's (Non-Nursing)	**$400.00**
Certificate	**$500.00**
Master's	**$550.00**
PhD	**$550.00**
Registration/Technology Fee	**$160.00**

Financial aid

Limited financial aid is available in the form of low-interest loans and veterans' benefits. Contact the Notre Dame Office of Financial Aid at 410-532-5369. Contact the Registrar’s Office at 410-532-5327 for questions regarding VA benefits. Employee tuition benefits may be available from your employer.

Tuition adjustment policy

Tuition adjustments are based upon the total tuition due for all courses in any given semester. They are made on a percentage basis dependent on the date that the written withdrawal request is received in the registrar's office. Tuition adjustment schedules, with the appropriate dates and percentages, are published in the course schedules at the beginning of each semester.

Note: Telephone messages, communications with faculty members or advisors, and non-attendance at class are not valid methods of withdrawing from classes and do not obligate the University to refund all or part of the tuition. The fact that a student has not attended a class has no impact on tuition adjustment.

The University reserves the right to drop from classes any student who has not satisfied all financial obligations by the time classes begin. Nonpayment of tuition without proper notification to the registrar's office of withdrawal from classes does not obligate the University to refund tuition payments or to credit a student's account for the tuition for that semester. If the University exercises its right to drop students for nonpayment, students must re-register for the courses. Payment of the outstanding tuition does not constitute re-registration and does not ensure the student a seat in any class.

Requests for a tuition refund must be made in writing to the business office or indicated on the withdrawal form available in the registrar's office. Registration, admission application fee and late fees are non-refundable. A student who is receiving financial aid will be subject to the refund policy established by federal guidelines.

Employer tuition remission payment plans

The Employer Tuition Remission Payment Plan enables students to register and partially defer tuition. At the time of registration all fees and 15 percent of total tuition is due. The balance of your tuition is payable 60 days after the last class of the semester. See the form for full details and requirements. A Verification of Employer Tuition Remission Eligibility form must be completed. For more information regarding the Employer Tuition Remission Payment Plan, call 410-532-5365.
